Weather extends closure of RCC access road

Recent rainfall has delayed construction on the Willow Lane exit off Redwood Highway to Rogue Community College. The road is now scheduled to re-open Oct. 14.

The closure affects the left turn lane from southbound Redwood Highway (Hwy. 199) at Willow Lane to Demaray Drive. Drivers must use an alternate route, such as Hubbard Lane, which connects to Demaray.

Students and staff are advised to be prepared for delays. Watch for single lane traffic southbound and northbound on U.S. 199 between Dowell Road and Hubbard Lane.

The project involves building a low-level raised median between RCC and Dowell Road, constructing a multi-use path on the north side of the highway and installing a traffic signal at Hubbard Lane.
