A student was signed up and contacted but never showed for any of the meetings.

- Using many materials and resources from inside and outside the group, a SWOT (Strengths, Weaknesses, Opportunities and Threats) were determined by the group for RCC.
- The SWOT was then used to determine issues that were then voted on by the whole Strategic Planning Team.
- A Team also reconstructed the vision, mission and values statements for the college.
- The team was assigned two issues which were then broken out into goals and objectives spanning 2008-2012.
- All of these works have been put forward to be joined with the others, and a Synthesis Team will continue to put cohesive language to our work collectively.
