RCC Job Fair will connect employers and students

More than 20 regional employers will participate April 14 in Rogue Community College’s 2005 Job Fair on the Redwood Campus in Grants Pass.

Scheduled from 11 a.m. to 2 p.m., the Job Fair is designed to provide students an opportunity to explore local career and job opportunities with community businesses. The new event also will offer employers a chance to introduce their business or organization to interested students. Businesses set to send representatives include Costco, Lithia Auto Centers, United Parcel Service, and Blue Cross/Blue Shield.

“We hope to provide an opportunity for our students to meet local employers and to explore career options in their fields of interest,” said Laurie Rydell, director of Student Employment Services. “We also wish to provide them with connections for part-time and/or summer work while they are attending classes and to interview for current job openings employers may have.”

April 5-7, the college is sponsoring a series of pre-fair workshops on job-seeking expertise such as writing resumes and cover letters and interview skills. Call 965-7501 for workshop information.

Redwood Campus is located at 3345 Redwood Highway, Grants Pass. For more information, contact Laurie Rydell, director of Student Employment Services and Workforce programs, 956-7125.
