CCB test questions will change in January

Individuals studying for the Construction Contractors Board exam should make arrangements now to take the test, according to the Rogue Community Small Business Development Center.

Current students who have completed the required 16 hours of contractor education, but who have not taken the exam for licensing, may have been using the 8th edition of the CCB manual to study. But after mid-January, test questions will be based on material in the 9th edition manual. Questions that can be found only in the 8th edition will be removed from the exam.

The test is given at the Prometric Testing Center, located in the RCC/SOU Higher Education Center, 101 S. Bartlett St., Medford. To schedule an exam, call 1-800-462-8669 or visit www.prometric.com/oregon.

For those who intend to take the test later, 9th edition manuals are available for $65 at the RCC Small Business Development Center, 214 SW 4th St., Grants Pass.

All RCC SBDC business-related courses meet elective requirements for contractor continuing education. For additional information call 541-956-7494, and for a complete SBDC schedule of classes, visit www.roguecc.edu/sbdc.
