Sustainability Leadership Transfer to Southern Oregon University

Associate of Science Degree

Major Code: 240101Q

About the Program

The Associate of Science degree with a focus on Community Development for a Sustainable Future (Sustainability) has been developed with the cooperation and support of Southern Oregon University (SOU). The degree is fully articulated with SOU's Business program and allows students to transfer directly as juniors and to become admitted into the Business program at Southern Oregon University with no loss of credits to pursue a bachelor's degree and certificate in Sustainability Leadership. Students should note that Associate of Science is the only designation that is recorded on a transcript. This program offers an excellent balance of business, sustainability leadership, and general education courses that support advanced study in the field of business.

Students should contact the SOU School of Business early in the first year of their AS program to be advised about additional requirements and procedures for admission to the school or program. Students transferring to SOU will be required to complete BA100 and ES210 at SOU during their first quarter. For more information contact Dr. Joan McBee at SOU at 541-552-8151 or jmcbee@sou.edu. Students should be aware that if they transfer before completing this degree, their courses will be evaluated individually toward the general education requirements in effect at SOU.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take the college placement test to determine skill level and readiness indicated by test scores. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies. In order to ensure coursework is current, program courses over 10 years old must be reviewed and approved by the appropriate department chair before being accepted toward course requirements.

Graduation Requirements

Students must complete a minimum of 90 term credits of lower division collegiate courses with a minimum grade of "C" or better.
