

DEBRIEF

STRATEGIC PLANNING RETREAT #1

January 24, 2008, 2-5 p.m., Table Rock Campus

Thoughts on What Went Well	Suggestions To Improve
I know how much time & organization goes into such events and this was a great effort and timed really well.	We needed “learners” here today.
Impressed we came down to 6 issues.	Bigger dots would have been easier.
Stayed on task.	Create more space/places for everyone to talk.
Great to meet with all the other groups.	Would have liked to hear more about each team’s discussion.
Valuable comments from observers.	Could have synthesized individual ideas into richer ideas. Can we incorporate ideas back in that didn’t get selected?
	Would have liked to have seen the tie between each team’s SWOT to their decisions about issue selections.
	Maybe a longer retreat is needed to accommodate some of these suggestions.
