RCC Discovery programs welcoming new students

The award-winning Discovery programs at Rogue Community College can help you return to the workplace or school.

Winter term advising and enrollment are under way for Bright Futures in Jackson County and Moving On in Josephine County. Classes start Jan. 9, and new students are being welcomed.

Classes include personal discovery, career options, orientation to college, and communication skills. These classes will help new students prepare for college life and offer tools for success.

Discovery Programs provide information, guidance, and support and have received national recognition. Financial help with childcare, transportation and tuition may be available.

For more information or to schedule an appointment, call Bright Futures in Medford at 245-7538, or Moving On in Grants Pass at 956-7323. Or visit one of the program's offices at an RCC campus. Information is also available online at http://www.roguecc.edu/
