Professional photographer to share advanced techniques

MEDFORD — Professional photographer Michael Davis will teach an advanced digital photography class for Rogue Community College starting in May.

“Digital Photography III: Advanced Digital Photography Techniques” will meet Mondays from 6 to 8:45 p.m. May 25 through June 8 in the RCC/SOU Higher Education Center, 101 S. Bartlett St., Medford. Tuition is $95.

Designed for those with a good working knowledge of digital SLR camera controls and operation, and basic computer skills, the Community Education class is designed for enjoyment and is not graded. The required textbook, “The Tao of Photography – Seeing Beyond Seeing,” is available at the RCC Bookstore for $24.99.

In addition to a digital SLR camera, students should bring a memory card, a laptop computer, and a camera memory card reader to class.

Owner of Michael D. Davis & Associates – Digital Photographic Specialists, Davis has taught photography workshops and classes for more than 10 years and brings a wide range of experience to the classroom, including work in wedding, portrait, fine art, commercial and event photography.

“In my advanced-level class, I guide the student on a journey of discovering how to use the digital camera as a tool for self expression,” Davis said. “Now that you know how to use a camera properly, it’s time to explore how to use it in a personal and meaningful way.”

Students who are unsure whether they’re ready for the class may contact Davis at michael.studio@gmail.com. For more information and to register, call 541-245-7616, or visit the “Art” category at www.roguecc.edu/CommunityEd.
