RCC Offers Individualized Career Training

GRANTS PASS—Students interested in hands-on career training are encouraged to attend an informational session on January 21, 2015.

The Occupational Skills Training Department (OST) at Rogue Community College (RCC) offers a wide variety of career opportunities not found elsewhere at the College. Through OST, staff may be able to design a training program related to a student’s unique interests and needs.

The first step in learning more about the program is to attend a monthly information session. These one-hour sessions are open to everyone. The schedule alternates between Jackson and Josephine counties. The next session is Wednesday, January 21, 1 to 2 p.m. at the Redwood Campus, 3345 Redwood Highway, Grants Pass, in Building Z-1.

The goal of each session is to help students decide whether or not OST is a viable educational path. Participants will learn how the program works and what coursework is required, and review the OST application process. Attendance is mandatory for all students applying for the program.

For more information contact Jennifer Burkes, 541-956-7027; or by email at jburkes@roguecc.edu.
