2017-2020 STRATEGIC PLAN

Pending Approval by the Rogue Community College Board of Education.

Mission

Rogue Community College provides quality learning opportunities for students to achieve their goals and supports the vitality of our communities.

Vision

Rogue Community College is a premier learning college that transforms, strengthens and inspires.

Values

Integrity requires us, as an institution and individuals, to be transparent, ethical and accountable.

Collaboration promotes an agile, responsive culture to address the aspirations and needs of our communities creatively.

Inclusion creates a compassionate and safe environment that views all individuals and ideas fairly.

Stewardship commits us to responsible and thoughtful guardianship of our human, economic, and cultural resources.

Courage frees the institution to find and pursue the best path in support of student learning and Rogue excellence.

Core Theme: Access to Educational Opportunities

Core Theme: Student Success

Core Theme: Collaborative Partnerships

Welcome to RCC

RCC is a regionally accredited, comprehensive, two-year public college serving Jackson and Josephine counties on three campuses:

1. Redwood Campus (Grants Pass).
2. Riverside Campus (Medford).
3. Table Rock Campus (White City).

Other learning sites include the Small Business Development Center and Esther Bristol Education Center, Illinois Valley Business Entrepreneurial and Illinois Valley Learning centers — all in Josephine County.

Authority and Governance

The College is one of 17 community colleges in the state, each independently governed by its own local Board of Education, and managed by the Department of Community

Colleges and Workforce Development (CCWD) under the Higher Education Coordinating Commission (HECC) for the state of Oregon.

CCWD is granted legal authority for approval of courses and curricula through Chapter 589, Division 6 of Oregon Administrative Rules adopted by the State Board of Education under Chapter 341 of Oregon Revised Statutes.

HECC and CCWD, in coordination with the State Board are responsible for distribution of state aid, review and approval of new programs and courses, and governance rules for Oregon community colleges.

In addition, the Oregon Community College Association serves as liaison between the colleges, state legislators, and partners on issues from funding to legislative policy, special studies, and reports.

Accreditation

www.roguecc.edu/Accreditation

RCC has been continuously affirmed for accreditation since 1971. It is accredited by the regional authority — Northwest Commission on Colleges and Universities (NWCCU). NWCCU is recognized by and accountable to the U.S. Department of Education. NWCCU establishes the standards and processes by which public and private colleges and universities in the region are evaluated every two years to ensure student learning through quality education and overall college effectiveness. Accreditation also qualifies RCC for federal grants and other funding, including financial aid for students enrolled at the College.

Americans with Disabilities Act

RCC does not discriminate on the basis of disability in admission to, access to, or operation of its instruction, programs, services or activities, or in its hiring and employment practices. The college provides reasonable accommodation to facilitate the participation of individuals with legally protected disabilities.

Budget

For information please visit www.roguecc.edu/Budget.

Campus crime awareness/security

The safety of students, faculty, staff, and guests is a top priority at RCC. Safety is a cooperative effort, and it is the responsibility of each individual to assure a safe campus. RCC prepares an annual security report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act. Institutions of higher education are required to distribute to all current students, employees, and applicants for enrollment or employment two types of information: descriptions of policies related to campus security and statistics concerning specific types of crimes. This information is disclosed in the annual security report published by October 1 each year. For more information regarding safety/security or in order to obtain a copy of the annual security report, contact Human Resources or visit www.roguecc.edu/Safety.

Closures

If inclement weather conditions or other hazardous or emergency conditions require closure of one or more campuses, announcements will be made over local radio and television stations starting at 6 a.m. for day classes and 4 p.m. for evening classes. Information is also sent out to students using the emergency notification system, and to students and the public through postings on www.roguecc.edu and RCC social media accounts.

Consumer information

All consumer information is available in hard copy at Rogue Central on any RCC campus.

Electronic communication

RCC primarily communicates with students via email. When applying for admission, provide a valid email address, and check regularly for messages from the college.

Foundation

www.RCCFoundation.org

H Building, Redwood Campus,
541-956-7327

The RCC Foundation is a private, non-profit organization that accepts tax-deductible gifts and bequests, sponsors fund-raising events, and makes funds available in support of students and the college.

Today, the RCC Foundation has more than \$7.4 million in assets and supports the college through scholarships and direct funding to programs.

Faculty and staff

www.roguecc.edu/Directory

RCC employs approximately 315 regular employees: 43 exempt staff, 96 full-time faculty, 165 full-time classified, and 17 part-time classified staff. In addition, the college employs more than 497 adjunct faculty.

Right to Learn

Rogue Community College (RCC)

Administration recognizes all people's Right to Learn. Our mission is to provide quality education for all segments of society through open access admission offering equal and fair treatment to all students who desire to learn, regardless of social position.

To achieve these ends, promote the physical safety and emotional well-being of RCC students, and keep our campuses secure and inviting to them and their families, Rogue Community College will do the following:

Pursuant to the Family Educational Rights and Privacy Act (FERPA) and relevant law, RCC staff shall not disclose personal information including but not limited to any RCC student immigration status. In addition, no RCC staff member shall ask about any student's immigration status or that of a student's family members.

In support of this, Rogue Community College will provide safe zones for students to communicate their concerns and access resources such as:

- Bilingual counselors/advisors with whom students share a common identity.
- Legal counsel.
- A means to report hate incidences.

RCC, under FERPA, approves what Directory Information is published and shall not release "non-directory" student record information unless legally compelled to do so.

RCC security personnel do not have the authority to, and therefore will not, enforce federal immigration laws.

RCC Administration has the authority and responsibility to control access to college property, owned, leased, rented or occupied for the purpose of RCC-related education, service or operations, and restricts the facilitation or consent to immigration code enforcement unless under court order or in the event of an imminent health or safety risk.

Students

In the 2015-16 school year, approximately 16,420 students enrolled at RCC. That number represents a full-time equivalent (FTE) of 4,558.89 students.

The RCC Catalog is a publication of Rogue Community College. Every effort is made to ensure accuracy at the time of printing; however, the information contained herein is not to be regarded as an irrevocable contract between a student and the college.

RCC reserves the right to change or cancel a class at any time and to alter stated policy of the RCC Board of Education.

The catalog is produced by the Marketing Department. For information, call Carmen Sumner, assistant director of Marketing, 541-956-7114.

Admissions and Registration

Get Ready to start college

1. Get admitted at www.roguecc.edu/admissions. You will begin receiving important emails from RCC.
2. Sign up for a placement test at www.roguecc.edu/PlacementTest or send official college transcripts to Rogue Central, 3345 Redwood Hwy., Grants Pass, OR 97527.
3. Apply for financial aid at www.fafsa.gov. RCC's school code is 010071.
4. Complete your New Student Orientation (NSO). Log in to your myRogue account, select New Student Orientation, and complete the NSO before you attend classes.
5. Explore the programs that RCC has to offer at www.roguecc.edu/academics.

Get Set to register

6. Attend an Advising and Registration Clinic to learn how to prepare, plan, and register for your courses. View the schedule and sign up at: web.roguecc.edu/counseling/advising-registration-clinics.
7. Log in at www.roguecc.edu/myRogue. Register for the classes on your "program planner."
8. Pay tuition and fees online or check your financial aid status at www.roguecc.edu/myRogue.
9. Buy textbooks and supplies at any RCC bookstore or www.roguecc.edu/Bookstore.
10. Get your RCC Student Body card from Student Services. You'll need to show a photo ID.

Go to class

11. Need a campus map? Visit www.roguecc.edu/Maps.
12. Students who do not attend classes during the first week of the term will be dropped unless the absence has been approved by the instructor.

NOTES:

- Students with a disability may request placement test or academic accommodations by calling 541-245-7537 at the Riverside Campus in Medford or 541-956-7337 at the Redwood Campus in Grants Pass.
- If you want to take a class for personal enrichment, but not for credit, visit www.roguecc.edu/CommunityEd.

Need help? Contact Student Services —

Redwood Campus, 3345 Redwood Hwy., Grants Pass • 541-956-7192

Riverside Campus, 117 S. Central Avenue, Medford • 541-245-7552

Table Rock Campus, 7800 Pacific Ave., White City • 541-245-7863

Check your email often

RCC communicates with students primarily by email.

When applying for admission, provide a valid private email address, and check regularly for messages from the college.

Admission policy

All adults 18 years and older may be admitted to RCC. For enrollment under age 18, see page 8 "Underage Enrollment."

Questions may be directed to the admission coaches at recruitment@roguecc.edu.

Enrollment limitations

The college may restrict enrollment in a class or program due to limited space, staff or equipment. Enrollment also is limited for some programs or classes due to special admission requirements such as minimum age, safety issues, or criminal background.

Limited entry programs

Apprenticeship, Dental Assistant, Emergency Medical Services, Human Services, Massage Therapy, Medical Administrative Assistant, Medical Assistant, Medical Coding Specialist, Nursing, Paramedicine, Pharmacy Technician, Phlebotomy, Practical Nursing, and Sterile Processing Technician have their own applications and admissions requirements. Enrollment is limited and admission is not guaranteed. See the "Programs of Study" section of this catalog for specific requirements and contact information.

NOTE: Some health care programs require students to submit verification of certain immunizations and medical tests.

International admission

RCC is authorized under federal law to enroll non-immigrant students. International admission applications are available online: www.roguecc.edu/Students/start.asp.

- All applicants must be proficient in the English language with a score of 490 or greater on the Test of English as a Foreign Language (TOEFL), or ELS proficiency level 109, or equivalent.
- International students are required to take a placement test and attend orientation.
- Students must be enrolled full-time (12 or more credits) and successfully complete 12 or more credits each term to remain in good standing with the U.S. Bureau of Immigration and Customs Enforcement.

Students will be notified of their admission status by mail after all of the application materials are received and verified. For more information about the international student admission process, contact the admission coaches at recruitment@roguecc.edu.

Underage enrollment standards for credit classes

Prospective students under 18 years of age who have not graduated from high school or completed a GED® must submit an Underage Enrollment Form and complete a placement test. Test scores must meet the minimum placement levels for a students' major program, which usually means testing above RD90 and WR90. Underage prospective students must provide verification of home schooling or GED completion if not enrolled in public or private high school.

Underage students may be approved for enrollment in credit classes when:

- Participation is not likely to create a health or safety risk for any person.
- Enrollment is not in violation of federal or state statutes or regulations.
- The student has the ability to benefit from college-level instruction.
- The student's level of development is deemed appropriate for the course content and instructional strategies.

The college reserves the right to approve or deny the request for enrollment by underaged students. Classes that consist primarily of extensive field experiences may have additional requirements.

Advising and Registration clinics

These one-hour clinics provide newer students with the opportunity to learn how to prepare, plan and register for next term's courses and to continue these practices throughout the college experience.

In a group setting of up to 18, students learn the ins and outs of self-advising and registration and get answers from fellow students as well as professional advisers.

For more information, and to register for a clinic, contact the Counseling/Advising Department at:

- RVC in Medford: 541-245-7552.
- RWC in Grants Pass: 541-956-7192.

Assessment services

Placement testing

www.roguecc.edu/PlacementTest

Placement tests enable students and their advisers to assess students' academic readiness. The scores help advisers ensure students take classes appropriate to their academic skill levels. Students take an untimed, user-friendly computerized test.

Students who plan to enroll in any course with a prerequisite or intend to pursue a degree or certificate must take a placement test. The following classes have no prerequisites and do not require a placement test:

- ART115 Basic Design (Composition)
- ART116 Basic Design (Color Theory)
- ART131 Introduction to Drawing (Value)
- ART132 Introduction to Drawing (Line)
- ART133 Introduction to Drawing (Mixed Media)
- ART222 Graphic Design (Typography)
- ART234 Figure Drawing I
- ART237 Illustration (Black and White Media)
- ART238 Illustration (Color Media)
- ART239 Illustration (Perspective)
- ART253 Ceramics I
- ART257 Beg. Jewelry and Metalsmithing
- ART276 Sculpture I
- ART281 Painting I
- ART287 Aqueous Media
- ART294 Watercolor I
- CS60 PC Basics (Introductory computer class)
- HE112 First Aid
- HE261 CPR/Basic Life Support Provider
- MUS131 Class Piano I
- MUS135 Beginning Hand Drums
- MUS137 Group Guitar – Beginning
- PE185 Physical Education (activity course)
- TA141 Fundamentals of Acting
- TA144 Improvisational Theater

NOTE: Students receiving financial aid are limited to taking the required and elective courses in the graduation guide for their declared major.

A placement test may be waived based on any one of the following conditions:

- An official transcript in a sealed institutional envelope with successfully completed college-level reading and math classes.
- Placement test results from another college.
- High School cumulative GPA, senior English course grade and highest high school math course and grade.
- An ACT transcript.
- An SAT transcript.

For more information about placement test waivers, contact the admission coaches at recruitment@roguecc.edu.

To request a placement test with accommoda-

tions due to a disability, contact Disability Services:

- Redwood Campus, 541-956-7337, or Oregon Telecom Relay Service, 711.
- Riverside Campus, 541-245-7537, or Oregon Telecom Relay Service, 711.

Transfer credit

RCC accepts 100-level and above lower-division collegiate courses from regionally accredited colleges when they meet the following transfer credit acceptance criteria:

- Are graded C- or better.
- Apply to an RCC program.
- Have credit/contact hours, curriculum and outcomes that are equivalent to courses offered at RCC, are graded on a similar basis and taught by qualified professionals.
- Meet the above criteria or are otherwise deemed appropriate substitutions for RCC courses.

Transfer credit evaluation

Evaluation of transfer credit may take up to six weeks, so it is important to apply early.

- Get admitted to RCC.
- Order official transcripts from all previous colleges.
- Declare a major at RCC.
- Provide course descriptions for any course taken more than 10 years ago that will be considered toward the evaluation.
- For evaluation of military credit, order an official military transcript.
- See "Credits earned through other programs" on page 13.

New student orientation

New Student Orientation (NSO) is designed to prepare students to be successful at Rogue Community College and guide them through the registration process for the first term of college. Students have access to a variety of support services designed to ease the transition into the college environment.

The online NSO is required for every new student. It takes approximately 15 minutes to complete and can be done at an individualized pace. Log in to myRogue, then select "New Student Orientation."

Freshman Experience

For students new to the college experience and are first-year freshmen, and/or have not yet decided on a major, there is a combination of classes designed to help get started successfully in an academic career. By the end of this series they will understand what educational goals are and the skills required to complete

them. Each of the following courses will count toward general education and/or elective requirements:

- Appropriate math course each term
- Appropriate writing course each term
- CG100 College Success and Survival
- RD120 Critical Reading and Thinking
- CG140, CG150 or CG155 Career Development Course
- SP115 Introduction to Intercultural Communication
- CS120 Concepts in Computing I
- PSY101 Psychology of Human Relations

See an advisor for details.

Registration

See the online registration schedule for priority registration times and additional information about registration options. Questions about the registration process can be answered by Rogue Central, RCS@rogucecc.edu.

Credit students register using the online registration system at www.rogucecc.edu/myRogue.

Students should register carefully as they are liable for tuition/fees for any registered courses. Students must drop their registration online, or in person at Rogue Central if they do not plan to attend. Only those who have paid in full are eligible for priority registration.

For special registration arrangements due to a disability, contact Disability Services:

- Redwood Campus, 541-956-7337, or Oregon Telecom Relay Service, 711.
- Riverside Campus, 541-245-7537, or Oregon Telecom Relay Service, 711.

myRogue

myRogue has many helpful tools including account history, course schedule, a link to report cards, and a link to online registration and Degree Audit. Students also receive important information via email from myRogueTeam@rogucecc.edu.

Logging onto myRogue

1. Visit the RCC home page at www.rogucecc.edu.
2. Select myRogue.
3. Log in with username and password created when completing the online admissions application.
4. To reset username or password, click the "Forgot Your Password?" link, and follow the directions.

Credit class refund and withdraw deadlines

| Class length | Last day for a refund, 100% refund, nothing on transcript | Last day to withdraw, no refund, W grade on transcript |
|-----------------------------|---|--|
| Regular term length classes | Wednesday of week two | Friday of week 10; summer term on Thursday of week seven |
| One-day classes | One day prior to class meeting | First day of class |
| One week classes | The day of the first class meeting | The day of the last class meeting |
| Two-week classes or longer* | The day of the first class meeting | One day before last class meeting |

5. For other issues contact Rogue Central at RCS@rogucecc.edu.

Accessing your program planner

After completing a placement test, students' first-term reading, writing and math courses will be listed on their program planners. Each time students meet with an adviser, the planner will be updated with classes discussed for future terms.

1. Visit www.rogucecc.edu.
2. Select myRogue.
3. Enter student ID or username and password.
4. From the Student Resources menu, select "Program Planner." This will show if you have approval to register (e.g., "You have an adviser's approval to register for classes through fall 2017.") The program planner contains a list of classes an adviser recommends or a program requires.
5. If there is no approval to register, see an adviser using the following guidelines:
 - a. Students who have completed Writing 115 and Math 60 should see the adviser specializing in their major.
 - b. Students who have not completed these courses should see an adviser in the Counseling/Advising Department.

Change of registration

Schedule changes may be made at www.rogucecc.edu/myRogue.

Adding a class

Classes may be added by registering online during registration periods through the first week of the term; instructor's permission is required thereafter. Use the instructor permission code on the student resources page for registration in closed or waitlisted classes. Sharing the permission code with another student or registration with a code not provided to the student directly by a faculty member will result in an automatic drop from the class and possible disciplinary action.

NOTE: This deadline does not apply to Continuing Education or other classes that may begin at irregular times during the term.

Administrative drop

For term-length credit classes, students must attend each first-class session during the first week of the term, or they may be administratively dropped from the class by the instructor.

NOTE: Administrative drop only applies to classes that students have registered for prior to the first day of the term.

Students unable to attend the class during the first-class session should contact the instructor prior to the class meeting if they wish to avoid being administratively dropped from that class. Contact information for instructors is online at

www.rogucecc.edu/Search/PhoneNumbers.

A tuition refund will be applied to the accounts of students who have been administratively dropped from class(es).

NOTE: This procedure does not relieve students of the responsibility to drop classes. Students need to officially drop or withdraw from classes that begin at irregular intervals.

Official Drop or Withdrawal from classes

- Students may drop from a term-length class through Wednesday of the second week of each term until 11:59 p.m. Tuition is refunded in full (and financial aid adjusted if necessary) when a student drops a class. There is no notation of the dropped class on the student's grade report or transcript.
- Students may withdraw from classes until the Friday of the eighth week of the term (Thursday of fifth week in summer term). There is no refund when a student withdraws from a course. A grade of "W" is assigned for a withdrawn class; the "W" grade appears on a grade report and on a transcript.

NOTE: Students may drop or withdraw using internet registration. The official withdraw date is the day a student withdraws online. For answers to questions or other help, visit Rogue Central on any RCC campus or email RCS@rogucecc.edu. Students who stop attending a class but do not offi-

cially drop or withdraw will receive a grade for the course that will become a permanent entry on their academic records.

Unofficial Drop or Withdrawal from classes

Students who stop attending but do not officially drop or withdraw receive the grade that they earned based on syllabus requirements. If that grade is F, NP, or Z, the instructor must enter the last date of attendance on the online grade roster which becomes the official withdrawal date.

Cancellation of classes

The college reserves the right to cancel any class due to extenuating circumstances such as low enrollment. Students will receive a full refund for canceled classes. Because changes do occur, students should verify their class schedules, before the term begins, at www.roguecc.edu/myRogue.

Tuition and fees

The Rogue Community College Board of Education establishes tuition and fees. Current tuition and fee rates are posted at www.roguecc.edu/tuition.

Tuition is based on a per credit rate and determination of residency. (See "Residency policy.") Tuition rates, fees and refunds are subject to change; current information is published in the digital publication, "RCC Guide to Getting Started," each term. Tuition and fees for auditing a course is the same as normal tuition.

Following are the tuition rates and fees for 2017-18:

- Oregon residents – \$104 per credit hour.
- Out-of-state residents – \$127 per credit hour.
- International students – \$348 per credit hour.
- Technology fee – \$5 per credit/\$5 per non-credit class.
- College services fee – \$20 for 0 credits, \$60 for 1-5 credits, \$100 for 6-11 credits, \$140 for 12 or more credits.
- Distance learning fee – \$10 per credit per class up to 4 credits.
- GED instruction – \$65 per term.
- GED test fee – \$155.
- Non-credit classes – tuition varies by class or workshop and is published each term. A \$5 technology fee and a \$20 college services fee may be assessed in addition to the workshop or class fee.
- Late registration: maximum of \$45.

- Late payment fee – 5 percent of tuition or \$5 whichever is higher.
- Installment fee – \$25.
- Returned check fee – \$25.

Residency

Tuition

A student's residence determines the tuition he or she will pay for classes. The college has three tuition schedules: in-state, out-of-state, and international. Documentation may be required to establish residency. Items that may be considered valid proof of residency include an Oregon driver's license, property tax bill, or utility bills (dated 90 days prior to the first day of the term). Students who cannot provide any one of the appropriate documents will be charged tuition as determined by the director of Enrollment Services.

In-state

A student may register as an in-state student if one of the following requirements is met:

- Has maintained a permanent address in Oregon for at least 90 continuous days prior to the first day of the school term.
- Is a permanent resident of Oregon but currently is stationed for military duty outside of Oregon.
- Was honorably discharged or separated from active duty with the military service within the past three years. (See page 29 for details.)
- Is a resident of Oregon who left the state for summer employment.
- Is a resident of California, Idaho, Nevada or Washington.

Out-of-state

Students who list their permanent addresses outside of Oregon must pay out-of-state tuition. This includes:

- Students who list their parents' address as outside Oregon and who are claimed as dependents by their parents on their income tax report.
- Alaska residents who wish to receive the Alaska Permanent Fund Dividend while attending RCC and must maintain their out-of-state residency status.
- Non-citizens on a visitor's visa.

International

Students who are citizens of another country and are attending RCC on a student visa will pay the international tuition rate.

Payment deadlines

Payment dates are indicated online at www.roguecc.edu/calendar/academics each

term. All tuition and fees must be paid in full by Friday of the second week of the term (Thursday in summer term) or an installment plan must be in place. Students whose tuition is paid by an agency need a voucher or purchase order on file before the payment deadline.

There is no automatic drop for non-payment for current term charges (see "Consequences of non-payment"). Students will be responsible for all tuition charges unless classes are dropped by the student by the second Wednesday of the term for term-length classes.

Payment methods

- Cash – U.S. funds only.
- Checks – Personal checks, travelers checks, cashiers checks and money orders are accepted for the amount of purchase only. Please make checks payable to RCC. Print the student's name clearly on the face of the check. A \$25 charge is assessed on any returned check.
- Credit Card (VISA, MasterCard, Discover and American Express) – payment is available online at www.roguecc.edu/myRogue. RCC student ID and password are required.
- Agency or company payments – Arrangements for payment by an agency or company must be pre-approved by the college. Students must take all payment vouchers or purchase orders for tuition, fees, books, and supplies to Rogue Central. Students are responsible for ensuring that a payment voucher or purchase order is on file by the payment-due date. If payment is not received from the agency, the student is responsible for the full amount.

Cashiers (Rogue Central)

Payments may be made at the following Rogue Central locations:

- Student Services Building, Redwood Campus, Grants Pass.
- G Building, Riverside Campus, Medford.
- Room 187, Table Rock Campus, White City (near the west entrance).

Hours generally are 8 a.m. to 5 p.m. Monday through Friday, or Monday through Thursday in summer term.

Payment drop boxes are also available on the first floor of G Building in the Student Lounge, Riverside Campus, outside the Student Services Building, Redwood Campus,

and outside Rogue Central, Table Rock Campus.

For online payments go to www.roguecc.edu/account.

Student installment plan

www.roguecc.edu/Installment

Students who have no delinquent accounts with RCC and have not defaulted on any previous payments at the college may defer payment of tuition and fees through the use of the student installment plan.

Students qualify if they have an account balance of more than \$75 for credit courses or are enrolled in a short-term skills training course with tuition of \$180 or more, provide a valid Social Security number, and have a satisfactory credit history with RCC.

Students who use the installment plan must pay \$50 of the current term's charges and a \$25 non-refundable administrative fee by the payment deadline, listed at www.roguecc.edu/Calendar/academic.

The balance is payable in the next two months in equal installments. The installment plan may be started after the payment deadline, but the two equal installments will be due by the regular tuition installment deadlines, and late fees will be assigned (see consequences of non-payment).

Students have until the payment deadline to make payment arrangements before additional fees apply.

Students who have entered into an install-

ment plan and withdraw after the 100 percent refund period or unofficially withdraw are responsible for the balance. Although accounts may not be delinquent when priority registration begins, only those who have paid in full may register for a future term.

Installment plan applications are available at www.roguecc.edu/myRogue.

Request more information via email: RCS@roguecc.edu.

Consequences of non-payment

When students register for a class, they are liable for payment of the charges for that class. To remove charges, students must go online to drop the class by the refund deadline. Students are responsible for full payment of all charges by the payment due date even if the account is paid by another party or through financial aid.

Failure to pay in full or enter into a installment plan by the payment due date may result in the following fees:

- Penalty for non-payment fee – 5 percent of past-due balance; minimum of \$5.
- Late registration – After initial registration and payment deadline, \$15 plus 5 percent of tuition; after second installment deadline, \$30 plus 5 percent of tuition; after last installment deadline, \$45 plus 5 percent of tuition.

Student accounts with a balance at the end of the term will be sent to a collection agency.

Students will be responsible for all collections costs and fees. Collection agencies will pursue all means of collecting the amount due including but not limited to the garnishment of wages, tax refunds or litigation.

RCC also may impose penalties on delinquent accounts. Registration may be denied or canceled, and the extension of credit, provision of services, grade reports, official transcripts, and diplomas may be withheld until such time that the indebtedness is paid in full.

Refunds

If the college cancels a class, students are entitled to a refund of tuition and fees. Financial aid is adjusted to the decreased enrollment level.

Tuition refunds are based on the date that students drop online rather than the last day class was attended. A "withdrawal" occurs when a class is not dropped within the refund deadlines as specified above. No refunds are issued for withdrawals.

Students who think they have documented circumstances (such as hospitalization or a death in the family) that might warrant an exception to this policy may submit a Student Account Petition to Rogue Central, available at www.roguecc.edu/Enrollment/forms.

See the RCC Continuing Education website for refund policies on non-credit courses: www.roguecc.edu/ContinuingEducation.

Registration Steps

Update "Personal Information" on myRogue

Email is the official RCC mode of communication. It is your responsibility to keep your contact information current and is essential to your success as a student.

Check your Financial Aid Status on myRogue

We recommend all RCC students apply for financial aid. To apply, you must first complete the FAFSA (<https://fafsa.gov/>). You may check your financial aid status in myRogue. The FAFSA application is available in October for the next academic year.

- Check to see if RCC has received your FAFSA.
- Confirm what you need to do to complete your application – check message board.
- See what amount of money you have been awarded.

Register for Courses

1. Review your Placement Test Scores and graduation guide for required and recommended courses. Refer to RCC College Catalog, Program Planner, Degree Audit, and the RCC website.

2. Select a term.
3. If you plan to take classes on only one campus, select your preferred campus.
4. Check day, time, place (RWC=Grants Pass, RVC=Medford, TRC=White City) as you plan out your schedule.
5. You may search with the course number that is listed on your Program Planner.
6. Click on "Course" to get a description of the class and prerequisites for each course.
7. "Add" this class to your shopping cart if you want to register for the course.
8. Continue shopping and repeat steps 2-7 until you have registered for all your classes.
9. "Advance to Check Out," make sure to complete all steps so you are registered for your courses.
10. Read and agree to the Tuition Payment Policies.
11. Read, understand and agree to the Student Code of Conduct.
12. Finish and View Payment Options.
13. Select payment option.
14. Review "Printable Student Schedule" with book requirements and print to confirm you have registered successfully.

Academic Information

Academic standing

www.roguecc.edu/Enrollment/SASP

Academic difficulty results when a student is not making satisfactory progress toward his or her goals. A student whose term and/or cumulative grade point average is below 2.0, and/or who does not successfully pass 50 percent of attempted credits will be placed first on academic warning and second on academic probation, and eventually will be academically suspended if academic difficulty continues.

NOTE: For the complete Satisfactory Academic Progress Policy, see the Policies section of this catalog.

Choosing a major

RCC advisors are available to help undecided students identify a major that will support their academic and career goals.

For the initial declaration of major, please consider the following:

Certificate programs and Associate of Applied Science (AAS) degrees prepare students for specific careers and do not include general education requirements for transfer to a four-year college or university.

Students who plan to transfer to a four-year college or university in Oregon, but are undecided about a specific major or focus, should declare the Associate of Arts Oregon Transfer degree (AAOT).

An Associate of Science (AS) degree has articulated agreements that allow students to transfer to SOU or OT in junior standing in various majors.

A student pursuing a certificate or degree that is "limited entry," including Dental Assistant, EMS/Paramedicine, Human Services, Massage Therapy, Medical Administrative Assistant, Medical Assistant, Medical Coding Specialist, Nursing, Pharmacy Technician, Phlebotomy, Practical Nursing, and Sterile Processing Technician should list Associate of General Studies (AGS) as the first major before being admitted to the program, and the limited entry program as the second major. An AGS degree may also be customized to be the first two years of a four-year degree and allows elective credits to be targeted toward the intended bachelor's degree.

Academic department faculty advisors can help students identify career goals within their declared majors and can provide information on local vocational trends in their fields.

Example student transcript

| Course | Credit hours | Grade | Grade points |
|---|--------------|------------|------------------------------|
| Biology and lab | 4 | A | 16 |
| Figure drawing | 3 | C | 6 |
| Mathematics | 3 | F | 0 |
| 10 total credit hours attempted | | | 22 total grade points |
| To calculate GPA, the total grade points are divided by the total credit hours attempted. | | | |
| Total grade points | | divided by | $\frac{22}{10} = 2.20$ |
| Total credit hours attempted | | | |

At registration each term, students are required to verify that the major(s) in their academic record accurately represents the degree or certificate they are pursuing.

Course grading

Program courses

The quality of student work in most core program courses is measured by a system of grades consisting of five letter grades which are used in calculating grade point average. Instructors may assign a plus or minus to grades A, B, C or D. Plus and minus do not calculate into a student's grade point average.

| | | |
|----------|-----------------|----------|
| A | (Superior) | 4 points |
| B | (Above average) | 3 points |
| C | (Average) | 2 points |
| D | (Below average) | 1 point |
| F | (No credit) | 0 points |

NOTE: A "D" or "F" grade will not satisfy prerequisite or program requirements.

Academic success courses

Pass ("P") or No Pass ("NP") are used for most academic success classes. A "P" grade indicates the student has earned a "C" or better.

Generally "P" and "NP" grades may not be used for individual students in core program courses, nor are "A" through "F" grades used for students in academic success classes. An NP grade does not satisfy pre-requisites.

Grade point average calculation

Your grade point average (GPA) is calculated by dividing the total amount of grade points earned by the total amount of credit hours attempted. Your grade point average may range from 0.0 to 4.0.

For example:

A = 4 grade points

B = 3 grade points

C = 2 grade points

D = 1 grade point

F = 0 grade points

Pass/No Pass (P/NP) courses are not factored in the student's GPA. Z (no basis for grade), I (Incomplete), R (Repeat), Y (grade pending), AU (Audit), and W (Withdrawals) do not receive grade points.

Other grades

- Audit (AU) is an enrollment status which allows students to take classes but not receive credit or a grade. Students who choose this option should do so when registering. Students receiving financial aid should consult with Rogue Central. (Financial aid will not pay for audits.)
- Pending (Y) is used to indicate a grade has not been input by an instructor.
- Incomplete (I) may be assigned when a student has successfully completed at least 75 percent of the coursework and a prolonged excusable absence causes inability to finish the course by the end of the term. Faculty are not required to grant an I grade. Students are required to complete the coursework within one term in term length classes. Otherwise, the grade is automatically changed to an F or the assigned grade as noted on the incomplete form.
- Withdrawal (W) is assigned when a student officially withdraws from a class after the second Wednesday of the term, or for classes with irregular meeting dates after completing one third of the course. Students may withdraw any time until Friday of the eighth week. Grades of W are not included in GPA calculations.

- Z indicates no basis for grade (e.g., student does not attend beyond the first third of the scheduled class meetings). A Z grade is not intended as an alternative to an F or NP grade.

If a student attends beyond the first third of the scheduled class meetings a grade for the class other than Z must be assigned.

Last date of attendance

Faculty are required to report a last date of attendance when they submit a non-passing grade. Non-passing grades are F, NP and Z. The last date of attendance is determined in this manner:

Seat Class: last date of in-person attendance.

Online Class: last date that a student submitted an assignment or test.

Repeating a course

Students may request that a previous lower grade (defined by grade points) or grades for a course repeated at RCC be excluded from their (GPA) calculation. All courses taken will remain on the student's transcript, along with the original grade or grades but the original grade or grades will not be included in the grade point average (GPA) calculation. This applies only to grades that are included in GPA calculations, not W, Z, Y, NP, P, I or AU grades. Repeating a previously passed course is aid-eligible only once. Notify Rogue Central before enrolling in a course passed twice so that aid can be adjusted prior to payment. Request forms to exclude previous grades are available at www.roguecc.edu/Enrollment/forms.

Course numbering

- Personal Enrichment. Courses with numbers below 1.000 (e.g., .601 and .616.3) are considered to be personal enrichment courses and are not intended for program completion or transfer. (Not financial-aid eligible.)
- Academic Success. Courses with letters (e.g. CS, CG, MTH, RD, WR) followed by numbers of less than 100 (e.g., MTH20) are generally considered academic success courses. (Sometimes financial-aid eligible.)
- Career and Technical. Courses identified by the following prefixes: AH, AM, APR, BT, CPL, DA, DS, ECE, EET, EMS, ES, EST, FRP, GD, HC, HCI, HD, HS, MEC, MET, MFG, MT, NUR, PN, PRX, SPT, SRV, ST, TD, WLD are career and technical courses. Most of these courses apply to career and technical degrees and certificates from Rogue. (Financial-aid eligible if required or an approved elective of an aid eligible program.)

- Occupational Supplementary. These courses, numbered 9.xxx (e.g., 9.263), are designed to upgrade the skills of workers currently employed in occupations or industries. These courses generally do not lead to a degree or certificate. Continuing education units (CEUs), a form of recognition given to units of training, are often given in lieu of credit. (Generally not financial-aid eligible.)
- Transfer Level. These courses that are generally accepted by four-year colleges are identified with letters and numbers (e.g., WR121), with the exception of courses with the career and technical prefixes previously listed. (Generally financial aid eligible.)

Credits earned through other programs

Submit documentation as outlined below.

Advanced Placement (AP)

AP credit can be earned in high school for college-level classes based on successful completion of AP exams offered through the College Board. See the Advanced Placement Exam chart on page 14 for information about passing scores. Submit official AP score reports from www.Collegeboard.org. A minimum of 12 credits toward any one-year certificate program and a minimum of 24 credits toward any two-year degree must still be earned at RCC.

International Baccalaureate (IB)

IB credit can be earned in some high schools for college-level classes upon successful completion of the IB Exam. See IB Exam chart on page 16 for passing scores. Submit an official IB score report from www.ibo.org. A minimum of 12 credits toward any one-year certificate program and a minimum of 24 credits toward any two-year degree must still be earned at RCC.

Transfer credit

RCC accepts 100-level and above lower-division collegiate courses from regionally accredited colleges when they meet the following transfer credit acceptance criteria:

- Are graded C- or better.
- Apply to an RCC program.
- Have credit/contact hours, curriculum and outcomes that are equivalent to courses offered at RCC, are graded on a similar basis and taught by qualified professionals.
- Meet the above criteria or are otherwise

deemed appropriate substitutions for RCC courses.

Submit all official transcripts and declare a major at RCC. Transfer credit does not count toward the minimum number of credits that the college requires be completed at RCC toward certificate and degree requirements.

Courses from non-accredited institutions must meet the criteria listed above to be considered for transfer acceptance. Prospective students who want to transfer-in courses from non-accredited institutions must produce evidence of the above criteria to RCC department chairs or program coordinators for review and possible credit award.

College-level courses taken in countries other than the United States are first evaluated by a member of the NACES accredited agency then compared to the RCC transfer credit acceptance criteria. A list of current NACES members can be found online at www.naces.org/members.htm. Students may use the NACES member of their choice for a course-by-course or comprehensive evaluation, including grades.

Pathfinder programs

www.roguecc.edu/pathfinder

- Table Rock Campus, 541-245-7806
- Pathfinder refers to all dual enrollment programs (College Now, Early College Option, Extended Options) and high school partnership agreements between RCC and Jackson/Josephine county high schools. It provides students the opportunity to earn college credit while still in high school. Courses may be taught by RCC instructors or high school teachers and qualify for RCC credit; high schools also usually grant credit for these courses. Pathfinder credits can be earned while working toward a Career Pathways certificate, a one-year certificate of completion, or a degree in many programs.

Pathfinder requirements include students to:

- Be enrolled in or starting 11th or 12th grade.
- Have and maintain a 2.5 GPA per term.
- Be at least 16 by the first day of the semester/session for which the student has applied.
- Complete a placement test.
- Submit a completed Pathfinder application packet with a parent signature, student signature, completed recommendation form, and a high school transcript (an unofficial transcript will be accepted; report cards and progress reports will not be accepted).

Applications and more information are available from the Educational Partnerships Department, Table Rock Campus, Room 200, 7800 Pacific Ave., White City, OR 97503, 541-245-7806, or HSA@roguecc.edu.

College Now credit

www.roguecc.edu/pathfinder

Students from area high schools that have College Now program agreements with RCC may earn free college credit while in high school. The program encourages “seamless” education that starts in high school and can continue through college. Community college staff work cooperatively with high schools to develop a curriculum that progresses from a basic to an advanced level of instruction. High school students may contact their counselors for information about the program or contact the Educational Partnerships Department.

Participation in a College Now program does not automatically enroll a person in an RCC degree or certificate program; follow regular RCC online admission procedures.

Early College Option

www.roguecc.edu/pathfinder

This dual enrollment program allows students at participating high schools to become full-time RCC students during their junior and/or senior high school years. Students first complete the Oregon Transfer Module before pursuing the Associate of Arts Oregon Transfer (AAOT) degree. High schools oversee course selection and retroactively grant credit toward students’ high school diplomas. All RCC course placement and prerequisite requirements apply. See www.roguecc.edu/pathfinder for a current list of participating high schools.

Extended Options

www.roguecc.edu/pathfinder

Extended Options allows high school students to take a combination of College Now courses and traditional RCC courses with the intention of completing an RCC certificate or other plan of study. Students typically need traditional RCC courses beyond College Now offerings to complete a program. Traditional RCC courses taught by RCC faculty are offered at a discounted rate if arranged through the high school liaison. High schools will determine if the traditional RCC courses can be applied to high school diploma requirements. All RCC course placement and prerequisite requirements apply.

*** Credit not granted in both, only one or the other, depending on the examination taken.*

Credit for Prior Learning (CPL)

Credits earned through these various programs do not count toward the minimum number of credits that the college requires be completed at RCC toward certificate and

degree requirements, nor are they an eligible basis for financial aid. Any exceptions to this policy must be approved by the appropriate department chair and the RCC chief academic officer. No more than 25 percent of total program credits may come from credits granted for prior learning. Visit the RCC

* Score of 500 or above required prior to 1999.

** No set policy. Requires department evaluation.

website at www.roguecc.edu/enrollment/forms for required forms referenced next.

American Council on Education (ACE)

RCC only accepts ACE credit recommendations for awarding military credit. ACE credit recommendations are considered Credit for Prior Learning (CPL). See the Military experience credit section.

Challenge Exam

Currently enrolled students pursuing an approved program of study at RCC are eligible to petition for a Challenge Exam if it is available through the academic department. Contact the department chair or coordinator for availability. Successful challenge exam results apply to program requirements at RCC but do not count toward cumulative RCC credits, GPA, or financial aid eligibility. Full tuition and college fees are charged. The Challenge Exam Form is available online.

College Level Exam Placement (CLEP)

Students can receive credit for knowledge gained outside of a formal college environment. CLEP credit can be earned upon successful completion of the CLEP exam offered through College Board. See the CLEP chart on page 14 for passing scores and recognized subject areas. Submit an official CLEP score report from www.Collegeboard.org. Although RCC is not a CLEP testing center, see the College Board website for current testing center locations.

DANTES/DSST

DANTES/DSST scores will be individually reviewed by the department for possible credit award toward programs at RCC. Students submit official exam reports.

Industry Certifications/ Inservice Training credit

Credit is awarded by certain academic departments for successful completion of standardized competencies and training obtained through recognized career experience, in addition to college coursework. These are:

- Apprenticeship
- Criminal Justice
- Early Childhood Education
- Emergency Medical Services
- Fire Science
- Industrial Welding

These trainings have been determined to be identical in content and proficiency require-

ments to content taught in college classrooms as part of degree programs. Requirements for documenting such competencies differ slightly between departments. Students should contact the appropriate department chair or program coordinator for more information. Students pay \$10 per credit for credit awarded in this manner.

Integrated Business Entrepreneurship/Avista Center

www.roguecc.edu/cpl/avista.asp

- Business Technology Department, Redwood Campus, 541-956-7066
- Business Technology Department, Riverside Campus, 541-245-7527

Up to 13 credits may be earned toward the Associate of Applied Science degree in Business Technology for successfully completing all modules in the Avista entrepreneurship curriculum offered in collaboration with the RCC Small Business Development Center. Credit can be earned for these courses:

BA213 Managerial Accounting – 4 credits.

BA223 Principles of Marketing – 3 credits.

BT265 Writing a Business Plan – 3 credits.

BT250 Entrepreneurship – 3 credits.

Students must complete at least 11 other credits and be enrolled in at least 3 credits, excluding Credit by Examination, at the time of application.

Military experience credit

Military experience credit is granted based on the guidance of the American Council on Education's "Guide to the Evaluation of Educational Experiences in the Armed Forces." Review and recommendations from department chairs must align with equivalent courses at RCC. At least 3 credits of health and physical education are awarded for completing basic training. An Official Joint Services transcript must be submitted.

Portfolio credit

Some departments may allow credit for prior learning based on portfolio development and review, a process that allows students to demonstrate knowledge and/or skill to earn college credit for existing RCC classes by submitting a written portfolio through which evidence of relevant experiential learning is documented for faculty assessment.

Portfolio credit is based only on the assessment of documents; it is not a graded process. If students must receive a letter grade, they

may apply for credit through the challenge exam process or register for the actual class instead.

Portfolio credit is awarded to students only as part of a current degree or certificate program based on departmental approval. It is awarded course by course, not in blocks. Students may be required to enroll in CPL120, a course that guides them through the portfolio process. To be eligible for portfolio review, students must have completed at least 12 non-CPL credits at RCC and be enrolled in at least three credits at the time application is made.

Honor rolls

Rogue Community College recognizes superior academic achievement in college-level classes through a President's List and a Dean's List. To earn inclusion a student must complete at least 12 college-level RCC credits or more, graded A through F, and meet the following criteria:

- President's List: 4.0 term GPA.
- Dean's List: 3.5 term GPA.

Courses graded Pass/No Pass are not included in GPA calculations and do not count toward the honor rolls. See "GPA calculation" on page 12.

Members of both lists are eligible to join the community college honor society, Alpha Zeta Pi.

Institutional award of degrees and certificates

RCC will grant two-year associate degrees, one-year certificates, and less than one-year certificates when the college recognizes that a student has completed necessary credits, regardless of whether the student applied to receive the degree or certificate. Students must be sure that a major in their academic record accurately represents the degree or certificate they are pursuing. To attend the June Commencement ceremony, students must submit a graduation application by February.

Institutional Learning Outcomes

RCC faculty have identified five Institutional Learning Outcomes (ILOs) that students should see referenced on course syllabi. These outcomes are essentially skills that have been determined to make students successful at RCC and in whatever lies beyond their RCC experience. Students may be assessed directly for

achievement of these outcomes as part of regular course assessments. They include:

- **Application of Knowledge.** Students will synthesize and use knowledge in familiar and unfamiliar situations to effectively solve problems and complete tasks.
- **Approach to Learning.** Students will engage in and take responsibility for intentional learning, seek new knowledge and skills to guide their continuous and independent development, and adapt to new situations.
- **Communication.** Students will engage in quality communication using active listening and reading skills and expressing ideas appropriately in oral, written, and visual work.
- **Critical Thinking.** Students will think critically and creatively about problems and issues in classroom or school, home, work, and community settings to create positive, sustainable solutions.
- **Personal Growth.** Students will balance life and civic responsibilities, believe in themselves, accept and commit to change, self-reflect, and be tolerant and respectful of themselves and others.

Report cards

www.roguecc.edu/myRogue

End of term grades are available online by Wednesday of the week following the end of each term.

Social Security disclosure statement

Oregon Administrative Rule 581-41-460 authorizes RCC to ask students to provide their Social Security numbers. Numbers will be used by the college for reporting, research, recordkeeping, extending credit, and collecting debts.

Numbers also will be provided by the college to the Data for Analysis (D4A), which is a group made up of all community colleges in Oregon, the Oregon Department of Community Colleges and Workforce Development, and the Oregon Community College Association.

D4A gathers information about students and programs to meet state and federal reporting requirements. It also helps colleges plan, research and develop programs. This information helps the colleges to support the progress of students and their success in the workplace and other education programs.

D4A or the college may provide students' Social Security numbers to the following agen-

cies or match them with records from the following systems:

- State and private universities, colleges, and vocational schools to find out how many community college students go on with their education, and to find out whether community college courses are a good basis for further education.
- The Oregon Employment Department, which gathers information, including employment and earnings, to help state and local agencies plan education and training services to help Oregon citizens get the best jobs available.
- The Oregon Department of Education to provide reports to local, state, and federal governments. The information is used to learn about education, training, and job market trends for planning, research and program improvement.
- The Oregon Department of Revenue and collection agencies, only for purposes of processing debts and only if credit is extended to the student by the college.
- The American College Testing Service, if a student takes the Asset Placement test, for educational research purposes.
- The IRS for the purpose of Hope Scholarship and Lifetime Learning tax credit.

State and federal law protects the privacy of students' records. Students' Social Security numbers will be used only for the purposes listed above.

Student directory information

www.roguecc.edu/FERPA

In accordance with the Family Education Rights and Privacy Act (FERPA), Rogue Community College considers the following to be "directory information."

1. Name, address, and telephone number.
2. Major field of study.
3. Dates of enrollment.
4. Degrees and awards received.
5. Participation in official recognized college activities and sports.
6. Academic credit information.
7. Email address.
8. Photograph.
9. Student ID (institutional user ID).

This information may be released without the student's written consent unless the student completes a Directory Exemption form at Rogue Central. Exemption status keeps the

student's name from appearing in print for press releases or for commencement or other awards and recognition by the college.

To accommodate written requests for directory information, Rogue Central will forward written messages to the student whose information is requested. RCC does not contact groups of students for the purpose of solicitation. For information about this service or directory information, email RCS@roguecc.edu.

Student educational records

www.roguecc.edu/FERPA

Rogue Community College follows the Family Education Rights and Privacy Act (FERPA) of 1974 in regard to educational records. With some exceptions, federal legislation gives students the right to inspect their educational records while attending RCC. A student who believes the contents are inaccurate, misleading, or a violation of privacy or other rights has the right to a hearing to challenge the contents.

The college normally will comply with requests to inspect records within 10 days but in no case more than 45 days from the date of request. For information regarding review of official records or to challenge the content of those records, students may contact the Director of Enrollment Services.

A student has the right to file a complaint with the U.S. Department of Education concerning alleged failures by the college to comply with the requirements. The name and address of the office that administers FERPA is:

Family Policy Compliance Officer
U.S. Department of Education
400 Maryland Ave., SW
Washington, DC 20202-5901

Student right-to-know Graduation rate

www.roguecc.edu/Students/graduation_rates.asp

The following graduation rates are the result of a three-year study of each fall term's first-time freshmen entering RCC. These students must meet the following criteria:

- Have been a first-time freshman entering RCC in fall 2012-13.
- Have never previously attended any college.
- Have attended RCC full time (at least 12 credit hours) during their first fall term.

- Be identified as degree seeking using their declared majors.

Rates are reported as a three-year tracking period. This allows for the reporting of completions (graduations) within 150 percent of the normal time. Transfer rates are for transfers to any college or university in the United States.

- 15 percent graduated by the end of winter term 2014 (certificate seeking) or by end of summer term 2015 (degree seeking).
- 17 percent transferred to another college or university.

Tax credits for education

The Taxpayer Relief Act of 1997 (TRA 97) provides tax benefits for persons who are paying higher education costs for themselves and/or for members of their families. These benefits include a deduction for student loan interest, available for taxpayers who have taken loans to pay the cost of attending an eligible educational institution for themselves, their spouses, or their dependents. Taxpayers may deduct interest they pay on these student loans. The American Recovery and Reinvestment Act of 2009 provides an American Opportunity Tax Credit worth up to \$2,500 annually.

The 1098-T form and a detailed statement of charges and payments are available online at <http://www.roguecc.edu/Students/1098T/>. For questions about your 1098T form please email 1098T@roguecc.edu. For additional information and FAQs, visit www.roguecc.edu/students/1098T.asp.

It is strongly recommended that students consult a tax adviser for specific information about eligibility and potential benefits. RCC cannot answer tax-related questions. For additional information from the Internal Revenue Service, contact the Internal Revenue Service at 800-829-1040 or www.irs.gov.

Transcripts

Each student's transcript is a permanent record of all his/her academic accomplishments at RCC. It reflects all grades, including repeated courses, and degrees or certificates earned at RCC. Students may obtain a copy of their unofficial transcripts at www.roguecc.edu/myRogue. Students also may order official transcripts from www.roguecc.edu/transcripts.

Understanding college terms

Academic Probation

Status given to students who do not meet Satisfactory Academic Progress for the second time. Refer to "Satisfactory academic standing and progress" in the policy section or www.roguecc.edu/Enrollment/SASP.

Academic Suspension

Status given to students who do not meet Satisfactory Academic Progress for the third time. Refer to "Satisfactory academic standing and progress" in the policy section or www.roguecc.edu/Enrollment/SASP.

Academic Success classes

Credit classes are offered in basic reading, writing, and math to prepare students for college-level courses. Students must take a placement test to determine their academic level before enrolling in these classes.

Academic Warning

Status given to students who do not meet Satisfactory Academic Progress for the first time. Refer to "Satisfactory academic standing and progress" in the policy section or www.roguecc.edu/Enrollment/SASP.

Adult Basic Skills

Students who need to learn basic reading, writing and math skills, prepare for GED® exams, learn English or prepare for college placement tests may receive assistance through basic skills programs.

Alpha Zeta Pi

A RCC honor society recognizing academic excellence.

Articulation

An articulation agreement is created when two (or more) institutions agree that the content and difficulty level of courses offered by each institution is equivalent and that students taking the articulated course at one institution will not need to repeat it when they transfer to the other institution.

Associate of Arts Oregon Transfer (AAOT)

A two-year degree that fulfills all lower-division general-education requirements of a bachelor's degree. Upon admission to any public college in Oregon, students who have completed the AAOT (90 credits minimum) will qualify for junior standing. The AAOT degree does not guarantee that a student meets prerequisites for a particular major; the student may need additional coursework to be accepted into the major.

Associate of Applied Science (AAS)

A two-year program (90 credits minimum) designed to prepare students for work in a specific career/technical field. A wide range of AAS programs are available at RCC, from Automotive Technology to Nursing.

Associate of General Studies (AGS)

A two-year program (90 credits minimum) that incorporates both lower-division college transfer courses and career and technical education courses with general education coursework.

Associate of Science (AS)

A two-year program (90 credits minimum) based on signed articulation agreements with specific public and private universities and designed for students transferring to a designated baccalaureate degree program.

Academic calendar

Start and end dates of each academic term. Includes important dates for tuition payment, deadlines to add, drop or withdraw from classes, holidays and registration dates, etc.

Advanced placement

Credit granted or eligibility for an advanced course based on student having mastered the equivalent of an introductory course.

Aid package

A combination of aid offered (possibly scholarships, grants, loans and work) determined by the Financial Aid Office per eligibility rules.

Award letter

An offer of aid (scholarships, grants, loans and work) determined by the Financial Aid Office.

Career and technical education (CTE)

A program of study at the secondary and postsecondary levels that is a key component of Oregon's education and workforce development system. CTE integrates technical career skill proficiencies with academic content and prepares students for the workplace, further education, training, and family and community roles. At the postsecondary (college) level, CTE helps students complete Associate of Applied Science (AAS) degree and certificate of completion programs, preparing them for workplace entry and career success. CTE courses are identified by the following prefixes: AH, AM, APR, BT, CPL, DA, DS, ECE, EET, EMS, ES, EST, FRP, GD, HC, HCI, HD, HS, MEC, MET, MFG, MT, NUR, PN, PRX, SPT, SRV, ST, TD, WLD. Most of these courses apply to RCC career and technical education degrees and certificates.

College transfer courses

Courses that are generally accepted by four-year colleges are identified with letters and numbers (e.g. WR121), with the exception of courses with the career and technical prefixes listed.

Career Pathways certificates of completion

Career Pathways certificates (CPCs) are 12-44 credit certificates offered in career technical programs and are usually three or fewer terms in length. CPCs serve as the first step in a career pathway, providing employer validated skills training along with academic preparation for continuing the educational pathway. Career Pathways certificates are stackable. This means all credits earned in the CPC count toward the related one-year certificate or two-year Associate of Applied Science degree.

Cooperative Work Experience (CWE)

A capstone experience taken in final terms of a student's degree or certificate program. Students and participating businesses develop written training and evaluation plans to guide instruction. Students receive course credit for their work experience.

Core classes

Classes that all students in a major program are required to take.

Counselor

A Counseling/Advising Department faculty member who is certified and/or licensed as a personal counselor and who provides crisis counseling free of charge to students. Counselors also teach human development and career guidance classes and provide academic advising.

Credit

A unit of academic credit that represents the hours of class time per week; granted in recognition of coursework completed.

Curriculum

Courses necessary to complete degree or certificate; also refers to the material covered in a course.

Declare a major

Officially indicate a major or program of study. See "Major."

Degree Audit

An individualized report that reflects a student's academic progress toward a specified certificate or degree.

Discipline

A field of study or a category of classes such as humanities or social science. See "Major."

Dismissal

Students may be dismissed or expelled for consistently poor grades or breaking rules.

Distance education

Classes taught over the internet.

Elective

An optional rather than required class.

Fee

Money charged by a college for services provided to students. Fees are often charged for lab materials and recreational facilities.

Financial aid

Federal, state, college and private aid that helps students pay for college costs. Financial aid can be in the form of grants, scholarships, loans or work-study programs.

Free Application for Federal Student Aid (FAFSA)

The annual application required for students to be considered for federal financial aid programs. Available beginning October 1 of each year at www.FAFSA.gov.

Freshman Experience

For first-year freshmen and/or students who have not yet decided on a major, a combination of classes designed to get started successfully in an academic career track.

Full-time student

A student taking 12 or more credits per term.

General education requirements

Courses required in a variety of academic areas such as science, writing and math.

Grade point average (GPA)

An indicator of a student's term or overall scholastic performance calculated by dividing the total course points by the total applied credits. A=4 points, B=3 points, C=2 points, D=1 point, F=0. (Grades not included in applied credits are AU, I, NP, P, R, W, Y, Z.)

Graduation guide

List of courses necessary to complete a degree or certificate.

Grant

Award based on financial need that does not require repayment.

Honor roll

Student list based on a GPA calculation based on completion of 12 graded college-level credits or more.

- President's List – 4.0 term GPA
- Dean's List – 3.5 term GPA

Interlibrary Loan Service (ILL)

The library can obtain materials from academic and public libraries nationwide.

Incomplete

A grade of "I" requires an agreement between the instructor and the student about the completion of the last 25 percent of course requirements. Requires minimum successful completion of 75 percent of the

work required in the class prior to the end of the term. Faculty are not required to grant an Incomplete.

Independent study

An arrangement that allows a student to earn college credit through individual study, usually planned with and supervised by a faculty member.

Informational interview

An interview to find out about a job or a career such as the training needed and responsibilities.

Internship

Paid or unpaid positions in which students work with an employer for a specified period of time to learn about a particular industry or occupation.

Loan

Financial aid that must be repaid, with interest, after a student leaves school.

Major

The subject of study in which the student chooses to specialize or graduate.

Matriculation

Advancing through the educational process toward a goal, particularly related to enrolling in a college or university (e.g., upon completing the Associate of Arts/Oregon Transfer degree, to matriculate to Southern Oregon University).

MTuWThFSaSu

(Shown in schedule of classes) Represents days of the week. Course offered TuTh, indicates Tuesday/Thursday class.

Occupational outlook

A prediction of the number of job openings there will be at a certain time for specific jobs.

Open Educational Resources (OERs)

Open Educational Resources are teaching and learning materials that students may use, share and often adapt, without charge, and are made available in the form of low- or no-cost textbooks.

Part-time student

A student enrolled in 1-5 credits (less than half time); 6-8 credits (half time); 9-11 credits per term (three quarter time).

Placement test

Used to determine starting levels in reading, writing and math for new students.

Prerequisite

Courses that must be successfully completed (grade of A, B, C, or P) before proceeding in the curriculum (e.g. BT113 or WR115 must be completed prior to PSY101).

Quarter/term

An academic period of 11 weeks in fall, winter or spring terms, or eight weeks in summer term. Four per academic year.

Recitation

Required component for most chemistry and physics classes. Provides a forum to discuss lecture and lab activities, review materials, take quizzes, etc.

Registration

Officially enrolling in classes for an upcoming academic term.

Satisfactory academic progress (SAP)

Students must maintain at least a 2.0 grade point average (GPA) each term with a cumulative GPA of at least 2.0 and/or successfully pass 50 percent of credits attempted, earning A, B, C, or P grades. Unsatisfactory progress may result in being placed on academic warning, probation, and subsequently suspension. Financial aid recipients have additional SAP requirements to maintain eligibility.

Scholarships

Awards to students that do not have to be repaid and are based on merit or merit plus financial need.

Sequence

Set of two or three courses in one subject area usually taken in numerical order (e.g., BA211, BA212, BA213).

Transcript

The official record of high school or college courses and grades generally required as part of college applications.

Transfer

When students apply credits earned at one institution toward the graduation requirements of a program at another institution.

Transfer courses

Courses that usually share a common description or course number at multiple institutions (such as CS120) and that typically are acceptable at a four-year college or university.

Tuition

The cost of classes or credits.

Work Study

A form of financial aid in which students earn money by working part time at their college. Students apply for work study by filling out the FAFSA.

Student Services

Athletics

athletics.roguecc.edu

Since the fall of 2015, the Rogue Community College Ospreys have been competing in the Southern Division of the Northwest Athletic Conference (NWAC). The college hosts men's and women's soccer, cross country, and long distance track.

National data collected by the NCAA consistently shows that college athletes graduate at a higher rate than other students, and that many companies prefer to hire student athletes because they have developed the ability to set goals, stick to a training program, and achieve results. Athletic tuition waivers are offered at the coach's discretion.

If you would like to know how you can support or join the Ospreys, please visit athletics.roguecc.edu.

The Northwest Athletic Conference is the parent organization for 36 community colleges located in Idaho, Oregon, Washington and British Columbia. To learn more about NWAC, visit www.nwacsports.org.

Career Services

www.roguecc.edu/Career-Services

- G Building, Riverside Campus, 541-245-7538
- L Building, Redwood Campus, 541-956-7323

Career Services assists students from admissions to graduation in selecting majors and enhancing career readiness and job search skills. Gain better preparation for the job market during college and beyond by taking advantage of opportunities and skills relevant to your career.

Not sure what you want to be?

Career Services will help you explore majors and careers based on your personality, interests, and strengths.

- Take the Holland Codes Quiz to discover your "Work Personality."
- Explore RCC Degrees and Certificates.
- Research the job market.
- Complete the CIS: Career Information System.
- Be referred to Career Counseling.

Searching or applying for a job?

Career Services offers support and assistance whether applying for student employment, an entry-level job, or the next step in your career. Let us help you develop or improve your application materials.

- Develop and edit resumes and cover letters.
- Identify professional and educational references.
- Explore job search resources and techniques.
- Understand and use online career resources.

Preparing for an interview?

Learn what employers are looking for and how to tailor your answers for the job you want.

- Prepare interview questions.
- Do a mock interview.
- Make a great first impression and dress to impress.
- Practice your handshake.

HOLA: Helping Oregon Latinos Advance

HOLA is a free, one-week high school-to-college summer bridge program. Students have fun with new friends, research college majors and careers, map out what classes to take, and learn how to be a successful college student. Rogue Community College welcomes recent high school Latino graduates planning to attend RCC. Summer program is in September. Contact Career Services at 541-245-7538 for more information.

Counseling/Advising

www.roguecc.edu/Counseling

- Student Services Building, Redwood Campus, 541-956-7190
- G Building, Riverside Campus, 541-245-7552
- Table Rock Campus, Room 187, 541-245-7863

RCC provides comprehensive counseling services to assist students with education and career plans and with personal or social concerns. Licensed professional counselors and academic advisers are available and offer the following services on a limited drop-in basis and by appointment:

- Academic advising.
- Help in choosing a major.
- Crisis intervention.
- Conflict resolution.
- Career and life planning.
- Internet access to career, job market, and scholarship information.
- Transfer advising.
- Early intervention for academic success.

Academic advising

Academic advising is provided by trained faculty and staff who can answer questions about college and educational objectives, help with program planning and class selection to meet academic goals, and answer questions about transferring to other colleges.

Advising for first term students is provided through Advising and Registration Clinics (ARCs) held on campus. Register for an ARC through myRogue. Students working on academic skills-level classes may make advising appointments through the Adult Basic Skills Department, 541-245-7701 at the Riverside Campus, or 541-956-7253 at the Redwood Campus.

Career and technical education students and those who are program-ready (have a declared major or have completed/tested above RD90, WR115, and MTH60) should see their program advisers. Call the number listed for individual departments, which is included with specific program information on pages 666-175 in this catalog.

Students enrolling in the following programs should speak with an adviser prior to start of first term:

- Automotive Technology, 541-956-7140
- Early Childhood Education, 541-956-7066 (Grants Pass); 541-245-7504 (Medford)
- Electronics Technology, 541-245-7809
- Emergency Medical Services, 541-245-7965
- Exercise Specialist, 541-956-7140 (Grants Pass); 541-245-7504 (Medford)
- Fire Science, 541-245-7965
- Industrial Welding Technology, 541-245-7809
- Manufacturing Technology, 541-245-7902
- Renewable Energy Technician, 541-245-7809

Students who are undecided about their majors or who are not yet program ready may receive advising in the Counseling/Advising Department.

If you need an individual advising appointment, it should be made by Oct. 31 for winter-term advising, by Feb. 14 for spring-term advising, and by May 5 for summer- and/or fall-term advising.

Career counseling/planning

Students may receive career counseling and planning assistance. Computerized information on careers, job market information, and

related training programs also are available from the Counseling/Advising Department.

The RCC website provides useful career exploration resources. Visit www.roguecc.edu and select Career Base Camp or Career Pathways. Career Services provides assistance and information for resume writing, interview skills, and job search tools.

Retention or crisis counseling

College students often experience challenges coping with stress. Meeting with a counselor may help with the demands of college. Counselors provide professional services to assist students with concerns that may create barriers to success. Students at RCC may obtain short-term, solution-focused counseling at no charge. Some of the reasons why students seek counseling services are:

- To reduce test and math anxiety.
- To increase self-esteem and enhance personal growth.
- To gain stress management skills.
- To develop and maintain healthy relationships.
- To better integrate family, school and work.
- To learn conflict resolution strategies.
- To become a more effective problem solver.
- To receive referrals for off-campus counseling services or resources.

Counseling FAQs

Are services confidential?

The RCC Counseling/Advising Department follows the ethical and legal standards of the state of Oregon, which insures confidentiality except in the following situations:

- The student provides a written request to release information.
- There is an imminent danger to the student or others.
- There is concern about child or elder abuse or neglect.
- A court orders a release of a student's records.

How do I know if I need counseling?

Rogue Community College encourages students to make an appointment with the Counseling/Advising Department and talk to a counselor, who can help a student decide if counseling is needed. The following questions may be helpful to consider:

- Do you have intense feelings of depression?

- Do you experience feelings of anxiety or panic?
- Do you have difficulty concentrating on assignments in class?
- Do you feel that your usual coping strategies aren't working?
- Do you recognize a pattern of behavior that creates personal and academic problems?

Will counselor services become part of my academic record?

Counselor contact and files are protected by confidentiality regulations and are not part of a student's academic record.

Who are the counselors?

For counselor names, phone numbers and locations visit www.roguecc.edu/Counseling.

What other services are offered?

- Human development and career guidance courses.
- College and university transfer information.
- Academic advising.
- Placement test information and scheduling.
- Scholarship information.
- Substance abuse referrals.

Disability Services

www.roguecc.edu/DisabilityServices

- Tutoring Center, Wiseman Building, Redwood Campus, 541-956-7337, Oregon Telecom Relay Service, 711
- B Building, Room 9, Riverside Campus, 541-245-7537, Oregon Telecom Relay Service, 711
- Table Rock Campus, Room 191 541-245-7537, Oregon Telecom Relay Service, 711

Disability Services provides academic support services to help ensure all qualified students have equal access to education. Documentation to verify a disability is required in order to receive accommodations.

Disability Services coordinates note-takers, sign language interpreters, disability advising, conversion of class materials to alternate text format, and adaptive technology for RCC students with disabilities; see Adaptive Technology Lab.

Students who suspect they have a disability are encouraged to make an appointment for possible services.

It is recommended that students request accommodations at least four or more weeks prior to the start of each term to prevent any delay in receiving services.

Students or others with service animals such as guide dogs or dogs for the deaf should contact Disability Services for authorization of a service animal prior to attending classes or other campus events.

Servicios de Minusvalidez

www.roguecc.edu/DisabilityServices

- Redwood Campus, Edificio del Centro Wiseman, 541-956-7337 o Oregon Telecom Relay Service, 711
- Riverside Campus, Edificio B, habitación 9, 541-245-7537 o Oregon Telecom Relay Service, 711
- Table Rock Campus, habitación 191, 541-245-7537 o Oregon Telecom Relay Service, 711

Los Servicios de Minusvalidez provienen servicios de apoyo de educación para asegurar que todos los estudiantes cualificados tengan igual acceso a educación. Documentación de una minusvalidez es requerida para verificar la discapacidad y poder hacer arreglos apropiados acerca de la minusvalidez.

Los Servicios de Minusvalidez coordinan con personas quienes toman apuntes y quienes interpretan con lenguaje de señas. También los servicios brindan consejeros para estudiantes con discapacidades de aprendizaje y/o con discapacidades físicas. Ofrecen conversión de material de clases al formato de texto alternativo, y utilizan tecnología adaptiva para los estudiantes de RCC con discapacidades.

El Laboratorio de Tecnología Adaptiva provee ayuda y evaluaciones por medio del acceso adaptivo a la computadora.

Se sugiere que los estudiantes quienes supongan que tengan una discapacidad soliciten una cita con los Servicios para Minusvalidez para explorar servicios. Además, se recomienda que estudiantes pidan acomodaciones por lo menos cuatro semanas antes del comienzo de cada trimestre para evitar una demora en recibir servicios.

Los estudiantes y otras personas con animales de servicio, como un perro lazarillo o guía de apoyo por los sordos, deben entregar una solicitud a los Servicios de Minusvalidez para obtener autorización para el guía antes de asistir a clases o eventos en el campus.

Enrollment Services

www.roguecc.edu/Enrollment

- Student Services Building, Redwood Campus, 541-956-7176
- G Building, Riverside Campus, 541-245-7737
- Table Rock Campus, Room 189, 541-245-7737

Enrollment Services provides the following comprehensive services at each stage – entry, flow through, and exit – of a student's education:

- Admission
- Registration
- Payment
- Financial aid advising
- Enrollment and degree verifications
- Transcripts
- Grades
- Degree audits
- Transfer and military credit evaluations
- Graduation
- Family Education Rights and Privacy Act compliance

Financial Aid

www.roguecc.edu/FinancialAid

Financial assistance for educational purposes comes from federal, state, institutional and private sources. Types of financial aid include grants, part-time employment, scholarships, and loans.

Visit the Financial Aid website (above), email Rogue Central at RCS@roguecc.edu, or stop by a Rogue Central service counter:

- Student Services Building, Redwood Campus.
- G Building, Riverside Campus
- Room 187, Table Rock Campus.

Contact the Financial Aid Office by mail, 3345 Redwood Hwy., Grants Pass, OR 97527; by FAX: 541-471-3532; or by email: rcs@roguecc.edu.

Monitor your financial aid status by logging on at www.roguecc.edu/myRogue, then select the "Financial Aid Status" link.

The RCC Financial Aid Office will communicate with you primarily via email, text, and/or myRogue. To access information in a timely manner, keep your RCC personal information updated, check your email often for correspondence from "myRogue Team" with "Financial Aid Mail" in the subject line, and be sure your ISP allows mail from myRogueTeam@roguecc.edu.

Eligibility

Generally, students may participate in federal student financial aid programs if they are:

- U.S. citizens or eligible non-citizens.
- Have a high school diploma (not "extended," or a recognized equivalent, eg. GED®.)
- Admitted to the college.
- Enrolled in and working toward the completion of an eligible certificate or degree program (See Satisfactory Academic Progress policy).
- Not in default or do not owe a repayment of federal financial aid.
- Demonstrate applicable need for financial assistance.

Eligibility for state aid generally follows federal rules, except for undocumented residents who may apply for state grants with an Oregon Student Aid Application (ORSAA) at oregonstudentaid.gov/PublicTools/FinancialAid/PreFilter.

Eligibility requirements differ for various types of aid, and awards may also be limited to the availability of resources.

How to apply

1. Complete an annual Free Application for Federal Student Aid (FAFSA or Renewal FAFSA). Online applications are available at www.fafsa.gov. A hard-copy application is available by calling 1-800-4FEDAID. The RCC federal school code is #010071. (Undocumented Oregon residents may complete an ORSAA in lieu of the FAFSA for state aid.)

RCC recommends submitting an annual FAFSA on or as soon as possible after October 1 preceding the school year. Applications completed at least six weeks before summer, fall and winter terms (four weeks for spring) will receive priority processing. If your FAFSA is federally processed after you are no longer eligible enrolled, you don't qualify for any financial aid for that academic year. If enrolled at RCC when your FAFSA is federally processed and it's selected for verification, you have up to 120 days (but no later than the third week in September following the academic year) to submit necessary documents for possible retroactive award.

If a student answers "no" to every question in Section 2 of the FAFSA, the student's application will be processed as a dependent, with parental information

and signature. If a student is unable to obtain parental information or, in limited situations, finds it is inappropriate to do so, there may be options. See the RCC Independence Requirements form at web.roguecc.edu/financial-aid/financial-aid-forms.

2. Once the federal processors have evaluated a FAFSA, they will email the results to the applicant in the form of a Student Aid Report (SAR) and to the colleges the student listed. Once RCC receives electronic SAR information, the Financial Aid office will email students if additional application documents are required.
3. Complete and return any requested documents right away. Students will be notified of financial aid eligibility per an official Award Letter or Eligibility Notification, both issued by RCC in good faith and based on information available at the time. Recipients must review and accept the Conditions of Accepting Financial Aid which includes policies such as Satisfactory Academic Progress and Return of Title IV prior to accessing their award letter.
4. Students interested in part-time work and/or student loan options may apply once the Award Letter or Eligibility Notification is issued and prior to term application deadlines. The loan application process opens the week of June 12, 2017. More information about these programs and application deadlines is available from Rogue Central and on the RCC Financial Aid website.

Where's the aid?

Students who complete their aid application by the RCC Financial Aid Priority Application deadline should see their term awards on their RCC student account about one week prior to the term, in time to charge books and supplies at RCC bookstores. To purchase books elsewhere, submit a Book Allowance Request Form to Rogue Central through the first week of the term.

On the second Friday of the term, students who have extra financial aid on their RCC student account will receive an electronic refund via BankMobile. For students who are dual-enrolled at SOU and have submitted a dual enrollment form, RCC will issue payment to SOU before releasing a refund of extra financial aid to BankMobile.

Refunds are electronically transferred twice each week after the initial refund, through

finals week. Refunds are not issued the week Refunds are not issued the week after a term while academic progress is being reviewed.

NOTE: After RCC receives your SAR and you register for classes, look for a BankMobile Refund Selection Kit in the mail. For more information about BankMobile, visit <http://bankmobiledisbursements.com/refundchoices/>.

Return of Title IV funds policy

When students receive financial aid but totally withdraw before completing more than 60 percent of a term, or if they earn a combination of all F, NP, W, or Z grades (unofficial withdraw), RCC must calculate how much aid was unearned and must be repaid. Students may owe a repayment to RCC as well as to federal programs. Repayment in full is required before they can enroll again or get future financial aid. Students should carefully consider other options before withdrawing.

For more information see the "Withdrawing?" repayment policy brochure at web.roguecc.edu/financial-aid/financial-aid-forms.

How to get/keep financial aid

- Be admitted to RCC and declare an aid-eligible major.
- Enroll in courses that satisfy graduation requirements for your major(s).
- Attend classes.
- Maintain satisfactory academic progress (SAP) for financial aid recipients.

Aid will be adjusted to match the aid-eligible enrollment level as of the drop deadline, which is the second Wednesday of the term.

RCC defines term enrollment levels as follows:

| | |
|---------------------|---------------------------------|
| Full-time | 12 or more aid-eligible credits |
| Three-quarter-time | 9-11 |
| Half-time | 6-8 |
| Less-than-half-time | 1-5 |

Awards made after the drop deadline will be based on actual aid-eligible enrollment. Awards generally are not adjusted after eligible payment except in the case of no attendance, a complete withdraw through 60 percent of the term, or documented institutional error. For more information on how withdrawing might affect financial aid, review the "Withdrawing?" repayment policy brochure at web.roguecc.edu/financial-aid/financial-aid-forms.

Satisfactory academic progress requirements

To qualify for or maintain financial aid eligibility, a student must be making satisfactory academic progress for financial aid toward an aid-eligible program.

For more information, see the RCC Satisfactory Academic Progress policy at web.roguecc.edu/financial-aid/financial-aid-forms.

Dual enrollment

If concurrently enrolled in program credits at RCC and another institution, RCC may be able to serve as the home institution and base financial aid on combined credit load. For consideration, submit at the beginning of the term either a per-term dual enrollment form for Southern Oregon University or Oregon State University or a dual enrollment non-SOU consortium agreement for other institutions. Forms are available at web.roguecc.edu/financial-aid/financial-aid-forms.

Rogue Community College reserves the right to deny such a request if, for example, it is submitted late, the student does not maintain minimum credits, the credits are not applicable to the RCC program of study, or prior-term grades were not submitted or reflect a lack of successful completion.

Types of financial aid

The amount and availability of financial aid and eligibility criteria may vary with each program. The following list provides general information about available student aid programs:

1. Grants and scholarships are awards that generally do not require repayment.
 - Federal Pell Grants of up to \$5,920 annually are disbursed over the equivalent of three full-time terms. If a student's annual enrollment exceeds the equivalent of three full-time terms, spring-term funding may be available per new year-round Pell rules. Lifetime maximum is 18 full-time equivalent quarters.
 - Iraq and Afghanistan Service grants of up to maximum Pell, less up to 7.3 percent may be available in lieu of a Federal Pell grant to eligible dependents of those who become totally and permanently disabled or died as a result of qualified service.
 - Oregon Opportunity Grants are up to \$2,250 annually. They are authorized by the Office of Student Access and Completion (OSAC) to

Oregon residents who enroll at least half time fall, winter or spring terms (full value requires full-time enrollment). Funding is limited; only FAFSA applicants with the highest need may be eligible. For more information, call 800-452-8807, or visit www.osac.state.or.us/oog.html. Lifetime maximum is 12 full-time equivalent quarters.

- Oregon Promise Grant was new as of 2016-17 to qualified residents who graduated high school with cumulative 2.5 GPA or completed a GED® with scores of at least 150 who enroll at least half-time at an Oregon community college within six months. Most tuition charges not otherwise covered by Pell or OOG is the value. Not eligible for summer enrollment. Funding is subject to legislative approval.
- Federal Supplemental Educational Opportunity Grants (FSEOGs) are worth up to \$100 per term and awarded to early applicants who attend at least half time and who demonstrate high financial need. Funding is limited; submit the FAFSA early.
- The RCC Foundation (www.rccfoundation.org) and the Oregon Student Assistance Commission (www.getcollegefunds.org) provide numerous scholarship opportunities. In addition, RCC maintains an on-line list of scholarships made possible by various organizations. Amounts, eligibility, and application deadlines vary. Peak application season is mid-fall through early March, but some opportunities exist year-round.
- Contact Rogue Central for more information, or visit RCC Scholarship Central at www.roguecc.edu/FinancialAid/scholarship.

NOTE: RCC does not participate in the federal TEACH grant.

2. Part-time student work programs administered through RCC's Student Employment Services.
 - M Building, Redwood Campus, Grants Pass, 541-956-7091
 - G Building, Riverside Campus, Medford, 541-956-7091
 - Room 217, Table Rock Campus, White City, 541-956-7091
- The Federal Work Study (FWS) pro-

gram provides jobs for students who maintain at least half-time enrollment and demonstrate financial need. Once hired, students complete employment paperwork with Student Employment Services. An award of up to \$1,200 per term is added to the Award Letter. Awards are subject to the availability of funds. Eligibility does not guarantee a job. Due to limited funding, RCC reserves the right to convert FWS employment to the RCC institutional Learn and Earn program.

For information about other student employment opportunities such as the RCC Learn and Earn program, see Student Employment Services.

3. Federal Direct Loans (FDL) represent student debt that must be repaid with fees and interest. At least half-time, aid-eligible program enrollment is required. To monitor your student loan portfolio, visit www.nsls.ed.gov. Use your Social Security number, date of birth, last name, and federal PIN to access information.

RCC offers subsidized and unsubsidized Federal Direct Loans.

- Subsidized FDL eligibility is based on budgetary need and is awarded up to annual maximums based on dependency status and grade level. Interest is charged only after the borrower is no longer enrolled at least half-time. New borrowers as of 7-1-13 lose subsidy if their program is not completed within 150 percent of published length.
- Unsubsidized FDL eligibility is not based on financial need. Aid can be awarded up to the lesser of annual maximums based on dependency status and grade level or budgetary need (cost of attendance less aid and resources). Interest is charged to the borrower from the date of disbursement and may be paid quarterly, upon request, to avoid capitalization.

Rogue Community College accepts an annual FDL application after an Award Letter or Eligibility Notification has been issued and before the term's application deadline. The deadline is published at www.roguecc.edu/FinancialAid/FDL.

An application includes online and workshop-based loan-entrance counseling for first time borrowers, a loan request form and an active master

promissory note, which must be on file with the U.S. Department of Education. Borrowers may reduce or cancel a loan up to 14 days after disbursement or pre-pay anytime without penalty. Per HEA, sec. 479 (a)(c), 34CFR 685.301 (a)(g), RCC has the right to refuse or limit origination on a case-by-case basis.

4. Students who need more financial aid than RCC determines they are eligible for can pursue scholarship opportunities. Alternative educational loans may be available after all federal aid is exhausted, but these loans come at a higher cost, often require a co-signer to qualify and are not federally regulated. Consumers should carefully review terms and conditions. For more information, contact Rogue Central. RCC has the right to refuse or limit origination.

NOTE: RCC does not participate in federal PLUS or Perkins loan programs.

If annual financial aid was limited by a student's estimated cost of attendance, and the student's program of study requires a professional credential prior to graduation, RCC may be able to add this one-time cost in the student's budget, which may result in additional loan eligibility.

To apply, submit a written request to Rogue Central with a statement from the appropriate academic department regarding the cost of the professional credential, the cost that will be incurred, and the anticipated date of program completion.

Students who have disability-related or other significant education-related, out-of-pocket expenses may submit a written request, with documentation, to have the cost of attendance adjusted.

Tuition awards

Veterans tuition awards

- Oregon National Guard/Selected Reserves: GoArmyEd, website: <http://www.goarmyed.com/>

The Tuition Assistance (TA) program provides financial assistance for voluntary off-duty education programs in support of a Soldier's professional and personal self-development goals. TA is available for courses that are offered in the classroom or by distance learning and is part of an approved academic degree or certificate program. The courses must be offered by schools that are registered in GoArmyEd, are accredited by accrediting agencies that are recognized by the U.S.

Department of Education and are signatories to the current Department of Defense Memorandum of Understanding (DOD MOU).

For academic programs, associate's, bachelor's, or master's degrees, TA may not be used for a lower or lateral degree program from the one the soldier currently possesses. In addition to degree programs, TA is available to Soldiers to complete a high school diploma and to complete certificate programs. TA is not authorized for programs of study beyond a master's degree. All eligible soldiers will request TA through GoArmyEd. Visit https://www.goarmyed.com/public/public_money_for_college-tuition_assistance.aspx to see if you are eligible for this program. You may also contact Ann Browning at 503-584-3434, or ann.browning@us.army.mil.

- Dependents of Fallen Oregon Service Members. To honor military service to our country, RCC will grant tuition for up to 135 credits to dependents of an Oregon resident soldier who became totally (100 percent) and permanently disabled in connection with active military service if those dependents are not covered by financial aid, veterans education benefits, or other funding source.

For dependents of an Oregon resident soldier who died as a result of active military service, RCC will grant tuition for up to 135 credits, regardless of additional funding sources. More information is available from RCC veterans advisers. The Dependents of Fallen Oregon Service Members form is available at www.roguecc.edu/Enrollment/forms.

Financial Literacy \$ALT

Rogue Community College contracts with American Student Assistance to offer \$ALT, a financial literacy tool that provides real-world money skills, financial guidelines, tools for managing loans and finding scholarships, and expert financial counseling. Students and alumni are encouraged to sign up at www.SALTmoney.org.

Graduation

www.roguecc.edu/graduation

- Enrollment Services, 541-956-7427
- Graduates are formally recognized at commencement ceremonies each June. Students in degree or certificate programs must submit an application for graduation two terms prior to anticipated completion. To participate in the June commencement ceremony, submit applications by early February. Graduation applications are available online at roguecc.edu/Enrollment/forms.

Students who completed their programs at the end of an academic term during the year prior to commencement and those who will complete requirements during the summer term after commencement are invited to participate in the ceremony. Graduation with honors is based on cumulative GPA of 3.5 or higher computed through the end of winter term. Students who meet this criteria may wear an honor cord in recognition of academic achievement.

Degrees and certificates will be mailed to eligible graduates approximately six to eight weeks after final grades are available for verification. Diplomas will be mailed to students addresses on file with the college.

Graduation requirements

Computer proficiency exam

- Student Services Building, Redwood Campus, 541-956-7191 or 541-956-7213
- F Building, Redwood Campus, 541-956-7066
- G Building, Riverside Campus, 541-245-7552
- Higher Education Center, 541-245-7527
- Table Rock Campus, Room 187, 541-245-7863

The college requires that students complete a computer proficiency requirement in most of its degree and certificate programs. For most students, this requirement can be met by taking and passing with a grade of "C" or better in an approved 3-4 credit computer science course, numbered CS120 or above, within the last 10 years (some CS-numbered courses do not fulfill the requirement and are so designated within the course description section of this catalog).

Students who have the requisite computer skills, are not computer science majors, and do not want to take other computer courses at RCC may opt to fulfill the requirement by taking the computer proficiency exam for a \$20 non-refundable fee. This exam does not waive a CS120 prerequisite for another course. See an adviser for more information.

Time limit for program completion

There is no time limit to complete a certificate or degree program as long as it has not been terminated or suspended and the required program-specific courses are still offered at RCC. The college may elect any set

of catalog requirements to complete from the year a student begins a program through the current year. Degree and certificate awards are dependent on program availability at the time of completion. Requirements for many programs are subject to change each year. If students have had a gap in enrollment of more than four consecutive terms, consult an adviser about available catalog year options.

RCC has the right to terminate, suspend or reinstate its academic programs at any time. In the event a program is terminated or suspended, declared majors making significant progress each term in that academic year will be identified and formally advised of the program's status. RCC will then assist those students in completing requirements whenever possible as part of a formal teach out plan. Students who do not comply with the requirements of the plan may forfeit their rights to complete the program. Should that happen, students will be advised about other program opportunities that exist should they wish to choose another major.

Graduation Residency Requirement

Students must earn a minimum of 24 credits toward the degree at RCC to earn a two-year degree, a minimum of 12 credits toward a certificate at RCC to earn a one-year certificate, or at least 25 percent of total credits toward a less than one-year certificate or a Career Pathway certificate. The remainder of credits required to graduate may be transferred from an accredited institution or earned through credits for prior learning. No more than 25 percent of a programs credits may be earned through CPL.

Human development and career guidance

- Student Services Building, Redwood Campus, 541-956-7190
- G Building, Riverside Campus, 541-245-7552

The Human Development Department offers a variety of classes for students and community members, aimed at building personal skills and overcoming barriers to college success. Some offerings are:

- CG105, Scholarship Essay Writing. A 1-credit class that can help students write winning scholarship essays.
- CG100, College Success and Survival. A tuition-free, 2-credit class that provides information about RCC programs, choosing a major, and strategies for academic success.

- CG111, Study Skills for Math Success. Offers study tips, test taking strategies, and tools for anxiety reduction.
- CG140, Career Development. Provides tools for making informed career decisions.

Latino services

www.rogucecc.edu/LatinoServices

Educación, un Mundo de Oportunidades (EMO)

541-245-7722

EMO is a nonprofit one-day educational conference designed to assist Latino high school juniors and seniors from Jackson and Josephine counties. The conference provides relevant information about postsecondary education and other valuable resources for achieving success in college and beyond.

Helping Oregon Latinos Advance (HOLA)

541-245-7538

HOLA is a high school-to-college bridge program. The week-long course includes:

- Fun with new college friends.
- Learning how to be a successful college student.
- Research into college majors and careers.
- Mapping which classes to take.
- Identifying how to get money for college.
- Earning college credits at no charge.

The program also includes lunch, snacks, transportation and college gear. The summer program is in September. For more information, call 541-245-7538.

Southern Oregon Latino Scholarship Fund

www.solsf.org

The Southern Oregon Latino Scholarship Fund (SOLSF) provides opportunities for Latino and Hispanic students living in the southern Oregon region to complete their post-high school career and degree goals. Each year, with the help of generous community sponsors, SOLSF awards multiple college scholarships to students of Latino heritage.

Servicios Latinos

www.rogucecc.edu/LatinoServices

Educación, Un Mundo de Oportunidades (EMO)

541-245-7722

EMO que no tiene fines de lucro, presentará por un día solamente, una conferencia educa-

tiva para ayudar en los condados de Jackson y Josephine a estudiantes latinos de los grados 11 y 12. Esta conferencia tiene información relevante sobre la educación post secundaria y otros recursos valiosos para lograr el éxito en la Universidad y educación más avanzada.

Ayudano a Los Latinos de Oregon a Progresar (HOLA)

541-245-7540

HOLA es un programa transición diseñado para aumentar la preparación de los estudiantes de la escuela secundaria a RCC. La clase de una semana incluye:

- Visitar a los tres RCC campuses.
- Diviértase con nuevos amigos de RCC.
- Aprender a ser un estudiante universitario.
- Investigar las especializaciones y carreras de la universidad / colegio.
- Identificar cómo conseguir dinero gratis para su educación.
- Planificar qué clases tomar.
- Ganar créditos universitarios gratis.

La clase también incluye almuerzo, refrigerios, transporte y equipo estudiantil. Para más información contacte a 541-245-7538.

Fundación de Becas para Latinos del Sur de Oregon

www.solsf.org

La Fundación de Becas para Latinos del Sur de Oregon (SOLSF) provee oportunidades para estudiantes latinos/hispanos que viven en la región del sur de Oregon para completar sus metas post-secundarias en sus carreras. Cada año, con la ayuda de generosos patrocinadores comunitarios, la SOLSF les otorga múltiples becas universitarias a estudiantes con herencia latina."

RCC Mobile App for Students "Rogue Connect"

Rogue Community College offers a free social media app for mobile devices that allows RCC students to easily communicate with each other, get important messages from departments and clubs, keep up with campus events, explore maps and college services, play mobile games and more.

To download Rogue Connect, search "Rogue Community College" in the Apple App Store or Google Play. Find links on the web at: <http://rogucecc.campusapp.com>.

Rogue Central

www.rogucecc.edu/Enrollment/RogueCentral.asp and RCS@rogucecc.edu

- Student Services Building, Redwood Campus
- G Building, 2nd floor, Riverside Campus
- Room 187, Table Rock Campus

Registration, cashiering and financial aid services are available at one convenient location on each campus. Rogue Central handles all payments made by students including tuition, fees, and tuition installment plan payments.

Student life

www.rogucecc.edu/StudentLife

- Student Center/Cafeteria, Redwood Campus, 541-956-7033
- G Building, Riverside Campus, 541-245-7727

Rogue Community College student life programs provide opportunities for students to develop and enhance leadership skills and gain experiences that benefit the college community. Programs include the traditional student development activities of student government, student activities, and student clubs.

Athletics department

The Rogue Community College Ospreys became a member of the Northwest Athletics Conference (NWAC) in 2015. As a member of the southern region of the NWAC (www.nwacsports.org), RCC hosts men's and women's soccer, cross country, and long distance track. RCC team colors are blue and green. For more information or to apply as an athlete, go to athletics.rogucecc.edu. Go Ospreys!

Clubs

<http://web.rogucecc.edu/asgrcc/asgrcc-clubs>

ASGRCC Offices:

- RWC Student Center, 541-956-7033
- RVC G Building, 541-245-7729

The Associated Student Government of Rogue Community College (ASGRCC) provides the initial funding for on-campus clubs and organizations. The roster of clubs may change each year depending upon interest and active participation. Some examples of clubs are Christ on Campus, Club Latino, Veterans Club, Green Campus Initiative, and the Drama Club.

Students interested in more details or in initiating a new club on campus should contact the director of clubs or stop by the ASGRCC offices on the Redwood or Riverside campuses.

El Club Latino

www.rogucecc.edu/ClubLatino

541-245-7729 o 245-7722

El Club Latino de los condados de Josephine y Jackson son una de las más grandes y activas asociaciones estudiantiles del campus de Riverside. Los miembros participan en actividades escolares y comunitarias en los dos condados para beneficiar e instruir la comunidad latina en cuanto a una variedad de asuntos.

Honor Society

(Alpha Zeta Pi)

Facebook: Alpha Zeta Pi-Rogue Community College

www.rogucecc.edu/AZP

Faculty Advisor: ntheis-coulter@rogucecc.edu

Academic excellence is the primary hallmark of Alpha Zeta Pi along with service and leadership opportunities. Service projects occur once a term and benefit RCC and/or the community. Candidates are identified three times a year and invitations to join are emailed to candidates using the following criteria fall, winter and spring terms:

1. Attain a cumulative GPA of 3.65 with a minimum of 24 college transferable credits.
2. Have no more than one "W" on transcripts the pass two terms.
3. Be enrolled at least eight credits.

Membership in Alpha Zeta Pi provides academic recognition on member transcripts, honors regalia at graduation, and on graduation program. An Induction Ceremony and Dinner in May further recognize members with their families and friends. There are several textbook scholarships available for application with Alpha Zeta Pi winter term as well as utilizing membership on other scholarships. Alpha Zeta Pi also has its own hoodie and T-shirts available.

Intramural sports

- ASGRCC Office, Student Center/Cafeteria, Redwood Campus, 541-956-7033
- ASGRCC Office, G Building, Riverside Campus, 541-245-7729

Intramural sports such as badminton, basketball, volleyball, and softball are coordinated through the Associated Student Government of Rogue Community College (ASGRCC) and the Health, Physical Education and Recreation (HPER) Department. Students

interested in intramural on-campus activities such as tournaments are invited to contact the ASGRCC Intramural coordinator.

Student government

www.roguecc.edu/ASGRCC

- Student Center/Cafeteria, Redwood Campus, 541-956-7033
- G Building, Riverside Campus, 541-245-7729

The Associated Student Government of Rogue Community College (ASGRCC) coordinates student activities and clubs, supports special events, represents the students to the college administration, and works on political issues. General fund allocations contribute funding for cultural activities, guest speakers and entertainers, and special campus events. ASGRCC also provides assistance to campus departments by helping fund academic and cultural field trips.

Officers presiding in the following positions are appointed by the ASGRCC Executive Council:

- President
- Vice President
- Director of Activities
- Director of Clubs and Organizations
- Health and Wellness Coordinator
- Executive Secretary
- Diversity Coordinator
- Director of Publicity and Media
- Student Senator

Student government officers receive a stipend for their services to the student body and the college campus. Ad hoc representatives may be appointed to paid and/or volunteer positions.

Positions may vary on each campus.

Student Services Assistants

Student Services Assistants (SSAs) are a select group of students trained to assist other RCC students. They assist with scheduling placement tests, help with computerized career programs, and provide information about college procedures and resources.

Wellness activities

- ASGRCC Office, Student Center/Cafeteria, Redwood Campus, 541-956-7033
- G Building, Riverside Campus, 541-245-7729

The Associated Student Government of Rogue Community College (ASGRCC) Wellness Program encourages students to seek

lifestyles which enable them to achieve their highest potential of wellbeing. ASGRCC works with the Health, Physical Education and Recreation Department to schedule events designed to achieve this mission.

TRiO programs

TRiO/Educational Opportunity Centers

www.roguecc.edu/TRiOEOC

- L Building, Redwood Campus, 541-956-7097
- G Building, Riverside Campus, 541-245-7699

The TRiO Educational Opportunity Centers provide counseling, information, and assistance on all aspects of college admissions to prospective students who want to enter or continue a program of postsecondary education. Serving Jackson and Josephine counties, TRiO/EOC provides services free of charge to income qualified participants, including:

- Academic advice.
- Application assistance.
- Assistance in completing admissions applications.
- Assistance with test and college admission fees.
- Career workshops.
- College research.
- FAFSA completion assistance.
- Pre-college testing assistance.

Eligible participants must meet one of the following criteria: be a first-generation college student (neither parent has a bachelor's degree); be classified as low income by federal guidelines; or be a U.S. citizen, national, or permanent resident with an alien registration number.

TRiO/Educational Talent Search

www.roguecc.edu/TRiOETS

Table Rock Campus, 541-245-7747

The TRiO Talent Search program serves middle and high school students in Jackson County who may benefit from services designed to enhance persistence and graduation rates. Services are offered at no cost to eligible participants attending target schools.

Services include:

- Support for high school and middle school students (grades 6-12).
- Grade-specific "college-prep" workshops.
- Academic and pre-college planning activities.

- Assistance in completing financial aid and admissions applications.
- Academic tutoring and mentoring.
- Assistance with pre-college test preparation.
- College application and test fee waivers.

Eligible participants must meet one of the following criteria: be a first-generation college student (neither parent has a bachelor's degree); be classified as low income by federal guidelines; or be a U.S. citizen, national, or permanent resident with an alien registration number.

University Transfer – TRiO/Student Support Services

www.roguecc.edu/TRiOSSS

Redwood Campus, Josephine Building, 541- 956-7342

Riverside Campus, G Bldg. 207, 541-245-7547

University Transfer – TRiO/SSS assists RCC students who intend to transfer to a four-year institution and complete a bachelor's degree. Students receive enhanced support at no additional charge as they successfully complete RCC courses and prepare to transfer.

Eligible students must meet one of the following criteria: have been raised by parents or caregivers who have not earned a bachelor's degree, have financial barriers, or have a documented disability.

Students also must have completed or be enrolled in MTH65 and WR115.

Services provided by University Transfer – TRiO/SSS:

- Academic and transfer advising.
- Career guidance and financial literacy.
- Peer tutoring and mentoring.
- Scholarship and financial literacy workshops.
- Study groups for college success.
- Student lounge with computers and kitchen area.
- University tours and cultural activities.
- Tuition-free transfer classes.

Each TRiO Student Support Services program at Rogue Community College is funded by federal TRiO grants that average \$233,792 per year.

Veterans Services

www.roguecc.edu/veterans

- Redwood Campus, Student Services Building, 541-956-7109
- Riverside (G building) and Table Rock Campuses, 541-245-7738

Veteran Services are available to RCC students in Jackson and Josephine counties.

Transcripts

Veterans receiving GI Bill benefits, while attending RCC, are required to obtain official transcripts, military transcripts and all previously attended colleges, universities and technical schools. Veterans submitting transcripts will receive priority evaluation in an effort to not duplicate courses.

Send official transcripts to:
Rogue Community College
3345 Redwood Hwy
Grants Pass, OR 97527

Getting Started at RCC

For information about starting at RCC and obtaining Veterans Educational Benefits, visit the RCC Veteran Services website. The website will direct you to completing your FAFSA (Financial Aid) application. If you have questions on how to get started at RCC, please contact a Veterans coordinator on the Redwood or Riverside campuses.

RCC offers veteran students with assistance of the GI Bill application process, priority registration, Boots to Books Orientation training, on and off campus Veteran resources, and VA Work-Study opportunities. Our Veterans coordinators will help you make the transition from service member (and dependent) to successful RCC student and graduate.

Apply for your Veterans Benefits

To apply for your Veteran Educational Benefits please visit [Vets.gov](https://www.vets.gov/education/) at <https://www.vets.gov/education/>. When you receive your Certificate of Eligibility, please see a Veterans coordinator who will complete your Enrollment Certification Form 1999 and forward it to the VA for processing. Veterans coordinators at RCC are unable to determine a student's eligibility for benefits. Veterans are welcome to access Veterans coordinators prior to receiving their Certificate of Eligibility or Enrollment Certification (form 1999) for planning purposes.

Boots to Books Veterans Orientation

The Veterans Department at RCC assists veteran students who are utilizing their educational benefits to attend college. The Boots to Books orientation for new students is one hour and mandatory when you begin your academics at RCC. You will learn how to access benefits specific to your chapter, how to navigate the college systems, and find resources to compliment your college experience. Visit the Veterans website to sign up electronically.

Veteran Resource Center

- Redwood Campus - Student Center Building, 541-956-7289
- Riverside Campus - G Building, 541-245-7749

Rogue Community Colleges VRC Mission Statement:

At Rogue Community College our Veterans Resource Centers (VRC) are committed to assisting military students, dependents and spouses to transition successfully from the military environment to campus life as they learn to navigate through the education process and progress toward completing their academic degree.

Assistance includes:

- Financial aid and disability services.
- GI bill application.
- Peer-to-peer support.
- Campus and RCC website navigation.
- Scholarship applications.
- MyRogue student portal assistance.

VRCs offer veteran students a collaborative and cooperative environment from every branch and era of service.

Veterans Access, Choice, and Accountability Policy

The following individuals shall be charged the in-state rate, or otherwise considered a resident, for tuition and fees purposes:

- A veteran using educational assistance under either chapter 30 (Montgomery G.I. Bill - Active Duty Program) or chapter 33 (Post-9/11 G.I. Bill), of title 38, United States Code, who lives in Oregon while attending a school located in Oregon (regardless of his/her formal State of residence) and enrolls in the school within three years of dis-

charge or release from a period of active duty service of 90 days or more.

- Anyone using transferred Post-9/11 GI Bill benefits (38 U.S.C. § 3319) who lives in Oregon while attending a school located in Oregon (regardless of his/her formal state of residence) and enrolls in the school within three years of the transferor's discharge or release from a period of active duty service of 90 days or more.
- Anyone described above while he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the same school. The person so described must have enrolled in the school prior to the expiration of the three year period following discharge or release as described above and must be using educational benefits under either chapter 30 or chapter 33, of title 38, United States Code.
- Anyone using benefits under the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311(b)(9)) who lives in Oregon while attending a school located in Oregon (regardless of his/her formal State of residence).
- Anyone using transferred Post-9/11 G.I. Bill benefits (38 U.S.C. § 3319) who lives in Oregon while attending a school located in Oregon (regardless of his/her formal state of residence) and the transferor is a member of the uniformed service who is serving on active duty.
- The policy shall be read to be amended as necessary to be compliant with the requirements of 38 U.S.C. 3679(c) as amended.

Voter registration

Rogue Community College is committed to promoting voter registration and civic engagement among our students. The Associated Student Government is an active force in this effort and works to ensure each student is aware of voter resources. For more information and to register online, visit www.oregon-votes.org.

Resources

Activities calendar

www.roguecc.edu/Calendar

College events or activities planned at RCC and RCC-affiliated events to be held off campus may be included on the RCC activities calendar on the college website.

Use the online form to submit information for the activities calendar. Provide the name of the event and a thorough description: time, place, duration, contact name and phone number. Allow one to two days for the information to be posted.

Adaptive technology lab

www.roguecc.edu/DisabilityServices

- Tutoring Center, Wiseman Building, Redwood Campus, 541-956-7337, Oregon Telecom Relay Service, 711
- B Building, Room 9, Riverside Campus, 541-245-7537, Oregon Telecom Relay Service, 711

The Disability Services Adaptive Technology Lab provides adaptive computer access and other technology for students with disabilities.

Contact Disability Services to make an appointment for more information and for adaptive technology demonstrations and use. Disability Services also coordinates academic accommodations for eligible students with disabilities. Refer to "Disability Services" in this catalog.

Art gallery

www.roguecc.edu/Galleries

Wiseman Gallery

Redwood Campus, 3345 Redwood Hwy., Grants Pass, 541-956-7241

Works of visual art from a variety of aesthetic, cultural, and social points of view in a variety of media are displayed in the Wiseman Gallery. Exhibits celebrate a range of work by artists of local to national prominence, as well as annual exhibits of student and faculty work. Exhibits are juried, and change regularly. The Art Department galleries also collaborate with a variety of community organizations and businesses on cultural events.

RCC/SOU Higher Education Center art exhibits

www.rcc-sou.org

101 S. Bartlett St., Medford, 541-245-7741

Art created by RCC students, faculty and

alumni, community artists, and from the RCC collection is on display in the RCC/SOU Higher Education Center. Exhibits are meant to enrich the cultural life of the college at large; the artwork changes on a rotating basis.

ATM

Automated teller machines provided by Allpoint are available in the following locations:

- Redwood Campus, Student Center.
- Table Rock Campus, East Commons.

The Allpoint ATMs provide fee-free withdrawals or balance inquiries for students with BankMobile Vibe cards. The Allpoint ATM locator may be found at www.allpointnetwork.com. Call 800-809-0308 to access the voice assistance ATM locator.

Problems with an ATM should be reported by calling 800-948-5884.

Auto repair

S Building, Redwood Campus, 541-956-7175

Students in the RCC Automotive program repair cars that are 15 years old or newer when the work is related to their classes. Students and community members may bring their cars in for service. Call for an appointment. Charges are for parts, plus a \$25 service fee; there is no charge for labor.

Bookstores

bookstore.roguecc.edu

- N Building, Redwood Campus, 541-956-7160
- B Building, Riverside Campus, 541-245-7591
- Room 103, Table Rock Campus, 541-245-7870

The RCC bookstores offer course textbooks, study aids, clothing, gifts, fan gear, and a wide variety of school supplies. Books and items not in stock may be available by special order.

Bookstore hours will be posted at each location and at bookstore.roguecc.edu. Extended hours are offered during the first week of the term.

Textbooks may be returned for a full refund through Wednesday of the second week of the term, providing they are returned in the exact condition as purchased and accompanied by a receipt.

A textbook buyback is offered at the Redwood Campus and Riverside Campus bookstores during the last week of each term. See the Academic Calendar for buyback dates.

To help students cope with college affordability, RCC will aggressively pursue Open Educational Resources (OERs) to help reduce student costs. OERs are teaching and learning materials that students may use, share, and often adapt, without charge. Most OERs have been created by educators and funded by colleges and universities. Students can access the materials online at no cost or purchase a low-cost print version. Classes using OERs are clearly designated as low- or no-cost in the online schedule of classes.

Bulletin boards/posting

- Student Services Building, Redwood Campus, 541-956-7187
- Student Services, G Building, Riverside Campus, 541-245-7764
- RCC/SOU Higher Education Center, 541-552-8100
- Table Rock Campus 541-245-7821

Permission to post flyers and other information on RCC bulletin boards must be obtained from these offices.

Bus service

www.roguecc.edu/Maps

Regularly scheduled bus service in Grants Pass and Medford is available to RCC students with a current student ID and a bus pass purchased for the term.

Transportation in Josephine County is provided by Josephine Community Transit. The service picks up and delivers students to the Redwood Campus near the library. The Rogue Valley Commuter Line is operating between Grants Pass and Medford with transfers available to stops in the Medford-Ashland area. Call 541-474-5452 ext. 2 for more information.

In Jackson County, Rogue Valley Transportation District provides bus service. Schedules are available at the Counseling/Advising centers. Call 541-608-2423 for more information.

Check cashing

Tuition, books and supplies may be paid by personal check written for the exact amount.

Community resources Jackson County

HelpLine

www.community-works.org/helpline

541-779-4357; toll free at 1-855-216-2111

HelpLine is a free, 24-hour crisis hotline serving Jackson County. Trained volunteers and

staff address domestic violence, sexual assault, panic, depression, loneliness, isolation, suicide, homelessness, and other personal crisis. HelpLine also connects people in need to local crisis services including Dunn House Shelter (domestic violence) and Sexual Assault Victim Services (SAVS).

211 Info

211info.org or call 211

The Oregon 211 network provides free health and community-services resource information, including a guide to understanding the Veterans Health Administration, food-support grants, a guide to migrant worker health centers, and more.

Josephine County

Options for Southern Oregon

www.optionsonline.org

24-hour crisis line hotline: 541-474-5360

Options for Southern Oregon serves people of all ages who have mental health needs.

Women's Crisis Support Team

www.wcstjoco.org

24-hour crisis line: 541-479-9349 or 1-800-750-9278. Business line: 541-476-3877

Women's Crisis Support Team services are designed to help survivors of abuse. Free and confidential, all services include 24-hour crisis line, support groups, court advocacy, information and referrals, children's advocacy, emergency shelter, emergency transportation, community education and more.

Computer labs

- Coates Hall, Redwood Campus, 541-956-7424
- B Building, Riverside Campus, 541-245-7534
- RCC Library/Jackson County Central Library, 205 S. Central, Medford, 541-245-7512
- Table Rock Campus Library lab, 541-245-7820
- Table Rock Campus instructional lab, 541-245-7990
- Higher Education Center instructional lab, 541-552-8100

Excellent student computer facilities are available for all RCC students. Approximately 700 networked PC work stations are provided for student use. Most are connected to high-quality laser and color laser printers and image scanners.

In addition, all computers support access to the

internet, email, word processors, spreadsheets, data bases, graphic illustration, and nearly 100 other computer applications. Student data files can be saved on RCC's network servers. All students must have a valid computer user ID and password to gain access to the computer network and applications.

Computer labs are open about 80 hours per week, Monday through Saturday. All computer labs with the exception of the library are staffed by aides who assist students with hardware and software use. There are also several specialized computer labs maintained by individual instructional departments to cater to the specified needs of their students.

Copiers

Coin-operated copy machines for student use are available in the following locations:

- Library, Wiseman Center, Redwood Campus.
- Jackson County Central Library, Riverside Campus.
- East Commons, Table Rock Campus.
- Second floor, Room 218, RCC/SOU Higher Education Center, Riverside Campus.

Distance learning — Rogue Online

<http://rogucecc.blackboard.com>

RO@rogucecc.edu

- Riverside Campus, 541-245-7514

Earn credits toward a degree, or brush-up on work skills from home or office by taking Rogue Online courses. For many students, distance learning courses are the solution to managing full-time enrollment and full-time life.

Distance learning courses are similar to those held in a classroom. Students have a textbook, assignments and tests, an instructor and classmates. Students do not regularly attend class on campus but should devote at least as much time as they do to campus-based courses.

- Students must register for distance learning courses as they would for other RCC classes.
- To successfully complete a distance learning course, students need to be self-motivated, have good time management skills, and access to proper technology.
- Some distance learning courses require on-campus testing, labs or meetings.
- Because many online courses require students to watch streaming video programming, students should have access

to a computer connected to the internet (preferably high speed), a web browser, and good technical skills.

- Full technical requirements can be found at rogucecc.blackboard.com.

Getting started

Orientations are required for all RCC distance learning courses. In the majority of classes, instructors post their orientations online.

For students who are new to online learning or want to refresh their skills, technical orientation videos are posted on the Rogue Online website. Visit go.rogucecc.edu/department/distance-learning and click the "Rogue Online website" link.

For more information or support call 541-245-7514.

All online teachers expect students to participate in the class during the first week of the term. Students should check the syllabus to find out what instructors expect. Students not participating during the first week of classes will be subject to the administrative drop policy.

RCC schedules network maintenance every Friday from 2 to 8 a.m. Online courses may be unavailable during these times.

Fees

Fees for distance learning courses will be assessed at the following schedule:

1 credit course – \$10.

2 credit course – \$20.

3 credit course – \$30.

4 credit course – \$40.

NOTE: RCC's regular administrative drop policy applies to distance learning courses. For specific information on the steps needed to maintain course enrollment, visit rogucecc.blackboard.com.

Early Childhood Education Center – Head Start

Redwood Campus, 541-956-7309

The center was developed through a collaborative effort among RCC, Southern Oregon Head Start, Southern Oregon Educational Service District Early Childhood Services, and the City of Grants Pass.

The Head Start center serves 80 children aged 3-5 years old and their families. RCC parents who have low incomes or have chil-

dren with special needs are encouraged to apply. The lab school also provides teaching, learning and observation opportunities for RCC Early Childhood and Elementary Education program students, as well as students from other RCC departments and high school students.

Employer services

employment.roguecc.edu

Online, job-posting services are offered at no cost to community employers. For job postings, see the RCC website or call:

- Redwood Campus, 541-956-7091.

Food services

- Student Center/Cafeteria, Redwood Campus.
- RCC/SOU Higher Education Center, Riverside Campus.
- East Commons, Table Rock Campus.

The Student Center/Cafeteria on the Redwood Campus provides a selection of food and beverages. Hours are posted. Vending machines in the Student Center offer snack items after regular hours.

A small café operated by outside vendors is located in the RCC/SOU Higher Education Center. It serves a limited variety of lunch and breakfast items, and beverages including espresso.

At the Table Rock Campus, an espresso bar in the East Commons sells snack items. Hours are posted.

Health services

Health care is not provided at the college. First aid kits are available in administrative offices. Dial 911 for emergencies.

RCC offers student accident and illness plan insurance. RCC does not administer this plan. More information is available from Human Resources at 541-956-7329.

Instructional Media Services/IP Video Network

- Coates Hall, Redwood Campus, 541-956-7038
- G Building, Riverside Campus, 541-245-7514
- Table Rock Campus, 541-245-7826

Instructional Media Services provides equipment and media services for faculty and students. In most classrooms at RCC there is a full range of equipment installed

including projector, computer, document camera, and DVD/VHS player, all within a fully programmable touch panel system. Everything is available for staff and student use for presentations and projects.

IP video network services are also provided that include interactive video and audio connectivity available on all RCC campuses. Through this innovative system, classes are shared between RCC locations, meetings are conducted without participants having to drive, and connections are made to other community colleges and government agencies throughout Oregon. Web conferencing is available using the software system Zoom. This service allows participation in live classes or meetings from a computer equipped with a microphone, web cam and headphones.

International education

International education at Rogue Community College prepares students to become globally literate and to possess cross-cultural skills necessary to function effectively in an interdependent world. To further this purpose, RCC offers instruction in world languages, international studies, and cross-cultural communication.

Learning centers

www.roguecc.edu/ABS

- Riverside Campus Learning Center, G Building, Medford, 541-245-7701
- Illinois Valley Learning Center, Kerby Belt Bldg., Kerby, 541-956-7455
- Redwood Campus Learning Center, K Building, Grants Pass, 541-956-7253
- Learning Resource Center, Table Rock Campus, White City, 541-245-7820

General Education Development (GED), basic skills, English as a Second Language, and citizenship instruction for adults not enrolled in college credit classes are offered at RCC learning centers.

Students must attend an Adult Basic Skills orientation to be enrolled. Contact one of the above learning centers for orientation information.

Library Services

go.roguecc.edu/department/library-services

- Wiseman Center, Redwood Campus, 541-956-7152, Fax 541-471-3588
- Central Library, Riverside Campus, 205 South Central Ave., Medford, 541-245-7512

- Learning Resource Center, Table Rock Campus, 541-245-7820, Fax 541-245-7975

NOTE: RCC Libraries are closed during breaks between terms. Check the library website for normal hours of operation.

The RCC Library serves the college with comprehensive library services. Students may request books and other materials online through the library catalog, which then may be delivered to any RCC campus of choice. The RCC Library also provides database access to thousands of online journals and e-books.

Every RCC Library branch has a least one large networked computer lab available for student, staff and faculty use. All computers provide access to the internet, email, word processors, spreadsheets and other computer applications. High-quality laser printing also is available. All RCC libraries offer wireless access to the internet and small-group study rooms.

Reserve book rooms provide short-term checkout of textbooks and videos on loan from instructors; special assignment materials such as cameras, anatomical models, and graphing calculators.

Books, journal articles, and other materials not owned by the RCC Library may be borrowed without charge from library collections throughout the country using an inter-library loan service.

Information services include drop-in reference assistance, ready reference by phone and email, and in-depth research consultation. Reference librarians also instruct classes in research methods and technology, conduct library orientation tours, and collaborate with faculty in designing research assignments.

Lockers and showers

For students enrolled in physical education classes, lockers and showers are available in the Redwood Campus Gym, Grants Pass, and in C Building on the Riverside Campus, Medford. Students must supply their own locks, towels and personal items.

Lockers and showers also are available at the RCC/SOU Higher Education Center in Medford. Lockers are available for day-use only, and students must provide their own locks.

Mothering rooms

Facilities for nursing mothers are available to students and staff at these locations:

- Riverside Campus, B Building, 9th St. entrance.
- Redwood Campus, Gymnasium, women's locker room area.
- Table Rock Campus, Room 179.

The clean, private areas allow any breast-feeding mother on campus to breast feed or express milk. The rooms are accessible any time the buildings are open. For more information, contact Facilities and Operations.

Parking

www.roguecc.edu/Maps/Transportation.asp.

See pages 248-251 in this catalog for maps identifying available parking areas on or near all campuses. Parking in undesignated or restricted areas may result in fines and/or towing.

- Redwood Campus: Parking is free in designated lots.
- Riverside Campus: All parking adjacent to the campus is provided and monitored by Medford parking enforcement. Call 541-774-2082 for parking cost and permit information.
- Table Rock Campus: Parking is free in designated lots.

Restrooms

Public restrooms are available at these sites:

- Redwood Campus: Cafeteria/Student Center, Coates Hall, F, H, and L buildings, Josephine Building, Rogue Building, Student Services Building, T Building, Wiseman Tutoring Center and U Building (Gym).
- Riverside Campus: A, B, C and G buildings, Central Library, and the RCC/SOU Higher Education Center.
- Table Rock Campus: first and second floors.
- Business Development Center.
- Illinois Valley Learning Center.

Security

www.roguecc.edu/Safety

To contact RCC Security for any location, call 541-218-2930.

Rogue Community College has contracted security officers on site at the Redwood Campus 24-hours a day, seven days a week. RWC relies on local law enforcement for police services and on Rural/Metro Fire

Department and Grants Pass Department of Public Safety for fire safety services.

The Riverside Campus has security officers on site from 7 a.m. to 11 p.m., Monday through Friday and 7 a.m. to 7 p.m. on Saturdays. RVC relies on the Medford Police Department for police services and on the Medford Fire Department for fire safety services.

The Table Rock Campus has security officers on site when the campus is open for business Monday through Saturday.

TRC relies on the Jackson County Sheriff's Department for police services and Fire District 3 for fire safety services.

Emergencies

If an emergency exists:

- Call 911 without hesitation (dial 8+911 if calling from a college phone).
- Then call Security at 541-218-2930.

Emergency information is located in every RCC building. All information regarding emergency procedures/plans are available on the RCC Security website above.

Emergency phones

Black emergency phones are located on the Redwood Campus in buildings G, I and J. These phones allow the user to call either 911 or campus security. Black emergency phones are located in all RCC/SOU Higher Education Center classrooms.

Reporting crime

Crime victims, regardless of the severity the crime, are encouraged to report the incident to security. In an emergency, follow the above procedure (see Emergencies). Otherwise, victims or witnesses should call the security phone number. Crime reports and any follow-up investigation will be kept on file.

Further questions or concerns should be directed to security staff at 541-218-2930.

Vehicle emergencies

Students may call Security if they have a dead battery. Staff will assist if possible.

State government

Oregon elections are held in May and November. A list of state elected officials is available at www.oregonlegislature.gov.

Student centers/lounges

Student centers and lounges offer space for students to relax, study and enjoy meals.

On the Redwood Campus, the Student Center is open during normal college hours. Student government offices are located in the center, as are rest rooms and a game room. Food service is available in the adjacent cafeteria; hours are posted.

On the Riverside Campus the student lounge in G Building is open during normal college hours. Student government offices and the Veterans Resource Center are located off the lounge. A student lounge and coffee bar are located in the RCC/SOU Higher Education Center.

On the Table Rock Campus, the student lounge in the East Commons provides an espresso bar and food service. Hours are posted.

Student Employment Services

<https://www.governmentjobs.com/careers/roguecc/transferjobs>

- M Building, Redwood Campus, 541-956-7091
- Riverside Campus and Table Rock Campus, 541-245-7762

On-campus student employment is available to students enrolled in 6 or more credits and maintaining a minimum of 2.0 GPA. (Minimum GPA may be higher for some positions.) For job listings, visit <https://www.governmentjobs.com/careers/roguecc/transferjobs>.

For off-campus community positions please visit <http://employment.roguecc.edu>.

Student housing

Rogue Community College does not provide student housing. Listings for private housing may be posted on RCC bulletin boards, or students may contact a local property management service.

Substance abuse referrals

Rogue Community College is a drug-free institution on all campuses. Students who would like information regarding alcohol or drug treatment agencies are urged to contact the Counseling/Advising Department for assistance and referrals.

Testing centers

www.roguecc.edu/TestingServices

- Wiseman Center, Redwood Campus, 541-956-7340, FAX 541-471-3534
- G Building, Room 109, Riverside Campus, 541-245-7777, FAX 541-245-7651
- Learning Resource Center, Table Rock Campus, 541-245-7820, FAX 541-245-7975

The RCC Testing Centers provide monitored supplemental testing services for RCC credit courses (makeup, retake, accommodated), and online courses. In addition, the centers offer testing services for non-RCC exams (other institutions and agencies) for a fee of \$30 per exam. Photo ID is required for all exams.

TRS

RCC uses Oregon TRS (Oregon Telecommunications Relay Service), a free service that assists communications between people who use text telephones (TTYs) and people who use voice telephones. Specially trained operators facilitate communications between the two callers. Each call is handled

in strict confidence. Dial 711, to connect with a relay operator. The relay operator will dial the requested number and relay the conversation between the two callers.

- Disability Services, Redwood Campus, 541-956-7337
- Disability Services, Riverside Campus, 541-245-7537
- Disability Services, Table Rock Campus, 541-245-7537
- Oregon Telecom Relay Service, 711

Academic Success centers

www.roguecc.edu/AcademicSkills/Tutoring.asp

- Wiseman Center, Redwood Campus, Grants Pass, 541-956-7213
- G Building, Riverside Campus, Medford, 541-956-7213
- Learning Resource Center, Table Rock Campus, White City, 541-245-7820

RCC provides free, drop-in tutoring to students registered in credit courses. The primary areas of tutoring are math, writing and science, but professional tutors are prepared to assist students with most subjects. For cur-

rent schedules, call the appropriate center, or check the website given above.

RCC also has an online tutoring service for all RCC credit students. Visit the tutoring website for more options.

A technology center (computer lab) is located at each tutoring center. Services include assistance with a variety of subjects and computer access for any RCC student.

Vending machines

Vending machines with drinks and snacks are available at several locations.

- Redwood Campus: Josephine Building, Rogue Building, Student Center/Cafeteria, Wiseman Tutoring Center, Y Building.
- Riverside Campus: B and G buildings and RCC/SOU Higher Education Center.
- Table Rock Campus: East Commons and construction entrance.

Walking/jogging trail

A 1.6-mile walking/jogging trail winds through the forested area of the Redwood Campus. The Chuck Ruckman Memorial trail is named after a former RCC Forestry instructor who died in a plane crash in 1985.

Academic Success/Adult Basic Skills

Academic Success

www.roguecc.edu/AcademicSuccess

Instruction and tutoring in basic academics are available to students enrolled in credit courses. Academic Success classes prepare students for post-secondary coursework and successful participation in the job market; tutoring provides one-on-one help and guidance in basic academics.

Credit classes

Courses are offered in basic reading, writing and mathematics to prepare students for college-level courses. Academic Success also offers college-level courses in critical thinking, speed reading and vocabulary development.

Students must take a placement test to determine their academic levels before enrolling. Some Academic Success classes also may be required for certain career and technical programs.

NOTE: A student may receive federal and/or state financial aid for a maximum of 45 attempted developmental education credits (see the RCC Satisfactory Academic Progress policy brochure for a definition of "developmental education" credits). A student who is receiving financial aid and who enrolls in necessary developmental education credits beyond 45 must notify the RCC Financial Aid office in writing so that aid may be adjusted to reflect only eligible enrollment. Notification should be given to Rogue Central on any RCC campus.

Adult Basic Skills (ABS)

www.roguecc.edu/ABS

- Riverside Campus Learning Center, G Building, Medford, 541-245-7701
- Illinois Valley Learning Center, Kerby Belt Bldg., Kerby, 541-956-7455
- Redwood Campus Learning Center, K Building, Grants Pass, 541-956-7253
- Learning Resource Center, Table Rock Campus, White City, 541-245-7820

Students who need to learn basic reading, writing and math skills, prepare for GED® exams, learn English, or prepare for college placement tests may receive assistance through basic skills programs. There is a nominal charge for services.

New and returning Adult Basic Skills students should call a learning center in their area to schedule an ABS orientation.

In addition, employers who want to provide basic skills training for their workers may

contract for services that are designed especially for their work sites. Call one of the centers listed above for more information.

Adult Basic Skills classes

Adults who need to learn basic reading, writing and math skills may attend classes tailored for their needs and study independently in a learning lab with assistance from qualified instructors. Students also may use the RCC learning centers for basic skills review prior to taking the college placement test.

General Educational Development (GED®)

www.roguecc.edu/GED

Students who are 16 years of age and older and who do not have a high school diploma may prepare to take the General Education Development (GED®) exam in English or in Spanish.

GED instruction is \$65 a term. GED preparation in English is available at all campuses. GED preparation in Spanish is available in a classroom setting at the Riverside Campus Learning Center, G Building, and self-study with instruction is available on the Redwood Campus in Grants Pass and the Table Rock Campus in White City.

Students who are 16 or 17 years of age must present a referral for instruction or exemption from compulsory education from the school district in which they live before enrolling. Students who are home schooled under the auspices of the Southern Oregon Education Service District and who are 16 or 17 years of age must present a notification of home school enrollment letter and a referral for instruction.

The four-part GED examination covers social studies, science, literature and mathematics. Reading assessments in English or Spanish are required to ensure that students' skills are at secondary levels. Students who have reading skills lower than secondary level are referred to basic skills or ESL classes for basic skills review before entering the GED program.

GED® Testing

www.roguecc.edu/GED

- Redwood Campus GED examinations, Grants Pass, 541-956-7100
- Table Rock Campus GED examinations, White City, 541-245-7808

The GED exam is computer-based. Candidates register, schedule, and pay online at ged.com or by calling 877-392-6433. Four tests comprise the GED battery. The cost is \$38 per test. GED testing is available in

Jackson County at the Table Rock Campus and in Grants Pass at the Redwood Campus.

For an explanation of other requirements, visit the GED website at ged.com.

English Language Acquisition (ELA)

www.roguecc.edu/ABS/ESL.asp

- Riverside Campus Learning Center, G Building, Medford, 541-245-7579
- Redwood Campus Learning Center, K Building, Grants Pass, 541-956-7253

English language acquisition (ELA) instruction is \$65 per term.

Students learn to speak, read, write and comprehend spoken English in ELA classes. They also learn to use computers and educational software with the help of qualified instructors.

Services for employers

ELA program, Medford, 541-245-7556

Basic Skills and ELA classes can be adapted to the specific needs of employers and their employees. The Adult Basic Skills and the Customized Training departments at RCC contract with employers to satisfy their needs, design curriculum, and provide instruction. Classes can be held at the employer or employee work site or at one of the RCC campuses.

Destrezas Básicas para Adultos

www.roguecc.edu/ABS

- Riverside Campus Learning Center, G Building, Medford, 541-245-7701
- Illinois Valley Learning Center, Kerby Belt Bldg., Kerby, 541-956-7455
- Redwood Campus Learning Center, K Building, Grants Pass, 541-956-7253
- Learning Resource Center, Table Rock Campus, White City, 541-245-7820

Los estudiantes que necesitan aprender lectura básica, escritura y matemáticas, prepararse para los exámenes de GED, o, aprender inglés pueden recibir asistencia a través de programas de destrezas básicas. Hay un cargo nominal por los servicios.

Estudiantes nuevos y aquellos que estén de regreso al programa de destrezas básicas debe llamar a un centro de aprendizaje en su área para programar una orientación.

Además, los empleadores que quieran proporcionar entrenamiento de destrezas básicas para sus trabajadores pueden contratar los

servicios que están diseñados especialmente para sus lugares de trabajo. Llame a uno de los centros antes mencionados para obtener más información.

Los adultos que necesitan aprender lectura, escritura y matemáticas básicas pueden asistir a clases a medida para sus necesidades y el estudio de forma independiente en un laboratorio de aprendizaje con la ayuda de instructores calificados. Los estudiantes también pueden utilizar los centros de aprendizaje de RCC para revisar los conocimientos básicos antes de tomar el examen de colocación.

General Educational Development (GED) en español

www.roguecc.edu/GED

Los estudiantes que tengan 16 años o más y que no tengan un diploma de escuela preparatoria pueden prepararse para tomar el examen GED en Inglés o en Español.

La instrucción del GED cuesta \$65 por término o trimestre. Preparación para el GED en Inglés está disponible en todos los campus. Preparación para el GED en español está disponible a través de clases en aula en el campus de Riverside en el Learning Center, Edificio G, y el auto-estudio con instrucción parcial está disponible en el campus de Redwood en Grants Pass y en el Campus de Table Rock en White City.

Los estudiantes que tienen 16 ó 17 años de edad deberán presentar una remisión para la instrucción o la exención de la enseñanza obligatoria del distrito escolar en el que viven antes de inscribirse. Los estudiantes que son educados en casa, bajo los auspicios de Servicios Educativos del Distrito de Southern Oregon y que son 16 o 17 años de edad deben presentar una notificación acerca de la instrucción educativa en el hogar y una referencia de instrucción.

Las cuatro partes del examen de GED cubren las habilidades estudios sociales, ciencias, literatura y matemáticas. Las evaluaciones de lectura en Inglés o Español están obligados a garantizar que las habilidades

de los estudiantes se encuentran en niveles de preparatoria. Los estudiantes que tengan habilidades de lectura más bajas que el nivel de secundaria serán referidos a las clases de destrezas básicas o las clases de ESL para revisar los conocimientos básicos antes de entrar en el programa de GED.

Examen de GED

www.roguecc.edu/GED

- Redwood Campus GED Examiner, Grants Pass, 541-956-7100 or 541-956- 7167
- Table Rock Campus, GED Examiner, White City, 541-245-7808

El examen de GED ahora está basado en la computadora. Los candidatos pueden registrarse, reservar una hora de tomar el examen, y pagar por el examen por visitar GED.com o por llamar a 1-877-392-6433.

El examen consiste de cuatro pruebas en total. Las cuatro pruebas están administrados por \$38 por cada prueba. (Hay que pagar la tarifa directamente a la agencia que administra el examen, Pearson Vue.) Hay dos centros de exámenes en que se puede tomar el examen del GED: uno está ubicado en el condado de Jackson (Jackson County) en el campus de Table Rock; el otro está ubicado en el condado de Josephine (Josephine County) en el campus de Redwood.

El examen que ahora está ofrecido es una serie nueva del examen de GED. Los estudiantes quienes empezaron partes del examen de GED antes del enero de 2014 y no recibieron sus GEDs necesitan empezar el proceso de tomar el examen de GED de nuevo. Antes del enero de 2014, el examen fue administrado por papel y lápiz. A partir de enero de 2014, los estudiantes necesitan pasar cada prueba del examen de GED en el examen nuevo basado en computadora.

Para una explicación de otros requisitos, visite el sitio web de GED: <https://ged.com/>. También se puede encontrar más información acerca del programa de GED que ofrece RCC en la página web <http://www.roguecc.edu/GED/>.

Adquisición del idioma inglés (ELA)

www.roguecc.edu/ABS/ESL.asp

- Riverside Campus Learning Center, G Building, Medford, 541-245-7579
- Redwood Campus Learning Center, K Building, Grants Pass, 541-956-7253

Los estudiantes aprenden a hablar, leer, escribir y comprender inglés hablado en clases de ELA. También aprenden a usar las computadoras y software educativo con la ayuda de instructores calificados.

Servicios para los empleados

Programa de ELA, Medford, 541-245-7556

Técnicas básicas y clases de inglés como segundo idioma puede ser adaptado a las necesidades específicas de los empresarios y sus empleados. El programa de destrezas básicas para adultos de RCC y el departamento de entrenamiento personalizado se acopian con los empleadores para satisfacer sus necesidades, diseñar un currículo, y proporcionar instrucción. Las clases se llevará a cabo en el lugar de trabajo del empleador o el empleado, o en uno de los campus de RCC.

Policies

Children on campus

Only students who are enrolled in classes or labs may sit in on the classes or labs unless the individual instructor and/or department chair makes an exception.

Children 14 or younger are not permitted on campus unless directly supervised by a responsible adult. The responsible adult may be asked to remove any child or children who are being disruptive.

Exceptions to the above include students at RCC by invitation for special events or class field trips.

Copyright infringement

RCC complies with all laws relating to copyright materials. See RCC Administrative Procedures at www.roguecc.edu/GIAP.

Copyright infringement occurs when a copyrighted work is reproduced, distributed, performed, publicly displayed, or made into a derivative work without the permission of the copyright owner. This includes unauthorized peer-to-peer file sharing.

Copyright infringement may subject students to civil and criminal liabilities. They may be ordered to pay actual damages or "statutory" damages of not less than \$750 and not more than \$30,000 per work infringed. For "willful" infringement, a court may award up to \$150,000 per work infringed. A court also can assess costs and attorneys' fees.

Willful copyright infringement also can result in criminal penalties, including imprisonment of up to five years and fines of up to \$250,000 per offense. For more information, visit www.copyright.gov.

RCC librarians are available to help with copyright issues. Librarians can assist in obtaining copyright permissions and in locating materials in databases that may be used without the need to get copyright permission.

Notice of Non-Discrimination and Title IX Compliance

web.roguecc.edu/title-ix-and-sexual-misconduct

RCC values and respects the rights and dignity of all individuals. The college's Policy on Discrimination, Harassment, and Sexual Violence states that all employees and students shall be able to work and learn in an environment free of discrimination and harassment. Complaints about behavior that may be in violation of this policy will be

promptly investigated. This policy, complaint and investigation procedures, and contact information for trained coordinators may be accessed by visiting the above-referenced website, the Counseling/Advising Department, or Human Resources.

Satisfactory academic standing and progress

www.roguecc.edu/Enrollment/SASP

A student is considered to be in good academic standing and making satisfactory academic progress if the student maintains at least a 2.0 grade point average (GPA) each term and a cumulative GPA of at least 2.0 and/or successfully passes 50 percent of credits attempted, earning A, B, C, or P grades.

Academic warning status

A student will receive an academic warning if any of the following applies:

- 1) The student does not earn a term or cumulative GPA of 2.0.
- 2) The student does not pass 50 percent of the credits they attempt for two consecutive terms of enrollment.
- 3) The student earns a grade of Z, W, D, F, or NP twice for the same class.

At the end of the first term of unsatisfactory academic progress for these reasons, a student will receive a letter from the Counseling/Advising Department and a copy of the satisfactory academic progress policy, both attached to the report card. The letter will:

- Inform and explain academic status.
- Direct the student to an online workshop.
- Encourage the student to schedule an appointment with a Counseling/Advising Department representative. The purpose of the meeting is to create an academic assistance plan and to explain the impact of continued unsatisfactory academic progress.

A student will remain in academic warning status as long as the cumulative GPA remains below 2.0.

Academic probation status

If unsatisfactory academic progress continues, the student is placed on academic probation status.

Academic probation occurs if any of the following applies:

- 1) A student does not earn a term GPA of 2.0 for a second consecutive term of enrollment.

- 2) A student does not pass 50 percent of the credits attempted for three consecutive terms of enrollment.
- 3) A student does not earn a term GPA of 2.0 or does not pass 50 percent of the credits attempted while in academic warning status.
- 4) A student earns a grade of Z, W, D, F, or NP for the same course three times.

The status of a student placed on academic probation will be noted on his/her electronic grade report, except when probation occurs due to a student earning a grade of Z, W, D, F, NP for the same course multiple times.

A student will receive a letter attached to the report card about his/her academic status and instructions to attend a mandatory meeting with a counselor. A student cannot register until an academic assistance plan is created with the counselor. Credit restrictions may be imposed, and/or counseling may be required. The student may be required to complete a prerequisite course for a course attempted three times unsuccessfully. Faculty from the Disability Services Office and the Counseling/Advising Department will determine appropriate action when a student does not complete the same class three times.

For any courses dropped as a result of credit restriction for the following term, the student will receive a 100 percent refund.

A student will remain in academic probation status when a term GPA of 2.0 and a successful completion rate of 50 percent of attempted credits, earning A, B, C, or P grades are achieved, but the cumulative GPA remains below 2.0.

Academic suspension

Academic suspension is based on consecutive terms of unsatisfactory progress and is noted on a student's permanent electronic file.

A student will be academically suspended from the college if:

- 1) A student does not earn a term GPA of 2.0 for three consecutive terms of enrollment.
- 2) A student does not pass 50 percent of attempted credits for four consecutive terms of enrollment.
- 3) A combination of term GPA below 2.0 and a completion rate less than 50 percent of attempted credits for three consecutive terms.

At the end of these terms of unsatisfactory academic progress, the director of Enrollment Services will notify the student in writing

that he/she has been academically suspended from further enrollment in credit classes at RCC until reinstated.

A student academically suspended for the first time will not be allowed to register for credit classes for the subsequent term following academic suspension.

A student academically suspended more than once will not be allowed to register for credit classes for one full academic year beginning the term after academic suspension. A student may ask to return in the corresponding term in the next academic year. A student must appeal for reinstatement in person to the Academic Review Committee.

A student must complete an Academic Return Packet to appeal for reinstatement (forms are available on the RCC website in Forms for Students). All instructions provided in the packet must be followed precisely in order to be considered for reinstatement. The completed packet must be submitted to the Counseling/Advising Department chair by the deadline noted in the return packet. A student may schedule an appearance before the Academic Review Committee if desired or required.

The Academic Review Committee may be composed of the Counseling/Advising Department chair, the Director of Enrollment Services, an instructor, a transcript evaluator, the committee secretary, and representatives from the Counseling/Advising Department and Financial Aid. The chair of the Academic Review Committee will notify the student of the committee's decision in writing within five days of the committee's decision.

If the committee denies the reinstatement, the student has the right to appeal the decision through the vice president of Student Services. The appeal process may be found on the RCC website. (See Students' Rights, Freedoms and Responsibilities), For questions, please contact the Counseling/Advising Department.

Student rights, freedoms and responsibilities

PREAMBLE

Rogue Community College (RCC or the College) provides an environment, which encourages learning. The College is dedicated to the open exchange of knowledge and skills, growth in student capacity for critical thinking, and development of ethically sensitive and responsible students. The College recog-

nizes that all individuals and groups at RCC have dignity and worth.

Learning and teaching are inseparable aspects of academic pursuit. Standards of academic rights and freedoms for students, as outlined below, are essential. Students have responsibilities for performance and conduct. Students' enrollment (or attempted enrollment) implies their acceptance of the responsibility to comply with college policies and procedures.

PURPOSE

The basic purposes of the Student Rights, Freedoms and Responsibilities Statement ("Statement") are:

1. To identify fundamental provisions for students' rights and freedoms to learn; and,
 - a. To provide a process for resolution to alleged violations.
2. To identify student responsibilities and conduct guidelines; and,
 - a. To provide a process for resolution to alleged violations.

1. ACCESS TO THE COLLEGE AND EDUCATION

RCC believes in an open-door philosophy and within the limits of its resources, will be open to all students who are qualified according to current admissions requirements. The College complies with Titles VI and VII of the Civil Rights Act of 1964, Title IX of the Educational Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1992 and other applicable laws and regulations. In compliance with state and federal laws, RCC does not discriminate on the basis of race, color, religion, sex, pregnancy, disability, national origin, citizenship status, ancestry, age, order of protection status, genetic information, marital status, sexual orientation (including gender identity), arrest record status, military status, unfavorable discharge from military service, or any other characteristic protected by federal, state, or local law in employment, or in any of its educational programs, or in the provision of benefits and services to students.

2. THE CLASSROOM

In the classroom and in conference with students, the instructor should include opportunity for free discussion, inquiry, and expression related to course content. Student academic performance shall be evaluated solely

on an academic basis and not on opinions or conduct in matters not related to curricular standards.

2.1. Protection of Freedom of Expression

Students are free to take reasoned exception to the material or views offered in any course at an appropriate time and in a non-disruptive manner. Students may reserve judgment about matters of opinion. However, students are responsible for satisfactory attendance and learning the content of any course in which they have enrolled and may expect their instructors to help them accomplish the goal of learning.

2.2. Protection Against Improper Academic Evaluation

Academic evaluation of student performance by instructors shall be based on academic performance and under no circumstances be prejudicial or capricious. At the same time, students are responsible for maintaining the standards of academic performance established by instructors for the courses in which they have enrolled.

Each instructor shall give students clearly stated written criteria for evaluation. To appeal an academic evaluation (grade) within the past year (four academic terms), a student may start the process by discussing the grade method in question with the instructor.

If a student is not satisfied with the outcome of their discussion with the instructor, they may appeal the decision to the department chair. If a student believes further appeal is warranted they may appeal a department chair's decision to the dean, Instructional Services, of the school where the instructor's program resides. If a student is not satisfied with the dean's decision, an appeal may be made to the vice president, Instructional Services. Any decision made by the vice president is final.

The Grade Appeal Procedure provides the student with a process for appealing a final course grade when he or she believes an improper evaluation has occurred. "Improper evaluation" is defined as: (1) the evaluation standards and grading criteria contained in the course syllabus were not followed by the instructor; or (2) the final grade was imposed in an arbitrary or capricious manner.

For academic evaluation (grade) appeals applied to grades older than one year (at least five terms prior), the student may file an Academic Record Change form for this

purpose. The form may be accessed at <http://web.roguecc.edu/enrollment-services/forms-students>.

2.3. Protection Against Improper Disclosure

Information about individual student views, beliefs, and political associations, which RCC staff may acquire in the course of their work as employees, is typically considered confidential. Judgments of student ability and character may be provided under appropriate circumstances. For example, recommendations for scholarships, employment, program admission, or other related academic issues.

3. STUDENT RECORDS

The Family Educational Rights and Privacy Act (FERPA) provides for the protection of student records. Consistent with FERPA, RCC has published a separate procedure identifying information, considered part of a student's educational record, conditions for its disclosure, and security practices, which control access to such records as may be available for review or electronic transmission. The College accumulates data and keeps records in order to plan educational activities that meet the needs of students and to effectively advise and counsel them. Student records are used to promote instruction, for guidance, and educational progress.

Academic and disciplinary records will be maintained separately to minimize the risk of improper disclosure. Academic transcripts contain only information about academic status. No records will reflect the political activities or beliefs of students. Instructors and administrative staff will not divulge confidential information about students, which they acquire in the course of their work.

4. STUDENT RIGHTS

RCC maintains certain standards to protect the rights of students through the procedures below:

4.1. Freedom of Association

Students bring to RCC a variety of interests. They develop new interests as members of the College community. They may organize and join collegiate clubs and organizations to promote their common interests, subject to the following considerations:

4.1.1. Membership Policies

4.1.1.1: Student Clubs: Student clubs are open to all students without regard to race, color, gender, religion, age, sex, national origin, disability, marital status, veteran status, or sexual orientation. The membership, poli-

cies, and actions of a student organization are typically determined by the vote of those individuals who hold bona fide membership in the College community.

4.1.1.2: Student Organizations

Student organizations are generally affiliated with a larger, national or regional organization. Student organizations, including those affiliated with an external organization, are open to all students without regard to race, color, religion, age, sex, national origin, disability, marital status, parental status, veteran status, or sexual orientation. However, organization criteria may limit membership options. For example, grade point average may be limiting criteria.

4.1.1.3: Recognition

As a condition of the College's recognition, student organizations are required to submit to the Associated Student Government of RCC's (ASGRCC) Executive Council a statement of purpose, criteria for membership, operational procedures, current list of officers, and number of active members.

4.1.2. College Advisors

- Student Clubs: Student clubs typically choose their own college advisor. Clubs chartered by ASGRCC must have an advisor who is an RCC employee. College staff members serve the College community when they accept the responsibility to advise student organizations. In the course of such duties, the advisors have an obligation to protect the general interests of the College.
- Student Organizations: Student organizations, such as the RCC Honor Society typically have a college advisor assigned to them. College staff members serve the College community when they accept the responsibility to advise student organizations. In the course of such duties, the advisors have an obligation to protect the general interests of the College.

4.2. Freedom of Inquiry and Expression

Students, student clubs, and student organizations may examine and discuss all questions of interest to them and express opinions publicly and privately. They may support causes by orderly means, which do not disrupt college operations. At the same time, it should be made clear to the academic and larger community that, in their public expression, students, student clubs, and student organizations speak for themselves and not as representatives of the College or the College community.

Students, student clubs, and student organizations may invite individuals as presenters for forums outside of classes regardless of race, color, gender, religion, age, sex, national origin, disability, marital status, veteran status, or sexual orientation. However, the time, place and manner of the presentation must be made in advance in consultation with the student club/ organization advisor. Guest speakers and presenters, individuals or groups, who may disagree with the speakers, will not disrupt college operations. It should be made clear to RCC and the College's larger community that student sponsorship of guest presenters does not necessarily imply approval or endorsement of the views expressed either by the sponsoring group, individual, or RCC.

5. FREEDOM FROM DISCRIMINATION AND HARASSMENT

Students have the right to attend RCC free from discrimination and harassment. The College does not discriminate on the basis of race, religion, color, national origin, age, sex, sexual orientation, marital status or disability in employment, or in any of its educational programs, or in the provision of benefits and services to students.

5.1 Sexual Discrimination, Harassment, and Assault

All RCC students have the right to be free from sexual discrimination, sexual harassment, and sexual assault. For more information on RCC's procedure for addressing sexual discrimination, harassment, or assault allegations go to the College's Administrative Procedure-047 (AP-047, Discrimination, Harassment, and Sexual Violence. AP-047 is available at <http://web.roguecc.edu/sites/web.roguecc.edu/files/Sites/GIAP/pdf/Discrimination%20and%20Harassment%20AP-047.pdf>. Alternatively, go to RCC's Title IX and Sexual Misconduct webpages: <https://web.roguecc.edu/title-ix-and-sexual-misconduct> or by searching Title IX on the College's website.

5.1.1 Title IX Coordinators

RCC has designated the following individuals as Title IX Coordinators. Any student who feels they have been the victim of sexual discrimination, harassment, or assault can contact a Title IX Coordinator who will work with the student to respond to the incident. The Title IX Coordinators contact information is below

Deputy Title IX Coordinator for Students:
Chauncey Kieley, Compliance Coordinator

541-245-7632; ckielej@rogucecc.edu
Riverside Campus, Building G, Room 224

Deputy Title IX Coordinator for Staff:
Sara Moye, Director of Human Resources
and Risk Management
541-956-7017; smoye@rogucecc.edu
Redwood Campus, Building M

Lead Title IX Coordinator:
Kori Ebenhack, Vice President of Student
Services
541-956-7196; kebenhack@rogucecc.edu
Redwood Campus, Student Services Building

5.1.2. Counselors as a Resource

If a student feels he or she has been the victim of discrimination based on any of the protected classes mentioned in Section 5 it is recommended they meet with a counselor in the Counseling Department. Counselors are the only RCC employees who can offer confidentiality. All other employees are required to report incidents of alleged discrimination. Counselors can be reached by dialing 541-245-7552 (Riverside Campus); 541-956-7192 (Redwood Campus); or, 541-245-7863 (Table Rock Campus).

6. STUDENT PARTICIPATION IN COLLEGE GOVERNANCE

As members of the College community, students are free to express their views on issues of college policy and matters of general interest to the student body. Students may participate in formulating and applying policies and procedures affecting academic and student affairs through student government as well as through the various college councils and committees. If students are interested in participating, it is recommended they meet with their club or organization advisor.

Additionally, students may make presentations to the RCC Board of Education, as citizens, by contacting the Assistant to the Board of Education at 541-956-7001 and requesting to be added to the next monthly Board meeting agenda.

7. STUDENT PUBLICATIONS

Student publications and the student press are valuable aids in establishing and maintaining an atmosphere of free and responsible discussion and intellectual exploration at the College. These are ways to bring student concerns to the attention of the faculty and college authorities and of formulating student opinion on various issues in the College, its community, and the world-at-large.

RCC is legally the publisher of all recognized student publications. College authorities, in consultation with students, may provide written clarification of the role of student publications, standards used in evaluation, and degrees of operational control. At the same time, the editorial freedom granted by the College to student editors and managers entails accompanying responsibilities to be covered by the canons of responsible journalism, such as the avoidance of libel, indecency, undocumented allegations, attacks on personal integrity and the techniques of harassment and innuendo. The Code of Ethics of the Society of Professional Journalists, Sigma Delta Chi shall be adopted and used. College staff advisors have the responsibility to review copy to protect RCC from legal actions relating to obscenity, criminal or civil libel, or copyright infringement.

In addition to the rights contained in current student publication guidelines, the following provisions serve as safeguards for the editorial freedom and responsibility of student publications:

7.1. Censorship

Student publications and the student press are free from censorship and advance approval of copy except staff advisor review as noted above. Student editors and managers, in consultation with their advisors, should develop written procedures for editorials and news coverage.

7.2. Removal

Student editors and managers of student publications are protected from arbitrary suspension and removal because of student, faculty, administrative, or public disapproval of editorial policy or content.

7.3. Disclaimer

RCC-recognized student publications shall explicitly state on the editorial page "the opinions expressed are not necessarily those of the College or student body."

8. OFF CAMPUS

8.1. Exercise of Rights of Citizenship

RCC students are both citizens and members of the College community. As citizens, students have the same freedoms of speech, right to peaceful assembly, and right to petition as other citizens. As members of the College community, students are subject to the obligations which accrue to them by virtue of this membership. International students, though

holding citizenship in another country, are considered members of the College community.

8.2. Institutional Authority and Civil Penalties

Activities of students may sometimes result in violation of law. Students who violate the law may incur penalties prescribed by civil authorities. College authority is not used merely to duplicate the function of general laws. RCC's special authority may be asserted at those times when its interests are involved.

9. STUDENT CODE OF CONDUCT AND PROCEDURES

9.1. Student Code of Conduct

As active learners, students at RCC have the responsibility and opportunity to engage in their own learning in order to master course outcomes and achieve success both in and out of the classroom. The RCC Student Code of Conduct ensures that each member of the RCC community has an opportunity to experience success. RCC provides an environment that encourages an open, responsible, respectful exchange of opinions, ideas, and information. As such, each student is expected to abide by the Student Code of Conduct as outlined below.

The following behaviors are prohibited by the Student Code of Conduct:

9.1.1. Defying college authority, engaging in willful disobedience, or otherwise disrupting the educational process. This does not prohibit students from taking reasoned

9.1.2. exception to material or views offered by instructors or others, or expressing views relevant to the instruction in an academically appropriate and reasoned manner.

9.1.3. Academic unreliability manifested through repeated violations of academic dishonesty, furnishing false information, impersonating another, or forging, altering or misusing college documents, records or identification.

9.1.4. Threatening the safety of themselves or others, disrupting the educational process, or otherwise violating college policies or procedures.

9.1.5. Engaging in disorderly, abusive, lewd, obscene, or violent behavior. These conducts pertain to both in person and/or online behaviors.

9.1.6. Stealing or damaging RCC property or college community members' property, which includes, but is not limited to, course material and examinations, and students' books and supplies.

9.1.7. Using college funds, college-owned equipment, electronic resources or supplies for personal, pornographic or other unauthorized purpose.

9.1.8. Illegal or unauthorized distribution, possession, use or being under the influence of alcohol or marijuana, illegal drugs or controlled substances on college property or at college-sponsored or supervised functions.

9.1.9. Personal or any other unauthorized possession of explosives, firearms, dangerous chemicals, or other weapons on college property or at college-sponsored and supervised functions.

9.1.10. Physically or verbally abusing, coercing, menacing, threatening, intimidating, or otherwise harassing any member of the College community regardless of geographic location. These conducts pertain to both in person and/or online behaviors.

9.1.11. Engaging in sexual misconduct. Sexual misconduct includes but is not limited to: sexual harassment, sexual assault, sexual abuse, stalking, dating violence, and domestic violence. See AP-047 at <http://www.roguecc.edu/GIAP> for more information. Interpretations of the above terms may be provided by reference to law and to college policy.

9.1.12. Misuse of Permission Code. Permission Codes are given to students by instructors when a student wishes to add a class after the first week of term but before the add/drop deadline or when a student is moved from the waitlist to being fully enrolled in the course. Students are not guaranteed a permission code – availability is subject to class size and logistical limitations. Permission Codes are to be used only by the individual given the code. Sharing a Permission Code with another student will result on both students being administratively dropped from the course.

9.2. Procedures for Resolution of Alleged Violation of the Student Code of Conduct

Complaints regarding alleged violation of the

Student Code of Conduct will be reviewed and resolved using the procedures outlined below. If the review or investigation confirms the student's violation of the Code of Conduct, one or more disciplinary actions and sanctions listed in Section 9.3 will be imposed.

All documentation related to any such action will follow established filing procedures. These procedures will include written copies to the student and the vice president, Student Services/ Chief Student Services Officer, and a copy stored electronically in the RCC incident reporting database. Appropriate campus parties will be notified. Information about student disciplinary action is protected against improper disclosure and is not included in student academic records in accordance with FERPA and amendments.

9.2.1. Direct Resolution

When any member of the College community believes a student has violated one or more of the standards of the Student Code of Conduct, he or she is encouraged to seek resolution directly with the student. However, if personal safety is at risk, contact 9-1-1 or campus security personnel at 541-218-2930. All students and staff are encouraged to file an Incident Report located at: <https://roguenet.roguecc.edu/IncidentReport/>, including proposed resolution and/or action. Direct resolution is not appropriate for all cases. For example, direct resolution is not appropriate when a student is accused of a violation that relates to sexual misconduct.

9.2.2. Compliance Coordinator

If resolution cannot be reached in direct manner between the College community member and the student, the complainant may contact the Compliance Coordinator by completing an Incident Report: <https://roguenet.roguecc.edu/IncidentReport/>, within three (3) working days, stating the complaint, the alleged violation of the Code of Conduct, and other relevant information.

Within seven (7) working days of receiving the Incident Report from the College community member, the Compliance Coordinator will contact the student and other party(ies) involved regarding the complaint and resolution. The Compliance Coordinator may use multiple processes to help resolve the issue. S/he will review the issues and actions of the parties involved, propose resolution, and determine appropriate sanction(s) for the student. Established filing procedures will be followed.

9.2.3. Appeal to the Vice President of Student Services

Students receiving written notice of disciplinary action for an alleged violation of the Code of Conduct have the right of final appeal in writing to the Vice President, Student Services within seven (7) working days for review.

Within ten (10) working days of receiving the student appeal, the Vice President, Student Services will review the complaint, investigation process, findings, and sanctions. S/he may consult the administrative team in his/her review process to assure consistency and fairness within RCC. The review may include multiple processes with parties chosen by the College in resolving the issue. The Vice President, Student Services will report his/her findings and conclusions of the final appeal to the student complainant and the RCC Compliance Coordinator. Established filing procedures will be followed.

9.3. Sanctions

One or more of the following sanctions may be imposed upon students who have violated the Student Code of Conduct. All documentation related to any such action will be subject to established filing procedures.

9.3.1. Reprimand

Any RCC staff member may initiate a reprimand with a verbal or written warning when a student's specific conduct does not meet college standards and continuation of such conduct will result in further disciplinary action. An Incident Report and a copy of the written reprimand or documentation of a verbal reprimand will be sent to the Compliance Coordinator within two (2) working days. Established filing procedures will be followed.

9.3.2. Immediate Exclusion

Any RCC staff member may direct that a student be immediately excluded from RCC privileges, activities, and/or property as deemed appropriate and necessary to

ensure the safety and rights of students and staff. The staff member will inform the student of the requirement for a meeting with the Compliance Coordinator to determine attendance eligibility following immediate exclusion. The staff member will file an Incident Report with the Compliance Coordinator within one (1) class day following the exclusion. Within one class day after receiving the Incident Report, the Compliance Coordinator, or his/her designee,

will contact the student and schedule a meeting. The purpose of the meeting is to:

9.3.2.1. Share information and documentation regarding the incident and Student Code of Conduct;

9.3.2.2. Attempt to resolve the problem that led to exclusion so that the student may resume attendance; and,

9.3.2.3. Determine appropriate disciplinary action that may be imposed.

If the student fails to attend the meeting or to respond to the Compliance Coordinator's request, the student forfeits all rights to resume attendance at RCC until such meeting occurs.

The Compliance Coordinator will communicate with all appropriate parties, in writing, the disciplinary action and/or the conditions upon which the student may resume attendance at the College. Established notification and filing procedures will be followed.

9.3.3. Disciplinary Probation

The Compliance Coordinator, or designee, may direct a student to comply with specific conditions or restrictions while in attendance at RCC, in addition to the Student Code of Conduct, for a specified period of time. The Compliance Coordinator will communicate the specific behavior leading to this sanction and the specific conditions or restrictions imposed for the specified period of time to the student, in writing. The student will sign the document provided by the College and agree to abide by its terms or forfeit all rights to continue attendance at RCC. Established filing procedures will be followed.

9.3.4. Suspension

The Compliance Coordinator may direct a suspension defined as exclusion from RCC property, activities, and privileges for a fixed period of time appropriate to address the severity of the infraction. The Compliance Coordinator shall provide written notice to the student and established filing procedures will be followed.

9.3.5. Expulsion

The Compliance Coordinator may direct termination of student status and denial of further college privileges. Conditions of readmission, if any, will be listed in the letter of expulsion given as a notice to the student by the Compliance Coordinator. Established filing procedures will be followed.

9.3.6. Restitution

The Compliance Coordinator, in consultation with the administrative team and other parties involved, may direct restitution in addition to other disciplinary action. Restitution is defined as compensation or reimbursement for damage to or misappropriation of property, which may take the form of appropriate service to repair or otherwise compensate for damages. Conditions of restitution will be detailed in a letter to student. Established filing procedures will be followed.

9.3.7. Interim Measures

The Compliance Coordinator may, to insure the safety of all students and the campus community, impose interim measures including, but not limited to: a change in a student's class schedule, imposition of a "no contact" order, providing a safety escort, dropping a student from a class or classes, or any other measures as appropriate to protect a student or staff member. Such measures are temporary to insure the safety of all members of the RCC community while an investigation is conducted.

9.3.8. Other

The Compliance Coordinator may impose additional sanctions or forms of disciplinary action including, but not limited to, directives for student behavior or plans of action.

10. STUDENT GRIEVANCE PROCEDURE

Note: If you need disability accommodations to successfully complete this process, contact the Disabilities Services Office: <http://web.roguecc.edu/disability-services>. On Redwood Campus, Building W (Library), 541-956-7337 or at Riverside Campus, Building B, Room 9, 541-245-7537.

Harassment and sexual assault complaints will be filed according to AP-047, Discrimination, Harassment, and Sexual Violence. Go to <http://www.roguecc.edu/GIAP> and find "Discrimination" in the Table of Contents).

Grade appeals shall be filed according to procedures outlined in the Petition to Change of

Academic Record Procedure section of the Change of Academic Record form: <http://www.roguecc.edu/Enrollment/forms/PetitiontoChangeAcademicRecord.pdf>).

10.1 Explanation

This Student Grievance Procedure provides a way for students to seek resolution to decisions, conditions, and practices of RCC,

its faculty and staff, which they allege are violations of this Statement, as identified, or other published college policies and procedures. As students pursue their educational goals, they will be treated with professionalism and respect by college employees or staff. An alleged violation may be referred to as a "grievance." Students shall not be retaliated against for filing a legitimate grievance.

This Student Grievance Procedure outlines the steps to resolve alleged violations of this Statement or other published college policies and procedures. Students will attempt to resolve alleged violations with the staff member(s) directly involved. Should a staff member directly involved in facilitating the resolution procedure be the object of an alleged violation or formal grievance, the College President will appoint a replacement.

Steps 1, 2 and 3 (if applicable) below must be completed before proceeding to Step 4. It is intended that alleged violations be resolved at any point in the process when the parties involved can agree on a resolution. All documentation submitted or created during the resolution process shall follow established filing procedures. Students with a grievance shall follow the procedures and time lines outlined below:

10.2 Procedure

Step 1: Direct Resolution

The student discusses the grievance with the College staff member who is directly involved and attempts to find resolution within a timely manner. The student may choose to be accompanied by a support person such as a counselor, an academic advisor, or an officer of the ASGRCC during this discussion. The student must state a proposed resolution.

RCC encourages face-to-face direct resolution of alleged grievances. This process – though difficult – is often rewarding for both students and staff. A Student with a potential grievance will use face-to-face direct resolution unless the student is able to specifically articulate why face-to-face resolution is inappropriate for their grievance and a counselor agrees these reasons make face-to-face resolution inappropriate. If after meeting with a RCC counselor the counselor determines that attempting direct resolution in-person is not in the best interest of the student direct resolution may be attempted in writing.

In these circumstances, working with a college counselor, the student will write a letter or memorandum to the College staff member outlining their grievance and proposed reso-

lution. The College staff member will then respond in writing within seven (7) business days. If no resolution is reached at Step 1, the student moves to Step 2.

Step 2: Resolution with Department Chair or Immediate Supervisor

If the grievance is not resolved directly with the College staff member, the student discusses the grievance and seeks a resolution with the staff member's department chair (or immediate supervisor). The student may choose to be accompanied by a support person during these discussions. The student must state a proposed resolution.

Appropriate written documentation will be maintained by the department chair, (or immediate supervisor) and established filing procedures will be followed. If no resolution is reached at Step 2, the student moves to Step 3. If the staff member does not report to a dean, or if the dean has heard the student in the role of immediate supervisor, the student moves to Step 3.

Step 3: Resolution with Dean

If the issue is not resolved with the staff member's department chair or supervisor, the student may seek resolution with the supervising dean for the department. Appropriate written documentation will be maintained by the dean and approved filing procedures will be followed.

If no resolution is reached at Step 3, the student moves to Step 4.

Step 4: Resolution with Dean of Student Success

If the issue is not resolved by discussions in Step 1, 2, or 3 (if applicable), the student has ten (10) working days to request a Student Grievance form and information about filing a grievance from an RCC counselor. The signed and completed form shall be submitted to the dean, Student Success within five (5) working days after requesting the form from a counselor. The Student Grievance form requires a statement of proposed resolution of the grievance and a summary of prior actions taken.

Within seven (7) working days of receipt of the Student Grievance form, the dean, Student Success will contact the parties involved, provide them with a copy of the completed Student Grievance form, attempt to clarify the issue, and arrive at a mutually satisfactory resolution between student and staff. During the dean's investigation, the persons involved may include a representative or

other support person with first-hand knowledge of the issue. If resolution is reached, the dean will summarize the resolution in writing for the student grievant and college employee and follow established filing procedures.

Step 5: Appeal Process

If resolution is not reached, the student has the right of final appeal of the issue to the vice president, Student Services. The final appeal process requires the student to prepare and deliver a written appeal request to the vice president within seven (7) working days after the dean, Student Success gives notice to the student of the result of the investigation. The written appeal request must include an explanation of why the issue remains unresolved and must provide the proposed remedy to the grievance.

Within ten (10) working days of receiving the student appeal, the vice president, Student Services will review the grievance, the investigation process, and the proposed resolutions. He or she may consult with the administrative team and/or the College President in the review process to assure consistency within RCC. The review may include, but not be limited to, an interview of the student grievant, college staff member and/or other involved parties. The vice president, Student Services will report the findings and conclusions to the student grievant, the college staff member(s) involved, and the dean, Student Success, with a written and signed document. Established filing procedures will be followed.

Drug- and Alcohol-Free Campus

The use of alcoholic beverages, marijuana, or marijuana products is prohibited. Certain exceptions may be allowed with prior written permission from the College President. The illegal use or misuse of drugs is prohibited on all RCC properties. This policy complies with the Drug-Free Schools and Campuses Regulations (EDGAR Part 86) and the Drug-Free Workplace Act (1990) mandating a drug-free campus, program, and biennial report.

Use of tobacco

www.roguecc.edu/TPTF

Smoking is permitted only in designated smoking areas. All college employees, students, visitors, and contractors are required to comply with the policy.

Educational Programs Overview

Associate of Arts Oregon Transfer

The Associate of Arts Oregon Transfer degree clearly defines a program of study designed for students who intend to transfer to an Oregon university. By completing degree requirements (and major prerequisites if applicable) students will qualify for junior standing for registration purposes upon admission to any university in the state system.

The Associate of Arts Oregon Transfer degree can be earned by meeting the following requirements:

- Be admitted to the program.
- Complete a minimum of 90 term credits of college-level courses (a maximum of 12 career and technical credits are allowed) with a minimum grade of "C."
- Complete any required prerequisites with a minimum grade of "C."
- Complete a minimum of 24 credits toward the degree at RCC.

The Higher Education Coordinating Commission (HECC) has approved general education outcomes for foundational and discipline courses selected to fulfill AAOT requirements. All courses listed meet those identified outcomes. Upon successful completion of the AAOT degree, students having taken these courses will be able to do the following.

Arts and Letters (Humanities)

- Interpret and engage in the Arts and Letters, making use of the creative process to enrich the quality of life.
- Critically analyze values and ethics within a range of human experience and expression to engage more fully in local and global issues.

Speech/Oral Communication

- Engage in ethical communication processes that accomplish goals.
- Respond to the needs of diverse audiences and contexts.
- Build and manage relationships.

Cultural Literacy

- Identify and analyze complex practices, values, and beliefs and the culturally and historically defined meanings of difference.

Information Literacy

- Formulate a problem statement.
- Determine the nature and extent of the information needed to address the prob-

lem.

- Access relevant information effectively and efficiently.
- Evaluate information and its source critically.
- Understand many of the economic, legal, and social issues surrounding the use of information.

Writing

- Read actively, think critically, and write purposefully and capably for academic and, in some cases, professional audiences.
- Locate, evaluate, and ethically utilize information to communicate effectively.
- Demonstrate appropriate reasoning in response to complex issues.

Mathematics

- Use appropriate mathematics to solve problems.
- Recognize which mathematical concepts are applicable to a scenario, apply appropriate mathematics and technology in its analysis, and then accurately interpret, validate, and communicate the results.

Science or Computer Science

- Gather, comprehend, and communicate scientific and technical information in order to explore ideas, models, and solutions and generate further questions.
- Apply scientific and technical modes of inquiry, individually, and collaboratively, to critically evaluate existing or alternative explanations, solve problems, and make evidence-based decisions in an ethical manner.
- Assess the strengths and weaknesses of scientific studies and critically examine the influence of scientific and technical knowledge on human society and the environment.

Social Science

- Apply analytical skills to social phenomena in order to understand human behavior.
- Apply knowledge and experience to foster personal growth and better appreciate the diverse social world in which we live.

AAOT graduation requirements

| | |
|----------------------------|-----------|
| Writing/Composition Skills | 8 credits |
| Oral Communication | 1 course |
| Math (above 100) | 1 course |
| Fitness/Health/P.E. | 3 credits |

| | |
|--|------------------|
| Cultural literacy | 1 course |
| Humanities (chosen from two disciplines) | 3 courses |
| Social Science (chosen from two disciplines) | 4 courses |
| Science/Math/Computer Science (chosen from two disciplines; including three lab science courses) | 4 courses |
| Electives (recommended college-level courses by major area to meet degree requirements of 90 credits) | variable credits |

Students may transfer a maximum of 108 credits to a four-year institution.

Students who have graduated from high school or completed a high school equivalency program in 1997 or after must meet one of the following requirements for admission to an Oregon university:

- Two years of the same high school-level foreign language.
- Two terms of college-level foreign language either with a grade of "C" or better (may be first-year foreign language which can be used as elective credits on the Associate of Arts Oregon Transfer degree).

NOTE: If students plan to complete a Bachelor of Arts (BA) degree at a four-year school, they must have a proficiency in a foreign language regardless of when they graduated from high school or equivalency program.

Students should check with the institution to which they intend to transfer, as certain university majors may require additional coursework toward graduation.

Students planning to transfer to a four-year college or university may select courses within the requirements of the AAOT degree that will apply to the following majors at Oregon public universities:

| |
|----------------------------------|
| Art |
| Biology |
| Business Administration |
| Chemistry |
| Education (elementary/secondary) |
| English/Literature |
| Environmental Sciences/Forestry |
| Geology |
| Health/PE/Exercise Science |
| History |
| Mathematics |
| Music |
| Physics |
| Psychology |
| Sociology |

Contact the Counseling/Advising Department for more specific information on programs and coursework.

Associate of Science Oregon Transfer — Business

The Associate of Science Oregon Transfer – Business degree defines a program of study to fulfill lower division general education requirements for a bachelor's degree at Oregon public universities. It is designed for students transferring to baccalaureate degree programs in a variety of business majors. Those completing the ASOT-Business degree are assured junior level standing and will have met the lower division general education requirements of any public institution in Oregon.

Students should contact the specific business school or program they will transfer to early in the first year of their ASOT-Business program to be advised about additional requirements and procedures for admission to that school or program.

The Associate of Science Oregon Transfer Business degree can be earned by meeting the following requirements:

- Be admitted to the program.
- Complete a minimum of 90 term credits of college-level courses (a maximum of 12 career and technical credits are allowed) with a minimum grade of "C."
- Complete any required prerequisites with a minimum grade of "C."
- Complete a minimum of 24 credits toward the degree at RCC.

ASOT-Business graduation requirements

| | |
|------------------------------|---------------|
| Writing/Composition | 8 credits |
| Oral Communication | 3-4 credits |
| Math (MTH111 or higher) | 12-14 credits |
| Computer Applications | 4 credits |
| Humanities (see page 51) | 9-12 credits |
| Social Science (see page 51) | 14-16 credits |
| Science (see page 51) | 15-20 credits |
| Business-specific courses | 20 credits |
| Electives | 0-10 credits |

Students may transfer a maximum of 108 credits to a four-year institution.

Students who have graduated from high school or completed a high school equivalency program in 1997 or after must meet one of the following requirements for admission to an Oregon university:

- Two years of the same high school-level foreign language.
- Two terms of college-level foreign language with a grade of "C" or better. (Demonstrated proficiency in American Sign Language meets this second language admission requirement.)

NOTE: If students plan to complete a Bachelor of Arts (BA) degree at a four-year school, they must have a proficiency in a foreign language regardless of when they graduated from high school or equivalency program.

Students should check with the institution to which they intend to transfer, as certain majors may require additional coursework toward graduation.

Associate of Science Oregon Transfer — Computer Science

The Associate of Science Oregon Transfer – Computer Science degree defines a program of study to fulfill lower division general education requirements for a bachelor's degree at Oregon public institutions. It is designed for students transferring to baccalaureate degree programs in computer science or software engineering. Those completing the ASOT-Computer Science degree are assured junior level standing and will have met the lower division general education requirements of any public Oregon university.

Students should use the ASOT-Computer Science university-specific degree requirements guide for specific transfer requirements for individual schools. See an adviser for more information.

The Associate of Science Oregon Transfer – Computer Science degree can be earned by meeting the following requirements.

Be admitted to the program

- Complete a minimum of 90 term credits of college-level courses (a maximum of 12 career and technical credits are allowed) with a minimum grade of "C."
- Complete any required prerequisites.
- Complete a minimum of 24 credits toward the degree at RCC.

ASOT-Computer Science graduation requirements

| | |
|--------------------------|--------------|
| Writing/Composition | 8 credits |
| Oral Communication | 3-4 credits |
| Math (MTH251/MTH252) | 10 credits |
| Health/Wellness/Fitness | 3 credits |
| Humanities (see page 51) | 9-12 credits |

| | |
|-----------------------------------|---------------|
| Social Science (see page 51) | 12-16 credits |
| Science (see page 51) | 12-15 credits |
| Computer science-specific courses | 16 credits |
| Electives | 6-17 credits |

Students who have graduated from high school or completed a high school equivalency program in 1997 or after must have one of the following requirements for admission to an Oregon university:

- Two years of the same high school-level language.
- Two terms of college-level language with a grade of "C" or better (may be first-year language which can be used as elective credits).

Note: If students plan to complete a Bachelor of Arts (BA) degree at a four-year school, they must have a proficiency in a foreign language regardless of when they graduated from high school or equivalency program.

Some schools require physics. It is recommended that students contact the specific school early in the first year of the program or use the ASOT-CS university-specific degree requirements guide to determine any additional science requirements and procedures for admission to a specific school or program.

Associate of Science

The Associate of Science (AS) degree is designed for students transferring to baccalaureate degree programs in applied areas. The AS degree allows students to focus their studies in a particular discipline based upon signed articulation agreements with the universities that have agreed to accept RCC students. Students must work closely with advisers in their areas of interest to ensure electives are appropriate.

RCC currently has signed articulation agreements with Southern Oregon University for the following programs: Criminology, Early Childhood Development, Elementary Education, Emerging Media and Digital Arts, Business, Human Services, Computer Science, Health/Physical Education, Outdoor Adventure Leadership; and with Oregon Tech for Business, Computer and Embedded Systems Engineering, Manufacturing, Information Technology/Health Informatics, and Software Engineering Technology.

The Associate of Science degree can be earned by meeting the following requirements:

- Be admitted to the program.

- Complete a minimum of 90 term credits of college transfer and career and technical courses with a minimum grade of "C" or "pass."
- Complete any required prerequisites with a minimum grade of "C."
- Complete a minimum of 24 credits toward the degree at RCC.

AS graduation requirements

Computer proficiency 0-4 credits
(Approved 3-4 credit computer science course, CS120 or above, taken within the last 10 years, or documented proficiency. Some CS courses do not apply; refer to catalog course descriptions.)

WR121 English Composition I 4 credits

WR122 English Composition II 4 credits

SP111 Fundamentals of Public Speaking or

SP218 Interpersonal Communication 4 credits

LIB127 Introduction to Academic Research 1 credit

MTH105 Intro. to Contemporary Math or higher level math 4 credits

Humanities and Social Science electives 9-12 credits
(at least one class chosen from each discipline)

Science and Computer Science electives 11-15 credits
(must be 100-level or above)

Electives 53+ credits
(recommended courses within major area)

Students should be aware that if they transfer before completing this degree or transfer in a major not covered by prior agreements, their courses will be evaluated individually toward the transfer requirements of the college of their choice.

Students who have graduated from high school or completed a high school equivalency program in 1997 or after must have one of the following requirements for admission to an Oregon university:

- Two years of the same high school-level foreign language.
- Two terms of college-level foreign language with a grade of "C" or better (may be first-year language, which can be used to partially meet the humanities elective required in the Associate of Science degree).

NOTE: If students plan to complete a

Bachelor of Arts (BA) degree at a four-year school, they must have a proficiency in a foreign language regardless of when they graduated from high school or equivalency program.

Associate of Applied Science

Students can earn an Associate of Applied Science degree in a two-year career and technical program by satisfying the following requirements:

- Be admitted to the program.
- Complete all required courses with a minimum grade of "C" or "pass." A complete list of requirements can be found in this catalog under the name of the specific program.
- Complete any required prerequisites with a minimum grade of "C."
- Complete a minimum of 24 credits toward the degree at RCC.
- Satisfactorily complete general education requirements required in all AAS degrees.

These include:

Writing (composition)/Speech 6-8 credits

Introduction to Academic Research 1 credit

Human Relations 3 credits

First Aid/Health 1-3 credits

Math 4 credits

Cooperative Work Experience/practicum/clinical 3 credits

Computer proficiency 0-4 credits
(Approved 3-4 credit computer science course, CS120 or above, taken within the last 10 years, or documented proficiency. Some CS courses do not apply; refer to catalog course descriptions.)

Associate of Applied Science degrees are offered in these areas:

Accounting

Automotive Technology

Business Technology

Computer Support Technician

Construction Trades, General

Apprenticeship

Criminal Justice

Diesel Technology

Early Childhood Education

Electrician Apprenticeship Technologies

Electronics Technology

Family Support Services

Fire Science

Graphic Design

Health Care Informatics

Human Services

Industrial Mechanics and Maintenance

Technology Apprenticeship

Industrial Welding Technology

Management/Marketing

Manufacturing/Engineering Technology

Mechatronics (proposed)

Nursing

Paramedicine

Associate of General Studies

The Associate of General Studies degree is designed to provide students the opportunity to acquire a broad education rather than pursuing a specific college major or career and technical program. The AGS degree includes, in addition to the general education courses listed below, 74-75 credits of lower division college transfer and career and technical education courses. Because of the flexibility of this degree, it may not fulfill requirements for transfer to a four-year institution at the junior level.

Candidates for the Associate of General Studies degree must earn a minimum of 90 credits that include the following:

Computer proficiency 0-4 credits
(Approved 3-4 credit computer science course, CS120 or above, taken within the last 10 years, or documented proficiency. Some CS courses do not apply; refer to catalog course descriptions.)

LIB127 Introduction to Academic Research 1 credit

WR121 English Composition I 4 credits

SP100 Basic Communication or

SP111 Fund. of Public Speaking or

SP115 Intro to Intercultural Communication or

SP218 Interpersonal Communication 3-4 credits

PSY101 Psychology of Human Relations or

BT101 Human Relations in Organizations 3 credits

MTH105 Intro. to Contemporary Math or higher level math 4 credits

In addition, students must take at least 3

or 4 credits in Arts/Humanities, Science/Computer Science (including one lab science), Social Science, and Physical Education/Health for a total of 18 credits with no more than 9 credits in any one category.

The remaining 51-57 credits may be any combination of lower division transfer and career and technical courses that the student and adviser select. This degree is best suited for students whose employment goals require a blend of courses from several different college degree programs. Students pursuing this degree should keep in close contact with the Counseling/Advising Department for assistance in planning an educational program.

Finally, students must satisfy the following requirements:

- Be admitted to the program.
- Complete any required prerequisites with a minimum grade of "C."
- Satisfactorily complete required general education courses.
- Complete a minimum of 24 credits toward the degree at RCC.

Students planning to transfer to a four-year university may select courses within the requirements of the AGS degree that will apply to the following majors at OUS schools:

Architecture
Art
Engineering
Pre-dental Hygiene
Pre-medical Imaging
Pre-professional Medicine (Dentistry, Medicine, Optometry, Pharmacy, Veterinary)

Certificate programs

Career Pathways, less than one-year, and one-year (three to four terms) certificate of completion programs, prepare students to enter a variety of occupational fields. To qualify for one- and two-year certificates students must meet these requirements:

- Be admitted to the program.
- Complete all required courses with a minimum grade of "C" or "pass." (A complete list of requirements can be found in this catalog under the name of the specific program.)
- Complete any required prerequisites with a minimum grade of "C."
- Complete a minimum of 12 credits toward the certificate at RCC.
- Satisfactorily complete general education requirements required in all certificate programs.

These include:

| | |
|---|-------------|
| Math | 4 credits |
| Writing/Composition | 3-4 credits |
| Human Relations | 3 credits |
| Computer proficiency | 0-4 credits |
| (Approved 3-4 credit computer science course, CS120 or above, taken within the last 10 years, or documented proficiency. Some CS courses do not apply; refer to catalog course descriptions.) | |

The following certificates are awarded:

Alcohol and Drug Counselor
Automotive Specialist
Business Assistant
Computer Numerical Control Technician
Construction Trades, General Apprenticeship
Dental Assistant
Diesel Specialist
Early Childhood Education
Electrician Apprenticeship Technologies
Electronics Technician
Emergency Medical Services
Exercise Specialist
Family Support Services (proposed)
Fire Officer
Fire Prevention/Investigation
Graphic Design
Health Care Informatics Assistant
High Technology Studies
Industrial Mechanics and Maintenance Technology Apprenticeship
Industrial Welding Technology
Massage Therapy
Mechatronics (proposed)
Medical Assistant
Microcontroller Systems Technician
Practical Nursing
Renewable Energy Technician

To qualify for less than one-year certificates or Career Pathways certificates, students must meet the same requirements as outlined above with these exceptions:

- General education requirements may vary from those listed above.
- Complete at least 25 percent of the total credits at RCC.

The following less than one-year or Career Pathways certificates are awarded:

Adobe® Applications Technician
Basic Health Care

Business and Information Specialist
Commercial Truck Driving
Computer Numerical Control Operator
Computer Software Specialist
Customer Service
Early Childhood Education–Basic
Early Childhood Education–Intermediate
Emergency Medical Technician
Employment Skills Training
Family Support Services (proposed)
Firefighter
Limited Electrician Apprenticeship Technologies
Massage Therapy
Entry-Level Therapist
Mechanical Maintenance Apprenticeship
Mechatronics Maintenance Technician (proposed)
Medical Administrative Assistant
Medical Coding Specialist
Pharmacy Technician
Phlebotomy
Plant Systems Technician
Retail Sales and Service
Small Business Management
Sterile Processing Technician
Welder's Helper

Career Pathways certificates of completion differ from traditional academic programs in that they are milestones on the path to degrees or certificates and are not eligible for commencement exercises. These completions will be noted on students' transcripts.

Career Pathways

www.roguecc.edu/Pathways

- Redwood Campus, 541-956-7192
- Riverside Campus, 541-245-7552
- Table Rock Campus, 541-245-7863

Career Pathways focus on attaining certificates and degrees that lead to high-demand occupations and higher wages.

A key component of Oregon's overall education, workforce development, and economic development strategies, Pathways support transitions for students coming to community college to reach their goals:

- High school to post-secondary education.
- Pre-college (ABE/GED/ELA/AS) preparation.
- Industry experience, workforce skills, and degree upgrades.

Career Pathways roadmap

RCC CAREER PATHWAYS CERTIFICATE

Career Pathways Certificate (CPC) Program Title

Can complete this in less than one year.
Click on Graduation Guide (PDF) and/or the Plan of Study (HTML) for course listing and prerequisites.
(CPC ranges from 12 to 44 credits)

CPC LEVEL JOBS AND WAGES

Broad Industry Information (Linked to Occupational Outlook Handbook (OOH) website):

- Job Titles (that match education level) Linked to the Oregon Labor Market Information System (OLMIS) website

RCC CERTIFICATE OF COMPLETION

Certificate of Completion Program Title

Can complete this in about one year.
Click on Graduation Guide (PDF) and/or the Plan of Study (HTML) for course listing and prerequisites.
(Certificate of Completion ranges from 12 to 68 credits)

CERTIFICATE LEVEL JOBS AND WAGES

This education gives workers a competitive edge on the above mentioned jobs and the following options:

- Job Titles (that match education level) Linked to the Oregon Labor Market Information System (OLMIS) website

RCC ASSOCIATE DEGREE

Associate's Degree Program Title

Can complete this in two years.
Click on Graduation Guide (PDF) and/or the Plan of Study (HTML) for course listing and prerequisites. (Degree ranges from 90 to 108 credits)

Associate of Applied Science (AAS) degrees – designed for employment in career and technical occupations.

Associate of Science or Oregon transfer degrees (AS, AAOT, ASOT) – designed for transfer to an Oregon college or university in a specific program

ASSOCIATE LEVEL JOBS AND WAGES

This education gives workers a competitive edge on the above mentioned jobs and the following options:

- Job Titles (that match education level) Linked to the Oregon Labor Market Information System (OLMIS) website

BACHELOR DEGREE TRANSFER OPTIONS

RCC students can transfer to an Oregon university to finish a bachelor's degree through one of RCC's articulated degree programs or on their own. When there is an articulation agreement between RCC and an institution, you will see the degree and a link to that institution.

If there are not any current articulations, you might see other opportunities for educational advancement because some credits may transfer. If not, you will be given general transfer information: RCC's Transfer Center, Oregon University System, Career Options, and Map of Post Secondary Institutions in Oregon.

BACHELOR LEVEL JOBS AND WAGES

This education gives workers a competitive edge on the above mentioned jobs and the following options:

- Job Titles (that match education level) Linked to the Oregon Labor Market Information System (OLMIS) website

RELATED GRADUATE DEGREE OPTIONS

Once a student completes a bachelor's degree, they can apply to enter a master's degree program and then doctorate.

- Master of Degree Title: Name of Institution
- Doctorate Degree Title: Name of Institution

GRADUATE LEVEL JOBS AND WAGES

This education gives workers a competitive edge on the above mentioned jobs and the following options:

- Job Titles (that match education level) Linked to the Oregon Labor Market Information System (OLMIS) website

ADVISORY COMMITTEE

The Advisory Committee is a list of community members (companies and/or individuals) that worked together to express the current needs of the industry to help the college conduct program planning and prepare students for the workforce.

- Career seekers and changers.
- Transferring from community college to university.

Career Pathways roadmaps are a useful visual tool for exploring how continuing education leads to better jobs and wages. Visit the website listed above, and see the roadmap on page 49.

Career Pathways provide opportunities to earn short-term certificates (12-44 credits) that prepare students for specific career opportunities. Career Pathways certificates can lead to completion of one-year certificates, two-year associates degrees, bachelor's and master's degrees, and employment. Students determine what path to take and work at their own pace to reach their career goals.

Specific Career Pathways certificates are available at RCC. See a counselor for details or visit the Career Pathways website listed above.

Focus awards

Focus awards recognize student achievement in certain lower division collegiate interest areas and provide a way for students

to deepen their knowledge of a particular subject. RCC focus awards consist of at least 18 credits, contain required core courses that must be completed at RCC, and are designed to complement the Associate of Arts Oregon Transfer degree, Associate of Science degrees, and/or the Oregon Transfer Module. Credits earned may transfer to a variety of programs at four-year colleges or universities as elective credits, program requirements, and/or graduation requirements for the receiving institution.

Focus awards are developed and maintained by faculty within academic departments. They do not have official sanction or approval of the state and do not appear on student transcripts. RCC currently has one approved focus award in Sustainable Community Development (see Programs of Study section).

Cooperative Work Experience (CWE)

Allows students to earn hands-on experience in their major area of study with local businesses while earning college credit. Cooperative Work Experience may be financial-aid eligible if it is part of an aid-eligible

program. A maximum of 24 Cooperative Work Experience credits can be applied toward a degree and a maximum of 12 credits toward a certificate unless otherwise noted. Cooperative Work Experience credits must be taken within an approved program of study. Check with program advisers for additional information.

Practicum/employment considerations

Students in such programs as Criminal Justice, Early Childhood Education, Human Services, or Nursing who have criminal records or certain physical limitations may be excluded from or limited by employers in some practicum or clinical experiences.

Students should be aware that a criminal history may be a barrier to future employment. In addition, some employers may not be able to accommodate certain physical limitations in filling positions. Students with concerns about these issues should speak directly to the department chair or program coordinator.

Approved electives

The following courses may be used to fulfill AAS, AS, ASOT-Business, and ASOT-Computer Science degree and certificate elective requirements in First Aid/Health, Humanities, Social Science, and Science disciplines with approval of adviser unless otherwise noted on graduation guide.

First Aid/Health Electives

HE112

Program Learning Outcomes

Program Learning Outcomes are course outcomes that department faculty agree are necessary for moving on to the next step, whether that be completion of a set of courses, a sequence (such as MTH60, 65, 95), a certificate, a degree, or transfer to another institution.

These outcomes are updated as new information is integrated, either from changes in the labor market or from transfer institutions, state agencies, etc. The program and/or department assures that all the necessary outcomes are included and assessed within its courses.

Academic Success

Use reading skills and strategies to comprehend a variety of textual materials in academic, work, community, and family settings.

Adult Basic Skills

1. Read diverse texts in academic, work, community, and family settings, integrating knowledge, skills, and strategies to address the reading purpose.
2. Listen and speak for mutual understanding in academic, work, community, and family settings, integrating knowledge, skills, and strategies to meet the communication purpose.
3. Write to express meaning clearly and effectively in academic, work, community, and family settings, integrating knowledge, skills, and strategies to meet the writing purpose.
4. Use mathematical reasoning in academic, work, community, and family settings, integrating knowledge, skills, and strategies to solve problems.

Apprenticeship

1. Demonstrate workforce skills required in a chosen trade.
2. Work effectively and safely within the required duties of the identified trade.

Art

1. Demonstrate an understanding of the role and history of visual art in expressive human culture, addressing a variety of related issues, including but not limited to, politics, religion, the environment, economics, and other forms of expression. Communicate an awareness of visual art within a global context, in both historical and contemporary terms.

2. Acquire foundational knowledge and skills in Art Department courses of basic design, color theory, basic drawing, and illustration, and other department courses, which serve as both required and approved program electives for the Graphic Design program.
3. Develop skills in specific art studio disciplines, exploring a diversity of techniques, styles, and concepts, contributing to both an art interest within AAOT coursework, as well as toward life-enrichment outcomes.
4. Demonstrate creative and critical thought processes in the idea development process involved in producing works of visual art.

Automotive Technology

1. Diagnose and repair all major vehicle systems.
2. Document repairs of vehicles accurately and descriptively of concern, cause, and correction.
3. Effectively locate and utilize technical information required for vehicle repairs.
4. Work safely and responsibly within all shop standards and environmental guidelines.
5. Successfully pass at least two Automotive Service Excellence (ASE) technical skill assessments.
6. Function collaboratively as a member of a team to achieve specified and measurable results.
7. Demonstrate comprehensive knowledge of employer expectations and ethical work practice.
8. Demonstrate accuracy, proficiency and quality in task performance.
9. Strategize professional growth in automotive industry.

Business Technology

1. Business Ethics
Demonstrate knowledge of ethical, legal, and socially responsible business behavior, while maintaining high levels of personal and professional integrity in today's rapidly changing multi-cultural, team oriented business environment.
2. Communication/Information Literacy
Develop and deliver professional oral and written communications (using technology) that are appropriate to the topic, audience, and situation.

3. Critical Evaluation/Decision Making

Demonstrate critical thinking and problem solving skills by identifying, understanding, and applying basic theories, terminology, and practices related to each functional area of business.

4. Interpersonal Skills

Develop the interpersonal ("soft") skills necessary to build and maintain effective working relationships with internal and external business stakeholders.

Commercial Truck Driving

1. Apply appropriate knowledge to successfully secure a Class A operating permit, and relevant endorsements through the Oregon Department of Motor Vehicles (ODMV).
2. Demonstrate safety awareness by successfully completing the Smith System Safety Training.
3. Demonstrate appropriate knowledge and skills to pass the ODMV Class A license skills test.

Community Education

1. Integrate personal enrichment opportunities through hands-on learning experiences and skills.
2. Collaborate and foster lifelong learning skills.

Computer Science

1. Demonstrate fluency and competency in an object-oriented programming language.
2. Identify and analyze requirements and specifications for computing problems and plans strategies for their solutions.
3. Apply concepts, principles, and theories relating to computer science to new situations.
4. Compare and evaluate design and algorithm choices used to solve computing problems.
5. Identify appropriate practices within a professional, legal, and ethical framework.
6. Work effectively as an individual under guidance and as a member of a team.
7. Communicate technical problems and solutions to a range of audiences.
8. Integrate learning from other areas to solve computing problems.
9. Assess the quality, accuracy, and timeliness of data.
10. Apply relational database concepts, principles, and theories to designing and creating information systems.

11. Apply operating system and hardware concepts and principles to problem solving in the context of computer systems.
12. Apply knowledge of networking concepts and principles to solving problems related to networked computer systems.
13. Evaluate the impact and role of technology in the health care industry.
14. Apply principles, concepts, and structured techniques to assess, evaluate, and synthesize current information and trends in health informatics.

Criminal Justice

1. Integrate and apply acquired knowledge and skills related to justice administration systems, crime control policy, theory, law, and technology to effectively manage and control problems related to crime and public safety in jurisdictions of employment.
2. Work in teams and in collaborative environments with stakeholders in communities of interest to develop solutions to problems of crime and public safety within those communities of interest.
3. Apply a strong ethic of public service, personal, and professional growth, in their respective roles to include a commitment to apply culturally sensitive strategies of communication and problem-solving in the process.

Dental Assisting

1. Demonstrate patient education and management skills.
 - Provide oral health instruction and counseling. Recommend home-care strategies.
 - Recognize patient abilities to properly care for their teeth.
 - Translate dental terminology to layman's terms.
 - Advise patients on impact of diet on oral health.
 - Identify normal and pathological abnormalities of the oral structures.
 - Perform extra oral tissue examinations.
2. Demonstrate administrative office skills.
 - Accurately review health history forms with patients.
 - Practice effective interpersonal and communication skills.
 - Model professional conduct and appearance, and demonstrate professional behaviors consistent to the dental workplace.

- Identify and effectively manage time and resources.
3. Demonstrate occupational safety skills.
 - Apply current concepts of infection control and occupational safety.
 - Engage and assist in the management of medical and dental emergencies and administer basic life support procedures, when indicated.
 - Demonstrate proficiency in sterilizing instruments and disinfecting equipment.
 4. Demonstrate general chair-side skills.
 - Assist in diagnostic and operative procedures. Perform clinical supportive functions during pre-treatment, treatment, and post-treatment phases.
 - Demonstrate proper tray setups.
 - Identify and differentiate between esthetic and restorative treatment procedures.
 5. Demonstrate fluency and competency dealing with legal and ethical issues.
 - Practice exercising sound clinical judgment while performing duties within existing ethical and legal parameters of the clinical dental practice.
 - Practice compliancy with OSHA, OR-OSHA, and HIPAA regulations.
 6. Demonstrate radiographic proficiencies.
 - Demonstrate proper film placement for intra- and extra-oral films and expose, process, and mount radiographs of diagnostic quality.
 - Effectively communicate radiographic safety techniques and concerns to patients and peers and acquire maximum diagnostic yield with minimal exposure to radiation.
 7. Demonstrate dental and laboratory sciences skills.

Apply knowledge of basic dental sciences in professional setting, use correct dental terminology, take alginate impressions, and complete laboratory procedures, including pouring and trimming molds and study casts.

Diesel Technology

1. Work within OSHA, RCC and current industry safety guidelines and standards to promote a safe working environment.
2. Read wiring diagrams and schematics, measure voltage, amperage and resistance with common industry equip-

ment, evaluate and troubleshoot wiring, charging and starting problems.

3. Evaluate, troubleshoot and repair diesel engines, heavy-duty brakes, suspension and steering, power train assemblies, air conditioning and basic hydraulics.
4. Evaluate and troubleshoot computerized systems on the chassis, engine, brakes and suspension, evaluate fault codes and make repairs as needed.
5. Work in a cohesive group on a collective project from beginning to end, producing high quality work while adhering to safety and lab procedures.

Early Childhood & Elementary Education

1. Promote child development and learning
 - Students will be able to demonstrate their understanding of children's characteristics and needs.
 - Students will be able to demonstrate their understanding of the multiple interacting influences on children's development and learning.
 - Students will be able to use developmental knowledge to create learning environments that are healthy, respectful, supportive, and challenging for each child.
2. Build family and community relationships
 - Students will know about, understand, and value the importance and complex characteristics of children's families and communities.
 - Students will be able to support and engage families and communities through respectful, reciprocal relationships.
 - Students will be able to involve families and communities in their children's development and learning.
3. Observe, document, and assess
 - Students will understand the goals, benefits, and uses of assessment.
 - Students will know about and use observations, documentation, and other appropriate assessment tools and approaches.
 - Students will understand and practice responsible assessment to promote positive outcomes for each child.
 - Students will know about assessment partnerships with families and with professional colleagues.
4. Use developmentally effective approach-

es to connect with children and families

- Students will understand positive relationships and supportive interactions as the foundation of their work with children.
 - Students will know and understand effective strategies and tools for early childhood and/or elementary education.
 - Students will use a broad repertoire of developmentally appropriate teaching/learning approaches.
 - Students will reflect on their own practice to promote positive outcomes for each child.
5. Use content knowledge to build meaningful curriculum
 - Students will understand content knowledge and resources in academic disciplines.
 - Students will know and use the central concepts, inquiry tools, and structures of content areas or academic disciplines.
 - Students will use their own knowledge, appropriate early childhood or elementary learning standards, and other resources to design, implement, and evaluate meaningful, challenging curricula for every child.
 6. Demonstrate professionalism
 - Students will identify and involve themselves with the early childhood and/or elementary education field.
 - Students will know about and uphold ethical guidelines and other professional guidelines.
 - Students will engage in continuous, collaborative learning to inform practice.
 - Students will integrate knowledgeable, reflective, and critical perspectives on education.
 - Students will engage in informed advocacy for children and the profession.

Electronics Technology

1. Identify and solve real-world problems through the application of electronics theory and concepts.
2. Calibrate, test, and repair analog and digital circuitry using industry standard test equipment.
3. Organize, interpret, and use technical information and documentation.
4. Communicate effectively across a variety of audiences: technicians, engineers,

management, and customers.

5. Function collaboratively as a member of a team to achieve specified and measurable results.
6. Demonstrate flexibility, adaptability, and time management skills commensurate with industry productivity needs.
7. Demonstrate the ability to adhere to personal and industry safety standards.
8. Demonstrate life-long learning towards professional growth.
9. Negotiate and abide by the terms of agreement that define their employment.

Emergency Medical Services

1. Perform an adequate patient assessment and formulate and implement a treatment plan for patients with a variety of medical and traumatic emergencies.
2. Demonstrate effective communication, cultural competency, and conflict management and intervention skills for people in crisis.
3. Implement self-care strategies and techniques to address the impact of stress and emotional trauma on emergency providers.
4. Demonstrate leadership, teamwork and decision making in the management of multiple personnel on emergency scenes.
5. Understand and follow workplace expectations regarding attendance, safety, conduct, and professionalism.
6. Describe and use defensive and safe driving techniques in the operation of emergency vehicles.
7. Demonstrate safe work practices in a variety of specific rescue situations including rope, water, wilderness, and confined space rescue.

Family Support Services

1. Demonstrate understanding of children's characteristics and needs.
2. Know about, understand, and value the importance and complex characteristics of children's families and communities.
3. Support and engage families and communities through respectful, reciprocal relationships.
4. Establish rapport and a supportive alliance with families through the demonstration of empathy, genuineness, congruence, and unconditional positive regard.
5. Involve families and communities in

their children's development and learning.

6. Understand positive relationships and supportive interactions as the foundation of their work with children and families.
7. Exhibit sensitivity and insight into the wide variety of problems in living experienced by individuals and groups in contemporary society.
8. Demonstrate clinical skills of screening, assessment, treatment planning, termination and referral, including documentation and record management.
9. Apply principles of ethical decision making and practice ethical behavior in relation to self and others within the helping relationship.
10. Integrate knowledgeable, reflective, and critical perspectives on working with families.
11. Function effectively as a member of a team in providing services, designing programs, and working collaboratively among agencies and organizations for the benefit of families and the community.
12. Engage in continuous, collaborative learning to inform practice as well as pro-active self-care.
13. Engage in informed advocacy and education on behalf of children and families.
14. Exhibit interpersonal skills and be able to facilitate groups as well as work with individuals one-on-one.

Fire Science:

1. Perform safe and effective fire suppression techniques and hazard mitigation utilizing tools and appliances under high levels of stress.
2. Perform an adequate patient assessment and formulate and implement a treatment plan for patients with a variety of medical and traumatic emergencies.
3. Implement self-care strategies and techniques to address the impact of stress and emotional trauma on emergency providers.
4. Demonstrate leadership, teamwork and decision making in the management of multiple personnel on emergency scenes.
5. Understand and follow workplace expectations regarding attendance, safety, conduct, and professionalism.
6. Describe and use defensive and safe driving techniques and the operation of

- emergency vehicles and fire pumps.
7. Demonstrate safe work practices in a variety of specific rescue situations including rope, water, wilderness, and confined space rescue.
 8. Demonstrate the ability to conduct fire and life safety inspections and have an understanding of fire prevention principles.

Freshman Experience

1. Financial Literacy: RCC students will be able to manage and understand the relationship between income, expenses, credit and debt over time.
2. Social Skills/Soft Skills: RCC students will adapt to and follow the social structures, formal rules and cultural norms of college.
3. Connection: RCC students will be able to recognize the importance of developing and maintaining relationships with people and resources.
4. Study Skills: RCC students will commit and persist in completing their goals through a purposeful selection of tools and strategies that work for them.
5. Persistence: RCC students will commit to and persist along their chosen academic path through a purposeful and self-aware selection of tools and strategies.
6. Navigate Systems: RCC students will identify and use key systems in the appropriate order at the appropriate time.
7. Major Secure: RCC students will purposefully pursue a career based on interests, abilities, and career information.
8. Awareness of Cultural Diversity: RCC students will respectfully engage with a variety of ideas, viewpoints and differences in spite of their implicit bias.

Graphic Design

1. Problem Solving: Solve communication problems and carry projects from creation through to the production process; including the skills of problem identification, research and information gathering, analysis, generation of alternative solutions, prototyping, user testing, integration of feedback and the evaluation of outcomes.
2. Communication. Describe and respond to the audiences and contexts, which communication solutions must address, including recognition of the physical, cognitive, cultural, and social human factors that shape design decisions.

3. Demonstration. Create and develop visual concepts in response to communication problems, including an understanding of the principles of visual organization, information hierarchy, symbolic representation, typography, aesthetics, and the construction of original meaningful forms.
4. Technique. Understand tools and technology, including their roles in the creation, reproduction, and distribution of visual messages. Relevant tools and technologies include drawing, offset printing, photography, and time-based and interactive media.
5. Application. Be able both to determine the mode(s) of production required to achieve a specific product and to demonstrate level-appropriate mastery of skills, manual and/or digital, necessary to achieve those products. Apply the principles of color, composition, hierarchy, typography as they relate in the various media—digital, print, motion, 3-D, etc.—that exist in design.
6. Aesthetic Fluency. Recognize and apply aesthetic principles of design history, theory, and criticism from a variety of perspectives, including those of art history, linguistics, communication and information theory, technology, and the social and cultural use of design objects.
7. Professionalism. Understand the basic business practices and trade ethics related to graphic arts, including the ability to organize design projects and to work productively in client-designer and team relationships in the implementation and evaluation of projects.
8. Portfolio. Organize and present a portfolio of work that gives evidence of the skills, knowledge, and abilities to begin a graphic design career or transfer to a four-year college for additional study.

Health, Physical Education and Recreation

1. Demonstrate an understanding of demographic health changes and trends in chronic and acute diseases in the U.S. over the last 100 years.
2. Define what it means to have a healthy citizenry; Be able to explain wellness and disease as it relates to the larger community.
3. Understand the effects of nutrition, stress and exercise on healthy living and the human body.

4. Identify the effects of psychosomatic and spiritual health on the human body systems.
5. Demonstrate proficient understanding of rules and etiquette for sport or activity to encourage lifelong physical engagement in the wellness activity.
6. Exhibit improvement in skills or body mechanics at the conclusion of an HPER course.

Human Services

1. Apply principles of ethical decision making in the human services field and practice ethical behavior in relation to self and others within the helping relationship.
2. Establish rapport and a therapeutic alliance with clients through the demonstration of empathy, genuineness, congruence, and unconditional positive regard.
3. Promote personal growth in self and others by practicing positive living, optimism, self-examination and willingness to change.
4. Exhibit sensitivity and insight into the wide variety of problems in living experienced by individuals and groups in contemporary society.
5. Demonstrate clinical skills of screening, assessment, treatment planning, termination and referral.
6. Incorporate knowledge about the interrelated effects of addictions, poverty, mental and physical illness, and homelessness on family dynamics and intimate relationships in an integrated approach to addressing issues of family and intimate partner violence, child abuse and neglect.
7. Demonstrate specific skills in active listening, motivational interviewing, group counseling, crisis intervention and management, and counseling chemically dependent, traumatized, mentally ill and emotionally disturbed clients, as well as those with co-occurring mental health and addictions diagnoses.
8. Function effectively as a member of a team in providing services, designing programs, and working collaboratively among agencies and organizations for the benefit of clients and the community.
9. Actively engage in continuing education, lifelong learning and pro-active self-care.

Humanities

1. Demonstrate proficiency in written and oral communication to meet a variety of rhetorical demands.
2. Understand and respond to art, literature, and human expression across a broad range of cultures and time periods.
3. Interpret and engage in artistic expression, making use of the creative process to enrich the quality of life.
4. Apply critical reading, writing, and thinking skills to issues within the humanities and in other disciplines.
5. Engage in critical discourse beyond the classroom, understanding the interdependent, culturally diverse world we live in.

Industrial Welding Technology

1. Show a serious commitment to a culture of safety in all college and work environments.
2. Produce industry quality weldments on carbon steel plate in various joint and groove configurations. Processes include oxy fuel cutting, plasma arc cutting, SMAW, GMAW and FCAW.
3. Produce industry-quality welds using GTAW, GMAW and FCAW on stainless steel and aluminum plate.
4. Produce industry-quality welds on various diameters of carbon steel pipe in the 5g and 6g positions using SMAW electrodes E6010 and E7018.
5. Develop a logical sequence of steps to foresee, troubleshoot, and resolve mechanical and process issues that may arise in the workplace.
6. Interpret and create mechanical blueprints to industry standards.
7. Layout and fabricate industry-quality fabrication projects using shearing and forming equipment.
8. Demonstrate a commitment to the professional standards of the industry.

Library Services

1. Evaluate information based on currency, relevance, authority, accuracy, and purpose.
2. Recognize when they need to consult an expert in an appropriate field.
3. Correctly identify and distinguish information sources such as books, newspapers, magazines, and journals.
4. Effectively use technology to find information.
5. Use information ethically and responsibly.

Manufacturing Technology

1. Operate, set up, and program manual and CNC mills and lathes to print specifications.
2. Interpret and create mechanical blueprints to industry standards.
3. Follow, develop, and troubleshoot manufacturing processes and procedures.
4. Demonstrate the ability to adhere to personal and industry safety standards to protect personnel and equipment.

Massage Therapy

1. Communicate clearly and effectively in a professional manner with clients, members of the health care team, and others.
2. Demonstrate and document various assessment processes; recognizing health and non-health within the body.
3. Demonstrate ability to research pathologies and utilize clinical judgment using knowledge and problem solving skills when creating and implementing a treatment plan.
4. Provide care for diverse populations of clientele and demonstrate a personal commitment to service and the profession of massage therapy.
5. Demonstrate ethical/legal behaviors and boundaries in the massage profession, identify and apply components of a business plan and the ability to bill insurance cases.
6. Utilize universal precautions and maintain a high level of sanitization of equipment and the facility.
7. Utilize a variety of soft tissue modalities to aid in the health and healing of one's body and recognize how those modalities and massage skills combine to create different effects to meet the goals of clientele.
8. Use safe, efficient and effective body mechanics for injury prevention of the therapist and client as well as utilize, demonstrate and instruct the client in self-care techniques.
9. Identify and describe components of the body systems, how homeostasis is maintained, effects of massage on the differing systems and demonstrate safe movement through range of motion.

Mathematics

1. Solve problems by creating mathematical models using efficient mathematical tools and selecting appropriate technology.

2. Follow a multi-step mathematical process through to a logical conclusion.
3. Recognize and appreciate mathematics in context and display a curiosity and confidence for problem solving.
4. Accurately interpret the solution to a problem, including recognizing the reasonableness of the result.
5. Communicate solutions in a way that is useful to others, by using mathematical terminology and notation appropriately, efficiently, and correctly.
6. Select and efficiently use the tools of mathematics they know along with the appropriate technology to work with more complex mathematical concepts.

Medical Administrative Assistant

1. Perform health care office procedures that include scheduling, bookkeeping, billing and payment collection, utilizing a working knowledge of medical terminology, body systems, common medications, electronic health records and insurance.
2. Educate, advocate for, and collaborate with patients and the health care team within the scope of practice.
3. Compose, edit, proofread, and accurately produce health care and other business documents using appropriate software and equipment within specified timelines.
4. Integrate computer and communication technologies, as well as critical thinking skills, to accomplish health care office tasks.
5. Store, retrieve, distribute, and manage information and supplies as per clinic protocol.
6. Uphold legal and ethical standards and adhere to principles of patient confidentiality within the health care and community environment as defined by HIPAA.
7. Demonstrate professionalism through acceptable attitude, organization and time management skills, and attire.
8. Apply verbal, nonverbal, and written communication principles and skills effectively and compassionately within a team setting.
9. Maintain industry standards of quality control and safety principles in the workplace.

Medical Assistant

1. Skillfully perform and document routine clinical procedures according to current office protocol.

2. Perform and document routine administrative procedures according to current office protocol.
3. Collect, process, and test diagnostic specimens.
4. Maintain industry standards of quality control and safety principles in the workplace.
5. Uphold legal and ethical standards and confidentiality for patient privacy.
6. Effectively apply verbal, nonverbal, and written communication principles and skills in the workplace.
7. Demonstrate professionalism through acceptable attitude, organization and time management skills, and attire.

Medical Assistant – Phlebotomy

1. Draw blood from patients in preparation for medical testing in a variety of medical settings.
2. Demonstrate workplace skills of attention to detail, manual dexterity, work under pressure, and show excellent communication and interpersonal skills.
3. Prepare to take the ASCP Phlebotomy exam.

Medical Coding Specialist

1. Build a fundamental understanding of the human body and medical terminology as they apply to medical billing and coding.
2. Assign and understand diagnostic and procedure codes using ICD and HCPCS/CPT coding systems as used in a variety of settings.
3. Uphold legal and ethical standards and adhere to principles of patient confidentiality within the health care community environment as defined by federal, state, and local guidelines and regulations.
4. Effectively use specialized computer programs (EMR) and the Microsoft Office Suite.
5. Recognize and understand common acronyms used within the industry.
6. Understand and appropriately apply industry-standard payment methodologies.
7. Effectively apply verbal, nonverbal, and written communication principles and skills in the workplace.
8. Demonstrate professionalism through acceptable attitude, organization and time management skills, and attire.

Nursing

1. Base personal and professional actions on a set of shared core nursing values, including social justice, caring, advocacy, protection from harm, respect for self and others, collegiality, and ethical behavior; notice, interpret, respond and reflect on ethical dilemmas using ethical principles and frameworks as a guideline.
2. Develop insight through reflection, self-analysis, and self-care.
3. Engage in intentional learning, developing self-awareness of learning and effects on client care, seeking new, relevant knowledge and skills.
4. Demonstrate leadership in nursing and health care to meet client needs, improve the health care system, and facilitate community problem solving.
5. Collaborate as part of a health care team, receiving, using and giving constructive feedback.
6. Practice within, utilize, and contribute to the broader health care system.
7. Practice relationship-centered care, based on empathy and caring, deep understanding of the care experience, and mutual trust and respect for the autonomy of the client.
8. Communicate effectively and therapeutically, with attention to elements of cultural influences, and using appropriate modalities and technologies.
9. Make sound clinical judgments through noticing, interpreting and responding, using best available evidence, frameworks and systems to organize data and knowledge; accurately perform skills while maintaining patient and personal safety.
10. Locate, evaluate, and use the best available evidence.

Pharmacy Technician

1. Accurately implement physician orders by preparing, labeling and packaging medications while working under the supervision of a licensed pharmacist.
2. Demonstrate proficiency in assisting pharmacists in preparing, storing, and distributing medication products appropriate to a variety of pharmacy settings.
3. Perform accurate pharmacy calculations and proficiently apply computer skills, record keeping and billing in adherence to applicable industry regulations.
4. Apply verbal, nonverbal, and written communication principles and skills

effectively and compassionately within a team setting.

5. Uphold legal and ethical standards and adhere to principles of patient confidentiality within the health care and community environment as defined by HIPAA.
6. Maintain industry standards of quality control and safety principles in the workplace.
7. Demonstrate professionalism through acceptable attitude, organization and time management skills, and attire.
8. Prepare for the national pharmacy technician certification and licensure as required by State of Oregon Regulations.

Practical Nursing

1. Demonstrate a personal commitment to service and the profession of nursing
2. Demonstrate ethical and legal behavior in nursing practice.
3. Demonstrate clinical judgment using knowledge and problem solving skills when contributing to and implementing the plan of care.
4. Provide culturally sensitive care across the lifespan.
5. Apply established principles of health promotion and preventive health care.
6. Use technological resources effectively and appropriately.
7. Provide clinically competent care through use of established standards and practice guidelines.
8. Use clear and effective therapeutic communication with clients, families, members of the healthcare team, and others.
9. Apply concepts of resource utilization to practice cost-effective nursing care.
10. Functions as a member of the health care team.
11. Manage and coordinate care within organizational and regulatory constraints.

Science

1. Students can collect and analyze data.
2. Students can organize and present data in an appropriate format.
3. Using data students can draw conclusion and/or make decisions based on data.
4. Students will come to class prepared for lab and lecture.
5. Students in a sequence will demonstrate improvement in basic science skills.

Social Science

1. Apply analytical skills to social phenomena in order to understand human behavior.
2. Apply knowledge and experience to foster personal growth and better appreciate the diverse social world in which we live.
3. Understand the role of individuals and institutions within the context of society.
4. Assess different social science theories and concepts and understand the distinction between empirical and other methods of inquiry.
5. Utilize appropriate information literacy skills in written and oral communication.
6. Understand the diversity of human experience and thought, individually and collectively.
7. Apply knowledge and skills to contemporary problems and issues.

Sterile Processing Technician

1. Demonstrate basic technical skills in managing the process for surgical instrumentation sterilization, inventory control and supply chain management, and information technology as it relates to the sterile processing environment.
2. Demonstrate professional behaviors of caring, accountability, responsibility, respect for the quality care of patients, acceptable attitude and attire, and organization and time management skills.
3. Work independently in a team of central sterile processing technicians who are collaborating to maintain sterilization and storage.
4. Utilize critical thinking skills as a basis for clinical judgment and anticipatory decision making when managing all tasks related to sterile processing.
5. Effectively apply verbal, nonverbal, and written communication principles and skills in the workplace.

6. Maintain industry standards of quality control and safety principles in the workplace.
7. Uphold legal and ethical standards and adhere to principles of patient confidentiality within the health care community environment as defined by HIPAA.

Workforce Training

Demonstrate workforce skills that can be taken immediately into the flow of commerce.

Transferring

About transferring

www.roguecc.edu/Transfer

- Counseling/Advising Department/Transfer Center, G Building, Riverside Campus, 245-7552
- Student Services Building, Redwood Campus, 956-7190 (for undeclared and/or exploring majors)

RCC students intending to earn a four-year degree from an Oregon public or private university may complete all the lower-division general education requirements at RCC and begin work on the requirements for a specific major.

Students can prepare for more than 30 transfer majors at RCC where the advantages include smaller classes, lower tuition costs, and teaching excellence. RCC also provides academic support through free tutoring services.

The RCC transfer centers provide college catalogs, advising guides, admission and scholarship applications, and current publications from Oregon schools. Students also may use the centers' computers for direct access to the online transfer center.

Planning to transfer

Making a transfer plan early can save time and money. Because the general education and academic major requirements differ at each Oregon university, it is important to identify which courses can be taken at RCC before transferring. Some academic majors may require an early start on mathematics. For other majors, students may need to transfer after one year at RCC in order to take essential lower-division major coursework offered only at the transfer school.

Transfer advising

Academic and faculty advisers and counselors are available to assist students in developing educational plans that will meet the requirements of their chosen majors and transfer schools. Additionally, students who may be undecided or undeclared in a major have access to RCC counselors and courses designed to assist them in choosing appropriate majors and careers.

Rogue Community College has developed transfer agreements or "articulations" with Southern Oregon University, Oregon Tech, Capella University, Montana State University – Northern, Lane Community College, Linn-Benton Community College, Centralia College, University of Alaska/Fairbanks, University of Phoenix, and Eastern Oregon University. The college/university connection offers students the option of earning a two-year degree and the

opportunity to enroll in university courses at the same time, easing transitions to the four-year universities.

University residency requirements

Students should visit individual university websites to plan their transfer education and to determine residency requirements in place for specific schools.

Reverse transfer

Students who earn a certificate or associates degree on the way to earning a bachelor's degree create a faster and more efficient track to baccalaureate achievement. Earning the degree or certificate provides an additional credential that makes them more competitive when applying for jobs and scholarships.

Students who transfer to a university or another community college before earning a degree, but after earning a minimum of 24 college-level credits at Rogue Community College, may transfer credits back to RCC. If classes earned elsewhere complete the requirements for an RCC degree or certificate, the college will grant it. To find out if you qualify, apply for graduation at www.roguecc.edu/Enrollment/Forms.

Transfer options

Students attending RCC have several options for transfer to an Oregon public or private university.

Associate of Arts Oregon Transfer degree (AAOT)

This degree is designed for students planning to complete an associate's degree before transferring into a bachelor's degree program at one of Oregon's public universities.

The AAOT is accepted as a "block transfer" enabling students to enter as juniors with all lower division general education requirements completed. Students may be required to complete additional upper-division general education courses (courses numbered 300–400) at their transfer institutions. The AAOT, however, allows students flexibility in choosing courses to not only meet general education requirements but also courses required in their chosen academic majors.

The AAOT is not always the best choice for all majors. Some students may need to transfer after only one year at RCC in order to take essential lower-division major coursework required for the major that are offered only at the transfer school. Students

should consult with their academic advisers for the best option.

The AAOT is generally accepted at selected Oregon private colleges and universities. These include Concordia University, Pacific University, Warner Pacific University, George Fox University, Marylhurst University, and Corbin University. Additionally, the following out-of-state schools accept the AAOT: Hawaii Pacific University, Brigham Young University–Hawaii, Boise State University, Seattle Pacific University, and Washington State University.

Students are encouraged to contact the specific transfer school for the most current information.

Associate of Science Oregon Transfer – Business (ASOT)

The Associate of Science Oregon Transfer degree in Business is designed for students transferring into business degree programs at Oregon public universities. The ASOT is accepted at all Oregon public universities as "block transfer," enabling students to enter a university with junior standing for registration purposes.

Completion of the ASOT does not guarantee admission to a specific business school or program. It is strongly recommended that students make direct contact with their business school or program for advising and admission-specific requirements prior to completing this degree.

Associate of Science Oregon Transfer – Computer Science (ASOT)

The Associate of Science Oregon Transfer – Computer Science degree is designed for students transferring to baccalaureate degree programs in computer science or software engineering. Those completing the ASOT-Computer Science degree are assured junior level standing and will have met the lower division general education requirements of any Oregon public university.

Completion of the ASOT does not guarantee admission to a specific computer science school or program. Students should use the ASOT-Computer Science university-specific degree requirements guide for specific transfer requirements for individual schools. See an adviser for more information.

Associate of Science specific program articulations (AS degree)

RCC offers the Associate of Science degree in the specific areas listed below. Students com-

pleting this degree will have met all lower-division general education and academic major requirements to obtain junior status in specific programs at specific schools. Students are strongly encouraged to work with faculty advisers in these articulated programs to ensure proper academic planning.

- Business (articulated with SOU and Oregon Tech)
- Computer and Embedded Systems Engineering Technology (articulated with Oregon Tech)
- Criminology (articulated with SOU)
- Computer Science (articulated with SOU)
- Early Childhood Development (articulated with SOU)
- Elementary Education (articulated with SOU)
- Emerging Media and Digital Arts (articulated with SOU)
- Health and Physical Education (articulated with SOU)
- Human Services (articulated with SOU)
- Information Technology/Health Informatics Option (articulated with Oregon Tech)
- Manufacturing and Engineering Technology (articulated with Oregon Tech)
- Outdoor Adventure Leadership (articulated with SOU)
- Software Engineering Technology (articulated with Oregon Tech)

Associate of General Studies (AGS)

The Associate of General Studies degree (AGS) offers students a useful alternative for direct transfer. It enables students to complete an associate degree tailored to the general education and academic major requirements of the transfer school. Educational planning for the AGS degree should be done with the assistance of academic advisers or counselors.

Oregon Transfer Module (OTM)

The Oregon Transfer Module (OTM) provides a one-year curriculum for students who want to transfer to one of Oregon's public universities prior to completing a two-year degree. Students complete one year of general education courses that will be applied to the transfer university general education and academic major requirements. By fulfilling these requirements and meeting the admission standards of the transfer college, students will qualify for sophomore standing.

Students choosing this transfer option are advised to work closely with their faculty advisers to ensure selection of appropriate courses. Upon transfer, students will

be required to complete additional general education and academic major requirements specific to the transfer institution. Students should be aware that if they transfer prior to completing this module, courses will be evaluated individually toward the general education requirements of the university of their choice.

Courses in this module may also be applied to an Associate of Arts Oregon Transfer Degree (AAOT) or Associate of Science Oregon Transfer–Business degree (ASOT–Business), thus providing an additional option for students who may start on this track and decide instead to complete a two-year degree.

The Oregon Transfer Module differs from traditional certificates and degrees in that it is a milestone on the path to degree completion and is not eligible for commencement exercises. Such milestones will be noted on students' transcripts.

Direct transfer

The direct transfer option is for students who have selected a transfer school and academic major and who want to take specific classes for that major and/or transfer to a university. Direct transfer students will be required to meet the transfer school's freshman or transfer admission requirements. These will include a minimum transfer GPA, completion of specific courses (e.g., WR121, MTH111, etc.), and completion of a certain number of transferable credits. Students who do not meet the transfer student criteria must satisfy the new freshman requirements. Students are advised to visit the transfer school's website for specific admission requirements. Students who choose the direct transfer option will have RCC courses evaluated and accepted on a course-by-course basis by the transfer institution.

Transfer agreements Capella University

RCC has a course-to-course transfer agreement with Capella University that allows students to transfer to certain bachelor's degree programs offered by Capella University. These include business specialization areas, public administration, information technology specialization areas and psychology.

Specific degree agreements are also available allowing RCC graduates to be awarded specific credits toward a bachelor's degree. Specific degree program articulation agreements include:

- RCC's Associate of Arts Oregon Transfer degree to selected Associate of Applied Science degrees in Psychology, Information Technology, Public Safety or Business Bachelor of Science degrees.
- RCC's Associate of Science Oregon Transfer – Business degree to General Public Administration or Business Bachelor of Science degrees.

More information is available by calling Brian Schmidt at brian.schmidt@capella.edu, or visiting www.capella.edu/rogue.

Centralia College

Students successfully completing the RCC Associate of Applied Science degree in Diesel Technology may transfer to Centralia College in Washington to pursue a Bachelor of Applied Science degree in Diesel Technology. Students will be granted 108 quarter credits toward the degree. For more information contact the RCC Diesel Technology program at 541-245-7809.

Eastern Oregon University

RCC has a transfer agreement with Eastern Oregon University (EOU) for fire science students to pursue a Bachelor of Science degree in Fire Service Administration. Students will be granted up to 24 fire science credits toward the degree at EOU. For more information contact the RCC Fire Science program at 541-245-7965.

Lane Community College

RCC partners with Lane Community College to provide training for physical therapy assistants in Jackson and Josephine counties.

Students successfully completing the program are awarded an Associate of Applied Science degree by Lane Community College. RCC offers program prerequisites, general education, and related coursework locally, while students access PTA program-specific courses through LCC distance education delivery using LaneOnline. The program prepares students to become entry-level physical therapy assistants in a variety of practice settings, and to pass the National Physical Therapy Examination (NPTE) administered by the Federation of State Boards of Physical Therapy.

Most of the program can be completed locally. Clinical placements in the second year of the program will depend on availability of sites. As such, students may have to travel outside their immediate geographic area to a location in the Pacific Northwest.

For information regarding the Physical Therapy Assistant program, visit www.roguecc.edu/AlliedHealth.

Linn-Benton Community College

RCC partners with Linn-Benton Community College to provide training for occupational therapy assistants in Jackson and Josephine counties.

The program prepares students to function as entry-level occupational therapy assistants in a variety of settings and to pass the National Board for Certification in Occupational Therapy examination. Linn-Benton Community College awards an Associate of Applied Science (AAS) degree, with RCC offering program prerequisites, general education classes and related coursework.

By taking a combination of RCC classes and distance-learning courses offered by LBCC, the OTA program can be completed while a student is living in the Rogue Valley. Students enrolled in the program will need to travel to the LBCC campus in Albany approximately two to four times a term.

For details on the Occupational Therapy Assistant training visit www.roguecc.edu/AlliedHealth.

Montana State University — Northern

Students completing the Associate of Applied Science degree in Diesel Technology may transfer to Montana State University — Northern (MSU-N) to pursue a Bachelor of Science degree in Diesel Technology. Students will be granted 60 semester credits (block transfer) or equivalent 90 quarter credits toward the degree. For more information contact the RCC Diesel Technology program at 541-245-7809.

Oregon Institute of Technology

In addition to Associate of Science degree programs for transfer into the Business, Computer and Embedded Systems Engineering, Manufacturing Engineering Technology, Information Technology/Health Informatics Option, and Software Engineering Technology programs at Oregon Institute of Technology, students may complete their first year of course prerequisites at RCC and then transfer to Oregon Tech's Respiratory Care program or from the Graphic Design certificate to the Communication Studies program.

Students also may complete pre-professional prerequisites for Dental Hygiene, Emergency Medical Services Management, Health Care Management, Medical Imaging Technology, and Health Sciences programs at Oregon Tech.

Students earning an Associate of Arts Oregon Transfer degree or an Associate of Applied Science degree in Human Services may transfer to the Bachelor of Science degree in Population Health Management or Applied Psychology at Oregon Tech. For more information contact the RCC Social Science Department at 541-956-7066 or 541-245-7504.

Southern Oregon University

Students earning a degree in areas not covered by an Associate of Science degree have the option of completing all general education coursework at RCC or enrolling at both RCC and Southern Oregon University in their academic major courses.

By working with an RCC or SOU adviser, students can design a successful transfer plan. Planning ahead will save students time and money and will provide the opportunity to make a seamless transition to the university.

The SOU/RCC joint enrollment program provides many advantages. Joint enrollment means RCC students have access to most SOU facilities, receive coordinated financial aid and admissions, and enjoy eligibility for SOU student or family housing as well as basic health insurance and medical treatment through the SOU Student Health Center.

For more information about joint enrollment or transfer planning, call the Counseling/Advising Department 541-245-7552, or contact the SOU Office of Admissions, 541-552-6411, toll free at (800) 482-7672, or via email at admissions@sou.edu.

Southern Oregon University Bachelor of Applied Science

Southern Oregon University also offers a Bachelor of Applied Science (BAS) degree in Management for students who have completed an Associate of Applied Science degree in a technical field and want to earn a bachelor's degree.

Up to 124 quarter hours may be transferred to the BAS, and the remaining credits are completed at SOU. The BAS degree requires the completion of 180 quarter credits.

If students intend to transfer to the BAS program, transfer courses should be chosen

as program electives where possible. See an adviser for more information or visit www.sou.edu/degreecompletion.

University of Alaska/Fairbanks

University of Alaska/Fairbanks (UAF) offers a Bachelor of Emergency Management (BEM) degree in Homeland Security and Emergency Management (HSEM). Students completing RCC's Associate of Applied Science degree in Paramedicine will receive credit for transfer into its bachelor's program. Much of the coursework can be completed online. For more information contact RCC's Emergency Medical Services department at 541-245-7965.

University of Phoenix

phoenix.edu/roguecc

RCC has a course-to-course transfer agreement with University of Phoenix (UP) that allows students to transfer into certain bachelor's degree programs offered by the university. UP will provide a 5 percent tuition reduction for new students entering into a bachelor's degree program who have already completed an associate's degree at RCC.

Students transferring from RCC to UP will be considered as having satisfied their lower-division elective and general education requirements, giving them junior status at UP. Students who transfer using this articulation agreement must meet all prerequisite or state-specific content requirements as outlined in the academic progression and general education requirements policy sections of their chosen program at UP.

For RCC students who pursue an undergraduate level degree program at UP, the university will waive the prior learning assessment fee for community college non-credit training or certificate classes (does not include classes that have been transcribed as transferrable college-level credit towards a certificate or degree program offered at RCC).

More information is available by contacting Lori Silverman, national adviser, Community College Partnerships, University of Phoenix at 503-382-7449 or lori.silverman@apollo.edu.

Alcohol and Drug Counselor Certificate of Completion

About the Program

Alcohol and Drug Counselor is a four-term certificate program. It is designed for individuals who have completed a bachelor's degree and need further coursework to complete the educational requirements needed to become a Certified Alcohol and Drug Counselor (CADC). In addition to coursework, CADC certification requires 1,000 hours in the field and a passing score on the CADC exam. CADC status is a basic requirement for employment in the addictions field. Because some courses are offered only once per year, students may not be able to complete all requirements in a calendar year.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes (www.bls.gov/SOC/), graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.roguecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students must have completed a bachelor's degree from a regionally accredited institution. Human Services is a limited-entry program requiring completion of an application that includes a writing sample and personal references. For more information on how to apply, including application deadlines, visit the Human Services website, www.roguecc.edu/humanservices. Students should be aware that certain prerequisites may apply for core course requirements.

Prospective students should be aware of entry requirements of human services agencies prior to considering human services as a career choice. Practicum placement may require passing a criminal history background check. The inability to pass this check may preclude completion of the program. Students in recovery seeking placement in substance abuse treatment programs may also be required to demonstrate two years' sobriety. More information is available from the Human Services Department.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Human Services Department coordinator's approval. In order to ensure that coursework is current, program courses over 10 years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Each College Now credit student must meet with a Human Services Department adviser to determine placement.

Graduation Requirements

Students completing the required credits in this program with a grade of "C" or better, and passing the counseling skills competency requirement as demonstrated through a series of videotaped counseling interviews, will receive their certificates. Seven credits (231 hours) of documented practicum experience in an alcohol and drug treatment agency setting, supervised by a professional, is required.

Prerequisites ¹

| Course No. | Course Title | Credits |
|------------|--|---------|
| CS_____ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ² | 0-4 |
| MTH63 | Applied Algebra I or MTH60 Fundamentals of Algebra I or BT160 Business Math or higher level math | 4 |
| PSY101 | Psychology of Human Relations | 3 |
| SP111 | Fundamentals of Public Speaking | 4 |
| WR121 | English Composition I or higher level composition | 4 |

Total Prerequisite Credits

15-19

Required Courses

| Course No. | Course Title | Credits |
|------------|---|---------|
| HE208 | HIV and Infectious Diseases ³ | 1 |
| HS100 | Introduction to Human Services | 3 |
| HS115 | Principles of Client Record Management | 1 |
| HS155 | Interviewing Theory and Techniques | 4 |
| HS158 | Trauma-informed Care: Theory and Practice | 3 |
| HS170 | Introduction to Practicum | 3 |
| HS175 | Ethics for Counselors | 1 |
| HS202 | Counseling the Chemically Dependent Client I | 3 |
| HS210 | Motivational Interviewing | 3 |
| HS260 | Group Counseling | 4 |
| HS261G | Human Services Practicum and Seminar ⁴ | 7 |
| HS268 | Co-occurring Disorders: Introductory Theory and Counseling | 3 |
| PSY219 | Introduction to Abnormal Psychology ⁵ | 4 |
| PSY231 | Human Sexuality or HS204 Counseling Chemically Dependent Client II or SOC230 Introduction to Gerontology or PSY228 Introduction to Positive Psychology | 3-4 |
| SOC213 | Race and Ethnicity in the U.S. | 4 |
| SOC243 | Drugs, Crime and Addiction | 4 |

TOTAL PROGRAM CREDITS

51-52

¹ Required for graduation. May include additional classes based on placement test scores.

² Successful completion of CS120, or otherwise meeting the proficiency requirement within the last 10 years, fulfills this requirement. Contact a computer science adviser to help determine placement.

³ May be completed fall or spring term.

⁴ May be spread out over second and third terms.

⁵ Requires prerequisites of PSY201 and PSY202.

Architecture Interest Associate of General Studies Degree

A total of 90 credits are required to complete the Associate of General Studies (AGS) degree. The courses listed below are only meant to serve as a guide of recommended choices within categories required in the AGS framework. See the AGS graduation guide for full degree requirements. The following list includes recommended courses for students who have an interest in architecture.

RCC strongly recommends that students consider transferring to the University of Oregon or Portland State University before their sophomore year. There are many architecture courses required of sophomore students that are offered only at the transfer institution. Students are encouraged to work closely with their RCC academic advisors and visit the transfer school of choice website for specific admission and academic major requirements.

| Course No. | Course Title | Credits |
|------------|--|---------|
| ART115* | Basic Design I | 3 |
| ART116* | Basic Design II | 3 |
| ART204 | Art History I | 4 |
| ART205 | Art History II | 4 |
| ART206 | Art History III | 4 |
| MTH111 | College Algebra | 4 |
| MTH112 | Elementary Functions | 4 |
| PH201* | General Physics I with lab and recitation | 5 |
| PH202* | General Physics II with lab and recitation | 5 |

| | | |
|--------|---|---|
| PH203* | General Physics III with lab and recitation | 5 |
| WR121 | English Composition I | 4 |
| WR122 | English Composition II | 4 |

*University-recommended courses. Check with the specific transfer school for more details.

Art Interest

Associate of Arts Oregon Transfer Degree

A total of 90 credits are required to complete the Associate of Arts Oregon Transfer (AAOT) degree. The courses listed below are only meant to serve as a guide of recommended choices within categories required in the AAOT framework. See the AAOT graduation guide for full degree requirements. It is recommended that students also consult with the transfer college of choice regarding specific prerequisites since requirements for an art major vary at each university.

| Course No. | Course Title | Credits | AAOT Category |
|---------------------|-------------------------------------|---------|---------------|
| ART115 | Basic Design I | 3 | Elective |
| ART116 | Basic Design II | 3 | Elective |
| ART131 | Introduction to Drawing | 3 | Elective |
| ART204 | History of Art I | 4 | Humanities |
| ART205 | History of Art II | 4 | Humanities |
| ART206 | History of Art III | 4 | Humanities |
| ART253, 254, or 255 | Introduction to Ceramics I, II, III | 3 | Elective |
| ART276, 277, or 278 | Sculpture I, II, III | 3 | Elective |
| ART281, 282, or 283 | Painting I, II, III | 3 | Elective |
| MTH111 | College Algebra | 4 | Math |
| SPAN201 | Second Year Spanish I | 4 | Humanities |
| SPAN202 | Second Year Spanish II | 4 | Humanities |
| SPAN203 | Second Year Spanish III | 4 | Humanities |

Note: Three courses required in the humanities category. Additional courses would count as electives.

Art Interest

Associate of General Studies Degree

A total of 90 credits are required to complete the Associate of General Studies degree. The courses listed below are only meant to serve as a guide of recommended choices within categories required in the AGS framework. See the AGS graduation guide for full degree requirements.

This course of study is designed to provide a foundation for students planning to transfer to private art schools such as the Oregon College of Art and Craft in Portland, and for students wanting to develop their portfolios and depth of expertise within different mediums. Requirements at different schools vary so students should consult their programs of interest for more specific guidance.

| Course No. | Course Title | Credits |
|------------|---------------------------------|---------|
| ART115 | Basic Design I (Composition) | 3 |
| ART116 | Basic Design II (Color Theory) | 3 |
| ART131 | Introduction to Drawing (Value) | 3 |

Associate of Arts Oregon Transfer Degree

About the Program

The Associate of Arts Oregon Transfer degree is a two-year program designed for students who intend to transfer to an Oregon university. Completion of the degree will satisfy lower division general education requirements and ensures junior standing at a university for registration purposes. Additionally, with careful planning, students may satisfy many of the lower division courses required in their academic majors.

Students should be aware, however, that if they transfer before completing this degree, their courses will be evaluated individually toward the general education requirements of the school of their choice. Students are encouraged to work closely with their academic advisers to maximize the benefits of this degree.

The Higher Education Coordinating Commission has approved certain general education outcomes for courses selected to fulfill AAOT degree requirements. All courses listed meet those identified outcomes. For more information see this catalog or visit www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take the college placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill level as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies. Discipline studies-approved coursework in humanities, social science, and science/math/computer science transferred from another Oregon community college will be accepted if students have a declared AAOT major at RCC and received a "C" or better grade in the course(s). College Now credit will be accepted in accordance with current agreement.

Graduation Requirements

Students must complete a minimum of 90 college-level credits with a minimum grade of "C" or better, including at least one course designated as meeting cultural literacy criteria.

Foundational Skills Requirements

| Course No. | Course Title | Credits |
|------------|--------------|---------|
|------------|--------------|---------|

Writing Skills (minimum 8 credits required)

Students who took writing classes of 3 credits each must have WR121, WR122 and either WR123 or WR227. Students taking classes of 4 credits each must take WR121 and either WR122 or WR227.

| | | |
|-------|--|---|
| WR121 | English Composition I | 4 |
| WR122 | English Composition II or WR227 Technical Writing | 4 |

Oral Communication (minimum one course required)

| | | |
|-------|--|---|
| SP111 | Fundamentals of Public Speaking | 4 |
| SP115 | Intercultural Communication ¹ | 4 |
| SP218 | Interpersonal Communication | 4 |

Mathematics (minimum one course required; prerequisite: MTH95 or MTH96)

| | | |
|----------------|---|-------|
| MTH105 | Introduction to Contemporary Mathematics ² | 4 |
| MTH111 | College Algebra | 4 |
| MTH112 | Elementary Functions | 4 |
| MTH211,212,213 | Fundamentals of Elementary Math I, II, III | 5-5-5 |
| MTH243 | Probability and Statistics ² | 4 |
| MTH244 | Inferential Statistics | 4 |
| MTH251,252,253 | Calculus I, II, III | 5-5-5 |
| MTH254 | Vector Calculus | 5 |
| MTH256 | Differential Equations | 5 |
| MTH261 | Linear Algebra | 5 |

Fitness/Health/Physical Education (minimum one or more courses totaling at least 3 credits)

| | | |
|--------|--|----------|
| HE112 | Emergency First Aid | 1 |
| HE199 | Special Studies | 1 |
| HE208 | HIV and Infectious Diseases | 1 |
| HE250 | Personal Health | 3 |
| HE252 | First Aid/CPR | 3 |
| HE253 | Wilderness First Aid | 3 |
| HE259 | Care and Prevention of Athletic Injury | 3 |
| HE261 | CPR/Basic Life Support Provider | 1 |
| HPE295 | Health and Fitness for Life | 3 |
| PE185 | Activity Courses | 1-3 |
| PE199 | Special Studies | variable |
| PE291 | Life Guard Training | 2 |
| PE292 | Water Safety Instructor | 2 |

Discipline Studies Requirements

| Course No. | Course Title | Credits |
|------------|--------------|---------|
|------------|--------------|---------|

Humanities Requirement (minimum three courses from the following list chosen from at least two disciplines) ⁴

| | | |
|----------------|--|-------|
| ART204,205,206 | History of Art I, II, III ¹ (sequence recommended for art majors transferring to a university art program plus one additional course from another discipline) | 4-4-4 |
| ART211 | Survey of Visual Arts ¹ | 3 |
| COMM225 | Small Group Communication | 4 |
| COMM237 | Communication and Gender ¹ | 4 |
| COMM270 | Argumentation and Debate | 3 |
| ENG104,105,106 | Introduction to Literature | 4-4-4 |
| ENG107,108,109 | World Literature ¹ | 4-4-4 |
| ENG201,202,203 | Shakespeare I, II, III | 4-4-4 |
| ENG204,205,206 | Introduction to English Literature | 4-4-4 |
| ENG253,254,255 | Survey of American Literature | 4-4-4 |
| ENG257 | African American Literature ¹ | 4 |
| ENG260 | Introduction to Women Writers ¹ | 4 |

| | | |
|------------------------|--|-----------|
| ENG275 | The Bible as Literature | 4 |
| HUM101,102,103 | Introduction to Humanities ¹ | 4-4-4 |
| HUM215,216,217,218,219 | Native American Arts and Cultures ¹ | 4-4-4-4-4 |
| IS110 | Introduction to International Studies I ¹ | 4 |
| MUS105 | Music Appreciation | 3 |
| MUS108 | Music in World Cultures | 4 |
| MUS201 | Introduction to Western Music | 4 |
| MUS205 | History of Jazz | 3 |
| MUS206 | Introduction to Rock Music | 3 |
| MUS208 | Film Music | 3 |
| MUS261,262,263 | History of Western Music I, II, III | 4-4-4 |
| MUS264,265,266 | History of Rock I, II, III | 3-3-3 |
| PHL101,102,103 | Philosophical Problems, Ethics, Critical Reasoning | 4-4-4 |
| REL201 | World Religions ¹ | 4 |
| REL243 | Nature, Religion and Ecology ¹ | 4 |
| SP100 | Basic Communication | 3 |
| SP111 | Fundamentals of Public Speaking ⁴ | 4 |
| SP115 | Intercultural Communication ^{1,4} | 4 |
| SP218 | Interpersonal Communication ⁴ | 4 |
| SPAN201,202,203 | Second Year Spanish I, II, III ^{1,3} | 4-4-4 |

Social Science Requirement (at least four courses from the following list chosen from at least two disciplines)

| | | |
|----------------|---|-------|
| ANTH110 | Introduction to Cultural Anthropology ¹ | 4 |
| ANTH150 | Introduction to Archaeology | 4 |
| CJ100 | Foundations and Ethics in Criminal Justice | 4 |
| CJ214 | Crime, Justice and Diversity ¹ | 4 |
| ECON201 | Principles of Microeconomics | 4 |
| ECON202 | Principles of Macroeconomics | 4 |
| GEOG110 | Introduction to Cultural/Human Geography ¹ | 3 |
| GEOG120 | World Regional Geography | 3 |
| HST104,105 | History of World Civilization I, II ¹ | 4-4 |
| HST201,202 | History of the United States I, II | 4-4 |
| PS201,202, 203 | U.S. Government I, II, III | 3-3-3 |
| PSY201,202 | General Psychology I, II | 4-4 |
| PSY215 | Life Span Human Development | 4 |
| PSY219 | Introduction to Abnormal Psychology (not recommended for psychology majors) | 4 |
| SOC204,205 | Introduction to Sociology, American Society ¹ | 4-4 |
| SOC213 | Race and Ethnicity in the U.S. ¹ | 4 |
| SOC218 | Sociology of Gender ¹ | 3 |
| SOC221/CJ201 | Juvenile Delinquency | 4 |
| SOC225 | Social Problems ¹ | 4 |
| SOC228 | Environment and Society ¹ | 4 |
| SOC235 | The Chicano/Latino Historical Experience ¹ | 4 |
| SOC243/CJ243 | Drugs, Crime and Addiction | 4 |
| SOC244/CJ101 | Introduction to Criminology | 4 |

Science/Math/Computer Science Requirement (Four courses required of which three must be lab sciences from the Lab Science list. The fourth course may be a lab or non-lab science, math or computer science. Note: Maximum of three courses from any one discipline or prefix and only one of the four courses can be a regional field studies course indicated by asterisk).

Lab Science Courses

| | | |
|-----------------|---|-------|
| BI101,102,103 | Introduction to Biology I, II, III with lab (non-majors) | 4-4-4 |
| BI121,122 | Elementary Anatomy and Physiology I, II with lab | 4-4 |
| BI211,212,213 | General Biology I, II, III with lab | 4-4-4 |
| BI231,232,233 | Anatomy and Physiology I, II, III with lab | 4-4-4 |
| BI234 | Microbiology with lab | 4 |
| BI272 | Introduction to Ecology with lab | 4 |
| CHEM104,105,106 | Introductory Chemistry I, II, III with lab and recitation | 5-5-5 |

| | | |
|-----------------|---|-------|
| CHEM221,222,223 | General Chemistry I, II, III with lab and recitation | 5-5-5 |
| G101,102,103 | Introduction to Geology I, II, III with lab | 4-4-4 |
| GS104 | Physical Science with lab | 4 |
| GS105 | Physical Science: Chemistry with lab | 4 |
| GS106 | Physical Science: Earth Science with lab | 4 |
| GS107 | Physical Science: Astronomy with lab | 4 |
| GS108 | Physical Science: Oceanography with lab | 4 |
| GS161 * | Regional Field Studies (includes lab) | 4 |
| GS170 * | Regional Field Geology (includes lab) | 4 |
| PH201,202,203 | General Physics, I, II, III with lab and recitation | 5-5-5 |
| PH211,212,213 | General Physics (Calculus Based) I, II, III with lab and recitation | 5-5-5 |

Non-lab Science/Math/Computer Science Courses

| | | |
|----------------|---|-------|
| ENV111 | Introduction to Environmental Science | 3 |
| CS160 | Introduction to Computer Science | 4 |
| CS161,162 | Computer Science I, II | 4-4 |
| CS233js | JavaScript II | 4 |
| CS233u | Advanced C++ Programming | 4 |
| CS260 | Data Structures I | 4 |
| MTH105 | Introduction to Contemporary Mathematics ⁵ | 4 |
| MTH111 | College Algebra ⁵ | 4 |
| MTH112 | Elementary Functions ⁵ | 4 |
| MTH211,212,213 | Fundamentals Elementary Math I, II, III ⁵ | 5-5-5 |
| MTH243 | Probability and Statistics ⁵ | 4 |
| MTH244 | Inferential Statistics ⁵ | 4 |
| MTH251,252,253 | Calculus I, II, III ⁵ | 5-5-5 |
| MTH254 | Vector Calculus ⁵ | 5 |
| MTH256 | Differential Equations ⁵ | 5 |
| MTH261 | Linear Algebra ⁵ | 5 |
| NFM225 | Nutrition | 4 |

Elective Requirements

Complete sufficient number of college-level (numbered 100 and above) courses to meet total degree requirement of at least 90 credits. It is recommended that electives be from the major area of interest. First-year foreign language courses may be used as elective credits.

Note: At the discretion of the department, a maximum of 12 Cooperative Work Experience (CWE) credits may be used toward this degree provided they have been approved within a program of study (a concentration of classes within a major or subject area). CWE is an advanced learning opportunity (capstone), not an exploratory experience, and should be completed within the last two terms of the degree. See an advisor for more information.

A maximum of 12 career and technical course credits may be used toward this degree including any career and technical CWE courses.

MINIMUM TOTAL PROGRAM CREDITS: 90

¹ Meets cultural literacy criteria (one course required).

² MTH105 and MTH243 may not be accepted if students do not complete this degree before transferring to an Oregon university. Students should check with the university about possible additional math required for their degree.

³ Students who have graduated from high school or completed a high school equivalency program in 1997 or after must have the following requirement for admission to a four-year Oregon university: 1) Two years of the same high school-level foreign language, or 2) two terms of college-level foreign language with a grade of "C" or better (may be first-year foreign language, which can be used as elective credits on the Associate of Arts Oregon Transfer degree). If students plan to complete a Bachelor of Arts (BA) degree at a four-year school, they must complete three terms of 200-level foreign language with a "C" or better or demonstrate a level of proficiency set forth by the four-year school.

⁴ May be taken if not used to fulfill oral communication foundational requirement.

⁵ May be taken if not used to fulfill mathematics foundational requirement.

Associate of General Studies Degree

About the Program

The Associate of General Studies degree is a two-year program designed to provide students the opportunity to acquire a broad education rather than pursuing a specific college major or program. The general studies degree may, in addition to general education coursework, include lower-division college transfer and career and technical education courses. Because of the flexibility of this degree, it may not fulfill requirements for transfer to a four-year institution.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies. Individual courses may be challenged based on the student's life experience or knowledge. Arrangements may be made on an individual basis with the instructor teaching the course to determine specific challenge procedures. College Now credit will be accepted in accordance with current agreement.

Graduation Requirements

The Associate of General Studies degree will be awarded to students who complete a minimum of 90 credit hours of college transfer and career and technical courses from the curriculum listed. Students must receive a grade of "C" or better in all coursework. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

General Education Requirements

| Course No. | Course Title | Credits |
|------------|---|---------|
| CS ____ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ¹ | 0-4 |
| LIB127 | Introduction to Academic Research | 1 |
| PSY101 | Psychology of Human Relations or BT101 Human Relations in Organizations | 3 |
| SP100 | Basic Communication ² or SP111 Fundamentals of Public Speaking or SP115 Introduction to Intercultural Communication or SP218 Interpersonal Communication | 3-4 |
| MTH105 | Introduction to Contemporary Math ³ or MTH111 College Algebra or MTH243 Probability and Statistics with lab ³ or MTH211 Fundamentals of Elementary Math or MTH251 Calculus I (Differential) with lab or higher level math | 4-5 |
| WR121 | English Composition I | 4 |

Total General Education Credits 15-21

Core Requirements

A minimum of 3 or 4 credits must be taken from each of the following categories with no more than 9 credits from any one category.

| Course No. | Course Title | Credits |
|------------|--|---------|
| — | Art/Humanities | 3-9 |
| — | Science/Computer Science (one lab science is required) | 4-9 |
| — | Social Science | 3-9 |
| — | Physical Education/Health | 3-9 |

Minimum Total Required Core Credits 18

Other Requirements

| Course No. | Course Title | Credits |
|------------------------------|--|--------------|
| — | Lower division transfer and career and technical courses | 51-57 |
| Total Other Credits | | 51-57 |
| TOTAL PROGRAM CREDITS | | 90 |

¹ Students are required to take an approved 3-4 credit computer science class, CS120 or above or otherwise document proficiency. Successful completion of CS120 within the last 10 years fulfills this requirement.

² SP100 may not be accepted if students do not complete this degree before transferring to an Oregon University. See an advisor for more information.

³ MTH105 and MTH243 may not be accepted if students do not complete this degree before transferring to an Oregon university. Students should check with the university about possible additional math required for their degree.

Note: At the discretion of the department, a maximum of 24 Cooperative Work Experience (CWE) credits may be used toward this degree provided they have been approved within a program of study (a concentration of classes within a major or subject area). CWE is an advanced learning opportunity (capstone), not an exploratory experience, and should be completed within the last two terms of the degree. See an advisor for more information.

Automotive Specialist Certificate of Completion

About the Program

The Automotive Specialist four-term certificate program is designed for students who wish to acquire basic technical training to enter minor automotive industry positions. Students who desire more in-depth industry training as automotive technicians and/or Automotive Service Excellence (ASE) training at all levels should enroll in the Associate of Applied Science degree program.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.roguecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Automotive Technology Department chair's approval. In order to ensure that coursework is current, program courses over five years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. College Now credit will be accepted in accordance with current agreement. Verified Automotive Service Excellence (ASE) certification or industry experience may be substituted for some coursework in accordance with college policies and the department chair's approval.

Graduation Requirements

Students must complete all courses in this program with a grade of "C" or better to receive their certificates. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|------------|---|---------|
| MTH20 | Pre-algebra or designated placement test score | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |
| WR115 | Introduction to Expository Writing or designated placement test score | 0-3 |

Total Prerequisite Credits 0-11

General Education Requirements

| Course No. | Course Title | Credits |
|------------|--|---------|
| CS__ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ¹ | 0-4 |
| MTH63 | Applied Algebra I or MTH60 Fundamentals of Algebra I or higher level math | 4 |
| PSY101 | Psychology of Human Relations or BT101 Human Relations in Organizations | 3 |
| WR121 | English Composition I | 4 |
| HE112 | Emergency First Aid or HE261 CPR/Basic Life Support Provider or HE252 First Aid/CPR | 1-3 |

Total General Education Requirements 12-18

Technical Requirements

| Course No. | Course Title | Credits |
|--------------------------------|---|--------------|
| First Term | | |
| AM120 | Automotive Maintenance and Trades Practices | 6 |
| AM122 | Gasoline Engines Rebuild | 7 |
| | | 13 |
| Second Term | | |
| AM111 | Electricity for Automotive Technicians | 7 |
| AM131 | Engine Dynamics and Diagnosis | 7 |
| | | 14 |
| Third Term | | |
| AM141 | Manual Transmissions and Axles | 6 |
| AM151 | Automotive Brake Systems | 6 |
| | | 12 |
| Fourth Term | | |
| AM190 | Automotive Repair Lab I | 4 |
| | | 4 |
| Total Technical Credits | | 43 |
| TOTAL PROGRAM CREDITS | | 55-61 |

¹ Successful completion of CS120, or otherwise meeting the proficiency requirement within the last 10 years, fulfills this requirement. Contact a computer science advisor to help determine placement.

Automotive Technology

Associate of Applied Science Degree

About the Program

The Automotive Technology two-year degree program is designed for students seeking a career in today's automotive service industry. The program builds rapidly from fundamentals and theory into diagnosis and repair of today's modern automobiles based upon Automotive Service Excellence (ASE) standards.

The design of the program places heavy emphasis upon actual hands-on work in the automotive labs. Approximately two-thirds of the time spent in the program is in a lab (shop) environment where the student applies theory to diagnosis and repair of a wide variety of domestic and import automobiles. As the level of student skill develops, so does the difficulty of the repairs performed.

If students intend to transfer to Oregon Tech's Bachelor of Applied Science degree program, transfer courses should be chosen from the list of electives where possible. See an adviser for more information, or visit <http://www.oit.edu/academics/academic-agreements/articulations>.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by the placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success. Students must also meet certain program requirements in the first and third terms, and complete any prerequisites before advancing in the program.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies. In order to ensure that coursework is current, program courses over five years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. College Now credit will be accepted in accordance with current agreement. Verified Automotive Service Excellence (ASE) certification and industry experience may be substituted for some coursework in accordance with college policy and the department chair's approval.

Graduation Requirements

Students must complete all courses in this program with a grade of "C" or better to receive their degrees. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Basic Health Care Certificate of Completion

About the Program

The Basic Health Care two- to three-term certificate prepares students for work in entry-level positions in the health care industry. Students gain knowledge and skills pertinent to work in the medical industry and are provided a basis of preparation to pursue further training and employment in allied health career fields and beyond. This certificate is unique in that it provides a diverse range of electives allowing students to select from a variety of specialty tracks that guide them toward completion of an additional certificate or degree program.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.roguecc.edu/GainfulEmployment.

Additionally, the program provides support to health care employers through professional development for support workers in academic, personal effectiveness, workplace, and industry-wide technical health care competencies. The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success. It is important that students work closely with an adviser to select courses appropriate to their career goals. Students who are enrolled in the Basic Health Care certificate are not given advanced placement into limited-entry programs described in the specialty tracks. Some tracks have limits and restrictions that could impede placement.

Advanced Standing

Coursework from accredited universities will be accepted in accordance with college policies and the program coordinator's approval. In order to ensure that coursework is current, program courses over five years old must be reviewed and approved by the program coordinator before being accepted toward core requirements. Each College Now credit student must meet with the coordinator to determine placement.

Graduation Requirements

Students completing the required credits in this program with a grade of "C" or better will receive their certificates. Certain prerequisite and required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|-----------------------------------|--|-------------|
| MTH20 | Pre-algebra or designated placement test score | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |
| WR90 | Fundamentals of Composition or designated placement test score | 0-4 |
| Total Prerequisite Credits | | 0-12 |

Required Courses

| Course No. | Course Title | Credits |
|------------|---|---------|
| AH100 | Medical Terminology: Introduction | 3 |
| BI100SB | Biology of Human Body Systems ¹ | 3 |
| CG155 | Exploring Careers in Health Care ² or PSY101 Psychology of Human Relations or BT101 Human Relations in Organizations | 3 |
| CS___ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ³ | 0-4 |

| | | |
|------------------------------|---|--------------|
| HCI120 | Introduction to Health Care Industry ² | 3 |
| HE261 | CPR/Basic Life Support Provider or HE112 Emergency First Aid or HE250 Personal Health or HE252 First Aid/CPR or HPE295 Health and Fitness for Life or PSY215 Life Span Human Development | 1-4 |
| MTH63 | Applied Algebra I or MTH60 Fundamentals of Algebra I or higher level math | 4 |
| WR115 | Introduction to Expository Writing or BT113 Business English I or higher level composition | 3-4 |
| — | Approved specialty track electives | 6-10 |
| TOTAL PROGRAM CREDITS | | 26-38 |

Specialty Track Electives (6-10 credits required)

Electives have been organized into tracks that will lead toward additional certifications or degrees. Any combination of 6-10 credits from the courses listed below will meet program requirements.

Additional coursework is required beyond Basic Health Care certificate courses to complete expanded certificate or degree programs. Some specialty tracks listed require admission through a limited-entry application process that could restrict student accessibility.

Community Health Worker (6 credits)

| | | |
|-------|-------------------------|---|
| HC100 | Community Health Worker | 6 |
|-------|-------------------------|---|

Dental Assisting (Choose 8-9 credits)

| | | |
|---------|--|---|
| BI211 | General Biology I with lab | 4 |
| CHEM104 | Introductory Chemistry I with lab and recitation | 5 |
| SP111 | Fundamentals of Public Speaking | 4 |
| SRV101 | Service Learning | 1 |

EMT/Paramedic ¹ (10 credits)

| | | |
|---------------|--|-----|
| ES131, ES131L | Emergency Medical Technician Part I and Lab | 4-1 |
| ES132, ES132L | Emergency Medical Technician Part II and Lab | 4-1 |

Exercise Specialist ¹ (8 credits)

| | | |
|--------|---|---|
| NFM225 | Nutrition | 4 |
| SOC230 | Introduction to Gerontology or PSY215 Life Span Human Development (if not taken as part of core) | 4 |

Health Care Informatics (6 credits)

| | | |
|--------|---|---|
| HCI210 | Legal Aspects of Medical Records | 3 |
| HCI255 | Introduction to Health Care Informatics | 3 |

Human Services (Choose 7-8 credits)

| | | |
|--------------|---|---|
| CJ243/SOC243 | Drugs, Crime and Addiction | 4 |
| HS158 | Trauma-informed Care: Theory and Practice | 3 |
| SOC230 | Introduction to Gerontology | 4 |
| PSY201 | General Psychology I | 4 |

Massage Therapy ^{1, 4} (Choose 6-10 credits)

| | | |
|--------|---|---|
| BI121 | Elementary Anatomy and Physiology I with lab (if not taken as part of core) | 4 |
| MT100 | Massage I – Basic Swedish ⁴ | 2 |
| MT101 | Asian Bodywork I ⁴ | 2 |
| NFM225 | Nutrition | 4 |

Medical Administrative Assistant (Choose 6-10 credits)

| | | |
|-----------------|---|-------|
| CG144 | Introduction to Assertiveness | 1 |
| EMS165 | Introduction to Pharmacology for Health Occupations | 2 |
| SPAN101/102/103 | First Year Spanish I, II, III | 4-4-4 |
| SRV101 | Service Learning | 1 |

Medical Assistant (Choose 6-10 credits)

| | | |
|-------|-------------------------------|---|
| AH110 | Medical Terminology: Clinical | 3 |
| BT111 | Conflict Management | 2 |
| CG144 | Introduction to Assertiveness | 1 |

| | | |
|--------|---|---|
| CG155 | Exploring Careers in Health Care (if not taken as part of core) | 3 |
| SP100 | Basic Communication | 3 |
| SRV101 | Service Learning | 1 |
| WR110 | Understanding English Grammar | 2 |

Medical Coding Specialist (Choose 7-10 credits)

| | | |
|-----------------|---|-------|
| CG155 | Exploring Careers in Health Care (if not taken as part of core) | 3 |
| CS125SS | Spreadsheet Applications | 4 |
| SOC213 | Race and Ethnicity in the U.S. | 4 |
| SPAN101/102/103 | First Year Spanish I, II, III | 4-4-4 |

Nursing 1 (Choose 8 credits)

| | | |
|--------|---------------------------------|---|
| BI211 | General Biology I with lab | 4 |
| NFM225 | Nutrition | 4 |
| PSY201 | General Psychology I | 4 |
| SP111 | Fundamentals of Public Speaking | 4 |

Pharmacy Technician (Choose 6-10 credits)

| | | |
|-----------------|---|-------|
| CG144 | Introduction to Assertiveness | 1 |
| CG155 | Exploring Careers in Health Care (if not taken as part of core) | 3 |
| SPAN101/102/103 | First Year Spanish I, II, III | 4-4-4 |
| SRV101 | Service Learning | 1 |
| WR110 | Understanding English Grammar | 2 |

Sterile Processing Technician (7-8 credits)

| | | |
|-----------------|---|-------|
| BI234 | Microbiology with lab | 4 |
| CG155 | Exploring Careers in Health Care (if not taken as part of core) | 3 |
| SPAN101/102/103 | First Year Spanish I, II, III | 4-4-4 |
| SRV101 | Service Learning | 1 |

¹ Some programs require higher-level anatomy and physiology coursework (BI121/BI122 or BI231/BI232/BI233). See specific program graduation guides for details. Students who have completed either BI121 and BI122 or BI231, BI232 and BI233 (the entire sequence of either series) with an equivalent "C" or better grade do not need to take BI100SB.

² Corequisite: WR115.

³ Successful completion of CS120, or otherwise meeting the proficiency requirement within the last 10 years, fulfills this requirement. Contact a computer science adviser to help determine placement.

⁴ Massage courses are available only with instructor approval and are limited in availability.

Biology Interest

Associate of Arts Oregon Transfer Degree

A total of 90 credits are required to complete the Associate of Arts Oregon Transfer (AAOT) degree and the courses listed below are only meant to serve as a guide of recommended choices within categories required in the AAOT framework. See the AAOT graduation guide for full degree requirements. It is recommended that students also consult with the transfer college of choice regarding specific prerequisites since requirements for a biology major vary at each university.

| Course No. | Course Title | Credits | AAOT Category |
|------------|---|---------|---------------|
| BI211 | General Biology I with lab | 4 | Science |
| BI212 | General Biology II with lab | 4 | Science |
| BI213 | General Biology III with lab | 4 | Science |
| CHEM221 | General Chemistry I with lab and recitation | 5 | Science |
| CHEM222 | General Chemistry II with lab and recitation | 5 | Science |
| CHEM223 | General Chemistry III with lab and recitation | 5 | Science |
| MTH243 | Probability and Statistics | 4 | Math |
| MTH251 | Calculus I | 5 | Math |

| | | | |
|--------|---|---|----------|
| MTH252 | Calculus II | 5 | Math |
| PH201 | General Physics I with lab and recitation | 5 | Science |
| PH202 | General Physics II with lab and recitation | 5 | Science |
| PH203 | General Physics III with lab and recitation | 5 | Science |
| WR227 | Technical Writing | 4 | Elective |

Note: Four courses required in the science/math category, additional courses would count as electives.

Business

Associate of Science Oregon Transfer Degree

About the Program

The statewide Associate of Science Oregon Transfer degree in Business is designed for students transferring to baccalaureate degree programs as business majors. Those completing the ASOT-Business degree are assured junior level standing for registration purposes and will have met the lower division general education requirements of any Oregon public university. Grade point average requirements for entry into the university's major are not necessarily satisfied by the ASOT-Business degree. Students should be aware that if they transfer before completing this degree, courses will be evaluated individually toward the general education requirements of the college of their choice.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take the college placement test to determine skill level and readiness indicated by test scores. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Business Technology Department chair's approval. In order to ensure coursework is current, program courses over 10 years old must be reviewed and approved by the appropriate department chair before being accepted toward course requirements.

Graduation Requirements

Students must complete a minimum of 90 term credits of lower division collegiate courses with a minimum grade of "C" or better.

General Requirements

27-30

| Course No. | Course Title | Credits |
|------------|--------------|---------|
|------------|--------------|---------|

Writing Skills (two courses required)

8

Students who took writing classes of 3 credits each must have WR121, WR122 and either WR123 or WR227. Students taking classes of 4 credits each must take WR121 and either WR122 or WR227.

| | | |
|-------|---------------------------|---|
| WR121 | English Composition I and | 4 |
| WR122 | English Composition II or | |
| | WR227 Technical Writing | 4 |

Oral Communication (one course required) 3-4

| | | |
|-------|--|---|
| SP100 | Basic Communication ¹ | 3 |
| SP111 | Fundamentals of Public Speaking | 4 |
| SP115 | Intercultural Communication ^{1 2} | 4 |
| SP218 | Interpersonal Communication | 4 |

Mathematics (three courses required - students should consult university-specific information to determine any additional mathematics requirements) 12-14

| | | |
|--------|----------------------------|---|
| MTH243 | Probability and Statistics | 4 |
|--------|----------------------------|---|

Plus two additional math courses from the following list:

| | | |
|----------------|--|-------|
| MTH111 | College Algebra | 4 |
| MTH112 | Elementary Functions | 4 |
| MTH211,212,213 | Fundamentals of Elementary Math I, II, III | 5-5-5 |
| MTH244 | Inferential Statistics | 4 |
| MTH251 | Calculus I (Differential) | 5 |
| MTH252 | Calculus II (Integral) | 5 |
| MTH253 | Calculus III | 5 |
| MTH254 | Vector Calculus | 5 |
| MTH256 | Differential Equations | 5 |
| MTH261 | Linear Algebra | 5 |

Computer Applications 4

| | | |
|-------|------------------------------------|---|
| BA131 | Introduction to Business Computing | 4 |
|-------|------------------------------------|---|

Distribution Requirements (must include one course from any discipline that meets the statewide criteria for cultural literacy – see catalog for details) 38-48**Humanities ³ (9-12 credits)**

Choose three courses from at least two disciplines/prefixes. Courses must be at least 3 credits each and exclude first-year foreign language courses; second-year foreign language is acceptable; American Sign Language is considered a foreign language (see catalog for approved list of humanities electives).

Social Science (14-16 credits)

Complete four courses from the following list:

| | | |
|---------|--|-----|
| ECON201 | Principles of Microeconomics | 4 |
| ECON202 | Principles of Macroeconomics | 4 |
| — | Approved social science elective (see catalog for approved list of social science electives) | 6-8 |

Science (15-20 credits)

Complete four courses from at least two disciplines/prefixes from the following list, three of which must be lab courses.

| | | |
|-----------------|---|-------|
| BI100GB | Introductory Biology (non-lab course) | 3 |
| BI100SB | Biology of Human Body Systems (non-lab course) | 3 |
| BI101,102,103 | Introduction to Biology I, II, III with lab | 4-4-4 |
| BI121,122 | Elementary Anatomy and Physiology I, II with lab | 4-4 |
| BI211,212,213 | General Biology I, II, III with lab | 4-4-4 |
| BI231,232,233 | Anatomy and Physiology I, II, III with lab | 4-4-4 |
| BI234 | Microbiology | 4 |
| CHEM104,105,106 | Introductory Chemistry I, II, III with lab and recitation | 5-5-5 |
| CHEM221,222,223 | General Chemistry I, II, III with lab and recitation | 5-5-5 |
| G100 | Fundamentals of Geology (non-lab course) | 3 |
| G101,102,103 | Introduction to Geology with lab | 4-4-4 |
| GS104 | Physical Science with lab | 4 |
| GS105 | Physical Science: Chemistry with lab | 4 |
| GS106 | Physical Science: Earth Science with lab | 4 |
| GS107 | Physical Science: Astronomy with lab | 4 |
| GS108 | Physical Science: Oceanography with lab | 4 |
| PH201,202,203 | General Physics I, II, III with lab and recitation | 5-5-5 |
| PH211,212,213 | General Physics (Calculus Based) I, II, III with lab and recitation | 5-5-5 |

Business-specific Requirements (minimum of 20 credits)

| | | |
|-------|---------------------------------------|---|
| BA101 | Introduction to Business ⁴ | 4 |
| BA211 | Financial Accounting I | 4 |
| BA212 | Financial Accounting II ⁵ | 4 |
| BA213 | Managerial Accounting | 4 |
| BA226 | Business Law | 4 |

Electives 0-10

Complete a sufficient number of college-level (numbered 100 and above) courses to meet the total degree requirement of at least 90 credits. Although a maximum of 12 career and technical course credits can be transferred to a four-year institution, a maximum of 6 career and technical credits may be used toward this degree. Note: WR115 Introduction to Expository Writing may be used as elective credit if taken summer term 2000 or after and completed with a letter grade of "C" or better.

Some OUS business schools require two terms of statistics and two terms of calculus prior to being accepted into their programs. It is recommended that students contact the specific OUS business school or program early in the first year of their ASOT – Business program to be advised about additional requirements and procedures for admission to the school or program.

TOTAL PROGRAM CREDITS 90-108

¹ SP100 and SP115 may not be accepted as an oral communication course if students do not complete this degree before transferring to an Oregon university.

² Meets cultural literacy criteria (one course required). See catalog for additional courses that meet the criteria.

³ Students who have graduated from high school or completed a high school equivalency program in 1997 or after must have the following requirement for admission to a four-year Oregon state college or university: 1) Two years of the same high school-level language, or 2) two terms of college-level language with a grade of "C" or better (may be first-year language which can be used as elective credits). Note: If students plan to complete a Bachelor of Arts (BA) degree at a four-year school, they must have a proficiency in a foreign language regardless of when they graduated from high school or equivalency program.

⁴ Students who have completed BA101 as a 3 credit course have met this requirement.

⁵ Students who completed BA211 at RCC prior to July 1, 2017, will have met this requirement.

Business Assistant Certificate of Completion

About the Program

The Business Assistant three-term certificate program is designed to prepare students for entry-level positions in bookkeeping and small business fields (Accounting Assistant Specialty), administrative fields (Administrative Support Specialty), or supervisory management fields (Assistant Manager Specialty).

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.rogucecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, read-

ing, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. Students are also required to complete any prerequisites listed. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Business Technology Department chair's approval. In order to ensure that coursework is current, program courses over 10 years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Students must complete coursework in their major at a "C" or better level before proceeding to advanced coursework. College Now credit will be accepted in accordance with the current articulation agreement.

Credits earned in the successful completion of this program can be applied to other certificates and degrees in the career pathway. For more information, speak to a program adviser and review the roadmap at www.roguecc.edu/CareerPathways/.

Graduation Requirements

Students completing all courses in this program with a grade of "C" or better will earn a Business Assistant certificate. Certain prerequisite courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|------------|---|---------|
| CS__ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency | 0-4 |
| MTH20 | Pre-algebra or designated placement test score | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |
| WR90 | Fundamentals of Composition or designated placement test score | 0-4 |

Total Prerequisite Credits **0-16**

Required Core Courses

| Course No. | Course Title | Credits |
|------------|--|---------|
| BA109 | Ready, Set, Work: Techniques for Landing a Job | 2 |
| BA131 | Introduction to Business Computing | 4 |
| BA211 | Financial Accounting I | 4 |
| BA218 | Personal Finance | 3 |
| BA285 | Advanced Business Applications: Excel | 4 |
| BT101 | Human Relations in Organizations | 3 |
| BT113 | Business English I | 4 |
| BT114 | Business English II | 4 |
| BT160 | Business Math | 4 |
| BT178 | Customer Service | 3 |
| CS125WW | Word Processing Applications (Word) | 3 |
| LIB127 | Introduction to Academic Research | 1 |

Total Required Core Credits **39**

Students enrolled in the Business Assistant program must select one of the following specialties:

Accounting Assistant Specialty Track

| Course No. | Course Title | Credits |
|------------|--------------------------------------|---------|
| BA177 | Payroll and Tax | 3 |
| BA212 | Financial Accounting II ¹ | 4 |
| BA213 | Managerial Accounting | 4 |

Business Assistant: Business and Information Specialist Career Pathways Certificate

About the Program

The Business and Information Specialist Career Pathways two- to three-term certificate prepares students for entry-level office positions requiring "soft skills" in dealing with clients, customers, vendors and the public, as well as filing, records management, computer applications, and basic written communication duties. Courses included in this pathway can be applied toward completion of the one-year Business Assistant certificate and the Associate of Applied Science in Business Technology degree.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.roguecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. Students are also required to complete any prerequisites listed. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Business Technology Department chair's approval. In order to ensure that coursework is current, program courses over 10 years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Students must complete coursework in their major at a "C" or better level before proceeding to advanced coursework. High school College Now credit will be accepted in accordance with the current articulation agreement.

Credits earned in the successful completion of Career Pathways Certificates can be applied to other certificates and degrees in the Career Pathway. For more information, speak to a program adviser and review the roadmap at www.roguecc.edu/CareerPathways/.

Completion Requirements

Students must complete all courses in this program with a grade of "C" or better to receive their pathways certificate. Certain prerequisite courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|------------|---|---------|
| CS__ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency | 0-4 |
| MTH20 | Pre-algebra or designated placement test score | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |
| WR90 | Fundamentals of Composition or designated placement test score | 0-4 |

Total Prerequisite Credits

0-16

Required Core Courses

| Course No. | Course Title | Credits |
|------------|---------------------------------------|---------|
| BA131 | Introduction to Business Computing | 4 |
| BA285 | Advanced Business Applications: Excel | 4 |
| BT101 | Human Relations in Organizations | 3 |
| BT113 | Business English I | 4 |
| BT114 | Business English II | 4 |
| BT160 | Business Math | 4 |
| BT178 | Customer Service | 3 |
| CS125WW | Word Processing Applications | 3 |

TOTAL PROGRAM CREDITS

29

¹ Students who want to pursue a degree in Computer Science should take the following classes: CS120 in place of BA131; PSY101 in place of BT101; WR115 in place of BT113; WR121 in place of BT114; MTH60 (or higher) in place of BT160; CS125ss in place of BA285.

² Students who have successfully completed the 3-credit versions of BT113 and BT114 will have met this requirement.

³ Students who have previously taken CS125SS Spreadsheet Applications, 3 cr., will have met the requirement, but still need at least 32 applicable credits to receive this degree.

Business Assistant: Customer Service Career Pathways Certificate

About the Program

The Customer Service Career Pathways two- to three-term certificate prepares students for entry-level customer service positions in a variety of fields where the ability to effectively deal with the public is required. Courses included in this pathway can be applied toward completion of the one-year Business Assistant certificate and the Associate of Applied Science in Business Technology degree.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.roguecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. Students are also required to complete any prerequisites listed. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Business Technology Department chair's approval. In order to ensure that coursework is current, program courses over 10 years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Students must complete coursework in their major at a "C" or better level before proceeding to advanced coursework. High school College Now credit will be accepted in accordance with the current articulation agreement.

Credits earned in the successful completion of Career Pathways Certificates can be applied to other certificates and degrees in the Career Pathway. For more information, speak to a program advisor and review the roadmap at www.roguecc.edu/CareerPathways/.

Business Assistant: Small Business Management Career Pathways Certificate

About the Program

The Small Business Management Career Pathways three-term certificate is designed for those individuals who are considering owning and operating their own business. This includes, but not limited to, business majors, students who want to build on skills already learned in the workplace, community members, and students enrolled in other technical programs. Courses included in this pathway can be applied toward completion of the one-year Business Assistant certificate and the Associate of Applied Science in Business Technology degree.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. Business Management — Entrepreneurship/Small Business Management Transfer to Oregon Tech Associate of Science Degree

About the Program

The Associate of Science (AS) degree is based on a signed articulation agreement with Oregon Tech. Students transferring to its baccalaureate degree program in Management – Entrepreneurship/Small Business Management are guaranteed junior standing in the program. Students must work closely with advisors in their areas of interest to ensure electives are appropriate. The curriculum allows for 45 core credits within the major area. By completing all appropriate credits (including electives), students will fulfill required lower division coursework for transfer to Oregon Tech.

If students transfer before completing this degree or transfer in a major not covered by prior agreements, courses will be evaluated individually toward the transfer requirements of the college of

their choice. Students are advised to obtain written approval from Oregon Tech to guarantee their catalog of transfer for three years.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited universities will be accepted in accordance with college policies. In order to ensure that coursework is current, program courses over four years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements.

Graduation Requirements

The Associate of Science degree will be awarded to students who complete all credits in this program with a grade of "C" or better. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

| PH211,212,213 | General Physics (Calculus Based) I, II, III with lab and recitation | 5-5-5 |

⁵ Students who completed BA211 at RCC prior to July 1, 2017, will have met this requirement.

⁶ Students who have previously taken CS125SS Spreadsheet Applications, 3 cr., will have met the requirement, but still need at least 98 applicable credits to receive this degree.

Note: Students who have graduated from high school or completed a high school equivalency program in 1997 or after must have the following requirement for admission to a four-year Oregon university: 1) Two years of the same high school-level foreign language, or 2) two terms of college-level foreign language with a grade of "C" or better (may be first-year foreign language, which can be used as elective credits on the Associate of Arts Oregon Transfer degree). If students plan to complete a Bachelor of Arts (BA) degree at a four-year school, they must have a proficiency in a foreign language regardless of when they graduated from high school or equivalency program.

Business Technology Associate of Applied Science Degree

About the Program

The Business Technology two-year degree provides an opportunity for students to learn about the business enterprises in society as well as prepare for various careers. This degree provides for flexibility in selecting elective classes while allowing students to investigate a wide range of areas within the business field. Students who want a general business foundation will be well served by the Business Technology AAS degree. There are also two program options should students want to pursue a specialized focus area.

For students who desire employment as bookkeepers, accounting assistants and billing clerks, the Accounting Option provides advanced study in practical accounting using both manual and computerized accounting systems.

Students who plan to supervise other workers, start their own business enterprises, or work in the sales, advertising or e-commerce sectors, will find the Management and Marketing Option well suited to those career goals.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take the college placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. Students entering the program must successfully complete any prerequisites listed. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Business Technology Department chair's approval. In order to ensure that coursework is current, program courses over 10 years old must be reviewed and approved by the appropriate department head before being accepted toward core requirements. College Now credit will be accepted in accordance with the current articulation agreement.

Credits earned in the successful completion of this program can be applied to other certificates and

degrees in the Career Pathway. For more information, speak to a program advisor and review the roadmap at www.rogucecc.edu/CareerPathways/.

Graduation Requirements

To graduate, students must complete all courses in this program with a grade of "C" or better. Certain prerequisite courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credit |
|------------|---|--------|
| CS ____ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency | 0-4 |
| MTH20 | Pre-algebra or designated placement test score | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |
| WR90 | Fundamentals of Composition or designated placement test score | 0-4 |

Total Prerequisite Credits

0-16

Required Courses for Base Program and Program Options

| Course No. | Course Title | Credit |
|------------|---|--------|

Business Transfer to Southern Oregon University Associate of Science Degree

About the Program

The Associate of Science degree (Business) has been developed with the cooperation and support of Southern Oregon University (SOU). The degree is fully articulated with SOU's Business program and allows students to transfer directly as juniors and to be admitted into the program with no loss

of credits to pursue a bachelor's degree. The program offers an excellent balance of business and general education courses that support advanced study in the field of business.

Students should contact the SOU School of Business early in the first year of the program to be advised about additional requirements and procedures for admission to the school or program. Students transferring to SOU will be required to complete BA201 at SOU during the first quarter.

Students should be aware that if they transfer before completing this degree, courses will be evaluated individually toward the general education requirements in effect at SOU.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take the college placement test to determine skill level and readiness indicated by test scores. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Business Technology Department chair's approval. In order to ensure coursework is current, program courses over 10 years old must be reviewed and approved by the appropriate department chair before being accepted toward course requirements.

Graduation Requirements

Students must complete a minimum of 90 term credits of lower division collegiate courses with a minimum grade of "C" or better.

Prerequisites

| Course No. | Course Title | Credits |
|-----------------------------------|---|-------------|
| MTH95 | Intermediate Algebra or designated placement test score | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |
| WR115 | Introduction to Expository Writing or designated placement test score | 0-3 |
| Total Prerequisite Credits | | 0-11 |

General Education Requirements

16

| Course No. | Course Title | Credits |
|--|---|-----------|
| Writing Skills and Oral Communication | | 12 |

Electives

3-10

Complete a sufficient number of transfer-level (numbered 100 and above) courses to meet the total degree requirement of at least 90 credits. A maximum of 12 career and technical course credits may be used toward this degree.

Note: WR115 Introduction to Expository Writing may be used as elective credit if taken summer term 2000 or later and completed with a letter grade of “C” or better.

TOTAL PROGRAM CREDITS

90

¹ Students who have graduated from high school or completed a high school equivalency program in 1997 or after must have the following requirement for admission to a four-year Oregon college or university: 1) Two years of the same high school-level language, or 2) two terms of college-level language with a grade of “C” or better (may be first-year language which can be used as elective credits). Note: If students plan to complete a Bachelor of Arts (BA) degree at a four-year school, they must be proficient in a foreign language regardless of when they graduated from high school or equivalency program.

² Students who completed BA211 at RCC prior to July 1, 2017, will have met this requirement.

Chemistry Interest

Associate of Arts Oregon Transfer Degree

A total of 90 credits are required to complete the Associate of Arts Oregon Transfer (AAOT) degree and the courses listed below are only meant to serve as a guide of recommended choices within categories required in the AAOT framework. See the AAOT graduation guide for full degree requirements. It is recommended that a student also consult with the transfer college of choice regarding specific prerequisites since requirements for a chemistry major vary at each university.

| Course No. | Course Title | Credits | AAOT Category |
|------------|--|---------|---------------|
| CHEM221 | General Chemistry I with lab and recitation | 5 | Science |
| CHEM222 | General Chemistry II with lab and recitation | 5 | Science |
| CHEM223 | General Chemistry III with lab and recitation | 5 | Science |
| MTH251 | Calculus I | 5 | Math |
| MTH252 | Calculus II | 5 | Math |
| MTH253 | Calculus III | 5 | Math |
| PH211 | General Physics I (Calculus Based) with lab and recitation | 5 | Science |
| PH212 | General Physics II (Calculus Based) with lab and recitation | 5 | Science |
| PH213 | General Physics III (Calculus Based) with lab and recitation | 5 | Science |

Note: Four courses required in the science/math category. Additional courses would count as electives.

Commercial Truck Driving Certificate of Completion

About the Program

The Commercial Truck Driving five-week program is designed to meet or exceed the highest standards set by reputable trucking firms in the United States. The program provides the knowledge and skills necessary to successfully pass Oregon Department of Motor Vehicles Commercial Driving License (CDL) and endorsement tests including air breaks, double/triples, tanker and hazardous materials. Commercial vehicle basics will be covered including driver qualifications, hours of service, and whistle blower protection as required by the Federal Motor Carriers Safety Administration (FMCSA). Student drivers will have a minimum of 40 hours of hands-on drive time supervised by instructors with many years of over-the-road experience.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in reading and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. Students are also required to complete any prerequisites listed.

In addition, students must have a valid Oregon driver's license, completed application packet and be accepted into the program. Students must also pass the Department of Transportation (DOT) physical and drug screen and reach their 18th birthday before the first day of class. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the department's approval. In order to ensure that coursework is current, program courses over 10 years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Students must complete coursework in their major at a "C" or better level before proceeding to advanced coursework.

Graduation Requirements

Students completing all credits in this program with a grade of "C" or better will receive their certificates. Certain prerequisite courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned a "C" or better grade. Credits earned in this program can be applied to the Associate of General Studies degree.

Prerequisites

| Course No. | Course Title | Credits |
|-----------------------------------|---|------------|
| RD30 | College Reading or designated placement test score | 0-4 |
| WR90 | Fundamentals of Composition II or designated placement test score | 0-4 |
| Total Prerequisite Credits | | 0-8 |

Required Core Courses

| Course No. | Course Title | Credits |

Computer and Embedded Systems Engineering Technology Transfer to Oregon Tech Associate of Science Degree

About the Program

The Associate of Science (AS) degree is based on a signed articulation agreement with Oregon Institute of Technology. The program is designed for students transferring to its baccalaureate degree program in Computer Engineering Technology and/or Embedded Systems Engineering Technology and graduates are guaranteed junior standing in the program upon transferring. Students must work closely with advisors in their areas of interest to ensure electives are appropriate. The curriculum allows for 56 core credits within the major area. By completing all appropriate credits (including electives), students will complete required lower division coursework for transfer to Oregon Tech.

Students must work closely with their advisors to ensure transferability. If students transfer before completing this degree or transfer in a major not covered by prior agreements, courses will be evaluated individually toward the transfer requirements of the college of their choice. Students are advised to obtain written approval from Oregon Tech to guarantee their catalog of transfer for three years.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited universities will be accepted in accordance with college policies. In order to ensure that coursework is current, program courses over four years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements.

Graduation Requirements

The Associate of Science degree will be awarded to students who complete all credits in this program with a grade of "C" or better. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade. Students should be aware that Oregon Tech requires a grade of "B" or better in CS133U and CS233U for transfer.

Prerequisites

Computer Science Associate of Science Oregon Transfer Degree

About the Program

The statewide Associate of Science Oregon Transfer degree in Computer Science is designed for students transferring to baccalaureate degree programs in computer science or software engineering. Those completing the ASOT-Computer Science degree are assured junior level standing for registration purposes and will have met the lower division general education requirements of any institution in the Oregon public university. Students should be aware that if they transfer before completing this degree, courses will be evaluated individually toward the general education requirements of the college of their choice. Students should use the ASOT Computer Science university-specific degree requirements guide for specific transfer requirements for individual schools.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take the college placement test to determine skill level and readiness indicated by test scores. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Computer Science Department chair's approval. In order to ensure coursework is current, program courses over 10 years old must be reviewed and approved by the appropriate department chair before being accepted toward course requirements.

Graduation Requirements

Students must complete a minimum of 90 term credits of lower division collegiate courses with a minimum grade of "C" or better.

General Education Requirements

| Course No. | Course Title | Credits |
|--|--------------|----------|
| Writing Skills (two courses required) | | 8 |

Students who took writing classes of 3 credits each must have WR121, WR122 and either WR123

or WR227. Students taking classes of 4 credits each must take WR121 and either WR122 or WR227.

| | | |
|-------|--|---|
| WR121 | English Composition I | 4 |
| WR122 | English Composition II or WR227 Technical Writing | 4 |

Oral Communication (one course required) 3-4

| | | |
|-------|--|---|
| SP100 | Basic Communication ¹ | 3 |
| SP111 | Fundamentals of Public Speaking | 4 |
| SP115 | Intercultural Communication ² | 4 |
| SP218 | Interpersonal Communication | 4 |

Mathematics 10

| | | |
|--------|---------------------------|---|
| MTH251 | Calculus I (Differential) | 5 |
| MTH252 | Calculus II (Integral) | 5 |

Health/Wellness/Fitness 3

| | | |
|--------|---------------------------------|-----|
| HE112 | Emergency First Aid | 1 |
| HE208 | HIV and Infectious Diseases | 1 |
| HE250 | Personal Health | 3 |
| HE252 | First Aid/CPR | 3 |
| HE253 | Wilderness First Aid/CPR | 3 |
| HE261 | CPR/Basic Life Support Provider | 1 |
| HPE295 | Health and Fitness for Life | 3 |
| PE185 | Activity Courses | 1-3 |
| PE291 | Lifeguard Training | 2 |
| PE292 | Water Safety Instructor | 2 |

Total General Education Credits 24-25

Distribution Requirements

Humanities ³ 9-12

Choose three courses from at least two disciplines/prefixes. Courses must be at least 3 credits each and exclude first-year foreign language courses; second-year foreign language is acceptable (see catalog for approved list of humanities electives).

Social Science 12-16

Complete four courses from at least two disciplines/prefixes. Courses must be at least 3 credits each (see catalog for approved list of social science electives).

Science ⁴ 12-15

Complete three biological and/or physical science laboratory courses (see catalog for approved list of science electives).

Total Distribution Credits 33-43

Computer Science-Specific Requirements

| Course No. | Course Title | Credits |
|------------|----------------------------------|---------|
| CS160 | Introduction to Computer Science | 4 |
| CS161 | Computer Science I | 4 |
| CS162 | Computer Science II | 4 |
| CS260 | Data Structures I | 4 |

Total Computer Science-Specific Credits 16

Electives

Complete a sufficient number of college-level (numbered 100 and above) courses to meet the total degree requirement of at least 90 credits. Students should use the ASOT-CS university-specific degree requirements guide to determine elective requirements for the transfer institution. A maximum of 12 career and technical credits may be used toward this degree. Note: WR115 Introduction to Expository Writing may be used as elective credit if taken summer term 2000 or after and completed with a letter grade of "C" or better.

Total Elective Credits 6-17

TOTAL PROGRAM CREDITS 90

¹ SP100 may not be accepted if students do not complete this degree before transferring to an Oregon university.

² Meets cultural literacy criteria (one course required). See catalog for additional courses that meet the criteria.

³ Students who have graduated from high school or completed a high school equivalency program in 1997 or after must have the following requirement for admission to a four-year Oregon state college or university: 1) two years of the same high school-level language, or 2) two terms of college-level language with a grade of "C" or better (may be first-year language which can be used as elective credits). Note: If students plan to complete a Bachelor of Arts (BA) degree at a four-year school, they must have a proficiency in a foreign language regardless of when they graduated from high school or equivalency program.

⁴ Some schools require physics as the laboratory science chosen. It is recommended that students contact the specific school early in the first year of the program or use the ASOT-CS university-specific degree requirements guide to determine any additional science requirements and procedures for admission to a specific school or program.

Computer Science Transfer to Southern Oregon University Associate of Science Degree

About the Program

This Associate of Science (AS) degree is based on a signed articulation agreement with Southern Oregon University (SOU). The program is designed for students transferring to its baccalaureate degree program in computer science. Students must work closely with advisors in their areas of interest to ensure electives are appropriate.

The curriculum allows for 31-33 core credits within the major area. By completing all appropriate credits (including electives), students will have fulfilled all required lower-division coursework for transfer to SOU. Students should be aware, however, that if they transfer before completing this degree, courses will be evaluated individually toward the transfer requirements of the college of their choice.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited universities will be accepted in accordance with college policies. In order to ensure that coursework is current, program courses over five years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements.

Graduation Requirements

The Associate of Science degree will be awarded to students who complete all credits in this program with a grade of "C" or better. Students should be aware that SOU requires a grade of "B" in CS161 and CS162 for transfer. Certain required courses are also graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|-----------------------------------|--|-------------|
| CS ____ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ¹ | 0-4 |
| MTH95 | Intermediate Algebra or designated placement test | 0-4 |
| WR115 | Introduction to Expository Writing or designated placement test score | 0-3 |
| Total Prerequisite Credits | | 0-11 |

General Education Requirements

| Course No. | Course Title | Credits |
|---|--|--------------|
| COMM225 | Small Group Communication and Problem-solving or SP100 Basic Communication or SP111 Fundamentals of Public Speaking or SP218 Interpersonal Communication | 3-4 |
| LIB127 | Introduction to Academic Research | 1 |
| MTH111 | College Algebra | 4 |
| MTH112 | Elementary Functions | 4 |
| MTH251 | Calculus I | 5 |
| MTH252 | Calculus II | 5 |
| WR121 | English Composition I | 4 |
| WR122 | English Composition II or WR227 Technical Writing | 4 |
| — | Approved humanities electives ² | 9-12 |
| — | Approved science electives ³ | 11-15 |
| — | Approved social science electives ⁴ | 9-12 |
| Total General Education Requirements | | 59-70 |

Core Requirements

| Course No. | Course Title | Credits |
|---------------------------|--|--------------|
| CS125DB | Data Base Management Systems | 3 |
| CS133 | Any CS133 programming language course | 4 |
| CS140 | Introduction to Operating Systems | 4 |
| CS161 | Computer Science I | 4 |
| CS162 | Computer Science II | 4 |
| CS275 | Data Base Development I | 4 |
| CS | Approved computer science electives ⁵ | 8-10 |
| Total Core Credits | | 31-33 |

TOTAL PROGRAM CREDITS

90-103

¹ Successful completion of CS120, or otherwise meeting the proficiency requirement within the last 10 years, fulfills this requirement. Contact a computer science adviser to help determine placement.

2 Approved Humanities Electives

(complete at least three courses from the following list, 9-12 credits)

| Course No. | Course Title | Credits |
|------------------------|-----------------------------------|-----------|
| ART131 | Introduction to Drawing | 3 |
| ART204,205,206 | History of Art I, II, III | 4-4-4 |
| ENG104,105,106 | Introduction to Literature | 4-4-4 |
| ENG107,108,109 | World Literature | 4-4-4 |
| ENG201,202,203 | Shakespeare I, II, III | 4-4-4 |
| ENG204,205,206 | Survey of English Literature | 4-4-4 |
| ENG253,254,255 | Survey of American Literature | 4-4-4 |
| ENG257 | African American Literature | 4 |
| ENG260 | Introduction to Women Writers | 4 |
| ENG275 | The Bible as Literature | 4 |
| HUM101,102,103 | Introduction to Humanities | 4-4-4 |
| HUM215,216,217,218,219 | Native American Arts and Cultures | 4-4-4-4-4 |
| MUS105 | Music Appreciation | 3 |
| MUS108 | Music in World Cultures | 4 |
| MUS201 | Introduction to Western Music | 4 |
| MUS205 | History of Jazz | 3 |

| | | |
|-----------------|--|-------|
| MUS206 | Introduction to Rock Music | 3 |
| MUS208 | Film Music | 3 |
| MUS261,262,263 | History of Western Music I, II, III | 4-4-4 |
| MUS264,265,266 | History of Rock I, II, III | 3-3-3 |
| PHL101,102,103 | Philosophical Problems/Ethics/Critical Reasoning | 4-4-4 |
| REL201 | World Religions | 4 |
| REL243 | Nature, Religion and Ecology | 4 |
| SP115 | Introduction to Intercultural Communication | 4 |
| SPAN201,202,203 | Second Year Spanish I, II, III | 4-4-4 |
| TA141 | Fundamentals of Acting | 4 |
| WR241,242,243 | Imaginative Writing I, II, III | 4-4-4 |

3 Approved Science Electives

(Complete at least three courses, two of which must have labs, from the following list, 11-15 credits. Note that only one course can be a regional field studies course indicated by asterisk.)

| Course No. | Course Title | Credits |
|-----------------------|---|-----------|
| BI100GB | Introductory Biology (non-lab course) | 3 |
| BI100SB | Biology of Human Body Systems (non-lab course) | 3 |
| BI101,102,103 | Introduction to Biology I, II, III with lab | 4-4-4 |
| BI121,122 | Elementary Anatomy and Physiology I, II with lab | 4-4 |
| BI211,212,213 | General Biology I, II, III with lab | 4-4-4 |
| BI231,232,233 | Anatomy and Physiology I, II, III with lab | 4-4-4 |
| BI234 | Microbiology with lab | 4 |
| BI272 | Introduction to Ecology with lab | 4 |
| CHEM104,105,106 | Introductory Chemistry I, II, III with lab and recitation | 5-5-5 |
| CHEM221,222,223 | General Chemistry I, II, III with lab and recitation | 5-5-5 |
| CS195 | Web Authoring I (HTML/CSS) (non-lab course) | 4 |
| ENV111 | Introduction to Environmental Science (non-lab course) | 3 |
| G100 | Fundamentals of Geology (non-lab course) | 3 |
| G101,102,103 | Introduction to Geology I, II, III with lab | 4-4-4 |
| GEOG100 | Introduction to Physical Geography (non-lab course) | 3 |
| GS104,105,106,107,108 | Physical Science with lab | 4-4-4-4-4 |
| GS161 * | Regional Field Studies with lab | 4 |
| GS170 * | Regional Field Geology with lab | 4 |
| PH201,202,203 | General Physics I, II, III with lab and recitation | 5-5-5 |
| PH211,212,213 | General Physics (Calculus Based) I, II, III with lab and recitation | 5-5-5 |

4 Approved Social Science Electives

(complete at least three courses from the following list, 9-12 credits)

| Course No. | Course Title | Credits |
|---------------|---|---------|
| ANTH110,150 | Introduction to Cultural Anthropology/Archaeology | 4-4 |
| BA101 | Introduction to Business | 4 |
| BA218 | Personal Finance | 3 |
| CJ101/SOC244 | Introduction to Criminology | 4 |
| CJ120 | Introduction to the Judicial Process | 4 |
| CJ243/SOC243 | Drugs, Crime and Addiction | 4 |
| COMM237 | Communication and Gender | 4 |
| ECON115 | Introduction to Economics | 3 |
| ECON201,202 | Principles of Microeconomics/Macroeconomics | 4-4 |
| GEOG110 | Introduction to Cultural and Human Geography | 3 |
| GEOG120 | World Regional Geography | 3 |
| HE250,HPE295 | Personal Health/Health and Fitness for Life | 3-3 |
| HST104,105 | History of World Civilization I, II | 4-4 |
| HST201,202 | History of the United States I, II | 4-4 |
| IS110,111 | Introduction to International Studies | 4-3 |
| PS201,202,203 | American Government I, II, III | 3-3-3 |
| PSY101 | Psychology of Human Relations | 3 |
| PSY119 | Psychology of Personal Growth | 4 |
| PSY201,202 | General Psychology I, II | 4-4 |
| PSY215 | Life Span Human Development | 4 |
| PSY219 | Introduction to Abnormal Psychology | 4 |

| | | |
|------------|---|-----|
| PSY231 | Human Sexuality | 3 |
| SOC204,205 | Introduction to Sociology; American Society | 4-4 |
| SOC211 | Social Deviance and Social Control | 3 |
| SOC213 | Race and Ethnicity in the U.S. | 4 |
| SOC218 | Sociology of Gender | 4 |
| SOC225 | Social Problems | 4 |
| SOC228 | Environment and Society | 4 |
| SOC230 | Introduction to Gerontology | 4 |
| SOC235 | The Chicano/Latino Historical Experience | 4 |

5 Approved Computer Science Electives

(minimum 8-10 credits required)

| Course No. | Course Title | Credits |
|------------|--|---------|
| CS133 | Any CS133 programming language not taken as core requirement | 4 |
| CS160 | Introduction to Computer Science | 4 |
| CS179 | Introduction to Networks | 4 |
| CS233U | Advanced C++ Programming | 4 |
| CS240L | Advanced Operating Systems: Linux | 4 |
| CS260 | Data Structures | 4 |
| CS279 | Network Operating Systems | 4 |
| CS295 | Web Development I | 4 |
| EET240 | Microcontrollers I | 5 |
| MTH253 | Calculus III | 5 |
| MTH254 | Calculus IV | 5 |

Note: Students who have graduated from high school or completed a high school equivalency program in 1997 or after must have the following requirement for admission to a four-year Oregon university:

1) Two years of the same high school-level foreign language, or 2) two terms of college-level foreign language with a grade of "C" or better (may be first-year foreign language, which can be used as elective credits on the Associate of Arts Oregon Transfer degree). If students plan to complete a Bachelor of Arts (BA) degree at a four-year school, they must have a proficiency in a foreign language regardless of when they graduated from high school or equivalency program.

Computer Support Technician Associate of Applied Science Degree

About the Program

The Computer Support Technician program is designed to prepare students for employment in computer support positions within an organization. It will also provide skills in computer hardware and software to meet the needs of an increasingly technical society.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited universities will be accepted in accordance with college policies and the Computer Science Department chair's approval. In order to ensure that coursework is current,

program courses over five years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Each College Now credit student must meet with the department chair to determine placement.

Credits earned in the successful completion of this program can be applied to other certificates and degrees in the Career Pathway. For more information, speak to a program advisor and review the roadmap at www.rogucecc.edu/CareerPathways/.

Graduation Requirements

Students completing the required credits in this program with a grade of "C" or better will receive their degrees. Certain prerequisite and required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|------------|--|---------|
| CS120 | Concepts in Computing I or documented computer proficiency | 0-4 |

Computer Support Technician: Computer Software Specialist Career Pathways Certificate

About the Program

The Computer Software Specialist Career Pathway Certificate is designed to give students a comprehensive knowledge of a variety of commonly used software programs. It generally can be completed in one to two terms. Students will learn industry standard word processing, spreadsheet and presentation programs, as well as gain a strong foundation in operating systems. Students will be prepared for careers where strong computer application skills and computer system navigation are required. This is not an aid-eligible program.

The Career Pathway Certificate is the first step towards the Computer Support Associate of Applied Science degree or Computer Support: Healthcare Informatics Associate of Applied Science degree option. The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited universities will be accepted in accordance with college policies and the Computer Science Department chair's approval. In order to ensure that coursework is current, program courses over five years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Students in the high school College Now credit program must meet with the department chair to determine placement.

Credits earned in the successful completion of Career Pathways Certificates can be applied to other certificates and degrees in the Career Pathway. For more information, speak to a program advisor and review the roadmap at www.rogucecc.edu/CareerPathways/.

Computer Software Specialist — Career Pathways Certificate (16 credits)

- Entry-level computer specialist ¹

Computer Support Technician: Health Care Informatics option — Associate of Applied Science (AAS) (91-95 credits)

- Advanced-level computer specialist ¹
- Database manager ¹
- Computer programmer ¹

Computer Support Technician — Associate of Applied Science (AAS) (90-92 credits)

- Advanced-level computer specialist ¹
- Database manager ¹
- Computer programmer ¹

¹ For current wage and gainful employment data, see the Jobs & Wages box within the specific program roadmap at www.rogucecc.edu/CareerPathways/

Completion Requirements

Students completing the required credits in this program with a grade of "C" or better will receive a Career Pathways Certificate in Computer Software Specialist. Certain prerequisite and required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credit |
|------------|---|--------|
| CS120 | Concepts in Computing I or documented computer proficiency ¹ | 0-4 |
| MTH60 | Fundamentals of Algebra I or designated placement test score | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |
| WR90 | Fundamentals of Composition or designated placement test score | 0-4 |

Total Prerequisite Credits

0-16

Required Courses

| Course No. | Course Title | Credit |
|------------|--------------------------------------|--------|
| CS125DB | Database Management Systems (Access) | 3 |
| CS125SS | Spreadsheet Applications (Excel) | 4 |

Computer Support Technician: Health Care Informatics Option

Associate of Applied Science Degree

About the Program

The Computer Support Technician: Health Care Informatics Option is designed to prepare students for employment in computer support positions within an organization or as health care informatics specialists within medical organizations. This program is designed to provide skills in computer hardware and software to meet the needs of an increasingly technical society. Students also gain knowledge and skills necessary for working in the medical industry.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited universities will be accepted in accordance with college policies and the Computer Science Department chair's approval. In order to ensure that coursework is current, program courses over five years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Each College Now credit student must meet with the department chair to determine placement.

Construction Trades, General Apprenticeship Associate of Applied Science Degree

About the Program

The Construction Trades, General Apprenticeship program is based on the Bureau of Labor and Industries (BOLI) Oregon State Apprenticeship Training Council and local Joint Apprenticeship Training Committee related training standards. It combines full-time, on-the-job work experience with trade-related theoretical instruction. The degree is available only to BOLI-registered apprentices. If you are interested in becoming a registered apprenticeship in an Oregon state apprenticeship program, contact Cathy Pierson at 541-245-7912. RCC supports the following BOLI-ATD trades: HVAC/R, plumber and sheet metal (8,000-hour trades).

The AAS degree is a credential within Rogue Community College's Construction Trades, General Apprenticeship Pathway. The pathway model provides statewide transfer opportunities, ladder-type certificate of completion, and an optional transfer path into a bachelor's of science degree at Oregon Tech. The degree features general education courses prescribed by Rogue Community College, related training credits previously earned in the certificate of completion, college credit for an earned journey-level card, and some industry electives. It also provides additional access to related training courses across the state for registered apprentices with aligned program outcomes, assessments and courses.

If students intend to transfer to SOU's Bachelor of Applied Science degree program, transfer courses should be chosen from the list of electives where possible. See an advisor for more information or visit www.sou.edu/degreecompletion.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill level as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and approval of the department chair.

Credits earned in the successful completion of Career Pathways Certificates can be applied to other certificates and degrees in the Career Pathway. For more information, speak to a program advisor and review the roadmap at <http://www.roguecc.edu/CareerPathways/>.

Graduation Requirements

Students must complete all courses in this program with a grade of "C" or better to receive their degrees. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade. Students must also possess the appropriate Bureau of Labor and Industries Apprenticeship Certificate and be recommended by the Joint Apprenticeship and Training Committee or Trades Apprenticeship and Training Committee. This degree does not guarantee licensure.

General Education Requirements

| Course No. | Course Title | Credits |

Criminal Justice

Associate of Applied Science Degree

About the Program

The Criminal Justice Associate of Applied Science degree is designed for students pursuing an educational program that will prepare them for careers in the fields of law enforcement and adult and juvenile corrections. This degree enables students to enter into criminal justice careers. Many of the courses taken toward this degree can be applied to a four-year degree in the criminal justice/criminology field. If students intend to transfer to SOU's Bachelor of Applied Science degree program, transfer courses should be chosen from the list of electives where possible. See an advisor for more information or visit www.sou.edu/degreecompletion.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training, students must begin with the courses within their skill levels as determined by placement test scores. A Criminal Justice program advisor must provide advising and approval of a student's program prior to registration. In addition, students may also be required to enroll in classes that would increase their employability and success.

Prospective students should be aware of entry requirements of criminal justice agencies prior to considering criminal justice fields as career choices. Conditions such as impaired hearing and/or eyesight, impaired physical agility, or a criminal history may preclude employment in some agencies. Students should discuss their individual circumstances with advisors and determine if any issues might preclude employment in the field.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Criminal Justice Department's approval. In order to ensure that coursework is current, program courses over seven years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Each College Now credit student must meet with a Criminal Justice Department chair to determine placement.

Reserve Officer Law Enforcement Academy

The Criminal Justice Associate of Applied Science Degree offers a limited number of students the option of enrolling in the Reserve Officer Law Enforcement Academy (ROLEA) and applying credits to degree requirements. The ROLEA option is available to second year Criminal Justice students and does not require agency sponsorship. Students must apply for admission into ROLEA. Contact faculty in the Criminal Justice Department for more information.

Graduation Requirements

Students must successfully complete the credits in this program with a grade of "C" or better to receive their degrees. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade. Four credits (132 hours) of documented cooperative work experience in criminal justice, supervised by a professional, are required unless a waiver is granted.

Prerequisites

| Course No. | Course Title | Credits |
|-----------------------------------|---|------------|
| WR115 | Introduction to Expository Writing or designated placement test score | 0-3 |
| — | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ¹ | 0-4 |
| Total Prerequisite Credits | | 0-7 |

Criminology Transfer to Southern Oregon University

Associate of Science Degree

About the Program

This Associate of Science degree has been developed with the cooperation and support of Southern Oregon University (SOU). The degree is fully articulated with SOU's Criminology program and allows students to transfer directly to SOU without loss of credits to pursue a bachelor's degree. The program offers an excellent balance of criminal justice and liberal education courses that support advanced study in criminal justice.

Students should contact the SOU Criminology and Criminal Justice Department early in the first year of the program to be advised about additional requirements and procedures for admission to SOU. Students transferring to SOU will be required to complete CCJ298 Orientation to the SOU Criminal Justice Major at SOU during the first term. For more information contact Tanya Blakeley at 541-552-8095 or your RCC advisor.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success. A Criminal Justice program advisor must provide advising and approval of a student's program prior to registration.

Prospective students should be aware of entry requirements of criminal justice agencies prior to considering criminal justice fields as a career choice. Conditions such as impaired hearing and/or eyesight, impaired physical agility, or a criminal history may preclude employment in some agencies. Students should discuss their individual circumstances with advisors and determine if any issues might preclude employment in the field.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the department chair's approval. In order to ensure that coursework is current, program courses over seven years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Each College Now credit student must meet with a Criminal Justice Department chair to determine placement.

Graduation Requirements

Students must successfully complete all credits in this program with a grade of "C" or better to receive their degrees. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

| SOC225 | Social Problems | 4 |
| SP115 | Introduction to Intercultural Communication | 4 |
| WR227 | Technical Writing (if not taken as part of general education core) | 4 |

Note: Students who have graduated from high school or completed a high school equivalency program in 1997 or after must have the following requirement for admission to a four-year Oregon university:

1) Two years of the same high school-level foreign language, or 2) two terms of college-level foreign language with a grade of "C" or better (may be first-year foreign language, which can be used as elective credits on the Associate of Arts Oregon Transfer degree). If students plan to complete a Bachelor of Arts (BA) degree at a four-year school, they must have a proficiency in a foreign language regardless of when they graduated from high school or equivalency program.

Dental Assistant Certificate of Completion

About the Program

This four-term certificate program prepares students to meet the requirements to become dental assistants with expanded functions (EFDA). Successful completion of the program leads to eligibility to sit for the Dental Assisting National Board's (DANB) certified dental assisting (CDA) exam. The curriculum is based in general dentistry; students are trained in four-handed chair-side assisting techniques to work with gen-eral dentists during all phases of patient examination and treatment.

Program students attend classes as part of a structured cohort that begins each year in summer term. Students should apply early as the required mandatory orientation is scheduled several months prior to the summer start. Note: Students may still be working on prerequisites to cohort acceptance classes when applying.

Working dental assistants with six months of current, continuous, chair-side employment may also enroll in classes without formal admittance into the program, and without joining a cohort. Working dental assistants may attend most classes, but preference will be given to cohort students. Working dental assistants can enhance their education and eligibility to sit for the Dental Assisting National Board's (DANB) certified dental assisting (CDA) exam by taking RCC dental classes.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

If students intend to transfer to Oregon Tech's bachelor's degree in Allied Health Management after successfully passing the registry or licensure exam, transfer courses should be chosen from the list of electives where possible. See an advisor for more information or visit www.oit.edu/programs/klamath-falls/management/allied-health-management/overview.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.rogucecc.edu/GainfulEmployment.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

This is a limited-entry program. Cohort students must meet certain minimum academic requirements (MTH20, RD90, WR90) before the program application due date. All listed program prerequisites must be satisfactorily completed before beginning the cohort.

Selection Process

All applications will be date stamped and reviewed in the order received. Applicants will be selected by committee. The screening process includes a mandatory orientation and an interview. A criminal background check and drug screening will be required for students once they are accepted into the program. This is a competitive program and not all qualified applicants may be accepted.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the program coordinator's recommendation. In order to ensure coursework is current, program courses over five years old must be reviewed and approved by the appropriate department coordinator before being accepted toward core requirements. College Now credit will be accepted in accordance with the current agreement.

Graduation Requirements

Students completing all courses in this program with a grade of "C" or better will receive their certificates. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade. Credits earned in this program can be applied to the Associate of General Studies degree.

Prerequisites to Application

| Course No. | Course Title | Credit |
|------------|--|--------|
| MTH20 | Pre-algebra or designated placement test score | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |
| WR90 | Fundamentals of Composition or designated placement test score | 0-4 |

Total Prerequisite Credits **0-12**

Prerequisites to Cohort Acceptance

| Course No. | Course Title | Credit |
|------------|---|--------|
| CS ____ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ^{1,2} | 0-4 |
| BT101 | Human Relations in Organizations or PSY101 Psychology of Human Relations ¹ | 3 |

Diesel Specialist Certificate of Completion

About the Program

The Diesel Specialist four-term certificate program is designed for students seeking an entry-level career in today's diesel repair industry. The program builds rapidly from fundamentals and theory into diagnosis and repair of today's modern equipment based upon Automotive Service Excellence (ASE) and industrial standards.

The design of the program places heavy emphasis upon actual hands-on work in diesel labs. Approximately two-thirds of the time spent in the program is in a lab (shop) environment where the student applies theory to diagnosis and repair of a wide variety of equipment. As students' skill levels develop so does the difficulty of repairs performed.

The U.S. Department of Education requires disclosure of specific information about career and

technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.roguecc.edu/GainfulEmployment. The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by the placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies. In order to ensure that coursework is current, program courses over five years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. College Now credit will be accepted in accordance with current agreement. Verified Automotive Service Excellence (ASE) certification or industry experience may be substituted for some coursework in accordance with college policy and the department chair's approval.

Graduation Requirements

Students must complete all courses in this program with a grade of "C" or better to receive their certificates. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Early Childhood Development Transfer to Southern Oregon University

Associate of Science Degree

About the Program

Based on a signed articulation agreement, Rogue Community College (RCC) and Southern Oregon University (SOU) Department of Education offer an Associate of Science degree for students who want to work with children ages birth to 8. This degree was developed as a cooperative venture between SOU and RCC and offers knowledge and application components drawn from curriculum at both institutions.

The Associate of Science degree articulates directly into a bachelor's degree program at SOU that will fulfill the standards of the National Association for the Education of Young Children, as the program objectives are designed to align with the national professional standards.

Students should work closely with their advisors to ensure transferability of this program. They should also contact the SOU School of Education early in the first year of the program to be advised about additional requirements and procedures for admission to SOU. Students transferring to SOU will be required to complete ED399 at SOU during their first quarter. If students transfer before completing this degree or transfer in a major not covered by prior agreements, their courses will be evaluated individually toward the transfer requirements of the college of their choice.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Students are also required to provide information regarding their measles immunization status by completing the form found on the RCC ECEE Department website and clicking on "Measles Immunization." Completed forms must be submitted to a department secretary.

Many courses in this department require participation in community schools, programs, and agencies for observation and practicum experiences. Some of these sites may require a background check in order for a student to participate. Future employment serving children and families will require a background check. Students may wish to consider going through a background check process to be ready for potential observation, practicum, and employment experiences – check with your ECEE advisor for additional information.

For some classes, early childhood education students are required to use the Redwood Early Childhood Center, which is a Head Start site. Therefore, all students in the Early Childhood Education program must obtain prior clearance from Head Start. The process for doing this is on the Southern Oregon Head Start website, www.socfc.org. Click on "Volunteer" and then on "Download Volunteer Packet." Required paperwork must be completed before observing or participating at a Head Start site.

Advanced Standing

Coursework from accredited universities will be accepted in accordance with college policies. In order to ensure that coursework is current, program courses over 10 years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Each College Now credit student must meet with the department chair to determine placement.

Graduation Requirements

The Associate of Science degree will be awarded to students who complete all credits in this program with a grade of "C" or better. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

¹ Successful completion of CS120 or otherwise meeting the proficiency requirement within the last 10 years fulfills this requirement. Contact a computer science advisor to help determine placement.

² Required for graduation.

3 Approved Math Electives

(complete at least one course, 4-5 credits – MTH211, MTH212 and MTH213 are required for application to the Master of Arts in Teaching (MAT) program at SOU)

| Course No. | Course Title | Credits |
|------------|--|---------|
| MTH105 | Introduction to Contemporary Math | 4 |
| MTH111 | College Algebra | 4 |
| MTH112 | Elementary Functions | 4 |
| MTH211,212 | Fundamentals of Elementary Math I, II (must take both) | 4-4 |
| MTH243 | Probability and Statistics | 4 |
| MTH251 | Calculus I | 5 |

4 Approved Social Science Electives

(complete at least one course from the following list for a minimum of 3 credits)

| Course No. | Course Title | Credits |
|---------------|---|---------|
| ANTH110,150 | Introduction to Cultural Anthropology/Archaeology | 4-4 |
| BA101 | Introduction to Business (acceptable if taken for 3 credits) | 4 |
| BA218 | Personal Finance | 3 |
| CJ101/SOC244 | Introduction to Criminology | 4 |
| CJ120 | Introduction to the Judicial Process | 4 |
| CJ243/SOC243 | Drugs, Crime and Addiction | 4 |
| COMM237 | Communication and Gender | 4 |
| ECON115 | Introduction to Economics | 3 |
| ECON201,202 | Principles of Microeconomics/Macroeconomics | 4-4 |
| GEOG110 | Introduction to Cultural and Human Geography | 3 |
| GEOG120 | World Regional Geography | 3 |
| HST104,105 | History of World Civilization I, II | 4-4 |
| HST201,202 | History of the United States I, II | 4-4 |
| IS110,111 | Introduction to International Studies | 3-3 |
| PS201,202,203 | U.S. Government I, II, III | 3-3-3 |
| PSY119 | Psychology of Personal Growth | 4 |
| PSY201,202 | General Psychology I, II | 4-4 |
| PSY215 | Life Span Human Development | 4 |
| PSY219 | Introduction to Abnormal Psychology | 4 |
| PSY231 | Human Sexuality | 3 |
| SOC204,205 | Introduction to Sociology; American Society | 4-4 |
| SOC211 | Social Deviance and Social Control | 3 |
| SOC213 | Race and Ethnicity in the U.S. (if not taken as part of general education core) | 4 |
| SOC218 | Sociology of Gender | 3 |
| SOC225 | Social Problems | 4 |
| SOC228 | Environment and Society | 4 |
| SOC230 | Introduction to Gerontology | 4 |
| SOC235 | The Chicano/Latino Historical Experience | 4 |

5 Approved Humanities Electives

(complete at least three courses from the following list, 9-12 credits)

| Course No. | Course Title | Credits |
|------------------------|-----------------------------------|-----------|
| ART131 | Introduction to Drawing | 3 |
| ART204,205,206 | History of Art I, II, III | 4-4-4 |
| ENG104,105,106 | Introduction to Literature | 4-4-4 |
| ENG107,108,109 | World Literature | 4-4-4 |
| ENG201,202,203 | Shakespeare I, II, III | 4-4-4 |
| ENG204,205,206 | Survey of English Literature | 4-4-4 |
| ENG253,254,255 | Survey of American Literature | 4-4-4 |
| ENG257 | African American Literature | 4 |
| ENG260 | Introduction to Women Writers | 4 |
| ENG275 | The Bible as Literature | 4 |
| HUM101,102,103 | Introduction to Humanities | 4-4-4 |
| HUM215,216,217,218,219 | Native American Arts and Cultures | 4-4-4-4-4 |

| | | |
|-----------------|--|-------|
| MUS105 | Music Appreciation | 3 |
| MUS108 | Music in World Cultures | 4 |
| MUS201 | Introduction to Western Music | 4 |
| MUS205 | History of Jazz | 3 |
| MUS206 | Introduction to Rock Music | 3 |
| MUS208 | Film Music | 3 |
| MUS261,262,263 | History of Western Music I, II, III | 4-4-4 |
| MUS264,265,266 | History of Rock I, II, III | 3-3-3 |
| PHL101,102,103 | Philosophical Problems/Ethics/Critical Reasoning | 4-4-4 |
| REL201 | World Religions | 4 |
| REL243 | Nature, Religion and Ecology | 4 |
| SP115 | Introduction to Intercultural Communication | 4 |
| SPAN201,202,203 | Second Year Spanish I, II, III | 4-4-4 |
| TA141 | Fundamentals of Acting | 4 |
| WR241,242,243 | Imaginative Writing I, II, III | 4-4-4 |

6 Approved Science/Lab Science Electives

(Complete at least three courses, two of which must have labs, from the following list for a minimum of 11 credits. Note that only one course can be a regional field studies course indicated by asterisk.)

| Course No. | Course Title | Credits |
|-----------------------|---|-----------|
| BI100GB | Introductory Biology (non-lab course) | 3 |
| BI100SB | Biology of Human Body Systems (non-lab course) | 3 |
| BI101,102,103 | Introduction to Biology I, II, III with lab | 4-4-4 |
| BI121,122 | Elementary Anatomy and Physiology I, II with lab | 4-4 |
| BI211,212,213 | General Biology I, II, III with lab | 4-4-4 |
| BI231,232,233 | Anatomy and Physiology I, II, III with lab | 4-4-4 |
| BI234 | Microbiology with lab | 4 |
| BI272 | Introduction to Ecology with lab | 4 |
| CHEM104,105,106 | Introductory Chemistry I, II, III with lab and recitation | 5-5-5 |
| CHEM221,222,223 | General Chemistry I, II, III with lab and recitation | 5-5-5 |
| CS195 | Web Authoring I (HTML/CSS) (non-lab course) | 4 |
| ENV111 | Introduction to Environmental Science (non-lab course) | 3 |
| G100 | Fundamentals of Geology (non-lab course) | 3 |
| G101,102,103 | Introduction to Geology I, II, III with lab | 4-4-4 |
| GEOG100 | Introduction to Physical Geography (non-lab course) | 3 |
| GS104,105,106,107,108 | Physical Science with lab | 4-4-4-4-4 |
| GS161 * | Regional Field Studies with lab | 4 |
| GS170 * | Regional Field Geology with lab | 4 |
| PH201,202,203 | General Physics I, II, III with lab and recitation | 5-5-5 |
| PH211,212,213 | General Physics (Calculus Based) I, II, III with lab and recitation | 5-5-5 |

Note: Students who have graduated from high school or completed a high school equivalency program in 1997 or after must have the following requirement for admission to a four-year Oregon university: 1) Two years of the same high school-level foreign language, or 2) two terms of college-level foreign language with a grade of "C" or better (may be first-year foreign language, which can be used as elective credits on the Associate of Arts Oregon Transfer degree). If students plan to complete a Bachelor of Arts (BA) degree at a four-year school, they must have a proficiency in a foreign language regardless of when they graduated from high school or equivalency program.

Early Childhood Education

Associate of Applied Science Degree

About the Program

The Early Childhood Education (ECE) program prepares students to work with young children from birth through 8 years of age and their families in a variety of settings including child care centers, family child care, preschools, Head Start, school age programs, home visiting, and parent education. It is planned to accommodate both full- and part-time students including those currently employed in the field.

The ECE program has as its basis preparation for the Child Development Associate (CDA) credential. Students may choose to complete the CDA assessment process and be eligible for entry-level jobs at that point. The CDA preparation courses serve as the foundation of the core coursework for the Early Childhood Education certificate, a one-year certificate which prepares students to work as teacher assistants or teachers in child care programs, Head Start, or other early childhood settings.

The Associate of Applied Science (AAS) degree in Early Childhood Education is based on the Guidelines for Preparation of Early Childhood Professionals from the National Association for the Education of Young Children (NAEYC). It is a comprehensive program that incorporates the core coursework for the ECE certificate and qualifies a student to become a head teacher in a child care facility licensed by the Oregon Child Care Division, a teacher in Head Start, or a home visitor, among other professional roles. Students will have a choice of specialty areas: infant/toddler, preschool, or family child care, and will complete 240 supervised practicum hours as part of the curriculum. Some courses in the program may not transfer to other institutions. Students intending to transfer should seek advisor assistance to determine transferability.

For the corresponding relationship of the Early Childhood Education coursework to the Oregon Registry: Pathways to Professional Recognition in Childhood Care and Education, visit www.pdx.edu/occd/oregon-registry-2 and click on Oregon Registry.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take the college placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Students are also required to provide information regarding their measles immunization status by completing the form found on the RCC Early Childhood and Elementary Education Department website and clicking on "Measles Immunization." Completed forms must be submitted to a department secretary.

Students must also obtain an RCC student identification card. RCC photos will be taken on a scheduled basis in the Student Services area on the Redwood Campus, Grants Pass (541-956-7090), or upstairs in G Building at the Riverside Campus, Medford (541-245-7560). Students should take their schedules to obtain an identification card. Take the identification card each time an observation is scheduled in an early childhood setting.

Many courses in this department require participation in community schools, programs, and agencies for observation and practicum experiences. Some of these sites may require a background check in order for a student to participate. Future employment serving children and families will require a background check. Students may wish to consider going through a background check process to be ready for potential observation, practicum, and employment experiences – check with your ECEE advisor for additional information.

For some classes, early childhood education students are required to use the Redwood Early Childhood Center, which is a Head Start site. Therefore, all students in the Early Childhood Education program must obtain prior clearance from Head Start. The process for doing this is on the Southern Oregon Head Start website, www.socfc.org. Click on "Volunteer" and then on "Download Volunteer Packet." Required paperwork must be completed before observing or participating at a Head Start site.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college

registration policies and the Early Childhood Education Department chair's approval. In order to ensure that coursework is current, program courses over 10 years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Each College Now credit student must meet with the department chair to determine placement.

Credits earned in the successful completion of Career Pathways Certificates can be applied to other certificates and degrees in the Career Pathway. For more information, speak to a program advisor and review the roadmap at www.roguecc.edu/CareerPathways/.

Completion Requirements

Students completing the required credits in this program with a grade of "C" or better will receive their degrees. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade. Three hundred (300) hours of supervised practicum are required unless a waiver is granted for approved activities.

Prerequisites

| Course No. | Course Title | Credits |
|------------|--|---------|
| CS ____ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ¹ | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |
| WR115 | Introduction to Expository Writing or BT113 Business English I or designated placement test score | 0-4 |

Total Prerequisite Credits **0-12**

First Year Required Courses

| Course No. | Course Title | Credits |
|-------------------|---|-----------|
| First Term | | |
| ECE125 | Early Childhood Development ² | 3 |
| ECE126 | Early Childhood Education Best Practices ² | 3 |
| ECE152 | Fostering Creativity | 3 |

Early Childhood Education Certificate of Completion

About the Program

The Early Childhood Education four-term certificate program prepares students to work with young children from birth through 8 years of age and their families in a variety of settings including child care centers, family child care, preschools, Head Start, school age programs, home visiting, and parent education. It is planned to accommodate both full- and part-time students including those currently employed in the field.

The program has as its basis preparation for the Child Development Associate (CDA) credential. Students may choose to complete the CDA assessment process and be eligible for entry-level jobs at that point. The CDA preparation courses serve as the foundation of the core coursework for the Early Childhood Education certificate, a one-year certificate which prepares students to work as teacher assistants or teachers in child care programs, Head Start, or other early childhood settings.

For the corresponding relationship of the Early Childhood Education coursework to the Oregon Registry: Pathways to Professional Recognition in Childhood Care and Education, go to www.pdx.edu/occd/oregon-registry-2 and click on Oregon Registry.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.rogucecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take the college placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. Early Childhood Education (Basic) Career Pathways Certificate

About the Program

The Early Childhood Education program prepares students to work with young children from birth through 8 years of age and their families in a variety of settings including child care centers, family child care, preschools, Head Start, school age programs, home visiting, and parent education. It is planned to accommodate both full- and part-time students including those currently employed in the field.

The program has as its foundation the one-term basic certificate which also fulfills the formal training requirement for the Child Development Associate (CDA) credential. The basic certificate prepares students to work in entry-level positions in child care programs, Head Start, or other early childhood settings. Students may choose to complete the CDA assessment process to achieve the CDA credential. The early childhood basic certificate is the first step in the Early Childhood Education career pathway leading to the intermediate certificate, the one-year certificate, and the AAS degree.

For the corresponding relationship of the Early Childhood Education coursework to the Oregon Registry: Pathways to Professional Recognition in Childhood Care and Education, go to www.pdx.edu/occd/oregon-registry-2 and click on Oregon Registry.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take the college placement test to determine skill level and readiness in reading, writing and math. Students must score above RD90 and WR90 in order to take ECE courses but no minimal score is required in math. Students taking designated classes through The Job Council may defer taking the placement test until they have completed CDA coursework. For more information, call 541-956-7066.

Students are also required to provide information regarding their measles immunization status by completing the form found on the RCC Early Childhood and Elementary Education Department website and clicking on "Measles Immunization." Completed forms must be submitted to a department secretary.

Students must also obtain an RCC student identification card. RCC photos will be taken on a scheduled basis in the Student Services area on the Redwood Campus, Grants Pass (541-956-7090), or upstairs in G Building at the Riverside Campus, Medford (541-245-7560). Students should take

their schedules to obtain an identification card. Take the identification card each time an observation is scheduled in an early childhood setting.

Many courses in this department require participation in community schools, programs, and agencies for observation and practicum experiences. Some of these sites may require a background check in order for a student to participate. Future employment serving children and families will require a background check. Students may wish to consider going through a background check process to be ready for potential observation, practicum, and employment experiences – check with your ECEE advisor for additional information.

For some classes, early childhood education students are required to use the Redwood Early Childhood Center, which is a Head Start site. Therefore, all students in the Early Childhood Education program must obtain prior clearance from Head Start. The process for doing this is on the Southern Oregon Head Start website, www.socfc.org. Click on “Volunteer” and then on “Download Volunteer Packet.” Required paperwork must be completed before observing or participating at a Head Start site.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college registration policies and the Early Childhood Education Department chair's approval. In order to ensure that coursework is current, program courses over 10 years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Each College Now student must meet with the department chair to determine placement.

Credits earned in the successful completion of Career Pathways Certificates can be applied to other certificates and degrees in the Career Pathway. For more information, speak to a program advisor and review the roadmap at www.roguecc.edu/CareerPathways/.

Early Childhood Education (Basic), Career Pathways Certificate (13 credits)

- Entry-level daycare provider, child care worker, or nanny ¹

Early Childhood Education (Intermediate), Career Pathways Certificate (32 credits)

- Daycare provider, child care worker, or nanny ¹
- Teacher aides/assistants ¹

Early Childhood Education, Certificate of Completion (51-54 credits)

- Daycare provider, child care worker, or nanny ¹
- Preschool teacher ¹
- Teacher assistant ¹

Early Childhood Education, Associate of Applied Science (AAS) (96-100 credits)

- Preschool and child care administrators ¹

Early Childhood Development, Associate of Science (AS) (105-109 credits)

- Preschool and child care administrators ¹

Elementary Education Associate Science (AS) (90-100 credits)

- Preschool and child care administrators ¹

Early Childhood Development SOU, Bachelor's articulated with RCC's AS degree

- Preschool teacher ¹

Elementary Education SOU, Bachelor's articulated with RCC's AS degree

- Kindergarten teacher ¹
- Elementary school teacher ¹

Management, SOU, Bachelor of Applied Science articulated with RCC's AAS degree

- Supervisor/manager ¹
- Business owner ¹

Early Childhood Development SOU, Master's degree

- Elementary school administrator ¹
- Special education teacher ¹

Elementary Education with continuing license, SOU, Master's degree

- Elementary school administrator ¹
- Special education teacher ¹

Completion Requirements

Students completing the required credits in this program with a grade of “C” or better will receive their certificates. Certain required courses are graded on a pass/no pass basis only. A grade of “P” for these courses indicates a student earned the equivalent of a “C” or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|-----------------------------------|--|------------|
| RD90 | College Reading or designated placement test score | 0-4 |
| WR90 | Fundamentals of Composition or designated placement test score | 0-4 |
| Total Prerequisite Credits | | 0-8 |

Required Program Courses

| Course No. | Course Title | Credits |
|------------------------------|--|-----------|
| ECE125 | Early Childhood Development | 3 |
| ECE126 | Early Childhood Education Best Practices | 3 |
| ECE135 | Applied Child Development | 3 |
| ECE136 | Early Childhood Education: A Professional Overview | 3 |
| ED170 | Introductory Practicum | 1 |
| TOTAL PROGRAM CREDITS | | 13 |

Early Childhood Education (Intermediate) Career Pathways Certificate

About the Program

The Early Childhood Education three-term program prepares students to work with young children from birth through 8 years of age and their families in a variety of settings including child care centers, family child care, preschools, Head Start, school age programs, home visiting, and parent education. It is planned to accommodate both full- and part-time students including those currently employed in the field.

The program has as its foundation the basic certificate which also fulfills the formal training requirement for the Child Development Associate (CDA) credential. The three-term intermediate certificate is the second step on the career pathway leading to the one-year certificate and the AAS degree. The intermediate certificate prepares students to work as teacher assistants in child care programs, Head Start, or other early childhood settings.

For the corresponding relationship of the early childhood education coursework to the Oregon Registry: Pathways to Professional Recognition in Childhood Care and Education, go to www.pdx.edu/occd/oregon-registry-2 and click on Oregon Registry.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.roguecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take the college placement test to determine skill level and readiness in,

¹ For current wage and gainful employment data, see the Jobs & Wages box within the specific program roadmap at www.roguecc.edu/CareerPathways/

reading, writing, and math. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Students are also required to provide information regarding their measles immunization status by completing the form found on the RCC Early Childhood and Elementary Education Department website and clicking on "Measles Immunization." Completed forms must be submitted to a department secretary.

Students must also obtain an RCC student identification card. RCC photos will be taken on a scheduled basis in the Student Services area on the Redwood Campus, Grants Pass (541-956-7090), or upstairs in G Building at the Riverside Campus, Medford (541-245-7560). Students should take their schedules to obtain an identification card. Take the identification card each time an observation is scheduled in an early childhood setting.

Many courses in this department require participation in community schools, programs, and agencies for observation and practicum experiences. Some of these sites may require a background check in order for a student to participate. Future employment serving children and families will require a background check. Students may wish to consider going through a background check process to be ready for potential observation, practicum, and employment experiences – check with your ECEE advisor for additional information.

For some classes, early childhood education students are required to use the Redwood Early Childhood Center, which is a Head Start site. Therefore, all students in the Early Childhood Education program must obtain prior clearance from Head Start. The process for doing this is on the Southern Oregon Head Start website, www.socfc.org. Click on "Volunteer" and then on "Download Volunteer Packet." Required paperwork must be completed before observing or participating at a Head Start site.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college registration policies and the Early Childhood Education Department chair's approval. In order to ensure that coursework is current, program courses over 10 years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Each College Now credit student must meet with the department chair to determine placement.

Credits earned in the successful completion of Career Pathways Certificates can be applied to other certificates and degrees in the Career Pathway. For more information, speak to a program advisor and review the roadmap at www.roguecc.edu/CareerPathways/.

Education – Elementary Interest Associate of Arts Oregon Transfer Degree

A total of 90 credits are required to complete the Associate of Arts Oregon Transfer (AAOT) degree and the courses listed below are only meant to serve as a guide of recommended choices within categories required in the AAOT framework. See the AAOT graduation guide for full degree requirements. It is recommended that a student also consult with the transfer college of choice regarding specific prerequisites since requirements for an education-elementary major vary at each university.

Students applying to the Master of Arts in Teaching program (MAT) are required to complete the following:

- o Twelve (12) hours in science, with at least one course in a biological science and one course in a physical science (chemistry, physics, geology, astronomy). Students should refer to the AAOT science sections to review these course options.
- o Humanities – one course in English literature
- o Social science – one course in history, one course in geography and one course in behavioral science (psychology, sociology, anthropology)

| Course No. | Course Title | Credits | AAOT Category |
|------------|-------------------------------------|---------|---------------|
| BI101 | Introduction to Biology I with lab | 4 | Science |
| BI102 | Introduction to Biology II with lab | 4 | Science |
| MTH211 | Fundamentals of Elementary Math I | 4 | Math |
| MTH212 | Fundamentals of Elementary Math II | 4 | Math |
| MTH213 | Fundamentals of Elementary Math III | 4 | Math |

Electrician Apprenticeship Technologies Associate of Applied Science Degree

About the Program

The Electrician Apprenticeship Technologies program is based on the Bureau of Labor and Industries (BOLI) Oregon State Apprenticeship Training Council and local Joint Apprenticeship Training Committee related training standards. It combines full-time, on-the-job work experience with trade-related theoretical instruction. The degree is available only to BOLI-registered apprentices or electricians holding a journey-level card. If you are interested in becoming a registered apprentice in an Oregon state apprenticeship program, contact Cathy Pierson at 541-245-7912. RCC supports the following BOLI-ATD trades: limited maintenance electrician (4,000-hour trade); inside electrician, limited manufacturing plant electrician, and sign maker/erector (8,000-hour trades).

The AAS degree is a credential within Rogue Community College's Electrician Apprenticeship Pathway. The pathway model provides statewide transfer opportunities, ladder-type certificates of completion, and an optional transfer path into a bachelor's of science degree at Oregon Tech. The degree features general education courses prescribed by Rogue Community College, related training credits previously earned in the certificate of completion, college credit for an earned journey-level card, and some industry electives. It also provides additional access to related training courses across the state for registered apprentices with aligned program outcomes, assessments and courses.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill level as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and approval of the department chair.

Credits earned in the successful completion of Career Pathways Certificates can be applied to other certificates and degrees in the Career Pathway. For more information, speak to a program advisor and review the roadmap at www.rogucecc.edu/CareerPathways/.

Graduation Requirements

Students must complete all courses in this program with a grade of "C" or better to receive their degrees. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade. Students must also possess the appropriate Bureau of Labor and Industries Apprenticeship Certificate and be recommended by the Joint Apprenticeship and Training Committee or Trades Apprenticeship and Training Committee. This degree does not guarantee licensure.

General Education Requirements

| Course No. | Course Title | Credits |
|--|---|--------------|
| BT101 | Human Relations in Organizations or PSY101 Psychology of Human Relations | 3 |
| CS____ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ¹ | 0-4 |

Electrician Apprenticeship Technologies: Limited Electrician Apprenticeship Technologies Certificate of Completion

About the Program

The Limited Electrician Apprenticeship Technologies less than one-year certificate program is based on the Bureau of Labor and Industries (BOLI) Oregon State Apprenticeship Training Council and local Joint Apprenticeship Training Committee related training standards. It combines full-time, on-the-job work experience with trade-related theoretical instruction. This certificate is available only to BOLI-registered apprentices. If you are interested in becoming a registered apprentice in an Oregon state apprenticeship program, contact Cathy Pierson at 541-245-7912. RCC supports the following 4,000-hour BOLI-ATD trade: limited maintenance electrician.

The certificate is a credential within Rogue Community College's Electrician Apprenticeship

Pathway. The pathway model provides statewide transfer opportunities, ladder-type certificates of completion, and an optional transfer path into a bachelor's of science degree at Oregon Tech. The certificate features related training credits specific to the limited maintenance electrician trade in order to repair or install electrical wire devices according to NEC and OSC code. It also provides additional access to related training courses across the state for registered apprentices with aligned program outcomes, assessments and courses.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with the courses within their skill level as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Electronics Technician Certificate of Completion

About the Program

The Electronics Technician four-term certificate program is designed for students seeking entry-level electronics technician positions in manufacturing or service industries. The program emphasizes theory fundamentals, practical troubleshooting, and basic electronics design as well as general studies courses. Technical courses involve extensive lab work using industry standard test equipment and practices.

This program will help students gain skills for entry into one of today's most dynamic and broad-based technical fields. Typical occupations include those of field engineers in business or communications fields, or line/maintenance technicians at manufacturing sites. Electronics training also provides excellent positioning for lateral movement into areas such as technical sales or technical writing.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.roguecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with courses within their skill levels as determined by placement test scores. Students are also required to complete any pre-requisites listed. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Electronics Technology Department chair's recommendation. In order to ensure that coursework is current, program courses over three years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Official transcripts must be filed with the Enrollment Services Office and the Electronics Technology Department.

Graduation Requirements

Students must complete all courses in this program with a grade of "C" or better to receive their certificates. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Electronics Technology

Associate of Applied Science Degree

About the Program

The Electronics Technology Associate of Applied Science degree provides students the necessary skills for entry into one of today's most dynamic and broad-based technical fields. The program emphasizes electronic theory fundamentals, troubleshooting and design, and involves both highly technical and general studies courses. Advanced courses include radio frequency and microwave communications, PC hardware, and microcontrollers and interfacing. Typical occupations include those of electronics test technicians at manufacturing sites or field engineers in the communications industry.

The technical courses involve extensive lab work using industry standard test equipment and practices. As a capstone, students design and build an electronics project to demonstrate their proficiencies of program outcomes. The AAS degree can be used for technical block transfers to four-year institutions' basic engineering programs, although continuing students will be advised to take additional transfer courses.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with courses within their skill levels as determined by placement test scores. Students are required to complete any prerequisites on this guide. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and with the Electronics Technology Department chair's recommendation. In order to ensure that coursework is current, program courses over three years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Official transcripts must be filed with the RCC Enrollment Services Office.

Graduation Requirements

Students are required to complete all courses in this program with a grade of "C" or better to receive their degrees. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|------------|--|---------|
| CS__ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ¹ | 0-4 |
| MTH20 | Pre-algebra I or designated placement test score | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |
| WR90 | Fundamentals of Composition or designated placement test score | 0-4 |

Total Prerequisite Credits **0-16**

First Year Required Courses

| Course No. | Course Title | Credits |
|-------------------|---|---------|
| First Term | | |
| EET112 | Introduction to Mechatronics | 5 |
| EET125 | Electronics Fundamentals I (DC) | 6 |
| MTH63 | Applied Algebra I or MTH60 Fundamentals of Algebra I or higher level math | 4 |
| WR115 | Introduction to Expository Writing or designated placement test score as shown on current indicator chart, and either SP100 Basic Communication or | |

| | |
|--|-------|

Elementary Education Transfer to Southern Oregon University Associate of Science Degree

About the Program

Based on a signed articulation agreement, Rogue Community College (RCC) and Southern Oregon University (SOU) School of Education offer an Associate of Science degree for students who wish to ultimately obtain a teaching credential with early childhood (pre-kindergarten through fourth grade) and/or elementary authorization (third through sixth grades).

This degree was developed as a cooperative venture between SOU and RCC and offers knowledge and application components drawn from curriculum at both institutions. The degree transfers directly into the bachelor's degree program in Elementary Education at SOU. If a student's career goal is to teach in an elementary school, successful completion of the bachelor's degree will lead to an initial teaching license.

Students must work closely with their advisors to ensure transferability of this program. If students transfer before completing this degree or in a major not covered by prior agreements, their courses will be evaluated individually toward the transfer requirements of the college of their choice.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Students are also required to provide information regarding their measles immunization status by completing the form found on the RCC ECEE Department website and clicking on "Measles Immunization." Completed forms must be submitted to a department secretary.

Many courses in this department require participation in community schools, programs, and agencies for observation and practicum experiences. Some of these sites may require a background check in order for a student to participate. Future employment serving children and families will require a background check. Students may wish to consider going through a background check process to be ready for potential observation, practicum, and employment experiences – check with your ECEE advisor for additional information.

For some classes, early childhood education students are required to use the Redwood Early Childhood Center, which is a Head Start site. Therefore, all students in the Early Childhood Education program must obtain prior clearance from Head Start. The process for doing this is on the Southern Oregon Head Start website, www.socfc.org. Click on "Volunteer" and then on "Download Volunteer Packet." Required paperwork must be completed before observing or participating at a Head Start site.

Advanced Standing

Coursework from accredited universities will be accepted in accordance with college policies. In order to ensure that coursework is current, program courses over 10 years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Each College Now credit student must meet with the department chair to determine placement.

Graduation Requirements

The Associate of Science degree will be awarded to students who complete all credits in this program with a grade of "C" or better. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|------------|--|---------|
| CS ____ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ¹ | 0-4 |
| MTH96 | Applied Algebra II or MTH95 Intermediate Algebra or designated placement test score | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |
| WR115 | Introduction to Expository Writing or BT113 Business English I or designated placement test score | 0-4 |

Total Prerequisite Credits **0-16**

First Year Required Courses

| Course No. | Course Title | Credits |
|-------------------|---|---------|
| First Term | | |
| ECE100 | Introduction to Early Childhood Education (ECE) or ED259 Foundations of Education (ELEM) | 3 |
| ECE163 | Preschool/Primary Development (ECE) or ED165 Child Development (ELEM) | 3 |

TOTAL PROGRAM CREDITS **90-100**

Approved Program Electives

| Course No. | Course Title | Credits |
|-----------------|--|---------|
| ECE152 | Fostering Creativity | 3 |
| ECE154 | Children's Literature and Literacy | 3 |
| ECE241 | Promoting Cognitive Development | 3 |
| ECE285 | The Early Childhood Professional (ECE) | 3 |
| MTH213 | Fundamentals of Elementary Math III ⁵ | 5 |
| SPAN101,102,103 | First Year Spanish I, II, III | 4-4-4 |
| SRV101 | Service Learning | 1-3 |

¹ Successful completion of CS101 or CS120, or otherwise meeting the proficiency requirement within the last 10 years, fulfills this requirement. Contact a computer science adviser to help determine placement.

2 Approved Humanities Electives

(Complete any three courses, 11-12 credits, from the following list. Courses have been pre-selected to meet Oregon Teacher Standards and Practices Commission licensure preparation. At least one course must be a literature course and one an art history course.)

| Course No. | Course Title | Credits |
|------------------------|--|-----------|
| ART131 | Introduction to Drawing | 3 |
| ART204,205,206 | History of Art I, II, III | 4-4-4 |
| ENG104,105,106 | Introduction to Literature | 4-4-4 |
| ENG107,108,109 | World Literature | 4-4-4 |
| ENG201,202,203 | Shakespeare I, II, III | 4-4-4 |
| ENG204,205,206 | Survey of English Literature | 4-4-4 |
| ENG253,254,255 | Survey of American Literature | 4-4-4 |
| ENG257 | African American Literature | 4 |
| ENG260 | Introduction to Women Writers | 4 |
| ENG275 | The Bible as Literature | 4 |
| HUM101,102,103 | Introduction to Humanities | 4-4-4 |
| HUM215,216,217,218,219 | Native American Arts and Cultures | 4-4-4-4-4 |
| MUS105 | Music Appreciation | 3 |
| MUS108 | Music in World Cultures | 4 |
| MUS201 | Introduction to Western Music | 4 |
| MUS205 | History of Jazz | 3 |
| MUS206 | Introduction to Rock Music | 3 |
| MUS208 | Film Music | 3 |
| MUS261,262,263 | History of Western Music I, II, III | 4-4-4 |
| MUS264,265,266 | History of Rock I, II, III | 3-3-3 |
| PHL101,102,103 | Philosophical Problems/Ethics/Critical Reasoning | 4-4-4 |
| REL201 | World Religions | 4 |
| REL243 | Nature, Religion and Ecology | 4 |
| SP115 | Introduction to Intercultural Communication | 4 |
| SPAN201,202,203 | Second Year Spanish I, II, III | 4-4-4 |
| TA141 | Fundamentals of Acting | 4 |
| WR241,242,243 | Imaginative Writing I, II, III | 4-4-4 |

3 Approved Social Science Electives

(Complete at least one history course, a minimum of 4 credits, from the following list.)

| Course No. | Course Title | Credits |
|------------|-------------------------------------|---------|
| HST104,105 | History of World Civilization I, II | 4-4 |
| HST201,202 | History of the United States I, II | 4-4 |

4 Approved Science/Lab Science Electives

(Complete at least three courses, 11-15 credits, from the following list. At least two courses must have labs, and at least one course must be a physical science and one a biological science. Note that only one course can be a regional field studies course indicated by asterisk.)

| Course No. | Course Title | Credits |
|-----------------------|---|-----------|
| BI100GB | Introductory Biology (non-lab course) | 3 |
| BI100SB | Biology of Human Body Systems (non-lab course) | 3 |
| BI101,102,103 | Introduction to Biology I, II, III with lab | 4-4-4 |
| BI121,122 | Elementary Anatomy and Physiology I, II with lab | 4-4 |
| BI211,212,213 | General Biology I, II, III with lab | 4-4-4 |
| BI231,232,233 | Anatomy and Physiology I, II, III with lab | 4-4-4 |
| BI234 | Microbiology with lab | 4 |
| BI272 | Introduction to Ecology with lab | 4 |
| CHEM104,105,106 | Introductory Chemistry I, II, III with lab and recitation | 5-5-5 |
| CHEM221,222,223 | General Chemistry I, II, III with lab and recitation | 5-5-5 |
| CS195 | Web Authoring I (HTML/CSS) (non-lab course) | 4 |
| ENV111 | Introduction to Environmental Science (non-lab course) | 3 |
| G100 | Fundamentals of Geology (non-lab course) | 3 |
| G101,102,103 | Introduction to Geology I, II, III with lab | 4-4-4 |
| GEOG100 | Introduction to Physical Geography (non-lab course) | 3 |
| GS104,105,106,107,108 | Physical Science with lab | 4-4-4-4-4 |
| GS161 * | Regional Field Studies with lab | 4 |
| GS170 * | Regional Field Geology with lab | 4 |
| PH201,202,203 | General Physics I, II, III with lab and recitation | 5-5-5 |
| PH211,212,213 | General Physics (Calculus Based) I, II, III with lab and recitation | 5-5-5 |

⁵ MTH213 highly recommended for transfer.

Note: Students who have graduated from high school or completed a high school equivalency program in 1997 or after must have the following requirement for admission to a four-year Oregon university: 1) Two years of the same high school-level foreign language, or 2) two terms of college-level foreign language with a grade of "C" or better (may be first-year foreign language, which can be used as elective credits on the Associate of Arts Oregon Transfer degree). If students plan to complete a Bachelor of Arts (BA) degree at a four-year school, they must have a proficiency in a foreign language regardless of when they graduated from high school or equivalency program.

Emergency Medical Services Certificate of Completion

About the Program

The Emergency Medical Services (EMS) three-term certificate program is accredited by the Oregon Department of Education and the Oregon Health Authority – EMS. It offers career training for entry-level personnel in EMT. Successful completion of the EMT course leads to eligibility to sit for the state and National Registry EMT exams. This program is ideal for students who plan to go on to the Associate of Applied Science degree in Paramedicine. Students not interested in the paramedic level may wish to consider the EMT Career Pathway certificate.

Successful completion of the curriculum leads to a one-year RCC certificate and eligibility to apply for the Paramedicine courses at RCC, at any other Oregon community college offering the associate degree, or at the Oregon Health and Science University.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes (www.bls.gov/SOC/), graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.rogucecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

As part of their training program, students are required to take a placement test to determine skill levels in math, reading and writing. Students must begin with the courses within their skill levels as determined by placement test scores.

This program requires an application and satisfaction of certain course admission criteria prior to enrolling in the EMT courses (ES131, ES132). Information is available on department website (www.rogucecc.edu/EmergencyServices/EMS) or at the Emergency Services (ES) Department office located at the RCC Table Rock Campus. Students are strongly encouraged to meet with an ES Department advisor prior to beginning any coursework.

Students must be at least 17 years old to apply to the EMT course. Students must be a high school graduate or have a GED or equivalent for certification. In addition, students must meet the qualifications outlined by the Oregon Health Authority – EMS. Students are required to submit verification of certain immunizations and medical tests. Students will also be required to pass a drug screen and a criminal background investigation prior to their mandatory clinical time.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Emergency Services Department chair's recommendation. In order to ensure that

coursework is current, program courses over five years old must be reviewed and approved by the Emergency Services Department chair before being accepted toward core requirements.

Graduation Requirements

Students completing all credits outlined in this program with a grade of "C" or better will earn a certificate in Emergency Medical Services. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

Students are strongly encouraged to meet with an Emergency Services Department adviser prior to beginning any coursework.

Emergency Medical Services: EMT Career Pathways Certificate

About the Program

The Emergency Medical Technician (EMT) two-term pathway certificate offers career training for entry-level personnel in EMT. Successful completion of the EMT course leads to eligibility to sit for the state and National Registry EMT exams. Successful completion of the curriculum leads to a two-term RCC pathway certificate and the ability to apply for positions as EMTs in hospital emergency departments and ambulance services. It is also the minimum requirement for some firefighter positions.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes (www.bls.gov/SOC/), graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.rogucecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

As part of their training program, students are required to take a placement test to determine skill levels in math, reading and writing. Students must begin with the courses within their skill levels as determined by placement test scores.

This program requires an application and satisfaction of certain course admission criteria prior to enrolling in the EMT certification courses (ES131, ES132). Information is available on the Department website (www.roguecc.edu/EmergencyServices/EMS) or at the Emergency Services (ES) Department office located at the RCC Table Rock Campus. Students are strongly encouraged to meet with an ES Department adviser prior to beginning any coursework.

Students must be at least 17 years old to apply to the EMT course. Students must be a high school graduate or have a GED or equivalent to be eligible to sit for the state and National Registry EMT exams. In addition, students must meet the qualifications outlined by the Oregon Health Authority – EMS. Students are required to submit verification of certain immunizations and medical tests. Students will also be required to pass a drug screening and a criminal background investigation prior to their mandatory clinical time.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the ES Department chair's recommendation. In order to ensure that coursework is current, program courses over five years old must be reviewed and approved by the ES Department chair before being accepted toward core requirements.

Emergency Medical Services: EMT: Career Pathways Certificate (24-30 credits)

- Entry-level Emergency Medical Technician (EMT) ¹

Emergency Medical Services: Certificate of Completion (47-56 credits)

- EMT ¹

Paramedic: Associate of Applied Science (AAS) degree (103-108 credits)

- Advanced-level EMT ¹

Dual Fire/ Paramedic AAS Degrees: Associate of Applied Science (AAS) degree (153 credits in three years)

- Firefighter/Paramedic ¹

¹ For current wage and gainful employment data, see the Jobs & Wages box within the specific program roadmap at www.roguecc.edu/CareerPathways/

Graduation Requirements

Students completing all credits outlined in this program with a grade of "C" or better will earn an EMT pathway certificate. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

Students are strongly encouraged to meet with an ES Department advisor prior to beginning any coursework.

| Course No. | Course Title | Credits |
|-----------------------------------|---|-------------|
| MTH20 | Pre-algebra or designated placement test score | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |
| WR90 | Fundamentals of Composition II or designated placement test score | 0-4 |
| Total Prerequisite Credits | | 0-12 |

Required Courses

| Course No. | Course Title | Credits |
|-------------------|------------------------------------|---------|
| First Term | | |
| ES105 | Introduction to Emergency Services | 4 |
| ES131 | EMT Part I | 4 |
| ES131L | EMT Part I Lab | 1 |
| ES268 | Emergency Service Rescue | 3 |
| | | 12 |

Second Term

| | | |
|--------|---|-------|
| ES132 | EMT Part II | 4 |
| ES132L | EMT Part II Lab | 1 |
| EMS170 | Emergency Communication and Documentation | 2 |
| EMS171 | Emergency Patient Transportation or FRP253 Apparatus Driver | 2-3 |
| — | Approved program elective | 3-8 |
| | | 12-18 |

TOTAL CREDITS

24-30

Approved Pathway Electives

(3-8 credits allowed)

| Course No. | Course Title | Credits |
|--------------|--|---------|
| AH100 | Medical Terminology | 3 |
| BI211 | General Biology I | 4 |
| CJ243/SOC243 | Drugs, Crime and Addiction | 4 |
| EMS160 | Electrocardiogram (ECG) Interpretation | 2 |
| FRP251 | Firefighter Level I ¹ | 3 |
| FRP251L | Firefighter Level I Lab ¹ | 5 |
| FRP261 | Hazardous Materials First Responder Operations | 1 |

Emerging Media and Digital Arts Transfer to Southern Oregon University Associate of Science Degree

About the Program

The Associate of Science (AS) degree is based on a signed articulation agreement with Southern Oregon University (SOU). The program is designed for students transferring to its baccalaureate degree program in Emerging Media and Digital Arts (EMDA). Students completing this degree will meet the requirements for the foundation courses within the EMDA degree requirements. Students must work closely with advisors in their areas of interest to ensure electives are appropriate.

The curriculum allows for 33-45 core credits within the major area. By completing all appropriate credits (including electives), students will fulfill required lower division coursework for transfer to SOU. Students should be aware, however, that if they transfer before completing this degree, their

courses will be evaluated individually toward the transfer requirements of the college of their choice. The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited universities will be accepted in accordance with college policies. In order to ensure that coursework is current, program courses over five years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements.

Graduation Requirements

The Associate of Science degree will be awarded to students who complete a minimum of 90 credits in this program with a grade of "C" or better. Certain required courses are also graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|------------|--|---------|
| CS__ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ¹ | 0-4 |
| MTH95 | Intermediate Algebra or | |
| | MTH96 Applied Algebra II or designated placement test score | 0-4 |
| WR115 | Introduction to Expository Writing or designated placement test score | 0-3 |

Total Prerequisite Credits 0-11

General Education Requirements

| Course No. | Course Title | Credits |
|------------|---|---------|
| COMM225 | Small Group Communication and Problem-solving or SP111 Fundamentals of Public Speaking or SP218 Interpersonal Communication or SP100 Basic Communication | 3-4 |
| LIB127 | Introduction to Academic Research | 1 |
| MTH105 | Introduction to Contemporary Mathematics or higher level math ² | 4-5 |
| WR121 | English Composition I | 4 |
| WR122 | English Composition II | 4 |
| — | Approved humanities electives ³ | 9-12 |
| — | Approved science electives ⁴ | 11-15 |
| — | Approved social science electives ⁵ | 9-12 |

Total General Education Requirements 45-57

Core Requirements

| Course No. | Course Title | Credits |
|------------|--|---------|
| CS125DP | Introduction to Digital Photography | 3 |
| CS125DV | Introduction to Digital Video | 3 |
| CS133JS | Javascript Programming | 4 |
| CS140 | Introduction to Operating Systems | 4 |
| CS195 | Web Authoring I (HTML/CSS) | 4 |
| GD140 | Electronic Publishing Applications I | 3 |
| GD150 | Computer Illustration (Illustrator) | 3 |
| GD160 | Digital Imaging (Photoshop) | 3 |
| GD190 | Introduction to Animation (Adobe Animate) | 3 |
| — | Approved computer science/graphics design electives ⁶ | 3-15 |

Total Core Credits 33-45

TOTAL PROGRAM CREDITS 90

¹ Successful completion of CS120, or otherwise meeting the proficiency requirement within the last 10 years, fulfills this requirement. Contact a computer science adviser to help determine placement.

² Students may also take MTH111, MTH112, MTH211 and MTH212, MTH243 or MTH251. The Bachelor of Science degree requires two courses (7 or more credits) of math, designated programming, statistics or logic courses. The second course may be completed at RCC or SOU. See an advisor for details.

3 Approved Humanities Electives

(complete at least three courses from the following list, 9-12 credits)

| Course No. | Course Title | Credits |
|------------------------|--|-----------|
| ART131 | Introduction to Drawing | 3 |
| ART204,205,206 | History of Art I, II, III | 4-4-4 |
| ENG104,105,106 | Introduction to Literature | 4-4-4 |
| ENG107,108,109 | World Literature | 4-4-4 |
| ENG201,202,203 | Shakespeare I, II, III | 4-4-4 |
| ENG204,205,206 | Survey of English Literature | 4-4-4 |
| ENG253,254,255 | Survey of American Literature | 4-4-4 |
| ENG257 | African American Literature | 4 |
| ENG260 | Introduction to Women Writers | 4 |
| ENG275 | The Bible as Literature | 4 |
| HUM101,102,103 | Introduction to Humanities | 4-4-4 |
| HUM215,216,217,218,219 | Native American Arts and Cultures | 4-4-4-4-4 |
| MUS105 | Music Appreciation | 3 |
| MUS108 | Music in World Cultures | 4 |
| MUS201 | Introduction to Western Music | 4 |
| MUS205 | History of Jazz | 3 |
| MUS206 | Introduction to Rock Music | 3 |
| MUS208 | Film Music | 3 |
| MUS261,262,263 | History of Western Music I, II, III | 4-4-4 |
| MUS264,265,266 | History of Rock I, II, III | 3-3-3 |
| PHL101,102,103 | Philosophical Problems/Ethics/Critical Reasoning | 4-4-4 |
| REL201 | World Religions | 4 |
| REL243 | Nature, Religion and Ecology | 4 |
| SP115 | Introduction to Intercultural Communication | 4 |
| SPAN201,202,203 | Second Year Spanish I, II, III | 4-4-4 |
| TA141 | Fundamentals of Acting | 4 |
| WR241,242,243 | Imaginative Writing I, II, III | 4-4-4 |

4 Approved Science Electives

(Complete at least three courses, two of which must have labs, from the following list, 11-15 credits. Note that only one course can be a regional field studies course indicated by asterisk.)

| Course No. | Course Title | Credits |
|-----------------------|---|-----------|
| BI100GB | Introductory Biology (non-lab course) | 3 |
| BI100SB | Biology of Human Body Systems (non-lab course) | 3 |
| BI101,102,103 | Introduction to Biology I, II, III with lab | 4-4-4 |
| BI121,122 | Elementary Anatomy and Physiology I, II with lab | 4-4 |
| BI211,212,213 | General Biology I, II, III with lab | 4-4-4 |
| BI231,232,233 | Anatomy and Physiology I, II, III with lab | 4-4-4 |
| BI234 | Microbiology with lab | 4 |
| BI272 | Introduction to Ecology with lab | 4 |
| CHEM104,105,106 | Introductory Chemistry I, II, III with lab and recitation | 5-5-5 |
| CHEM221,222,223 | General Chemistry I, II, III w/lab and recitation | 5-5-5 |
| ENV111 | Introduction to Environmental Science (non-lab course) | 3 |
| G100 | Fundamentals of Geology (non-lab course) | 3 |
| G101,102,103 | Introduction to Geology I, II, III with lab | 4-4-4 |
| GEOG100 | Introduction to Physical Geography (non-lab course) | 3 |
| GS104,105,106,107,108 | Physical Science with lab | 4-4-4-4-4 |
| GS161 * | Regional Field Studies with lab | 4 |
| GS170 * | Regional Field Geology with lab | 4 |

| | | |
|---------------|---|-------|
| PH201,202,203 | General Physics I, II, III with lab and recitation | 5-5-5 |
| PH211,212,213 | General Physics (Calculus Based) I, II, III with lab and recitation | 5-5-5 |

5 Approved Social Science Electives

(complete at least three courses from the following list, 9-12 credits)

| Course No. | Course Title | Credits |
|---------------|---|---------|
| ANTH110,150 | Introduction to Cultural Anthropology/Archaeology | 4-4 |
| BA101 | Introduction to Business | 4 |
| BA218 | Personal Finance | 3 |
| CJ101/SOC244 | Introduction to Criminology | 4 |
| CJ120 | Introduction to the Judicial Process | 4 |
| CJ243/SOC243 | Drugs, Crime and Addiction | 4 |
| COMM237 | Communication and Gender | 4 |
| ECON115 | Introduction to Economics | 3 |
| ECON201,202 | Principles of Microeconomics/Macroeconomics | 4-4 |
| GEOG110 | Introduction to Cultural and Human Geography | 3 |
| GEOG120 | World Regional Geography | 3 |
| HE250,HPE295 | Personal Health/Health and Fitness for Life | 3-3 |
| HST104,105 | History of World Civilization I, II | 4-4 |
| HST201,202 | History of the United States I, II | 4-4 |
| IS110,111 | Introduction to International Studies | 4-3 |
| PS201,202,203 | American Government I, II, III | 3-3-3 |
| PSY101 | Psychology of Human Relations | 3 |
| PSY119 | Psychology of Personal Growth | 4 |
| PSY201,202 | General Psychology I, II | 4-4 |
| PSY215 | Life Span Human Development | 4 |
| PSY219 | Introduction to Abnormal Psychology | 4 |
| PSY231 | Human Sexuality | 3 |
| SOC204,205 | Introduction to Sociology: American Society | 4-4 |
| SOC211 | Social Deviance and Social Control | 3 |
| SOC213 | Race and Ethnicity in the U.S. | 4 |
| SOC218 | Sociology of Gender | 4 |
| SOC225 | Social Problems | 4 |
| SOC228 | Environment and Society | 4 |
| SOC230 | Introduction to Gerontology | 4 |
| SOC235 | The Chicano/Latino Historical Experience | 4 |

6 Approved Computer Science/Graphic Design Electives

(Complete 3-15 credits or a sufficient number of electives to meet the total degree requirements of at least 90 credits.)

| Course No. | Course Title | Credits |
|------------|--|---------|
| CS125D | Digital 3D Graphics I | 3 |
| CS125DW | Dreamweaver I | 3 |
| CS133B | Visual Basic | 4 |
| CS135DV | Advanced Digital Video | 3 |
| CS161 | Computer Science I | 4 |
| CS162 | Computer Science II | 4 |
| CS196 | Web Authoring II (HTML/CSS) | 4 |
| GD120 | Digital Graphic Design I | 3 |
| GD141 | Electronic Publishing Applications II | 3 |
| GD220 | Graphic Design II | 3 |
| GD260 | Digital Imaging II: Advanced Photoshop | 4 |

Note: Students who have graduated from high school or completed a high school equivalency program in 1997 or after must have the following requirement for admission to a four-year Oregon university:

1) Two years of the same high school-level foreign language, or 2) two terms of college-level foreign language with a grade of "C" or better (may be first-year foreign language, which can be used as elective credits on the Associate of Arts Oregon Transfer degree). If students plan to complete a Bachelor of Arts (BA) degree at a four-year school, they must have a proficiency in a foreign language regardless of when they graduated from high school or equivalency program.

Engineering Interest Associate of General Studies Degree

A total of 90 credits are required to complete the Associate of General Studies (AGS) degree. The courses listed below are only meant to serve as a guide of recommended choices within categories required in the AGS framework. See the AGS graduation guide for full degree requirements. The following list includes recommended courses for students who have an interest in engineering.

The pre-engineering focus at RCC is designed to closely follow the pre-engineering programs at Oregon Tech, Oregon State University and Portland State University. Students may want to consider co-enrollment at Southern Oregon University to complete some of the engineering courses required for the joint SOU/OSU programs. For more information, contact the SOU Physics Department at 541-552-6476.

RCC students are strongly encouraged to work with RCC science faculty for all academic advising for this major as other transfer options may exist. There may be other courses that can be completed prior to transfer.

| Course No. | Course Title | Credits |
|------------|---|---------|
| CHEM221 | General Chemistry I with lab and recitation | 5 |
| CHEM222 | General Chemistry II with lab and recitation | 5 |
| CHEM223 | General Chemistry III with lab and recitation | 5 |
| ENGR101 | Engineering Orientation I: Careers, Skills and Computer Tools | 2 |
| ENGR102 | Engineering Orientation II: Careers, Skills and Computer Tools | 2 |
| ENGR103 | Engineering Orientation III: Careers, Skills and Computer Tools | 2 |
| ENGR201 | Electrical Fundamentals with lab | 3 |
| ENGR211 | Statics | 3 |
| ENGR212 | Dynamics | 3 |
| ENGR213 | Strength of Materials | 3 |
| MTH251 | Calculus I (Differential) | 5 |
| MTH252 | Calculus II (Integral) | 5 |
| MTH253 | Calculus III | 5 |
| MTH254 | Vector Calculus | 5 |
| PH211 | General Physics I (Calculus Based) with lab and recitation | 5 |
| PH212 | General Physics II (Calculus Based) with lab and recitation | 5 |
| PH213 | General Physics III (Calculus Based) with lab and recitation | 5 |
| SP111 | Fundamentals of Public Speaking | 4 |
| WR121 | English Composition I | 4 |
| WR122 | English Composition II | 4 |

| Southern Oregon University | www.sou.edu |

English/Literature Interest Associate of Arts Oregon Transfer Degree

A total of 90 credits are required to complete the Associate of Arts Oregon Transfer (AAOT) degree and the courses listed below are only meant to serve as a guide of recommended choices within categories required in the AAOT framework. See the AAOT graduation guide for full degree requirements. It is recommended that a student also consult with the transfer college of choice regarding

specific prerequisites since requirements for an English/literature major vary at each university.

| Course No. | Course Title | Credits | AAOT Category |
|------------|--|---------|---------------|
| ENG107 | World Literature: Ancient to Classical | 4 | Humanities |
| ENG108 | World Literature: Medieval to Renaissance | 4 | Humanities |
| ENG109 | World Literature: Enlightenment to Modern | 4 | Humanities |
| ENG204 | Survey of English Literature: Medieval to Renaissance | 4 | Humanities |
| ENG205 | Survey of English Literature: 18th Century to Romantic | 4 | Humanities |
| ENG206 | Survey of English Literature: Victorian to Modern | 4 | Humanities |
| MTH111 | College Algebra | 4 | Math |
| SPAN201* | Second Year Spanish I | 4 | Humanities |
| SPAN202* | Second Year Spanish II | 4 | Humanities |
| SPAN203* | Second Year Spanish III | 4 | Humanities |

*For Bachelor of Arts degree requirement.

Note: Three courses required in the humanities category. Additional courses would count as electives.

Exercise Specialist Certificate of Completion

About the Program

The Exercise Specialist three-term certificate program prepares students for work in entry-level positions as professional members of preventive health care teams. Students could expect to find employment in a variety of health and fitness clubs, wellness centers, public and private recreation facilities, hospitals, and corporate fitness programs where a working knowledge of instruction and administrative duties is required.

The variety of duties that may be performed by an exercise specialist include: directing safe and effective exercise programs, assisting at the front counter with phones and advertising, supervising weight and cardio areas, organizing adult and children's programs, assisting residents in a retirement or Alzheimer's setting, working as a personal trainer with clients, assisting with swim classes and conducting exercise classes. Additional duties may also include participating in open gym activities and sports organizations, conducting fitness testing and instructing clients in appropriate sport and fitness activities, sales, and club business operations and member retention efforts. Exercise specialists have a background in basic anatomy and physiology, fitness assessment and programming, training in interpersonal skills, customer relations, behavior modifications, and fitness promotion.

The program is designed to correlate classroom and laboratory experience with practical experience in facilities in the community. During the course of study, successful students may be certified by the American Heart Association (AHA) at the Health Care Provider level for CPR, the community level for first aid, and be prepared to take the Group Fitness Instructor certifying exam given by the American Council on Exercise (ACE). Students will also be prepared to take any one of several national personal trainer exams.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.roguecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores, and meet with an advisor prior to enrolling in the program. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Health, PE, and Recreation Department chair's approval. In order to ensure that coursework is current, program courses over five years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Each student with College Now credit must meet with the department chair to determine placement. Students requesting advanced placement or transfer credit from prior coursework must submit a written request to the department along with transcripts and course descriptions for all coursework.

Graduation Requirements

Students completing the credits in the program with a grade of "C" or better will receive their certificates. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade. Credits earned in this program can be applied to the Associate of General Studies degree.

Prerequisites

| Course No. | Course Title | Credits |
|------------|--|---------|
| CS__ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ¹ | 0-4 |
| MTH20 | Pre-algebra or designated placement test score | 0-4 |
| RD90 | College Reading II or designated placement test score | 0-4 |
| WR90 | Fundamentals of Composition or designated placement test score | 0-4 |

Total Prerequisite Credits **0-16**

Required Core Courses

| Course No. | Course Title | Credits |
|-------------------|--|--------------|
| First Term | | |
| HE131 | Introduction to Exercise and Sport Science | 3 |
| MTH60 | Fundamentals of Algebra I or MTH63 Applied Algebra I or BT160 Business Math or higher level math | 4 |
| PE185D | Physical Conditioning/Weight Training | 1 |
| PE194 | Principles of Exercise Training and Conditioning | 2 |
| PE290 | Fitness Instructor | 2 |
| WR115 | Introduction to Expository Writing or BT113 Business English I or higher level composition class ² | 3-4 15-16 |

Second Term

| | | |
|---------|--|------------|
| BI100SB | Biology of Human Body Systems or BI121 Elementary Anatomy and Physiology I w/lab or BI231 Human Anatomy and Physiology I w/lab | 3-4 |

Family Support Services Associate of Applied Science Degree

About the Program

The Family Support Services program is designed to provide pre-employment training and education for entry-level family support workers through classroom studies and practical training. Graduates may serve families as family advocates, home visitors, parent educators, or family outreach workers, among other occupations. Coursework for this program spans the disciplines of human services and early childhood development to provide a strong base for work with children and families in a variety of settings. It is designed to accommodate both full- and part-time students and those currently employed in the field. Embedded within the program is training which meets requirements for community health worker certification through the Oregon Health Authority.

Some courses in this program may not transfer to other institutions. Students intending to transfer should seek advisor assistance to determine transferability.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take the college placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin the courses within their skill levels as determined by placement test scores. In addition, students may be required to enroll in courses that would increase their employability and success.

Many courses in this department require participation in community schools, programs, and agencies for observation and practicum experiences. Some of these sites may require a background check in order for a student to participate. Future employment serving children and families will require a background check. Students may wish to consider going through a background check process to be ready for potential observation, practicum, and employment experiences – check with your Early Childhood and Elementary Education advisor for additional information.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Early Childhood and Elementary Education Department chair's approval. In order to ensure that coursework is current, program courses over 10 years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Each College Now credit student must meet with the Early Childhood and Elementary Education Department chair to determine placement.

Graduation Requirements

To graduate, students must complete all courses in this program with a grade of "C" or better. Certain prerequisite courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|------------|--|---------|
| — | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ^{1,2} | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |
| PSY101 | Psychology of Human Relations ² | 3 |
| WR115 | Introduction to Expository Writing or BT113 Business English I or designated placement test score | 0-4 |

Total Prerequisite Credits 3-15

First Year Required Courses

| Course No. | Course Title | Credits |
|-------------------|---|---------|
| First Term | | |
| ECE125 | Early Childhood Development | 3 |
| LIB127 | Introduction to Academic Research | 1 |
| PSY201 | General Psychology I | 4 |
| SOC243 | Drugs, Crime and Addiction | 4 |
| WR121 | English Composition I or BT114 Business English II | 4 16 |

Second Term

| | | |
|--------|--|--------------|
| HE250 | Personal Health or HPE295 Health and Fitness for Life | 3 |
| HS155 | Interviewing Theory and Techniques | 4 |
| MTH63 | Applied Algebra I or MTH60 Fundamentals of Algebra I or BT160 Business Math I or higher level math | 4 4 15 |
| PSY202 | General Psychology II | 4 |

Third Term

| | | |
|--------|--|------------|
| ECE151 | Guiding Children in Group Settings | 3 |
| ECE242 | Parent Education and Family Support | 3 |
| ECE275 | Anti-bias Education or SOC213 Race and Ethnicity in America | 3-4 |
| HS158 | Trauma-informed Care: Theory and Practice | 3 |
| PSY215 | Lifespan Human Development | 4 16-17 |

Total First Year Credits 47-48

Second Year Required Courses

| Course No. | Course Title | Credits |
|--------------------|--|---------|
| Fourth Term | | |
| ECE245 | Promoting Social/Emotional Development of Young Children | 3 |
| ECE258 | Early Childhood Home Visitation | 3 |
| HDFS260 | Child Abuse and Neglect | 3 |
| HS201 | Family Dynamics | 3 |
| HS210 | Motivational Interviewing | 3 |
| HS261 | Human Services Practicum and Seminar | 2 18 |

Fifth Term

| | | |
|--------|--------------------------------------|--------------|
| ECE265 | Children at Risk | 3 |
| HS175 | Ethics for Counselors | 1 |
| HS260 | Group Counseling | 4 |
| HS261 | Human Services Practicum and Seminar | 3 |
| HS266 | Crisis Intervention Strategies | 3 |
| — | Approved program elective | 0-4 14-18 |

Sixth Term

| | | |
|-------|---|-------------------|
| HC100 | Community Health Worker | 6 |
| HS261 | Human Services Practicum and Seminar | 4 |
| SP111 | Fundamentals of Public Speaking or SP115 Intercultural Communication or SP218 Interpersonal Communication | 4 0-4 14-18 |
| — | Approved program elective | 0-4 14-18 |

Total Second Year Credits 46-54
TOTAL PROGRAM CREDITS 93-102

Approved Program Electives

| Course No. | Course Title | Credits |
|-----------------|--|---------|
| ECE161 | Infant/Toddler Development | 3 |
| ECE163 | Preschool/Primary Development | 3 |
| ECE243 | Promoting Child Health and Physical Development | 3 |
| ECE246 | Child, Family and Community | 3 |
| ECE248 | Children with Disabilities and Their Families | 3 |
| ECE266 | Spanish for Early Childhood/Elementary Professionals | 3 |
| PHL101 | Philosophical Problems | 4 |
| PHL102 | Ethics | 4 |
| PHL103 | Critical Reasoning | 4 |
| PSY219 | Introduction to Abnormal Psychology | 4 |
| PSY228 | Introduction to Positive Psychology | 4 |
| PSY231 | Human Sexuality | 3 |
| SOC204 | Introduction to Sociology | 4 |
| SOC205 | American Society | 4 |
| SOC218 | Sociology of Gender | 4 |
| SOC225 | Social Problems | 4 |
| SOC235 | The Chicano/Latino Historical Experience | 4 |
| SPAN101,102,103 | First Year Spanish I, II, III | 4-4-4 |
| WR110 | Understanding English Grammar | 2 |

¹ Successful completion of CS120, or otherwise meeting the proficiency requirement within the last 10 years, fulfills this requirement. Contact a computer science advisor to help determine placement.

² Required for graduation.

Fire Officer Certificate of Completion

About the Program

The Fire Officer four-term certificate program is designed to provide advanced skills and work experience for firefighters aspiring to advance in the profession. It provides courses aimed at upgrading the skills of professional firefighters and preparing personnel for additional job responsibilities. Courses are either in the core of the AAS degree or chosen from the approved elective list. Coursework is accredited by the Oregon Department of Public Safety Standards and Training and meets National Fire Protection Association (NFPA) requirements (NFPA Fire Officer I and II).

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes (www.bls.gov/SOC), graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.rogucecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

As part of their training program, students are also required to take a placement test to determine skill level and readiness in math, reading and writing. Students must begin with the courses within their skill levels as determined by the placement test scores. In addition, students may also be required to enroll in courses that would increase their employability and success. The Fire Science program advisor will work with each student to design an individualized sequence of instruction.

Advanced Standing

Coursework from approved colleges and universities will be accepted in accordance with college registration policies and the Fire Science program coordinator's approval. In order to ensure that coursework is current, program courses over 10 years old must be reviewed and approved by the program coordinator before being accepted toward core requirements.

Graduation Requirements

Students must complete all courses in this program with a grade of "C" or better to receive their certificates. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade

Fire Prevention/Investigation Certificate of Completion

About the Program

The Fire Prevention/Investigation three-term certificate program is designed to provide basic skills and work experience for those entering the profession. It provides courses aimed at upgrading the skills of professional firefighters and fire prevention officers. Knowledge of fire prevention, building construction, related codes and laws, public education, public relations, and fire investigation are some of the areas addressed.

The program is coordinated in conjunction with the Fire Science Associate of Applied Science (AAS) degree. Courses are either in the core of the AAS degree or chosen from the approved elective list. Coursework is accredited by the Oregon Department of Public Safety Standards and Training.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes (www.bls.gov/SOC/), graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. Fire Science

Associate of Applied Science Degree

About the Program

The fire service is a highly dynamic profession that offers a variety of daily challenges to the professionals who work within it. The primary mission of the RCC Fire Science program is to prepare students for careers as firefighters. Students who complete the program will be prepared to meet the unique demands of a rewarding profession. The program prides itself on delivering the highest education available by following standards set by the National Fire Protection Association (NFPA) and the Fire Emergency Services Higher Education (FESHE). Fire Science program coursework is accredited by the Oregon Department of Public Safety Standards and Training.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

As part of their training program, students are required to take a placement test to determine skill levels and readiness in math, reading and writing. Students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in courses that would increase their employability and success. The Fire Science program advisor will work with each student to design an individualized sequence of instruction.

Students must be at least 17 years old to apply to the EMT course. Students must be a high school graduate or have a GED or equivalent for certification. In addition, students must meet the qualifications outlined by the Oregon Health Authority – EMS. Students are required to submit verification of certain immunizations and medical tests. Students will also be required to pass a drug screen and a criminal background investigation prior to their mandatory clinical time.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college registration policies and the Fire Science program coordinator's approval. In order to ensure that coursework is current, program courses over 10 years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements.

Graduation Requirements

Students must complete all courses in this program with a grade of "C" or better to receive their degrees. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Fire Science: Firefighter Career Pathways Certificate

About the Program

The fire service is a highly dynamic profession that offers a variety of daily challenges to the professionals who work within it. The primary mission of the RCC Fire Science program is to prepare students for careers as firefighters. Students who complete this three-term program will have met the requirements set by regional fire departments in Southern Oregon for the entry-level position of firefighter. The program delivers the highest education available by following standards set by the National Fire Protection Association (NFPA) and the Fire Emergency Services Higher Education (FESHE) program. Fire Science program coursework is accredited by the Oregon Department of Public Safety Standards and Training.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes (www.bls.gov/SOC), graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.roguecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

As part of their training program, students are required to take a placement test to determine skill levels and readiness in math, reading and writing. Students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in courses that would increase their employability and success. The Fire Science program advisor will work with each student to design an individualized sequence of instruction.

Students must be at least 17 years old to apply to the EMT course. Students must be a high school graduate or have a GED or equivalent for certification. In addition, students must meet the qualifications outlined by the Oregon Health Authority – EMS. Students are required to submit verification of certain immunizations and medical tests. Students will also be required to pass a drug screen and a criminal background investigation prior to their mandatory clinical time.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college registration policies and the Fire Science program coordinator's approval. In order to ensure that

coursework is current, program courses over 10 years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements.

Fire Science: Firefighter: Career Pathways Certificate (36 credits)

- Entry-level structural firefighter ¹
- Entry-level wildland (forest) firefighter ¹

Fire Science: Associate of Applied Science (AAS) degree (94-100 credits)

- Structural firefighter ¹

Fire Officer: Certificate of Completion (51 credits)

- Advanced-level structural firefighter officer ¹
- Advanced-level wildland (forest) firefighter officer ¹

Fire Prevention/Investigation: Certificate of Completion (48 credits)

- Fire inspectors and investigators ¹

Dual Fire/ Paramedic: Associate of Applied Science (AAS) degree (153 credits in three years)

- Firefighter/paramedic ¹

¹ For current wage and gainful employment data, see the Jobs & Wages box within the specific program roadmap at www.roguecc.edu/CareerPathways/

Graduation Requirements

Students must complete all courses in this program with a grade of "C" or better to receive their certificate. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Geology Interest

Associate of Arts Oregon Transfer Degree

A total of 90 credits are required to complete the Associate of Arts Oregon Transfer (AAOT) degree and the courses listed below are only meant to serve as a guide of recommended choices within categories required in the AAOT framework. See the AAOT graduation guide for full degree requirements. It is recommended that a student also consult with the transfer college of choice regarding specific prerequisites since requirements for a geology major vary at each university.

| Course No. | Course Title | Credits | AAOT Category |
|------------|--|---------|---------------|
| CHEM221 | General Chemistry I with lab and recitation | 5 | Science |
| CHEM222 | General Chemistry II with lab and recitation | 5 | Science |
| CHEM223 | General Chemistry III with lab and recitation | 5 | Science |
| G101 | Introduction to Geology I with lab | 4 | Science |
| G102 | Introduction to Geology II with lab | 4 | Science |
| G103 | Introduction to Geology III with lab | 4 | Science |
| MTH111 | College Algebra | 4 | Math |
| MTH112 | Elementary Functions | 4 | Math |
| MTH251 | Calculus I | 5 | Math |
| MTH252 | Calculus II | 5 | Math |
| MTH253 | Calculus III | 5 | Math |
| PH211 | General Physics I (Calculus Based) with lab and recitation | 5 | Science |
| PH212 | General Physics II (Calculus Based) with lab and recitation | 5 | Science |
| PH213 | General Physics III (Calculus Based) with lab and recitation | 5 | Science |

Note: Four courses required in the science/math category. Additional courses would count as electives.

Graphic Design

Associate of Applied Science Degree

About the Program

This program is for students interested in visual communication and digital arts and prepares them for entry-level employment in graphic design, Web design and advertising design positions within organizations. Courses cover principles of design, creative problem solving, art/design history, drawing, typography, and portfolio building. With core instruction based in aesthetic concepts and computer graphics applications, students learn to develop and integrate strong design technique with computer skill sets. These include instruction in digital imaging, graphic illustration, publication design, and Web authoring, as well as opportunities for instruction in video production, 3D modeling, digital animation and digital photography.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores, and meet with an advisor prior to enrolling in the program. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Computer Science Department chair's approval. In order to ensure that coursework is current, program courses over five years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Each College Now credit student must meet with the department chair to determine placement.

If students intend to transfer to SOU's Bachelor of Applied Science degree program, transfer courses should be chosen from the list of electives where possible. See an advisor for more information or visit www.sou.edu/degrecompletion.

Credits earned in the successful completion of Career Pathways certificates can be applied to other certificates and degrees in the Career Pathway. For more information, speak to a program advisor and review the roadmap at www.roguecc.edu/CareerPathways/.

Graduation Requirements

Students completing the required credits in this program with a grade of "C" or better will receive their degrees. Certain prerequisite and required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|------------|--|---------|
| CS120 | Concepts in Computing I or documented computer proficiency ¹ | 0-4 |
| MTH20 | Pre-algebra or designated placement test score | 0-4 |

Graphic Design

Certificate of Completion

About the Program

The Graphic Design four-term certificate program is designed to give students a solid foundation in layout/design concepts and computer graphics applications for print and Web. These include desktop publishing, graphic illustration, digital imaging, and Web page design. Students will also receive instruction in computer fundamentals including terminology, software use, hardware configuration, and operating systems.

All courses in the program have high academic standards and serve dual purposes: They prepare students for careers or serve as a vehicle for those wishing to learn specific skills.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit <http://www.rogucecc.edu/GainfulEmployment>.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores, and meet with an advisor prior to enrolling in the program. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Computer Science Department chair's approval. In order to ensure that coursework is current, program courses over five years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Each College Now credit student must meet with the department chair to determine placement.

Credits earned in the successful completion of Career Pathways certificates can be applied to other certificates and degrees in the Career Pathway. For more information, speak to a program advisor and review the roadmap at www.rogucecc.edu/CareerPathways/.

Graduation Requirements

Students completing the credits in the program with a grade of "C" or better will receive their certificates. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade. Credits earned in this program can be applied to the Associate of Applied Science degree.

Graphic Design: Adobe® Applications Technician Career Pathways Certificate

About the Program

The Adobe® Applications Technician Career Pathways one-term certificate prepares students for work in entry-level positions in the graphic design industry where a working knowledge of Adobe® Creative Suite Premium applications is required. It is the first step to the one-year Graphic Design certificate and the Associate of Applied Science (AAS) degree in Graphic Design. The AAS is designed to prepare students for employment in various design-related industries and fields, including Web design, graphic design, publishing, advertising, media/printing/editing, or begin careers as freelance designers.

Students enrolled in the Adobe® Applications Technician Certificate will use the books recommended by Adobe® for preparation in becoming an Adobe® Certified Expert (ACE). Students who are interested in becoming an ACE can begin by earning the Adobe® Applications Technician Certificate.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within

their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited universities will be accepted in accordance with college policies and the Computer Science Department chair's approval. In order to ensure that coursework is current, program courses over five years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Each College Now credit student must meet with the department chair to determine placement.

Credits earned in the successful completion of Career Pathways certificates can be applied to other certificates and degrees in the Career Pathway. For more information, speak to a program advisor and review the roadmap below and at www.roguecc.edu/CareerPathways/.

Graphic Design: Adobe® Applications Technician Career Pathways Certificate of Completion (15 credits)

- Entry-level desktop publisher ¹

Graphic Design — Certificate of Completion (47 credits)

- Desktop publisher 1
- Entry-level graphic designer ¹

Graphic Design — Associate of Applied Sciences (AAS) (90-94 credits)

- Advanced-level desktop publisher and graphic designer as advertising designer, digital artist, experience designer, pre-production production designer, publication designer, web graphics designer, web designer ¹

¹ For current wage and gainful employment data, see the Jobs & Wages box within the specific program roadmap at www.roguecc.edu/CareerPathways/

Completion Requirements

Students completing the required credits in this program with a grade of "C" or better will receive a Career Pathways certificate in Adobe® Applications Technician. Certain prerequisite and required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Health Care Informatics Assistant Certificate of Completion

About the Program

The Health Care Informatics Assistant four-term program is designed to prepare students for employment as health care informatics assistants within medical organizations. The program provides skills to prepare students to work in the health care industry. Students will also be provided with basic skills in computer hardware and software to help meet the increasing technical demands of the health care industry.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.rogucecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited universities will be accepted in accordance with college policies and the Allied Health Department chair's approval. In order to ensure that coursework is current, program courses over five years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Each College Now credit student must meet with the department chair to determine placement.

Graduation Requirements

The Health Care Informatics Assistant certificate will be awarded to students who complete all credits in this program with a grade of "C" or better. Certain prerequisite and required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Health and Physical Education Transfer to Southern Oregon University Associate of Science Degree

About the Program

The Associate of Science (AS) degree is based on a signed articulation agreement with Southern Oregon University (SOU). The program is designed for students transferring to SOU's bachelor's degree program in health and physical education. Students must work closely with advisors in their areas of interest to ensure electives are appropriate.

The curriculum allows for 44-47 core credits within the major area. By completing all appropriate credits (including electives), students will fulfill required lower division coursework for transfer to SOU. Students should be aware, however, that if they transfer before completing this degree, their courses will be evaluated individually toward the transfer requirements of the college of their choice.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited universities will be accepted in accordance with college policies. In order to ensure that coursework is current, program courses over 10 years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements.

Graduation Requirements

The Associate of Science degree will be awarded to students who complete all credits in this program with a grade of "C" or better. Certain required courses are also graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

| SPAN201,202,203 | Second Year Spanish I, II, III | 4-4-4 |
| TA141 | Fundamentals of Acting | 4 |
| WR241,242,243 | Imaginative Writing I, II, III | 4-4-4 |

Note: Students who have graduated from high school or completed a high school equivalency program in 1997 or after must have the following requirement for admission to a four-year Oregon university:

1) Two years of the same high school-level foreign language, or 2) two terms of college-level foreign language with a grade of "C" or better (may be first-year foreign language, which can be used as elective credits on the Associate of Arts Oregon Transfer degree). If students plan to complete a Bachelor of Arts (BA) degree at a four-year school, they must have a proficiency in a foreign language regardless of when they graduated from high school or equivalency program.

3 Approved Social Science Electives

(Complete at least one course from the following list, 3-4 credits.)

| Course No. | Course Title | Credits |
|--------------|---|---------|
| ANTH110,150 | Introduction to Cultural Anthropology/Archaeology | 4-4 |
| BA101 | Introduction to Business | 4 |
| BA218 | Personal Finance | 3 |

High Technology Studies Certificate of Completion

About the Program

The High Technology Studies four-term certificate program is designed to expand technical knowledge across a range of technical career areas. Students may specialize in a number of technology areas such as welding, manufacturing, machining, computer aided drafting, electronics, and/or computer science by selecting the appropriate technical electives.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.rogucecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. Students are required to complete any pre-requisites listed. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Electronics Technology Department chair's recommendation. In order to ensure that coursework is current, program courses over three years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Official transcripts must be filed with the Enrollment Services Office and the Electronics Technology Department.

Graduation Requirements

Students must complete all courses in this program with a grade of "C" or better to receive their certificates. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|-----------------------------------|--|-------------|
| CS ____ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ¹ | 0-4 |

High Technology Studies: Plant Systems Technician Career Pathway Certificate

About the Program

This three-term pathway sequence of coursework will ensure students a foundational level of skills that may provide a competitive advantage when being considered for hire in a variety of commercial plant environments. With these foundational skills to build on, students are potential candidates for sponsorship by their employers into one of many Bureau of Labor and Industry (BOLI) apprenticeship programs. RCC is not authorized to sponsor entrance into any apprenticeship program, but apprenticeship coursework is provided by the college.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.rogucecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. Students are required to complete any pre-requisites listed. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Electronics Technology Department chair's recommendation. In order to ensure that coursework is current, program courses over three years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Official transcripts must be filed with the Enrollment Services Office and the Electronics Technology Department.

High Technology Studies: Plant Systems Technician — Career Pathways Certificate (43 credits)

- Entry-level industrial machinery mechanic ¹
- Entry-level maintenance worker, machinery ¹
- Entry-level mechanical door repairer ¹
- Entry-level maintenance and repair worker, general ¹
- Entry-level assembler and fabricator ¹

High Technology Studies — Certificate of Completion (50-52 credits)

- Industrial machinery mechanic ¹
- Maintenance worker, machinery ¹
- Mechanical door repairer ¹
- Maintenance and repair worker, general ¹
- Assembler and fabricator ¹

High Technology Studies credits could lead to Associate of Applied Science degrees in the following fields:

- Welding (93-97 credits)
- Manufacturing/engineering (101-108 credits)
- Electronics (102-108 credits)
- Diesel (105-107 credits)

RCC Pre-apprenticeship Introduces students with employer sponsorship to skills needed in the following trades:

- Construction
- Electrician
- Industrial mechanics and maintenance

Credits could lead to Associate of Science degrees transferrable to Oregon Tech (OT):

- Manufacturing/engineering (105-108 credits)
- Computer and Embedded systems Engineering (107-108 credits)

¹ For current wage and gainful employment data, see the Jobs & Wages box within the specific program roadmap at www.roguecc.edu/CareerPathways/

Graduation Requirements

Students must complete all courses in this program with a grade of "C" or better to receive their certificates. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|------------|---|---------|
| CS__ | Approved 3-4 credit computer science class, CS120 or above or documented proficiency ¹ | 0-4 |
| MTH20 | Pre-algebra or designated placement test score | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |
| WR90 | Fundamentals of Composition or designated placement test score | 0-4 |

Total Prerequisite Credits 0-16

Required Core Courses

History Interest

Associate of Arts Oregon Transfer Degree

A total of 90 credits are required to complete the Associate of Arts Oregon Transfer (AAOT) degree and the courses listed below are only meant to serve as a of recommended choices within categories required in the AAOT framework. See the AAOT graduation guide for full degree requirements. It is recommended that a student also consult with the transfer college of choice regarding specific prerequisites since requirements for a history major vary at each university.

| Course No. | Course Title | Credits | AAOT Category |
|------------|---|---------|----------------|
| ENG107 | World Literature: Ancient to Classical | 4 | Humanities |
| ENG108 | World Literature: Medieval to Renaissance | 4 | Humanities |
| ENG109 | World Literature: Enlightenment To Modern | 4 | Humanities |
| HST104 | History of World Civilization I | 4 | Social Science |
| HST105 | History of World Civilization II | 4 | Social Science |
| HST201 | U.S. History I | 4 | Social Science |
| HST202 | U.S. History II | 4 | Social Science |
| MTH111 | College Algebra | 4 | Math |
| SPAN201* | Second Year Spanish I | 4 | Humanities |
| SPAN202* | Second Year Spanish II | 4 | Humanities |
| SPAN203* | Second Year Spanish III | 4 | Humanities |

*For Bachelor of Arts requirement.

Note: Three courses required in the humanities category. Additional courses would count as electives.

Human Services

Associate of Applied Science Degree

About the Program

The Human Services program is designed to provide pre-employment training and education for entry-level social service workers and substance abuse counselors through classroom studies and practical experience. They may be serving people in such areas as senior services, crisis counseling, corrections, health, recreation, developmental disabilities, residential treatment or chemical dependency. The agencies provide inpatient and outpatient programs. Students are prepared during the second year of the program to take the exam that provides Certified Alcohol Drug Counselor (CADC) Level 1 certification.

Some courses in this program may not transfer to other institutions. Students intending to transfer should seek advisor assistance to determine transferability.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take the college placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with the courses within their skill levels as determined by the placement test scores. In addition, students may be required to enroll in courses that would increase their employability and success.

Prospective students should be aware of entry requirements of human services agencies prior to considering human services as a career choice. Practicum placement may require passing a criminal history background check. The inability to pass this check may preclude completion of the program. Students in recovery seeking placement in substance abuse treatment programs may also be required to demonstrate two years' sobriety. More information is available from the Human Services Department.

Human Services is a limited-entry program requiring completion of an application that includes a writing sample and personal references. For more information on how to apply, including application deadlines, visit the Human Services website at www.roguecc.edu/humanservices.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Human Services Department coordinator's approval. In order to ensure that coursework is current, social science courses over 10 years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Each College Now credit student must meet with a faculty member to determine placement.

Graduation Requirements

Students completing the required credits in this program with a grade of "C" or better and passing the counseling skills competency requirement as demonstrated through a series of videotaped counseling interviews will receive their degrees. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade. A total of 660 hours of documented practicum (20 credits) is required. A minimum of four practicum seminars must also be completed.

Prerequisites ¹

| Course No. | Course Title | Credits |
|------------|---|---------|
| CS ____ | Approved 3-4 credit computer science class, CS120 or above, or documented computer proficiency ² | 0-4 |
| MTH63 | Applied Algebra I or MTH60 Fundamentals of Algebra I or BT160 Business Math or higher level math | 4 |

Human Services Transfer to Southern Oregon University Associate of Science Degree

About the Program

The Associate of Science degree is based on a signed articulation agreement with Southern Oregon University (SOU). It has been developed in close cooperation with the School of Social Sciences, Health and Physical Education at SOU. The SOU departments of psychology and sociology/anthropology offer an interdisciplinary bachelor's degree program focusing on the needs of human service professionals, a Bachelor of Arts or Science in Social Science.

RCC's Associate of Science (AS) degree is fully articulated with SOU's Human Service program and allows students to transfer directly as juniors into the program at SOU with no loss of credits to pursue a bachelor's degree.

Students should contact the SOU Human Services program early in the first year of the AS program to be advised about additional requirements and procedures for admission to the school or program. Students should be aware that if they transfer before completing this degree, courses will be evaluated individually toward the general education requirements in effect at SOU.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take the college placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with the courses within their skill levels as determined by the placement test scores. In addition, students may be required to enroll in courses that would increase their employability and success.

Prospective students should be aware of entry requirements of human services agencies prior to considering human services as a career choice. Practicum placement may require passing a criminal history background check. The inability to pass this check may preclude completion of the

program. Students in recovery seeking placement in substance abuse treatment programs may also be required to demonstrate two years' sobriety. More information is available from the Human Services Department.

Human Services is a limited-entry program requiring completion of an application that includes a writing sample and personal references. For more information on how to apply, including application deadlines, visit the Human Services website, www.rogucecc.edu/humanservices.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the department coordinator's approval. In order to ensure that coursework is current, program courses over seven years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Each College Now credit student must meet with a Human Services Department advisor to determine placement.

Graduation Requirements

Students must successfully complete all credits in this program with a grade of "C" or better and passing the counseling skills competency requirement as demonstrated through a series of video-taped counseling interviews, to receive their degrees. A total of 264 hours (8 credits) of documented practicum is required and a minimum of two practicum seminars must also be completed. For admission to the SOU Human Services program, RCC students who begin this degree fall term 2017 or later must earn a minimum grade of "C" in HS266, MTH243, PSY201, PSY202, PSY215, SOC204 and WR122.

Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites ¹

| Course No. | Course Title | Credits |
|------------|--|---------|
| SP111 | Fundamentals of Public Speaking | 4 |
| CS___ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ² | 0-4 |
| MTH63 | Applied Algebra I or MTH60 Fundamentals of Algebra I or designated placement test score ³ | 0-4 |
| PSY101 | Psychology of Human Relations | 3 |
| WR121 | English Composition I | 4 |

Total Prerequisite Credits **11-19**

General Education Requirements

| Course No. | Course Title | Credits |
|------------|---|---------|
| LIB127 | Introduction to Academic Research | 1 |
| MTH243 | Probability and Statistics with lab ³ | 4 |
| SOC204 | Introduction to Sociology | 4 |
| WR122 | English Composition II or WR227 Technical Writing | 4 |
| — | Approved humanities electives ⁴ | 9-12 |
| — | Approved science electives ⁵ | 11-15 |

Total General Education Requirements **33-40**

Core Requirements

| Course No. | Course Title | Credits |
|--------------------|------------------------------------|---------|
| First Term | | |
| HS100 | Introduction to Human Services | 3 |
| HS170 | Introduction to Practicum | 3 |
| PSY201 | General Psychology I | 4 |
| SOC243/CJ243 | Drugs, Crime and Addiction | 4 |
| Second Term | | |
| CG144 | Introduction to Assertiveness | 1 |
| HS152 | Stress Management | 1 |
| HS155 | Interviewing Theory and Techniques | 4 |

| | | |
|--------|--------------------------------------|---------------|
| HS175 | Ethics for Counselors | 1 |
| HS261D | Human Services Practicum and Seminar | 4 |
| PSY202 | General Psychology II | $\frac{4}{4}$ |
| | | 15 |

Third Term

| | | |
|--------|--|---------------|
| HE208 | HIV and Infectious Diseases | 1 |
| HS115 | Principles of Client Record Management | 1 |
| HS202 | Counseling the Chemically Dependent Client I | 3 |
| HS261D | Human Services Practicum and Seminar | 4 |
| HS158 | Trauma-informed Care: Theory and Practice | 3 |
| PSY215 | Life Span Human Development | $\frac{4}{4}$ |
| | | 16 |

Fourth Term

| | | |
|---------|---------------------------|---------------|
| HDFS260 | Child Abuse/Neglect | 3 |
| HS210 | Motivational Interviewing | $\frac{2}{6}$ |

Fifth Term

| | | |
|-------|--|----------------|
| HS260 | Group Counseling | 4 |
| HS266 | Crisis Intervention Strategies | 3 |
| HS268 | Co-occurring Disorders: Introductory Theory and Counseling | $\frac{2}{10}$ |

Sixth Term

| | | |
|--------|-----------------------------|---------------|
| HS265 | Counseling Theories | 3 |
| SOC230 | Introduction to Gerontology | $\frac{4}{7}$ |

Total Core Credits

68

TOTAL PROGRAM CREDITS

101-108

¹ Required for graduation.

² Successful completion of CS120 or otherwise meeting the proficiency requirement within the last 10 years fulfills this requirement. Contact a computer science adviser to help determine placement.

³ MTH95 or MTH96 prerequisite required before enrolling in MTH243.

4 Approved Humanities Electives

(Complete at least three courses from the following list, 9-12 credits.)

| Course No. | Course Title | Credits |
|------------------------|--|-----------|
| ART131 | Introduction to Drawing | 3 |
| ART204,205,206 | History of Art I, II, III | 4-4-4 |
| ENG104,105,106 | Introduction to Literature | 4-4-4 |
| ENG107,108,109 | World Literature | 4-4-4 |
| ENG201,202,203 | Shakespeare I, II, III | 4-4-4 |
| ENG204,205,206 | Survey of English Literature | 4-4-4 |
| ENG253,254,255 | Survey of American Literature | 4-4-4 |
| ENG257 | African American Literature | 4 |
| ENG260 | Introduction to Women Writers | 4 |
| ENG275 | The Bible as Literature | 4 |
| HUM101,102,103 | Introduction to Humanities | 4-4-4 |
| HUM215,216,217,218,219 | Native American Arts and Cultures | 4-4-4-4-4 |
| MUS105 | Music Appreciation | 3 |
| MUS108 | Music in World Cultures | 4 |
| MUS201 | Introduction to Western Music | 4 |
| MUS205 | History of Jazz | 3 |
| MUS206 | Introduction to Rock Music | 3 |
| MUS208 | Film Music | 3 |
| MUS261,262,263 | History of Western Music I, II, III | 4-4-4 |
| MUS264,265,266 | History of Rock I, II, III | 3-3-3 |
| PHL101,102,103 | Philosophical Problems/Ethics/Critical Reasoning | 4-4-4 |
| REL201 | World Religions | 4 |
| REL243 | Nature, Religion and Ecology | 4 |

| | | |
|-----------------|---|-------|
| SP115 | Introduction to Intercultural Communication | 4 |
| SPAN201,202,203 | Second Year Spanish I, II, III | 4-4-4 |
| TA141 | Fundamentals of Acting | 4 |
| WR241,242,243 | Imaginative Writing I, II, III | 4-4-4 |

5 Approved Science/Lab Science Electives

(Complete at least three courses from the following list, 11-15 credits – at least two courses must have labs. Note that only one course can be a regional field studies course indicated by asterisk.)

| Course No. | Course Title | Credits |
|-----------------------|---|-----------|
| BI100GB | Introductory Biology (non-lab course) | 3 |
| BI100SB | Biology of Human Body Systems (non-lab course) | 3 |
| BI101,102,103 | Introduction to Biology I, II, III with lab | 4-4-4 |
| BI121,122 | Elementary Anatomy and Physiology I, II with lab | 4-4 |
| BI211,212,213 | General Biology I, II, III with lab | 4-4-4 |
| BI231,232,233 | Anatomy and Physiology I, II, III with lab | 4-4-4 |
| BI234 | Microbiology with lab | 4 |
| BI272 | Introduction to Ecology with lab | 4 |
| CHEM104,105,106 | Introductory Chemistry I, II, III with lab and recitation | 5-5-5 |
| CHEM221,222,223 | General Chemistry I, II, III with lab and recitation | 5-5-5 |
| CS195 | Web Authoring I (HTML/CSS) (non-lab course) | 4 |
| G100 | Fundamentals of Geology (non-lab course) | 3 |
| G101,102,103 | Introduction to Geology I, II, III with lab | 4-4-4 |
| GEOG100 | Introduction to Physical Geography (non-lab course) | 3 |
| GS104,105,106,107,108 | Physical Science with lab | 4-4-4-4-4 |
| GS161 * | Regional Field Studies with lab | 4 |
| GS170 * | Regional Field Geology with lab | 4 |
| PH201,202,203 | General Physics I, II, III with lab and recitation | 5-5-5 |
| PH211,212,213 | General Physics (Calculus Based) I, II, III with lab and recitation | 5-5-5 |

Note: Students who have graduated from high school or completed a high school equivalency program in 1997 or after must have the following requirement for admission to a four-year Oregon university: 1) Two years of the same high school-level foreign language, or 2) two terms of college-level foreign language with a grade of "C" or better (may be first-year foreign language, which can be used as elective credits on the Associate of Arts Oregon Transfer degree). If students plan to complete a Bachelor of Arts (BA) degree at a four-year school, they must have a proficiency in a foreign language regardless of when they graduated from high school or equivalency program.

Industrial Mechanics and Maintenance Technology Apprenticeship

Associate of Applied Science Degree

About the Program

The Industrial Mechanics and Maintenance Technology Apprenticeship program is based on the Bureau of Labor and Industries (BOLI) Oregon State Apprenticeship Training Council and local Joint and Trades Apprenticeship Training Committee related training standards. It combines full-time, on-the-job work experience with trade-related theoretical instruction. The degree is available only to BOLI-registered apprentices. If you are interested in becoming a registered apprentice in an Oregon state apprenticeship program, contact Cathy Pierson at 541-245-7912. RCC supports these BOLI-ATD trades: airframe/power plant technician and boiler operator (4,000 hours); tool and die maker, millwright and motor winder (8,000 hours).

This AAS degree is a credential within Rogue Community College's Industrial Mechanics and Maintenance Technology Apprenticeship Pathway. The pathway model provides statewide transfer opportunities, ladder-type certificates of completion, and an optional transfer path into a bachelor's of science degree at Oregon Tech. If students intend to transfer to SOU's Bachelor of Applied Science degree program, transfer courses should be chosen from the list of electives where possible. See an advisor for more information or visit www.sou.edu/degreecompletion.

The degree features general education courses prescribed by Rogue Community College, related training credits previously earned in the certificate of completion, college credit for an earned journey-level card, and some industry electives. It also provides additional access to related training courses across the state for registered apprentices with aligned program outcomes, assessments and courses.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill level as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and approval of the department chair. Credits earned in the successful completion of Career Pathways certificates can be applied to other certificates and degrees in the Career Pathway. For more information, speak to a program advisor and review the roadmap at www.roguecc.edu/CareerPathways/.

Graduation Requirements

Students must complete all courses in this program with a grade of "C" or better to receive their degrees. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade. Students must also possess the appropriate Bureau of Labor and Industries Apprenticeship certificate and be recommended by the Joint Apprenticeship and Training Committee or Trades Apprenticeship and Training Committee. This degree does not guarantee licensure.

General Education Requirements

| Course No. | Course Title | Credits |
|------------|---|---------|
| BT101 | Human Relations in Organizations or PSY101 Psychology of Human Relations | 3 |
| CS ____ | Approved 3-4 credit computer science class, CS120 or above (or documented computer proficiency) ¹ | 0-4 |
| LIB127 | Introduction to Academic Research | 1 |
| MTH60 | Fundamentals of Algebra I or MTH63 Applied Algebra I or higher level math | 4 |
| WR115 | Introduction to Expository Writing ² | 3 |
| WR121 | English Composition I ² | 4 |
| HE112 | Emergency First Aid | 1 |

Total General Education Credits **16-20**

Credit for Prior Certification

(Work-based Learning) ³

| Course No. | Course Title | Credits |
|------------|---|---------|
| APRI05 | Apprenticeship Credit for Prior Learning • Airframe and Power Plant Technician – 16 credits • Boiler Operator – 11 credits • Tool and Die Maker – 22 credits • Millwright – 22 credits • Motor Winder – 22 credits | 11-22 |

Total Credit For Prior Certification **11-22**

Related Training

| Course No. | Course Title | Credits |
|------------|---|---------|
| — | Credit toward an Associate of Applied Science degree earned through related apprenticeship training classes in these trades: • Airframe and Power Plant Technician – 37 credits • Boiler Operator – 24 credits • Tool and Die Maker – 24 credits • Millwright – 34 credits • Motor Winder – 46 credits | 24-46 |

Approved Program Electives

| Course No. | Course Title | Credits |
|------------|---|---------|
| — | Any college-level course (numbered 100 or above) to meet minimum degree requirement | 2-39 |

MINIMUM TOTAL PROGRAM CREDITS REQUIRED **90**

¹ Successful completion of CS120 or otherwise meeting the proficiency requirement within the last 10 years fulfills this requirement.

² In lieu of WR115 and WR121, students may substitute BT113 Business English I and BT114 Business English II (8 credits total); or BT113 Business English I (or WR115 Introduction to Expository Writing) and three or four credits of speech (SP100 Basic Communication, SP111 Fundamentals of Public Speaking, or SP218 Interpersonal Communication), 6-8 credits total.

³ A maximum of 22 credits can be earned for documented work-based learning for registered apprentices and journey persons. Students must provide a State of Oregon Apprenticeship Training Journeyman card or BOLI-ATD certificate.

Industrial Welding Technology Associate of Applied Science Degree

About the Program

The Associate of Applied Science degree in Industrial Welding Technology is designed for students whose goals are to enter the job market as entry-level welders/fabricators. Upon completing the program, students will be qualified to test for certification to the American Welding Society (AWS) D1.1-06 Structural Steel Welding Codes and the AWS D1.3-08 Sheet Steel Welding Code. Students would also be able to test to certify as pipe welders to the American Society of Mechanical Engineers (ASME) Section IX Welding Code, and as Level I Entry Level and Level II Advanced Level Welder by the AWS EG2.0 and 3.0 welder training programs.

Additionally, students will have a good foundation in structural steel layout, pipefitting, and sheet metal pattern development. Students will also be prepared with mathematics and communication skills and be knowledgeable of the human relations skills necessary to become valuable employees in the industrial welding field.

If students intend to transfer to SOU's Bachelor of Applied Science degree program, transfer courses should be chosen from the list of electives where possible. See an advisor for more information or visit www.sou.edu/degreecompletion.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies. In order to ensure that coursework is current, program courses over seven years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. College Now credit will be accepted in accordance with current agreement. Verified industry experience may be substituted for some coursework in accordance with college policy and the department chair's approval.

Credits earned in the successful completion of Career Pathways certificates can be applied to other certificates and degrees in the Career Pathway. For more information, speak to a program advisor and review the roadmap at www.roguecc.edu/CareerPathways/.

Graduation Requirements

Students must complete all courses in this program with a grade of “C” or better to receive their degrees. Certain required courses are graded on a pass/no pass basis only. A grade of “P” for these courses indicates a student earned the equivalent of a “C” or better grade.

Industrial Welding Technology

Certificate of Completion

About the Program

Upon completion of this three-term certificate program, students will be qualified to test for certification to the American Welding Society (AWS) D1.1-06 Structural Steel and the AWS D1.3-08 Sheet Steel Welding Codes. Additionally, students will have a good foundation in structural steel fitting/layout, the basics of pipefitting, and the basics of sheet metal pattern development. Students will also be prepared with mathematics and communication skills, and be knowledgeable about the human relations necessary to become valuable employees in the industrial welding trades.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. Visit <http://www.rogucecc.edu/GainfulEmployment/> for more information.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies. In order to ensure that coursework is current, program courses over seven years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. College Now credit will be accepted in accordance with current agreement. Verified industry experience may be substituted for some coursework in accordance with college policy and the department chair's approval.

Credits earned in the successful completion of Career Pathways certificates can be applied to other certificates and degrees in the Career Pathway. For more information, speak to a program advisor and review the roadmap at www.rogucecc.edu/CareerPathways/.

Graduation Requirements

Students must complete all courses in this program with a grade of "C" or better to receive their certificates. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|------------|---|---------|
| BT113 | Business English I or WR115 Introduction to Expository Writing or higher level composition ^{1,2} | 3-4 |
| CS | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ^{1,3} | 0-4 |
| MTH20 | Pre-algebra or designated placement test score | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |

Total Prerequisite Credits **3-16**

Required Courses

| Course No. | Course Title | Credits |
|-------------------|--|---------|
| First Term | | |
| HE112 | Emergency First Aid | 1 |
| MET101 | Mechanical Drafting | 3 |
| MTH63 | Applied Algebra I or MTH60 Fundamentals of Algebra I or higher level math | 4 |
| WLD111 | Technology of Industrial Welding I | 6 |
| — | Approved program elective | 0-4 |
| | | 14-18 |

Second Term

| | | |
|--------|---|----|
| BT101 | Human Relations in Organizations or PSY101 Psychology of Human Relations | 3 |
| WLD104 | Blueprint Reading - Mechanical | 3 |
| WLD112 | Technology of Industrial Welding II | 6 |
| WLD221 | Welding Codes, Procedures and Inspections | 3 |
| | | 15 |

Third Term

| | | |
|--------|--------------------------------------|-------|
| WLD113 | Technology of Industrial Welding III | 6 |
| WLD121 | Fabrication and Repair Practices I | 5 |
| — | Approved program elective | 3-6 |
| | | 14-17 |

TOTAL PROGRAM CREDITS **43-50**

Approved Program Electives

(3-6 credits required)

| Course No. | Course Title | Credits |
|------------|--|---------|
| BA109 | Ready, Set, Work: Techniques for Landing a Job | 2 |

| | | |
|--------|---|----------|
| EET101 | Introduction to Electronics | 3 |
| GS104 | Physical Science with lab | 4 |
| MET121 | Computer Aided Drafting I: Mechanical (SolidWorks) | 3 |
| MET122 | Computer Aided Drafting II: Mechanical (SolidWorks) | 3 |
| MET123 | Computer Aided Drafting III: Mechanical (SolidWorks) | 3 |
| MET160 | Materials and Metallurgy | 3 |
| MFG121 | Manufacturing Processes I | 4 |
| MFG122 | Manufacturing Processes II | 4 |
| MFG123 | Manufacturing Processes III | 4 |
| WLD160 | American Welding Society (AWS) Certification Seminar: Plate | 1 |
| WLD230 | Introduction to Applied Motion | 4 |
| WLD250 | Selected Topics in Welding | variable |
| WLD260 | American Welding Society (AWS) Certification Seminar: Pipe | 1 |

¹ Required for graduation.

² Students who have successfully completed the 3-credit version of BT113 will have met the writing prerequisite.

³ Successful completion of CS120 or otherwise meeting the proficiency requirement within the last 10 years fulfills this requirement. Contact a computer science adviser to help determine placement.

Industrial Welding Technology: Welder's Helper Career Pathways Certificate

About the Program

The Welder's Helper Career Pathways two-term certificate program is designed to recognize students' accomplishments in welding and prepare them for entry-level work experiences in the welding industry. Students will be prepared with mathematics skills and the understanding of skills necessary to be valuable employees in the industrial welding trades. Credit from this certificate will transfer to the one-year Certificate of Completion and/or the Associate of Applied Science degree in Industrial Welding Technology.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies. In order to ensure that coursework is current, program courses over seven years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. High school College Now credit will be accepted in accordance with current agreement. Verified industry experience may be substituted for some coursework in accordance with college policy and the department chair's approval.

Credits earned in the successful completion of Career Pathways Certificates can be applied to other certificates and degrees in the Career Pathway. For more information, speak to a program advisor and review the roadmap at www.rogucecc.edu/CareerPathways/.

Completion Requirements

Students must complete all courses in this program with a grade of "C" or better to receive their pathways certificates. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Industrial Welding Technology: Welder's Helper Career Pathways Certificate (25 credits)

- Entry-level work experiences in the welding industry ¹

Industrial Welding Technology Certificate of Completion (43-50 credits)

- Welding, soldering, and brazing machine setters, operators, and tenders so you can set up, operate, or tend welding, soldering, or brazing machines or robots that weld, braze, solder, or heat treat metal products, components, or assemblies. Include workers who operate laser cutters or laser-beam machines ¹

Industrial Welding Technology Associate of Applied Science (AAS) (93-97 credits)

- Welder/fabricator, pipe welder, equipment repairer, cutter, solder, and brazier ¹

Management SOU, Bachelor of Applied Science articulated with RCC's AAS degrees

- Supervisor/manager ¹
- Business owner ¹

¹ For current wage and gainful employment data, see the Jobs & Wages box within the specific program roadmap at www.rogucecc.edu/CareerPathways/

Prerequisites

| Course No. | Course Title | Credits |
|-----------------------------------|--|-------------|
| MTH20 | Pre-algebra or designated placement test score | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |
| WR90 | Fundamentals of Composition or designated placement test score | 0-4 |
| Total Prerequisite Credits | | 0-12 |

Required Courses

| Course No. | Course Title | Credits |
|------------------------------|--|-----------|
| MET101 | Mechanical Drafting | 3 |

Information Technology/ Health Informatics Option Transfer to Oregon Tech Associate of Science Degree

About the Program

This Associate of Science (AS) degree is based on a signed articulation agreement with Oregon Tech. The program is designed for students transferring to its baccalaureate degree program in Information Technology/Health Informatics Option. Students must work closely with advisors in their areas of interest to ensure electives are appropriate. The curriculum allows for 48 core credits within the major area. By completing all appropriate credits (including electives), students will fulfill required lower division coursework for transfer to Oregon Tech.

Students should be aware, however, that if they transfer before completing this degree, their courses will be evaluated individually toward the transfer requirements of the college of their choice.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited universities will be accepted in accordance with college policies. In order to ensure that coursework is current, program courses over five years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements.

Graduation Requirements

The Associate of Science degree will be awarded to students who complete all credits in this program with a grade of "C" or better. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|------------|--|---------|
| CS___ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ¹ | 0-4 |
| MTH95 | Intermediate Algebra or designated placement test score | 0-4 |
| WR115 | Introduction to Expository Writing or designated placement test score | 0-3 |

Total Prerequisite Credits: 0-11

General Education Requirements

| Course No. | Course Title | Credits |
|------------|--|---------|
| AH100 | Medical Terminology: Introduction | 3 |
| BI102 | Introduction to Biology II with lab | 4 |
| ECON201 | Principles of Microeconomics | 4 |
| ECON202 | Principles of Macroeconomics | 4 |
| LIB127 | Introduction to Academic Research | 1 |
| MTH243 | Probability and Statistics w/lab | 4 |
| MTH244 | Inferential Statistics | 4 |
| MTH111 | College Algebra | 4 |
| PSY201 | General Psychology I | 4 |
| SP111 | Fundamentals of Public Speaking | 4 |
| WR121 | English Composition I | 4 |
| WR122 | English Composition II | 4 |
| WR227 | Technical Writing | 4 |
| — | Approved humanities electives ² | 9-12 |

Total General Education Requirements 57-60

Core Requirements

| Course No. | Course Title | Credits |
|------------|--|---------|
| BA206 | Management Fundamentals | 3 |
| BA211 | Financial Accounting | 4 |
| BA213 | Managerial Accounting | 4 |
| BA223 | Principles of Marketing | 3 |
| CS125DB | Data Base Management Systems | 3 |
| CS125SS | Spreadsheet Applications or BA285 Advanced Business Applications: Excel | 4 |
| CS140 | Operating Systems | 4 |
| CS179 | Introduction to Networks | 4 |
| CS133C# | Programming Fundamentals Using C# | 4 |
| CS227 | PC Hardware Fundamentals and Repair | 5 |
| CS275 | Data Base Development I | 4 |
| HCI120 | Introduction to Health Care Industry | 3 |
| HCI255 | Introduction to Health Care Informatics | 2 |

Total Core Credits 48

TOTAL PROGRAM CREDITS 105-108

¹ Successful completion of CS120 or otherwise meeting the proficiency requirement within the last 10 years fulfills this requirement. Contact a computer science adviser to help determine placement.

2 Approved Humanities Electives

(Complete at least three courses from the following list, 9-12 credits. A maximum of three performance or studio-based credits indicated by an asterisk are allowed.)

| Course No. | Course Title | Credits |
|------------------------|--|-----------|
| ART115,116* | Basic Design (Composition/Color Theory) | 3-3 |
| ART131,132,133* | Introduction to Drawing | 3-3-3 |
| ART204,205,206 | History of Art I, II, III | 4-4-4 |
| ART234,235,236* | Figure Drawing I, II, III | 3-3-3 |
| ART237,238,239* | Illustration | 3-3-3 |
| ART281,282,283* | Painting I, II, III | 3-3-3 |

| ENG201,202,203 | Shakespeare I, II, III | 4-4-4 |
| ENG204,205,206 | Survey of English Literature | 4-4-4 |
| ENG253,254,255 | Survey of American Literature | 4-4-4 |
| ENG257 | African American Literature | 4 |
| ENG260 | Introduction to Women Writers | 4 |
| ENG275 | The Bible as Literature | 4 |
| HUM101,102,103 | Introduction to Humanities | 4-4-4 |
| HUM215,216,217,218,219 | Native American Arts and Cultures | 4-4-4-4-4 |
| MUS101 | Music Fundamentals | 3 |
| MUS105 | Music Appreciation | 3 |
| MUS108 | Music in World Cultures | 4 |
| MUS111,112,113 | Music Theory and Aural Skills I, II, III | 4-4-4 |
| MUS201 | Introduction to Western Music | 4 |
| MUS205 | History of Jazz | 3 |
| MUS206 | Introduction to Rock Music | 3 |
| MUS208 | Film Music | 3 |
| MUS211,212,213 | Music Theory and Aural Skills IV, V, VI | 4-4-4 |
| MUS261,262,263 | History of Western Music I, II, III | 4-4-4 |
| MUS264,265,266 | History of Rock I, II, III | 3-3-3 |
| PHI101,102,103 | Philosophical Problems/Ethics/Critical Reasoning | 4-4-4 |
| REL201 | World Religions | 4 |
| REL243 | Nature, Religion and Ecology | 4 |
| SPAN201,202,203 | Second Year Spanish I, II, III | 4-4-4 |

Note: Students who have graduated from high school or completed a high school equivalency program in 1997 or after must have the following requirement for admission to a four-year Oregon university:
1) two years of the same high school-level foreign language; or 2) two terms of college-level foreign

language with a grade of "C" or better (may be first-year foreign language, which can be used as elective credits on the Associate of Arts Oregon Transfer degree). If students plan to complete a Bachelor of Arts (BA) degree at a four-year school, they must have a proficiency in a foreign language regardless of when they graduated from high school or equivalency program.

Manufacturing/Engineering Technology

Associate of Applied Science Degree

About the Program

This two-year program integrates conventional manufacturing techniques with computer integrated manufacturing skills. Computer aided drafting (CAD) and computer aided manufacturing (CAM) are used as basic tools in the manufacturing engineering process. In addition to technical training, students receive a solid education in mathematics and physical science, along with human relations and computer skills courses.

Graduates typically enter the workforce as computer aided design drafters, entry-level machinists, or computer numerical control (CNC) machine operators or engineering assistants. With additional on-the-job experience, this training facilitates movement into fields such as tool and die maker, quality control inspector, computer aided manufacturing (CAM) programmer, or lower-level supervisory positions. For transfer to a four-year institution in engineering, additional or alternate transfer courses will be recommended.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. Students must also complete any prerequisites on this guide. As part of their training program, students must begin with courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college registration policies and with the Manufacturing/Engineering Technology Department chair's recommendation. In order to ensure that coursework is current, program courses over four years old must be reviewed and approved by the appropriate program coordinator before being accepted toward core requirements. Students must complete coursework in their major at a "C" or better level before proceeding to advanced coursework. Each College Now credit student must meet with the program coordinator to determine placement.

Credits earned in the successful completion of Career Pathways certificates can be applied to other certificates and degrees in the Career Pathway. For more information, speak to a program advisor and review the roadmap at www.roguecc.edu/CareerPathways/.

Graduation Requirements

Students are required to complete all courses in this program with a grade of "C" or better to receive their degrees. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

Manufacturing/Engineering Technology: Computer Numerical Control (CNC) Operator Career Pathways Certificate

About the Program

This Career Pathways two-term certificate integrates conventional manufacturing techniques with computer numerical control (CNC) manufacturing skills. This training is the entry point in the Manufacturing Career Pathway leading to the Computer Numerical Control (CNC) Technician program and to a valuable career in the manufacturing engineering technology field. In addition to technical training, students receive a solid foundation in mathematics and computer skills. Graduates typically enter the workforce as computer numerical control (CNC) operators. With additional on-the-job experience and continued education, students can transition into CNC programming and quality control inspection.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit <http://www.rogucecc.edu/GainfulEmployment>.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. Students must also complete any prerequisites. As part of their training program, students must begin with courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Manufacturing and Engineering Technology Department chair's recommendation. In order to ensure that coursework is current, program courses over four years old must be reviewed and approved by the appropriate program coordinator before being accepted toward core requirements. Official transcripts must be filed with the Enrollment Services Office and the Manufacturing/Engineering Technology Department.

Credits earned in the successful completion of Career Pathways certificates can be applied to other certificates and degrees in the Career Pathway. For more information, speak to a program advisor and review the roadmap below and at <http://www.rogucecc.edu/CareerPathways/>.

**Computer Numerical Control (CNC) Operator
Career Pathways Certificate of Completion (28-29 credits)**

- Machine operator (Multiple machine tool setters, operators, and tenders, metal and plastic)¹
- Computer-controlled machine tool operators (metal and plastic)¹

**Computer Numerical Control (CNC) Technician
Certificate of Completion (51-53 credits)**

- Computer Numerical Control (CNC) Technician¹
- Computer Aided Drafter/Designer (CAD)¹
- Entry-level machinist¹

Completion Requirements

Students must complete all courses in this program with a grade of "C" or better to receive their certificates. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

**Manufacturing/ Engineering Technology – Articulated Associate of Science (AS)
Degree (105-108 credits), Transfers to Oregon Tech (OT)**

- Mechanical engineering technician¹
- Machinist¹
- Engineering assistant¹

**Manufacturing/ Engineering Technology – Associate of Applied Science (AAS)
Degree (101-108 credits)**

- Mechanical engineer¹
- Manufacturing engineer¹
- Industrial engineer¹
- Materials engineer¹

**Articulated with OT's Mechanical
Engineering Technology program
Bachelor of Science (BS)**

- Mechanical engineer¹
- Manufacturing engineer¹
- Industrial engineer¹
- Materials engineer¹

**Management, SOU, Bachelor of Applied
Science articulated with RCC's AAS
degree**

- Supervisor/Manager¹
- Business owner¹

Manufacturing Engineering OT's Master of Science

- Engineering manager¹
- Natural science manager¹

¹ For current wage and gainful employment data, see the Jobs & Wages box within the specific program roadmap at www.roguecc.edu/CareerPathways/

Prerequisites

| Course No. | Course Title | Credits |
|------------|--|---------|
| MTH20 | Pre-algebra or designated placement test score | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |
| WR90 | Fundamentals of Composition or designated placement test score | 0-4 |

Total Prerequisite Credits 0-12

Required Courses

| Course No. | Course Title | Credits |
|-------------------|--------------------------------|---------|
| First Term | | |
| MET101 | Mechanical Drafting | 3 |
| MET105 | Blueprint Reading - Mechanical | 3 |
| MFG116 | Metrology | 2 |
| MFG121 | Manufacturing Processes I | 4 |

| | | |
|-------|--|---------|
| MTH63 | Applied Algebra I or MTH60 Fundamentals of Algebra I or higher level math | 4 16 |
|-------|--|---------|

Second Term

| | | |
|--------|---|--------------|
| MET121 | Computer Aided Drafting I: Mechanical (SolidWorks) | 3 |
| MFG122 | Manufacturing Processes II | 4 |
| MFG140 | CNC Controls | 2 |
| WR115 | Introduction to Expository Writing or BT113 Business English I or higher level composition | 3-4 12-13 |

TOTAL PROGRAM CREDITS 28-29

Manufacturing/Engineering Technology: Computer Numerical Control (CNC) Technician Certificate of Completion

About the Program

This three-term certificate program integrates conventional manufacturing techniques with computer numerical control (CNC) manufacturing skills. Computer aided drafting (CAD) is used as a basic tool in the manufacturing engineering process. In addition to technical training, students receive a solid education in mathematics, along with human relations and computer skills courses. Graduates typically enter the workforce as computer numerical control (CNC) technicians or computer aided design drafters. With additional on-the-job experience, this training facilitates movement into fields such as quality control inspector and CNC programmer. This certificate completes the first-year requirements for RCC's Manufacturing and Engineering Technology AAS degree program.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.roguecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. Students must also complete any prerequisites. As part of their training program, students must begin with courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Manufacturing and Engineering Technology Department chair's recommenda-

tion. In order to ensure that coursework is current, program courses over four years old must be reviewed and approved by the appropriate program coordinator before being accepted toward core requirements. Official transcripts must be filed with the Enrollment Services Office and the Manufacturing/Engineering Technology Department.

Credits earned in the successful completion of Career Pathways Certificates can be applied to other certificates and degrees in the Career Pathway. For more information, speak to a program advisor and review the roadmap at www.roguecc.edu/CareerPathways/.

Graduation Requirements

Students must complete all courses in this program with a grade of "C" or better to receive their certificates. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|-----------------------------------|--|-------------|
| CS__ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ¹ | 0-4 |
| MTH20 | Pre-algebra or designated placement test score | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |
| WR90 | Fundamentals of Composition or designated placement test score | 0-4 |
| Total Prerequisite Credits | | 0-16 |

Required Courses

Manufacturing/Engineering Technology Transfer to Oregon Tech Associate of Science Degree

About the Program

Based on a signed articulation agreement, Rogue Community College and Oregon Tech offer an Associate of Science degree for students who want to pursue a bachelor's degree in manufacturing. This degree was developed as a cooperative venture between Oregon Tech and RCC, and offers knowledge and application components drawn from curriculum at both institutions.

The Associate of Science degree transfers directly into the bachelor's degree program at Oregon Tech in Manufacturing/Engineering Technology and graduates are guaranteed junior standing in the program.

Students must work closely with their advisors to ensure transferability of this program. If students transfer before completing this degree or transfer in a major not covered by prior agreements, their courses will be evaluated individually toward the transfer requirements of the college of their choice. Students are advised to obtain written approval from Oregon Tech to guarantee their catalog of transfer for three years.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited universities will be accepted in accordance with college policies. In order to ensure that coursework is current, program courses over four years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements.

Graduation Requirements

The Associate of Science degree will be awarded to students who complete all credits in this program with a grade of "C" or better. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|-----------------------------------|--|-------------|

| MUS111,112,113 | Music Theory and Aural Skills I, II, III | 4-4-4 |
| MUS201 | Introduction to Western Music | 4 |
| MUS205 | History of Jazz | 3 |
| MUS206 | Introduction to Rock Music | 3 |
| MUS208 | Film Music | 3 |
| MUS211,212,213 | Music Theory and Aural Skills IV, V, VI | 4-4-4 |
| MUS261,262,263 | History of Western Music I, II, III | 4-4-4 |
| MUS264,265,266 | History of Rock I, II, III | 3-3-3 |
| PHL101,102,103 | Philosophical Problems/Ethics/Critical Reasoning | 4-4-4 |
| REL201 | World Religions | 4 |
| REL243 | Nature, Religion and Ecology | 4 |
| SPAN201,202,203 | Second Year Spanish I, II, III | 4-4-4 |

³ Approved Social Science Electives

(Complete at least one course from the following list, 3-4 credits.)

| Course No. | Course Title | Credits |
|---------------|---|---------|
| ANTH110,150 | Introduction to Cultural Anthropology/Archaeology | 4-4 |
| CJ100 | Foundations and Ethics in Criminal Justice | 4 |
| CJ101/SOC244 | Introduction to Criminology | 4 |
| CJ110 | Introduction to Law Enforcement | 4 |
| CJ120 | Introduction to the Judicial Process | 4 |
| CJ130 | Introduction to Corrections | 4 |
| CJ201/SOC221 | Juvenile Delinquency | 4 |
| CJ214 | Crime, Justice and Diversity | 4 |
| CJ243/SOC243 | Drugs, Crime and Addiction | 4 |
| ECON201,202 | Principles of Microeconomics/Macroeconomics | 4-4 |
| GEOG110 | Introduction to Cultural and Human Geography | 3 |
| GEOG120 | World Regional Geography | 3 |
| HST104,105 | History of World Civilization I, II | 4-4 |
| HST201,202 | History of the United States I, II | 4-4 |
| IS111 | Introduction to International Studies II | 3 |
| PS201,202,203 | U. S. Government I, II, III | 3-3-3 |
| PSY101 | Psychology of Human Relations | 3 |
| PSY119 | Psychology of Personal Growth | 4 |
| PSY201,202 | General Psychology I, II | 4-4 |
| PSY219 | Introduction to Abnormal Psychology | 4 |
| PSY231 | Human Sexuality | 3 |
| SOC204,205 | Introduction to Sociology, American Society | 4-4 |
| SOC211 | Social Deviance and Social Control | 3 |
| SOC213 | Race and Ethnicity in the U.S. | 4 |
| SOC218 | Sociology of Gender | 4 |

| | | |
|--------|-----------------------------|---|
| SOC225 | Social Problems | 4 |
| SOC228 | Environment and Society | 4 |
| SOC230 | Introduction to Gerontology | 4 |

Note: Students who have graduated from high school or completed a high school equivalency program in 1997 or after must have the following requirement for admission to a four-year Oregon university: 1) Two years of the same high school-level foreign language, or 2) two terms of college-level foreign language with a grade of "C" or better (may be first-year foreign language, which can be used as elective credits on the Associate of Arts Oregon Transfer degree). If students plan to complete a Bachelor of Arts (BA) degree at a four-year school, they must have a proficiency in a foreign language regardless of when they graduated from high school or equivalency program.

Massage Therapy Certificate of Completion

Fall 2018 Program Admission

About the Program

The Massage Therapy four-term certificate program provides a comprehensive combination of classroom and hands-on experience in massage therapy. The courses and total hours meet the requirements for licensure application to the Oregon Board of Massage Therapists and the Federation of State Massage Therapy Board's Licensing Examination. Oregon law, however, sets the qualifications for certification of applicants. Grounds for denial of state licensure include physical or mental conditions that would make an applicant unable to safely conduct a massage, or conviction of a crime that bears a demonstrable relationship to the practice of massage. See Oregon Law 687.081.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

If students intend to transfer to Oregon Tech's bachelor's degree in Allied Health Management after successfully passing the registry or licensure exam, transfer courses should be chosen from the list of electives where possible. See an advisor for more information or visit www.oit.edu/academics/degrees/health-care-management.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.rogucecc.edu/GainfulEmployment.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Massage Therapy is a limited-entry program. Interested applicants must attend a mandatory massage therapy information session. The timeline for submitting program application materials for fall 2018 admission is April 1-June 24, 2018. Applicants will be accepted on a first-come, first-served basis once prerequisites are completed. It is recommended that students receive varicella-zoster, rubella, Hepatitis A, and Hepatitis B series immunizations prior to entering the program. A tuberculin test, drug and alcohol test, and a criminal background check may be required for Cooperative Work Experience activities. Students are required to buy massage student liability insurance prior to enrolling in MT102 (approximately \$45). Students must attend a mandatory orientation prior to the beginning of fall term.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Massage Therapy Department chair's approval. Sealed official transcripts and a transfer credit evaluation request must be submitted to RCC's Enrollment Services Office by May 1 to be considered in the application process. The transfer credit evaluation request may only be submitted online.

Graduation Requirements

Students completing all credits in this program with a grade of "C" or better will receive their certificates. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade. Credits earned in this program can be applied to the Associate of General Studies degree.

Prerequisites

| Course No. | Course Title | Credits |
|-----------------------------------|---|-------------|
| CG100 | College Success and Survival or transcript showing at least 36 college credits with at least a 2.0 cumulative GPA | 0-2 |
| MTH20 | Pre-algebra or designated placement test score | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |
| WR115 | Introduction to Expository Writing or BT113 Business English I or higher level composition ¹ | 3-4 |
| Total Prerequisite Credits | | 3-14 |

Math Interest

Associate of Arts Oregon Transfer Degree

A total of 90 credits are required to complete the Associate of Arts Oregon Transfer (AAOT) degree and the courses listed below are only meant to serve as a guide of recommended choices within categories required in the AAOT framework. See the AAOT graduation guide for full degree requirements. It is recommended that a student also consult with the transfer college of choice regarding specific prerequisites since requirements for a math major vary at each university.

| Course No. | Course Title | Credits | AAOT Category |
|------------------|---|---------|---------------|
| MTH111 | College Algebra | 4 | Math |
| MTH112 | Elementary Functions | 4 | Math |
| MTH211, 212, 213 | Fundamentals of Elementary Math I, II, III* | 5 | Elective |
| MTH243 | Probability & Statistics | 4 | Math |
| MTH251 | Calculus I | 5 | Math |
| MTH252 | Calculus II | 5 | Math |
| MTH253 | Calculus III | 5 | Math |
| MTH254 | Vector Calculus | 5 | Math |
| MTH256 | Differential Equations | 5 | Math |
| MTH261 | Linear Algebra with lab | 5 | Math |
| WR227 | Technical Writing | 4 | Elective |

*For students interested in teaching.

Note: Two math courses required between the science and math categories. Additional courses would count as electives.

Mechatronics

Associate of Applied Science Degree

About the Program

Today's manufacturing industry uses robots and other advanced fabrication and assembly equipment to produce a wide variety of products. All of these systems rely on digital controls including programmable logic controllers. Mechatronics technicians calibrate, troubleshoot, and repair both the equipment and the controllers. Mechatronic technicians in southern Oregon are needed by manufacturers in the food processing, wood products, and metal fabrication industries. Typical positions include industrial engineering technician and manufacturing maintenance technician. The program can also provide preparation for apprenticeship programs leading to a variety of licensed journey positions.

This program is pending approval by the Higher Education Coordinating Commission. For more information contact the Manufacturing and Engineering Technology Department:
 Grants Pass or Medford 541-245-7902
 Toll free in Oregon 800-411-6508, Ext. 7902

Mechatronics Certificate of Completion

About the Program

Today's manufacturing industry uses robots and other advanced fabrication and assembly equipment to produce a wide variety of products. All of these systems rely on digital controls including programmable logic controllers. Mechatronics technicians calibrate, troubleshoot, and repair both the equipment and the controllers. Mechatronic technicians in southern Oregon are needed by manufacturers in the food processing, wood products, and metal fabrication industries.

The Mechatronics Specialist three-term certificate prepares students for entry-level positions in today's fast-paced manufacturing environment. Typical positions for graduates of the certificate program include maintenance technician and mechatronics assistant. Completion of the certificate also completes the first three terms of the Mechatronics AAS degree. Certificate completion can also lead to entry into apprenticeship training.

This program is pending approval by the Higher Education Coordinating Commission. For more information contact the Manufacturing and Engineering Technology Department:
 Grants Pass or Medford 541-245-7902

Medical Administrative Assistant Certificate of Completion

About the Program

The two-term Medical Administrative Assistant program will prepare students for entry-level employment in a healthcare setting. Medical administrative assistants are in many ways similar to other administrative assistants, but they have specialized knowledge about healthcare and the specifics about the type of practice for which they work. They are an essential part of running an efficient medical practice. Effective communication with both patients and medical staff, medical terminology, insurance and billing cycles, and general office procedures are included in this program. Students completing this program will be prepared to take the national Certified Medical Administrative Assistant (CMAA) exam, although certification is not an employment requirement at this time.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.roguecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Medical Administrative Assistant is a cohort-based program and enrollment is limited. Students are required to take a placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. Cohort students must meet certain minimum academic requirements (MTH20, RD90 and WR90 or designated placement scores) before starting the program. Visit www.roguecc.edu/alliedhealth/maa for program application details.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the program coordinator's recommendation. In order to ensure coursework is current, program courses over seven years old must be reviewed and approved by the appropriate program coordinator before being accepted toward core requirements. College Now credit earned in conjunction with local high schools will be accepted in accordance with the current agreement.

Graduation Requirements

These requirements apply only to students admitted to the program during the 2017-18 academic year. Students contemplating admission in a later year may have different requirements and must obtain the graduation guide or catalog for that year. Students must complete all courses on this graduation guide with a grade of "C" or better to continue in and complete the program and receive their certificates. If certain required courses are graded only on a pass/no pass basis, a grade of "P" for these courses indicate a student earned the equivalent of a "C" or better grade.

Prerequisites

Medical Assistant Certificate of Completion

About the Program

Medical assistants are health care practitioners qualified by education, experience, and examination to assist doctors in the performance of patient care, examination, and documentation. These multi-skilled practitioners, under the supervision of a physician, perform or assist in taking patient vitals, front office medical administrative tasks, back office clinical procedures, and ECG testing. Medical assistants are the face of medical offices and are often the first people with whom patients come into contact. They may perform basic medical coding and billing, scheduling, and patient flow and triage. Other duties may include waive testing, phlebotomy and specimen collection. Medical assistants are responsible for recording patient information into the electronic medical records systems and must be able to master various computer software programs.

Successful completion of this three-term program prepares students to be eligible for the Certified Medical Assistant (CCMA) exam through the National Healthcareer Association (NHA), or other national medical assisting accrediting agencies, and the American Society of Clinical Pathologists (ASCP) phlebotomy certification exam. Since January 2015, most medical practices require medi-

cal assistants to have a national certification. The phlebotomy certification is not required but will strongly improve employability. The curriculum for the program is based on the standards and guidelines for the CMA and ASCP phlebotomy certifications, which can be reviewed on the following websites: NHA www.nhanow.com and ASCP www.ascp.org/. Students attend classes as part of a cohort structure and most courses will be offered online or in the evening.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.roguecc.edu/GainfulEmployment. The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Students may opt to continue their education by transferring to Oregon Tech for a bachelor's degree in Healthcare Management with a clinical option or by completing additional requirements and applying to the Nursing program at either RCC or Oregon Health and Science University.

Entry Requirements/Application Process

This is a competitive-entry program because of limited clinical space in medical offices as well as the delicate balance of job opportunities in medical assisting. Enrollment is limited. Students are required to take a placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. Cohort students must meet certain minimum academic requirements (CS120, MTH60 or MTH63, RD90, and WR115 or designated placement test scores) before the program start date.

Program admission occurs two times per year. Visit www.roguecc.edu/alliedhealth/ma for program application details. Students must show evidence of beginning the Hepatitis B immunization series during the first term or sign a waiver acknowledging the risk factors involved without the immunization. They must complete all health and immunization requirements and background check prior to starting the program, and a drug screen prior to starting practicum experience. This screening process is through Certified Background and has an associated fee. Contact the Allied Health Department for more information.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the program coordinator's recommendation. In order to ensure coursework is current, program courses over seven years old must be reviewed and approved by the appropriate department coordinator before being accepted toward core requirements. College Now credit earned in conjunction with local high schools will be accepted in accordance with the current agreement.

Graduation Requirements

These requirements apply only to Medical Assistant students admitted to the program during the 2016-17 academic year. The program of study, graduation requirements, and courses are under constant review and are subject to revision. Students contemplating admission in a later year may have different requirements and must obtain the graduation guide or catalog for that year. Students must complete all courses on this graduation guide with a grade of "C" or better to continue in and complete the program and receive their certificates. If certain required courses are graded only on a pass/no pass basis, a grade of "P" for these courses indicate a student earned a the equivalent of a "C" or better grade.

Medical Assistant: Phlebotomy Career Pathways Certificate

About the Program

The phlebotomy program is a one-term program that prepares students to become licensed phlebotomists. Phlebotomists use proper prioritization procedures and coordinate collection of all phlebotomy specimens with other lab personnel. They must consistently provide phlebotomy services appropriate to the age and condition of patients to minimize re-draws (i.e., proper amounts, correct samples) and must strictly adhere to patient identification protocols as specified by regulatory requirements. This includes demonstrating knowledge of all patient safety precautions such as isolations and safety devices. In this role, it is important to use independent judgment in following established venipuncture procedures along with the ability to inspire confidence in, and communicate effectively with, unit secretaries, therapists, medical staff and visitors. This means demonstrating composure and organizational skills in handling crisis situations and effectively handling multiple tasks simultaneously in times of heavy workload.

Classes will be delivered in the evening and online. Successful completion of the program prepares students to sit for the American Society of Clinical Pathologists (ASCP) phlebotomy certification exam. Students do not automatically become certified through this program but may take the appropriate tests through ASCP after completing the program. The curriculum was written using the standards and guidelines for the ASCP phlebotomy certifications and can be reviewed at www.ascp.org.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements/Application Process

Program admission occurs once per year. Visit www.rogucecc.edu/alliedhealth/phleb for program application details. All program prerequisite/preparatory courses must be completed with a grade of "C" or better by the start of the program to be considered eligible. All applications will be date stamped and reviewed in the order received. Applicants will be selected by committee on criteria developed in advance.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the program coordinator's recommendation. In order to ensure coursework is current, program courses over seven years old must be reviewed and approved by the appropriate coordinator before being accepted toward core requirements. College Now credit earned in conjunction with local high schools will be accepted in accordance with the current agreement.

Medical Coding Specialist Certificate of Completion

About the Program

The Medical Coding Specialist three-term certificate program prepares students for work in entry-level coding positions in outpatient healthcare settings. For the rapidly expanding field, students will focus on developing an understanding of the concepts of the billing cycle, the language of medicine, and the ability to apply both to professional coding standards. Instruction concentrates on the areas of anatomy and physiology, medical terminology, pharmacology, laboratory medicine, medical finance, and coding. Coders are required to extract medical documentation from patients' charts and correlate the diagnosis and procedures performed into numerical code numbers. Students completing this program will be prepared to take the Certified Professional Coder (CPC) exam through the AAPC or the Certified Coding Associate (CCA) exam through the American Health Information Management Association (AHIMA), although certification is not an employment requirement at this time.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational

Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.rogucecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Medical Coding Specialist is a cohort-based program. Enrollment is limited. Students are required to take a placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. Cohort students must meet certain minimum academic requirements (MTH20, RD90, and WR90 or designated placement scores) before starting the program. Please visit www.rogucecc.edu/alliedhealth/mcs for program application details.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the program coordinator's recommendation. In order to ensure coursework is current, program courses over seven years old must be reviewed and approved by the appropriate program coordinator before being accepted toward core requirements. Microcontroller Systems Technician Certificate of Completion

About the Program

The Microcontroller Systems Technician four-term certificate is designed for students seeking entry-level positions servicing, upgrading, and repairing personal computer and microcontroller-based equipment. The coursework emphasizes electronics studies aimed at the hardware portion of the field as well as computer science courses involving operating systems, networking, and related software applications.

Technical courses involve lecture, lab work, and real-world experience in the lab using industry standard test equipment and practices. This program will help students gain skills for entry into one of today's most dynamic occupations. Typical occupations include those of PC/microcontroller support technicians, network specialists, microcomputer technicians, and field service technicians. Training also provides excellent positioning for lateral movement into areas such as technical sales or technical writing. Certificate courses are aligned for continuation into the Electronics Technology AAS degree and Computer Engineering Technology AS degree for transfer to Oregon Institute of Technology.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit <http://www.rogucecc.edu/GainfulEmployment>.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with courses within their skill

levels as determined by placement test scores. Students are also required to complete any prerequisites listed. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Electronics Technology Department chair's recommendation. In order to ensure that coursework is current, program courses over three years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Official transcripts must be filed with Enrollment Services and the Electronics Technology Department.

Graduation Requirements

Students must complete all courses in this program with a grade of "C" or better to receive their certificates. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|------------|--|---------|
| CS ____ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ¹ | 0-4 |
| MTH20 | Pre-algebra or designated placement test score | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |
| WR90 | Fundamentals of Composition or designated placement test score | 0-4 |

Total Prerequisite Credits 0-16

Required Courses

| Course No. | Course Title | Credits |
|--------------------|--|---------|
| First Term | | |
| EET112 | Introduction to Mechatronics | 5 |
| MTH63 | Applied Technical Math/Applied Algebra I or MTH60 Fundamentals of Algebra I or higher level math | 4-5 |
| WR115 | Introduction to Expository Writing or higher level composition | 3-4 |
| | | 12-14 |
| Second Term | | |
| EET125 | Electronics Fundamentals I | 6 |
| HE112 | Emergency First Aid or approved health elective (see catalog for approved list of electives) | 1-3 |
| PSY101 | Psychology of Human Relations or BT101 Human Relations in Organizations | 3 |
| — | Approved program elective(s) | 0-2 |
| | | 10-14 |
| Third Term | | |
| CS227 | PC Hardware Fundamentals and Repair | 5 |
| EET130 | Digital Fundamentals I | 6 |

Music Interest

Associate of Arts Oregon Transfer Degree

A total of 90 credits are required to complete the Associate of Arts Oregon Transfer (AAOT) degree and the courses listed below are only meant to serve as a guide of recommended choices within categories required in the AAOT framework. See the AAOT graduation guide for full degree requirements. It is recommended that a student also consult with the transfer college of choice regarding specific prerequisites since requirements for a music major vary at each university.

| Course No. | Course Title | Credits | AAOT Category |
|------------|-----------------------------------|---------|---------------|
| MTH111 | College Algebra | 4 | Math |
| MUS111 | Music Theory and Aural Skills I | 4 | Elective |
| MUS112 | Music Theory and Aural Skills II | 4 | Elective |
| MUS113 | Music Theory and Aural Skills III | 4 | Elective |
| MUS201 | Introduction to Western Music | 4 | Humanities |
| MUS211 | Music Theory and Aural Skills IV | 4 | Elective |
| MUS212 | Music Theory and Aural Skills V | 4 | Elective |
| MUS213 | Music Theory and Aural Skills VI | 4 | Elective |

Nursing

Associate of Applied Science Degree

Fall Term 2018 Program Admission

About the Program

RCC is a member of the Oregon Consortium for Nursing Education (OCNE) and offers a competency-based curriculum jointly developed by nursing faculties from the eleven community college and Oregon Health and Science University (OHSU) consortium partners. The core competencies address the need for nurses to be skilled in clinical judgment and critical thinking; evidence-based practice; relationship-centered care; interdisciplinary collaboration; assisting individuals and families in self-care practices for promotion of health and management of chronic and acute illness; end-of-life care; and teaching, delegation, leadership and supervision of caregivers.

Acceptance to the program allows for co-admission to RCC and OHSU nursing programs. The program is designed as four years of full-time study, with the first year devoted to prerequisite/preparatory courses (45-credit minimum) required for admission to the restricted (limited) admission Nursing program. Successful completion of the second and third years leads to an Associate of Applied Science (AAS) Nursing degree offered by Rogue Community College. The OCNE curriculum continues for four additional terms leading to a Bachelor of Science degree, with a major in Nursing (BS,N) offered by OHSU.

The first five terms after admission to the RCC Nursing program are identical for the associate and bachelor's degree courses. Term six offers students the ability to complete the AAS degree at RCC and provides the educational eligibility for NCLEX-RN licensure testing. Students who complete the AAS degree at RCC and pass the NCLEX-RN exam also have the option to complete the upper division nursing courses for the bachelor's degree through OHSU (the OHSU bachelor's requirement of statistics may be completed at RCC but 15 credits of upper division non-nursing courses must be completed through other colleges or universities). Options available for baccalaureate completion can be found at <http://www.ohsu.edu/xd/education/schools/school-of-nursing/programs/undergraduate/current-rn-bs/index.cfm>.

The Nursing program is approved by the Oregon State Board of Nursing (17938 SW Upper Boones Ferry Rd., Portland, OR, 971-673-0685, www.oregon.gov/OSBN).

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

As part of their training, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their success e.g., NUR100 (for re-entry students only). Students who have failed any two nursing courses (RN level, any program) are disqualified from applying for entry or re-entry to the RCC Nursing Program.

Program admission occurs once per year. Deadline for submitting program application material is February 15, 2018, or the first business day thereafter, for fall term 2018 admission (see program website and/or application packet for more information). Transcripts showing satisfactory completion of the math and Anatomy and Physiology I prerequisites and at least 22 other credits of the prerequisite/preparatory courses (minimum of 30 credits) must be in the Enrollment Services office by the application deadline to be considered eligible. All prerequisite/preparatory courses must have been taken with a letter grade and completed with a "C" or better. Consortium partner schools will use shared standards in a point system and a set of core criteria for evaluation and selection of candidates to the consortium curriculum, but selection processes, acceptance decisions, and admissions will occur at individual schools. Application to the Nursing program requires a minimum GPA of 3.0 for all completed prerequisite/preparatory courses. Contact the Nursing Department or see the Nursing website for information regarding the application and selection process.

If an applicant has taken an equivalent course elsewhere which has a course number, title, or credit hour different from the RCC course, the applicant must contact RCC's Enrollment Services office for a transfer credit evaluation as far in advance of the application deadline as possible. To be admitted into nursing courses students must complete all required prerequisite and preparatory

courses (minimum 45 credits) and be accepted into the Nursing program.

Accepted students must pass a criminal history background check and urine drug screen prior to nursing clinical experiences or their acceptance will be rescinded. Information regarding the background check and drug screen requirements can be found on the program's website with additional information and deadlines provided to students following acceptance and before fall nursing classes begin. Accepted students will also be required to complete by a specified deadline a CPR Health Care Provider course (adult/child/infant, one- and two-person, with AED, course must have been successfully completed within two years prior to admission to nursing courses). Information regarding required immunizations will be provided in the acceptance letter.

Internet and email access is an integral part of all nursing courses and access to a computer (at home or at the college) will be required on a daily basis. Nursing students attend classes at the Redwood Campus in Grants Pass and clinical practicum in both Josephine and Jackson Counties and will need reliable transportation. See the program website and/or program information for progression policies.

Graduation Requirements

These requirements apply only to nursing students admitted to the program during 2018-19 academic year. The program of study, graduation requirements, and courses are under constant review and are subject to revision. Students contemplating admission in a later year may have different requirements and must obtain the graduation guide or catalog for that year. If required courses (i.e., clinicals) are graded only on a pass/no pass basis, a grade of "P" for these courses indicate a student earned the equivalent of a "C" or better grade.

Students must complete all courses on this graduation guide with a grade of "C" or better to continue in and complete the program, receive their degrees, and meet the educational requirements to apply to take the national licensure exam (NCLEX-RN). The OSBN screens all applicants for licensure and may deny licensure to or place on probation applicants with convictions for certain crimes. Contact the OSBN with any questions.

Prerequisites/Required Preparatory Courses¹

| Course No. | Course Title | Credits |
|------------|---|---------|
| BI211 | General Biology I with lab (or department chair acceptance of transfer biology with genetics) ² | 4 |
| BI231 | Anatomy and Physiology I with lab (within last seven years) ² | 4 |

TOTAL PROGRAM CREDITS BEYOND

30 PREREQUISITE CREDITS 100-104

¹ MTH95 or higher level math (4 credits) and BI231 must be part of the 30 credits completed by application deadline for application to be eligible. Remaining 22 prerequisite credits may be from any of the prerequisite/required preparatory courses.

² Virtual labs are not accepted. Remote or distance labs not conducted in the physical presence of an instructor are also unacceptable as lab courses. No time limit extension will be granted for anatomy and physiology courses.

³ If computer proficiency is documented (0 credits), students must be sure to complete at least 30 credits from prerequisite/preparatory course list by application deadline and all prerequisites (minimum 45 credits) by end of summer term in the year of application to enroll in nursing courses, if accepted.

⁴ PSY201 or PSY202 and WR121 and WR122, completed before summer term 2009 at 3 credits each, are also acceptable. Once Life Span Human Development is completed, any previously completed transferable 3-4 credit social science course can replace PSY201.

⁵ To be admitted into nursing courses, students must complete all required prerequisite/required preparatory courses (minimum 45 credits) and be accepted into the Nursing program. ↗

⁶ General education courses in this year may be completed during summer term but must be completed to progress to second year nursing courses.

⁷ Students who plan to continue through to OHSU must be aware that to earn the bachelor's degree from OHSU, they must have two years of the same high school-level language, or two terms of college-level language, or pass a language proficiency examination. College-level transferable foreign language (including American Sign Language) credits count toward degree requirements. A minimum of 9 credits of humanities is required for the OHSU degree. Students planning to transition to OHSU must have 132 credits of prerequisite and program required courses by the completion of the AAS degree in order to meet the 180 credit requirement by the completion of the bachelor's degree with a major in Nursing from OHSU. Students planning to earn a bachelor's degree are encouraged to complete MTH243 Probability and Statistics soon after the prerequisite math course.

⁸ Students who have not completed a writing series inclusive of research writing or not completed a bachelor's degree from a regionally accredited college or university in an English speaking country, must complete a research writing course (e.g., WR122 at 4 credits and inclusive of research writing or WR227) to be allowed to progress to the second year of the program.

⁹ NRS115 LPN Transition to OCNE, 6 credits, will be offered in spring term through RCC and will be limited to space available and to those LPNs who meet application/selection criteria. The application deadline will be October 15, 2018. See the Nursing program director for more information.

For more information regarding the program, selection process, and points contact the Nursing program:

Oregon Transfer Module

About the Module

The Oregon Transfer Module provides a one-year curriculum for students who want to transfer to another Oregon community college or public university prior to completing a two-year degree. The module allows students to complete one year of general education courses that will be applied to the general education and academic major requirements of the transfer school. By fulfilling these requirements and meeting the admission standards of the transfer institution, students will qualify for sophomore standing.

Students choosing this transfer option are advised to work closely with faculty advisors to ensure selection of appropriate courses. Upon transfer, students may be required to complete additional general education and academic major requirements specific to the transfer institution. Students should be aware that if they transfer prior to completing this module, courses will be evaluated individually toward the general education requirements of the school of their choice.

The courses listed in this module may also be applied to the Associate of Arts Oregon Transfer degree (AAOT), the Associate of Science Oregon Transfer – Business degree (AS/OT-BUS), and the Associate of Science Oregon Transfer – Computer Science degree (AS/OT-CS), thus providing additional options for students who may start on this track and decide to complete a two-year degree. When enrolling, students should identify either the AAOT, AS/OT-BUS or AS/OT-CS major.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition students may also be required to enroll in courses that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies.

Completion Requirements

Students must complete all required courses with a grade of “C” or better to complete the Oregon Transfer Module. Certain required courses may be graded on a pass/no pass basis only. A grade of “P” for these courses indicates a student earned the equivalent of a “C” or better grade. It is important to note that this module is neither a certificate nor a degree. Upon successful completion of coursework, students will have the Oregon Transfer Module noted on their RCC academic transcripts. In order for the Oregon Transfer Module designation to be posted, students must complete an application for graduation prior to completing the module. Applications are available at Rogue Central.

TOTAL DISCIPLINE REQUIREMENTS CREDITS

29-39

Electives

Complete a sufficient number of transfer-level courses (numbered 100 and above) to meet the Oregon Transfer Module requirement of at least 45 total credits. Elective credits must be in the humanities, social science or science/math/computer science areas, and be at least three credits each. The second year of a foreign language may be used toward elective credits but not first year courses.

TOTAL OREGON TRANSFER MODULE CREDITS

45-56

¹ MTH105 and MTH243 may not be accepted as fulfilling the math requirement at an Oregon university. Students planning to transfer should check with the university about possible additional math courses required for their degree.

² If a math class is selected, it must be in addition to the mathematics foundational requirement.

Outdoor Adventure Leadership Transfer to Southern Oregon University Associate of Science Degree

About the Program

The Associate of Science (AS) degree is based on a signed articulation agreement with Southern Oregon University (SOU). The program is designed for students transferring to SOU's bachelor's degree program in outdoor adventure leadership. Students must work closely with advisors in their areas of interest to ensure electives are appropriate.

The curriculum allows for 38-47 core credits within the major area. By completing all appropriate credits (including electives), students will fulfill required lower division coursework for transfer to SOU. Students should be aware, however, that if they transfer before completing this degree, their courses will be evaluated individually toward the transfer requirements of the college of their choice.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited universities will be accepted in accordance with college policies. In order to ensure that coursework is current, program courses over 10 years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements.

Graduation Requirements

The Associate of Science degree will be awarded to students who complete all credits in this program with a grade of "C" or better. Certain required courses are also graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|-----------------------------------|--|-------------|
| CS ____ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ¹ | 0-4 |
| RD90 | College Reading or designated placement test score | 0-4 |
| MTH95 | Intermediate Algebra or MTH96 Applied Algebra II or designated placement test score | 0-4 |
| WR115 | Introduction to Expository Writing or designated placement test score | 0-3 |
| Total Prerequisite Credits | | 0-15 |

General Education Requirements

| Course No. | Course Title | Credits |
|------------|---|---------|
| LIB127 | Introduction to Academic Research | 1 |
| MTH243 | Probability and Statistics | 4 |
| COMM225 | Small Group Communication and Problem-solving or SP111 Fundamentals of Public Speaking or SP218 Interpersonal Communication | 4 |
| WR121 | English Composition I | 4 |
| WR122 | English Composition II or WR227 Technical Writing | 4 |
| — | Approved humanities electives ² | 9-12 |
| — | Approved social science electives ³ | 6-8 |
| — | Approved science electives ⁴ | 11-15 |

Total General Education Requirements **43-52**

Core Requirements

| Course No. | Course Title | Credits |
|------------|---|---------|
| GEOG100 | Introduction to Physical Geography | 3 |
| HE253 | Wilderness First Aid | 3 |
| HPE295 | Health and Fitness for Life | 3 |
| NFM225 | Nutrition | 4 |
| OAL150 | Outdoor Living Skills | 2 |
| OAL223 | Wilderness Navigation | 2 |
| OAL250 | Foundations in Outdoor Adventure Leadership | 3 |
| — | Approved program electives ⁵ | 12-21 |

Land (choose a minimum of three classes from the following list):

| | | |
|---------|----------------------------------|---|
| PE185BA | Backpacking | 1 |
| PE185CC | Skiing/Snowboarding | 1 |
| PE185HA | Hiking Oregon | 1 |
| PE185R | Rock Climbing | 1 |
| PE185RC | Rock Climbing Adventure | 1 |
| PE185W | Winter Survival and Snow Camping | 1 |

Water (choose a minimum of three classes from the following list):

| | | |
|---------|-------------------------------|---|
| PE185SK | Sea Kayaking the Oregon Coast | 1 |
|---------|-------------------------------|---|

| | | |
|---------|-------------------------|---|
| PE185RR | River Rafting Adventure | 1 |
| PE185WK | Whitewater Kayaking | 1 |
| PE185SC | Open Water SCUBA Diving | 1 |

Total Core Credits **38-47**

TOTAL PROGRAM CREDITS **90**

¹ Successful completion of CS120 or otherwise meeting the proficiency requirement within the last 10 years fulfills this requirement. Contact a computer science adviser to help determine placement.

2 Approved Humanities Electives

(Complete at least three courses from the following list, 9-12 credits.)

| Course No. | Course Title | Credits |
|------------------------|--|-----------|
| ART131 | Introduction to Drawing | 3 |
| ART204,205,206 | History of Art I, II, III | 4-4-4 |

| SOC213 | Race and Ethnicity in the U.S. | 4 |
| SOC218 | Sociology of Gender | 4 |
| SOC225 | Social Problems | 4 |
| SOC228 | Environment and Society | 4 |
| SOC230 | Introduction to Gerontology | 4 |
| SOC235 | The Chicano/Latino Historical Experience | 4 |

4 Approved Science Electives

(Complete at least three courses, two of which must have labs, from the following list, 11-15 credits. Note that only one course can be a regional field studies course indicated by asterisk.)

| Course No. | Course Title | Credits |
|-----------------------|---|-----------|
| BI100GB | Introductory Biology (non-lab course) | 3 |
| BI100SB | Biology of Human Body Systems (non-lab course) | 3 |
| BI101,102,103 | Introduction to Biology I, II, III with lab | 4-4-4 |
| BI121,122 | Elementary Anatomy and Physiology I, II with lab | 4-4 |
| BI211,212,213 | General Biology I, II, III with lab | 4-4-4 |
| BI231,232,233 | Anatomy and Physiology I, II, III with lab | 4-4-4 |
| BI234 | Microbiology with lab | 4 |
| BI272 | Introduction to Ecology with lab | 4 |
| CHEM104,105,106 | Introductory Chemistry I, II, III with lab and recitation | 5-5-5 |
| CHEM221,222,223 | General Chemistry I, II, III with lab and recitation | 5-5-5 |
| CS195 | Web Authoring I (HTML/CSS) (non-lab course) | 4 |
| ENV111 | Introduction to Environmental Science (non-lab course) | 3 |
| G100 | Fundamentals of Geology (non-lab course) | 3 |
| G101,102,103 | Introduction to Geology I, II, III with lab | 4-4-4 |
| GEOG100 | Introduction to Physical Geography (non-lab course) | 3 |
| GS104,105,106,107,108 | Physical Science with lab | 4-4-4-4-4 |
| GS161 * | Regional Field Studies with lab | 4 |
| GS170 * | Regional Field Geology with lab | 4 |
| PH201,202,203 | General Physics I, II, III with lab and recitation | 5-5-5 |
| PH211,212,213 | General Physics (Calculus Based) I, II, III with lab and recitation | 5-5-5 |

5 Approved Program Electives

(complete 12-21 credits for a total of 90 program credits)

| Course No. | Course Title | Credits |
|------------|---|----------|
| HE131 | Introduction to Exercise and Sport Science | 3 |
| HE199 | Special Studies in Health | 1-3 |
| HE208 | HIV and Other Epidemics | 1 |
| HE250 | Personal Health | 3 |
| HE252 | First Aid/CPR | 3 |
| HE259 | Care and Prevention of Athletic Injury | 3 |
| PE184 | Adaptive Physical Education | 1 |
| PE185 | Any physical education course not required within core requirements | variable |
| PE194 | Principles of Exercise Training and Conditioning | 2 |
| PE199 | Special Studies in Physical Education | 1-3 |
| PE264 | Fundamentals of Personal Training | 2 |
| PE280 | CWE/Physical Education | 2 |
| PE290 | Fitness Instructor | 2 |
| — | Any lower division transfer course not already required | variable |

Note: Students who have graduated from high school or completed a high school equivalency program in 1997 or after must have the following requirement for admission to a four-year Oregon university:

1) Two years of the same high school-level foreign language, or 2) two terms of college-level foreign language with a grade of "C" or better (may be first-year foreign language, which can be used as elective credits on the Associate of Arts Oregon Transfer degree). If students plan to complete a Bachelor of Arts (BA) degree at a four-year school, they must have a proficiency in a foreign language regardless of when they graduated from high school or equivalency program.

Paramedicine

Associate of Applied Science Degree

About the Program

The Emergency Medical Services (EMS) program is accredited by the Oregon Department of Education and the Oregon Health Authority – EMS, and the Paramedicine program is nationally accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Committee on Accreditation of Educational Programs for the EMS Professions (CoAEMSP).

The program offers career training for entry-level personnel ranging from EMTs to paramedics. During the first year of study, successful completion of the EMT course leads to eligibility to sit for the state and National Registry EMT exams. Successful completion of this curriculum qualifies the graduate to sit for the state and national registry exams to become a paramedic.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

As part of their training program, students are required to take a placement test to determine skill levels in math, reading and writing. Students must begin with the courses within their skill levels as determined by placement test scores.

This program requires an application and satisfaction of certain course admission criteria prior to enrolling in paramedic courses. Information is available on the Emergency Services (ES) Department website (www.rogucecc.edu/EmergencyServices/EMS) or at the ES Department office located at the RCC Table Rock Campus. Students are strongly encouraged to meet with an ES Department advisor prior to beginning any coursework.

Students must be at least 17 years old to apply to the EMT course. Students must be high school graduates or have a GED or equivalent for certification. In addition, students must meet the qualifications outlined by the Oregon Health Authority – EMS. Students are required to submit verification of certain immunizations and medical tests. Students are also required to pass a drug screen and a criminal background investigation prior to their mandatory clinical time.

Advanced Standing

Students will normally have completed the entire first year requirements for this program prior to enrolling in the paramedic course. Applicants to the paramedic course will be selected on the basis of experience as an EMT, overall academic GPA, success in BI231, BI232, and BI233, and the number of classes remaining to complete the degree program. An oral interview will be conducted during summer term for all eligible candidates. Students are required to have completed 52 or more credits of program requirements before they are eligible to begin the paramedic course. Additional requirements will be in accordance with current statewide policies and procedures. Courses from accredited colleges and universities will be accepted in accordance with college policies and the ES Department chair's recommendation. In order to ensure that coursework is current, program courses over five years old must be reviewed and approved by the ES Department chair before being accepted toward core requirements.

Graduation Requirements

Students completing the credits outlined in this program with a grade of "C" or better and successfully certifying at the EMT level, will earn an Associate of Applied Science degree in Paramedicine. Certain required courses may be graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

Students are strongly encouraged to meet with an Emergency Services Department advisor prior to beginning any coursework.

Emergency Medical Service and Inservice Training

Up to 16 credits may be applied to the Paramedicine AAS degree for students who have completed EMS education or pre-hospital care experience. See the Emergency Services Department chair for information.

¹ BI211 is a prerequisite to BI231; CHEM104 also highly recommended.

² Required for graduation.

³ Successful completion of CS120, or otherwise meeting the proficiency requirement within the last 10 years, fulfills this requirement. Contact a computer science adviser to help determine placement.

⁴ FRP251 taken previously for 8 credits but without a separate lab is also acceptable.

Pharmacy Technician Certificate of Completion

About the Program

The Pharmacy Technician two-term certificate program prepares students for work in entry-level positions in hospitals and retail pharmacy settings. Students will learn to prepare prescription orders under the supervision of a licensed pharmacist, perform applicable pharmacy calculations, and comply with federal and state regulatory agency laws and regulations. Upon completion of this program students will be able to perform all the duties required in any pharmacy practice setting. Students completing this program will be prepared to take the national Certified Pharmacy Technician (CPhT) exam, although certification is not an employment requirement at this time.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.rogucecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Pharmacy Technician is a cohort-based program and enrollment is limited. Students are required to take a placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. Cohort students must meet certain minimum academic requirements (AH100, BT113 or WR115 or designated placement test score, CS120 or documented proficiency, MTH60 or MTH63 or designated placement test score, and RD90 or designated placement test score) before starting the program. Visit www.rogucecc.edu/AlliedHealth/prx for program details.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the program coordinator's recommendation. In order to ensure coursework is current, program courses over seven years old must be reviewed and approved by the appropriate program coordinator before being accepted toward core requirements. College Now credit earned in conjunction with local high schools will be accepted in accordance with the current agreement.

Graduation Requirements

These requirements apply only to students admitted to the program during the 2017-18 academic year. Students contemplating admission in a later year may have different requirements and must obtain the graduation guide or catalog for that year. Students must complete all courses on this graduation guide with a grade of "C" or better to continue in and complete the program and receive their certificates. If certain required courses are graded only on a pass/no pass basis, a grade of "P" for these courses indicate a student earned the equivalent of a "C" or better grade.

| WR110 | Understanding English Grammar | 2 |

¹ Successful completion of CS120, or otherwise meeting the proficiency requirement within the last 10 years, fulfills this requirement. Contact a computer science adviser to help determine placement.

² Students who have completed either BI121 and BI122 or BI231, BI232, and BI233 (the entire sequence of either series) with an equivalent "C" or better grade do not need to take BI100SB.

³ Additional prerequisites may apply.

For more information regarding the program and selection process, contact the Allied Health Occupations Department:

Physics Interest

Associate of Arts Oregon Transfer Degree

A total of 90 credits are required to complete the Associate of Arts Oregon Transfer (AAOT) degree and the courses listed below are only meant to serve as a guide of recommended choices within categories required in the AAOT framework. See the AAOT graduation guide for full degree requirements. It is recommended that a student also consult with the transfer college of choice regarding specific prerequisites since requirements for a physics major vary at each university.

| Course No. | Course Title | Credits | AAOT Category |
|------------|--|---------|---------------|
| CHEM221 | General Chemistry I with lab and recitation | 5 | Science |
| CHEM222 | General Chemistry II with lab and recitation | 5 | Science |
| CHEM223 | General Chemistry III with lab and recitation | 5 | Science |
| MTH251 | Calculus I | 5 | Math |
| MTH252 | Calculus II | 5 | Math |
| MTH253 | Calculus III | 5 | Math |
| MTH254 | Vector Calculus | 5 | Math |
| MTH256 | Differential Equations | 5 | Math |
| PH211 | General Physics I (Calculus Based) with lab and recitation | 5 | Science |
| PH212 | General Physics I (Calculus Based) with lab and recitation | 5 | Science |
| PH213 | General Physics I (Calculus Based) with lab and recitation | 5 | Science |
| WR227 | Technical Writing | 4 | Elective |

Note: Four courses required in the science/math category. Additional courses would count as electives.

Practical Nursing

Certificate of Completion

2018 Year

About the Program

Rogue Community College offers a limited-entry, three-term program leading to a certificate in Practical Nursing (PN), which meets the educational requirements for the national exam for PN licensure (NCLEX-PN). The program is located at the Table Rock Campus (TRC). The Practical Nursing program is approved by the Oregon State Board of Nursing (OSBN), 17938 SW Upper Boones Ferry Rd., Portland, OR, 971-673-0685, www.oregon.gov/OSBN.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.roguecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Program admission occurs once per year in winter term. The deadline for submitting program application material and completing the required program pre-admission test and other requirements is September 8, 2017, for January 2018 admission. The application deadline may be extended

if there are an insufficient number of qualified applicants (watch program website for notification).

To be eligible, prerequisite classes must have been completed with a grade of "C" or better prior to the application deadline. For courses graded only as pass/no pass, a pass that is equal to a "C" is required. If a course is repeated, only the most recent grade will be considered for the selection process. Applicants must have a minimum 2.0 cumulative GPA (for all courses completed at RCC, or at college where anatomy and physiology completed if applicant is new to RCC) and be in good standing (not on academic warning or probation) at RCC to be eligible. As part of their training program, students must begin with courses within their skill levels as determined by placement test scores.

If an applicant has taken an equivalent course elsewhere which has a course number, title, or credit hour different from the RCC course, she or he must contact Enrollment Services for a transfer credit evaluation or the Nursing Department chair to obtain a course substitution, as far in advance of the application deadline as possible.

Accepted students must attend mandatory program orientations the last two Friday mornings of fall term prior to the beginning of Practical Nursing courses in winter term. A notice of dates, times, and place of the orientations will be emailed to accepted students. Accepted applicants (notification occurs by mid-November) must have proof of a valid unencumbered OSBN CNA certification current through November 1, 2017, and have completed required preparatory courses with a "C" or better by the end of fall term to retain acceptance and enter practical nursing courses in winter term.

Accepted students must pass a criminal history background check and urine drug screen (with negative results) to retain acceptance and enter the program in January. Information regarding both can be found on the program website and will be provided to students before winter practical nursing classes begin. Since applicants are or will be CNAs, failed criminal history checks or urine drug screens will be reported to the OSBN. Accepted students must successfully complete a CPR Health Care Provider course (adult/infant/child, one and two person, with AED; online courses are not accepted) within one year prior to the September application deadline (to remain current throughout program). The CPR course must comply with the American Heart Association standards.

AH100 Medical Terminology and CNA work experience are recommended before application. Practical nursing faculty will evaluate the CNA skills of all students admitted to PN101. Students may be required to enroll in classes that would increase their employability and success, e.g., NUR100 if remediation work is required. More information is available by clicking on "enter here" on the program website at www.roguecc.edu/nursing/practicalnursing.

Applicants are encouraged to attend one program information session (held every month at TRC and RWC). See website for details. Internet and email access is an integral part of all practical nursing courses and access to a computer at home or at the college will be required on a daily basis.

Graduation Requirements

These requirements apply only to students admitted to the Practical Nursing Certificate program in January 2018. Students contemplating admission in a later year may have different requirements and must obtain the graduation guide for that year. Successful completion means that students must complete all courses in this program with a grade of "C" or better to continue in and complete the program and receive a certificate. Accepted PN students will forfeit their acceptance unless a complete anatomy and physiology sequence and all other required preparatory courses have been successfully completed, and the criminal history background check and urine drug screen have been passed prior to the start of PN101 in January.

The OSBN screens all applicants for licensure and may deny licensure or place on probation applicants with convictions for certain crimes. Licensure applicants with a history of chemical dependence may be required to have an assessment by a drug and alcohol counselor. Contact the OSBN with any questions.

Clinical and skills lab courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|------------|---|---------|
| BI121 | Elementary Anatomy and Physiology I w/lab (within last seven years or BI231 and BI232 if both completed with labs within last seven years) ¹ | 4 |
| MTH65 | Fundamentals of Algebra II or higher level math ² | 4 |
| WR115 | Introduction to Expository Writing (or designated placement test score or completion of WR121) | 0-3 |

| | | |
|-------|--|---|
| CNA-1 | Basic Nursing Assistant (including skills lab and clinical or other OSBN-approved CNA-1 course with completion certificate; course proof waived for students with copy of current OSBN CNA-1 certification attached to application) ³ | = |
|-------|--|---|

TOTAL PREREQUISITE CREDITS 8-11

Required Preparatory Courses

| Course No. | Course Title | Credits |
|------------|---|---------|
| BI122 | Elementary Anatomy and Physiology II w/lab or | |
| | BI233 Human Anatomy and Physiology III within last seven years if student completed BI231 and BI232 as prerequisites ¹ | 4 |
| — | CPR Health Care Provider course (HE261 or other AHA or ARC adult/infant/child, one- and two-person course with AED) completed later than September one year before application deadline | 0-1 |
| CS— | Approved 3-4 credit computer science class, CS120 or above or transcribed computer proficiency within 10 years ⁴ | 0-4 |
| WR121 | English Composition ⁵ | 4 |

TOTAL PREPARATORY CREDITS 8-13

Required Courses

| Course No. | Course Title | Credits |
|----------------------------|--|---------|
| Winter (First) Term | | |
| PN101 | Practical Nursing I | 8 |
| PN101C | Practical Nursing I Clinical | 3 |
| PSY101 | Psychology of Human Relations or | |
| | BT101 Human Relations in Organizations | 3 |
| | | 14 |

Spring (Second) Term

| | | |
|--------|-------------------------------|-------|
| PN102 | Practical Nursing II | 8 |
| PN102C | Practical Nursing II Clinical | 4 |
| — | Approved program elective | 0-3 |
| | | 12-15 |

Summer (Third) Term

| | | |
|--------|--|----|
| PN103 | Practical Nursing III | 8 |
| PN103C | Practical Nursing III Clinical | 4 |
| PN104C | Practical Nursing Leadership Clinical (post-summer session) ⁶ | 2 |
| | | 14 |

TOTAL POST-PREREQ PROGRAM CREDITS 48-56

Approved Program Electives

| Course No. | Course Title | Credits |
|------------|--|---------|
| AH100 | Medical Terminology: Introduction | 3 |
| CG100 | College Success and Survival | 2 |
| LIB127 | Introduction to Academic Research | 1 |
| NUR100 | Scope of Practice and Safety Considerations (by permission only for students accepted for re-entry to the program) | 1 |
| RD115 | Speedreading for College | 3 |
| WR110 | Understanding English Grammar | 2 |

¹ Virtual labs are not accepted. Remote or distance labs not conducted in the physical presence of an instructor are also unacceptable as lab courses. No time limit extension will be granted for anatomy and physiology courses.

² Transcribed course required for graduation.

³ Accepted students will be required to provide the program secretary with proof of current unencumbered CNA certification in Oregon valid through at least November 1 in the year of application in order to retain acceptance and be admitted to the first practical nursing course the following winter term.

⁴ Successful completion of CS120 or equivalent course or passing the RCC computer proficiency exam within the last 10 years fulfills this requirement. Contact a computer science adviser to help determine placement.

⁵ WR121, 3 credits, completed before summer of 2009 is also acceptable.

⁶ Students must register for PN104C (post-summer session) at the same time they register for PN103 and PN103C. PN103, 103C and 104C fall in a new academic/financial aid year.

Pre-dental Hygiene Interest (Oregon Tech)

Associate of General Studies Degree

The courses listed below are only meant to serve as a guide of recommended choices within categories required in the AGS framework. See the AGS graduation guide for full degree requirements. The following list includes recommended courses for students who have an interest in pre-dental hygiene.

The program listed below is designed to meet the requirements for the pre-dental hygiene program at Oregon Tech. The plan of study is meant to serve as a guide of recommended courses to satisfy the requirements for application to the program. Students are strongly encouraged to work closely with their RCC academic advisors and visit the transfer school's website for all current admission and academic major requirements. Other courses may be available to complete prior to transfer.

| Course No. | Course Title | Credits |
|------------|--|---------|
| AH100 | Medical Terminology: Introduction | 3 |
| BI231 | Anatomy and Physiology I with lab | 4 |
| BI232 | Anatomy and Physiology II with lab | 4 |
| BI233 | Anatomy and Physiology III with lab | 4 |
| BI234 | Microbiology with lab | 4 |
| CHEM104 | Introductory Chemistry I with lab and recitation | 5 |
| MTH243 | Probability and Statistics * | 4 |
| NFM225 | Nutrition | 4 |
| SOC204 | Introduction to Sociology | 4 |
| SP111 | Fundamentals of Public Speaking | 4 |
| WR121 | English Composition I | 4 |
| WR122 | English Composition II | 4 |
| WR227 | Technical Writing | 4 |

*Course required by the Dental Hygiene program for graduation but is not required for admittance into the program. MTH95 is a requirement for admission to Oregon Tech and a prerequisite to Oregon Tech's MTH243.

Pre-medical Imaging Interest (Oregon Tech)

Associate of General Studies Degree

A total of 90 credits are required to complete the Associate of General Studies (AGS) degree. The courses listed below are only meant to serve as a guide of recommended choices within categories required in the AGS framework. See the AGS graduation guide for full degree requirements. The following list includes recommended courses for students who have an interest in pre-medical imaging.

The courses listed below are designed to meet the requirements for the pre-medical imaging program at Oregon Tech. The plan of study is meant to serve as a guide of recommended courses to satisfy the requirements for application to the program. Students are strongly encouraged to work closely with their RCC academic advisors and visit the transfer school's website for all current admission and academic major requirements. There may be other courses that can be completed prior to transfer.

| Course No. | Course Title | Credits |
|------------|--|---------|
| AH100 | Medical Terminology: Introduction | 3 |
| BI231 | Anatomy and Physiology I with lab | 4 |
| BI232 | Anatomy and Physiology II with lab | 4 |
| BI233 | Anatomy and Physiology III with lab | 4 |
| CHEM104 | Introductory Chemistry I with lab and recitation | 5 |
| MTH111 | College Algebra | 4 |
| MTH112 | Elementary Functions | 4 |
| PSY201 | General Psychology I | 4 |
| SP111 | Fundamentals of Public Speaking | 4 |
| WR121 | English Composition I | 4 |
| WR122 | English Composition II | 4 |
| — | Social Science Elective | 3-4 |
| — | Humanities Elective (non-studio) | 3-4 |

Pre-professional Medicine Interest

(Dentistry, Medicine, Optometry, Pharmacy, Veterinary)

Associate of General Studies Degree

A total of 90 credits are required to complete the Associate of General Studies (AGS) degree. The courses listed below are only meant to serve as a guide of recommended choices within categories required in the AGS framework. See the AGS graduation guide for full degree requirements. The following list includes recommended courses for students who have an interest in pre-professional medicine.

The coursework listed below is designed to prepare students for transfer into a pre-professional bachelor's degree at an Oregon university. Since requirements for pre-professional programs vary at each university, students are encouraged to visit the transfer school's website for all current admissions and academic requirements. Students are strongly advised to work with RCC science faculty in designing a program plan for transfer. There may be other courses that can be completed prior to transfer.

The courses outlined here are minimum requirements within a bachelor's degree for admission into several pre-professional programs including the Oregon Health and Science University School of Dentistry and Medicine; Oregon Tech degrees in health studies and clinical laboratory sciences (joint degree with OHSU); and Oregon State University degrees in pharmacy and veterinary medicine.

| Course No. | Course Title | Credits |
|------------|---|---------|
| BI211 | General Biology I with lab | 4 |
| BI212 | General Biology II with lab | 4 |
| BI213 | General Biology III with lab | 4 |
| CHEM221 | General Chemistry I with lab and recitation | 5 |
| CHEM222 | General Chemistry II with lab and recitation | 5 |
| CHEM223 | General Chemistry III with lab and recitation | 5 |
| MTH243 | Probability and Statistics | 4 |
| MTH251 | Calculus I (Differential) with lab | 5 |

Renewable Energy Technician Certificate of Completion

About the Program

The Renewable Energy Technician four-term certificate program is designed for students seeking entry-level positions in renewable energy manufacturing, installation, site evaluation, and service industries. Typical occupations include those of renewable energy technician, solar PV racking installer, energy system site evaluator, manufacturing technician, or limited energy auditor.

The program emphasizes green technologies, electronics fundamentals, practical troubleshooting and systems site evaluation and design. Technical courses involve extensive lab work using solar photo-voltaic panels, wind and hydro generators, chargers, batteries, inverters, and industry standard test equipment to design, build and test systems. Site evaluation training for system efficiencies and cost analysis is accomplished through hands-on use of specialized equipment and software. The certificate also helps prepare students for the entry-level North American Board of Certified Energy Practitioners (NABCEP) industry certification test.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.rogucc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading and writing. As part of their training program students must begin with courses within their skill levels as determined by placement test scores. Students are also required to complete any pre-requisites listed. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Electronics Technology department chair's recommendation. In order to ensure that coursework is current, program courses over three years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements. Official transcripts must be filed with the Enrollment Services Office and the Electronics Technology Department.

Graduation Requirements

Students must complete all courses in this program with a grade of "C" or better to receive their certificates. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|------------|--|---------|
| CS____ | Approved 3-4 credit computer science class, CS120 or above or documented computer proficiency ¹ | 0-4 |

Software Engineering Technology Transfer to Oregon Tech Associate of Science Degree

About the Program

This Associate of Science (AS) degree is based on a signed articulation agreement with Oregon Tech (OT). The degree transfers directly into the bachelor's degree program at Oregon Tech in software engineering technology and graduates are guaranteed junior standing in the program. Students must work closely with advisors in their areas of interest to ensure electives are appropriate. The curriculum allows for 39 core credits within the major area. By completing all appropriate credits (including electives), students will fulfill required lower division coursework for transfer to OT.

Students must work closely with their advisors to ensure transferability of this program. If students transfer before completing this degree or transfer in a major not covered by prior agreements, courses will be evaluated individually toward the transfer requirements of the college of their choice. Students are advised to obtain written approval from Oregon Tech to guarantee their catalog of transfer for three years.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.roguecc.edu/Programs/LearningOutcomes.

Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Advanced Standing

Coursework from accredited universities will be accepted in accordance with college policies. In order to ensure that coursework is current, program courses over five years old must be reviewed and approved by the appropriate department chair before being accepted toward core requirements.

Graduation Requirements

The Associate of Science degree will be awarded to students who complete all credits in this program with a grade of "C" or better. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned the equivalent of a "C" or better grade. Students should be aware that Oregon Tech requires a grade of "B" in CS133u and CS233u for transfer.

Prerequisites

Sterile Processing Technician Certificate of Completion

About the Program

The Sterile Processing Technician three-term certificate program prepares students for work in entry-level positions in hospitals and other surgical settings. The sterile processing technician plays a vital role in maintaining the cleanliness, functionality, and inventory of health care instrumentation and equipment. They ensure that patients avoid infections through sterilizing instrumentation and equipment used in hospital procedures.

Students will be introduced to microbiology and have an understanding of infection control, the principles and practices of sterile processing and decontamination procedures, and the ability to maintain inventory control in a healthcare setting. Successful completion of the program prepares students for the Certified Registered Central Service Technician (CRCST) exam.

The U.S. Department of Education requires disclosure of specific information about career and technical certificate programs to prospective students. Data includes Standard Occupational Classification (SOC) codes, graduation rates, tuition and fees, typical costs for books and supplies, job placement rates for students completing the programs, and median loan debt incurred by students completing the programs. For more information visit www.rogucecc.edu/GainfulEmployment.

The curriculum in RCC courses is derived from a set of identified learning outcomes that are relevant to the discipline. For a list of learning outcomes for this discipline or program, see www.rogucecc.edu/Programs/LearningOutcomes.

Entry Requirements

Sterile Processing Technician is a cohort-based program. Enrollment is limited. Students are required to take a placement test to determine skill level and readiness in math, reading and writing. As part of their training program, students must begin with the courses within their skill levels

as determined by placement test scores. Cohort students must meet certain minimum academic requirements (BT113 or WR115 or designated placement test score, CS120 or documented proficiency, MTH60 or MTH63 or designated placement test score, and RD90 or designated placement test score) before starting the program. Please visit www.roguecc.edu/alliedhealth/spt for program application details.

Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the program coordinator's recommendation. In order to ensure coursework is current, program courses over seven years old must be reviewed and approved by the appropriate program coordinator before being accepted toward core requirements. College Now credit earned in conjunction with local high schools will be accepted in accordance with the current agreement.

Graduation Requirements

These requirements apply only to students admitted to the program during the 2017-18 academic year. Students contemplating admission in a later year may have different requirements and must obtain the graduation guide or catalog for that year. Students must complete all courses on this graduation guide with a grade of "C" or better to continue in and complete the program and receive their certificates. If certain required courses are graded only on a pass/no pass basis, a grade of "P" for these courses indicate a student earned the equivalent of a "C" or better grade.

Prerequisites

| Course No. | Course Title | Credits |
|------------|---|---------|
| BT113 | Business English I or WR115 Introductory to Expository Writing or designated placement test score | 0-4 |

Sustainable Community Development Focus Award

The Sustainable Community Development focus award (18-23 credits) provides students with the knowledge, skills and experiences that will allow them to play a vital role in developing and strengthening their communities for the twenty-first century. Diversity and sustainability are issues that present great challenges as well as incredible opportunities to create strong, thriving communities that meet the needs of their members and the environment.

Community development includes nurturing the integration of socially, culturally, and economically diverse groups to work together for common interests and the expansion of sustainable practices. Community development is studied holistically, including learning leadership and communication skills, how to effectively utilize the diversity inherent in American communities, and how people can live sustainably in their own locales.

Completing the Sustainable Community Development focus award is an excellent addition to a resume. Knowledge of sustainability and diversity issues may be skills employers consider. Students should be aware that prerequisites exist for most courses, so they should plan accordingly.

|----------------------------------|--------------|
| TOTAL ELECTIVE CREDITS | 9-13 |
| TOTAL FOCUS AWARD CREDITS | 18-23 |

Note: This focus award is not a formal, transcribed degree or certificate but recognizes student achievement in a specific topic or theme. Focus awards may be earned in combination with a certificate or degree. Classes are lower-division collegiate courses (except where noted) that may transfer to a variety of programs at a four-year college or university as elective credits, program requirements, and/or graduation requirements for the receiving institution. Students are encouraged to check with the receiving institution and their RCC academic advisor for the most accurate transfer requirement information.

¹ A maximum of 3 Cooperative Work Experience credits may be used toward the focus award as approved by focus award advisor.

Continuing Education

www.roguecc.edu/ContinuingEducation

The Continuing Education Department provides life-long learning opportunities that enhance the fulfillment and personal success of the citizens in the community. Continuing Education creates and provides learning events in line with the community's needs in all areas of workforce, business community, private/public organizations and personal enrichment.

Continuing Education classes and services include the following:

- Child Care Provider Training
- Commercial Truck Driver Training
- Forklift Operator Safety Training
- High School Driver Training
- Landscape Contractors Training
- Pesticide Applicator Licensing
- Traffic Control Flagger
- Development of Evaluation Tools to Measure Training Effectiveness
- Communication Skills and Customer Service
- Computer Training
- Diversity and English as a Second Language
- Human Resource Development and Consulting
- Leadership Training
- Lean Practices
- Manufacturing, CAD/CAM, and Technical Training
- Quality and Productivity Improvement
- Special Events and Meeting Space Coordination
- Train the Trainer

Community Education

www.roguecc.edu/CommunityEd

- A Bldg., Redwood Campus, 3345 Redwood Hwy., Grants Pass, 541-956-7303
- RCC/SOU Higher Education Center, Riverside Campus, 101 S. Bartlett, Medford, 541-956-7303
- Table Rock Campus, 7800 Pacific Ave., White City, 541-956-7303

Community Education classes are short, non-credit and designed for personal enrichment, lifelong learning and enjoyment. Most meet in the evening and subjects range from art to computer classes. Other topics include cooking, foreign languages and fitness.

These classes are not a part of regular programs of study. Participation documentation is available upon request. Most Community Education classes are self supporting, which means they must pay for themselves and do not use tax dollars.

All course listings are updated quarterly and viewable at the above website.

Commercial Truck Driver Training

www.roguecc.edu/departments/truck/

- 541-956-7131

Customized Training

www.roguecc.edu/Workforce/Customized

- Josephine or Jackson County, 541-956-7188

RCC Customized Training provides solutions and opportunities for individuals and organizations to succeed. Training is built to meet employers' or business owners' needs through an assessment process:

Step 1: Needs analysis

RCC helps assess training needs and develop a training event to meet individual work schedules and skill improvement objectives. Once skill improvement needs have been determined, RCC can help develop a cost effective training plan through customized education services.

Step 2: Curriculum development

RCC works with business staff to develop curriculum and delivery methods that meet the needs of the organization. Training is offered by instructors with industry experience who understand the particular business or organizational environment.

Step 3: Convenient training delivery

RCC will create training venues that meet an employer's timeline, schedule and preferred location. Training can be delivered in a classroom environment, on site, or online.

Short-Term Skills Training

www.roguecc.edu/Workforce/Short-termSkills

- Josephine or Jackson County, 541-956-7116

Short-term skills training focuses on vocational training and industry-specific certifications that enhance current employee skills or provide job seekers increased opportunity for employment. Workforce development activities can benefit job seekers, laid off workers, youth, incumbent workers, new entrants to the workforce, veterans, persons with disabilities, and employers.

Industry-specific certifications are offered in subject areas such as Commercial Truck Driver Training, Welding, Forklift, Flagger, Adult and High School Driver's Training, and Oregon OSHA. These trainings are completed in a hands-on setting with modern equipment and trade-experienced instructors. Most trainings are offered for no credit, although approved continuing education units (CEUs) may apply.

Courses may be offered in a traditional classroom environment, online or in a blended format. Some short-term trainings are composed of a course or series of courses mapped to an industry-recognized certification.

Driver Training

www.roguecc.edu/driverEd

541-956-7089

- Adult Driver Training
- DMV-mandated Training
- High School Driver Training

Small Business Development Center

www.roguecc.edu/sbdc

Historic City Hall, 214 SW Fourth St., Grants Pass, OR
541-956-7494

The Small Business Development Center (SBDC) is a community-based technical assistance resource available to both existing and prospective small businesses. Staffed by former small business owners and professionals, the SBDC offers:

- Free and confidential one-on-one advising
- Business training courses
- Industry and market research assistance

Funded through a partnership with the U.S. Small Business Administration, Business Oregon, the City of Grants Pass, Josephine County and Rogue Community College, the SBDC has been offering business assistance in the Rogue Valley since 1984.

The RCC SBDC houses a lending library of business-related books and other resources. The SBDC also has a newly updated 15-station computer lab used for providing computer based business training.

Typical areas of business advising and training include:

- Smart Start Your Business
- Business Planning
- Marketing Strategies
- Social Media/Technology for Your Business
- Personnel Management Issues
- Business Loan Packaging
- Financial Analysis
- Bookkeeping and Recordkeeping
- CCB and LCB Continuing Education
- Construction/Contractor pre-licensing
- Strategic Planning

Illinois Valley Business Entrepreneurial Center (IVBEC)

Kerby Belt Building, 24353 Redwood Hwy., Kerby, OR
541-956-7400

The IVBEC provides an accessible rural outreach center for the RCC Small Business Development Center. One-on-one advising services, business training opportunities, and support resources are available at this location for both existing and prospective business owners of the Illinois Valley. This center also features meeting space, a computer lab, and a commercial kitchen available to entrepreneurs.

Small Business Management (SBM)

www.roguecc.edu/sbdc/sbm

541-956-7494

The Small Business Management experience is designed to enable owners of established small businesses to be more successful in identifying and achieving their business goals. SBM is a highly effective training that has been offered in the Rogue Valley for over 25 years. It provides a client-tailored approach to business management practices that help business owners more effectively manage their operation and improve their bottom line.

The SBM nine-month curriculum is designed as an interactive classroom experience combined with one-on-one advising sessions. The course provides information and analysis tools that business owners can apply to achieve streamlined operations and improved profitability. The following topics are typically covered:

- Fundamental Business Practices
- Understanding Financial Management and Statements
- Principles of Marketing and E-Marketing
- Managing Cash Flow
- Employee Management and Supervision
- Strategic Management Principles
- Customer Service and Relations Management
- Leadership Principles and Managing Change
- Process Improvement and Quality Control

Next Level Plan (NLP)

NLP is a business service developed to help existing businesses that have achieved some level of success to take their enterprises to the next level in growing their regional, national and potentially international markets.

Businesses that seek NLP advising are assigned a team of two professional business advisors who bring a background of expertise in strategically growing and managing companies at multi-million dollar sales levels. The NLP process includes qualification, discovery, assessment, research, planning, advising and mentoring.

NLP advisors have proven experience in corporate development, strategic planning, business planning, sales and distribution, product development, finance/accounting, capital acquisition, operations management, problem solving and visioning. In addition to the free, in-depth advising and mentoring, the NLP team provides access to applied market research tools and government contracting assistance. Services are made available at no cost through the SBDC's collaborative funding sources.

Course Descriptions

www.roguecc.edu/CourseDescriptions

ALLIED HEALTH

Career and Technical Courses

AH100 3 credits

Medical Terminology: Introduction

Provides a basic understanding of medical terminology using a word-building approach based on the systems of the human body. Prefixes, suffixes, word roots, combining forms, special endings, plural forms, abbreviations, and symbols are included in the content. Emphasis is placed on spelling, definition, usage, and pronunciation. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores.

AH101 3 credits

Medical Assistant: Administrative

Covers a variety of front office topics for medical assistants including communication skills and office professionalism, teamwork and critical thinking skills, work ethics and time management, and diversity and cultural sensitivity. Also includes an overview of medical assisting, recordkeeping, documentation through EPIC (electronic health records software), and clinic management. Students will be responsible for knowing about medical law, patients' rights, HIPAA, and bioethics as related to medical assisting and medical clinics. Billing and coding, how to schedule patients, and triage for patient check in are also included, as well as basic medical terminology in Spanish. The American Association of Medical Assistants (AAMA) certification standards are integrated throughout the course. Prerequisite: Admission to the Medical Assistant program. Offered fall and spring terms.

AH102 3 credits

Medical Assistant: Clinical

Covers back office topics for medical assisting such as how to communicate effectively with patients including active listening and dealing with difficult patients, and how a patient's brain reacts to illness and how that influences communication. Appropriate personal protective equipment and infection control, including the infection cycle of bacteria and viruses, is also included. Several specific infectious diseases will be discussed. Students will learn how to collect a patient's history, check patients into a clinic, and prepare them for their appointments or procedures. Instruction on patient care, taking vitals, treatment and diagnosis assistance, and giving medication will be addressed, as well as how to perform specific screening tests. There will be a review of the EHR and EPIC computer programs, and emergency plans with OSHA, MSDS and safety in the clinic. Prerequisite: Admission to the Medical Assistant program. Offered fall term.

AH103 3 credits

Medical Assistant: Specialty

Covers specialty clinic front and back office topics for medical assisting including how to effectively communicate with geriatric and young children in the medical setting. Students will learn about the challenges involved in working with patients with varying brain capacity and function and how to best communicate treatment to them. Nutrition and its effects on patients' brains will be discussed as well as how to integrate it into a treatment plan. This class also focuses on teaching students about the many types of specialty clinics and how they differ from each other in treatment and diagnosis. Students will also learn how to perform specialty clinical lab techniques as well as various WAIVE testing. Also introduced are 12-lead electrocardiography training and x-ray imaging as well as surgical set up and sterilization techniques. Prerequisite: Admission

to the Medical Assistant program. Offered winter term.

AH104 3 credits

Phlebotomy w/Lab

Prepares students to take the American Society for Clinical Pathology (ASCP) Phlebotomy certification examination. The examination requires 40 hours of classroom training in anatomy and physiology of the circulatory system, specimen collection, specimen processing and handling, and laboratory operations (e.g., safety, quality control, etc.), and 100 clock hours of clinical training and orientation in an accredited laboratory with a minimum performance of 100 successful unaided blood collections (venipunctures and skin punctures). This course, taken with AH170, prepares students to take the exam. Prerequisite: Acceptance into the Phlebotomy or Medical Assistant programs. Offered fall, winter and summer terms.

AH105 2 credits

Communication and Professional Behavior

Prepares students for practicum experiences and employment in the healthcare industry by understanding and practicing communication skills (oral and written), workplace ethics, and professional behavior. Prerequisite: Admission to any allied health certificate program.

AH110 3 credits

Medical Terminology: Clinical

Continues the study of medical terminology and medical records analysis. Focuses on the clinical aspects of terminology including pharmacology, medical specialties, medical records, diagnostic and treatment procedures, and laboratory testing. Prerequisite: AH100 recommended.

AH120 4 credits

Medical Administrative Assistant I

The first of two courses that prepare students for careers as medical administrative assistants. It introduces the concepts and skills related to patient and facility scheduling, patient intake, office logistics, privacy, and basic workplace safety. Prerequisite: Acceptance into the Medical Administrative Assistant program. Offered fall term.

AH121 4 credits

Medical Administrative Assistant II

Builds upon the themes and skills introduced in AH120. It focuses on the integration of the skills for the medical office setting and covers more in-depth issues in patient privacy, patient rights and responsibilities, and safety in the workplace. Prerequisite: AH120. Offered winter term.

AH123 2 credits

Legal and Ethical Issues for Medical Personnel

Exposes students to a variety of legal and ethical dilemmas, helping students become more prudent and confident medical assistants or medical administrative assistants. Classroom content includes the legal system, the legal rights that define relationships between individuals, quality assurance, office protocols and patient records, and legal issues that affect employment. Prerequisite: Acceptance into the Medical Administrative Assistant or Medical Assistant program. Offered winter term.

AH130 4 credits

Concepts in Medical Insurance and Billing

Explores the fundamentals of health insurance, reimbursement processes and methodologies, billing cycles, payment systems, fee schedules, charge master, and internal audit processes. It

includes an introduction to how health information technology is used in medical offices. Students will learn how to apply this information to enter patient charges and payments. Prerequisite: Acceptance into any allied health cohort program. Offered winter term.

AH140 4 credits

Basic CPT Coding

Introduces students to the basic concepts and methodology associated with Current Procedural Terminology (CPT) coding including terminology, formatting, basic guidelines, and surgical package concepts. CPT is a set of codes and descriptions developed by the American Medical Association to standardize the identification of services commonly provided by physicians. Additionally, the role of CPT in Healthcare Common Procedure Coding System (HCPCS) coding and the use of codes in reimbursement management will be introduced. Prerequisite: Acceptance into the Medical Coding Specialist program. Offered spring term.

AH141 4 credits

Basic Coding in ICD-10-CM

Accurately identifies the reason for the physician service and supports the medical necessity of services rendered. This course earmarks the various tables and volumes used, indicates the usage of ICD codes for statistical and tracking purposes, and identifies the unique skill sets specific to the professional coding setting. Emphasis is placed on the principles of coding and classification systems used in the assignment of valid diagnostic and/or procedural codes. Prerequisite: Acceptance into the Medical Coding Specialist program. Offered spring term.

AH165 2 credits

Introduction to Pharmacology for Pharmacy Technicians

Introduces the world of pharmacology as relevant to pharmacy technicians, including, medication preparations and dosages, patient conditions related to medications and the effects medications have on the patient's body. It also addresses the pharmacological issues of special populations such as pediatrics, neonatal, and geriatrics. Prerequisites: BT113 or WR115, MTH20, and RD30 or RD90, or designated placement test scores. Offered winter term.

AH170,AH171 2-8 credits each

Medical Assistant Practicum and Seminar

Provides hands-on clinical experience. Students work an average of 12 hours per week in a host site as part of the patient care team and experience first-hand the various operations within a primary, specialty and/or urgent care settings. Students will participate in three seminars during the term – an orientation seminar to discuss expectations for the term; a mid-term seminar to discuss current activities and exchange details on experiences; and a concluding seminar to reflect on work experiences. Prerequisites: Acceptance into the Medical Assistant competitive-entry cohort and successful completion of all first term courses, including AH102. Offered winter and spring terms.

AMERICAN SIGN LANGUAGE

Lower Division Transfer Courses

ASL101,ASL102,ASL103 4 credits each First Year American Sign Language I, II, III

Emphasizes the development of expressive skills, receptive

skills and cultural awareness. Primary focus is on the student's active use of American Sign Language (ASL). Course includes visual readiness skills, ASL vocabulary, deaf culture, and ASL grammar. The 100-level sequence focuses on everyday communication in a conversational environment where grammar is introduced in context with an emphasis on developing question and answering skills. Prerequisite: RD30 or RD90, or designated placement test score; ASL101 for ASL102; ASL102 for ASL103. Offered sequentially in fall, winter and spring terms.

ANTHROPOLOGY

Lower Division Transfer Courses

ANTH110 4 credits

Introduction to Cultural Anthropology

Examines human social organizations, the meaning of culture and its diverse forms and structures, cultural growth and expansion, and the nature of cultural change. Explores various key anthropological topics that may include language, ritual, kinship, the arts, globalization, religion and political and economic structures. Examples are drawn from small scale societies and from industrialized societies. Societies featured may include, but are not limited to, the Trobriand Islanders of the South Pacific and the Ju/'hoansi of Southern Africa. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. Prerequisite: BT113 or WR115 or designated placement test score.

ANTH150 4 credits

Introduction to Archaeology

Introduces the science of archaeology: its history, methods and theory. Citing examples from the prehistoric world, it examines the nature of archaeological data, the application of techniques, and the extrapolation of culture from the archaeological record. In so doing, it illustrates the relationship of culture to environment, a variety of ideas regarding past cultural change, and the role of modern archaeology in preserving the past future generations. Prerequisite: BT113 or WR115 or designated placement test score. Offered in fall and spring terms.

ANTH199 Variable credit

Special Studies: Anthropology

Presents special topics of study in anthropology through workshop, seminar, research, and/or independent study formats. Content varies according to department needs and demand.

APPRENTICESHIP

Career and Technical Courses

APR105 variable credit

Apprenticeship Credit for Prior Learning

Credit awarded for documented work-based learning for registered apprentices and journey persons.

APR107 18 credits

Apprenticeship: HVAC

Represents six required courses offered in six terms during the first two years of the HVAC Apprenticeship program. These courses will supplement on-the-job training with technical training required for trade comprehension, application and practice. Instruction includes the physiology of heating and cooling, modern air conditioning and refrigeration installation, troubleshooting and repair, internal and external controls common to air conditioning, technical mathematics, schematics and electrical circuits. Potential students must be Bureau of Labor and Industries (BOLI)-registered apprentices or electricians holding a journey-level card.

APR111 24 credits

Apprenticeship: Plumbers

Represents six required courses offered in six terms during the first two years of the Plumber Apprenticeship program. These courses will supplement on-the-job training with technical training required for trade comprehension, application and practice. Instruction includes introduction to basic plumbing practices, vocabulary, operation of common equipment of the trade, technical mathematics, creation and interpretation of blueprints, piping and fixture installation and installation of DWV systems. Potential students must be Bureau of Labor and Industries (BOLI)-registered apprentices or plumbers holding a journey-level card.

APR116 18 credits

Apprenticeship: Millwright

Represents six required courses offered in six terms during the first two years of the Millwright Apprenticeship program. These courses will supplement on-the-job training with technical training required for trade comprehension, application and practice. Instruction will include technical mathematics, principles of basic electricity and power transmission, carpentry skills, operation and maintenance of boilers, and cutting and welding techniques used in fabrication. Potential students must be Bureau of Labor and Industries (BOLI)-registered apprentices or millwrights holding a journey-level card.

APR118 18 credits

Apprenticeship: Sheet Metal

Represents six required courses offered in six terms during the first two years of the Sheet Metal Apprenticeship program. These courses will supplement on-the-job training with technical training required for trade comprehension, application and practice. Topics within the courses include safety practices, technical mathematics, drafting for lay out and installation and basic fabrication techniques. Potential students must be Bureau of Labor and Industries (BOLI)-registered apprentices or sheet metal workers holding a journey-level card.

APR120 24 credits

Apprenticeship: Boiler Plant Operator

Represents six required courses offered over six terms during the two years of the Boiler Plant Operator Apprenticeship program. These courses will supplement on-the-job training with technical training required for trade comprehension, application and practice. Instruction includes theory and practice of boiler operation, mechanics of steam-generated power, characteristics of a variety of boiler designs, steam turbine operation, instrumentation and control devices, and installation/maintenance of a heating boiler. Potential students must be Bureau of Labor and Industries (BOLI)-registered apprentices or boiler operators holding a journey-level card.

APR127 22-24 credits

Apprenticeship: Electrical

Represents seven courses offered over six terms during the first two years of the Electrical Apprenticeship program. Courses in this series will supplement on-the-job training with technical training required for trade comprehension, application and practice. Instruction includes electrical theory and circuits, applied mathematics and the principles of power distribution. Advanced topics include operation of single- and three-phase transformers, motors and alternators, DC motors and generators; calculations and tables required in sizing conductors, branch circuits, breakers, junction boxes, motors, generators and transformers. Potential students must be Bureau of Labor and Industries (BOLI)-registered apprentices or electricians holding a journey-level card.

APR129 21 credits

Apprenticeship: Airframe and Power Plant Mechanics

Represents four courses offered over four terms during the 30-month Airframe and Power Plant Mechanic Apprenticeship program. Supplements on-the-job training with technical training required for trade comprehension, application and practice. Instruction includes an overview of aviation, applied electronics, and aircraft systems. Potential students must be Bureau of Labor and Industries (BOLI)-registered apprentices or airframe and power plant mechanics holding a journey-level card.

APR207 18 credits

Apprenticeship: HVAC

Represents six required courses offered over six terms during years three and four of the HVAC Apprenticeship program. These courses will supplement on-the-job training with technical training required for trade comprehension, application and practice. Instruction includes techniques to determine heating and cooling systems based on heat-loss calculations, servicing refrigeration systems, making service estimates, characteristics and installation requirements of a variety of air conditioning systems, advanced control systems, building codes and preparation to successfully complete the HVAC-JATC Journeyman's license test. Potential students must be Bureau of Labor and Industries (BOLI)-registered apprentices or electricians holding a journey-level card.

APR211 24 credits

Apprenticeship: Plumbers

Represents six required courses offered in six terms during years three and four of the Plumber Apprenticeship program. These courses will supplement on-the-job training with technical training required for trade comprehension, application and practice. Instruction includes water supply systems, plumbing DWV systems, backflow prevention techniques, review of the Oregon Plumbing Code and preparation for successful passage of the Oregon plumbing license test. Potential students must be Bureau of Labor and Industries (BOLI)-registered apprentices or plumbers holding a journey-level card.

APR216 16 credits

Apprenticeship: Millwright

Represents six required courses offered in six terms during years three and four of the Millwright Apprenticeship Program. These courses will supplement on-the-job training with technical training required for trade comprehension, application and practice. Instruction will include the theory and practice of metal removal, operation of lathes, mills and grinders, drafting, rigging systems and practices and theory and application of hydraulics and pneumatics. Potential students must be Bureau of Labor and Industries (BOLI) registered apprentices or millwrights holding a journey-level card.

APR218 18 credits

Apprenticeship: Sheet Metal

Represents six required courses offered in six terms during years three and four of the Sheet Metal Apprenticeship program. These courses will supplement on-the-job training with technical training required for trade comprehension, application and practice. Topics covered are advanced techniques in mathematical calculations, duct design, field installation, layout, blueprint interpretation, fabrication of specialty items and basic welding required in sheet metal fabrication. Potential students must be Bureau of Labor and Industries (BOLI)-registered apprentices or sheet metal workers holding a journey-level card.

APR227 24 credits

Apprenticeship: Electrical

Represents six courses offered over six terms during year three and four of the Electrical Apprenticeship program. Required courses are based on the apprentice's field of study. Courses in this series will supplement on-the-job training with technical training required for trade comprehension, application and practice. Courses familiarize the apprentice with the current National Electrical Code (NEC) and include NEC layout, calculations, trade safety, fill, voltage drops, feeders, branch circuits, and grounding. The final three courses include advanced applications and review in preparation for passage of the Oregon Electrical License Examination. Potential students must be Bureau of Labor and Industries (BOLI)-registered apprentices or electricians holding a journey-level card.

APR229 16 credits

Apprenticeship: Airframe and Power Plant Mechanics

Represents three courses offered in the last three terms of the 30-month Airframe and Power Plant Mechanic Apprenticeship program. These courses will supplement on-the-job training with technical training required for trade comprehension, application and practice. Instruction includes trouble-shooting of power plant systems and flight controls, structural inspections and repair and principles of avionics. Potential students must be Bureau of Labor and Industries (BOLI)-registered apprentices or airframe and power plant mechanics holding a journey-level card.

ART

Lower Division Transfer Courses

ART115 3 credits

Basic Design (Composition)

Provides instruction in the basic concepts, vocabulary, and practice of design, emphasizing essential elements and principles of composition. Assignments will deal with processes of creativity, ideation, aesthetic analysis, style and meaning. Students work primarily in black and white media. Skills and experiences acquired in this studio course are applicable to fine arts, crafts and commercial design. Satisfies foundation core requirements for art and graphic design; recommended as a prerequisite for all studio courses.

ART116 3 credits

Basic Design (Color Theory)

Provides instruction in the basic theories and practice of using color through coursework addressing both concept and experience, and also provides a foundation in the vocabulary and practice of color theory. Assignments will deal with color mixing, describing space and shape, basic color relationships, the use of color in image development, and understanding how color relationships affect psychological and visual perception, primarily in subtractive methods. Students explore the analysis of composition with a focus on the use of color and its effects to meet individually-determined designs. This course satisfies foundation core requirements for art and graphic design majors.

ART131 3 credits

Introduction to Drawing (Value)

Explores basic art processes, techniques and media usage, and provides the foundation for the development of creative thinking and self-expression. This course introduces basic principles, methods and media with an emphasis on value drawing. Designed to expand aesthetic awareness, the course assists students in developing a personal visual language by presenting skills to communicate in today's art world. Through a

combination of mini-lectures, demonstrations, studio work, and group discussions, the concepts of light, form, spatial depth, and composition are explored. Offered fall, spring and summer terms.

ART132 3 credits

Introduction to Drawing (Line)

Basic drawing principles, techniques, and media usage are introduced through a combination of mini-lectures, demonstrations, studio work and group discussions. Designed to expand aesthetic awareness, this course assists students in developing a personal visual language by presenting skills to communicate in today's art world. The concepts of line, form, spatial depth, and composition are explored with an emphasis on line drawing. Offered winter and spring terms.

ART133 3 credits

Introduction to Drawing (Mixed Media)

Stimulates creative experimentation with drawing processes through the use of a variety of wet and dry media, collage, transfer and others. This course provides a framework for the development of self-expression and creative thinking skills needed to communicate in today's art world. Introduces the experience of working in a multi-media drawing format through a combination of lectures, studio work and group discussions. Offered spring term.

ART197 3 credits

Gallery Design and Management

Explores the inner workings of a gallery from the perspectives of artist and gallery director. Training includes installation of exhibits, communication with artists, recordkeeping, shipping, and all phases of gallery clerical work and promotion. Discussion focuses on exhibition design and installation as well as contemporary and historical perspectives and critiques. Prerequisites: ART204, ART205, or ART206, WR122, and at least 3 credits in studio art courses. Offered spring term.

ART198 Variable credit

Independent Study: Art (Portfolio)

Develops the knowledge, requirements, and materials needed for creating professional portfolios of creative work for exhibition proposals and admission into art schools. Recommended for art majors. Prerequisites: ART204, ART205, or ART206, WR122, and at least 15 credits of studio art coursework. Offered winter and spring terms.

ART199 Variable credit

Special Studies: Art

Emphasizes study in a variety of art disciplines to fulfill specific educational goals.

ART204 4 credits

History of Art I

Allows both art and non-art majors to gain skills in appreciating, understanding, and evaluating the beauty and meaning in art and life in the context of culture and evolving needs and belief systems. For art majors, a necessary foundation is laid for advanced study in studio art and art history. Students study the history of art in the context of the cultures producing them by studying selected works of painting, sculpture, architecture, and other fine arts, from prehistoric to Gothic periods. Students study the development of art in the Western tradition with reference to major periods and styles of art from the non-Western world, including art from Asia, Africa, the Americas, and the Pacific Islands. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. May require use of the Internet and online college resources. Prerequisite: BT113 or WR115 or designated placement test score. Offered fall and winter terms.

ART205 4 credits

History of Art II

Allows both art and non-art majors to gain skills in appreciating, understanding, and evaluating the beauty and meaning in art and life in the context of culture, and evolving needs and belief systems. For art majors, a necessary foundation is laid for advanced study in studio art and art history. Students study the history of art in the context of the cultures producing them by studying selected works of painting, sculpture, architecture, and other fine arts, from the Renaissance to Baroque periods. Students study the development of art in the Western tradition with reference to major periods and styles of art from the non-Western world, including art from Asia, Africa, the Americas, and the Pacific Islands. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. May require use of the Internet and online college resources. Prerequisite: BT113 or WR115 or designated placement test score. Offered winter, spring and summer terms.

ART206 4 credits

History of Art III

Allows both art and non-art majors to gain skills in appreciating, understanding, and evaluating the beauty and meaning in art and life in the context of culture, and evolving needs and belief systems. For art majors, a necessary foundation is laid for advanced study in studio art and art history. Students study the history of art in the context of the cultures producing them by studying selected works of painting, sculpture, architecture, and other fine arts, from the 18th century to contemporary times. Students study the development of art in the Western tradition with reference to major periods and styles of art from the non-Western world, including art from Asia, Africa, the Americas, and the Pacific Islands. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. May require use of the Internet and online college resources. Prerequisite: BT113 or WR115 or designated placement test score. Offered fall and spring terms.

ART222 3 credits

Graphic Design (Typography)

Acquaints students with the basic concepts needed for entry-level graphics positions. Increases understanding of letterforms, font usage, and changes from media to media, and the effects on viewers. Includes concept design from thumbnail to finished product, skill development as applied to logo, trademarks and business packages, and covers current standards of design. Offered fall term.

ART234 3 credits

Figure Drawing I

Introduces techniques and process in drawing the figure from life. This course provides a framework for the development of self-expression for beginning students and presents advanced students with problem-solving experiences appropriate to issues in contemporary art. Students draw exclusively from live models, both nude and draped, using a range of materials and formats. Through direct observation, anatomical study, historical information and media experimentation, students develop their drawing skills and increase their knowledge of the human figure in art. Offered spring and summer terms.

ART235 3 credits

Figure Drawing II

Continues development of skills in drawing the human primarily from the live model. Emphasis is on developing techniques and facility in representing the figure and on individual style, intent and expression. The course explores historical and contemporary approaches to figurative art as well as creative composition and aesthetic philosophy. Prerequisite: ART234. Offered spring and summer terms.

ART236 3 credits **Figure Drawing III**

Advances study in the use of the human form in art. Students are challenged to become aware of their individual interests and areas for development, and to set and achieve their own artistic goals. Study of the context of contemporary figurative work, composition, problem solving, and creating finished works of art is emphasized. Prerequisite: ART235. Offered spring and summer terms.

ART237 3 credits **Illustration (Black and White Media)**

Introduces traditional (non-computerized) illustration techniques, concepts and practices, allowing students to develop an understanding of how to create an illustration both physically as well as conceptually. The course focuses on black and white media and is designed to increase basic art skills, provide the tools and knowledge for students to successfully complete assigned projects, and develop an understanding of commercial illustration applications. Offered fall, spring and summer terms.

ART238 3 credits **Illustration (Color Media)**

Introduces traditional (non-computerized) illustration techniques, concepts and practices, allowing students to develop an understanding of how to create an illustration both physically as well as conceptually. The course focuses on color and color media and is designed to increase basic art skills, provide the tools and knowledge for students to successfully complete assigned projects, and develop an understanding of commercial illustration applications. Offered winter, spring and summer terms.

ART239 3 credits **Illustration (Perspective)**

A hands-on course designed to develop knowledge and understanding of measured linear perspective drawing. Increases skills and understanding of the principles of one-point, two-point, and three-point rendering in art. Further work on additional skill development as needed for student progress will be included. The knowledge gained is applicable to both commercial and fine art purposes. Offered summer and winter terms.

ART245 3 credits **Drawing for Graphic Design**

Emphasizes conceptualization process through drawing, including the development of thumbnails, brainstorming, research, layout, overlays, and typography, including strategies used in the creation of a graphic design presentation. Students will explore the use of drawing as a tool for visual problem solving, idea generation, visual diagramming and storyboarding, as well as a design/illustration medium for final production work. Projects explore visual languages, storytelling, storyboards and the visual essay. Required as part of the Graphic Design certificate and degree programs. Prerequisites: ART237 or ART238. Offered spring term.

ART253 3 credits **Ceramics I**

Introduces students to the history, technology, design and art of pottery, relating traditional and contemporary methods in contemporary art practice. This course will channel students towards creative thinking, self-expression and self-evaluation. Introduces materials, tools, and techniques in producing ceramic pottery and sculptural forms including hand-building, wheel throwing, glaze application, firing, and other finishes for clay.

ART254 3 credits **Ceramics II**

Continues ART253, and further explores the history, technology, design, and art of pottery. It reinforces expectations for students to achieve their goals, and to understand the continuing change of contemporary ceramic art techniques. Introduces materials, tools, and techniques in producing ceramic pottery and sculptural forms, and includes hand-building, wheel throwing, glaze formulation and application, firing, and other finishes for clay. Prerequisite: ART253.

ART255 3 credits **Ceramics III**

Continues ART254 and further explores the history, science, design, and art of pottery. It will reinforce the expectations of students to achieve their goals and to understand the continuing change of contemporary ceramic art. Introduces students to advanced materials, tools, and techniques in producing ceramic pottery and sculptural forms. Includes hand-building, wheel throwing, glaze formulation and application, firing, and other finishes for clay. Prerequisite: ART254.

ART257 3 credits **Beginning Jewelry and Metalsmithing**

Explores basic metalsmithing processes, techniques and material usage and provides a foundation for the development of creative thinking and self-expression. This course is designed for students with limited or no previous jewelry/metalsmithing experience. Introduces tools and techniques used in working with non-ferrous metals through a combination of demonstrations, studio work and group discussions. Further design awareness, develops step-by-step metals techniques and craftsmanship skills, and explores three-dimensional form as functional or wearable art. Offered fall, winter and spring terms.

ART258 3 credits **Intermediate Jewelry and Metalsmithing**

Explores basic metalsmithing processes, techniques and material usage and provides a foundation for the development of creative thinking and self-expression. This course is designed for students with limited or no previous jewelry/metalsmithing experience. Introduces tools and techniques used in working with non-ferrous metals through a combination of demonstrations, studio work and group discussions. Further design awareness, develops step-by-step metals techniques and craftsmanship skills, and explores three-dimensional form as functional or wearable art. Prerequisite: ART257 or equivalent. Offered fall, winter and spring terms.

ART259 3 credits **Advanced Jewelry and Metalsmithing**

Explores basic metalsmithing processes, techniques and material usage and provides a foundation for the development of creative thinking and self-expression. This course is designed for students with limited or no previous jewelry/metalsmithing experience. Introduces tools and techniques used in working with non-ferrous metals through a combination of demonstrations, studio work and group discussions. Further design awareness, develops step-by-step metals techniques and craftsmanship skills, and explores three-dimensional form as functional or wearable art. Prerequisite: ART258 or equivalent. Offered fall, winter and spring terms.

ART276 3 credits **Sculpture I**

Encourages students to develop critical as well as creative thinking through the exploration of materials, processes, concepts and imagery in three-dimensional art forms. Students will explore a range of sculptural materials and techniques, including an introduction to ZBrush digital modeling software and three-dimensional printing. Offered fall term.

ART277 3 credits **Sculpture II**

Continues study of sculptural materials, techniques, and concepts. Project exercises provide experience in modeling, casting, carving and fabrication processes with a special emphasis on self-expression and concepts. Assignments establish a conceptual format within which to explore creative ideas – the course emphasizes hands-on working experience in a variety of media. Projects are short-term in duration with work in greater complexity, size, and more demanding materials reserved for more advanced coursework. The emphasis is on accomplishment of a diversified experience. Lectures and films provide historical and technical information and students are expected to do outside research. Prerequisite: ART276. Offered fall term.

ART278 3 credits **Sculpture III**

Encourages students to develop critical as well as creative thinking through the exploration of materials, processes, concepts, and imagery. Exposure to a wide range of ideas enables students to develop their own sense of direction. Emphasis is on the exploration and manipulation of form and space in a variety of materials to investigate sculptural expression. Prerequisite: ART277. Offered fall term.

ART280 Variable credit **Cooperative Work Experience/Art**

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program.

ART281 3 credits **Painting I**

Encourages students to develop critical as well as creative thinking through the exploration of materials, processes, concepts, and imagery. Through exposure to a wide range of ideas, students are enabled to develop an individual sense of direction. This course introduces opaque painting techniques using acrylic paints.

ART282 3 credits **Painting II**

Continues concepts and techniques introduced in ART281. Explores a variety of techniques and concepts of various stylistic developments in painting. By focusing on conceptual differences and connections between stylistic periods, students are able to explore techniques developing a broad foundation of ideas and skills as well as facilitating the pursuit of individuality and creative thinking. Prerequisite: ART281 or equivalent.

ART283 3 credits **Painting III**

Continues the methods of instruction introduced in ART281 and ART282, with emphasis on techniques and concepts of realism, consideration of value structure, sophistication of color scheme, and illusion of imagery. Prerequisite: ART282 or equivalent.

ART287 3 credits **Aqueous Media/Airbrush I**

Introduces airbrush painting as applied to the commercial art field of illustration. The operation and care of airbrush equipment are covered, and students gain hands-on experience working in a variety of exercises to give them a basic knowl-

edge of airbrush techniques. Students will learn about the use of airbrush in commercial art and the different techniques that develop artwork used in advertising and fine art. Offered spring term.

ART288 3 credits

Aqueous Media/Airbrush II

Continues techniques and methods used in ART287 and develops more talent and interest in illustration by using the airbrush. Textures, patterns and color, with the added use of lettering, are used to develop camera-ready art work in four different projects. Continues work with students in developing portfolios that can be shown at any job interview. Prerequisite: ART287. Offered spring term.

ART294 3 credits

Watercolor I

Introduces basic transparent watercolor and basic painting processes and techniques for the development of creative thinking and self-expression. Designed to expand aesthetic awareness and develop a personal visual language along with the skills to communicate in today's art world. A combination of mini-lectures, demonstrations, studio work and group discussions emphasize the characteristics of the materials, color theory, and a variety of painting styles and imagery.

ART295 3 credits

Watercolor II

Continues the exploration of basic transparent watercolor techniques along with the introduction of more experimental approaches. Designed to expand aesthetic awareness and develop a personal visual language along with the skills to communicate in today's art world. Students are required to demonstrate mastery of basic painting processes and techniques that provide the foundation for the development of creative thinking and self-expression. This course is a combination of lectures, demonstrations, studio work and group discussions that emphasize the characteristics of the materials, color theory and a variety of painting styles and imagery. Prerequisite: ART294.

ART296 3 credits

Watercolor III

Offered in a semi-directed format allowing students to develop a creative thinking and self-expression approach to painting style and imagery. Designed to expand aesthetic awareness and develop a personal visual language along with the skills to communicate in today's art world. Course assignments explore series development, media experimentation and mastering techniques. The emphasis is on individual development of imagery and style. A combination of mini-lectures, demonstrations, studio work and group discussions focus on the materials, theory, and philosophies of watercolor painting. Prerequisite: ART295.

ART299 Variable credit

Special Studies: Art

Emphasizes advanced study in a variety of art disciplines (drawing, watercolor, ceramics, sculpture, painting, etc.) to fulfill specific educational goals and further development in both technique and creative processes.

AUTOMOTIVE TECHNOLOGY

Career and Technical Courses

AM111 7 credits

Electricity for Automotive Technicians

Introduces the fundamentals of basic electricity and the use of electrical service and testing equipment. Provides instruction in all phases of starting and charging systems. Emphasis is on hand-held instruments and basic trouble-shooting techniques. Course required for all entering Automotive Technology students (may be waived for equivalent work experience and ASE

Electrical Systems certification). Prerequisites: AM120 and AM122. Offered winter term.

AM120 6 credits

Automotive Maintenance and Trades Practices

Introduces basic mechanical shop safety and industrial practices, professionalism and ethics, shop tools and equipment use, and basic automotive maintenance. Course required for all entering Automotive Technology students (may be waived for College Now credit). Program students have priority for enrolling in this class. Prerequisites: MTH20, RD30 or RD90, and BT113 or WR115, or designated placement test scores. Offered fall and spring terms.

AM122 7 credits

Gasoline Engines Rebuild

Reviews theory and construction of various gasoline internal combustion engines, proper disassembly and reassembly, and measuring of engine components to determine wear. Includes car servicing and testing of various systems related to basic engine operation. Dual numbered as DS112. Prerequisites: MTH20, RD30 or RD90, and BT113 or WR115, or designated placement test scores. Offered fall term.

AM131 7 credits

Engine Dynamics and Diagnosis

Provides students with basic engine performance skills. Topics covered are basic and electronic ignition systems, basic fuel systems, oscilloscope diagnosis, emissions systems, infrared diagnosis, and mechanical diagnosis. Prerequisite: AM120 or AM122. Offered winter term.

AM141 6 credits

Manual Transmissions and Transaxles

Covers theory of operation, maintenance, diagnosis, and repair of manual transmissions and transaxles, clutches, drive axles, and four-wheel and all-wheel drive systems. Prerequisites: AM111 and AM120 or advisor approval. Offered spring term.

AM151 6 credits

Automotive Brake Systems

Covers the principles of brake operation, function, and design as well as troubleshooting, overhauling, repairing, and servicing of automotive brake systems. Prerequisites: AM111 and AM120. Offered spring term.

AM160 6 credits

Automotive Suspension and Steering Systems

Focuses on the diagnosis and repair of major under car components and wheel alignment. Topics covered are suspension and steering systems as well as front- and rear-wheel alignment. Prerequisites: AM111 and AM120 or advisor approval. Offered fall term.

AM190 4 credits

Automotive Repair Lab I

Provides live work experience in all aspects of repair expected of entry-level line technicians. Includes basic engine performance, diagnosis and repair of engines, chassis, power trains, and basic electrical systems. Primarily designed for first-year students or those with appropriate skill levels. Prerequisites: AM111 and AM120 or instructor approval. Offered summer term.

AM199 1-8 credits

Selected Topic Workshop

Focuses study in a variety of mechanical technology topics to fulfill specific educational goals. Prerequisites: AM111 and AM120 or approval of instructor.

AM210 3 credits

Mechanical Careers Development

Acquaints students with industry expectations related to professionalism. Includes effective employee/employer relations, and job search skills. Course designed for second-year students. Prerequisites: AM111 and AM120 or advisor approval. Offered spring term.

AM232 7 credits

Computerized Engine Management Systems

Provides students with computer-managed engine performance skills. Topics covered are computer engine control systems, fuel injection, turbo-charging, and the use of sophisticated electronic test equipment to diagnose problems in these systems. Prerequisite: AM131 or advisor approval. Offered fall term.

AM233 7 credits

Advanced Automotive Computer Systems

Topics include OBDII systems, network computer systems, airbag system diagnosis, anti-lock brake diagnosis, electronic instrument clusters, security systems, and various other automotive computer systems. Prerequisite: AM232. Offered winter term.

AM242 7 credits

Automatic Transmissions and Transaxles

Covers theory of operation, diagnosis, maintenance, and repair of automotive automatic transmissions and transaxles. Prerequisite: AM141. Offered winter term.

AM252 4 credits

Advanced Diagnostic Lab

Applies basic electronic theories and concepts to advanced diagnosis and repair of modern microprocessor-controlled automobile systems. A review of basic electrical fundamentals moves rapidly into more advanced electronic devices and circuits. This course can be modified day-to-day in order to review prior course content. Designed for second year students in their final term. Prerequisites: AM111, AM232, and AM233 or instructor approval. Offered spring term.

AM270 5 credits

Air Conditioning for Automotive Technicians

Covers vehicle automotive air conditioning systems theory and operation. Uses industry identified skills for diagnosis, repair, and servicing of R12 and R134A systems. Also covers government regulations in the safe handling of refrigerants. Prerequisites: AM111 and AM120 or approval of advisor. Offered summer term.

AM280 Variable credit

Cooperative Work Experience/ Automotive

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program. Prerequisites: Students must be automotive majors and have the approval of the CWE advisor.

AM290 4 credits

Automotive Repair Lab II

Continues building skills, knowledge, and work habits related to all types of automotive repair work performed in the industry. Course is for second-year students or can be taken in place of cooperative work experience. Prerequisite: AM190 or completion of 3 credits of AM280. Offered spring term.

BIOLOGY

Lower Division Transfer Courses

BI100GB 3 credits

Introductory Biology

Explores the principles of biology including the chemical and cellular level of organisms, the development and function of organismal structures, and the interaction of organisms in ecosystems. Designed for students who are not science majors and do not need a laboratory science course. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores.

BI100SB 3 credits

Biology of Human Body Systems

Presents a rational and systematic observation of the human body and allows identification, description and discussion to create a basic understanding for students interested in the Basic Health Care certificate or anyone interested in a basic understanding of how the human body works. Topics include body organization, basic chemistry, cell structure and function, tissues, and an overview of the major body systems. Prerequisite: RD30, RD90, or designated placement test score.

BI101 4 credits

Introduction to Biology I w/Lab

Provides an overview of important principles, concepts and topics in biology. Designed for non-majors or those interested in learning more about biology. Science majors and pre-allied health professionals should take the 200-level biology series. Topics covered include atoms and molecules, basic chemistry, cell structure and function, cell respiration, cell division, photosynthesis, DNA structure, protein synthesis, and basic genetics. Prerequisites: MTH60, RD30 or RD90, or designated placement test scores.

BI102 4 credits

Introduction to Biology II w/Lab

Provides an overview of basic animal anatomy and physiology with a special interest to humans. Designed for non-majors or those interested in learning more about biology. Science majors and pre-allied health professionals should take the 200-level biology series. Topics and systems covered include homeostasis, hormones, digestive system, circulation, lymphatic system, circulatory system, immunity, nervous system, urinary system, and reproduction. Prerequisite: BI101 recommended. Offered winter term.

BI103 4 credits

Introduction to Biology III w/Lab

Provides an overview of plants, microbes, fungi and ecology. Designed for non-majors or those interested in learning more about biology. Science majors and pre-allied health professionals should take the 200-level biology series. Topics covered include basic evolution, classification, microbes, fungi, plant structure and function, planet diversity, populations, communities, and human impact on the environment. Prerequisite: BI101 recommended. Offered spring term.

BI121 4 credits

Elementary Anatomy and Physiology I w/Lab

Covers basic anatomy and physiology for Massage Therapy and Practical Nursing program students. Includes body organization, basic chemistry, cell structure and function, tissues, integumentary system, skeletal system, nervous system, and reproductive system. Dissection required. Students must enroll in lecture and laboratory sections. Prerequisites: RD30 or RD90 or designated placement test score; MO100 and CHEM104 highly recommended. Offered fall and summer terms.

BI122 4 credits

Elementary Anatomy and Physiology II w/Lab

Covers essential anatomy and physiology of the following body systems: cardiovascular, endocrine, lymphatic, immune, respiratory, digestive, and urinary-electrolytes and reproductive. Dissection required. Students must enroll in lecture and laboratory sections. Prerequisites: BI121; AH100 and CHEM104 highly recommended. Offered fall and winter terms.

BI199 Variable credit

Special Studies: Biology

Provides instruction in a variety of science disciplines, often in a workshop or seminar setting.

BI211 4 credits

General Biology I w/Lab

Designed primarily for pre-professional students majoring in the biological sciences, science education, and related allied health fields. Covers the molecular and cellular aspects of biology including the scientific method, cell structure and function, biological membranes, cell division, inorganic, organic and biochemistry, enzymes, cellular respiration, biochemical genetics, basic heredity, genetic engineering and DNA-RNA-protein synthesis mechanisms. Prerequisites: MTH60, RD30 or RD90, or designated placement test scores; CHEM104 highly recommended.

BI212 4 credits

General Biology II w/Lab

Designed primarily for pre-professional students majoring in the biological sciences, science education, and related allied health fields. Covers the basic principles of Darwinian evolution, evolution of populations and speciation; describes the structure, function and impact of viruses and bacteria; and provides an overview of the protist and animal kingdoms with emphasis on the major characteristics and importance of organisms in the taxa of each kingdom. Prerequisite: BI211. Offered winter term.

BI213 4 credits

General Biology III w/Lab

Designed primarily for pre-professional students majoring in the biological sciences, science education, and related allied health fields. Topics include discussion of the fungal and plant kingdoms; the structure, growth, function and differentiation of leaves, roots, stems, flowers and plant reproduction; and basic principles of ecology the includes communities, population, ecosystems, the ecosphere and human impact on the environment. Prerequisite: BI211 or BI212. Offered spring term.

BI231 4 credits

Anatomy and Physiology I w/Lab

The first term of a three-term sequence. This course benefits students entering health professions, physical education and pre-professional medical or veterinary degrees. Emphasis is placed on the structure, function and regulatory mechanisms of the tissues, skin, skeleton, muscles and neurons. Includes a laboratory component that requires dissection. Prerequisites:

BT113 or WR115 or designated placement test scores and BI211 or approved allied health biology course; CHEM104 highly recommended.

BI232 4 credits

Anatomy and Physiology II w/Lab

The second term of a three-term sequence. This course benefits students entering health professions, physical education and pre-professional medical or veterinary degrees. Emphasis is placed on the structure, function and regulatory mechanisms of the nervous, endocrine, special sense and circulatory systems. Includes a laboratory component that requires dissection. Prerequisites: BI231; CHEM104 highly recommended.

BI233 4 credits

Anatomy and Physiology III w/Lab

The third term of a three-term sequence. This course benefits students entering health professions, physical education and pre-professional medical or veterinary degrees. Emphasis is placed on the structure, function and regulatory mechanisms of the lymphatic, immune, digestive, urinary, reproductive systems and acid/base and electrolyte balance. Includes a laboratory component that requires dissection. Prerequisites: BI231 or BI232; CHEM104 highly recommended.

BI234 4 credits

Microbiology w/Lab

Studies living microorganisms, particularly bacteria and viruses. May also emphasize molds, yeast, and protozoa. Students must enroll in lecture and laboratory sections. Prerequisite: BI211 or approved allied health biology course; CHEM104 highly recommended. Offered fall, winter and spring terms.

BI272 4 credits

Introduction to Ecology w/Lab

Provides a general, non-technical introduction to ecology as a science including perspectives of relationship of environment to organisms. The role of human activities also is investigated. Students must enroll in lecture and laboratory sections. Prerequisite: Any 100- or 200-level lab science course. Offered infrequently.

BI280 Variable credit

Cooperative Work Experience/ Biology

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program.

BUSINESS ADMINISTRATION

Lower Division Transfer Courses

BA101 4 credits

Introduction to Business

Introduces the history of business and economic systems in America. Covers the structure of business organizations by taking students through each of the functional areas of business: management, marketing, finance and accounting. The purpose of the class is to familiarize students with basic business principles and concepts through the use of terminology and examples. Students will also become familiar with the major

sections of a basic business plan and the key elements found in each section. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores.

BA109 2 credits

Ready, Set, Work: Techniques for Landing a Job

Prepares students for employment by focusing on resume, cover letter, and application preparation; interview presentation; job search techniques; work ethic and professional image; interpersonal relationships; and business etiquette in the workplace. Students are expected to have completed most of their coursework toward a certificate or degree program before enrolling in this class. All students, both in-class and online, must complete an in-person, panel interview to pass the class (telephone or video-conferencing interviews do not meet this requirement). Prerequisites: BA131 or CS120 and BT113 or WR115.

BA131 4 credits

Introduction to Business Computing

Covers basic computer applications for business. Students will gain hands-on experience with Microsoft Office 2016 applications using file management, email, word processing, spreadsheet, media presentation, and desktop information management software to create a variety of business documents, spreadsheets, and PowerPoint slide shows. Students must have access to the following Microsoft applications: Word 2016, Excel 2016, Outlook 365, and PowerPoint 2016. Prerequisites: MTH20 and BT113 or designated placement test scores; CS60 as needed.

BA177 3 credits

Payroll and Tax Procedures

Emphasizes understanding of the federal and state payroll laws and regulations, calculating earnings and deductions, preparing payroll records, understanding and preparation of federal and state payroll tax deposits and tax returns, and accounting for payroll. Prerequisites: BA131, BA211 or BT151; BA285 or CS125SS recommended. Offered winter and spring terms.

BA180 Variable credit

Cooperative Work Experience/ Business

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their program. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, students should complete this course within the last two terms of their certificate. Note: This course will not fulfill the Cooperative Work Experience requirement on the two-year Business Technology AAS degree. Prerequisites: BA109 and permission of CWE instructor.

BA199 Variable credit

Special Studies: Business

Offers selected topics of study in business through workshop, seminar, and independent study formats. Offered on demand. Prerequisite: Permission of instructor.

BA206 3 credits

Management Fundamentals

Emphasis is on the four functions of management (planning, organizing, directing and controlling) from a socially responsible and ethical view. Students will be able to distinguish among different types of plans, develop mission statements, set goals and objectives, design an organizational structure and recognize staffing and training issues. Exposure to motivation

and leadership theories, managing human resources, working in teams, and evaluation of the planning process are included. Prerequisites: BA101; BT101 and BT102 recommended. Offered winter term.

BA211 4 credits

Financial Accounting I

Introduces financial accounting theory including the accounting cycle, analysis and recording of transactions, and reporting financial information in accordance with generally accepted accounting principles (GAAP). Includes accounting for cash, receivables, long-term assets, inventory, internal controls, ethics and accounting technology ecosystems. Prerequisites: BA131 and BT160 or higher level math. Offered fall, winter and summer terms.

BA212 4 credits

Financial Accounting II

Continues the study of financial accounting theory with more in-depth study of asset, liability, and equity accounting in accordance with generally accepted accounting principles (GAAP). Includes accounting for receivables; plant assets, natural resources, and intangibles; current and long-term liabilities; investments; payroll; stockholders' equity; and secondary stock markets. Prerequisites: BA211 or approval of instructor. Offered fall, winter and spring terms.

BA213 4 credits

Managerial Accounting

Covers the preparation of the statement of cash flows and financial statement analysis, the foundations of management accounting including various types of business enterprise cost accounting systems, analyzing cost/volume/profit relationships, management planning and budgeting, evaluating performance, and capital investment decisions. Uses word processing, spreadsheet, and general ledger software when applicable. Prerequisites: BA211 or approval of instructor. Offered winter, spring and summer terms.

BA214 4 credits

Business Communications

Focuses on planning, creating, writing, and revising typical business documents such as letters, memos, reports, and presentations using current communication technologies (word processing, spreadsheets, graphical presentations, email, and the Internet). Understanding the purpose of communication in business is also covered. Use of word processing software for in-class/online assignments and examinations is required. Prerequisites: BA131 or CS120, BT114 or WR121, Internet access and working email account; LIB127 (may be taken concurrently); CS125WW recommended. Offered fall, spring and summer terms.

BA218 3 credits

Personal Finance

Introductory course designed to acquaint the student with principles, terminology, and concepts of personal financial management. Examines consumer protection, budgeting, wise spending habits, avoiding frauds/swindles, purchasing/leasing cars, home rental/purchase decisions, wise use of credit, comparison of home/health/life insurance, investing, estate planning, and other issues affecting personal financial decision making. Prerequisites: BT160, RD30 or RD90, and WR30 or WR90, or designated placement test scores. Offered fall, winter and summer terms.

BA223 3 credits

Principles of Marketing

Comprehensive course designed to acquaint the student with basic marketing principles, terminology, and applied marketing concepts. Introduces basic concepts of product

development, branding, pricing, promotion, and distribution. Consumerism, social and legislative issues, and marketing research are also covered. Prerequisites: BT113 or WR115 and RD30 or RD90, or designated placement test scores; BA101 recommended. Offered winter and summer terms.

BA224 3 credits

Human Resource Management

Builds on the information contained in BT101 and BT102. Introduces traditional, current and emerging human resource management (HRM) practices. Students will develop practical and realistic approaches to HRM by focusing on the functions of a human resources department and the responsibilities of a human resources director. Students will be able to assess HRM skills; describe current best practices in HRM; explain the process of selecting, placing and training employees; explain how diversity is managed in the workplace; prepare employee performance appraisal tools; tie compensation to performance; describe minimum health and safety measures required to protect employees; and explain how to effectively deal with labor unions. Prerequisites: BT101 or PSY101 and BT113 or WR115; BT102 and BA206 recommended. Offered winter term.

BA226 4 credits

Business Law

Presents a brief introduction to the American legal system, structure of state and federal court systems, pertinent business legislation, Uniform Commercial Code, and obligations arising from tort law. Emphasis on formation, performance, discharge, and interpretation of contracts. Third party contracts, warranties, and product liability issues are also covered. Prerequisites: BT114 or WR121.

BA228 2 credits

Computer Accounting Applications

Covers the application of integrated software (QuickBooks) as an accounting tool in service and merchandising companies. Includes general ledger, accounts receivable, accounts payable, inventory, and payroll. Emphasis is on incorporating knowledge of manual accounting into a computerized system. Prerequisites: BA131 and BA211 or BT151. Offered fall and spring terms.

BA243 3 credits

Social Media Marketing

Covers the basics of social media marketing, creating online conversations through social media outlets, social media strategy, branding through social media sites, value in the organization's content, aligning offline marketing strategies with social media, and why a social media consultant may be a viable solution to social media goals. Prerequisites: BT114 or WR121, RD30 or RD90, or designated placement test scores; BA223 recommended. Offered spring term.

BA249 3 credits

Retail Management

Introduces students to the field of retailing and provides an understanding of the types of businesses, strategies, operations, formats and environments through which retailing activities are carried out. Course takes a multi-disciplinary approach to consider the process and structure of retailing. Topics include planning, research, consumer behavior, store design and layout, merchandising strategy, management strategy, promotional strategy, and pricing strategy. Students will be able to discuss the overall importance of retailing and how it fits into the marketing environment, understand who the retail customer is, and apply the "four Ps" of marketing to the retail sector. Prerequisites: BA101; BT114 or WR121 and RD30 or RD90, or designated placement test scores; BA223 recommended. Offered fall term.

BA280 Variable credit **Cooperative Work Experience/** **Business**

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program. Prerequisites: BA109 and permission of Business Technology CWE instructor.

BA282 4 credits **Applied Business Statistics**

Builds on the basic knowledge and skills learned in MTH243 and utilizes spreadsheet skills gained in BA285. Students will use Excel extensively to solve statistical problem. Emphasis is on the understanding and application of hypothesis testing, analysis of variance (ANOVA), correlation and regression, and Chi-square techniques. Designed to provide students with analytical skills they will need in upper-division business courses including accounting, finance, operations management and applied research. Dual numbered as MTH244. Prerequisites: RD30 or RD90, BA131 or CS120, and MTH243; BA285 or CS125SS recommended. Offered winter, spring and summer terms.

BA285 4 credits **Advanced Business Applications:** **Excel**

Course is designed for students in any discipline. Includes hands-on approach to develop a competency in basic and advanced concepts and commands of spreadsheet software. Students will learn to design, set up, and print a variety of spreadsheet applications. Microsoft Excel will be used to develop materials. Emphasis will be placed on using spreadsheet data for problems analysis. Dual numbered as CS125SS. Prerequisites: CS120 or BA131 and MTH65 or BT160.

BUSINESS TECHNOLOGY

Career and Technical Courses

BT101 3 credits **Human Relations in Organizations**

Uses current research, lecture, class discussion, group activities, videos, guest speakers, and supplemental exercises to examine common situations and problems in human relations in organizations. Includes ethics, communication, group dynamics, power and influence, self-awareness (communication styles, self-esteem, attitudes, emotions, and ethics), workplace diversity, motivation, trust-building, self-disclosure, teamwork, and conflict management. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores.

BT102 3 credits **Introduction to Supervision**

Builds on information covered in BT101. Focuses on skills and techniques for current and potential supervisors with emphasis on day-to-day strategies that first-line managers use when directing and evaluating employees. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores, and BT101. Offered fall and spring terms.

BT105 3 credits **Business Ethics**

Business ethics are important skills in the business environment. Developing the ability to recognize and analyze ethical situations is becoming more critical for successful business organizations. This course explores the multi-level effects of business decisions, emphasizing contemporary topics in business ethics. Panel discussions, article reviews, role-playing, guest speakers, and case studies are used to develop skills in recognizing and resolving ethical issues in business. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores. Offered fall, spring and summer terms.

BT106 3 credits **Advertising**

Provides insight into the role of advertising and integrated brand promotion. Each specific advertising medium will be covered in detail. Both traditional and emerging advertising media will be covered. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; BA223 recommended. Offered winter term.

BT111 2 credits **Conflict Management**

Provides students with the skills to turn conflict into a positive experience. Students will identify what conflict is, positive and negative aspects of conflict, types and sources of conflict, and strategies in dealing with conflict. Through the use of self-assessment instruments, students will identify their personal conflict management style(s). Other topics include emotional aspects of conflict, determining which approaches to conflict management are overutilized and underutilized, and stress and anger management strategies used in conflict management. Prerequisite: BT113 or WR115 or designated placement test score.

BT113 4 credits **Business English I**

Gives students a firm and thorough foundation in the fundamentals of business writing by focusing on grammar basics, mechanical skills in writing, sentence structure, proofreading and editing skills, and vocabulary development. The course surveys the basic conventions, purposes, and strategies of standard written English, and therefore develops students' confidence in their own ability to write effectively at the college level. Students are given extensive practice in these areas, applying what they have learned to typical business situations, language, and formats. Special attention is given to paragraph and essay development. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores. Offered fall, spring and summer terms.

BT114 4 credits **Business English II**

Increases student proficiency in writing clear, well-developed, well-organized, articulate business messages, with emphasis on advanced grammar application, proofreading, and business research. This course teaches advanced grammar concepts, reinforcing knowledge of sentence structure, basic paragraph and essay development and organization, basic punctuation, verbal phrases, redundancies, consistency in verb tense, pronoun agreement, subject/predicate agreement, parallel structure, and advanced uses of punctuation. In addition to strengthening grammar skills, students will apply those skills to a second objective: developing proficiency in writing clear, detailed, and organized expository prose. Students will be given frequent practice in crafting a topic sentence or thesis, targeting an audience, developing a message, and persuading an audience. Additionally, students will gain research practice with APA citation format. Prerequisites: BT113; LIB127 and BA131 (may be taken concurrently); CS125WW recommended. Offered fall, winter and spring terms.

BT121 4 credits **Digital Marketing and e-Commerce**

Introduces the use of the Internet to improve business profit through e-Commerce. Includes an introduction to the World Wide Web, e-business ideas, e-business planning, legal issues, Web design, security issues, evaluation of the e-business optimal product, e-marketing, payment options, using the Internet for alternative sources of supply, competitive intelligence, setting up a mall storefront, e-customer service, and creating the virtual storefront. Applies the "four Ps" of marketing to online and/or existing "bricks and mortar" businesses, while determining strategies on how to best use the Internet to improve customer relations. A special focus will be given to search engine optimization. Prerequisites: BT113 or WR115 and BA131 or CS120. Offered winter term.

BT160 4 credits **Business Math**

Introduces math applications used in business including percentages, fractions, interest (compounding, present value, future value), and other common business applications. A Texas Instruments BA II Plus or TI-83/84 calculator is recommended. Prerequisites: MTH20 and RD30 or RD90, or designated placement test scores.

BT178 3 credits **Customer Service**

Introduces students to the concepts of exceptional customer service (from the top down) in order to attract and retain customers and maximize profits. Customer loyalty, principles of quality customer service, service recovery, attitudes and habits that affect service, dealing with difficult customers, active listening to determine customer needs, effective communication, communication with a diverse customer population, hiring/motivating and training service people, performance-enhancing feedback, and measurement of service performance will be covered. Useful for employees in all professions that deal with serving customers. Prerequisites: BT101 or PSY101 and BA131 or CS120; BT113 or WR115 and RD30 or RD90, or designated placement test scores. Offered fall, spring and summer terms.

BT250 3 credits **Entrepreneurship**

Acquaints students with the principles, terminology, and practical concepts related to the field of small business and entrepreneurship. Students will be able to describe the entrepreneur's mind set, define the characteristics of successful entrepreneurs and debunk common myths about them, and identify sources of successful business ideas. Students will also be able to differentiate among various small business entry strategies, assess marketing techniques used by entrepreneurs, compare/contrast sources of financing, and analyze the advantages and disadvantages of franchising as a means of starting a business. The culminating project in this class is an interview with a local entrepreneur and a formal, written summary of that interview. Prerequisites: BT114 or WR121 and RD30 or RD90. Offered spring term.

BT265 3 credits **Writing a Business Plan (Capstone)**

This final capstone project allows students to integrate the four functional areas of business (accounting, finance, management, and marketing) by creating and presenting a fully developed, professional business plan and competitive strategy. The final business plan will follow the format of standard business plans, including the executive summary, company description, industry analysis, management plan, marketing plan, operational plan and financial plan. Students will also orally present their business plans to the class, using appropriate technology. Students will learn to work with other stakeholders in refining

their plans through interviews with relevant local businesses, business associations and peer review. Prerequisites: BA101, BA131, BA212 and BA223; BA109 may be taken concurrently. Offered spring term.

CAREER AND GUIDANCE

Lower Division Transfer Courses (except where noted)

CG90 0 credits

Student Assistants' Training

Provides training in communication skills and referral techniques for locating college and community-based resources/services. Students serve as resource personnel to assist and refer other students with personal, social or academic concerns. Course does not transfer.

CG100 1-3 credits

College Success and Survival

Introduces students to aspects of academic success centering on strategies for discipline-specific and delivery-specific study habits, Web-based resources, and tools. This class also focuses on achieving positive outcomes in the academic environment by using the frameworks of teaching and learning style interactions, college systems understanding, positive behavior, and communication skills, and helps students make personal and social adjustments for college success. Focuses on college terms and information; class choice, degree requirements, use of library, and student services; balancing work, school and home demands; financial planning; forming study partnerships; and stress and time management. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores.

CG105 1 credit

Finding the Money: Scholarship Essay Writing

Teaches students to write effective scholarship essays and develop their own personal essays from initial draft to final essay format. This class explores resources for funding college education, and strategies for effective research via the Internet. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores. Offered fall, winter and spring terms.

CG111 1 credit

Study Skills for College Learning: Math Success

Provides students information, techniques, strategies and skills helpful in becoming more efficient in time management, studying, listening, note taking, exams, and stress reduction; addresses basic principles of psychology of learning and assists in creating positive tools towards successful math completion. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores, and concurrent enrollment in a math class.

CG114 1 credit

Financial Survival for College Students

Provides students with general information and strategies on how to make fiscally wise choices for their education and future. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores. Offered fall term.

CG140 3 credits

Career Development

Provides tools needed to make an informed career decision and set educational goals. The course includes self-assessment tools, career exploration options, guest speakers and field trips. Use of the RCC website and Career Pathways roadmaps are

included. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores. Offered winter term.

CG144 1 credit

Introduction to Assertiveness Training

Examines assertiveness and its relationship to personality development. Focuses on responsible assertive behavior in everyday life, emphasizing communication that respects self and others. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores. Offered winter and spring terms.

CG145 3 credits

Stress Management for Veterans

Assists both post-deployed and veteran students in making a positive transition from military to civilian life, or from deployment to post-deployment life, and is designed for combat veterans of any era. Students will learn strategies to assist in healthy stress management promoting greater success in academia, at work, in relationships, and in other social settings. Students learn strategies to more effectively manage stress (emotional, psychological, combat, physiological, and social, including Post-Traumatic Stress Disorder). In addition, students will develop college and career goals resulting in a healthy transition plan. Prerequisite: WR30 or WR90 or designated placement test score. Offered infrequently.

CG147 1 credit

Decision Making

Develops an awareness of decision-making styles and encourages the practice of different decision-making styles to make effective educational and career choices. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores.

CG150 3 credits

Exploring Careers in Science and Technology

Explores living wage careers in science, technology, engineering and math (STEM). Students examine the changing roles of men and women in the workplace, and explore and perform trades and technical skills. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores. Offered infrequently.

CG155 3 credits

Exploring Careers in Health Care

Introduces students to a comprehensive range of health care professions. Students will explore career choices including educational requirements, job outlooks, occupational requirements, wage ranges and professional requirements. In addition, students will complete self-assessments using the Holland Code Quiz, the RCC Career Pathway and Health Careers Today to help determine which health careers are a good match for their interests and skills. This is a hybrid course that requires work in class and online. Prerequisites: RD30 or RD90 or designated placement test score; BT113 or WR115 (may be taken concurrently); ability to use the Internet, email, and the Rogue Online course management system is also required.

CG199 1 credit

Special Studies: Sexual Awareness

Allows students to explore societal trends, communication barriers, how the sexes portray each other, relationship conflicts, assertiveness, how our beliefs begin, what our responsibility is to ourselves and each other, and the benefits of healthy interactions. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores. Offered fall term.

CG213 3 credits

Improving Parent-Child Relationships

Presents a coherent approach to positive parenting and is flexibly designed to meet parents' varying needs and schedules.

Specific parent-child interactions are analyzed and practical steps for effective interaction are identified. Prerequisites: RD30 or RD90 and BT113 or WR115; CS120 highly recommended. Ability to use the Internet, email, and the Rogue Online course management system is also required. Offered winter term.

CHEMISTRY

Lower Division Transfer Courses

CHEM104 5 credits

Introductory Chemistry I w/Lab and Recitation

Designed for allied health or non-science majors and those who do not intend to be chemists or biologists. Introduces the essence of atoms and molecules, chemical bonds, chemical reactions, gases, acids, and bases. Prepares students for work in a laboratory that uses chemicals. Also helps students understand how cells and organisms function. Students must enroll in lecture, laboratory and recitation sections. Prerequisites: MTH65 and RD30 or RD90, or designated placement test scores.

CHEM105 5 credits

Introductory Chemistry II w/Lab and Recitation

Designed for allied health or non-science majors and those who do not intend to be chemists or biologists. Introduces the essence of nuclear chemistry and organic chemistry. Prepares students for work in a laboratory that uses chemicals. Also helps students understand how cells and organisms function. Students must enroll in lecture, laboratory and recitation sections. Prerequisite: CHEM104. Offered winter term.

CHEM106 5 credits

Introductory Chemistry III w/Lab and Recitation

Designed for allied health or non-science majors and those who do not intend to be chemists or biologists. Introduces the essence of biochemistry. Builds on information gained in CHEM105 and helps students understand the role of biochemistry in the function of cells and the human body. Students must enroll in lecture, laboratory and recitation sections. Prerequisite: CHEM105. Offered spring term.

CHEM221 5 credits

General Chemistry I w/Lab and Recitation

Presents chemistry to pre-professional students interested in science careers (chemistry, geology, physics, biology), engineering, medicine, and veterinary medicine. Introduces the concepts of atomic chemistry, chemical equations, stoichiometry, the gas laws, thermochemistry, the periodic table, and chemical bonding. An introduction to the chemical laboratory is presented. Students must enroll in lecture, laboratory and recitation sections. Prerequisite: CS120 recommended. Corequisite: MTH95. Offered fall term.

CHEM222 5 credits

General Chemistry II w/Lab and Recitation

Continues topics presented in CHEM221. Exposes students to the liquid and solid states of matter, solution properties, kinetics, equilibrium, acids and bases, and chemical solubility. More complex instruments and tools found in chemical laboratories are introduced and used in the lab. Students must enroll in lecture, laboratory, and recitation sections. Prerequisite: CHEM221. Corequisite: MTH111. Offered winter term.

CHEM223 5 credits **General Chemistry III w/Lab and Recitation**

Completes general chemistry sequence. Presents a deeper view of thermochemistry, electrochemistry, nuclear chemistry, descriptive chemistry of the periodic table, the transition metals, and introduces organic chemistry and biochemistry. Students must enroll in lecture, laboratory, and recitation sections. Students are directed in the use of laboratory instrumentation to complete projects through the term in addition to structured laboratory exercises. Prerequisite: CHEM222. Corequisite: MTH112. Offered spring term.

CHEM280 Variable credit **Cooperative Work Experience/ Chemistry**

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program.

COMMUNICATIONS

Lower Division Transfer Courses

COMM201 4 credits **Media and Society**

Introduces the study of mass communication, exploring such areas as media theory, ethics, media production, content, and societal impact. Prerequisites: RD30 or RD90 and WR121. Offered infrequently.

COMM225 4 credits **Small Group Communication and Problem-solving**

Examines the nature of communication in a group or team context. Students will learn about individual and group roles, methods of negotiation and problem-solving, leadership, and the evolving nature of groups in business and society. Prerequisites: SP100, SP111 or SP218. Offered infrequently.

COMM237 4 credits **Communication and Gender**

Examines communication similarities and differences as related to gender and sex. More specifically, this class explores the relationship between one's sex, sexual preference, and gender identity with cultural and social expectations towards the creation and management of meaning. Gender issues to be explored include the dimensions of power, cultural and social values, language use, nonverbal communication, conflict resolution, and romance. Fulfills cultural literacy requirement within the AAOT degree. Prerequisites: SP100, SP111 or SP218. Offered winter and spring terms.

COMM270 3 credits **Argumentation and Debate**

Encourages students to analyze, respond to, and refute the arguments of others while backing their own claims with solid logic and reasoning. Public speaking skills are stressed and required as part of this course. Prerequisite: SP100 or SP111. Offered infrequently.

COMM299 1-4 credits **Special Studies in Communication**

Covers a specialized area of communication in a given area of communication such as interpersonal, mass media, or organizational communication. Prerequisites: WR121 or BT114 (may be taken concurrently).

COMPUTER SCIENCE

Lower Division Transfer Courses **(except where noted)**

CS60 2 credits **PC Basics I**

Designed for students with little or no previous experience with computers. Introduces basic computer fundamentals through lecture, demonstrations and hands-on experience with a personal computer. This course will cover basic hardware terminology, popular Internet technologies, email, online course skills, basic file management operations, word processing and spreadsheets, and may include other applications. Additionally, introduces students to basic computer concepts and terms and the practical applications of microcomputers in life. Course is graded on a pass/no pass basis. Course does not transfer.

CS120 4 credits **Concepts in Computing I**

Covers computer terminology, understanding how key components function, the guidelines for purchasing computer equipment or software, how the Internet works, system utilities and strategies that can help protect online users. The role of the operating system and how files are stored and organized will also be covered. In the lab portion of the course, students will learn how to use word processing, spreadsheet, and presentation software. Additionally, e-mail, Internet, basic Windows operating systems fundamentals and file management skills will be covered. Prerequisites: MTH20, RD30 or RD90, and WR30 or WR90, or designated placement test scores; CS60 as needed.

CS125D 3 credits **Digital 3D Graphics I**

Introduces the principles of developing basic three-dimensional graphic imagery and animations. Students will develop competence in using Blender to create three-dimensional graphics, and study the history of 3D achievements in film, animation, fine arts, and the growing additive manufacturing industry. Topics include various techniques for modeling objects, applying materials and textures, and adding lights and cameras to 3D scenes for accurate rendering. Students will also use a 3D printer to create real objects. Prerequisite: CS120 or documented proficiency; GD150 and GD160 recommended. Offered infrequently.

CS125DB 3 credits **Data Base Management Systems**

Covers data base commands and operations. Relational table design, data base terminology, formation of queries, design of relevant forms and reports, and basic macro use are explored using Microsoft Access. Prerequisites: CS120 or BA131 or documented proficiency and MTH60 or BT160. Offered fall, winter and spring terms.

CS125DP 3 credits **Digital Photography**

Offers instruction in the use of a SLR digital camera and fundamentals of digital photography. Topics include image composition; digital camera techniques in various formats including raw, GIF, JPEG, and PNG; digital processing using Adobe Photoshop; and digital printing. Students will learn how to manually operate a digital camera, taking control of aperture

settings, shutter speeds, and ISO controls. Does not fulfill degree or certificate requirements for computer proficiency. Prerequisites: CS120 or permission of instructor; ART115 and GD160 recommended. Offered fall, winter and spring terms.

CS125DV 3 credits **Introduction to Digital Video**

Using a hands-on approach, students will design rich media Web content containing interactivity, animation and sound. Students gain an understanding of the Flash Actionscript 3.0 language, logic and syntax, and they gain additional knowledge of designer/developer resources for continued self-paced learning. Includes the Flash drawing and animation tools, principles of classic animation, creating Flash movies, importing graphic and video elements, working with sound, designing interactivity, combining Flash with HTML, and publishing a Flash website. Prerequisite: CS120 or higher. Offered winter term.

CS125DW 3 credits **Dreamweaver I**

Introduces use of Adobe Dreamweaver for creation of websites and pages. Topics include fundamentals of Web authoring, understanding the Dreamweaver user interface, site management, working with HTML/XHTML tags, using and manipulating data tables, working with images, linking and navigation, using cascading style sheets for page presentation, and troubleshooting and testing. Prerequisite: CS120 or equivalent computing experience. Offered fall, spring and summer terms.

CS125PPT 2 credits **Effective Presentations**

Includes a hands-on approach to develop competency in basic and advanced concepts and commands of effective presentations. Students will also learn techniques for developing and creating presentations that engage the audience, illustrate ideas, and use media effectively. Software used to develop presentations in the course is Microsoft PowerPoint. The course does not fulfill degree or certificate requirements for computer proficiency. Prerequisite: CS120 or documented proficiency and WR115. Offered fall, spring and summer terms.

CS125SS 4 credits **Spreadsheet Applications**

Includes hands-on approach to developing competency in basic and advanced concepts and commands of spreadsheet software. Students will learn to design, set up, and print a variety of spreadsheet applications. Microsoft Excel will be used to develop materials. Emphasis is placed on using spreadsheet data for problems analysis. Course is designed for students in any discipline. Dual numbered as BA285. Prerequisites: CS120 or BA131 and MTH65 or BT160.

CS125V 1 credit **Visio**

Introduces diagramming software using Microsoft Visio Professional. Applications and projects are designed for both business and technical professional skill development. Students learn to develop any of the following: flow charts, organizational charts, office layouts, website diagrams, network diagrams, and building and electrical plans. Course projects will be flexible, and students will select from topics appropriate to their areas of study. Course does not fulfill degree or certificate requirements for computer proficiency. Prerequisite: CS120 or documented proficiency. Offered spring term.

CS125WW 3 credits **Word Processing Applications**

Provides training in Microsoft Word 2016 software. Covers use of basic input, editing, and formatting functions. Other topics include formatting pages, headers, footers, columns, advanced character formatting, tables, charts, merged corre-

spendence, managing shared documents, graphics, references, specialized tables. Prerequisites: CS120 or BA131. Offered fall, spring and summer terms.

CS133B 4 credits **Visual Basic I**

Introduces students with minimal mathematics background to coding and problem solving using the Visual Basic Net programming language. Topics include type and scope of variables, control structures, and good program design. Prerequisites: CS120 or documented proficiency and MTH65 or higher level math. Offered fall term.

CS133C# 4 credits **Programming Fundamentals Using C#**

Covers computer concepts and problem solving methods in the Windows environment using C# programming language. Topics include algorithms, simple data types, condition and iterative structures, functions and procedures, and the program documentation. Prerequisites: CS120 or documented proficiency and MTH65 or higher level math. Offered in winter term.

CS133JS 4 credits **JavaScript I**

Introduces beginning JavaScript for computer science majors and/or students wanting to explore client-side programming techniques and concepts. Covers Document Object Model (DOM) and simple techniques for adding dynamic content to Web pages. Prerequisite: CS195 and MTH65.

CS133U 4 credits **Introduction to C++ Programming**

Presents the science of programming and problem solving. Emphasis is on a disciplined approach to algorithm development and problem-solving methods using the programming language C++. Covers basic programming constructs, syntax, semantics, and logic of the C++ programming language. Topics include algorithms, simple data types, conditional and iterative structures, function definition, structured programming and documentation. Prerequisite: MTH95 or higher or permission of instructor. Offered fall and winter terms.

CS135D 3 credits **Digital 3D Graphics II**

Provides competency in advanced concepts of design and development of complex three-dimensional graphic images, animations, and special effects using the Maya application. Topics include modeling objects, generating surfaces, and working with textures, cameras, and lighting. Prerequisite: CS125D.

CS135DV 3 credits **Advanced Digital Video**

Introduces digital video production planning, acquisition, comprehension, editing and distribution, and covers special effects and compositing techniques. Also includes potential uses of digital video in related computer applications, and a hands-on component using Adobe software to edit and composite a variety of digital video animation projects. Prerequisite: CS125V.

CS135IA 3 credits **Interactive Animation**

Introduces animation and object-oriented programming concepts and techniques. Includes tools used by the creative industry for animation productions and interactive media. Topics covered include representing form and transforms in two dimensions, capturing user actions and driving application behavior interactively. Prerequisites: CS195 and MTH95.

CS140 4 credits **Introduction to Operating Systems**

Develops competency in basic and advanced concepts and commands of the three industry-standard operating systems. Emphasis is placed on installation and conductivity of the operating systems. Topics include the comparison of various operating systems (Windows, Linux and Apple), input/output control, introduction to the command line, software and operating systems installation, customization, and windowing environments. Designed for students in any discipline. Prerequisites: CS120 or documented computer proficiency.

CS160 4 credits **Introduction to Computer Science**

Explores the disciplines and professions of computer science and software engineering. Provides an overview of computer hardware and software architecture, the study of algorithms, software design and development, data representation and organization, problem-solving strategies, ethics in the digital world, and the history of computing and its influences on society. Explores career options and begins the process of planning a program of study. Exposes students to both low-level and high-level programming languages. Prerequisites: CS120 or documented proficiency and MTH65 or designated placement test score; CS140 recommended. Offer fall and spring terms.

CS161 4 credits **Computer Science I**

Presents the science of programming and problem solving using an object-oriented programming language (Java). Covers basic programming constructs, syntax, semantics, and logic of the Java programming language. The course provides an introduction to object-oriented concepts such as encapsulation, inheritance, and polymorphism. Simple UML class diagrams will be introduced and used as a tool for object-oriented design. Prerequisites: Any CS133 course or CS160; MTH111 or higher. Offered winter term.

CS162 4 credits **Computer Science II**

Continues CS161, covering advanced programming techniques using Java. Topics include graphical user interface programming, advanced event handling, exception handling, streams, and basic file I/O. Advanced data structures and algorithms such as lists and maps are also covered. Object-oriented algorithms and design methods are emphasized. Prerequisite: CS161. Offered spring term.

CS179 4 credits **Introduction to Networks**

Serves as a general introduction for students who need a foundation in current networking technology and a general overview of computer networks and concepts. Network topics include design essentials, media, interface cards, communications and protocols, architectures, operations, local area networks (LANs) and wide area networks (WANs), troubleshooting, and resources. Prerequisite: CS120 or documented computer proficiency. Offered fall, winter and spring terms.

CS195 4 credits **Web Authoring I (HTML/CSS)**

Introduces students to Web page and website development, moving on to working with cascading style sheets. Students will learn HTML and CSS for creating special effects and styling. Students will create HTML forms and tables, and will learn how to embed multimedia including the use of audio and video elements. Prerequisites: CS120 and MTH60; WR121 (may be taken concurrently).

CS196 4 credits **Web Authoring II (HTML/CSS)**

Follows CS195 and introduces students to advanced concepts of website design and creation using HTML and CSS. Students will develop Web pages and websites and work with cascading style sheets (CSS). The course will include instruction on building a website using techniques of graceful degradation and progressive enhancement. Includes instruction on guidelines for content, style, structure, and accessibility. New structural elements are covered including the Canvas element, validation, HTML forms, audio, video, CSS3, geo-location, rich Internet applications, local storage, and multi-screen media queries. Prerequisite: CS195. Offered fall term.

CS199 Variable credit **Special Studies: Computer Science**

Includes study in selected topics in the area of computer applications. Topics may include object-oriented programming, Windows programming, external sorting methods, advanced graphs, etc. Permission of instructor is required to enroll.

CS199MA 4 credits **Special Studies: Introduction to Building Mobile Applications**

Introduces the student to mobile application development and is intended for non-programmers who may be interested in designing and creating simple applications for smart phones and personal computers. Methods of working with built-in capabilities of the hardware will be covered as well as beginning programming concepts. Additional topics to be explored may include communication, location awareness, social networking, and Web-based data collections. Does not fulfill degree or certificate requirements for computer proficiency. Prerequisites: CS120 and MTH60.

CS225 4 credits **Computer End-user Support I**

Prepares students for training and supporting end-users in a variety of organizational settings. Topics to be discussed include the end-user support function in an organization, techniques for developing and delivering training modules, and techniques for providing ongoing technical support to end-users. Emphasis is on solving problems with users (debugging, troubleshooting, and interaction with users) with actual and/or simulated functions of a computer support office being learned and/or implemented. Prerequisites: CS140, CS179 and WR115; WR121 recommended. Offered winter term.

CS227 5 credits **PC Hardware Fundamentals and Repair**

Provides students with theory and hands-on exploration towards the maintenance and repair of personal computers. Students will become familiar with the necessary tools and equipment involved in computer servicing and the specifics of hardware upgrades. Provides students with the competencies needed to pass the hardware segment of the A+ Certification exam. Topics include troubleshooting, upgrading, IRQ/ Memory conflicts, safety, Electrostatic Discharge (ESD), fundamental electronics measurement, and proper documentation techniques. Prerequisites: CS140 and MTH60 or MTH63 or permission of instructor. Offered fall, winter and spring terms.

CS227N 4 credits **Network Hardware Fundamentals**

In-depth coverage of network hardware theories, hardware selection and project planning. Students will design, implement, test, and troubleshoot network hardware devices to include routers, switches, and wireless access points. Prerequisites: CS140 and CS179.

CS233U 4 credits

Advanced C++ Programming

Solves complex problems using advanced features of the C++ language. Topics include function usage, pointer data type, dynamic memory allocation, string manipulation, and structure and union data types. Emphasis is on structured program design techniques. Prerequisite: CS133U and MTH95 or higher, or permission of instructor. Offered winter and spring terms.

CS240 4 credits

Advanced Operating Systems

Covers the advanced functions of the Windows operating as a client operating system on a corporate network. Coverage includes operating system customization, performance and maintenance of an operating system, working with group policy, using the command line to troubleshoot, user and group design and implementation, configure an operating system, working with user and file security, PowerShell, VBScripting, and networking functions. Prerequisite: CS140. Offered spring term.

CS240L 4 credits

Advanced Operating Systems - Linux

Includes operating system installation, commands, command processor functions, input/output control, software installation, resource management, user management, customization, windowing environments, and security using a current version of the Linux operating system. Also introduces students to basic programming languages. Prerequisite: CS140. Offered winter term.

CS260 4 credits

Data Structures I

Studies the merge of abstract data types and the algorithms which manipulate them. Topics include the study of elementary searching and sorting algorithms and hashing, and object-oriented implementation strategies for stacks, lists, queues, trees and hash tables. For each data structure examined, common and useful algorithms that utilize such structures will be studied. Course also covers an introduction and application of complexity analysis: asymptotic analysis of upper and average complexity bounds, $O()$, $\Theta()$ and $\Omega()$ notation, as well as a general introduction to resource consumption, including the tradeoff between time and space. Prerequisite: CS162 and MTH111; MTH251 (may be taken concurrently).

CS275 4 credits

Data Base Development I

Provides students with an introduction to the concepts, skills, and tools involved in relational data base design, implementation, and testing. Students will be introduced to and use structured query language (SQL) for creating a client/server data base and data manipulation. Covers relational data base concepts, data anomalies, and data normalization. Entity-Relationship diagrams will be covered and used as a tool for designing a data base system. CS275 enhances and supplements the programming or networking student's analysis, design, and problem solving skills. Prerequisites: CS125DB. Offered spring term.

CS279 4 credits

Network Operating Systems

Covers concepts related to network operating systems – specifically Windows Server. Topics include server hardware, user and group management, network file management, group policy, network printing, server maintenance, Domain Naming Services (DNS), Dynamic Host Configuration Protocol (DHCP), and system backup and restore. Prerequisites: CS140 and CS179. Offered spring term.

CS280 Variable credit

Cooperative Work Experience/Computer Science

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program.

CS288 4 credits

Network Operating Systems II (Active Directory)

Prepares students to develop the skills needed to manage a Windows Server 2008 system. While the focus of topics is on the configuration of Active Directory and related services, coverage of Windows foundational topics such as the file system and networking are also included. Students will be immersed in an introduction to Windows Server 2008 and goes on to active directory design, account management, group policy management and configuration, certificate services, AD LDS, AD RMS, AD FS, server core, Windows Hyper-V virtualization, and server management. Prerequisites: CS140 and CS179.

CS299 Variable credit

Special Studies: Computer Science

Focuses on student-selected topics in computer science. A real-life project is required. Permission of instructor is required to enroll in this course.

CREDIT FOR PRIOR LEARNING

Career and Technical Course

CPL120 3 credits

Credit for Prior Learning

Assists students in developing portfolios to be used in applying for credit for prior learning. Focuses on identifying career and educational goals and documenting college-level prior learning. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores.

CRIMINAL JUSTICE

Lower Division Transfer Courses (except where noted)

CJ91 0 credits

Reserve Officer Law Enforcement Academy (ROLEA) Module 1: Orientation to Policing and Professionalism

Offers a basic overview of the criminal justice system in Oregon to reserve police officers. The module orients students to ethical and professional responsibilities, cultural awareness, patrol procedures and concepts of tactical communications. Course content is based on the Oregon Department of Public Safety Standards and Training police academy lesson plans. Prerequisite: Students must be agency sponsored or qualify for admission by meeting eligibility requirements established by the Criminal Justice Department. Course does not transfer. Offered fall term.

CJ92 0 credits

Reserve Officer Law Enforcement Academy (ROLEA) Module 2: Legal and Investigative Concepts I

Offers training in topics ranging from first aid to criminal and procedural law application along with criminal investigation concepts, use of force, civil liability, defensive tactics and mental health concepts. Course content is based on the Oregon Department of Public Safety Standards and Training police academy lesson plans. Prerequisite: Students must be agency sponsored or qualify for admission by meeting eligibility requirements established by the Criminal Justice Department. Course does not transfer. Offered fall term.

CJ93 0 credits

Reserve Officer Law Enforcement Academy (ROLEA) Module 3: Legal and Investigative Concepts II

Offers training in topics ranging from crimes related to property, fraud and deception along with focus on report writing and criminal investigation. Continued focus on defensive tactics is also part of the module. Course content is based on the Oregon Department of Public Safety Standards and Training police academy lesson plans. Prerequisite: Students must be agency sponsored or qualify for admission by meeting eligibility requirements established by the Criminal Justice Department. Course does not transfer. Offered fall term.

CJ94 0 credits

Reserve Officer Law Enforcement Academy (ROLEA) Module 4: Legal and Investigative Concepts III

Offers continuing training in defensive tactics along with training related to OLCC, alcohol, controlled substances, weapons, public order, sex and family offenses, domestic violence, missing and abducted children, and child abuse investigations. Course content is based on the Oregon Department of Public Safety Standards and Training police academy lesson plans. Prerequisite: Students must be agency sponsored or qualify for admission by meeting eligibility requirements established by the Criminal Justice Department. Course does not transfer. Offered winter term.

CJ95 0 credits

Reserve Officer Law Enforcement Academy (ROLEA) Module 5: Legal and Investigative Concepts IV

Offers training in defensive tactics, traffic enforcement, controlled substances, unattended deaths, homicide investigation, gang awareness and forensics. Course content is based on the Oregon Department of Public Safety Standards and Training police academy lesson plans. Prerequisite: Students must be agency sponsored or qualify for admission by meeting eligibility requirements established by the Criminal Justice Department. Course does not transfer. Offered winter term.

CJ96 0 credits

Reserve Officer Law Enforcement Academy (ROLEA) Module 6: Police Skills Proficiency I

Offers practical application of knowledge in less lethal force options, defensive tactics, and mock trials along with application of investigative techniques related to sexual assault. Juvenile law and justice issues are also addressed. Course content is based on the Oregon Department of Public Safety Standards and Training police academy lesson plans. Prerequisite: Students must be agency sponsored or qualify for admission by meeting eligibility requirements established by the Criminal Justice Department. Course does not transfer. Offered winter term.

CJ97 0 credits

Reserve Officer Law Enforcement Academy (ROLEA) Module 7: Police Skills Proficiency II

Offers practical skills training in elder abuse, defensive tactics, crash investigation, firearms orientation, building searches and field sobriety testing. Course content is based on the Oregon Department of Public Safety Standards and Training police academy lesson plans. Prerequisite: Students must be agency sponsored or qualify for admission by meeting eligibility requirements established by the Criminal Justice Department. Course does not transfer. Offered spring term.

CJ98 0 credits

Reserve Officer Law Enforcement Academy (ROLEA) Module 8: Police Skills Proficiency III

Offers training in mock trials, vehicle stops, use of force decision-making scenarios, and confrontational simulations. Course content is based on the Oregon Department of Public Safety Standards and Training police academy lesson plans. Prerequisite: Students must be agency sponsored or qualify for admission by meeting eligibility requirements established by the Criminal Justice Department. Course does not transfer. Prerequisite: CJ99. Offered spring term.

CJ99 0 credit

Criminal Justice Workshop

Provides a variety of special course offerings, seminars and workshops in various subject areas of criminal justice. Taught by visiting lecturers and/or regular faculty, courses will focus on topics of special concern, training, and criminal justice and/or community concern. Course offerings will be based upon demand and will vary in length. Course does not transfer.

CJ100 4 credits

Foundations and Ethics in Criminal Justice

Provides an introduction to the legal and historical foundations and components of the criminal justice system. Issues in criminal justice administration and professionalism will be explored within an ethical decision-making framework. Career and professional development strategies will be assessed. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores.

CJ101 4 credits

Introduction to Criminology

Offers an interdisciplinary perspective of crime and criminal behavior in relation to the criminal justice system. Theoretical approaches to explaining crime, criminal statistics, typologies, and victimology will be assessed, and the influence of crime theory on public policy will be explored. Dual numbered as SOC244. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores.

CJ110 4 credits

Introduction to Law Enforcement

Offers comprehensive analysis of police practices and an exploration of law enforcement systems in the United States. The history of policing and practices in modern law enforcement are explored with special emphasis on community policing. Topics include professional discretion, ethical dilemmas, use of force, the role of police, and career development. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores. Offered fall and spring terms.

CJ120 4 credits

Introduction to the Judicial Process

Presents a theoretical, legal, and practical perspective of America's courts with emphasis on the functions and roles of prosecutors, defense attorneys, and judges. Problems and issues associated with the administration of the courts, processing of offenders, status of accused, victims, and witnesses are addressed from the time an offender is arrested through sentencing. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores. Offered fall and winter terms.

CJ130 4 credits

Introduction to Corrections

Examines the history, philosophy, and practices associated with the correction of people convicted of crimes in the United States. Community supervision and legal principles related to the rights and status of convicted offenders are addressed. Correctional institutions are a specific focus. Custody and security issues, treatment programs, and legal liabilities and obligations of correctional staff are emphasized. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores. Offered fall and spring terms.

CJ191 4 credits

Reserve Officer Law Enforcement Academy (ROLEA) Module 1: Orientation to Policing/ Professionalism

Offers a basic overview of the criminal justice system in Oregon to reserve police officers. The module orients students to ethical and professional responsibilities, cultural awareness, patrol procedures and concepts of tactical communications. Course content is based on the Oregon Department of Public Safety Standards and Training police academy lesson plans. Prerequisite: Students must be agency sponsored or qualify for admission by meeting eligibility requirements established by the Criminal Justice Department. Offered fall term.

CJ192 4 credits

Reserve Officer Law Enforcement Academy (ROLEA) Module 2: Legal and Investigative Concepts I

Offers training in topics ranging from first aid to criminal and procedural law application along with criminal investigation concepts, use of force, civil liability, defensive tactics and mental health concepts. Course content is based on the Oregon Department of Public Safety Standards and Training police academy lesson plans. Prerequisite: Students must be agency sponsored or qualify for admission by meeting eligibility requirements established by the Criminal Justice Department. Offered fall term.

CJ193 3 credits

Reserve Officer Law Enforcement Academy (ROLEA) Module 3: Legal and Investigative Concepts II

Offers training in topics ranging from crimes related to property, fraud and deception along with focus on report writing and criminal investigation. Continued focus on defensive tactics is also part of the module. Course content is based on the Oregon Department of Public Safety Standards and Training police academy lesson plans. Prerequisite: Students must be agency sponsored or qualify for admission by meeting eligibility requirements established by the Criminal Justice Department. Offered fall term.

CJ194 4 credits

Reserve Officer Law Enforcement Academy (ROLEA) Module 4: Legal and Investigative Concepts III

Offers continuing training in defensive tactics along with training related to OLCC, alcohol, controlled substances, weapons, public order, sex and family offenses, domestic violence, missing and abducted children, and child abuse investigations. Course content is based on the Oregon Department of Public Safety Standards and Training police academy lesson plans. Prerequisite: Students must be agency sponsored or qualify for admission by meeting eligibility requirements established by the Criminal Justice Department. Offered winter term.

CJ195 3 credits

Reserve Officer Law Enforcement Academy (ROLEA) Module 5: Legal and Investigative Concepts IV

Offers training in defensive tactics, traffic enforcement, controlled substances, unattended deaths, homicide investigation, gang awareness and forensics. Course content is based on the Oregon Department of Public Safety Standards and Training police academy lesson plans. Prerequisite: Students must be agency sponsored or qualify for admission by meeting eligibility requirements established by the Criminal Justice Department. Offered winter term.

CJ196 2 credits

Reserve Officer Law Enforcement Academy (ROLEA) Module 6: Police Skills Proficiency I

Offers practical application of knowledge in less lethal force options, defensive tactics, and mock trials along with application of investigative techniques related to sexual assault. Juvenile law and justice issues are also addressed. Course content is based on the Oregon Department of Public Safety Standards and Training police academy lesson plans. Prerequisite: Students must be agency sponsored or qualify for admission by meeting eligibility requirements established by the Criminal Justice Department. Offered winter term.

CJ197 3 credits

Reserve Officer Law Enforcement Academy (ROLEA) Module 7: Police Skills Proficiency II

Offers practical skills training in elder abuse, defensive tactics, crash investigation, firearms orientation, building searches and field sobriety testing. Course content is based on the Oregon Department of Public Safety Standards and Training police academy lesson plans. Prerequisite: Students must be agency sponsored or qualify for admission by meeting eligibility requirements established by the Criminal Justice Department. Offered spring term.

CJ198 3 credits

Reserve Officer Law Enforcement Academy (ROLEA) Module 8: Police Skills Proficiency III

Offers training in mock trials, vehicle stops, use of force decision-making scenarios, and confrontational simulations. Course content is based on the Oregon Department of Public Safety Standards and Training police academy lesson plans. Prerequisite: Students must be agency sponsored or qualify for admission by meeting eligibility requirements established by the Criminal Justice Department. Offered spring term.

CJ199 Variable credit

Special Studies: Criminal Justice

Includes special course offerings, seminars and workshops in various subject areas of criminal justice. The special offerings

will be taught by visiting lecturers and regular faculty and will focus on topics of special concern, training, and criminal justice and/or community concern. Course offerings will be based upon demand and will vary in length. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores.

CJ201 4 credits **Juvenile Delinquency**

Presents a philosophical, historical, and practical survey of juvenile justice administration in the United States. In the context of an interdisciplinary framework, theories, factors, and characteristics of delinquency will be presented and treatment and delinquency prevention programs will be surveyed. Dual numbered as SOC221. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores.

CJ203 3 credits **Crisis Intervention**

Focuses on crises encountered in a variety of settings related to public safety. Techniques and approaches to intervention and working with people experiencing crises are addressed. Presents material on initial intervention, defusing and assessment, and resolution and/or referral, with emphasis on safety. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores. Offered fall term.

CJ210 4 credits **Criminal Investigation**

Introduces the investigative process and techniques associated with processing crime scenes and developing information useful in justice agency investigations. Specific attention is given to crime scenes, interviewing, handling and preparation of evidence, witnesses, surveillance, technical resources, case preparation and proactive approaches to investigations generally as well as in relation to specific crimes. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores. Offered winter term.

CJ214 4 credits **Crime, Justice and Diversity**

Provides a balanced examination of issues of crime and justice administration in the context of race, ethnicity, and diverse populations in the community. Diversity in the context of crime victimization, accused and convicted criminals, public perceptions, and employment in the criminal justice system is addressed. Problem-solving to facilitate improved understanding and cooperation between criminal justice practitioners and diverse populations in communities is emphasized. Prerequisites: RD30 or RD90, BT113 or WR115 or designated placement test scores, and CJ100; CJ120 recommended. Offered winter and spring terms.

CJ220 4 credits **Law I: Substantive Law and Liability**

Presents an introductory study of criminal law concepts focusing on substantive law. Topics addressed include historical and constitutional principles of criminal law, classification of crimes, principles of criminal liability, elements of crimes, parties to crimes, inchoate offenses, defenses against criminal responsibility, and selected case law. Crimes against persons and crimes against property will be analyzed. Principles of civil rights law and professional liability will be addressed. Prerequisite: CJ120. Offered fall and winter terms.

CJ221 4 credits **Law II: Constitutional Criminal Procedure**

Examines constitutional principles and procedural considerations related to the investigation of crime, processing of accused persons, and maintenance of order in American society.

ety. Rights of individuals and responsibilities of law enforcement officers based on court decisions in relation to the First, Fourth, Fifth, Sixth, Eighth, and Fourteenth Amendments to the United States Constitution are addressed. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores, and CJ220. Offered winter and spring terms.

CJ223 4 credits **Law III: Evidence and Trial Process**

Presents the origin, development, and constitutional basis for evidence used in legal proceedings. Technical and legal problems of evidence associated with the investigation of crimes and as viewed in the modern court-room are presented. Aspects of procedural law directly related to evidence issues are reviewed. Case development and trial preparation are emphasized through mock trial exercises. Prerequisite: CJ120. Offered fall and spring terms.

CJ229 4 credits **Community Corrections and Casework**

Examines community corrections philosophies, services, practices and treatment programs including probation, parole, community-based release programs, and alternatives to incarceration. Offers an overview of corrections casework approaches to behavior modification through assessment, classification, interviewing and counseling, and other treatment modalities. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores. Offered winter term.

CJ243 4 credits **Drugs, Crime, and Addiction**

Introduces students to the dynamics of drug and alcohol addiction and the social and legal issues of drug abuse. Examines the political considerations behind contemporary drug enforcement policy. Explores the historical origins of the illegal drug trade. Dual numbered as SOC243. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; SP111 and WR121 recommended.

CJ270 4 credits **Capstone Project in Criminal Justice**

Serves as the culminating experience in criminal justice degree programs. Skills and knowledge acquired in criminal justice courses are integrated and applied to a field situation related to the control and prevention of crime and public safety administration. The course requires a comprehensive, structured research report, an oral presentation, and exams to assess professional competence. Prerequisite: Permission of department chair. Offered spring term.

CJ280 Variable credit **Cooperative Work Experience/ Criminal Justice**

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program. Course is graded on a pass/no pass basis.

DENTAL ASSISTING

Career and Technical Courses

DA101 4 credits **Dental Assisting I**

Introduces the basic concepts of the dental assistant's role in preventative dentistry including dental terminology, infection control, basic microbiology, pharmacology, nutrition, oral and facial anatomy, tooth numbering, names of tooth surfaces, and dental charting and oral assessment. Also includes the use of dental instruments and the various procedures used by dentists, dental asepsis techniques, patient education, legal and ethical issues, the collection of clinical data, and patient psychology as it relates to anxiety and pain management. Prerequisites: This is a limited-entry program that requires completion of 15-18 credits of prerequisite/preparatory courses and formal acceptance prior to entry. Offered summer term.

DA101A, DA101B 1 credit **Dental Assisting I Lab**

Provides hands-on instruction for students to demonstrate their capabilities and understanding of the dental assistant's role through clinical evaluation in a lab setting. Tasks practiced include use of dental terminology, dental tray set-up, recognition of instruments used by the dentist, basic chair-side procedures, assisting during restorative treatment, four-handed dentistry, chair-side charting using tooth numbering systems, and names of tooth surfaces. Students are introduced to the various day-to-day operations within a dental office including infection control, management of hazardous waste, sterilization techniques, theory and terminology, ultrasonic/autoclave operation, instrument and equipment sterilization/disinfection, treatment room disinfection, and dental asepsis techniques. Prerequisites: This is a limited-entry program that requires completion of 15-18 credits of prerequisite/preparatory courses and formal acceptance prior to entry. Offered summer term.

DA102 4 credits **Dental Assisting II**

Builds on material learned in Dental Assisting I, specifically reinforcing oral and facial anatomy, tooth numbering, names of tooth surfaces, dental charting and oral assessment. The course provides an in-depth view of specific, practical dental assisting skills in dental specialties. Topics covered in class will include the major dental specialties of oral surgery, endodontics, periodontics, prosthodontics, and orthodontics. Anatomical content covered will include the muscles, nerves, glands, and bones of the head and neck; the structures and tissues that make up the oral cavity; and the development, tissues, morphology, and functions of the teeth. Prerequisites: DA101, DA101A/B and DA202. Offered fall term.

DA102A, DA102B 1 credit **Dental Assisting II Lab**

Builds on material learned in DA101A, DA103 and DA202. Students will repeat certain hands-on skills with an expectation of greater proficiency. Students demonstrate their capabilities and understanding of the dental assistant's role through clinical evaluation in a lab setting. Students will learn how to perform soft-tissue examinations, take dental impressions, and collect vital statistics. Students will be introduced to dental instruments used in specialty offices. Prerequisites: DA101, DA101A/B, and DA202. Offered fall term.

DA103 2 credits **Dental Materials**

Introduces materials used in a dental office including impression materials, model and die materials, fabrication of dental

trays, preventive dental materials, esthetic and restorative dental materials, amalgam, dental cements, waxes, and temporary restorative materials. Prerequisites: DA101A/B and DA202. Offered fall term.

DA104 2 credits **Dental Administration**

Introduces office management and administrative skills that are required in a dental setting. Includes communication skills, written correspondence, patient relations, team communications, patient clinical records, information management, patient scheduling and recall systems, dental insurance processing, inventory management, financial arrangements, collection procedures, accounts receivable and payable, and employment strategies. Prerequisites: DA101, DA101A/B, and DA202 or department approval. Offered fall term.

DA105 2 credits **Legal and Ethical Issues in Dentistry**

Exposes students to a variety of legal and ethical dilemmas, helping them become more prudent and confident dental professionals. Classroom content includes the legal system, the legal rights that define relationships between individuals, quality assurance, office protocols and patient records, and legal issues that affect employment. Prerequisites: DA102, DA102A/B, DA103, DA104, DA150, and DA201 or departmental approval. Offered winter term.

DA106 2 credits **Dental and Medical Emergency Management**

Covers routine preparedness for dental team members: the dental assistant's role in emergency care, managing a dental office emergency kit, the ABCs of CPR (airway/breathing/circulation), foreign body airway obstruction, and the causes, signs, and treatment of medical emergencies and specific dental emergencies. Prerequisites: DA102, DA102A/B, DA103, DA104, DA150 and DA201, or departmental approval. Offered winter term.

DA150 1 credit **Introduction to Practicum and Seminar**

Provides an extensive overview of office responsibilities and work ethics, and prepares students for the challenges of their multiple roles in the dental office. These include guest, intern, student worker, administrative assistant, chair-side assistant, and housekeeping worker. Students will review and discuss the expectations and protocols for their upcoming practicum classes. Prerequisites: DA101, DA101A/B and DA202. Offered fall term.

DA152,DA153 4 credits each **Practicum and Seminar in Dental Assisting I/II**

Students work an average of 13 hours per week in a host site (135 hours per term) as part of the dental team. Duties will be assigned according to the student's skill level and the work needs of the host site. Students experience first-hand the various operations within a dental office primarily as chair-side dental assistants, but practicum experience may include receptionist duties and bookkeeping. Students will expand their skill sets during the sequence: entry-level and some mid-level duties are appropriate for students enrolled in DA152; mid-level and advanced duties, which may include exposing and processing radiographs, taking alginate impressions and pouring stone models, assisting during surgical procedures, and lab preparation for the expanded function class, are appropriate for students enrolled in DA153. Moderated by an instructor, seminars are designed to define expectations, discuss progress, and

evaluate current future practicum experiences. Prerequisites to DA153: Successful completion of all courses in the first three terms of the cohort. Corequisites: DA204 and DA204A. DA152 offered winter term. DA153 offered spring term.

DA201 4 credits **Dental Radiology**

Prepares students for the Dental Assisting National Board (DANB) Radiation Health and Safety (RHS) Exam. One of two exams required for a certificate in radiologic proficiency from the state of Oregon, it is required to legally expose radiographs. Prepares students for these sections: radiation safety for the patient, radiation safety for the operator, exposing and evaluating radiographs, processing films, mounting and labeling radiographs, and techniques used in performing a full-mouth radiologic exam. To become fully certified, students must also pass the Oregon Clinical Radiologic Proficiency Exam. Prerequisites: DA101, DA101A/B, DA103, and DA202 or department approval. Offered fall term.

DA201A,DA201B 2 credits **Radiology Lab**

Prepares students for the Oregon Clinical Radiologic Proficiency Exam. One of two exams required for a certificate in radiologic proficiency from the state of Oregon, it is required to legally expose radiographs. To become fully certified, students must also pass the Dental Assisting National Board (DANB) Radiation Health and Safety (RHS) Exam. The course will also include an overview of taking digital X-rays. Prerequisite: DA102, DA102A/B, DA103, DA104, DA150 and DA201. Offered winter term.

DA202 2 credits **Infection Control**

Prepares students for the Dental Assisting National Board's (DANB) Infection Control Exam (ICE). The class is designed to prepare students for the following sections: patient and dental healthcare worker education, standard/universal precautions and prevention of disease transmission, prevention of cross contamination, maintaining aseptic conditions, performing sterilization procedures, environmental asepsis, and occupational safety. Corequisites: DA101 and DA101A/B or department approval. Offered summer term.

DA203 2 credits **Chair-side Assisting**

Prepares the student for Oregon Basic, the Oregon Board of Dentistry's written exam. The class is designed to prepare students in the following sections: collection and recording of clinical data, chair-side dental procedures, oral anatomy, chair-side dental materials (preparation, manipulation, application), lab materials and procedures, patient education and oral health management, infection control procedures, occupational safety, legal issues, prevention and management of emergencies, and office management procedures. Prerequisites: DA102, DA102A, DA103, DA104,DA150, and DA201 or department approval. Offered winter term.

DA204 2 credits **Expanded Functions Dental Assistant**

Prepares students for the Oregon Board of Dentistry's written exam in expanded functions for chair-side dental assistants (EFDA). Expanded functions are determined by the Oregon Board of Dentistry and may change without prior notice. The exam is administered by the Dental Assisting National Board. Students will still need a licensed dentist endorsement before becoming EFDA certified (General Dental Assisting EFDA Certification: Pathway III). The class is designed to prepare students for the following sections: placing matrix bands, polishing amalgam fillings, cement removal, taking impressions,

coronal polishing, fabricating temporary crowns, and tooth whitening. Prerequisites: DA105, DA106, DA152, DA201A/B and DA203. Offered spring term.

DA204A 1 credit **Expanded Functions Dental Assistant Lab**

Provides hands-on, clinical instruction of the lecture material presented in DA204. This class prepares students for the clinical skills required for an expanded functions dental assistant (EFDA). Expanded functions are determined by the Oregon Board of Dentistry and may change without prior notice. To be EFDA certified in Oregon, dental assistants must successfully complete all of the requirements in one of four pathways administered by the Dental Assisting National Board (DANB). RCC students currently follow Pathway III that requires students to: 1) have an Oregon Radiologic Proficiency Certificate; 2) pass the Oregon Basic Dental Assisting Exam (ORB); 3) pass the Oregon Expanded Functions – General Dental Assisting Exam (ORXG); and 4) provide certification from a licensed dentist stating that the applicant has completed clinical requirements. Prerequisites: DA105, DA106, DA152, DA201A/B and DA203. Corequisites: DA153, DA204, and successful completion of all courses in the first three terms of the cohort. Offered spring term.

DIESEL TECHNOLOGY

Career and Technical Courses

DS111 7 credits **Basic Electricity for Diesel Technicians I**

Introduces the fundamentals of basic electricity, starters and power generation, the use of test equipment, and troubleshooting techniques. Course required for all entering diesel technology students. Offered fall term.

DS112 6 credits **Gasoline Engines Rebuild**

Reviews theory and construction of various gasoline internal combustion engines and how to rebuild, service, inspect, and repair them. Dual numbered as AM122.

DS113 6 credits **Diesel Engine Overhaul**

Provides diesel engine theory and hands-on experience in rebuilding and servicing diesel engines including testing, diagnosis, measurements, and repair. Corequisite: DS190. Offered spring term.

DS120 6 credits **Diesel Trades Practices**

Introduces basic mechanical shop safety and industrial practices, professionalism and ethics, shop tools, and equipment use. Vehicle maintenance and service procedures included. Course required for all entering diesel technology students. Offered fall term.

DS131 5 credits **Diesel Engine Dynamics and Diagnosis**

Provides the theory of operation and hands-on experience in tuning up and troubleshooting various live diesel engines. Topics include tune-up, engine airflow principles, and performance diagnosis. Prerequisites: DS111 and DS120. Offered winter term.

DS134 4 credits

Basic Electricity for Diesel Technicians II

Introduces first-year students to electrical and electronic theory and more advanced topics that relate to heavy, mid-range, light, stationary, marine diesel, propane, and natural gas applications. Students will have the opportunity to achieve task mastery by successful completion of each ASE/NATEF task. Prerequisites: DS111 and DS120. Offered winter term.

DS141 5 credits

Heavy Equipment Power Trains

Studies the principles of operation of heavy transmissions, differentials, and clutches, and provides for hands-on experience in the servicing, inspecting, and rebuilding of them. Prerequisites: AM111 or DS111 and AM120 or DS120. Offered winter term.

DS151 6 credits

Heavy Equipment Brakes

Studies the theories of braking system operation and provides hands-on experience in the rebuilding, repairing, and adjusting of the various braking systems including hydraulic, air, and electrical types, as well as ABS brake hydraulics and operation. Offered spring term.

DS160 6 credits

Heavy Equipment Suspension and Steering

Provides students with the theory and hands-on training needed to properly test, repair, troubleshoot, and align suspension and steering systems used on trucks and heavy equipment. Prerequisites: AM111 or DS111 and AM120 or DS120 or approval of instructor. Offered fall term.

DS190 3 credits

Diesel Repair Lab I

Provides live work experience in all aspects of repair expected of entry-level line technicians. Includes basic engine performance, diagnosis and repair of engines, chassis, power trains, and basic electrical systems. Primarily designed for first-year students or those with appropriate skill levels. Corequisite: DS113. Offered spring term.

DS199 Variable credit

Workshop/Selected Topics

Presents workshops dealing with the diesel and heavy equipment industry and related issues; scheduled as needed.

DS232 4 credits

Heavy Equipment Fuel Systems

Develops skills and knowledge for working with diesel fuel injection, turbo chargers, super chargers, gasoline, and alternative fuel systems. Includes hands-on experience in the servicing and rebuilding of components in each system. Prerequisite: DS131. Offered summer term.

DS233 7 credits

Computerized Vehicle Management Systems

Allows for demonstration of mastery of basic diesel engines, fuel systems, electricity, electronics, air conditioning, heavy-duty computer controlled brakes, and suspension and repairs of all on-board, computer controlled, monitored and managed systems. Meets current ASE/NATEF (Automotive Service Excellence/National Automotive Technicians Education Foundation) requirements for certification and is the foundation for many fleet and dealership maintenance, repair and monitoring practices. Prerequisites: DS131, DS134 and DS232. Offered winter term.

DS260 4 credits

Hydraulic Systems

Studies theory and operation of hydraulic systems used in the heavy equipment industry; includes hands-on experience in building, troubleshooting, and repairing these systems. Prerequisites: AM111 or DS111 and AM120 or DS120. Offered spring term.

DS270 5 credits

Air Conditioning for Diesel Technicians

Covers vehicle air conditioning systems theory and operation. Uses industry identified skills for diagnosis, repair, and servicing of R12 and R134A systems. Also covers government regulations in the safe handling of refrigerants. Prerequisites: DS111, DS120, and DS131. Offered summer term.

DS275 6 credits

Preventative Maintenance Inspection

Provides culmination of all ASE/NATEF and academic courses required for completion and/or graduation from the Diesel Technology program. It requires knowledge and demonstration of basic engine maintenance and repair, heavy duty brakes, drive train, air conditioning, fuel and emission systems, electronics, safety inspection, servicing, maintenance records, and repairs of all onboard systems. Prerequisites: DS113, DS131, DS151, DS160, DS232, and DS270. Offered spring term.

DS280 Variable credit

Cooperative Work Experience/Diesel

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program. Prerequisites: AM111 or DS111 and AM120 or DS120, or approval of instructor.

DS280S 1 credit

Cooperative Work Experience Seminar/Diesel

Presents an overview of the necessary employment documents to be competitive in the job market. Students will write a basic resume and cover letter, complete an employment application, participate in a mock interview, and develop an understanding of the importance of a professional image and work ethic. Students are expected to have completed most of their coursework toward a certificate or degree program and will be enrolled in CWE concurrently or in the following term.

DS290 3 credits

Diesel Repair Lab II

Provides live work experience in all aspects of repair expected of an entry-level line technician. Includes engine performance, diagnosis and repair of engine components, chassis, power trains, brakes, suspension systems, hydraulic, and electrical systems. Course is for second-year students or can be taken in place of Cooperative Work Experience. Offered spring term.

DS295 1 credit

ASE Certification Preparation

Provides students with a review of Automotive Service Excellence (ASE) certification and testing. Topics covered are test-taking techniques and technical reviews pertinent to the specific certification area(s). Prerequisites: Approval of advisor. Offered infrequently.

EARLY CHILDHOOD AND ELEMENTARY EDUCATION

Career and Technical Courses

ECE100 3 credits

Introduction to Early Childhood Education

Introduces students to the field of early education for children. Covers the history and roots, current issues and challenges in the field, and explores professional education and career directions for teachers of young children birth to eight years. Community observations in early childhood settings are required. Course may include an online component. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores. Offered fall and winter terms.

ECE125 3 credits

Early Childhood Development

Provides an overview of child development from conception through eight years of age. The focus is on studying and observing the physical, cognitive, language, emotional, and social characteristics of the child during this period. Includes the CDA subject areas of child growth and development and observation. Child observations are required. Community observations in early childhood settings may be required. Course may include an online component. Equivalent to ECE125A, ECE125B, ECE125C. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores.

ECE126 3 credits

Early Childhood Education Best Practices

Examines the basics of establishing a safe, healthy, and developmentally appropriate learning environment for young children. This course includes the CDA subject areas of safe, healthy, learning environment, physical, cognitive, and communication. Community observations in early childhood settings are required. Course may include an online component. Equivalent to ECE126A, ECE126B, ECE126C. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores.

ECE135 3 credits

Applied Child Development

Examines the importance of encouraging creativity and promoting social and emotional development in young children. Explores appropriate guidance techniques. Includes the CDA subject areas of creative, self, social and guidance. Community observations in early childhood settings are required. Course may include an online component. Equivalent to ECE135A, ECE135B, ECE135C. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores.

ECE136 3 credits

Early Childhood Education: A Professional Overview

Examines the importance of promoting family involvement, developing an effective early childhood classroom program based on the needs and interests of the children, and continuing professional growth. Covers the process of Child Development Associate (CDA) credentialing. Includes the CDA subject areas of families, program management, and professionalism. Community observations in early childhood settings are required. Course may include an online component. Equivalent to ECE136A, ECE136B, ECE136C. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores.

ECE151 3 credits

Guiding Children in Group Settings

Addresses positive ways to support children's social-emotional development from birth to age eight by understanding children's behavior. Focuses on adult-child and child-child interactions and relationships. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; ECE161, ECE163, or ED165 or permission of instructor. Offered winter and spring terms.

ECE152 3 credits

Fostering Creativity

Focuses on understanding and implementing a developmental approach to providing creative experiences and opportunities for young children. The class will be taught with an active learning and cooperative education philosophy using group discussions and hands-on learning. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; ECE125, ECE163 or ED165 recommended. Offered fall and spring terms.

ECE154 3 credits

Children's Literature and Literacy

Surveys children's literature for young children and emphasizes setting up environments and planning activities that support emerging language and literacy skills in young children. Covers the developmental continuum of language, reading, and writing skills. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; ECE125, ECE161, and ECE163 or permission of instructor. Offered winter term.

ECE161 3 credits

Infant/Toddler Development

Explores child growth and development in detail from the prenatal period to age three, including elements of quality group care for infants and toddlers. Direct experience observing infants and toddlers in a group setting will be an important part of the course. Course may include an online component. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores. Offered fall and spring terms.

ECE163 3 credits

Preschool/Primary Development

Explores child growth and development in detail from three through eight years of age, including elements of quality programs for preschool and school-age children. Direct experience observing young children in a group setting will be an important part of the course. Course may include an online component. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores. Offered fall and winter terms.

ECE175 3 credits

Developmentally Appropriate Practices

Explores developmentally appropriate practices (DAP) for children from birth through age 8. Examines appropriate physical environments, as well as practices and environments that promote positive development in all developmental domains. Community observations in early childhood settings are required. Course may include an online component. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; ECE125, ECE161, ECE163, ED165, or permission of instructor. Offered fall and spring terms.

ECE199 13 credits

Selected Topics in Early Childhood Education

Studies issues related to early childhood education. Offered infrequently.

ECE240 3 credits

Play-based Learning

Explores why play is a fundamentally important part of children's development, the role of play in learning, and ways that adults can support and promote play. Course may include an online component. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; ECE125, ECE163, ED165, or permission of instructor. Offered fall and winter terms.

ECE241 3 credits

Promoting Cognitive Development

Covers planning curriculum themes by assessing children's interests and needs. Includes ways to promote cognitive development by engaging children in units that are child-centered. Course may include an online component. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; ECE161, ECE163, or ED165, or permission of instructor; ECE250 or ECE251 recommended. Offered spring term.

ECE242 3 credits

Parenting Education and Family Support

Promotes understanding of the body of knowledge in the field of parenting education and skills in effective parenting education practices, both in group and home settings. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores.

ECE243 3 credits

Promoting Child Health and Physical Development

Provides an understanding of the essential elements of health, safety, and nutrition for young children. Methods and materials for enhancing motor development will be examined. Course may include an online component. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; ECE161, ECE163, ED165, or permission of instructor. Offered fall term.

ECE244 3 credits

Observation and Assessment

Focuses on the use of observation as a tool for discovering children's interests, assessing development and behavior, and planning responsive curriculum. Observations in community early childhood settings are required. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; ECE161, ECE163 or ED165. Offered winter and spring terms.

ECE245 3 credits

Promoting Social/Emotional Development of Young Children

Explores strategies to help children develop the social and emotional tools needed to manage their own behavior, exhibit more prosocial behavior, and master social skills. Addresses how to support children who have particular social needs such as shyness, aggressive behavior, and hearing or visual impairments. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; ECE151; ECE161, ECE163, ED165, or permission of instructor. Offered fall and winter terms.

ECE246 3 credits

Child, Family and Community

Focuses on developing skills for establishing effective relationships, based on mutual respect, between early childhood professionals and families of the children with whom they are working. Course may include an online component. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; ECE161, ECE163, ED165, or permission of instructor. Offered fall and spring terms.

ECE248 3 credits

Children with Disabilities and Their Families

Explores ways teachers can facilitate the inclusion of young children with disabilities in a child care or classroom setting. Covers characteristics of disabilities, environmental and curricular adaptations, and instructional strategies for supporting learning. Impact of disability on families, working in partnership with parents, and participation on the IFSP/IEP team will also be addressed. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; ECE161, ECE163, ED165, or permission of instructor. Offered spring term.

ECE250 3 credits

Infant/Toddler Environments

Explores planning and evaluating physical and social environments for children birth to 3 years old. Includes room arrangement, appropriate equipment, outdoor areas, and creation of a nurturing environment. Course may include an online component. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; ECE161 or permission of instructor. Offered infrequently.

ECE251 3 credits

Preschool Environments

Explores planning and evaluating physical and social environments for 3 to 8 year-old children. Includes room arrangement, appropriate equipment, outdoor areas, and creation of a nurturing environment. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; ECE163 or permission of instructor. Offered winter term.

ECE252 3 credits

Family Child Care Environments

Explores planning and evaluating physical and social environments for children in a multi-age family child care setting. Includes room arrangement, appropriate equipment, outdoor areas, and creation of a nurturing environment. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores, ECE161 and ECE163. Offered infrequently.

ECE254 3 credits

Preschool Curriculum

Designed for those working with preschool-aged and kindergarten children. Covers how to select, present, and evaluate materials and activities for 2½- to 6-year-old children. Course may include an online component. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; ECE163 or permission of instructor. Offered spring term.

ECE255 3 credits

Infant/Toddler Materials and Activities

Designed for those planning to work with infants and toddlers. Covers how to select, present, and evaluate materials and experiences for children birth to three years old. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores, and ECE161 or permission of instructor. Offered infrequently.

ECE256 3 credits **Primary Curriculum**

Designed for those planning to work with primary-age children. Covers how to select, present, and evaluate materials and activities for children six to eight years old. Emphasizes how to fulfill curriculum standards using developmentally appropriate teaching strategies. Course may include an online component. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; ECE163, ED165, or permission of instructor. Offered winter term.

ECE258 3 credits **Early Childhood Home Visitation**

Explores the role of the early childhood home visitor in providing effective services to families with young children in the home setting. Focuses on understanding the parent-child relationship and attachment, stages of change, and the trauma response. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; HS155 and HS158. Offered fall term.

ECE261 3 credits **Advanced Practicum I and Seminar**

Provides supervised teaching of children in a lab school or community setting, applying what has been learned through coursework and previous lab experiences. Course includes an online component. Criminal history check required as students will be in early childhood or elementary school settings. Prerequisite: RD30 or RD90 and BT113 or WR115, or designated placement test scores, all required 100-level ECE courses, and ECE254, ECE255 or ECE256.

ECE262 3 credits **Advanced Practicum II and Seminar**

Provides supervised teaching of children in a lab school or community setting, applying what has been learned through coursework and previous lab experiences. Students will take on the role of a lead teacher for a portion of the experience. Course includes an online component. Criminal history check required as students will be in early childhood or elementary school settings. Prerequisite: ECE261.

ECE265 3 credits **Children at Risk**

Explores the stressful issues that impact the development of the whole child, including poverty, divorce, child abuse, death of family members, changes in family system, cultural differences, violence, chronic illnesses, substance abuse, and homelessness. Requires online course component. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; ECE125, ECE161, ECE163, ED165, or permission of instructor. Offered winter term.

ECE266 3 credits **Spanish for Early Childhood/ Elementary Professionals**

Focuses on developmentally and linguistically appropriate practices for second language learners as well as developing a perspective of cultural competency. Enables students to develop basic vocabulary and learn cultural activities in Spanish to use with Spanish-speaking children and parents in a variety of educational situations. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores. Offered fall, winter and spring terms.

ECE275 3 credits **Anti-bias Education**

Explores the role of the adult in helping children accept and appreciate diversity and uphold values of equity, inclusion and social justice. Course may include an online component.

Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; ECE161, ECE163, ED165, or permission of instructor. Offered fall and spring terms.

ECE285 3 credits **The Early Childhood Professional**

Explores professional code of ethical conduct, aspects of leadership as an early childhood professional, and the development of a professional philosophy and portfolio. Provides the opportunity to engage professionally in a community project. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; ECE100 or ED259 recommended. Offered winter term.

ECE295 3 credits **Management of Early Childhood Programs**

Studies principles and practices in supervision and management of preschool and child care centers, including organization, budgeting, personnel records, relationships with community resources, regulatory agencies, and working with parents. Course may include an online component. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores. Offered infrequently.

ECONOMICS

Lower Division Transfer Courses

ECON115 3 credits **Introduction to Economics**

Surveys the principles of economics, evolution of economic thought, and development of present United States economic structure. Covers concepts of supply and demand, opportunity costs, and history of economic ideas. Course does not substitute for ECON201 or ECON202 in the Associate of Arts Oregon Transfer degree or Associate of Science/Oregon Transfer degrees. Prerequisites: RD30 or RD90 and BT114 or WR121.

ECON201 4 credits **Principles of Microeconomics**

Introduces students to consumer and company behavior and the market process. The economic analysis of different market structures of perfect competition, imperfect competition, and monopoly are analyzed along with the principles of income distribution and resource allocation under a market system. Prerequisites: RD30 or RD90 and BT114 or WR121; CS125WW recommended.

ECON202 4 credits **Principles of Macroeconomics**

Deals with human behavior and choices as they relate to the entire economy. Covers aggregate demand and aggregate supply of goods and services, how tax and spending affect the entire economy's output and employment, and how the Federal Reserve can manipulate the supply of money, inflation, and economic growth. Prerequisites: RD30 or RD90 and BT114 or WR121; CS125WW recommended. Offered fall, winter and spring terms.

EDUCATION

Lower Division Transfer Courses

ED120 1 credit **Leadership I**

Introduces basic skills in leadership. Special attention is given to developing basic leadership skills and cultural systems awareness. Prerequisites: BT113 or WR115 (may be taken concurrently). Offered fall and spring terms.

ED121 1 credit **Leadership II**

Introduces basic skills in leadership. Special attention is given to assessing and developing basic management skills and organizational systems awareness. Prerequisite: BT114 or WR121 (may be taken concurrently). Offered winter term.

ED122 1 credit **Leadership III**

Selected projects are provided to teams of students that will require the use of effective leadership and management skills to achieve success. Special attention is given to assessing and providing students meaningful coaching and feedback on their use of key leadership and management skills. Prerequisite: BT114 or WR121 (may be taken concurrently). Offered spring term.

ED131 3 credits **Applied Learning Theory**

Examines the principles of teaching and training with emphasis on applying adult learning theory. Focus will be on designing and evaluating learning outcomes. Designed for computer science informatics majors or students with strong content area knowledge who have little background in adult learning theory and its application to teaching and training. Prerequisite: WR121; SP111 recommended. Offered infrequently.

ED165 3 credits **Child Development**

Explores child growth and development from the prenatal period through middle childhood. Course may include an online component. Prerequisites: RD30 or RD90 and WR115, or designated placement test scores. Offered winter and spring terms.

ED170 2 credits **Introductory Practicum**

Provides supervised teaching of children in a variety of classrooms for each credit. The student will be assigned to a different site for each practicum credit. Criminal history check required as students will be in early childhood or elementary school settings. Course includes an online component. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; ECE125, ECE161, ECE163 or ED165.

ED199 Variable credit **Special Studies: Education**

Presents special topics of study in education through workshop, seminar, research, and/or independent study formats. Content varies according to department needs and demand.

ED259 3 credits **Foundations of Education**

Investigates the historical, social, legal and philosophical foundations of education. It provides an overview of the structure and contemporary issues of the American education system and explores the roles and ethical considerations of the education profession. Course may include an online component. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores. Offered infrequently.

ED280 Variable credit **Cooperative Work Experience/ Education**

Provides work-related experience and study in selected occupational environments.

ED282 3 credits **Community College Teaching**

Assists new, continuing, or adjunct instructors in developing and refining the skills necessary to apply successful strategies in a community college learning environment. Addresses shifting

paradigms in teaching/learning. Includes learning outcomes, assessment strategies, brain-based teaching, and student-centered instruction. Includes the role of community colleges and the resources and structure for teaching at RCC. Prerequisite: WR121 or approval of instructor. Offered infrequently.

ELECTRONICS

Career and Technical Courses

EET101 3 credits

Introduction to Electronics

Provides students with a hands-on survey of modern electronics. Introduces DC/AC theory, digital, solid state, power supply fundamentals, and integrated circuits. In addition to enhancing learning by providing practical applications of theoretical circuit models, lab assignments provide opportunities for increased knowledge and proficiency in the proper use of industry-standard test equipment. Prerequisite: MTH20 recommended.

EET104 4 credits

Fundamentals of Manufacturing Electronics

Provides students with a hands-on survey of manufacturing electronics concepts, circuits, and systems. The course introduces DC/AC theory, digital, solid state, power supply fundamentals, and integrated circuits. Topics covered include: safety practices related to working with electrical devices; electrical components and wiring; electronic test instruments; tools and fasteners; electrical units and nomenclature; principles and analysis of series, parallel, and series-parallel circuits; electrical power generation and control; and filtering devices and circuits. In addition to enhancing learning by providing practical applications of theoretical circuit models, lab assignments provide opportunities for increased knowledge and proficiency in the proper use of industry standard test equipment. Prerequisites: MTH20, RD30 or RD90 and WR30 or WR90; MTH60 recommended. Offered fall term.

EET106 3 credits

Electronics Assembly

Provides students with the hands-on skills and proficiencies necessary to meet ANSI J-STD-001B electronics assembly requirements. Areas of study include J-standard general requirements (procedures, terms, components, processes, materials, electrostatic discharge, tools, and equipment), surface mount assembly and soldering through hole assembly and soldering, wires and terminals, and inspection. Students will obtain J-STD-001B certification upon successful completion of the course. Offered infrequently based on industry demand.

EET112 5 credits

Introduction to Mechatronics

Uses a Parallax Boe-Bot as the centerpiece for students learning mechanical assembly, programming, and motion control in automated systems. Introduces digital concepts including binary number systems and basic logic as well as concepts and components in DC electronics fundamentals. Includes fundamentals of programming in PBASIC; instruction on how to interface input/output ports to LEDs, sensors, and audio piezo speaker elements; and electrical assembly techniques, safety, and soldering of through-hole and surface mount components. Students design, program and implement final Boe-Bot projects to demonstrate course content mastery. Prerequisites: MTH20 and WR30 or WR90, or designated placement test scores.

EET113 3 credits

Exploration of Alternative Energies

Explores the basic principles behind energy and introduces the various types of energy sources, distribution methods, and the consequences of the use of each source. Emphasis is on the physical principles behind energy and the related effects on our environment. In addition, students will explore and integrate the questions of energy policy in combination with potential energy strategies to build a sustainable future. Prerequisites: CS120 or documented proficiency and MTH20.

EET118 5 credits

Introduction to Renewable Energy Systems (RES)

Introduces solar, hydro, thermal, wind, bio-fuels, and control and conversion systems. Students will learn appropriate safety practices, terminology, and mathematics concepts/applications tied to renewable energy sources and systems. Includes hands-on projects and application assignments. Prerequisites: EET125 or permission of instructor. Corequisite: MTH63 or MTH60.

EET120 4 credits

Renewable Energy Systems (RES) Site Analysis and Design

Provides foundational skills and knowledge to complete the pre-planning, site survey, and process for installation of photovoltaic (PV) energy systems. Prerequisites: EET125 and EET118.

EET121 2 credits

North American Board of Certified Energy Practitioners (NABCEP) Entry-level Preparation

Provides students with a review of system design, installation, mechanical connections, and safety requirements for photovoltaic (PV) systems in preparation for the NABCEP entry-level certification test. Prerequisite: EET120 and MTH60 or MTH63.

EET125 6 credits

Electronics Fundamentals I (DC)

Covers the theory and application of direct current electrical concepts. Topics include common electrical components and measuring instruments; the utilization of scientific and engineering notation with mathematical analysis involving electrical and magnetic units; atomic basis of electrical activity; use of Ohm's Law and Kirchhoff's Laws to analyze electrical circuits; interrelationship of energy and power and the use of Watt's Law; analysis of voltage, current, and resistance relationships in series, parallel, and series-parallel resistive networks; circuit theorems and source conversions; branch, mesh, and node analysis methods; and theory and application of magnetism and electromagnetism. Corequisite: MTH63 or MTH60.

EET126 7 credits

Electronics Fundamentals II (AC)

Introduces the theory, mathematical concepts, calculations, applications, and troubleshooting of alternating current (AC) electrical circuits. Topics include generation of alternating current and voltage, phasors and complex numbers and their application to vector analysis of AC circuits, theory and application of capacitors and inductors in DC and AC circuits, principles of transformers and circuit applications, analysis of series, parallel, and series-parallel RC, RL, and RLC reactive circuits, series resonance and parallel resonance circuits. Theory and hands-on application of frequency response circuits include low-pass, high-pass, band-pass, band-stop filters, and pulse response of reactive circuits. Prerequisite: EET125.

EET130 6 credits

Digital Fundamentals I

Explores binary and hexadecimal number systems, truth tables, and logic devices. Outcomes include the simplification of logic expressions using Boolean algebra, DeMorgan's theorems, and the use of simulation software (MultiSim) to solve combinational logic circuits. Students will do analysis of combination logic circuits and their operations, and examine the characteristics of TTL and CMOS digital ICs. Students will also be introduced to the fundamentals of latches, flip-flops and other related devices, which are the building blocks to microcontrollers and microprocessor storage devices. PBASIC programming is used in conjunction with a Parallax BS2 Microcontroller to develop proficiency in building and troubleshooting digital systems. Hands-on laboratory experience is used to enhance theoretical concepts and develop troubleshooting skills. Prerequisite: EET125 or approval of instructor and EET112.

EET131 6 credits

Digital Fundamentals II

Examines advanced combinational logic synthesis, implementation of logic circuits and systems with TTL and CMOS devices, minimization techniques, and analog to digital conversion circuitry. Includes information on sequential circuits (flip-flop, register transfer), and hands-on troubleshooting of digital circuits with digital logic analyzers. Includes exploration of complex programmable logic devices using Xilinx ISE 7.1 Webpack software and CoolRunner architecture. Coursework also includes exploration of digital communication protocols (e.g., JTAG, USB, GPIB, RS232), and an introduction to the Atmel AVR microcontroller including architecture, addressing, and assembly language for basic programming projects. Prerequisite: EET130.

EET132 5 credits

Digital Fundamentals III

Explores complex programmable logic devices (CPLDs) and field programmable gate arrays (FPGAs) including applications, processes for programming, DC parameters and timing analysis and troubleshooting. Applications include Sequential Logic, Latches, Flip/Flops, Timers, Counters/Registers, HDL Implementation, PLD HW Implementation, Finite State Machine Design/Analysis, Logic Testing, MPU System, and Memory Devices. Laboratory assignments and projects will focus on using the Xilinx platform and Verilog programming language to implement and test designs. Prerequisite: EET131. Offered spring term.

EET136 2 credits

Photovoltaic (PV) Installation Techniques

Introduces the mechanical integration and supporting building structures used to install photovoltaic (PV) renewable energy systems. Focus is on relationships between the manufacturer's information for equipment and the mounting and installing procedures related to implications of product safety, performance, code compliance, and warranties for stand-alone and interactive utility systems. Students will gain a working knowledge of the ways that PV arrays are mechanically secured and installed, compare and contrast different array mounting systems and practices, and understand the effects of site placement and environmental conditions related to longevity of the renewable system, mounting method, and integration into the existing structure. Prerequisites: EET118 and MTH60 or MTH63. Offered as needed.

EET140 7 credits

Solid State Fundamentals

Introduces the theory, mathematical concepts, calculations, application, and troubleshooting of semiconductor solid-state

electrical devices. Topics include atomic theory basis of semiconductor electrical behavior and PN junction theory and applications, including diode and bipolar junction transistors. The course emphasizes utilization of graphical, analytical, and modeling techniques for DC and AC analysis of solid-state diode and bi-polar junction amplifier small signal circuit applications. Heavy emphasis is placed on integration of circuit theory to problem solving and troubleshooting skills. In addition to hands-on experience with industry-standard test equipment, software simulation is used to enhance the presentation of theory and circuit applications, and development of troubleshooting skills. Prerequisite: EET126.

EET150 3 credits **PLC Motor Control**

Covers programmable logic controllers (PLCs) in programming and control of AC electric motors found in industrial, commercial, and residential applications. Hands-on training using the Amatrol Motor Control System 85-MT5 allows learners to gain understanding of the operation, installation, design, and troubleshooting of AC electric motor control circuits and many common applications. Students develop skills in interpreting schematics, ladder logic diagrams, system design, motor start/stop circuits, motor sequence control, reversing motor control and motor jogging. Safety is emphasized throughout, highlighting motor safety, lockout/tagout and safety interlocks. Prerequisite: EET104. Offered spring term.

EET151 4 credits **Programming PLCs I**

Introduces programmable logic controllers (PLCs) and explores digital number systems, truth tables, logic devices, and PLC system and programming operations including ladder logic and memory organization. Prerequisite: EET150 or approval of instructor. Offered fall term.

EET180 Variable credit **Cooperative Work Experience/ Electronics**

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program.

EET180S 1 credit **Cooperative Work Experience Seminar/Electronics**

Presents an overview of the necessary employment documents to be competitive in the job market. Students will write a basic resume and cover letter, complete an employment application, participate in a mock interview, and develop an understanding of the importance of a professional image and work ethic. Students are expected to have completed most of their coursework toward a certificate or degree program and will be enrolled in CWE concurrently or in the following term.

EET199 1-6 credits **Selected Topics in Technology**

Provides study for students in technical programs in areas linked to industry. State-of-the-art equipment is used for industry standard-level instruction.

EET205 1 credit **International Society of Certified Electronics Technicians (ISCET) Certification Preparation**

Prepares students for ISCET associate level examination using software, review exercises, and ISCET study guide. Emphasis is on direct current, alternating current, digital and solid-state theory, devices, and circuits. In addition, component, circuit, and systems troubleshooting is reviewed with an emphasis on proper test equipment calibration, set up, and usage. Prerequisite: EET220 or approval of instructor. Offered spring term or by department approval.

EET215 5 credits **Operational Amplifiers and Linear Integrated Circuits**

Covers theory, operational characteristics, and typical applications of operational amplifier and linear integrated circuit devices. Operational amplifier topics include differential amplifier theory, application of positive and negative feedback, operational characteristics, and typical circuit applications. Linear integrated circuit topics include power supplies, special amplifier circuits, and data conversion circuits. In addition to theory and basic circuit applications, emphasis is placed on industry standard circuit applications. Hands-on experience with industry standard test equipment is supplemented with computer simulation to enhance presentation of theory and circuit applications and development of troubleshooting skills. Prerequisite: EET140 or approval of instructor.

EET220 6 credits **Solid State Devices**

Covers the theory and application of solid-state semiconductor field effect transistors and thyristors. Topics include theory and application of field effect transistors as switches and amplifiers, large signal amplifier applications of bipolar junction transistors, frequency analysis in solid state circuits, and silicon controlled rectifier theory and applications. Static and dynamic analysis of device and circuit operational performance is covered with application to problem solving and troubleshooting skills. In addition to hands-on experience with industry-standard test equipment, computer simulation is used to enhance the presentation of theory and circuit applications and to develop troubleshooting skills. Prerequisite: EET140.

EET225 3 credits **Electronics Troubleshooting**

Presents comprehensive theory and hands-on application of troubleshooting electronics components, circuits, and systems. Instruction includes technician responsibilities, safety, troubleshooting digital and analog systems, block and schematic diagram reading, test equipment loading and limitations, component faults/failures, opens and shorts, parts replacement, final inspection and test, and documentation. Prerequisite: EET220. Offered winter term.

EET230 6 credits **Radio Frequency Communications Fundamentals**

Examines the principles and circuitry utilized for radio frequency transmission and reception. In addition to basic principles and underlying theory, typical circuits for implementing amplitude modulation, frequency modulation, and digital communications techniques are discussed. Additional topics include basic principles and typical structure of communications receivers and transmitters, basic principles and techniques for multiplexing and de-multiplexing radio frequency signals, transmission line theory and application, electromagnetic wave propagation, and antenna fundamentals. Emphasis is placed on development of hands-on operational performance evaluation,

tuning, and troubleshooting skills. Prerequisite: EET220. Offered winter term.

EET235 5 credits **Microwave Applications**

Provides instruction in microwave theory and hands-on experience in using test instrumentation to explore the characteristics of microwave technology. Explores transmission lines, VSWR, the Smith Chart, impedance matching, stripline, microstrip and S parameters. Includes mixer/detector characteristics, up and down converters, IF strips, noise figure and temperature, receiver sensitivity, amplifiers, filters, duplexers, couplers, attenuators, terminators, isolators, mismatch loss, switches, propagation loss, antenna gain, and connectors. Includes hazards of microwave radiation to personnel and electrostatic discharge (ESD) to sensitive solid-state components. Prerequisite: EET230. Offered spring term.

EET240 5 credits **Microcontrollers I**

Provides detailed instruction in the software and hardware architecture of the Atmel AVR 8-bit RISC microcontrollers. Assembly language programming, debugging, and hardware interfacing allows for investigation of registers, memory maps, timing, decoding, memory addressing, and input/output porting of microcontroller-based systems. Prerequisite: EET130. Offered winter term.

EET241 5 credits **Microcontrollers II**

Continues exploration of computer architecture with focus on the Atmel AVR 8-bit RISC microcontrollers. Includes advanced study of interfacing and initializing of specialized integrated circuits necessary for advanced applications. Students will also explore the circuitry and programming necessary to interface high-power devices like stepper motors to microcomputer ports. In addition, students will be introduced to C high-level language as it relates to programming microcontroller-based systems. Prerequisite: EET240. Offered spring term.

EET250 4 credits **Prototype Development and Documentation**

Emphasizes technical writing and documentation while developing a functioning electronic system. Includes design and construction of a prototype electronic project requiring integration of a microcontroller-based system with digital and analog devices. Projects include the use of complex programmable logic devices (CPLDs) from Xilinx and embedded devices that include the AVR microcontrollers, Raspberry Pi, or Arduino platforms with instructor approval. Prerequisites: EET220 and EET240; corequisite: EET241 recommended. Offered spring term.

EET280 Variable credit **Cooperative Work Experience/ Engineering**

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program.

EET280S 1 credit

Cooperative Work Experience Seminar/Electronics

Presents an overview of the necessary employment documents to be competitive in the job market. Students will write a basic resume and cover letter, complete an employment application, participate in a mock interview, and develop an understanding of the importance of a professional image and work ethic. Students are expected to have completed most of their coursework toward a certificate or degree program and will be enrolled in CWE concurrently or in the following term.

EMERGENCY MEDICAL SERVICES

Career and Technical Courses

EMS160 2 credits

Electrocardiogram (ECG) Interpretation

Focuses on a basic introduction and understanding of electrocardiograms (ECGs). It covers information needed to interpret ECGs including anatomy and physiology of the human heart and how it relates to the ECG. Students will also learn basic electrophysiology, how to interpret sinus rhythms, atrial rhythms, junctional and ventricular rhythms, as well as AV blocks and pacemaker rhythms. Prerequisite: Some form of medical training or background is suggested (e.g., EMT, CNA, etc.). Offered fall, winter and summer terms.

EMS162 2 credits

12-lead ECG Interpretation

Introduces 12-lead electrocardiograms (ECGs). The course covers a review of basic cardiac anatomy, physiology, and electrophysiology and how it relates to the 12-lead ECG; included is how to acquire and interpret the results of the 12-lead ECG in recognizing non-ST-elevation myocardial infarctions, ST-elevation myocardial infarctions, and the common imposters the clinician may observe. Prerequisites: Some form of medical training or background is suggested (e.g., EMT, CNA, etc.) as well as successful completion of an ECG recognition course.

EMS165 2 credits

Introduction to Pharmacology for Health Occupations

Introduces the world of pharmacology beginning with regulations and safety issues, working through different medication preparations and dosages, and medical math and safe drug calculations. This course will cover patient conditions related to medications and the effects medications have on the patient's body. The course also introduces correct medication administration procedures and the medications prescribed or administered that specifically target the autonomic nervous and cardiovascular systems. Prerequisites: MTH20, RD30 or RD90, and WR115 or designated placement test scores. Offered fall, spring and summer terms.

EMS170 2 credits

Emergency Communication and Documentation

Covers principles of therapeutic communication, verbal, written, and electronic communications in the provision of EMS, documentation of elements of patient assessment, care and transport, communication systems, radio types, reports, codes, and correct techniques. Prerequisite: Completion of or concurrent enrollment in ES131 or current EMT license. Offered winter and spring terms.

EMS171 2 credits

Emergency Patient Transportation

Covers ambulance operations, laws, maintenance and safety, emergency response driving and route planning. Prerequisite: Completion of or concurrent enrollment in ES131 or current Oregon EMT license. Offered winter term.

EMS181 5 credits

Advanced Emergency Medical Technician Part I

The first of the didactic and lab portions of the preparation for licensure in Oregon and certification by National Registry of EMTs (NREMT) for Advanced Emergency Medical Technician (AEMT). Presents the roles and responsibilities of the AEMT, patient assessment and management, airway management, anatomy/physiology, patho-physiology, differential diagnosis, shock management, intravenous and intraosseous infusions, trauma management, medical emergencies management, basic cardiology and defibrillation, protocols, pharmacology and medications, obstetric emergencies, and emergency pediatric care. Prerequisites: Current Oregon EMT license. Course requires a written application prior to admission. Offered infrequently.

EMS182 5 credits

Advanced Emergency Medical Technician Part II

The second of the didactic and lab portions of the AEMT course. The course presents the roles and responsibilities of the AEMT, patient assessment and management, airway management, anatomy/physiology, patho-physiology, differential diagnosis, shock management, intravenous and intraosseous infusions, trauma management, medical emergencies management, basic cardiology and defibrillation, protocols, pharmacology and medications, obstetric emergencies, and emergency pediatric care. Prerequisites: Current Oregon EMT license and completion of EMS181 with a "C" or better grade. Offered infrequently.

EMS183 2 credits

Advanced Emergency Medical Technician Part III Clinical Practice

Focuses on practical application of the skills and knowledge acquired in EMS181 and EMS182. This is the final component of the advanced EMT coursework. Includes a minimum of 84 lab hours (48 hours of ambulance internship and 36 hours in the emergency department). Prerequisites: Current Oregon EMT license and completion of EMS181 and EMS182 with a "C" or better grade. Offered infrequently.

EMS205 3 credits

Crisis Management

Focuses on crises encountered in a variety of settings related to public safety. Presents material on the communication and interaction with people in various crisis situations, death and death notification, suicide, behavioral emergencies, abuse, and stress. Techniques on the initial intervention, defusing and assessment, and referral in crisis are discussed. Prerequisite: RD30 or RD90 and BT113 or WR115, or designated placement test scores, and completion of ES131/ES131L or current Oregon EMT license. Offered spring term.

EMS271 8 credits

Paramedic Part I

The first of a four-term sequence in the paramedic education series. Covers advanced pathophysiology, patient assessment, airway and shock management, general pharmacology, respiratory emergencies, intravenous (IV) therapy, obstetrics, and pediatrics. Prerequisites: Current Oregon EMT, Oregon Advanced EMT, or Oregon EMT Intermediate license, ES105, EMS170, EMS171, MTH65 and WR121. Corequisites:

EMS271L and EMS281. Course requires a written application prior to admission. Offered fall term.

EMS271L 2 credits

Paramedic Lab Part I

In-classroom labs and simulated emergency scenes, develops students' abilities to recognize and treat the symptoms of illness and injury. Includes hands-on assessment and utilizes both basic and advanced life support equipment to apply the concepts learned in EMS271. Also develops skills and abilities in managing emergency medical scenes, coordinating resources, and delegating tasks as appropriate. Corequisites: EMS271 and EMS281. Offered fall term.

EMS272 8 credits

Paramedic Part II

Second course in the paramedic series. Covers the anatomy and electrophysiology of the heart, ECG and 12-lead interpretation, and the patho-physiology and pre-hospital management of cardiac disease, including the Advanced Cardiac Life Support Provider (ACLS) course. Reviews neonatal care and pediatrics covered in fall term, and includes the Pediatric Advanced Life Support (PALS) course. Also covers neurologic, psychiatric, and special needs patients. Prerequisites: Current Oregon EMT, AEMT, or EMT-Intermediate license and completion of EMS271, EMS271L and EMS281 with a "C" or better grade. Corequisites: EMS272L and EMS282. Offered winter term.

EMS272L 2 credits

Paramedic Lab Part II

In-classroom labs and simulated emergency scenes, develops students' abilities to recognize and treat the symptoms of illness and injury. Includes hands-on assessment and uses both basic and advanced life support equipment to apply the concepts learned in EMS272. Also develops skills and abilities in managing emergency medical scenes, coordinating resources, and delegating tasks as appropriate. Corequisite: EMS272 and EMS282. Offered winter term.

EMS273 5 credits

Paramedic Part III

Third course in the paramedic series. Covers the principles and practices for identifying and managing trauma patients and a Pre-hospital Trauma Life Support (PHTLS) course is included. Also covers toxicology, infectious disease, environmental emergencies, endocrinology, and ethical and legal issues. Prerequisites: Current Oregon EMT, AEMT, or EMT-Intermediate license and completion of EMS272, EMS272L and EMS282 with a "C" or better grade. Corequisites: EMS273L and EMS283. Offered spring term.

EMS273L 2 credits

Paramedic Lab Part III

In-classroom labs and simulated emergency scenes, develops students' abilities to recognize and treat the symptoms of illness and injury. Includes hands-on assessment and uses both basic and advanced life support equipment to apply the concepts learned in EMS273. Also develops skills and abilities in managing emergency medical scenes, coordinating resources, and delegating tasks as appropriate. Corequisites: EMS273 and EMS283. Offered spring term.

EMS280 Variable credit

Cooperative Work Experience/EMS

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it

should be completed within the last two terms of a certificate or degree program. Prerequisites: ES132 and ES132L, and permission of CWE instructor or department chair.

EMS281 1 credit **Paramedic Clinical Practice I**

Focuses on airway management in the operating room setting and patient assessment in the emergency department. The class will begin with an orientation session to the clinical tracking system used and the RCC Paramedic Clinical Manual. Specific procedures and issues common to clinical sites will be reviewed prior to beginning rotations. Prerequisites: Current Oregon EMT, AEMT, or EMT-Intermediate license. Corequisites: EMS271 and EMS271L. Offered fall term.

EMS282 2 credits **Paramedic Clinical Practice II**

Focuses on airway management in the operating room, patient assessment and treatment, and application of paramedic skills in the emergency department, labor and delivery, and the care of pediatric patients. Specific procedures and issues common to these clinical sites will be reviewed prior to beginning rotations. Prerequisites: Current Oregon EMT, AEMT, or EMT-Intermediate license and completion of EMS271 and EMS281 with a "C" or better grade. Corequisites: EMS272 and EMS272L. Offered winter term.

EMS283 2 credits **Paramedic Clinical Practice III**

Focuses on patient assessment and treatment, and application of paramedic skills in the emergency department, airway management in the operating room setting, management of critical patients in the ICU and CCU, and assessment and management of respiratory conditions. Specific procedures and issues common to these clinical sites will be reviewed prior to beginning rotations. Prerequisites: Current Oregon EMT, AEMT, or EMT-Intermediate license and completion of EMS272 and EMS282 with a "C" or better grade. Corequisites: EMS273 and EMS273L. Offered spring term.

EMS284 8 credits **Paramedic Clinical Practice IV**

This is the field internship portion of the paramedic course. Students will complete a minimum of 300 hours as a crew member on an advanced life support transporting ambulance, and must also participate in a minimum of 50 advanced life support calls of specific types. Individual conferences with the clinical coordinator will be conducted throughout the term. Prerequisites: Current Oregon EMT, AEMT, or EMT-Intermediate license and completion of EMS273, EMS273L, and EMS283 with a "C" or better grade. Offered fall and summer terms.

EMS299 Variable credit **Workshop: Emergency Medical Service Training**

Provides inservice training in a variety of emergency medical service topics. Prerequisites: Current Oregon EMT, AEMT, EMT-Intermediate, or paramedic license.

ES105 4 credits **Introduction to Emergency Services**

Explores the organization, funding, and role of emergency services within the community and government. Other topics include an overview of emergency medical services and fire protection services; legal and professional considerations regarding emergency response; emergency services personnel; history and trends of emergency services; evaluation and planning; disaster response; and training, leadership, and career development within emergency services.

ES131 4 credits **Emergency Medical Technician Part I**

The first half of a course that prepares individuals for National Registry certification and licensure in Oregon as an emergency medical technician. The course will develop a student's ability to recognize and treat the symptoms of illness and injury in the pre-hospital setting. Includes skills in patient assessment, basic airway management, trauma assessment and management, medication administration, and the use of automated external defibrillators (AED). Prerequisite: Course requires written application prior to admission. Corequisite: ES131L. Offered fall, winter and summer terms.

ES131L 1 credit **Emergency Medical Technician Part I Lab**

Develops students' abilities to recognize and treat the symptoms of illness and injury in classroom labs and simulated emergency scenes. Includes skills in patient assessment, basic airway management, trauma assessment and management, medication administration, and the use of automated external defibrillators (AED). Course requires written application prior to admission. Prerequisite: Course requires written application prior to admission. Corequisite: ES131. Offered fall, winter and summer terms.

ES132 4 credits **Emergency Medical Technician Part II**

The second half of a course that prepares individuals for National Registry certification and licensure in Oregon as an emergency medical technician. Covers the recognition and management of medical and trauma patients. Prerequisite: Completion of ES131 and ES131L with a "C" or better. Corequisite: ES132L. Offered winter, spring and summer terms.

ES132L 1 credit **Emergency Medical Technician Part II Lab**

Develops students' abilities to recognize and treat the symptoms of illness and injury in classroom labs. Includes skills in patient assessment, basic airway management, trauma assessment and management, medication administration, and the use of automated external defibrillators (AED). Students will also be scheduled for observation time in an emergency department and on an ambulance. Prerequisite: Completion of ES131 and ES131L with a "C" or better. Corequisite: ES132. Offered winter, spring and summer terms.

ES268 3 credits **Emergency Service Rescue**

Introduces elementary procedures of rescue practices, systems, components, support, and control of rescue operations. Includes techniques and tools of patient extrication and emphasizes their applications in traffic accidents as required for paramedic certification. Prerequisite: Some level of emergency training or background is suggested (e.g., emergency medical responder, EMT, firefighter, etc.). Offered fall and spring terms.

ENGINEERING

Lower Division Transfer Courses

ENGR101 2 credits **Engineering Orientation I: Careers, Skills and Computer Tools**

Introduces engineering curricula, career paths, ethics, problem solving, communication, and computer programming. The

first in a three-term sequence is required for all areas of engineering. Prerequisite: MTH111. Offered fall term.

ENGR102 2 credits **Engineering Orientation II: Careers, Skills and Computer Tools**

Examines communication and problem-solving skills in engineering. The second in a three-term sequence is required for all areas of engineering. Prerequisite: ENGR101. Offered winter term.

ENGR103 2 credits **Engineering Orientation III: Careers, Skills and Computer Tools**

Examines communication and problem-solving skills in engineering. The third in a three-term sequence is required for all areas of engineering. Prerequisite: ENGR102. Offered spring term.

ENGR201, ENGR201A 3 credits **Electrical Fundamentals w/Lab**

Examines electrical theory laws. Includes circuit analysis of DC circuits; natural, step, and sinusoidal responses of circuits; and operational amplifier characteristics and applications. Students must enroll in lecture and laboratory sections. Prerequisite: MTH251. Offered spring term.

ENGR202, ENGR202A 3 credits **Electrical Fundamentals II w/Lab**

Examines electrical-theory laws. Includes circuit analysis of AC circuits using complex numbers for single- and three-phase power. Includes lab. Prerequisite: ENGR201 and co-enrollment in ENGR202 lab. Offered spring term.

ENGR211 3 credits **Statics**

Analyzes forces induced in structures and machines by various types of loading. Prerequisite: PH211. Offered fall term.

ENGR212 3 credits **Dynamics**

Explores kinematics, Newton's laws of motion, work-energy theorem, and impulse-momentum relationships as applied to engineering systems. Prerequisites: ENGR211. Offered winter term.

ENGR213 3 credits **Strength of Materials**

Presents the concepts of introductory mechanics of materials. Topics addressed are the concept of stress, axial stress and strain, torsion, pure bending, transverse loading, transformations of stress and strain, design of beams and shafts for strength, deflection of beams, and columns. Prerequisites: ENGR211. Offered spring term.

ENGLISH

Lower Division Transfer Courses

ENG104 4 credits **Introduction to Literature (Fiction)**

Provides a survey of important works of fiction by writers from different cultures and time periods. The course is designed to foster thoughtful interpretation, analysis, and appreciation of fiction. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered fall term.

ENG105 4 credits **Introduction to Literature (Drama)**

Offers a survey of representative works of drama from different cultures and time periods. Course explores the nature of

the dramatic experience with emphasis on understanding and appreciating live productions. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered in spring term.

ENG106 4 credits **Introduction to Literature (Poetry)**

Explores the artistic use of language and a world made larger through the vicarious experiences offered through poetic expression. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered winter term.

ENG107 4 credits **World Literature: Ancient to Classical**

Surveys important works from the literature of early civilizations: Egyptian, Hebrew, Greek, Chinese, Indian, and Roman. Course is designed to foster thoughtful interpretation, analysis, and appreciation of literature. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered fall term.

ENG108 4 credits **World Literature: Medieval to Renaissance**

Provides insights into the important works from India's Classical Age, China's 'Middle Period,' the rise of Islam, the Middle Ages in Western literature, the Golden Age of Japan, and the Renaissance in Europe. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered winter term.

ENG109 4 credits **World Literature: Enlightenment to Modern**

Introduces important works representing Enlightenment, romanticism in Europe and America, pre-modern Japan, 19th century realism, and 20th century literature in a global context. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered in spring term.

ENG199 Variable credit **Special Studies: English**

Covers a variety of specialized areas such as Shakespeare on stage. Course transfers only as elective credit. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently).

ENG201 4 credits **Shakespeare I**

Introduces Shakespeare's comedies and romances with an emphasis on current theoretical approaches to his plays. It focuses on the plays themselves; however, students will also study performance history. ENG201, ENG202, ENG203 need not be taken in sequence. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered infrequently.

ENG202 4 credits **Shakespeare II**

Introduces Shakespeare's history plays with an emphasis on current theoretical approaches to his plays. It focuses on the plays themselves; however, students will also study performance history. ENG201, ENG202, ENG203 need not be taken in sequence. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered infrequently.

ENG203 4 credits **Shakespeare III**

Introduces Shakespeare's tragedies with an emphasis on current theoretical approaches to his plays. It focuses on the plays themselves; however, students will also study performance history. ENG201, ENG202, and ENG203 need not be taken in sequence. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered infrequently.

ENG204 4 credits **Survey of English Literature: Medieval to Renaissance**

Provides a historical survey of important works from the literature of the British Isles from the roots of Old English in the fifth century through the Early Modern period. The course is designed to foster thoughtful interpretation, analysis, and appreciation of literature. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered fall term.

ENG205 4 credits **Survey of English Literature: 18th Century to Romantic**

Provides a historical survey of important works from the literature of the British Isles from the seventeenth century Restoration period through the Romantic period of the early nineteenth century. The course is designed to foster thoughtful interpretation, analysis and appreciation of literature. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered winter term.

ENG206 4 credits **Survey of English Literature: Victorian to Modern**

Provides a historical survey of important works from the literature of the British Isles and nations it colonized from the Victorian period through the twentieth century. The course is designed to foster thoughtful interpretation, analysis, and appreciation of literature. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered spring term.

ENG253 4 credits **Survey of American Literature: Colonial**

Provides a survey of literary works from the Colonial, Enlightenment, and Romantic periods, and includes such diverse forms as essays, journals, sermons, political documents, poetry and fiction. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered infrequently.

ENG254 4 credits **Survey of American Literature: 19th Century**

Provides a survey of American literature between the 1830s and the turn of the century, and includes such diverse forms as essays, journals, sermons, political documents, poetry and fiction. In many of the works, historical events such as slavery and the Civil War provide both background and subject matter for the artistic productions of the authors studied. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered infrequently.

ENG255 4 credits **Survey of American Literature: 20th Century**

Provides a survey of American literature between the early

1900s to the present. In many of the works, historical events such as World War I, the Great Depression, and World War II provide both background and subject matter for the artistic productions of the authors studied. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered infrequently.

ENG257 4 credits **African American Literature**

Introduces literature of Americans whose roots are in Africa. Emphasizes the period of post Civil War through the Harlem Renaissance. Covers the birth of the African American canon, post-war novels, short stories, poems, autobiographies, and plays. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered infrequently.

ENG260 4 credits **Introduction to Women Writers**

Introduces literature by women and women-identified men. Emphasizes the Middle Ages period through the present. Covers "birth" of women's literary canon, treatises, short stories, autobiographies, novels, poems and plays. Literary magazines may be read to introduce early feminist and womanist literary criticism. Focuses on oral and written texts representing interests, aspirations, and experiences of women. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered infrequently.

ENG275 4 credits **The Bible as Literature**

Studies the composition, stories, and themes of the Bible in order to deepen understanding of its meaning and influence. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered infrequently.

ENG280 Variable credit **Cooperative Work Experience/English**

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program.

ENG299 Variable credit **Special Studies: English**

Presents special studies in English through workshop, seminar, and independent study formats. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently).

ENVIRONMENTAL SCIENCE

Lower Division Transfer Courses

ENV111 3 credits **Introduction to Environmental Science**

Introduces the uses of chemical, physical, and biological principles to explain the complexity and diversity found in environmental systems. Designed for both environmental science majors and non-majors, the course will explore a wide range

of environmental topics including the conservation of matter and energy, the atmosphere, nutrient cycles, the hydrologic cycle, population dynamics, biodiversity, human impact on the environment, resource and waste management, and the role of economics and politics in sustainability. Prerequisites: MTH20 and BT113 or WR115 or designated placement test scores. Offered spring term.

FIRE SCIENCE

Career and Technical Courses

FRP99 Variable credit Fire Science Outreach

Provides inservice and continuing education to study current issues and problems in the fire science field. Workshop subjects will vary.

FRP130 3 credits Basic Wildland Firefighter

Covers basic fire behavior as it relates to forestry firefighting, personal and crew safety, use of tools and equipment, and fire suppression techniques. Meets National Wildfire Coordinating Group standards for S-130 Firefighter Training and S-190 Introduction to Wildland Fire Behavior. Offered spring term.

FRP131 1 credit Advanced Wildland Firefighter

Provides students with basic supervisory skills necessary to operate as squad bosses. Covers communications, recordkeeping, first aid, and basic fire investigation. Meets National Wildfire Coordinating Group standards for S-131. Prerequisite: FRP130.

FRP199 1-3 credits Workshop: Fire Science

Includes a series of workshops on fire science operations to upgrade skills and explore new methods. Meets a variety of Oregon Department of Public Safety Standards and Training accredited topics.

FRP200 1 credit Initial Attack Incident Commander

Meets the training needs of the Incident Commander Type 4 (ICT4). The six instructional units include foundation skills, intelligence gathering and documentation, sizing up the incident, developing a plan of action, post-fire activities, evaluating incident objectives, and managing the incident. Evaluation of the student is by unit tests and performance-based evaluations. Students are expected to demonstrate effective foundation skills (leadership, risk management, and communications) at the ICT4 level. Prerequisite: FRP130 or FRP251.

FRP211 3 credits Hiring Practices in the Fire Service

Covers methods of preparation for interviews, tips on appearance, language usage, and interaction. Practice interviews are followed with critique sessions and tips on identifying and eliminating weaknesses. Offered infrequently.

FRP215 3 credits Fire Operations in the Wildland/Urban Interface

Meets training needs for initial attack incident commanders and company officers confronting wildland fire that threatens life, property, and improvements. Units include size-up, initial strategy and action plan assessment, public relations and follow-up, and safety. Meets National Wildfire Coordinating Group standards for S-215 Fire Operations in the Wildland/Urban Interface. Prerequisite: FRP130.

FRP230 2 credits Wildland Single Resource Boss

Produces student proficiency in the performance of duties associated with the single resource boss – crew position from initial dispatch through demobilization to the home unit. Topics include operational leadership, preparation and mobilization, assignment preparation, risk management, entrapment avoidance, safety and tactics, offline duties, demobilization, and post incident responsibilities. Prerequisite: FRP231.

FRP231 1 credit Wildland Engine Boss

Produces student proficiency in the performance of the duties associated with engine boss, single resource (ENGB). Topics include engine and crew capabilities and limitations, information sources, fire size-up considerations, tactics, and wildland/urban interface. Prerequisite: FRP131.

FRP233 3 credits Firefighter Safety and Survival

Introduces basic principles and history related to the national firefighter life safety initiatives, focusing on the need for cultural and behavior change throughout the emergency services. Corequisite: FRP251. Offered winter term.

FRP238 3 credits Public Education, Relations and Information

Presents the philosophy of PIER programs in the fire service as well as various aspects of marketing to achieve desired results. Includes information about various communication delivery methods including media relations and crisis communications. Offered infrequently.

FRP241 3 credits Fire Prevention Inspections

Provides students with the knowledge and skills necessary to prepare for and perform effective fire prevention in a variety of occupancies. Meets Oregon Department of Public Safety Standards and Training #41-02 Fire Prevention Inspections. Offered infrequently.

FRP243 3 credits Advanced Fire and Arson Investigation

Studies the use of detection equipment, identification of incendiary devices, electrical service deficiencies, common characteristics of a juvenile fire, reporting systems, and securing and controlling the fire scene. Prerequisite: FRP273. Offered infrequently.

FRP246 3 credits Hazardous Materials I for Inspectors

Studies hazardous materials recognition, storage, handling, hazards, labeling, placarding, incident reporting, and safety precautions. Meets Oregon Department of Public Safety Standards and Training #41-05 Hazardous Materials I for Inspectors. Prerequisite: FRP260. Offered infrequently.

FRP249 3 credits Fire Service Leadership

Examines management skills for mid-level supervisors in the fire service. Meets Oregon Department of Public Safety Standards and Training #35-13 Supervision and Leadership. Prerequisite: FRP251 or approval of instructor. Offered winter term.

FRP251,FRP251L 8 credits Firefighter Level I and Lab

Introduces basic training including use of small tools and equipment, practice in forcible entry, use of breathing apparatus, salvage and overhaul techniques, and hose and ladder skills. Meets Department of Public Safety Standards and

Training and National Fire Protection Association standards for NFPA1001. Offered fall term and possibly spring term based on demand.

FRP252 4 credits Firefighter Level II

Covers firefighting skills required to perform proficiently on the fire scene. Meets National Fire Protection Association 1001 Standards for Firefighter II. Prerequisite: FRP251 or equivalent. Offered winter term.

FRP253 3 credits Fire Apparatus Driver

Presents the most up-to-date information on fire apparatus and the techniques used to safely operate them. This course provides the practical, hands-on experience necessary for students to become safe and knowledgeable emergency vehicle operators. Prerequisite: FRP251 or equivalent. Offered fall term.

FRP256 3 credits Fire Behavior and Combustion

Assists students in gaining a solid understanding of the theories and fundamentals of how and why fires start and spread as well as how they are controlled. It will develop and enhance their knowledge of combustion reactions in solids, liquids, and gasses. Students will demonstrate an understanding of English and System International (SI) measurements, the physical and chemical properties of combustion, terminology associated with fire and combustion, and demonstrate an applied knowledge of fire suppression and fire dynamics. This course meets Department of Public Safety Standards and Training #25-08 and #43-02. Corequisite: FRP251. Offered fall term.

FRP258 3 credits Pumper Operator

Covers hydraulic and fluid principles, friction loss, basic fire ground hydraulics, basic fire pump construction and operating principles, and fire hydrant operations. Combined with FRP259, meets Oregon Department of Public Safety Standards and Training and National Fire Protection Association #1002 Pumper Operator. Prerequisites: FRP253. Offered winter term.

FRP259 3 credits Water Supply Operations

Covers foam equipment and operations, drafting, sprinkler and standpipe connections, relay and tandem pumping, advanced fire ground hydraulics, apparatus service testing, and advanced troubleshooting and maintenance. Combined with FRP258, meets Oregon Department of Public Safety Standards and Training and National Fire Protection Association #1002 Pumper Operator. Prerequisites: FRP253 and FRP258. Offered spring term.

FRP261 1 credit Hazardous Materials First Responder Operations

Covers recognizing the presence of hazardous materials/ weapons of mass destruction and initial actions for the first responder. Meets NFPA 472 – Responder to Hazardous Materials/Weapons of Mass Destruction Operations Level. Offered fall term.

FRP262 3 credits Fundamentals of Fire Prevention

Presents the fundamentals of fire prevention including recognized standards, practices and procedures. Corequisites: FRP251/FRP251L. Offered winter term.

FRP264 3 credits Building Construction for Fire Protection

Covers building classification and structural features, types of

material used in buildings, flame spread and fire retardants, and representative fire loads. Meets Oregon Department of Public Safety Standards and Training #39-22 Building Construction and #42-01 Building Construction for Fire Protection. Offered spring term.

FRP269 3 credits **Aircraft Firefighting**

Covers crash, fire, and rescue techniques for aircraft firefighting. Meets Oregon Department of Public Safety Standards and Training #17-04 Aircraft Forcible Entry and Ventilation; #17-05 Aircraft Scene Management-I; #17-11 Aircraft Familiarization; and #17-15 Aircraft Rescue. Offered infrequently.

FRP272 3 credits **Fixed Systems and Extinguishers**

Studies portable and built-in extinguishing equipment including fire alarm and detection systems, sprinkler systems, and stand-pipe protection systems for special hazards. Meets Oregon Department of Public Safety Standards and Training #25-05 Fire Detection, Alarm, Extinguishing Systems, and #41-04 Fire Detection and Protection Systems. Offered winter term.

FRP273 3 credits **Fire Investigation**

Provides an overview of basic fire investigation techniques, chemistry, laws, motives for arson, and interviewing witnesses and suspects. Corequisite: FRP251. Offered spring term.

FRP274 3 credits **Firefighting Strategy and Tactics**

Studies fire ground tactics, procedures for developing pre-fire plans, and methods for effectively coping with fire emergency problems. Meets Oregon Department of Public Safety Standards and Training #35-14 Basic Strategy and Tactics. Corequisite: FRP261. Offered spring term.

FRP280 Variable credit **Cooperative Work Experience/Fire Science**

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program.

FRP282 3 credits **Introduction to Codes and Related Ordinances**

Studies codes used in the fire service that provide students with the knowledge needed to perform company level fire inspections and ensure buildings in AHJ coverage area meet fire and life safety standards for both new and old construction types. Corequisite: FRP251. Offered fall term.

FRP283 1 credit **Followership to Leadership**

Provides a self-assessment opportunity for individuals preparing to step into leadership roles. Combines classroom and field instruction with students working through a series of problem-solving events in small teams (Field Leadership Assessment course). Topics include leadership values and principles, transition challenges for new leaders, situational leadership, team cohesion factors, and ethical decision-making. Prerequisite: FRP130. Offered infrequently.

FRP285 3 credits **Fire Instructor I**

Studies various instructional techniques and methodologies for teaching diverse learners, addresses critical issues of safety, and the legal aspects of training. Meets Oregon Department of Public Safety Standards and Training and National Fire Protection Association #1041 Instructor I. Offered summer term.

FRP286 3 credits **Fire Instructor II**

Prepares participants for planning and developing all aspects of course curriculum including a needs analysis, task analysis, course goals and objectives, lesson plans, instructional support materials and media, and evaluation instruments. Meets Oregon Department of Public Safety Standards and Training and National Fire Protection Association #1041 Instructor II. Prerequisite: FRP285 or instructor approval. Offered infrequently.

FRP290 3 credits **Intermediate Wildland Fire Behavior**

Prepares the prospective fireline supervisor to undertake safe and effective fire management operations. It is the second course in a series that collectively serves to develop fire behavior prediction knowledge and skills. Prerequisite: FRP130.

FRP295 3 credits **Health and Fitness for Emergency Services Workers**

Prepares students with the foundation needed prior to entering a program in emergency services, such as firefighting, paramedicine or law enforcement, by providing an overview of the key topics that promote a life of health and wellness in the emergency services field. Students are given the opportunity to assess their current lifestyles and their relationships to wellness, physical fitness, nutrition, and risk for illness/disease. With appropriate participation and study, students will finish the class with a firm understanding of community health issues and the relationship of lifestyle to health and longevity so as to plan realistic short- and long-term health goals. Fulfills health general education requirement within the Fire Science AAS degree. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores. Offered fall term or as demand requires.

GENERAL SCIENCE

Lower Division Transfer Courses

GS104 4 credits **Physical Science w/Lab**

This is the first of the general science series and is a prerequisite to many other science courses. Presents an integrated study of forces and motions in the physical world. Students must enroll in lecture and laboratory sections. Prerequisite: MTH60 or consent of instructor and RD30 or RD90; MTH65 recommended.

GS105 4 credits **Physical Science: Chemistry w/Lab**

Studies the fundamental concepts and principles of chemistry. Examines the development and application of the scientific method as it connects to the "furniture of the universe." Includes the structure of the atom and its nucleus, the elements and their relationships, chemical bonding, molecules, chemical reactions, acid and base reactions, and an introduction to organic chemistry. Students must enroll in lecture and laboratory sections. Prerequisite: GS104 or consent of instructor. Offered winter term.

GS106 4 credits **Physical Science: Earth Science w/Lab**

Introduces various branches of earth science. Includes basic terminology, fundamental processes, and respective interrelationships. Includes rocks and minerals, the structure of the earth, water, geologic history, the atmosphere, weather, the solar system, stars, and introduces cosmology. Students must enroll in lecture and laboratory sections. Prerequisite: GS104 or consent of instructor. Offered winter term.

GS107 4 credits **Physical Science: Astronomy w/Lab**

Discusses topics of astronomy including comets, moons, planets, stars, the sun, star galaxies, black holes, pulsars, and quasars. Students must enroll in lecture and laboratory sections. Prerequisite: GS104 or consent of instructor. Offered spring and summer terms.

GS108 4 credits **Physical Science: Oceanography w/Lab**

Studies oceans and their phenomena. Focuses on the chemical, biological, and physical nature of ocean water, oceanographic instruments, the ocean floor and shorelines, and pollution. Students must enroll in lecture and laboratory sections. Prerequisite: MTH60 or designated placement test score. Offered summer term.

GS161 4 credits **Regional Field Studies**

This introductory field study is held at various locations in Oregon including Crater Lake National Park or southeastern Oregon's Alvord Desert and Steens Mountains. Involves hiking, camping, traveling by car, and possible overnight stays. Uses both classroom preparation and site visitation to familiarize students with the geology and surrounding landforms. Discussions include the history of human influences on the area and the subsequent environmental effects. Students will design and submit research papers and multimedia projects for credit. Prerequisite: GS104 or consent of instructor. Offered summer term.

GS170 4 credits **Regional Field Geology**

Field studies involve hiking, camping, traveling by car, and possible overnight stays. Offers introductory geologic field studies of specific Pacific Northwest regions. Involves both classroom preparation and site visits to familiarize students with the geology and surrounding landforms of the region being studied. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores. Offered summer term.

GS199 Variable credit **Special Studies: General Science**

Offers individual and small group studies in a variety of science topics. May include ecological, biological, geological, and/or climatological emphasis.

GS280 Variable credit **Cooperative Work Experience/General Science**

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students

working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program.

GEOGRAPHY

Lower Division Transfer Courses

GEOG100 3 credits

Introduction to Physical Geography

Builds an understanding of physical geography by examining the Earth's dimensions, energy balance, atmospheric characteristics (air temperature, moisture, precipitation, circulation, weather patterns, climate types and climate change), internal structure (including plate tectonics, earthquakes and volcanoes), weathering and mass wasting processes, fresh water and hydrology, landforms made by various agents (running water, wind, waves, glaciers), global soils, and biogeographic processes. Offered in winter and spring terms. Prerequisite: BT113 or WR115 or designated placement test score. Offered winter and spring terms.

GEOG110 3 credits

Introduction to Cultural and Human Geography

Surveys world patterns of culture, population, migration, language, religion, ethnicity, and political systems. Examines the geographies of human development including urban areas, agriculture, industry and services. Emphasizes the many facets of interactions between human culture and the natural world, with a focus on environmental sustainability. Prerequisite: BT113 or WR115 or designated placement test score. Offered winter, spring and summer terms.

GEOG120 3 credits

World Regional Geography

Examines the 11 regions of the world and their interconnections. Perspectives from physical, political, historical, economic, and cultural geography are used to characterize the individual regions and the ways in which they are knit together into a spatial framework. Offered in fall term. Prerequisite: BT113 or WR115 or designated placement test score. Offered fall term.

GEOLOGY

Lower Division Transfer Courses

G100 3 credits

Fundamentals of Geology

Studies the earth's physical processes and properties with an emphasis on understanding the scientific theories behind the geological principles. Prerequisite: RD30 or RD90 and WR30 or WR90, or designated placement test scores.

G101 4 credits

Introduction to Geology I (Tectonics) w/Lab

Studies the earth's internal structure and composition as well as the mechanics of plate tectonics. Covers the fundamentals of geology from the beginning of the solar system to the formation and interaction of continents and the ocean floor, igneous rocks including magmatic and volcanic processes, minerals, and the fundamentals of earthquake activity. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores. Offered fall term.

G102 4 credits

Introduction to Geology II (Surface Process) w/Lab

Studies the surface processes of geology and the interaction of the internal mechanisms of the earth's dynamics. Covers the fundamentals of sedimentary and metamorphic rocks, their formation, and the surface processes that affect them. Includes the atmosphere, groundwater, running water, oceans, shoreline erosion, fossils, streams, ground water, and glaciers. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores; G101 recommended. Offered winter term.

G103 4 credits

Introduction to Geology III (Historical) w/Lab

Covers the history of the evolution of the earth through the ages. Studies the formation of the universe, the solar system, and the beginning of the earth. Looks at the fossil record, glaciers, arid lands, the earth's resources, depositional environments, and the earth's history. Special emphasis is given to the geology of southern Oregon and various provinces of the in the Pacific Northwest when possible. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores; G101 and/or G102 recommended. Offered spring term.

GRAPHIC DESIGN

Career and Technical Courses

GD120 3 credits

Digital Graphics Design

Introduces students to the concepts of graphic design and production by integrating design principles with software capabilities. Exercises include an introduction to the use of Adobe Photoshop, Illustrator and InDesign. Concepts in color, typography, logo design, page layout, package design, and Web page design are covered. Prerequisite: CS120 or documented proficiency. Offered fall and winter terms.

GD140 3 credits

Electronic Publishing Applications I

Introduces students to the computer software used in the development of page design and layout. Emphasis will be placed on the production of basic business publications including newsletters, fliers, brochures, etc. General principles of page layout design will be studied including the placement of text, images, illustrations and logotypes, and the important synthesis of these elements. Prerequisite: CS120 or documented proficiency. Offered fall, winter and spring terms.

GD141 3 credits

Electronic Publishing Applications II

Emphasis is on the proper preparation of electronic pre-press files for spot-color, multi-color and process-color print production. Students will execute print projects using the computer to create pre-press files for print production. They will also examine many advanced printing techniques, multiple page document preparation and the proper methods for sending files to printers. Prerequisite: GD140. Offered winter term.

GD150 3 credits

Computer Illustration (Illustrator)

Develops competency in the creation of computer-generated illustrations. Includes instruction in creating vector graphics and techniques for logo design as well as brochure, book, magazine, and advertising illustration. Adobe Illustrator is currently the application used in this course. Prerequisite: CS120 or documented proficiency. Offered fall term.

GD160 3 credits

Digital Imaging (Photoshop)

Explores a wide range of digital imaging techniques from photo touch-ups to realistic scenes created from scratch. Digital image creation and manipulation commands and operations will be covered. Design, publishing concepts, and terms will be discussed. Particular attention will be given to creating files for effective output whether for printed media or electronic. Adobe Photoshop is the application currently used. Prerequisite: CS120 or documented proficiency.

GD170 3 credits

Motion Graphics (After Effects)

Introduces Adobe® After Effects for 2D animation and visual effects for television. Students will learn the essentials of motion graphics including visual rhythm and kinetic typography. Through a series of lectures and assignments, students learn how to conceptualize and visualize motion graphic storyboards and develop methods of producing title sequences, television network identifications, music video effects, and Web-based graphic animations. Prerequisites: GD120, GD150 and GD160.

GD190 3 credits

Introduction to Animation (Adobe Animate)

Using the Adobe Animate application, students design rich media Web content containing interactivity, animation and sound. Students gain an understanding of Animate's logic, concepts, and language. In addition, students will learn of designer/developer resources for continued self-paced learning. Topics include introduction to rich media; the Animate drawing tools; creating Animate movies; adding graphic elements; designing with text; symbols, instances, and libraries; working with sound and motion; using ActionScript to create interactivity; combining Animate with HTML; integrating Illustrator and Photoshop with Animate using Animate Catalyst; publishing a Animate website. Previously offered as CS125F. Prerequisite: CS120 or equivalent computing experience. Offered winter term.

GD200 3 credits

Survey of Graphic Design History

Surveys the history of graphic design from the Industrial Revolution to the present. Studies graphic styles of the 20th century using the works of designers and illustrators that have influenced the continuing development of the discipline. Prerequisites: ART116, GD120 and WR121. Offered fall term.

GD220 3 credits

Digital Graphic Design II

Explores the communication of ideas and information through visual means. Students apply design process and principles, visual language, and the art of problem solving to finding creative solutions to complex visual communications problems. Various layout formats, the creative use of typography, concept origination and development are also addressed. Prerequisites: ART116, GD120, GD140, GD150, GD160 and WR121. Offered spring term.

GD223 3 credits

Digital Graphic Design III

Focuses on creative typography for visual communication and stresses the use of typography as a design and communication tool. Emphasis will be on formal design issues related to typography, composition, scale and proportion and the relationships of type, layout and color in two- and three-dimensional graphic design projects. Students will study the history and classifications of letterforms and employ this knowledge base

in the creation of various typographical designs and presentations. Typical projects may range from letter and alphabet design to the use of typographical forms as the feature design elements in graphic designs or page layouts. Additional lab hours required. Prerequisites: GD220 and GD227. Offered fall term.

GD224 3 credits **Digital Graphic Design IV**

Builds on basic concepts of graphic design and introduces systems of visual organization and composition for two- and three-dimensional design. Emphasis is on problem solving and idea generation skills to develop strong conceptual solutions. Students will gain experience solving complex visual communication problems through advanced design projects in logo design, package design, point-of-purchase and publication design. Additional lab hours required. Prerequisites: GD220 and GD227. Offered winter term.

GD227 3 credits **Production Graphics**

Introduces students to the print production process with an emphasis on document preparation and production planning and management. Students will learn about the history of printing and the commercial printing process. The full range of the design-to-print process will be covered. Topics include paper selection, soliciting bids and preparing quotes, selecting printers, photographers and other suppliers, design editing, typography selection and copy-fitting, proper image preparation, understanding color models for print, proofing and editing, and binding and finishing techniques. Prerequisites: ART116, GD120, GD140, GD150, GD160 and WR121. Offered spring term.

GD229 3 credits **Digital Portfolio and Professional Practices**

Discusses the opportunities in the various fields of Web and graphic design. Students will be guided in the preparation of digital portfolios of their work; in the development of resumes; a personal identity system for a business cards, letterheads and envelopes; and cover letters to prospective employers. Students will learn practical interviewing techniques, job search "netiquette," and how to position themselves using online professional networking sites. The intent will be to prepare students to enter the design field with confident and professional attitudes. Prerequisites: GD224 or CS235W; GD230 (must be taken concurrently). Offered spring term.

GD230 3 credits **Digital Graphic Design Studio**

Advanced exploration of digital design with emphasis on creative problem solving, project management and professional practices. Students will learn to solve complex visual communication problems through projects in Web design, advertising campaign design and package design. Provides the opportunity to work collaboratively on special projects and includes in-depth study of digital design processes and procedures. Students pursuing AAS degrees in digital graphic design, digital Web design and Web development will be enrolled in the same section and working collaboratively to create and produce related promotional materials for print and Web. Prerequisites: GD220 and GD227. Offered spring term.

GD260 4 credits **Digital Imaging II: Advanced Photoshop**

Continues student's exploration of Adobe® Photoshop with in-depth attention to the efficient creation of graphics for web, print and mobile devices. Students learn powerful image

manipulation techniques utilizing smart objects, filters, camera raw and vectors. Topics of emphasis include working with video, masks, channel manipulations, color management, Adobe® Bridge integration, advanced layer compositing, animation, new features and output. Emphasis is on utilization of effective design principles and exploration of industry-appropriate production tools. Additional lab hours required. Prerequisites: GD160. Offered spring term.

GD280 Variable credit **Cooperative Work Experience/ Graphic Design**

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their program. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, students should complete this course within the last two terms of their certificate or degree. Prerequisite: Permission of CWE instructor.

HEALTH CARE

Career and Technical Courses

HC100 6 credits **Community Health Worker**

Approved by the Oregon Health Authority, this course prepares students to be certified as community health workers in Oregon. Provides training in front-line public health care with an understanding and connection to the communities they serve. Also provides training in facilitating patient access to health and social services and to improve the quality and cultural competence of service delivery. Trains students to provide culturally appropriate health education and information, assist people in receiving the care they need, give informal counseling and guidance on health behaviors, advocate for individuals and community health needs, and provide some direct services such as first aid and blood pressure screening. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores. Offered fall and spring terms.

HC120 3 credits **Introduction to the Health Care Industry**

Explores the U.S. health system focusing on its historical development, current configuration, and possible future direction. Included will be the study of health system development, key influencers, accessibility, financing, changing components and the effects the system has on patients, providers, financiers, employers, government and insurers. Particular attention will be paid to the future direction of health care and what parts of the system are likely to change. Prerequisite: WR115 (may be taken concurrently) and the ability to use the Internet, email, and the Rogue Online course management system.

HC120 3 credits **Legal Aspects of Medical Records**

Focuses on the concepts of confidentiality, health care legislation, and regulations relating to the maintenance and use of health information in the U.S. health care system. Provides a foundation for studies in health care informatics including existing state and federal regulations that govern the use, disclosure, retention, and source of protected health information (PHI) in various roles and responsibilities within the health care system. Prerequisite: WR115. Offered winter and spring terms.

HC1255 3 credits **Introduction to Health Care Informatics**

Introduces the discipline of health informatics including history, basic knowledge of health informatics, data management, vocabularies, standards and tools as applied in the support of health care delivery. Prerequisite: CS120 and WR115. Offered winter term.

HEALTH EDUCATION

Lower Division Transfer Courses

HE112 1 credit **Emergency First Aid**

Teaches students the critical skills necessary to respond to and manage a first aid, choking or sudden cardiac arrest emergency in the first few minutes until emergency medical services (EMS) arrives. Students learn skills such as how to treat bleeding, sprains, broken bones, shock and other first aid emergencies. Course allows more time for in-depth practice and testing in CPR as well as setting a scene for safety, learning about blood borne pathogens, AHA chain of survival, and the Good Sam Law. Upon successful completion of the written and practical portions of the course, students will receive an American Heart Association's Emergency First Aid Heartsaver® card.

HE131 3 credits **Introduction to Exercise and Sport Science**

Introduces students to the field of exercise and sport science (EXSS). Upon completion of this class, students should have a good understanding of the history, the need for, current topics in, and careers available in EXSS, as well as education/certification required for these careers. This course helps many students decide if an educational path in EXSS is something that they wish to pursue. Several guest speakers representing various careers/areas in EXSS will present their experiences to the class. Basic online research skills will also be covered to allow students to seek out accurate and reliable information about EXSS. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores. Offered winter and summer terms.

HE199 Variable credit **Special Studies: Health**

Presents special topics in health including, but not limited to, smoking cessation, stress management, heart and back health, emotional health, and wellness assessment. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores.

HE208 1 credit **HIV and Other Epidemics**

Introduces students to the epidemiology of HIV/AIDS, hepatitis, tuberculosis, and sexually transmitted diseases. Students will examine treatment options, prevention strategies, legal and policy issues that impact infected individuals as well as the larger community. The course also explores the social, psychological, and ethical issues surrounding these diseases and their impact on present and future generations. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores. Offered fall and spring terms.

HE250 3 credits **Personal Health**

Examines personal and societal health topics including consumer health issues, major disease patterns, and the elements of good health, and relates them to daily life. Prerequisite: WR115.

HE252 3 credits **First Aid/CPR**

Offers a basic life support (BLS) plan for emergency care of cardiac victims until EMS arrives. Helps students recognize the signs and symptoms of a heart attack and cardiac arrest that pose a threat to life. Using techniques that emphasize the importance of compressions, airway management, and assisted breathing techniques (CABs), students are taught assessment skills that allow evaluation of one- and two-rescuer strategies on adults, children and infants (excluding newborns), airway obstruction relief, and how to appropriately use an Automated External Defibrillator (AED). The first aid, CPR, and AED section covers the critical skills needed to respond to and manage a first aid, choking or sudden cardiac arrest. Students learn how to treat bleeding, sprains, broken bones, shock, and other first aid emergencies. Building on these skills is basic Community Emergency Response Team (CERT) training. It provides the skills necessary to respond to a community's immediate needs in the aftermath of a disaster when emergency services are not immediately available. Successful completion of the course leads two certifications from the American Heart Association: American Heart Association's Emergency First Aid Heartsaver® card and an American Heart Association Basic Life Support Provider card, both valid for two years. Prerequisite: WR30 or WR90, or designated placement test score.

HE253 3 credits **Wilderness First Aid**

Provides individuals with foundational first aid principles and skills to be able to respond to emergencies in areas without access to immediate emergency medical services. Highlights the importance of critical thinking and decision making and provides hands-on learning using delayed-help situations. Students are trained to deal with many situations that may be encountered in the wilderness or remote location. Training focuses on teaching students to assess situations, improvise solutions using available resources to stabilize patients, and identify the best way to get patients to definitive medical treatment. Includes an overview of wilderness issues and allows students to be certified in basic wilderness first aid with successful completion of the course (in effect for two years). Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores, and physical abilities to allow hiking and lifting equipment. Basic first aid knowledge and CPR is useful. Offered winter term.

HE259 3 credits
Care and Prevention of Athletic Injury
Introduces students to prevention, treatment, and management of athletic injuries. Basic musculoskeletal anatomy will be reviewed. Students will learn to assess, treat and rehabilitate various athletic injuries. Practical skill sessions for hands-on experience will be included in the course. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores; BI121 recommended.

HE261 1 credit **CPR/Basic Life Support Provider**

Offers a basic life support plan for emergency care of cardiac victims until EMS takes responsibility for the victim. This is a Basic Life Support (BLS) Provider course designed to help students recognize the signs and symptoms of a heart attack and cardiac arrest that pose a threat to life. Includes scene safety assessment, in-depth coverage of the signs and symptoms of cardiac arrest and heart attack, how an Automated External Defibrillator (AED) functions, blood borne pathogens, the Good Samaritan Law and chain of survival. Using techniques that emphasize the importance of compressions, airway man-

agement, and assisted breathing techniques (CABs), students are taught assessment skills to evaluate one- and two-rescuer strategies on adults, children and infants (excluding newborns), airway obstruction relief, and how to appropriately use an AED. Manikins are used in all intensive skill areas with ample time to practice and learn lifesaving skills. The course is intended to introduce and enhance existing skills and concepts, and leave students with a firm understanding of both their limitations as first responders and their ability to provide basic lifesaving care. The course is taught at the provider level through the American Heart Association and results in a CPR, Basic Life Support Provider card upon successful completion.

HE280 Variable credit **Cooperative Work Experience/Health Science**

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program.

HPE295 3 credits **Health and Fitness for Life**

Prepares students with the foundation needed to be successful health/PE majors and in other majors as well. Dominant topics include disease projections, essential nutrients, behavior modification, body composition, strength and endurance training, cardio-respiratory health, flexibility, the mechanics of stress and stress relief, and relationship building. Students assess lifestyles, wellness, fitness, nutrition, and risk for illness/disease as part of the course. Prerequisite: RD30 or RD90 and WR30 or WR90, or designated placement test scores.

HISTORY

Lower Division Transfer Courses

HST104 4 credits **History of World Civilization I**

Provides a survey of various aspects of civilization in regions around the world. In addition to discussion of western civilizations originating from the Near East and Europe, this course includes the civilizations of India, Africa, East Asia (China/Japan) Russia, Southeast Asia, and Latin America. Included in the reading and discussion are historical, cultural, religious, social, economic, and political developments in the various civilizations from pre-history to the Middle Ages. Fulfills cultural literacy requirements within the AAOT degree. Prerequisite: BT113 or WR115 or designated placement test score.

HST105 4 credits **History of World Civilization II**

Provides a survey of various aspects of civilization in regions around the world. In addition to discussion of western civilizations originating from the Near East and Europe, this course includes the civilizations of India, Africa, East Asia (China/Japan) Russia, Southeast Asia, and Latin America. Included in the reading and discussion are historical, cultural, religious, social, economic, and political developments in the various civilizations from the French Revolution to the present. Fulfills cultural literacy requirements within the AAOT degree. Prerequisite: BT113 or WR115 or designated placement test score.

HST199 3 credits **Special Studies: History**

Presents special topics of study in history through workshop, seminar, and independent study formats.

HST201 4 credits **History of the United States I**

Surveys American history from the early native populations through Reconstruction after the Civil War. Presents a detailed coverage of influences -- political, social, ethnic, religious, cultural, technical, and geographical -- that have affected the history of the United States. Prerequisite: BT113 or WR115 or designated placement test score. Offered in fall and spring terms.

HST202 4 credits **History of the United States II**

Surveys American history from the Progressive Era to the present. Presents a detailed coverage of influences -- political, social, ethnic, religious, cultural, technical, and geographical -- that have affected the history of the United States. Prerequisite: BT113 or WR115 or designated placement test score. Offered in winter term.

HST280 Variable credit **Cooperative Work Experience/History**

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program.

HUMAN DEVELOPMENT

Career and Technical Courses

HD75 2 credits **Special Studies in Career Development**

Provides students with the forum in which to explore careers in various fields of study and/or in various career clusters. Surveys techniques for marketing individual occupational skills. Focuses on preparing for the job search process, writing a resume, interviewing techniques, and developing the interpersonal relationship skills necessary for a positive job attitude. Course is graded on a pass/no pass basis. Course does not fulfill program requirements. Offered infrequently.

HD90 2 credits **Transition to College**

Helps students develop basic planning and organizational skills for success in college classes. Includes choosing appropriate classes. Explores ways to finance education, identifies community and campus resources, and encourages development of personal support systems. Offered infrequently.

HD114 2 credits **Life Planning**

Designed to provide students with a wide array of useful life planning and management tools. During the course, students try each of the tools to test their applicability and value in managing their own circumstances. As a final assignment, students select tools that are personally valuable and confirm their planned use beyond the course. Prerequisites: RD30 or RD90; BT113 or WR115 (may be taken concurrently). Offered infrequently.

HD116 2 credits **Human Potential**

Challenges students to cross over the boundaries of various academic disciplines and learn to use their imaginations freely to synthesize information and reshape ideas into new possibilities. Emphasis is on exploring and developing creative potential through art, drama, and writing. Prerequisite: RD30 or RD90 and WR30 or WR90, or designated placement test scores. Offered winter term.

HD215 2 credits **Transfer Success**

Prepares TRiO students for transfer to four-year colleges or universities. Focuses on understanding different types of educational institutions, development of strategies for choosing a transfer institution and major, identification of resources to assist in the transfer process, and information for obtaining financial aid including scholarships. Students will receive training in Career Information Systems (CIS) and use various school websites to aid in decision making. Prerequisites: CS120 or BA131 (or demonstrated computer proficiency), and BT113 or WR115.

HUMAN DEVELOPMENT/ FAMILY SCIENCE

Lower Division Transfer Course

HDFS260 3 credits **Child Abuse and Neglect**

Examines historical and contemporary perspectives on child maltreatment including neglect; physical, sexual, and emotional abuse; and ritualistic abuse of children. The course will also touch on various type of elder abuse. Students will study the psycho-social impact of maltreatment on victims and their families along with treatments available for survivors, abusers and their families. Students will be acquainted with the developmental, medical and legal aspects of the different types of abuse and will study the indicators of abuse, intervention, prevention, reporting criteria, and legal procedures. Prerequisite: BT113 or WR115 or designated placement test score. Corequisite: PSY202 or permission of instructor. Offered fall term.

HUMAN SERVICES

Career and Technical Courses

HS100 3 credits **Introduction to Human Services**

Provides general introduction to the field of human services and related helping professions. Invites students to explore their own biases, values, and beliefs as they relate to choosing human services as a profession. Course is designed for human services majors and for students wanting to learn about the field of human services. It is a required class for any Human Services degree or certificate and is a prerequisite to practicum placement. Prerequisite: Acceptance to the Human Services program. Offered fall term.

HS115 1 credit **Principles of Client Record Management**

Familiarizes students with the key concepts of clinical documentation related to screening and intake processes, assessments, treatment plans, reports, progress notes, discharge summaries, and other client-related data. Oregon Department of Human Services, American Society of Addiction Medicine, and other professionally relevant criteria will be introduced.

Students will learn to respect clients' right to privacy and confidentiality and to appreciate the importance of accurate, timely documentation and the necessity of safeguarding client records. Prerequisite: Admission to the Human Services program. Offered spring term.

HS152 1 credit **Stress Management**

Provides students an experiential learning experience geared to developing an understanding of their personal stress levels. The course provides a variety of tools to develop stress management strategies. Offered winter and spring terms.

HS155 4 credits **Interviewing Theory and Techniques**

Provides theory and practice in basic counseling skills. Course is based on the Carl Rogers active listening approach. The course also helps students begin to think critically about their own counseling skills and to document the process in written format. Prerequisites: HS100 and HS170 or permission of instructor. Offered winter term.

HS158 3 credits **Trauma-informed Care: Theory and Practice**

Introduces students to the phenomenon of psychological trauma as well as the impact of physical trauma on the psychological functioning of individuals, couples and families. The course will include the history and current theories in the field, the nature of trauma, and its impact on the developing individual across various domains of functioning. Also included in this class is a survey of emerging promising practices in the healthcare field, including an exploration of the effects of working with trauma survivors on service providers and the unintended retraumatization of survivors by social service systems. Students will explore the concept of trauma-informed care and be introduced to examples of trauma-informed systems. Prerequisites: BT113 or WR115 or designated placement test score and PSY201 or permission of the instructor; PSY202 strongly recommended. Offered spring term.

HS170 3 credits **Introduction to Practicum**

Provides background and specific skills needed to select and succeed in a practicum placement. It also provides information and a foundation for employment in the human services field by helping students develop information and contacts with community agencies. Prerequisite: Acceptance to the Human Services program. Offered fall term.

HS175 1 credit **Ethics for Counselors**

Prepares students for ethical decision making in the human services field. Includes study of selected professional codes of ethics. Case studies will be used for additional practices and integration. Prerequisite: HS100 or permission of instructor. Offered winter term.

HS199 1-3 credits **Special Studies: Human Services**

Presents special topics in human services including, but not limited to, adult children of trauma, drug and alcohol abuse among the elderly, client record management, and eating disorders. Prerequisite: Acceptance to the Human Services program.

HS201 3 credits **Family Dynamics**

Explores the dynamics of the family and its role in shaping the lives of its members. It offers a framework of understanding the influences of family, focusing on both effective and maladaptive responses to stressors such as poverty, addictions,

divorce, etc. This understanding is central to the further study of how social services are designed and delivered to individuals and families in need. It is a required course in the Human Services AAS degree program and an elective for human services transfer students. Prerequisites: HS155, PSY201 and PSY202. Offered fall term.

HS202 3 credits **Counseling the Chemically Dependent Client I**

Provides an overview of the scope of chemical dependency issues including demographics of alcohol and drug use, the brain and drugs, addiction definitions, theories and dynamics, treatment modalities, denial and other psychological defenses, counseling techniques, functions and techniques of interventions and confrontations, pharmacotherapy, countertransference, codependency dynamics, relapse dynamics, psychoeducation, and self-help. Prerequisites: HS155 and CJ243 or SOC243. Offered spring term.

HS204 3 credits **Counseling the Chemically Dependent Client II**

Designed specifically as preparation for the Certified Alcohol Drug Counselor I (CADC I) test as offered by the Addiction Counselor Certification Board of Oregon (ACCBO) in conjunction with the Association for Addiction Professionals (NAADAC). Prerequisites: HS155 and HS202 or consent of instructor. Offered infrequently.

HS210 3 credits **Motivational Interviewing**

Introduces students to intentional interviewing as a foundation for developing basic counseling skills. Focus will be on developing more intensive counseling skills with significant opportunity for hands-on practice. Prerequisites: HS155 and HS202 or permission of instructor. Offered fall term.

HS260 4 credits **Group Counseling**

Provides students with the theory and skills of small group dynamics. Focuses on group formation, development of norms, conflicts and controversy, and performance and evaluation. Includes group leader competencies; skills and attitudes; therapeutic factors; group goals and structure; client screening stages; rules and client roles; phases of group; group problems and issues; opening and closing techniques; group ethics and client termination processes; the role of values, catharsis, transference and counter transference; self disclosure; and working with a co-leader and counselor. Prerequisites: HS155, HS202 and HS210, or permission of instructor. Offered winter term.

HS261 Variable credit **Human Services Practicum and Seminar**

Provides on-site clinical and community experience with human services organizations plus weekly seminars. Students are expected to arrange for a field placement with an approved agency prior to start of class. Seminars provide supervision and assist students to integrate field and classroom experiences and counseling skills. Prerequisites: HS155 and HS170 or permission of instructor.

HS265 3 credits **Counseling Theories**

Introduces the theoretical concepts and practical applications of counseling intervention strategies for the beginning helping professional. Specific topics include the helper as a person and as a professional including values, attitudes and ethics; an understanding of cultural issues that create barriers to helping; and the counseling intervention models of psychoanalytical,

Gestalt, existential, cognitive-behavioral, and family therapies. Prerequisites: HS155, HS202 and HS210. Offered spring term.

HS266 3 credits

Crisis Intervention Strategies

Part of a sequence of courses teaching theory and practice in assessment, intervention, and case handling strategies for the helping professional. Focuses on crisis situations including assessment of function and lethality, appraisal of the individual, intervention strategies, case management, referral resources, ethical and professional issues, and specific situational stressors which may lead to a crisis state. Emphasis is on defusing the crisis situation, enhancing mobility and self-determination, and ensuring the safety of the client and community. Suicide and other dangers to self and others are of particular concern as well as the personal and social implications of involuntary hospitalization, civil commitment, and follow-up treatment, including delayed stress reactions and other consequences of crisis events. Prerequisites: HS155 and HS210. Offered winter term.

HS268 3 credits

Co-occurring Disorders: Introductory Theory and Counseling

Provides entry-level scope and depth of information relative to those human services helpers working with clients with both a mental health and addictions diagnosis. Historical assessment and treatment processes as well as current state-of-the-art models and systems will be studied. Encourages students to examine personal perspectives, beliefs, concerns, anxieties, and attitudes about mental health and addictions concepts and dual diagnosis clients. Prerequisites: HS155, HS202 and HS210. Offered winter term.

HUMANITIES

Lower Division Transfer Courses

HUM101 4 credits

Introduction to Humanities: Classical to Medieval

Provides a survey of important achievements in a variety of disciplines as they emerged during the classical periods and the medieval era, in Europe and beyond: visual arts, architecture, literature, philosophy, religions, music, theater and criticism. This course covers the period from the first civilizations to the Middle Ages and is designed to help students trace the origin of the nature of human thought and creativity as they emerged and manifested themselves in the pre-industrial era. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered fall term.

HUM102 4 credits

Introduction to Humanities: Renaissance to Enlightenment

Provides a survey of important achievements in a variety of disciplines as they emerged during the Renaissance and the Age of Global Encounters: visual arts, architecture, literature, philosophy, religions, music, theater and criticism. This course covers the period from the Proto-Renaissance to the Age of Reason and is designed to help students trace the origin of the nature of human thought and creativity as they emerged and manifested themselves in the pre-industrial era. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered winter term.

HUM103 4 credits

Introduction to Humanities: Romanticism to 20th Century

Provides a survey of important achievements in a variety of disciplines as they emerged during the periods of Romanticism and Realism and shaped the world of the twentieth century: visual arts, architecture, literature, music, philosophy, religions, theater and criticism. This course covers the period from Romanticism to the present and is designed to help students trace the nature of human thought and creativity, prepare them for further study and appreciation of the arts, and encourage them to look to the humanities for insights necessary to themselves and society. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered spring term.

HUM199 Variable credit

Special Studies in Humanities

Presents special studies in humanities through workshop, seminar, and independent study formats. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently).

HUM215 4 credits

Native American Arts and Cultures: Eskimo/Inuit

Studies the art and culture of the Eskimo/Inuit of the Arctic area from the past to the present. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered on a rotating basis with other Native American Arts and Cultures classes.

HUM216 4 credits

Native American Arts and Cultures: First Nations of the Northwest Coast

Studies the art and culture of the native peoples of the Northwest Coast from the past to the present. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered on a rotating basis with other Native American Arts and Cultures classes.

HUM217 4 credits

Native American Arts and Cultures: Nations of the Plains

Studies the art and culture of the native peoples of the Great Plains from the past to the present. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered on a rotating basis with other Native American Arts and Cultures classes.

HUM218 4 credits

Native American Arts and Cultures: Nations of the Southwest

Studies the art and culture of the native peoples of the Southwest from the past to the present. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered on a rotating basis with other Native American Arts and Cultures classes.

HUM219 4 credits

Native American Arts and Cultures: Peoples of Mexico

Studies the art and culture of the peoples of pre-Columbian Mexico from the past to the present. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently). Offered on a rotating basis with other Native American Arts and Cultures classes.

HUM280 Variable credit

Cooperative Work Experience/ Humanities

Cooperative work experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program. Prerequisite: Permission of instructor.

HUM299 1-3 credits

Special Studies: Humanities

Presents special topics of study in humanities through workshop, seminar, and independent study formats. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently).

INTERNATIONAL STUDIES

Lower Division Transfer Courses

IS110 4 credits

Introduction to International Studies I

Explores major cultures of the world with an emphasis on definition of culture, values, cross-cultural communication, and ethnocentrism. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. Prerequisites: RD30, RD90, or designated placement test score; BT114 or WR121 (may be taken concurrently). Offered infrequently.

IS111 3 credits

Introduction to International Studies II

Investigates contemporary global problems with an emphasis on the ethics of development, environment, foreign policy, and societal change. Prerequisites: RD30, RD90, or designated placement test score; BT114 or WR121 (may be taken concurrently). Offered infrequently.

LIBRARY SCIENCE

Lower Division Transfer Courses

LIB127 1 credit

Introduction to Academic Research

Covers basic information literacy skills and concepts. Topics include barriers to effective research (Dunning-Kruger Effect and Zipf's Principle of Least Effort), task definition and identifying options, selecting sources and refining the search process, and using information ethically. Students will also be introduced to a variety of public and subscription services. Given the online nature of this course, research resources and communication with the instructor will take place through the Internet. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores.

LIB199 Variable credit Special Studies: Library

Offers study in various library and research topics.

MANUFACTURING TECHNOLOGY

Career and Technical Courses

MEC102 3 credits

Basic Hand Tools

Introduces learners to the basic knowledge needed for assembly and the proper and safe application of hand tools. Coursework builds knowledge in the many types of bolts, wrenches, and other fittings commonly used in industry and how to properly apply them, including pneumatic fabrication fittings. Focuses on proper techniques for checking connections and testing fittings with an emphasis on safety. Proper tool use helps in many ways, including injury avoidance, fewer product quality issues, and lower tool breakage costs. Prerequisites: CS120 or documented proficiency, MTH20 and RD30 or RD90, or documented placement test scores.

MEC103 1 credit

Industrial Safety

Covers the importance of workplace safety, OSHA regulations, and practicing safety in the workplace. Learners will study topics like the importance of safety policies, common causes of workplace injuries and accidents, and OSHA regulation for general workplace safety, personal protective equipment, tools, and machines. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores.

MEC124 3 credits

Hoisting and Rigging I

Teaches how to safely move loads of different shapes and sizes using a variety of methods. Rigging skills are required in many industries including manufacturing, construction, and transportation. Prerequisites: RD30 or RD90, WR30 or WR90 and MTH63, or designated placement test scores; MEC102.

MEC125 3 credits

Pneumatics I

Prepares learners to work intelligently in industry with pneumatic applications. It introduces pneumatic power and takes learners through key topics and skills in pneumatic power and safety, pneumatic circuits, pneumatic schematics, the principles of pneumatic pressure and flow, and pneumatic speed control circuits. It covers pressure regulation, air filtration, how to connect pneumatic circuits, pneumatic cylinders, valves, and actuators, a wide array of pneumatic applications, pressure and cylinder force, pneumatic leverage, pressure and volume, and air flow resistance. Formerly offered as MFG199H. Prerequisites: CS120 or documented proficiency, MTH63, RD30 or RD90 and WR30 or WR90, or designated placement test scores; MEC102; MFG116 highly recommended.

MEC130 3 credits

Hydraulics I

Introduces hydraulic power use and application, allowing learners to develop skills and knowledge needed to apply hydraulics in modern industry. Takes learners through key topics and skills in hydraulic power and safety, hydraulic circuits, hydraulic schematics, the principles of hydraulic pressure and flow, and hydraulic speed control circuits. Includes pumps, fluid friction, how to connect hydraulic circuits, hydraulic cylinders and valves (including needle valves), and a wide array of hydraulic applications. Prerequisites: CS120 or documented proficiency, MTH63, RD30 or RD90 and WR30 or WR90, or designated placement test scores; MEC102; MFG116 highly recommended

MEC135 4 credits

Mechanical Drives I

Introduces mechanical systems and develops fundamental knowledge of mechanical systems and practices. Covers basic safety, installation, key fasteners, power transmission systems, v-belt drives, chain drives, spur gear drives, and multiple shaft drives. Topics covered include learning how to select, install, adjust, troubleshoot, and repair a range of mechanical systems which are commonly found in both automated and manual machines used in every industry around the world. Previously offered as MFG199M. Prerequisites: CS120 or documented proficiency, MTH63, RD30 or RD90 and WR30 or WR90, or designated placement test scores; MEC102; MFG116 highly recommended.

MEC226 3 credits

Pneumatics II

Builds on the basic pneumatics skills to teach intermediate pneumatic components and system applications. Learners will gain industry-relevant skills related to these new topics including operation, installation, performance analysis, maintenance, and design. These topics include cam-operated valves, cylinder sequencing with cam valves, cylinder deceleration circuits, pilot-operated DCVs, shuttle valves, air logic components, air logic design, air filters, filter selection, filter maintenance, water removal techniques, air dryers, after-coolers, water traps, air lubricators, and component maintenance. Along with advanced pneumatic principles, pneumatic cylinder loads, cylinder applications, quick exhaust valves, motor loads, air bearings, component sizing, air compressor types, air compressor operation, flow measurement, compressor performance, and pneumatic component maintenance. Prerequisite: MEC125.

MEC228 4 credits

Pneumatic Fittings and Troubleshooting

Covers major topics like troubleshooting air preparation, actuators, valves, vacuum systems, and pneumatic systems. Specifically, learners will study objectives such as pressure test points; symptoms and causes of regulator failure; inspection and troubleshooting a vacuum cup; and troubleshooting zero pressure. Pneumatic fitting construction discusses the construction of pneumatic rubber hoses and methods of connecting rubber hoses to fittings. Prerequisite: MEC226.

MEC231 4 credits

Hydraulics II

Builds on basic hydraulic skills teaching hydraulic components and system applications. Students will learn industry-relevant skills related to new topics including operation, installation, performance analysis and design. These topics include accumulator sizing, system design, circuit applications, component operation/installation, pilot-operated directional control valves (DCVs), two-stage directional control valves, cam-operated directional control valves (DCVs), DCV spool center types and applications, cylinder types and mountings, pressure-compensated flow control valves, pilot-operated check valves, direct-operated relief valves, non-compensated flow control valves, rapid traverse slow feed circuits, cylinder sequencing, remote pressure control, pump unloading circuits, and p-port check valves. Prerequisite: MEC130.

MEC233 4 credits

Hydraulic Troubleshooting

Teaches hydraulic troubleshooting by providing a hands-on learning station that models a real world hydraulically-powered machine and includes over 40 faults that can be inserted into the system. Prerequisite: MEC231.

MEC236 4 credits

Mechanical Drives II

Covers heavy duty V-belt drives including conventional, multiple, wedge, and variable speed V-belt drives. This course describes V-belt selection and maintenance by covering V-belt size specification, component identification, and troubleshooting. Learners will develop fundamental knowledge of synchronous belt drives, lubrication concepts, precision shaft alignment, and coupling. Also covered is heavy duty chain drives which describes silent chain drives, multiple-strand systems, chain selection, chain lubrication, chain maintenance and troubleshooting. Prerequisite: MEC135.

MEC238 4 credits

Mechanical Drives III

Includes the lubrication, selection, maintenance and troubleshooting of plain ball bearings. Introduces anti-friction bearings by describing the two types and teaching the fundamental skills of how to identify, mechanically install, thermally install and troubleshoot those bearings. Also covered is gasket and seals such as O-ring seal, lip seal and mechanical seal, and advanced gear drives such as helical gear drives, right angle gear drives, speed reducers, and gear drive selection and maintenance. Prerequisite: MEC236.

MEC240 3 credits

Robotics I

Provides an overview of robotic and automated systems technology. Students will be introduced to basic manufacturing techniques, robot terminology, differing types of automation, safety, basic robotic programming, interfacing robotic communications, automated work cells, and robotic applications. Robot operations and programming fundamentals will be applied by the students. Safety is emphasized throughout, highlighting operator and robot safety, lockout/tagout and safety interlocks. Prerequisites: CS120 or documented proficiency, MTH60 or MTH63 or higher level math, and WR30 or WR90.

MFG101 3 credits

Introduction to Manufacturing

Surveys various manufacturing processes, materials, and possible career opportunities in manufacturing-related disciplines. Prerequisites: MTH20 and RD30 or RD90, or designated placement test scores. Offered fall term.

MFG116 2 credits

Metrology

Studies measurements by mechanical, electronic and optical methods related to industrial dimensional conformance requirements. Corequisite: MFG121 or equivalent. Offered fall, winter and spring terms.

MFG121 4 credits

Manufacturing Processes I

A three-term series designed to develop both an understanding of manufacturing concerns and limitations of industry as well as developing the hands-on skills needed for machining jobs in manufacturing. Covers basic manufacturing skills and machine tooling practices. Emphasizes safety, bench work, engine lathes, vertical and horizontal mills, precision grinding, tool room operations, and production work through a series of projects. Corequisite: MTH60 or equivalent; MFG101 recommended.

MFG122 4 credits

Manufacturing Processes II

A three-term series designed to develop both an understanding of manufacturing concerns and limitations of industry as well

as developing the hands-on skills needed for machining jobs in manufacturing. Covers basic manufacturing skills and machine tooling practices. Emphasizes safety, bench work, engine lathes, vertical and horizontal mills, precision grinding, tool room operations, and production work through a series of projects. Prerequisite: MFG121 or approval of instructor.

MFG123 4 credits **Manufacturing Processes III**

A three-term series designed to develop both an understanding of manufacturing concerns and limitations of industry as well as developing the hands-on skills needed for machining jobs in manufacturing. Covers basic manufacturing skills and machine tooling practices. Emphasizes safety, bench work, engine lathes, vertical and horizontal mills, precision grinding, tool room operations, and production work through a series of projects. Prerequisite: MFG122 or approval of instructor.

MFG140 2 credits **CNC Controls (Haas)**

Designed to develop an understanding of the Haas VF-1 CNC Control. Basic functions and operating modes of the Haas control are covered. Prerequisites: MTH60 and MFG121 recommended. Offered fall, winter and spring terms.

MFG199 Variable credit **Special Studies in Manufacturing**

Presents special studies in manufacturing through workshop, seminar, and independent study formats.

MFG210 3 credits **AC/DC Electrical Systems for Manufacturing**

Introduces the fundamentals of AC/DC electrical systems used for power and control in the manufacturing industry as well as commercial, agricultural and residential applications. Students learn industry-relevant skills included in subject areas such as basic electrical circuits, electrical measurement, circuit analysis, inductance and capacitance, combination circuits, and transformers. Topics covered in subject areas will include but not be limited to: safety, electrical components and wiring, electronic test instruments, tools and fasteners, electrical units and nomenclature, and parallel/series-parallel circuits. Prerequisites: MTH60, MTH63 or higher level math; EET101 recommended. Offered fall, winter and spring terms.

MFG211 4 credits **Manufacturing Power and Control Electronics**

Introduces the fundamental concepts of industrial manufacturing power and control electronics and their applications, such as measuring temperature, speed, and analog signals. Students learn how to operate, adjust, and troubleshoot electronic components, circuits, and systems used in machine applications across various industries including manufacturing, transportation, energy, and construction. In addition, students will study the concepts of solid state electronics as they apply to modern manufacturing applications such as switching power supplies, analog and discrete sensing, solid state relays, transistors, PWM amplifiers, and variable speed motor control. Specifically, students will study objectives such as operation of a full-wave rectifier, the installation of a photoelectric sensor, and testing a triac relay circuit. Safety is emphasized throughout, highlighting industrial safety, lockout/tagout and safety interlocks. Prerequisites: MTH60, MTH63 or higher level math; EET101 highly recommended.

MFG215 3 credits **Electrical Control Systems and Sensors for Manufacturing**

Introduces the functions of relay logic control circuits used in industrial, commercial and residential applications. Describes functions and application of functions covered in control logic including logic elements such as AND, OR, NOT, NOR, and NAND. Ladder diagrams are explained and learners connect, operate, and design a ladder diagram using one or more logic elements. Additional concepts include electro-pneumatic solenoid valves; sequencing control including relay operation, relay application, limit switch operation and application; and timers and advanced systems including time-delay relays, multiple cylinder control, and machine modes of operation. Electrical sensors teaches the operation of non-contact sensors and their applications in industry, such as sensing movement, detecting metal versus non-metal, and determining speed. This course covers sensors such as inductive, capacitive, magnetic reed, hall-effect and photoelectric. Prerequisites: MTH60, MTH63 or higher level math; EET101 recommended. Offered fall, winter and spring terms.

MFG220 4 credits **Research and Development Prototyping**

A capstone project class that introduces the process of prototype development and design. Emphasizes the research and documentation required to take an idea from concept to production. Incorporates industrial design build team concepts. Designed prototypes are built in MFG255. Prerequisite: Second year standing in program. Corequisite: WR121. Offered fall, winter and spring terms.

MFG230 3 credits **Statistics and Quality Control**

Introduces ISO 9000 concepts of basic gauging, inspection, elementary statistics, and statistical process control. Prerequisite: MET104 or equivalent. Offered fall term.

MFG232 3 credits **Electric Motor Control I**

Introduces the fundamentals of electric relay control of AC electric motors found in industrial and commercial manufacturing applications. Students will gain an understanding of the operation, installation, design, and control of AC electric motor control circuits, transformers, ladder logic controls, and control relays for many common applications. Students will also develop skills in interpreting schematics, system design, motor start/stop circuits, and motor sequence control. Safety is emphasized throughout, highlighting motor safety, lockout/tagout and safety interlocks. Prerequisites: MTH60, MTH63 or higher level math; MFG210 recommended.

MFG233 3 credits **Electric Motor Control II**

Introduces the fundamentals of electric relay control of AC electric motors found in industrial and commercial manufacturing applications. Students will continue to gain an understanding of the operation, installation, design, and control of AC electric motor control circuits used in the manufacturing industry. In addition, students will be introduced to systems troubleshooting, reversing motor controls, automatic input devices and basic timer controls. Students will continue to develop skills in interpreting schematics, system design, motor start/stop circuits, and motor sequence control. Safety is still emphasized throughout, highlighting motor safety and component safety, lockout/tagout, and safety interlocks. Prerequisites: MTH60, MTH63 or higher level math; MFG232 (may be taken concurrently); MFG210 recommended.

MFG241 4 credits **Computer Numerical Control Programming – Mill (Haas)**

Covers basic computer numerical control (CNC) programming and machine set-up and operation. Emphasizes manual data input programming. Prerequisites: MTH60, MFG121; MFG122 and MFG123 recommended. Offered fall, winter and spring terms.

MFG242 4 credits **Computer Aided Manufacturing I: Mastercam 2D**

Studies computer numerical control (CNC) programming based on state-of-the-art computer aided manufacturing (CAM) software. Introduces and develops skills through a series of projects designed to teach program operation and CNC machining skills. Prerequisite: MFG241 or equivalent. Offered fall, winter and spring terms.

MFG243 4 credits **Computer Aided Manufacturing II: Mastercam 3D**

Continues study in computer numerical control (CNC) programming and CNC machine set-up and operation. Emphasizes job planning, documentation, and integration of all prior education and training combining CNC software/hardware. Prerequisite: MFG242. Offered fall, winter and spring terms.

MFG244 3 credits **CNC Programming – Lathe (Haas)**

Covers basic computer numerical control (CNC) programming, machine set-up, and operation on a CNC lathe. Emphasizes safety and manual programming. Prerequisites: MET104, MFG121; MFG122 and MFG123 recommended. Offered fall, winter and spring terms.

MFG255 4 credits **Computer Integrated Manufacturing**

A capstone project class that emphasizes the design build team process as it applies to the production, documentation, and implementation of a prototype production run using multiple manufacturing processes. Students work together as a production team to build, document, and evaluate all phases of a prototype production run. Prerequisite: MFG220. Offered fall, winter and spring terms.

MFG262 3 credits **Lean Manufacturing**

Develops an understanding as well as the limitations of lean manufacturing as it applies to manufacturing and business. Covers the basics of lean, TAKT time, value stream mapping, current and future state, KanBan systems, tracking and removing production wastes, running effective meetings, and team building. Prerequisites: MFG230; MTH60 (may be taken concurrently). Offered spring term.

MFG280 Variable credit **Cooperative Work Experience/ Manufacturing**

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program.

MFG280S 1 credit **Cooperative Work Experience** **Seminar/Manufacturing**

Presents an overview of the necessary employment documents to be competitive in the job market. Students will write a basic resume and cover letter, complete an employment application, participate in a mock interview, and develop an understanding of the importance of a professional image and work ethic. Students are expected to have completed most of their coursework toward a certificate or degree program and will be enrolled in CWE concurrently or in the following term.

MFG291 2 credits **Laser Cutting and Engraving** **Fundamentals**

Introduces students on how to safely setup and operate a Trotec laser engraving machine using CorelDraw software as the print driver. A strong emphasis is placed on proper selection of materials that can be safely cut or engraved. Along with required curriculum, the course also includes time for student project work. This course is recommended for anyone interested in laser cutting and engraving for industry applications or artwork. Previously offered as MFG199L. Prerequisites: CS120 or documented proficiency and MTH63 or higher level math.

MASSAGE THERAPY

Career and Technical Courses

MT100 2 credits **Massage I – Basic Swedish**

Provides instruction in the history, techniques, treatment procedures, structure of the body parts, and practical application of Swedish massage for each area. Students will learn about massage equipment, sanitation, professional hygiene, and client communication including client history, indications, and contraindications for massage. Objectives and benefit of massage will also be covered. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores. Corequisite: BI121 or BI231. Offered fall term.

MT101 2 credits **Asian Bodywork I**

Introduces fundamental methods and the philosophical background of Asian Bodywork: Acupressure and Shiatsu. Offered fall term.

MT102 2 credits **Massage II – Swedish Esalen**

Emphasizes assessment, the philosophical and psychological aspects of massage, and working with special populations. Prerequisites: MT100 and BI121 or BI231. Offered winter term.

MT103 2 credits **Massage III – Swedish**

Prepares students for both the written and practicum examinations for state board licensure. Reflexology, side lying massage, trigger point, deep tissue, and myofascial release techniques will be covered. Prerequisite: BI121 or BI231 and MT102. Offered spring term.

MT105 3 credits **Massage Therapeutics: Hydrotherapy** **and Massage for Cancer Patients**

Covers hydrotherapy modalities and education for massaging the elderly and cancer patients. Prerequisite: MT100. Offered winter term.

MT106 2 credits **Integrated Studies in Massage I –** **Upper Body**

Provides in-depth study of applications of massage on specific muscle groups, integrating musculoskeletal anatomy, pathology, acupressure, and basic Swedish massage techniques. Students will learn home exercise programs to assist their clientele. Prerequisites: BI121 or BI231 and MT100 and MT108. Offered winter term.

MT107 2 credits **Integrated Studies in Massage II –** **Lower Body**

Continues the study of applications of massage on specific muscle groups, integrating musculoskeletal anatomy, pathology, acupressure, and basic Swedish massage techniques. Prerequisite: MT106. Offered spring term.

MT108 4 credits **Kinesiology for Massage Therapists**

Studies the branch of physiology that relates to the mechanics and anatomy in relation to human movement. Students will learn the joints of the body and their actions, the muscles that create actions, the origins and insertions of muscle attachments, and how to palpate the muscles. Prerequisite: RD30 or RD90 or designated placement test score. Corequisite: BI121 or BI231. Offered fall term.

MT109 4 credits **Pathology for Massage Therapists**

Provides student with the definitions of syndromes, symptoms, prognostics, treatment concepts and contraindications for massage therapists. Prerequisites: BI121 or BI231; RD30 or RD90 and WR30 or WR90, or designated placement test scores. Corequisite: BI122 or BI232. Offered winter term.

MT111 2 credits **Sport Massage**

Provides instruction and understanding of sports-related injuries and ailments. Students learn how to prevent injury, improve performance, relieve sore muscles, speed recovery, and reduce stress. Hands on application will be required to demonstrate sports massage techniques. Prerequisites: MT100 and MT108; BI121 or BI231. Offered winter term.

MT112 2 credits **Massage for Pregnancy and the** **Infant/Child**

Provides instruction in full-body massage that can be done in the side-lying position for pregnant women. This technique is also ideal for people with neck and back problems. Massage techniques for infants and children will also be covered as well as the importance of touch for children with special needs. Offered spring term.

MT113 2 credits **Myofascial Release**

Teaches gentle and non-invasive techniques. Therapeutically works with restrictions in the fascia resulting in the reduction of pain and increased range of motion. Hands-on application is required. Offered spring term.

MT114 1 credit **Massage Therapy Study Skills Lab**

Provides knowledge and hands-on instruction in the theory and massage techniques of new topics that have evolved. Through instructor observation and guidance, students will gain the appropriate study skills and the awareness of the amount of time and effort required to obtain their academic goals. Offered fall term.

MT115 2 credits **Trigger Point Therapy**

Provides instruction in the understanding of trigger points, the anatomical locations of the muscles that have trigger points and techniques to treat them. Hands-on application is required. Offered fall term.

MT116 2 credits **Massage Exam Review**

Prepares students for the Oregon State Board of Massage exams required for licensing by reviewing entire year's worth of study. Offered spring term.

MT117 1 credit **Body Maintenance for Massage** **Therapists**

Provides knowledge and hands-on techniques to show how to recognize, prevent, and treat injuries for bodywork professionals. Students will learn how and why injuries happen and receive information that will help protect their own health and better understand their clients' complaints. Offered summer term.

MT118 2 credits **Deep Tissue Massage**

Provides knowledge and hands-on instruction in the theory of deep-tissue massage, anatomy of muscles and relevant structures, and treatment for pain symptoms throughout the body. Shows how deep tissue massage can provide instant results for patients suffering with pain due to musculoskeletal dysfunctions. Prerequisites: BI121 or BI231 and MT108. Offered spring term.

MT119 2 credits **Introduction to Craniosacral Therapy**

Introduces craniosacral therapy including palpation of the craniosacral rhythm at the listening stations, diaphragms and cranial structures. Students will learn the 10-point protocol of craniosacral therapy. Offered summer term.

MT120A, MT120B 3 credits **Business for Massage Therapists**

Focuses on the concept of professionalism, ethics, boundaries, and the legal issues associated with massage/bodywork therapy. Also covers business practices, marketing, insurance, and record keeping for massage therapists. Offered spring term.

MT121 2 credits **Asian Bodywork II**

Learn the fundamental methods and philosophical background of Ayurveda and Touch for Health. Introduces different styles and techniques of acupressure, Ayurveda and energy balancing. Prerequisite: MT101. Offered winter term.

MT180 Variable credit **Cooperative Work Experience/** **Massage Therapy**

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program.

MT180S 1 credit

Cooperative Work Experience/ Message Seminar

Presents an overview of the necessary employment documents to be competitive in the job market. Students will write a basic resume and cover letter, complete an employment application, participate in a mock interview, and develop an understanding of the importance of a professional image and work ethic. Students are expected to have completed most of their coursework toward a certificate or degree program and will be enrolled in CWE concurrently or in the following term. Corequisite: Concurrent enrollment in MT180.

MT199 Variable credit

Selected Topics in Massage

Provides knowledge and hands-on instruction in the theory and techniques of new massage topics that have evolved.

MATHEMATICS

Lower Division Transfer Courses (except where noted)

MTH15A 3 credits

Math Fast Track

Offers students the chance to improve math placements more than one level in one term. It is designed for students who need to take several math courses before entering a program and who have seen the material before and need to “fill in the gaps.” It is offered in a computer lab using computer software that covers material from MTH20 through MTH95 (depending on the math level at which students enter the class and through which they are trying to complete). Each student will be assigned a new math placement determined by in-person, proctored test score(s) at the end of the course. Course is graded on a pass/no pass basis. Course does not transfer. Prerequisites: Designated placement test score into MTH20, MTH60 or MTH65, co-enrollment in RD30 or RD90, and instructor approval. Students should also be familiar with computers.

MTH20 4 credits

Pre-algebra

Reinforces skills in whole number, fractions, and decimals while introducing computation with rational numbers, exponents, order of operation, and the use of variables, expressions, formulas, and equations. Ratio and proportions, percent, and topics in measurement are also studied. Working with real data, formulas, and applications will be stressed. Course is graded on a pass/no pass basis. Course does not transfer. Prerequisites: Designated math placement test score; RD30 or RD90 (may be taken concurrently). A scientific calculator is required.

MTH60 4 credits

Fundamentals of Algebra I

Beginning algebra introduces the study and application of real numbers, operations with real numbers, exponents, order of operations with linear expressions, mathematical modeling, solving linear equations, solving inequalities, methods of problem solving, rates, slope, graphs of lines, equations of lines, functions, and systems of linear equations. Working with real data, formulas, and applications will be stressed. Course is graded on a pass/no pass basis. Course does not transfer. Prerequisites: MTH20 and RD30 or RD90, or designated placement test scores. A scientific calculator is required. There is a significant online component in this class.

MTH60R 1 credit

Fundamentals of Algebra I Recitation

For students concurrently enrolled in MTH60, this optional course provides more help with the material presented. Covers a review of MTH20 material and topics and concepts of particular difficulty presented in MTH60. Daily material is motivated by student involvement and timely MTH60 class topics. Course is graded on a pass/no pass basis. Course does not transfer. Prerequisite: MTH20 or designated placement test score. Corequisite: MTH60.

MTH63 4 credits

Applied Algebra I

Introduces the use of formulas and equations in an entirely practical and applied context. Topics include mathematical operations with real numbers, measurement, ratios, proportions, percentages, dimensional analysis, order of operations, solving equations numerically and symbolically, Pythagorean theorem, trigonometry, area, perimeter, surface area and volume. Course is graded on a pass/no pass basis. Course does not transfer. Prerequisites: MTH20 and RD30 or RD90, or designated placement test scores. A scientific calculator is required.

MTH64 2 credits

Pharmacy Calculations

Teaches the calculations involved in the preparation and administration of pharmacological products. Topics include converting measurements, dosage calculations, dilutions, concentrations, dimensional analysis, flow duration, volume per hour, drip rates, and TPN milliequivalents. Prerequisites: MTH60 or MTH63 and RD30 or RD90, or designated placement test scores, and acceptance into the Pharmacy Technician program. Offered winter term.

MTH65 4 credits

Fundamentals of Algebra II

Includes the study and application of exponents, polynomial operations, factoring polynomial expressions, solving polynomial equations, rational expression operations, and solving rational equations. Course is graded A through F. Course does not transfer. Prerequisites: MTH60 and RD30 or RD90, or designated placement test scores. A graphing calculator is required. There is a significant online component in this class.

MTH65R 1 credit

Fundamentals of Algebra II Recitation

Designed for students needing additional help with MTH65. Course is optional. Graded on a pass/no pass basis. Course does not transfer. Prerequisite: Concurrent enrollment in MTH65. A graphing calculator is required.

MTH95 4 credits

Intermediate Algebra

Topics include the study and application of compound inequalities, rational exponents, simplifying radical expressions, solving radical equations, solving quadratic equations, graphing quadratic functions, relating exponential and logarithmic functions, and solving exponential and logarithmic functions. Course is graded A through F. Course does not transfer. Prerequisites: MTH65 and RD30 or RD90, or designated placement test scores. A graphing calculator is required (instructor will be using the TI-83 or TI-84 graphing calculator in class). There is a significant online component in this class.

MTH95R 1 credit

Intermediate Algebra Recitation

Designed for students needing additional help with MTH95. Course is optional. Includes review of MTH65 material, using a graphing calculator, and focuses on topics and concepts of particular difficulty presented in MTH95. Graded on a pass/no pass basis. Course does not transfer. Prerequisite: Concurrent enrollment in MTH95. A graphing calculator is required (instructor will be using the TI-83 or TI-84 graphing calculator in class).

MTH96 4 credits

Applied Algebra II

Introduces the study and application of linear, quadratic, power, exponential, and logarithmic expressions and functions. Working with real data, the mathematics of curve fitting will be developed making extensive use of the graphing calculator. This course concludes the developmental mathematics sequence. Course is graded A through F. Course does not transfer. Prerequisites: MTH60 or MTH63 and RD30 or RD90, or designated placement test scores. A TI-83 or TI-84 graphing calculator is required.

MTH105 4 credits

Introduction to Contemporary Mathematics

Designed as a transfer mathematics course for students not majoring in science, mathematics, engineering, and other majors requiring significant amounts of algebra. Topics include logic and reasoning, problem solving, geometry, math of finance, counting theory, probability, and statistics. Course is graded A through F. Prerequisites: MTH95 or MTH96 and RD30 or RD90, or designated placement test scores. A scientific or graphing calculator is required (instructor will be using the TI-83 or TI-84 graphing calculator in class). There is a significant online component in this class. Offered fall, winter and spring terms.

MTH111 4 credits

College Algebra

Topics include linear functions and models, quadratic functions and models, graphing polynomials, rational and inverse functions, systems of equations, zeros of polynomials, exponential and logarithmic functions, and conic sections. Course is graded A through F. Prerequisites: MTH95 and RD30 or RD90, or designated placement test scores. A graphing calculator is required (instructor will be using the TI-83 or TI-84 graphing calculator in class). There is a significant online component in this class.

MTH111R 1 credit

College Algebra Recitation

This is an optional course taken concurrently with MTH111. It is for those students who want more help with the material of MTH111. MTH111R covers a review of MTH95 material, using the graphing calculator, and topics and concepts of particular difficulty presented in the MTH111 class. Course is graded on a pass/no pass basis. Prerequisites: MTH95 or designated placement test score and concurrent enrollment in MTH111.

MTH112 4 credits

Elementary Functions

Covers basic and advanced trigonometry. Course is graded A through F. Prerequisites: MTH95 and RD30 or RD90, or designated placement test scores. A graphing calculator is required (instructor will be using the TI-83 or TI-84 graphing calculator in class). There is a significant online component in this class.

MTH112R 1 credit

Elementary Functions Recitation

This is an optional course taken concurrently with MTH112. It is for those students who want more help with the material of MTH112. Covers a review of MTH95 material, using the graphing calculator, and topics and concepts of particular difficulty presented in the Elementary Functions class. Course is graded on a pass/no pass basis. Prerequisites: MTH95 or designated placement test score and concurrent enrollment in MTH112.

MTH199 1-4 credits

Special Studies in Mathematics

Presents special topics of study in mathematics through workshop, seminar, research, and/or independent study formats. Content varies according to department needs and student demand.

MTH211 5 credits

Fundamentals of Elementary Math I w/Lab

The first of a three-term sequence designed to prepare pre-service elementary and middle school teachers for entrance into the Oregon teacher's certification program. The course will study the topics of problem solving, sets, whole number concepts and operations, elementary number theory, integers, and elementary logic. Course is graded A through F. Prerequisite: MTH95 or designated placement test score. A scientific calculator is required. There is a significant online component in this class. Offered fall term.

MTH212 5 credits

Fundamentals of Elementary Math II w/Lab

The second term of a three term sequence designed to prepare pre-service elementary and middle school teachers for entrance into the Oregon teacher certification program. The course will study the topics from basic math, algebra, counting theory, probability, and statistics. Course is graded A through F. Prerequisites: MTH95 or designated placement test score and MTH211. A scientific calculator is required. There is a significant online component in this class. Offered winter term.

MTH213 5 credits

Fundamentals of Elementary Math III w/Lab

The third term of a three term sequence designed to prepare pre-service elementary and middle school teachers for entrance into the Oregon teacher certification program. The course will study the topics of geometric shapes, measurement, triangle congruence and similarity, coordinate geometry, and transformational geometry. Course is graded A through F. Prerequisite: MTH95 or designated placement test score. A scientific calculator is required. There is a significant online component in this class. Offered spring term.

MTH243 4 credits

Probability and Statistics w/Lab

Covers the nature and presentation of data, measures of central tendency, probability and probability distributions, normal and binomial distributions, estimates, sample sizes, confidence intervals and hypothesis testing. Course is graded A through F. Prerequisites: MTH95 or MTH96 and RD30 or RD90, or designated placement test scores; a graphing calculator is required (instructor will be using the TI-83 or TI-84 graphing calculator in class). There is a significant online component in this class.

MTH244 4 credits

Inferential Statistics

Builds on the basic knowledge and skills learned in MTH243 and utilizes spreadsheet skills gained in CS125ss. Students will

use Excel extensively to solve statistical problem. Emphasis is on the understanding and application of hypothesis testing, analysis of variance (ANOVA), correlation and regression, and Chi-square techniques. Designed to provide students with analytical skills they will need in upper-division business courses including accounting, finance, operations management and applied research. Course is graded A through F. Dual numbered as BA282. Prerequisites: BA131, MTH243, RD30 or RD90, and BA285 or CS125SS. Offered winter, spring and summer terms.

MTH251 5 credits

Calculus I (Differential) w/Lab

First course in the calculus sequence for science, mathematics, and engineering students. Topics include limits, differentiation, extrema, related rates, optimization problems, and other basic applications of differentiation. Course is graded A through F. Prerequisites: MTH111 and MTH112 or designated placement test scores. A computer lab is required. A graphing calculator is also required (the TI-83 or TI-84 graphing calculator is recommended). There is a significant online component in this class. Offered fall, winter and spring terms.

MTH252 5 credits

Calculus II (Integral) w/Lab

The second course in the traditional calculus sequence for science, mathematics, and engineering students. Topics include integration, integration techniques, applications of integration, and improper integrals. Course is graded A through F. Prerequisite: MTH251 or consent of instructor. A computer lab is required. A graphing calculator is also required (the TI-83 or TI-84 graphing calculator is recommended). There is a significant online component in this class. Offered winter and spring terms.

MTH253 5 credits

Calculus III w/Lab

The third course in the calculus sequence for science, mathematics, and engineering students. Includes infinite series, conic sections, plane curves, parametric equations, polar coordinates, vectors, and vector-valued functions. There is a significant online component in this class. Course is graded A through F. Prerequisite: MTH252 or consent of instructor. A computer lab is required. A graphing calculator is also required (the TI-83 or TI-84 graphing calculator is recommended). There is a significant online component in this class. Offered spring term.

MTH254 5 credits

Vector Calculus w/Lab

The fourth course in the calculus sequence for science, mathematics, and engineering majors. Includes vector-valued functions, functions of several variables, partial differentiation, multiple integration, and vector analysis. Course is graded A through F. Prerequisite: MTH253 or consent of instructor. A computer lab is required. A graphing calculator is also required (the TI-83 or TI-84 graphing calculator is recommended). There is a significant online component in this class. Offered summer term.

MTH256 5 credits

Differential Equations w/Lab

First course in ordinary differential equations for science, mathematics, and engineering students. Includes first-order differential equations, linear second-order differential equations, and higher-order linear differential equations with applications. Additional topics include Laplace transforms, series solutions of linear differential equations, and systems of differential equations with applications. A computer lab is required. Prerequisite: MTH253 or instructor approval. A graphing calculator is also required (the TI-83 or TI-84 graphing calculator is recommended). Offered summer term.

MTH261 5 credits

Linear Algebra w/Lab

First course in linear algebra for science, mathematics, and engineering students. Includes both the theoretical and practical realms of systems of linear equations, matrices, determinants, vector spaces, inner product spaces, eigenvalues and eigenvectors. Course is graded A through F. Prerequisite: MTH252. A computer lab is required. A graphing calculator is also required (the TI-83 or TI-84 graphing calculator is recommended). Offered spring term.

MTH280 Variable credit

Cooperative Work Experience/ Mathematics

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program.

MECHANICAL ENGINEERING TECHNOLOGY

Career and Technical Courses

MET101 3 credits

Mechanical Drafting

Introduces manual mechanical drafting techniques. Focuses on drawing layout, dimensioning standards, and sectional views through a series of practical problems. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores. Offered fall, winter and spring terms.

MET104 3 credits

Applied Shop Practices

Covers calculation, layout, and procedure standards in applied topics in manufacturing and machining technologies. An understanding of mathematical concepts is stressed in all topics ranging from general arithmetic processes to oblique trigonometry, compound angles and numerical control. Offered fall, winter and spring terms.

MET105 3 credits

Blueprint Reading - Mechanical

Introduces blueprints using multi-view projection, sectional views, auxiliary views, title blocks, and drawing formats, which are the basis for all graphical communication in the manufacturing industry today. Knowledge of the techniques used on blueprints is necessary in the industry whenever descriptions of size, shape, and arrangement are used to produce, service, or sell a product. This course also introduces students to blueprint and drawing techniques which will be built upon with additional modules in the program. Dual numbered as WLD104. Prerequisite: MTH63 recommended. Offered fall, winter and spring terms.

MET111 3 credits

Computer Aided Drafting I: Mechanical (Autodesk Inventor)

Introduces students to the basic concepts of computer aided design (CAD) and drafting. These include but are not limited to set-up workspace, sketches, features, and drawings. Working in both two- and three-dimensions as well as in solids, students will learn the operating system, command codes, file menu, and symbol library of an industry standard, computer aided

design and drafting system. Prerequisite: CS120 or equivalent. Corequisites: MET101 and MET105 highly recommended. Offered fall, winter and spring terms.

MET112 3 credits **Computer Aided Drafting II:** **Mechanical (Autodesk Inventor)**

Introduces students to advanced concepts of computer aided design (CAD) and drafting. These include but are not limited to advanced commands, thread creation, surfaces, advanced work planes, and stress analysis (FEA). Working in both two- and three-dimensions as well as in solids, students will learn the operating system, Inventor CAD environment, advanced tools and symbol library of an industry standard, computer aided design and drafting system. Prerequisite: MET111. Corequisites: MET101 and MET105 highly recommended. Offered fall, winter and spring terms.

MET113 3 credits **Computer Aided Drafting III:** **Mechanical (Autodesk Inventor)**

Covers advanced techniques used in creating and modifying parametric, assembly-centric 3D models with Inventor. Exercises in this course develop extensive knowledge in the areas of part and assembly modeling, adaptive features, utilizing work groups, surfacing, managing data and the Engineer's Notebook. Exercises will include but are not limited to advanced commands and surfaces, advanced work planes, and advanced stress analysis (FEA). Working in both two- and three-dimensions as well as in solids, students will learn advanced multiple drawing and modification commands, create advanced three-dimensional solid models and assemblies, and apply industry standards in the preparation of technical mechanical drawings. Prerequisite: MET111 and MET112 or instructor approval; MET105 highly recommended. Offered fall, winter and spring terms.

MET121 3 credits **Computer Aided Drafting I:** **Mechanical (SolidWorks)**

The first in a three-term series introducing students to the basic concepts of computer aided design (CAD) and drafting. Course studies will be completed using SolidWorks CAD software. Studies include set-up workspace, sketches, features, and drawings. Working in both two- and three-dimensions as well as in solids, students will learn the operating system, command codes, file menu, and symbol library of an industry standard, computer aided design and drafting system. Prerequisites: CS120 or equivalent; MET101 and MET105 highly recommended. Offered fall, winter and spring terms.

MET122 3 credits **Computer Aided Drafting II:** **Mechanical (SolidWorks)**

The second of a three-term series, this course continues with the basic concepts of computer aided design (CAD) and drafting. Course studies will be completed using SolidWorks CAD software. Studies include set-up workspace, sketches, features and drawings. Working in both two- and three-dimensions as well as in solids, students will learn the operating system, command codes, file menu, and symbol library of an industry standard, computer aided design and drafting system. Focus will be on sheet metal, weldments, and gears and gear-mates as used in manufacturing. Students have the opportunity to take SolidWorks CSWA (Certified SolidWorks Associate) exam at end of this term. Prerequisite: MET121 or department approval. Offered fall, winter and spring terms.

MET123 3 credits **Computer Aided Drafting III:** **Mechanical (SolidWorks)**

The third course in a three-term series, this is an elective in the Manufacturing Engineering Technology program. Students will use the techniques learned in MET121 and MET122 to reverse engineer an advanced part/project, creating solid models and modifying those models as needed, creation of assemblies, and industry standard mechanical drawings. Coursework will focus on continuing to develop techniques in preparing industry standard accurate, legible drawings and solid models. Students will have opportunity to take the SolidWorks CSWA (Certified SolidWorks Associate) exam at the end of the term. Prerequisite: MET122 or department approval. Offered fall, winter and spring terms.

MET160 3 credits **Materials and Metallurgy**

Studies basic metallurgy as it relates to manufacturing processes. The course introduces the identification of ferrous metals and non-ferrous metals, as well as other materials used in the manufacturing industry. Study includes mechanical and physical properties, powder metallurgy, heat treatment, alloying, crystalline structures, effects of machining, casting processes, and testing processes. Prerequisite: MFG101 recommended. Offered winter term.

MUSIC

Lower Division Transfer Courses

MUS101 3 credits **Music Fundamentals I**

Focuses on reading and writing basic music notation. Includes note names, scales, key signatures, overtone series, intervals, basic rhythms and meters, spelling triads and seventh chords, and basic ear training skills. Prerequisite: RD30 or RD90 or designated placement test score. Offered in the spring term.

MUS105 3 credits **Music Appreciation**

Introduces the history and repertoire of music. Through guided listening, students will develop both an aural and an intellectual understanding of music while emphasizing the political, cultural, and scientific values that have shaped Western music. Prerequisites: RD30 or RD90 or designated placement test score; WR121 (may be taken concurrently). Offered in summer term.

MUS108 4 credits **Music in World Cultures**

Introduces music from various cultures with an international and cross-cultural perspective. Explores both commonalities and differences in how music is defined, valued, and utilized in many cultures around the world. Prerequisites: RD30 or RD90 or designated placement test score; WR121 (may be taken concurrently).

MUS111 4 credits **Music Theory and Aural Skills I**

Examines the fundamentals of tonal music including the overtone series, major and minor scales, keys, intervals, spelling triads and seventh chords, and harmonic analysis. Includes ear training (dictation) and sight-singing skills using diatonic melodies in major keys in simple meter. Introduces solfege as a tool for sight singing. Prerequisites: RD30 or RD90 or designated placement test score; WR121 (may be taken concurrently), and MUS101 or a basic knowledge of music fundamentals. Offered fall term.

MUS112 4 credits **Music Theory and Aural Skills II**

Continues the examination of tonal music including harmonic analysis in a key/tonal context, harmonic progressions, realizing a figured bass, and part-writing procedures using a figured bass and soprano line. Continues dictation and sight-singing skills using diatonic melodies, dyads, and harmonies in major and minor keys using simple and compound meter. Prerequisites: RD30 or RD90 or designated placement test score and MUS111 or permission of the instructor; WR121 (may be taken concurrently). Offered winter term.

MUS113 4 credits **Music Theory and Aural Skills III**

Continues the examination of tonal music including harmonic analysis in a key/tonal context harmonic progressions, part-writing procedures, and realizing more advanced figured bass lines. Continues dictation and sight-singing skills using diatonic and chromatic melodies, dyads, and harmonies in major and minor keys. Prerequisites: RD30 or RD90 or designated placement test score and MUS112 or permission of the instructor; WR121 (may be taken concurrently). Offered spring term.

MUS131 2 credits **Class Piano I**

Offers elementary instruction covering the principles of piano playing to fit the needs of beginners in a class setting. A piano or keyboard is needed for practice. Offered fall, winter and spring terms.

MUS132 2 credits **Class Piano II**

Offers elementary instruction covering the principles of piano playing to fit the needs of beginners in a class setting. A piano or keyboard is needed for practice. Prerequisite: MUS131. Offered infrequently.

MUS133 2 credits **Class Piano III**

Offers elementary instruction covering the principles of piano playing to fit the needs of beginners in a class setting. A piano or keyboard is needed for practice. Prerequisite: MUS132. Offered infrequently.

MUS135 2 credits **Beginning Hand Drums**

Provides students hands-on experience with a variety of hand percussion instruments from around the world. Students will learn basic techniques and rhythms to facilitate musical performance in a group setting. May be repeated up to 4 credits.

MUS137 2 credits **Group Guitar – Beginning**

Covers the basic construction of the guitar, principles of tuning, maintenance, and treatment of the instrument. Also covered are key signatures, scales, primary chords and their structures, as well as fingering methods, right hand picking styles and techniques specific to the guitar. Students will learn how to accompany solo and group singing, and learn skills needed to translate music and methods for solving problems common to guitar players. Course may be repeated for up to two terms (4 credits total).

MUS138 2 credits **Group Guitar – Intermediate**

Enables students to create more complicated common style arrangements to folk, blues, and popular song styles by adding melody notes and bass runs to open chords. Students will also learn accompanying styles to a much broader range of song types, the use of more sophisticated chords and voicings, and the use of barred chords affording the guitarist the ability to

play in any key. Course may be repeated for up to two terms (4 credits total).

MUS199 Variable credit Special Studies: Music

Serves a variety of student needs and interests in keeping with the department's mission to increase students' literacy, critical thinking and self awareness through music and to broaden their cultural awareness and values. May be repeated for up to six credits. Prerequisites: RD30 or RD90 or designated placement test score; WR115 (may be taken concurrently).

MUS201 4 credits Introduction to Western Music

Studies styles and historical contexts of music from antiquity to the present. No musical background is required. Prerequisites: RD30 or RD90 or designated placement test score; WR121 (may be taken concurrently). Offered fall, winter and spring terms.

MUS205 3 credits History of Jazz

Surveys jazz style from its origins to the present as revealed through the study of the most innovative and influential artists of this uniquely American musical form. Emphasis is placed on building listening and comprehension skills through listening to jazz, in-class discussion of the music, class assignments, research, and reading of the text. Prerequisites: RD30 or RD90 or designated placement test score; WR121 (may be concurrent). Offered fall and summer terms.

MUS206 3 credits Introduction to Rock Music

Surveys rock music from its origins to the present as revealed through the study of the most innovative and influential artists of this American musical form. Emphasis is placed on building listening and comprehension skills through listening to rock, in-class discussion of the music, class assignments, research, and reading of the text. Prerequisites: RD30 or RD90 or designated placement test score; WR121 (may be taken concurrently).

MUS207 3 credits Songwriting

Studies examples of successful popular songs and the fundamentals of music theory and notation. Students will be asked to compose and record original songs. Prerequisites: RD30 or RD90 or designated placement test score; WR121 (may be taken concurrently). Offered fall, winter and spring terms.

MUS208 3 credits Film Music

Explores the capacity of music to enhance drama and affect our emotions in the medium of film and looks at different ways music has been used in film since the birth of cinema to the present. The course is focused around various themes, in keeping with the department mission to increase students' literacy, awareness of cultures and different cultural values, critical thinking, and self-awareness. No prior knowledge of music or film history is necessary. Prerequisites: RD30 or RD90 or designated placement test score; WR121 (may be taken concurrently). Offered winter and summer terms.

MUS211 4 credits Music Theory and Aural Skills IV

Continues MUS111, 112 and 113. Offers students a clear and thorough introduction to the resources and practice of Western music with a focus on chromatic harmony as used in the common practice period through the 21st century. Students will realize four parts from a chromatic figured bass and analyze more advanced chord progressions, cadences, phrases and forms as used in the music of the masters. Students will

also analyze various atonal styles of music. More advanced (chromatic) sight-singing and dictation exercises along with conducting exercises will be used. Prerequisite: MUS113 or equivalent knowledge. Offered infrequently.

MUS212 4 credits Music Theory and Aural Skills V

Offers students a clear and thorough introduction to the resources and practice of Western music with a focus on chromatic harmony as used in the common practice period through the 21st century. Students will realize four parts from a chromatic figured bass and analyze more advanced chord progressions, cadences, phrases and forms as used in the music of the masters. Students will also analyze various atonal styles of music. More advanced (chromatic) sight-singing and dictation exercises along with conducting exercises will be used. Prerequisite: MUS211 or equivalent knowledge. Offered infrequently.

MUS213 4 credits Music Theory and Aural Skills VI

Offers students a clear and thorough introduction to the resources and practice of Western music with a focus on chromatic harmony as used in the common practice period through the 21st century. Students will realize four parts from a chromatic figured bass and analyze more advanced chord progressions, cadences, phrases and forms as used in the music of the masters. Students will also analyze various atonal styles of music. More advanced (chromatic) sight-singing and dictation exercises along with conducting exercises will be used. Prerequisite: MUS212 or equivalent knowledge. Offered infrequently.

MUS261 4 credits History of Western Music I: Ancient to Baroque

Primarily for music majors, studies development of Western musical styles from antiquity through the Middle Ages, Renaissance and Baroque, to become familiar with the wide range of cultural diversity within the Western tradition. Prerequisites: RD30 or RD90 or designated placement test score; WR121 (may be taken concurrently); MUS101 or knowledge of music fundamentals and the ability to read music.

MUS262 4 credits History of Western Music II: Classical and Romantic

Primarily for music majors, studies development of Western musical styles from both the Classical and Romantic periods to become familiar with the wide range of cultural diversity within the Western tradition. Prerequisites: RD30 or RD90 or designated placement test score; WR121 (may be taken concurrently); MUS101 or knowledge of music fundamentals and the ability to read music.

MUS263 4 credits History of Western Music III: 20th Century to Modern Day

Primarily for music majors, studies development of Western musical styles from antiquity through the Late Romantic, Modern periods, and present day to become familiar with the wide range of cultural diversity within the Western tradition. Prerequisites: RD30 or RD90 or designated placement test score; WR121 (may be taken concurrently); MUS101 or knowledge of music fundamentals and the ability to read music.

**MUS264 3 credits
History of Rock I: The Roots of Rock**
Provides students with an opportunity to explore the musical, social and cultural aspects of rock music from its pre-rock

influences and its development through c.1963. Emphasis is placed on building listening and comprehension skills through listening to rock music, in-class discussion of the music, class assignments, research, and reading of the text. Prerequisites: RD30 or RD90 or designated placement test score; WR121 (may be taken concurrently). Offered fall term.

MUS265 3 credits History of Rock II: Rock's Golden Age

Provides students with an opportunity to explore the musical, social and cultural aspects of rock music from its pre-rock influences and its development from 1964-1975. Emphasis is placed on building listening and comprehension skills through listening to rock music, in-class discussion of the music, class assignments, research, and reading of the text. Prerequisites: RD30 or RD90 or designated placement test score; WR121 (may be taken concurrently). Offered winter term.

MUS266 3 credits History of Rock III: Heavy Metal to Hip-Hop

Provides an opportunity to explore the musical, social and cultural aspects of rock music from c.1975 through the present day. Emphasis is placed on building listening and comprehension skills through listening to rock music, in-class discussion of the music, class assignments, research, and reading of the text. Prerequisites: RD30 or RD90 or designated placement test score; WR121 (may be taken concurrently). Offered spring term.

MUS280 Variable credit Cooperative Work Experience/Music

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program.

NURSING

Lower Division Transfer Courses

NRS110,NRS110C 9 credits Foundations of Nursing – Health Promotion

Introduces the learner to framework of the RCC and Oregon Consortium for Nursing Education (OCNE) curriculum with its focus on 10 competencies. The emphasis on health promotion across the life span includes learning about self-health as well as client health practices. To support self and client health practices, students learn to access research evidence about healthy lifestyle patterns and risk factors for disease/illness, apply growth and development theory, interview clients in a culturally sensitive manner, work as members of a multidisciplinary team, give and receive feedback about performance, and use reflective thinking about their practice as nursing students. Populations studied include children, adults, older adults and the family experiencing a normal pregnancy. Includes classroom/lab covering basic nursing procedures and clinical learning experiences in a variety of community settings and in hospital facilities. The clinical portion of the course includes practice with therapeutic communication skills and selected core nursing skills identified in the OCNE Core Nursing Skills document. Clinical experience is graded on a pass/no pass basis. Prerequisites: Completion of all prereq-

quisite/preparatory courses (45 credits minimum) and formal acceptance into the RCC AAS Nursing program. This is a limited-entry program. Offered fall term.

NRS111,NRS111C 6 credits

Foundations of Nursing in Chronic Illness

Introduces assessment and common interventions (including technical procedures) for patients with chronic illnesses common across the life span in major multiple ethnic groups. The patient's and family's "lived experience" of the condition is explored. Clinical practice guidelines and research evidence are used to guide clinical judgments in care of individuals with chronic conditions. Multidisciplinary team roles and responsibilities are explored in the context of delivering safe, high quality health care to individuals with chronic conditions (includes practical and legal aspects of delegation). Cultural, ethical, legal and health care delivery issues are explored through case scenarios and clinical practice. Case exemplars include children with asthma, adolescents with a mood disorder, adults with type 2 diabetes, and older adults with dementia. The course includes classroom and clinical learning experiences. Clinical experience is graded on a pass/no pass basis. Prerequisites: NRS110, NRS112, NRS230, NRS232; NRS231 and NRS233 taken concurrently. Offered spring term.

NRS112 6 credits

Foundations of Nursing in Acute Care I

Introduces the learner to assessment and common interventions (including relevant technical procedures) for care of patients across the lifespan who require acute care, including normal childbirth. Disease/illness trajectories and their translation into clinical practice guidelines and/or standard procedures are considered in relation to their impact on providing culturally sensitive, patient-centered care. Includes classroom and clinical learning experiences. Prerequisite: NRS110; NRS230 and NRS232 taken concurrently. Offered winter term.

NRS115,NRS115C 6 credits

LPN Transition to OCNE

Introduces the learner to the framework of the RCC and Oregon Consortium for Nursing Education (OCNE) curriculum including the OCNE competencies and benchmarks and the clinical judgment model. The student is introduced to the role and practice of the registered nurse. Concepts and applicability of the ANA Code of Ethics will be emphasized. Students will be introduced to evidenced-based care including levels of evidence. Concepts of health promotion, chronic care and acute care as applied to nursing practice will be explored. Case studies, concept-based learning activities, and patient care activities will be used to provide students opportunities to demonstrate critical thinking in the provision of simulated and actual patient care. The course will be delivered through a variety of methods, e.g. face to face classroom and seminar, skills lab, high fidelity simulation, and hospital clinical experiences. Participation in weekly NRS115 seminar sessions and all scheduled NRS115C clinical experiences (including required preparation for clinical care) will typically require a five day per week time commitment. Clinical is graded on a P/NP basis. Prerequisites: NRS230, NRS232, and full acceptance to the RCC Nursing program. This course is only for LPNs accepted into the advanced placement process. Offered spring term.

NRS221,NRS221C 9 credits

Nursing in Chronic Illness II and End-of-Life

Builds on NRS111 Foundations of Nursing in Chronic Illness I. Chronic Illness II expands the student's knowledge related to family care giving, symptom management and end of life concepts. These concepts are a major focus and basis for nursing interventions with patients and families. Ethical issues related to advocacy, self-determination, and autonomy are explored. Complex skills associated with the assessment and management of concurrent illnesses and conditions are developed within the context of patient and family preferences and needs. Skills related to enhancing communication and collaboration as a member of an interprofessional team and across health care systems are further explored. Exemplars include patients with chronic mental illness and addictions, as well as other chronic conditions and disabilities affecting functional status and family relationships. Includes classroom and clinical learning experiences. Clinical experience is graded on a pass/no pass basis. Prerequisites: NRS110, NRS111, NRS112, NRS230, NRS231, NRS232 and NRS233. Offered fall term.

NRS222,NRS222C 9 credits

Nursing in Acute Care II and End-of-Life

Builds on Nursing in Acute Care I focusing on more complex and/or unstable patient care conditions, some of which may result in death. These patient care conditions require strong noticing and rapid decision making skills. Evidence base is used to support appropriate focused assessments and effective, efficient nursing interventions. Life span and developmental factors, cultural variables, and legal aspects of care frame the ethical decision-making employed in patient choices for treatment or palliative care with an acute care trajectory. Case scenarios incorporate prioritizing care needs, delegation and supervision, family and patient teaching for either discharge planning or end-of-life care. Exemplars include acute conditions affecting multiple body systems. Includes classroom and clinical learning experiences. Clinical experience is graded on a pass/no pass basis. Prerequisites: NRS221. Offered winter term.

NRS224,NRS224C 9 credits

Integrative Practicum

Designed to formalize the clinical judgments, knowledge and skills necessary in safe, registered nurse practice. The faculty/clinical teaching associate/student triad model provides a context that allows the student to experience the nursing role in a selected setting, balancing the demands of professional nursing and lifelong learner. Analysis and reflection throughout the clinical experience provide students with evaluative criteria against which they can judge their own performance and develop a practice framework. Includes seminar, self-directed study and clinical experience. Required for AAS degree and eligibility for NCLEX-RN exam. Clinical experience is graded on a pass/no pass basis. Prerequisites: NRS221 and NRS222. Offered spring term.

NRS230 3 credits

Clinical Pharmacology I

Introduces the theoretical background that enables students to provide safe and effective care related to drugs and natural products to persons throughout the lifespan. It includes the foundational concepts of principles of pharmacology, nonopioid analgesics, and antibiotics as well as additional classes of drugs. Students will learn to make selected clinical decisions in the context of nursing regarding using current, reliable sources

of information, understanding of pharmacokinetics and pharmacodynamics, developmental physiologic considerations, monitoring and evaluating the effectiveness of drug therapy, teaching persons from diverse populations regarding safe and effective use of drugs and natural products, intervening to increase therapeutic benefits and reduce potential negative effects, and communicating appropriately with other health professionals regarding drug therapy. Drugs are studied by therapeutic or pharmacological class using an organized framework. Prerequisites: NRS110 or instructor permission. Offered winter term.

NRS231 3 credits

Clinical Pharmacology II

This sequel to NRS230 Clinical Pharmacology I continues to provide the theoretical background that enables students to provide safe and effective nursing care related to drugs and natural products to persons throughout the lifespan. Students will learn to make selected clinical decisions in the context of nursing regarding using current, reliable sources of information, monitoring and evaluating the effectiveness of drug therapy, teaching persons from diverse populations regarding safe and effective use of drugs and natural products, intervening to increase therapeutic benefits and reduce potential negative effects, and communicating appropriately with other health professionals regarding drug therapy. The course addresses additional classes of drugs and related natural products not contained in Clinical Pharmacology I. Content for NRS231 focuses on drugs for diabetes, concepts of chemotherapy, drugs that act in the central nervous system, drugs that treat inflammation, antiviral drugs, antilipidemics, and diuretics. Prerequisite: NRS230. Offered spring term.

NRS232 3 credits

Pathophysiological Processes I

Introduces pathophysiological processes that contribute to many different disease states across the lifespan and human responses to those processes. Includes the foundational concepts of cellular adaptation, injury, and death; inflammation and tissue healing; fluid and electrolyte imbalances; and physiologic response to stressors and pain as well as additional pathophysiological processes. Students will learn to make selective clinical decisions in the context of nursing regarding using current, reliable sources of pathophysiology information, selecting and interpreting focused nursing assessments based on knowledge of pathophysiological processes, teaching persons from diverse populations regarding pathophysiological processes, and communicating with other health professionals regarding pathophysiological processes. Prerequisite: NRS110. Offered winter term.

NRS233 3 credits

Pathophysiological Processes II

This sequel to NRS232 Pathophysiological Processes I continues to explore pathophysiological processes that contribute to disease states across the lifespan and human responses to those processes. Students will learn to make selected clinical decisions in the context of nursing regarding using current, reliable sources of pathophysiology information, selecting and interpreting focused nursing assessments based on knowledge of pathophysiological processes, teaching persons from diverse populations regarding pathophysiological processes, and communicating with other health professionals regarding pathophysiological processes. The course addresses additional pathophysiological processes not contained in Pathophysiological Processes I. Prerequisite: NRS232. Offered spring term.

NUR100 1 credit

Scope of Practice and Safety Considerations

Covers the review and practice of safety concepts, nursing skills, and knowledge needed to care for individuals across the life span as previously learned in the program. The returning student is expected to demonstrate a level of preparedness that reflects independent review, study and groundwork. There will be individualized instruction, practice and evaluation of student performance of specific nursing skills in a laboratory setting. Course is graded on a pass/no pass basis. Prerequisite: Re-entry to the Practical Nursing or Nursing programs. Course does not transfer.

NUTRITION

Lower Division Transfer Courses

NFM225 4 credits

Nutrition

Covers chemistry of nutrients, digestion, absorption, and utilization in the body. Studies optimal diets, diet fallacies, diet disorders, and how nutrition affects health and disease. Prerequisites: RD30 or RD90 or designated placement test score; CHEM104 and BI211 recommended. Offered winter and summer terms.

OUTDOOR ADVENTURE LEADERSHIP

Lower Division Transfer Courses

OAL150 2 credits

Outdoor Living Skills

Introduces students to the art of preparing to camp in front or back country, presenting skills that are applicable to any environment and activity. Students will develop and apply skills in a range of environmental settings and will be prepared for future classes and experiences in the outdoors. The primary goal of this course is to learn the skills necessary to plan equipment and food for group trips as well as practice the skills of making informed choices in wilderness environments. Prerequisites: BT113 or WR115 or designated placement test scores and the ability to walk with a backpack containing personal gear. Offered fall term.

OAL223 2 credits

Wilderness Navigation

Uses a classroom setting to preview and cover the types of land forms that will be seen in the wilderness to prepare students for understanding real life navigation complexes. Introduces students to wilderness navigation including how to orient, navigate, and route-find in a wilderness setting using maps, compass, altimeter and GPS. It also requires students to demonstrate competency in a field setting. Prerequisite: BT113 or WR115 or designated placement test scores. Offered spring term.

OAL250 3 credits

Foundations of Outdoor Adventure and Leadership

Introduces students to the history, philosophy, and styles in outdoor adventure leadership in contemporary society, with application to current trends and prospects for the future. Allows students to develop knowledge and a personal style of effective leadership and communication. Prerequisite: BT113 or WR115 or designated placement test scores. Offered winter term.

PHARMACY TECHNICIAN

Career and Technical Courses

PRX101 4 credits

Pharmacy Technician I

Introduces the basic concepts of the practice of pharmacy and the pharmacy technician's role, including the history of pharmacy, the types of pharmacy settings, the language of pharmacy and drug classifications, the types and use of technology in the pharmacy setting, and basic concepts of health insurance billing as they relate to the pharmacy technician's role. Prerequisite: Acceptance into the Pharmacy Technician program. Offered fall term.

PRX102 4 credits

Pharmacy Technician II

Builds on material learned in Pharmacy Technician I. Focus is on the pharmacy technician's role in purchasing and inventory control, the behaviors expected of a professional pharmacy technician, the process of preparing, labeling, packaging, storing, and distributing medication, and the purpose, reason, and process for compounded and sterile medications. Prerequisite: PRX101. Offered winter term.

PRX123 2 credits

Legal and Ethical Issues for Pharmacy Technicians

Exposes the student to variety of legal and ethical dilemmas, helping students become more prudent and confident pharmacy technicians. Classroom content includes the legal system, the legal rights that define relationships between individuals, quality assurance, office protocols and patient records, and legal issues that affect employment. Prerequisite: Acceptance into the Pharmacy Technician program. Offered winter term.

PHILOSOPHY

Lower Division Transfer Courses

PHL101 4 credits

Philosophical Problems

Introduces basic questions of philosophy and some of the persistent philosophical problems. Students will explore some of the traditional solutions and given a base to provide their own sets of answers. Prerequisites: RD30 or RD90 or designated placement test score; WR121 (may be taken concurrently). Offered fall term.

PHL102 4 credits

Ethics

Develops the idea of humans as moral agents; provides critical consideration of various interpretations of the ideals and standards of moral conduct. Prerequisites: RD30 or RD90 or designated placement test score; WR121 (may be taken concurrently). Offered winter term.

PHL103 4 credits

Critical Reasoning

Introduces the study of reasoning including the ability to recognize, analyze, criticize, and construct the main types of argument and proof. Prerequisites: RD30 or RD90 or designated placement test score; WR121 (may be taken concurrently). Offered in spring term.

PHL199 Variable credit

Special Studies: Philosophy

Explores major ideas and belief systems of the world and the extent to which individual values are shaped by cultures. Prerequisites: RD30 or RD90 or designated placement test score; WR121 (may be taken concurrently).

PHYSICAL EDUCATION

Lower Division Transfer Courses

PE184 1 credit

Adaptive Physical Education

Focuses on knowledge, comprehension, and application of human movement principles related to individuals with disabilities. Prepares students with a foundation of special needs applications through a combination of research and practical classroom experience within the professional arena of persons with disabilities. Students are encouraged to raise issues, provide information from their own experience, and ask questions. Prerequisites: BT113 or WR115 or designated placement test score.

PE185 1 credit

Physical Education

Offers fitness and recreational activities in areas such as martial arts, physical fitness and conditioning, weight training, dance, aquatics, outdoor recreation sports, and individual, dual, and team sports.

PE185BA 1 credit

Backpacking

Teaches the skills to travel and camp with quality and style, while exploring and respecting the wilderness. The skills necessary to plan equipment and food for group trips as well as the skills to make informed choices in a wilderness environment will be covered. Offered spring and summer terms.

PE185CC 1 credit

Snow Skiing/Snowboarding

Teaches the complete range of alpine skiing or snowboarding skills, from basic to advanced techniques, in small group settings of students based on ability levels. It is designed to help students achieve personal fitness goals, while having fun and interacting with others. Upon completion of this course students will show improvement in downhill techniques, develop an understanding of rules and etiquette of the sport and be able to view the sport with greater appreciation of the techniques and skills required. Offered winter term.

PE185D 1 credit

Physical Conditioning/Weight Training

Encompasses body composition evaluation, fitness assessments, a variety of the newest fitness industry weight training programs/activities − such as EMOMs and supersets − that involve muscle endurance and strength, aerobic activities for improved cardiovascular endurance and circulation, and stretching for flexibility. Students meet with the instructor and create an individual workout schedule based on components of best practices in the fitness industry. Incorporates fitness and weight lifting activities to accommodate each student's ability and need by designing a workout schedule to "flex" around individual performance level and student goals.

PE185E 1 credit

Yoga

Yoga offers an effective method for reducing stress and creating a relaxation response within the body and mind. Through a series of controlled exercises, stretching, and breathing techniques, this course will give students firsthand experience with the concepts and applications of being responsible for and improving health. Students of all ability levels are welcome.

PE185F 1 credit

Karate

Teaches the fundamentals of Okinawan/Japanese karate (Ukinju-Ryu Karate-Do) that has an emphasis on balance,

coordination, physical fitness, and personal wellbeing as a primary goal, with the acquisition of self-defense skills and a sport competition component as practical byproducts. Covers postures, fundamental techniques, interactive drills, and self-defense applications. In addition, international sport competition rules and regulations and the basic combative skills will be introduced. Prerequisite: Students must be able to minimally perform the requisite physical activities defined by the course.

PE185HA 1 credit **Hiking Oregon**

Teaches the necessary skills for hiking like pre-trip planning, orienteering, traveling as a group, wilderness ethics and safety. Course topics include plants, animals, animal track identification, map and compass lessons, geocaching GPS activities, and basic preventative first aid such as hydration and foot care. Prerequisite: Students must be able to minimally perform the requisite physical activity throughout the class. Offered fall term.

PE185J 1 credit **Pilates**

Pilates is an exercise that enhances flexibility, core strength and coordination. Also improves breathing and lung capacity, muscle control, and balance through a system of controlled movements. Pilates is an effective method for reducing stress, increasing abdominal tone, and improving posture and flexibility. Students of all ability levels are welcome.

PE185K 1 credit **Core and Cardio**

Offers a variety of methods to achieve a stronger core and greater cardiac performance. Step aerobics, weighted workout, kick boxing, circuit training, and interval training -- all set to music -- are used to strengthen and increase metabolism, heart circulation, and lung capacity. Stretching; mat work; use of balls, weights and exercise bands to tone, strengthen, and develop the core; will also be used. Short discussions will cover the benefits of exercise, proper breathing and execution of exercises, the prevention and care of exercise-related injuries, diet, physiology, major muscles groups and body terms, and information on related health issues.

PE185L 1 credit **Lap Swimming**

Fosters the development of cardiovascular health and increased strength and flexibility through aquatic and strength exercises. Emphasizes overall fitness and encourages students to swim and train at their own pace. Swim hours throughout the term can be scheduled around students' schedules. Students set individual goals for swimming and strength training and strive to reach those goals over the course of the term.

PE185M 1 credit **Multi-level Aerobics**

Consists of a high-energy, cardiovascular workout for men and women of all ages, sizes, and physical conditions using dance aerobics, step aerobics, kickboxing, and Latin craze as a foundation in the class. Geared to meet each student's ability, needs and goals while strengthening the entire body to a music workout. Activities include muscular strength and endurance, cardiovascular endurance, body composition, and flexibility while keeping one foot on the floor at all times during aerobic segments. Benefits of exercise, proper execution of exercises, the prevention and care of exercise-related injuries, and major muscle groups and body terms are included.

PE185N 1 credit **Circuit Fitness Training**

Provides students the opportunity to develop individual cardiovascular fitness, flexibility, and muscular strength and endurance through a range of group exercise activities. Circuit

activities will rotate on a regular schedule. Short lecture sections will cover the benefits of exercise, proper breathing and execution of exercises, prevention and care of exercise-related injuries, diet, physiology, major muscles groups and body terms, and information on related health issues.

PE185Q 1 credit **Aquatics for Personal Trainers**

Provides students with a solid foundation for working as personal trainers in the medium of water. The course provides a comprehensive approach to the fundamentals of physical fitness, weight loss, and functional movements that promote flexibility, movement, and a life of health and wellness in a pool setting. The course is designed to support students who would like to pursue a personal trainer certification, specifically the American Council on Exercise Personal Trainer. Prerequisites: PE185D and PE194.

PE185R 1 credit **Beginning Rock Climbing**

Covers the basic skills needed to explore and respect the wilderness while perfecting the ability to climb rock faces safely. The skills necessary to plan equipment and make informed choices in a wilderness environment will be covered and include: equipment, knots, safety, training, stretching, skills and techniques, belaying, top rope anchors, rappelling and team work. The course will include several venues and a field trip for successful completion of the course. Offered spring term.

PE185RC 1 credit **Rock Climbing Adventure**

Provides extended learning opportunities for students to challenge themselves while focusing on safety and teamwork. Focus is on both top rope and sport climbing on a wide variety of rock types and route difficulty levels. Introduction to traditional clean lead climbing methods will also be covered. Students will have extended opportunities to practice anchor evaluation, safety equipment usage, topographical reading, route finding, climbing skills, and teamwork. There will be a three-day, two-night climbing expedition. Prerequisite: PE185R or climbing experience. Offered summer term.

PE185RR 1 credit **River Rafting Adventure**

Provides a unique outdoor adventure rafting various parts of the Rogue River based on the ACA's Essentials of Rafting Curriculum Levels 1-3. The course is designed to heighten enjoyment of the river and its beauty, both as a spectator and as a participant of the rafting adventure in still waters up to mild rapids. Includes the skills required to efficiently row and paddle a raft on the river by using good judgment and organization, river reading, considering safety considerations, and many paddling and rowing techniques. Offered spring term.

PE185SC 1 credit **Open Water SCUBA Diving**

Fosters the development of skills and knowledge to support a certificate in open water diving through the diver's certification process. The objective of this course is to offer students the classroom instruction, pool practice, and a minimum of four open water dives of 20 minutes each, in either river, lake or ocean to prepare students for the final SCUBA dives and certificate. This certification allows certificate holders to dive to a maximum depth of 130 feet in open water.

PE185SD 1 credit **Self Defense for Women**

Offers instruction in the basic self defense awareness and practical physical techniques geared to specifically serve the needs and concerns of the female community. The physical core of the training is the Daimon-Ryu Kenpo Karate system, a traditional form of karate which has an emphasis on self devel-

opment and awareness as a primary goal, with the acquisition of self defense skills as a practical by product. The course will cover situational awareness, critical distance, movement and postures, physical weapons awakening, self defense applications, stress inoculation and assault scenario practice. Men and women alike are welcome in this practical, demonstration-based course.

PE185SK 1 credit **Sea Kayaking the Oregon Coast**

Offers kayakers a unique outdoor adventure. Students will learn to maneuver sea kayaks in different environments in the ocean based on the ACA's Essentials of Kayaking Curriculum, Levels 1-3. The course is designed to heighten enjoyment of paddling in the ocean to appreciate the beauty, both as a spectator and as a participant of the kayaking adventure. Students will learn the fundamental kayaking skills that provide lifelong recreational learning and fitness enjoyment. Includes the basic elements of ocean navigation, safety considerations, and paddling and stability techniques. Offered fall term.

PE185SS 1 credit **Step and Stuff**

Develops individual cardiovascular fitness, muscular strength and endurance, flexibility and stability through group exercise activities utilizing the step platforms and various other exercise equipment. Learn about basic step moves, starting out easy and working up to more advanced moves, as well as mat work, stability balls, free weights, step/platforms and exercise bands to strengthen muscle, increase endurance, stretch bodies, and abdominal/core work.

PE185T 1 credit **Toning, Training and TRX**

Provides students the opportunity to develop individual cardiovascular fitness, flexibility, and muscular strength and endurance through a range of individual and group exercise activities. Each class will begin with a warm-up including toning and dynamic stretching of all major muscle groups, followed by 40 to 55 minutes of activities that support functional movement and strength gains. The TRX band system, weights, steps, medicine ball, resistance bands, and stability balls are among the activities and equipment included.

PE185TC 1 credit **Tai Chi**

For beginners as well as more advanced students of Tai Chi, students will learn techniques for relaxation and stress reduction using the Yang style of Tai Chi and various breathing exercises. The relationship of Tai Chi to martial arts and the applications of the various postures will be explained. Prerequisite: Ability to engage in specific movement patterns.

PE185W 1 credit **Winter Survival and Snow Camping**

Provides training and practical application of learning to deal with the extremes of winter and camping in the snow. Covers the many inherent challenges posed by the winter environment. Offered winter term.

PE185WK 1 credit **Whitewater Kayaking**

Offers river runners a unique outdoor adventure. Students will learn to kayak various parts of the Rogue River based on the ACA's Essentials of Kayaking Curriculum Levels 1-3. The course is designed to heighten enjoyment of the river and its beauty, both as a spectator of the river and as a participant in the kayaking adventure in still waters up to Class I-II rapids. Includes the basic elements of river reading, safety considerations, paddling techniques, and learning the skills required to efficiently maneuver a kayak on rivers with Class I-II rapids. Offered summer term.

PE185WW 1 credit **Women and Weights**

Focuses on empowering women with the basics of weight training and various modes of fitness, with a special focus on the physiology of the woman's body. The benefits of safe, effective, and progressive strength training will be emphasized. Topics in the course will include enhanced strength, muscle tone, increased metabolism, enhanced energy levels and reduction of depression symptoms.

PE185Z 1 credit **Zumba®**

Zumba® is a Latin-inspired, dance-fitness class that incorporates Latin and international music with dance movements, creating a dynamic, exciting, and effective fitness workout. This class combines fast and slow rhythms that tone and sculpt the body in an aerobic/fitness fashion to achieve a unique blended balance of cardio and muscle-toning movements through easy-to-follow steps. Movements target areas such as the legs, arms, core, abdominal, and the most important muscle in the body, the heart.

PE194 2 credits **Principles of Exercise Training and Conditioning**

Provides students with a solid foundation in the essentials of exercise science that apply to exercise programs of conditioning and resistance training. The core topics covered will be basic exercise physiology, biomechanics and applied kinesiology, nutrition and exercise performance, human anatomy, flexibility, functional assessments, client screening and injury prevention. Much of the course will be in the weight room setting. The American College of Sports Medicine (ACSM) text will be used to prepare students for pursuing a career in fitness training, coaching, personal training or continuing on to a four-year college. Students will receive both content knowledge through lecture and dialogue, and practical experience to prepare them to understand the principles of exercise training and fitness conditioning. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores; PE185D (may be taken concurrently); BI121 or BI231 recommended. Offered fall term.

PE199 Variable credit **Special Studies: Physical Education**

Offers selected topics of study in physical education through workshop and field study format.

PE264 2 credits **Fundamentals of Personal Training**

Provides students with a solid foundation in the basic principles and techniques for becoming a personal trainer. Covers physical fitness assessments including cardiovascular endurance, weight conditioning and strength training program design, joint flexibility, body composition, and other systems of conditioning. The core topics covered will be client screening, testing and evaluation, informed consent, data interpretation, exercise prescription, load training, flexibility, and advanced training for the apparently healthy population. Special populations of physically challenged, pregnant and postpartum women, and mature adults will also be topics of discussion. The American College of Sports Medicine texts will be used to prepare students for pursuing a nationally recognized personal trainer certification. Students will receive both content knowledge through lecture and dialogue, and practical experience in the weight room and health assessment settings to understand the fundamentals of fitness assessment and exercise prescription. Prerequisite: RD30 or RD90 and WR30 or WR90, or designated placement test scores, PE185D and PE194. Offered winter term.

PE280 Variable credit **Cooperative Work Experience/ Physical Education**

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program. Prerequisites: PE194; PE264 or HE259 (may be taken concurrently); and permission of instructor or department chair.

PE290 2 credits **Fitness Instructor**

Trains students in the skills needed to conduct a variety of group exercise classes. Course content includes the practical application of cardiovascular and neuromuscular exercise science, leadership and teaching skills, behavior modification and motivation, choreography and pattern development, class structure and components, and practical sessions. Course prepares students for the option of pursuing an American Council on Exercise, Group Fitness Instructor certification. RCC is a national testing center for the American Council on Exercise allowing students to easy access to the comprehensive exam. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores. Offered spring term.

PE291 2 credits **Red Cross Lifeguard Training**

Provides training for potential lifeguards in lifesaving skills in the event of an emergency. Includes a three-year Red Cross lifeguard training certification and a two-year CPR/AED professional rescuer certification with successful completion of the course. Through videos, group discussion, and both hands-on and pool practice, students will learn surveillance skills, patron rescue, first aid and CPR/AED. Prerequisites: Must be at least 16 years old and meet strong swimmer requirements. Offered spring term.

PE292 2 credits **Red Cross Water Safety Instructor**

Prepares individuals to teach various levels of swimming instruction. Prerequisites: Must be at least 16 years old and a strong swimmer.

PHYSICS

Lower Division Transfer Courses

PH201 5 credits **General Physics I w/Lab and Recitation**

Non-calculus based physics that deals with fundamental principles of physics from classical to modern theory. Sequence is for students who require an in-depth understanding and working knowledge of physics. Students must enroll in lecture, laboratory, and recitation sections. Prerequisites: MTH111 and WR115; MTH112 recommended. Offered fall term.

PH202 5 credits **General Physics II w/Lab and Recitation**

Non-calculus based physics that deals with fundamental principles of physics from classical to modern theory. Sequence is for students who require an in-depth understanding and

working knowledge of physics. Students must enroll in lecture, laboratory, and recitation sections. Prerequisites: MTH111 and WR115; MTH112 recommended. Offered winter term.

PH203 5 credits **General Physics III w/Lab and Recitation**

Non-calculus based physics that deals with fundamental principles of physics from classical to modern theory. Sequence is for students who require an in-depth understanding and working knowledge of physics. Students must enroll in lecture, laboratory, and recitation sections. Prerequisites: MTH111 and WR115; MTH112 recommended. Offered spring term.

PH211 5 credits **General Physics (Calculus Based) I w/Lab and Recitation**

For engineering and physics majors. Studies vectors, mechanics, dynamics, and analog to sound, heat, fluids, and oscillation, and an introduction to electricity and magnetism. Students must enroll in lecture, laboratory, and recitation sections. Prerequisite: MTH112. Corequisite: MTH251; MTH252 highly recommended. Offered fall term.

PH212 5 credits **General Physics (Calculus Based) II w/Lab and Recitation**

For engineering and physics majors. Studies vectors, mechanics, dynamics, and analog to sound, heat, fluids, and oscillation, and an introduction to electricity and magnetism. Students must enroll in lecture, laboratory, and recitation sections. Prerequisite: MTH112. Corequisite: MTH252; MTH253 highly recommended. Offered winter term.

PH213 5 credits **General Physics (Calculus Based) III w/Lab and Recitation**

For engineering and physics majors. Studies vectors, mechanics, dynamics, and analog to sound, heat, fluids, and oscillation, and an introduction to electricity and magnetism. Students must enroll in lecture, laboratory, and recitation sections. Prerequisite: MTH112. Corequisite: MTH253; MTH254 and MTH261 recommended. Offered spring term.

POLITICAL SCIENCE

Lower Division Transfer Courses

PS199 Variable credit **Special Studies: Political Science**

Explores special topics in political science using a seminar format.

PS201,202,203 3 credits each **U. S. Government I, II, III**

Provides a general investigation of the socio-political processes in the United States and includes an historical overview of American democracy and political culture, the Constitution and the road to ratification, federalism, civil liberties, and people and politics (PS201). Examines the concepts and principles of the American political system including federal, state, and local government structures, and other related systems (PS202). A general survey/overview of the political process at the state and local level with an emphasis on Oregon law, constitution, and current local political issues (PS203). Courses need not be taken in sequence. Prerequisite: BT113 or WR115 or designated placement test score. PS201 offered fall term, PS202 in winter term, and PS203 in spring term.

PS280 Variable credit Cooperative Work Experience/ Political Science

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program.

PRACTICAL NURSING

Career and Technical Courses

PN101,PN101C 11 credits Practical Nursing I

Covers the practical nurse's contributions to the nursing process and legal and ethical issues within the PN scope of practice. Practical nursing skills, pharmacology and medication administration, communication skills, growth and development across the life span, and selected medical-surgical content are covered. Clinical application occurs in the skills lab and a long-term care setting. Skills lab/clinical course is graded on a pass/no pass basis. Prerequisites: MTH65 or higher level math, CNA-1 course completion or OSBN CNA certification, BI121 and BI122 with lab (or BI231, BI232 and BI233 with labs), CPR, CS120 or documented computer proficiency, WR121, and acceptance into the Practical Nursing program (see this catalog for detailed information and September application deadline). Course may not transfer. Offered winter term.

PN102,PN102C 12 credits Practical Nursing II

Continues application of the nursing process and practical nursing scope of practice to content in selected medical-surgical areas including perioperative, cardiovascular, endocrine, respiratory, mental health, and gastrointestinal disorders. Within the organizing framework of the concepts of the individual, society, health, and the nursing process, an integrated approach is used that considers pathophysiology, diagnostic testing, fluid and electrolyte balance, nutrition, pharmacology, psychosocial and spiritual needs, and culture across the lifespan. Nursing care provided by the student in clinical situations takes place in long-term care and in the acute-care medical/surgical and perioperative settings, with specialty experiences. Clinical course is graded on a pass/no pass basis. Prerequisites: PN101 and PN101C. Course may not transfer. Offered spring term.

PN103,PN103C 12 credits Practical Nursing III

Continues the application of the nursing process and practical nursing scope specific to foundations of oncology, hematology, immune disorders, HIV, reproduction, maternity, pediatrics, orthopedics, neurological and renal/urinary. In addition, nursing leadership and trends in practical nursing are considered. Within the organizing framework of the concepts of the individual, society, health and the nursing process, an integrated approach is used that considers pathophysiology, diagnostic testing, fluid and electrolyte balance, nutrition, pharmacology, psychosocial and spiritual needs and culture across the life span. Nursing care provided by the student in clinical situations (PN103C) takes place primarily in long-term care settings with specialty experiences in the maternity and mental

health units of local hospitals. Clinical is graded on a pass/no pass basis. Prerequisites: PSY101 or BT101, PN102, and PN102C. Course may not transfer. Offered summer term.

PN104C 2 credits

Practical Nursing Leadership Clinical

Facilitates the transitional process from student practical nurse to beginning graduate practical nurse. By completing an individualized, concentrated clinical experience in the long-term care or other assigned setting, students will be able to focus on leadership skills demonstrating the ability to implement nursing actions that reinforce previous practical nursing didactic content within the organizing framework of the concepts of the individual, society, health and the nursing process. Nursing care provided by the student will take place primarily in the long-term care or other assigned setting, working with a clinical teaching associate (CTA). Clinical is graded on a pass/no pass basis. Prerequisites: Concurrent enrollment in PN103 and PN103C. Course may not transfer. Offered summer term.

PSYCHOLOGY

Lower Division Transfer Courses

PSY101 3 credits

Psychology of Human Relations

Focuses on the practical application of psychology in everyday situations. Topics include self-concept, emotions, needs, values, healthy relationships, interpersonal communications, and behavioral change. The course provides students an experiential opportunity to develop an understanding and awareness of themselves and others, and a variety of practical tools for the development of interpersonal skills. Emphasis is on becoming a more effective member of the human community. Prerequisite: RD30 or RD90 and WR30 or WR90, or designated placement test score.

PSY119 4 credits

Psychology of Personal Growth

Provides an opportunity for students to deepen and broaden their knowledge of theoretical psychology while gaining insights into their own behaviors and the behavior of others. Consists of small and large group exercises and individual writing assignments, augmented by lecture. Prerequisite: BT113 or WR115 or designated placement test score. Offered fall and winter terms.

PSY199 Variable credit

Special Studies: Psychology

Presents special topics of study in psychology through workshop, seminar, research, and/or independent study formats. Content varies according to department needs and demand.

PSY201 4 credits

General Psychology I

Provides students with the foundational knowledge required for further study in the field of psychology. It is designed to help students gain a historical perspective of the field of psychology; an understanding of the scientific method applied to human behavior, and knowledge of the physiology of human behavior including the brain functions, sensations and perception process. The course also explores states of consciousness, memory, learning theory, cognition, language and creativity, motivation, emotion and stress, and provides training in the application of study skills, critical thinking, and cross-cultural awareness. Prerequisite: BT113 or WR115 or designated placement test score.

PSY202 4 credits

General Psychology II

Continues the overview of the general psychology curriculum

begun in PSY201 and prepares students for continued study in more advanced psychology classes. This course is designed to help students gain an understanding of human development including personality testing, personality development and intelligence; psychopathology and current methods of treating psychopathology; social psychology; and human sexuality and gender development. PSY202 also provides training in the application of study skills, critical thinking, and cross-cultural awareness. Prerequisites: BT113 or WR115 or designated placement test score; PSY201 recommended.

PSY215 4 credits

Life Span Human Development

Provides an overview of human development explored from a variety of perspectives. The primary objective is to examine biological, socio-cultural, and psychological factors that influence each stage of the life cycle, from conception until death. Exploration focuses on life tasks and societal expectations, physical and cognitive changes, and personality development across the lifespan. Both normative and non-normative pathways are considered. The course provides a bridge between biological science and social science and is an essential component for students entering the fields of nursing and human services. Prerequisite: PSY201; BT113 or WR115 or designated placement test score.

PSY219 4 credits

Introduction to Abnormal Psychology

Introduces the psychology of abnormal behavior and its possible causes, along with an examination of the history and modern practice of mental health treatment, including legal issues such as insanity and civil commitment. Students will explore the nature of abnormality and examine social and cultural factors as well as specific disturbances in behavior, mood, thinking, and perception which have defined abnormality, past and present. Special problems of research with the clinical population and major theoretical models for assessment, diagnosis and treatment will also be studied. Specific topic areas include disorders of childhood and adolescence, anxiety, obsessive-compulsive and related disorders, disorders of trauma and stress, disorders featuring somatic symptoms, eating disorders, schizophrenia, and personality disorders. Prerequisites: BT113 or WR115 or designated placement test score; PSY201 and PSY202.

PSY228 4 credits

Introduction to Positive Psychology

Introduces students to theories and research in psychology that examine topics relevant to the nature of happiness and psychological well-being. Psychology has focused much of its efforts on the treatment of human problems. To balance this paradigm, positive psychology calls for research on what promotes human fulfillment and human potential. Its most basic assumption is that human goodness and excellence are as important as disorder and human flaw. Topics covered in will include the nature, history and future of positive psychology, research methods, authenticity, joy, happiness, positive thinking, emotional intelligence, intuition, character strengths, core values, virtues, talents, health and social justice. Prerequisite: BT114 or WR121 or designated placement test score. Offered fall, winter and spring terms.

PSY231 3 credits

Human Sexuality

Introduces the student to the many physiological, psychological, sociological, and cultural influences on sexual behavior. The course provides the foundation in both scientific and pragmatic terms to further one's understanding and acceptance of sexuality within the context and environment in which one lives. Emphasis is placed on knowledge, self-acceptance and tolerance of others' sexual expression. There will also be

a study of atypical sexual behavior, deviance, aggression and victimization. Prerequisite: BT113 or WR115 or designated placement test score. Offered fall, winter and spring terms.

PSY280 Variable credit Cooperative Work Experience/ Psychology

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program.

READING

Lower Division Transfer Courses (except where noted)

RD90 4 credits College Reading

Improves reading and vocabulary skills by developing specific reading strategies and analytical skills as well as by expanding basic background knowledge that will lead to proficiency in students' college coursework. Skills to be developed include comprehension, flexibility, critical thinking, graphic illustrations, and the use of library resources. Selections, which are excerpts from current college textbooks and a variety of sources, enable the student to further develop the background knowledge and vocabulary necessary to effectively read college-level material. The course also addresses work-related literacies such as creative and critical thinking, following written and oral instructions, collaboration, and communication skills. When taken with WR90, courses is equivalent to WR91. Course is graded on a pass/no pass basis. Previously offered as RD30. Prerequisite: Designated placement test score. Course does not transfer.

RD115 3 credits Speed Reading for College

Teaches an effective speedreading process. The goal is for students to improve reading rate, vocabulary and comprehension. It also develops skills needed to become a more intelligent reader and a more accomplished college level student. These skills include efficient reading habits such as speed studying and speed researching; recognition of writing structures of fiction and various types of non-fiction; and inferential and critical reading. Prerequisite: RD30 or RD90, designated placement test score, or college-level reading skills. Offered winter and summer terms.

RD116 3 credits College Vocabulary

Adds significantly to students' reading, writing, and speaking vocabularies, fosters an interest in words, and offers strategies for vocabulary development throughout life. Students will study word elements that hold the key to understanding English words. The vocabulary presented in this class will be practical, contextual, and relevant for all college students. Attention is given to application of spelling and vocabulary to college, personal success and future employment. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores. Offered fall and winter terms.

RD120 3 credits Critical Reading and Thinking

Develops students' ability to think logically, solve problems,

identify values, and understand various reasoning processes using a variety of sources. Students improve the quality of their reading and thinking by applying elements of reasoning and intellectual standards. In this skill-building course, students will critically evaluate complex issues from a variety of sources and develop lifelong critical reading and thinking skills. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores. Offered winter and summer terms.

RELIGION

Lower Division Transfer Courses

REL201 4 credits World Religions

Surveys major religions of the world, comparing histories, differences, and similarities. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. Prerequisites: RD30 or RD90 or designated placement test score; WR121 (may be taken concurrently). Offered in spring term.

REL243 4 credits Nature, Religion and Ecology

Explores how different religious traditions and the cultures influenced by them view nature and the place of humankind within the natural environment. Native, Asian, and Western traditions are examined, as are contemporary eco-spiritual thinkers and movements. Class discussion for the students to apply the material in current social and personal contexts will be an integral part of the course. Prerequisites: RD30 or RD90 or designated placement test score; WR121 (may be taken concurrently). Offered fall and winter terms.

SERVICE LEARNING

Career and Technical Courses

SRV101 1-6 credits Service Learning

Develops a personal understanding of civic engagement via direct service to a community-based organization and through critical reflection. Students may propose service projects of their own design or may choose from a list of available projects. Course emphasis is on participating in activities that address identified community needs while developing academic skills and self-awareness. Prerequisites: RD30 or RD90, WR30 or WR90, and permission of advisor.

SKILLS TRAINING

Career and Technical Courses

ST99 0 credit Skills Development

Provides hands-on training in basic skills and workplace behaviors needed for success in a particular occupation. Number of hours will vary depending on individual needs and type of occupation. Prerequisite: Permission of instructor.

ST99S 0 credit Skills Development Seminar

Provides instruction on developing self-confidence and meeting basic standards for workplace ethics. Number of hours will vary depending on the individual needs of the student. Course does not transfer. Prerequisite: Permission of instructor required.

SOCIOLOGY

Lower Division Transfer Courses

SOC199 Variable credit Special Studies: Sociology

Presents special topics of study in sociology through workshop, seminar, research, and/or independent study formats. Content varies according to department needs and demand.

SOC204 4 credits Introduction to Sociology

Surveys theories and findings of sociology, including culture, individuals and groups, socialization, stratification and social control. It is designed to acquaint students with the social forces that impact the lives of individuals. Close attention is paid to social class, gender, and race as they impact life experiences. Focus is primarily on U.S. and Western societies, with some cross-cultural comparisons. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. Prerequisite: BT113 or WR115 or designated placement test score.

SOC205 4 credits American Society

Examines the organization of various social institutions such as family, education, religion, politics, health care, criminal justice, media and economics, and analyzes how each are changing. Each social institution is examined in relation to how inequalities by social class, gender and race manifest, and how these inequalities are perpetuated. Social change and social movements are also studied. Fulfills cultural literacy requirement within the AAOT degree. Prerequisite: BT113 or WR115 or designated placement test score.

SOC211 3 credits Social Deviance and Social Control

Examines deviance and social control from a sociological perspective, showing how deviance is relative to cultural norms. Includes how deviant identities and subcultures are formed, and types of deviance that have a positive impact on society. Covers crime and punishment, white-collar crime, family violence, sexual variance, drug subcultures, cults, and social activism leading to positive social change. Prerequisite: BT113 or WR115 or designated placement test score; SOC204 recommended. Offered spring term.

SOC213 4 credits Race and Ethnicity in the U.S.

Examines the various social, political, economic and legal forces affecting diverse racial and ethnic groups in the U.S. This includes an analysis of American history, families, housing, education, employment and immigration patterns, and racial and ethnic interactions. Includes a focus on the intersection of race, gender and social class and on social movements to counter inequalities. Fulfills cultural literacy requirement within the AAOT degree. Prerequisite: BT113 or WR115 or designated placement test score.

SOC218 4 credits Sociology of Gender

Introduces sociological perspectives on gender. Central themes include the social construction of gender, socialization, changes and continuities in gender norms and identities, the body, globalization and the connections between gender, power and inequality. Emphasizes the ways in which gender intersects with race, social class and sexual orientation. Focuses primarily on U.S. and Western societies with some cross-cultural material. Fulfills cultural literacy requirement within the AAOT degree. Prerequisite: BT113 or WR115 or designated placement test score. Offered fall and winter terms.

SOC221 4 credits

Juvenile Delinquency

Presents a philosophical, historical, and practical survey of juvenile justice administration in the United States. In the context of an interdisciplinary framework, theories, factors, and characteristics of delinquency will be presented and treatment and delinquency prevention programs will be surveyed. Dual numbered as CJ201. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test score.

SOC225 4 credits

Social Problems

Introduces students to various social problems in the U.S. from a sociological and global perspective. Some of the social problems covered may include social inequality, food, environmental and health issues, crime and deviance, problems in the family and poverty. A focus on solutions will include a study of public policies employed by various societies. Major theories of sociology are introduced and applied. Prerequisite: BT113 or WR115 or designated placement test score. Offered spring and summer terms.

SOC228 4 credits

Environment and Society

Examines the relationship between societies and the environment including how cultural, social, economic and political forces have impacted the earth and natural environment. Explores the causes and consequences of topics such as population growth, consumerism, global warming, pollution and environmental racism and classism. An emphasis will be placed on the study of social movements, cultures and public policies that advance sustainability. The focus is primarily on U.S. and Western societies, with some cross-cultural material. Prerequisite: BT113 or WR115 or designated placement test score. Offered winter and spring terms.

SOC230 4 credits

Introduction to Gerontology

Introduces students to the field of gerontology and explores the relationships between aging individuals and society. Prerequisite: BT113 or WR115 or designated placement test score. Offered fall and spring terms.

SOC235 4 credits

The Chicano/Latino Historical Experience

Examines the diversity that resides within the Chicano, Mexicano, Latino, Hispanic and Caribbean cultural experience in the Americas from pre-Columbian times to the present. The curriculum covers pre-Columbian heritage, Spanish colonization, American conquest in the Mexican-American War and the Spanish American War, the Mexicans' role in American labor, the bracero program, and the Chicano movement. The class will provide a framework for understanding the ways in which distinctive social and cultural patterns arose, thus bringing awareness of contemporary expressions of identity and their historical origins. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. Prerequisite: BT113 or WR115 or designated placement test score. Offered winter term.

SOC237 4 credits

Communication, Relationships and Technology

Introduces students to the personal and social perspectives of communicating through technology and focuses on the implications of computer-mediated communication. Current themes and theories that focus on the use of technology to communicate within relationships and to gain access to resources such as health care and education are introduced and applied. A variety of topics will be explored, including online

relationships, social interactions, the workplace, Web-based instruction, impression management, therapy and health care. Concepts such as ethics, confidentiality, accessibility, identity, trust, and global implications will be explored. Prerequisites: BT113 or WR115 or designated placement test score. Offered fall and spring terms.

SOC243 4 credits

Drugs, Crime and Addiction

Introduce students to the dynamics of drug and alcohol addiction and the social and legal issues of drug abuse. Examines the political considerations behind contemporary drug enforcement policy. Explores the historical origins of the illegal drug trade. Dual numbered as CJ243. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores; SP111 and WR121 recommended.

SOC244 4 credits

Introduction to Criminology

Offers an interdisciplinary perspective of crime and criminal behavior in relation to the criminal justice system. Theoretical approaches to explaining crime, criminal statistics, typologies, and victimology will be assessed. The influence of crime theory on public policy will be explored. Dual numbered as CJ101. Prerequisites: RD30 or RD90 and BT113 or WR115, or designated placement test scores.

SOC280 Variable credit

Cooperative Work Experience/ Sociology

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program.

SPANISH

Lower Division Transfer Courses

SPAN101 4 credits

First Year Spanish I

Introduces basic skills in Spanish in speaking, writing, reading, and aural comprehension. Special attention is given to developing cultural awareness. The sequence enables students to reach at least novice high proficiency as defined by the guidelines of the American Council on the Teaching of Foreign Languages (ACTFL). Courses are not suitable for heritage speakers. Prerequisites: RD30 or RD90 or designated placement test score; BT114 or WR121 (may be taken concurrently). Courses must be taken in sequence. Offered fall and winter terms.

SPAN102 4 credits

First Year Spanish II

Introduces basic skills in Spanish in speaking, writing, reading, and aural comprehension. Special attention is given to developing cultural awareness. The sequence enables students to reach at least novice high proficiency as defined by the guidelines of the American Council on the Teaching of Foreign Languages (ACTFL). Courses are not suitable for heritage speakers. Prerequisites: RD30 or RD90 or designated placement test score; BT114 or WR121 (may be taken concurrently). Courses must be taken in sequence. Offered winter and spring terms.

SPAN103 4 credits

First Year Spanish III

Introduces basic skills in Spanish in speaking, writing, reading, and aural comprehension. Special attention is given to developing cultural awareness. The sequence enables students to reach at least novice high proficiency as defined by the guidelines of the American Council on the Teaching of Foreign Languages (ACTFL). Courses are not suitable for heritage speakers. Prerequisites: RD30 or RD90, or designated placement test score; BT114 or WR121 (may be taken concurrently). Courses must be taken in sequence. Offered in spring and summer terms.

SPAN111 1-3 credits

Spanish Conversation

Reviews and increases Spanish listening and speaking skills and cultural understanding. Students will demonstrate these skills corresponding to the novice-mid to novice high-level of the ACTFL (American Council on the Teaching of Foreign Languages) proficiency scale in the areas of speaking, listening, and culture. Emphasizes cultural values, fosters a sense of community and collaboration, improves communication skills in regard to the global community as well as the increasingly diverse local community. It includes reading, writing and grammar only when incidental to the focus on conversation. Prerequisite: SPAN102 or permission of instructor; RD30 or RD90 or designated placement test score; BT114 or WR121 (may be taken concurrently).

SPAN201 4 credits

Second Year Spanish I

Reinforces, synthesizes, and builds on the basic skills acquired in first-year Spanish in speaking, writing, reading, and aural comprehension. Special attention is given to developing cultural awareness. Students are required to communicate in Spanish. Materials include literary and cultural texts, audio exercises, films, short videos, music, and contextualized exercises in structure. The sequence enables students to reach at least intermediate-mid proficiency as defined by the guidelines of the American Council on the Teaching of Foreign Languages (ACTFL). Prerequisites: RD30 or RD90 or designated placement test score; WR121 or BT114 (may be taken concurrently); two years of high school Spanish, successful completion of SPAN103, or equivalent Spanish experience with instructor permission. Courses must be taken in sequence. Offered fall term.

SPAN202 4 credits

Second Year Spanish II

Reinforces, synthesizes, and builds on the basic skills acquired in first-year Spanish in speaking, writing, reading, and aural comprehension. Special attention is given to developing cultural awareness. Students are required to communicate in Spanish. Materials include literary and cultural texts, audio exercises, films, short videos, music, and contextualized exercises in structure. The sequence enables students to reach at least intermediate-mid proficiency as defined by the guidelines of the American Council on the Teaching of Foreign Languages (ACTFL). Prerequisites: RD30 or RD90 or designated placement test score; WR121 or BT114 (may be taken concurrently); two years of high school Spanish, successful completion of SPAN103, or equivalent Spanish experience with instructor permission. Courses must be taken in sequence. Offered winter term.

SPAN203 4 credits

Second Year Spanish III

Reinforces, synthesizes, and builds on the basic skills acquired in first-year Spanish in speaking, writing, reading, and aural comprehension. Special attention is given to developing cultural awareness. Students are required to communicate in

Spanish. Materials include literary and cultural texts, audio exercises, films, short videos, music, and contextualized exercises in structure. The sequence enables students to reach at least intermediate-mid proficiency as defined by the guidelines of the American Council on the Teaching of Foreign Languages (ACTFL). Prerequisites: RD30 or RD90 or designated placement test score; WR121 or BT114 (may be taken concurrently); two years of high school Spanish, successful completion of SPAN103, or equivalent Spanish experience with instructor permission. Courses must be taken in sequence. Offered spring term.

SPEECH

Lower Division Transfer Courses

SP100 3 credits

Basic Communication

Offers a basic overview of the communication discipline and emphasizes the skills development of best communication practices in different contexts. Topics to be covered include intra- and interpersonal communication, small group processes, non-verbal communication, culture, and public expression. Prerequisites: RD30, RD90, or designated placement test score; WR115 (may be taken concurrently).

SP111 4 credits

Fundamentals of Public Speaking

Introduces public speaking that is designed to help students overcome nervousness when speaking before a group, learn the steps involved in speech preparation and delivery, and improve skills in analyzing and evaluating the speeches of others. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently).

SP115 4 credits

Introduction to Intercultural Communication

Provides an overview of communication from an intercultural perspective. Students will learn how culture impacts social identities, communication behaviors, and meaning. Fulfills cultural literacy requirement within the Associate of Arts Oregon Transfer degree. Prerequisites: RD30, RD90, or designated placement test score; WR121 or BT114 (may be taken concurrently).

SP218 4 credits

Interpersonal Communication

Examines the role of interpersonal communication in human relationships. The focus is on a relational view of communication – one that explores how relationships are created, negotiated, maintained and terminated. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently).

SP280 Variable credit

Cooperative Work Experience/ Speech

Provides work-related experience and studies in selected occupational environments.

STERILE PROCESSING TECHNICIAN

Career and Technical Courses

SPT101 4 credits

Sterile Processing I

Introduces the basic concepts of the practice of sterile processing and the sterile processing technician's role, the language of sterile processing, the types and use of instruments in the surgical setting, and basic concepts of anatomy, physiology,

microbiology, and infection prevention that form the building blocks for advanced study in sterile processing. Prerequisite: Acceptance into the Sterile Processing Technician program. Offered fall term.

SPT102 4 credits

Sterile Processing II

Builds on material learned in Sterile Processing I. Focus is on the sterile processing technician's role and the behaviors expected of a professional sterile processing technician. Prerequisite: SPT101. Offered winter term.

SPT123 2 credits

Legal and Ethical Issues for Sterile Processing Technicians

Exposes students to a variety of legal and ethical dilemmas, helping students become more prudent and confident sterile processing technicians. Classroom content includes the legal system, the legal rights that define relationships between individuals, quality assurance, office protocols and patient records, and legal issues that affect employment. Prerequisite: Acceptance into the Sterile Processing Technician program. Offered fall term.

SPT170 12 credits

Sterile Processing Technician Practicum and Seminar

Provides hands-on clinical experience. Students work an average of 36 hours per week in a host site as part of the sterile processing team and experience first-hand the various operations within a variety of settings where sterile processing is done. Duties will be assigned according to students' skill level and the work needs of the host site. Students will participate in three seminars during the term. Prerequisites: Acceptance into the Sterile Processing Technician cohort and successful completion of all second term courses. Offered spring term.

THEATER ARTS

Lower Division Transfer Courses

TA141 4 credits

Fundamentals of Acting I

Introduces methods and techniques of acting as an art form. Scene work is included and performance is a part of advanced classes.

TA142 4 credits

Fundamentals of Acting II

Introduces methods and techniques of acting as an art form. Scene work is included and performance is a part of advanced classes.

TA143 4 credits

Fundamentals of Acting III

Introduces methods and techniques of acting as an art form. Scene work is included and performance is a part of advanced classes.

TA144 4 credits

Improvitational Theater I

Acquaints students with improvisation through exercises, theater games, and impromptu scenes.

TA145 4 credits

Improvitational Theater II

Acquaints students with improvisation through exercises, theater games, and impromptu scenes. Instructor permission is needed to register.

TA146 4 credits

Improvitational Theater III

Acquaints students with improvisation through exercises, theater games, and impromptu scenes. Instructor permission is needed to register.

TA153 4 credits

Theater Rehearsal and Performance

Provides experience in rehearsing and performing plays. Course may be repeated for a maximum of 12 credits.

TA190 1-3 credits

Theater Practicum

Allows students to receive credit for working on college theater productions. Students will be required to participate in a formal theater production in one or more of the following areas: acting, stage or house management, technical theater, directing, marketing, costuming and/or make-up. Participation during the theater event is required for credit. Course may be repeated up to 6 credits. Prerequisite: permission of instructor.

TA199 Variable credit

Special Studies: Theater Arts

Presents selected topics of study in theater arts including theater for the deaf, communication through drama, children's theater, and directing.

TA280 Variable credit

Cooperative Work Experience/ Theater

Cooperative work experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program.

TRANSPORTATION AND TRUCK DRIVING

Career and Technical Courses

TD101 2 credits

Introduction to Commercial Truck Driver Training

Provides an overview of the transportation industry and the knowledge and skills necessary to successfully pass the Oregon DMV General Knowledge and Combination Vehicle tests. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores. Students must also pass the Department of Transportation (DOT) physical and drug screen and reach their 18th birthday before the first day of class.

TD103 4 credits

Introduction to Commercial Truck Driver Training (Class B License)

Provides an overview of the transportation industry and the practical knowledge and skills necessary to successfully pass the Oregon DMV General Knowledge and Combination Vehicle tests for a Class B license. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores. Offered as needed.

TD110 3 credits

Commercial Truck Driver Training Advanced Topics

Provides students with the knowledge and skills necessary to successfully pass Oregon Department of Motor Vehicles endorsement tests including air brakes, doubles/triples, tanker, and hazardous materials. Students will also become familiar with commercial vehicle basics, which include driver qualifications, driver health, hours of service, and whistle blower protection as required by the Federal Motor Carriers Safety Administration (FMCSA). Additionally, students will be introduced to hours of service regulations; atlas (map) reading; log book notations; tractor/trailer systems; double clutch shifting procedures; coupling/uncoupling; tire chaining; pre-trip, in-trip and post-trip inspections; defensive driving techniques; driver nutrition; load management and proper securing methods; and accident reporting. Prerequisites: TD101 or current Oregon Class A commercial driver's license permit; current Department of Transportation (DOT) medical card; recent (less than 30 days old) negative DOT drug screen; and completed and accepted course application. Students must be 18 years old prior to the first day of class.

TD120 7 credits

Commercial Truck Driver Training Practical Applications

Provides students with the practical knowledge and skills necessary to successfully pass the Oregon Department of Motor Vehicles (DMV) Commercial Motor Vehicle (CMV) Class A license skills test (pre-trip inspection, brakes leak test, straight and 90 degree backing, and road test). Students will also safely demonstrate competency in all tractor/trailer maneuvers including coupling/uncoupling; throttle control; braking systems; backing maneuvers; right and left hand turns; proper shifting techniques; space management; proper use of mirrors; hazards perception; rural, metro, highway, mountain and night driving; and OSHA forklift safety. Prerequisites: TD101 and TD110.

WELDING

Career and Technical Courses

WLD101 3 credits

Welding Fundamentals I

Introduces basic theory of oxy/fuel cutting/welding, shielded metal arc welding, and gas metal arc welding with emphasis on safety. Includes basic skill development in preparation of metal, welding, and cutting

WLD102 3 credits

Welding Fundamentals II

Continues study in oxy/fuel cutting/welding, shielded metal arc welding, and gas metal arc welding with emphasis on safety.

WLD104 3 credits

Blueprint Reading - Mechanical

Introduces blueprints using multi-view projection, sectional views, auxiliary views, title blocks, and drawing formats which are the basis for all graphical communication in the manufacturing industry today. Knowledge of the techniques used on blueprints is necessary in the industry whenever descriptions of size, shape, and arrangement are used to produce, service, or sell a product. This course also introduces students to blueprint and drawing techniques which will be built upon with additional modules in the program. Dual numbered as MET105. Prerequisite: MTH63 recommended. Offered fall, winter and spring terms.

WLD111 6 credits

Technology of Industrial Welding I

Covers the fundamentals of welding as required by the metal fabrication industry. Provides extensive hands-on training in shielded metal arc welding (SMAW), oxygen/acetylene, and plasma cutting of ferrous metals. Also develops skills needed for American Welding Society-based (AWS) certifications and employment in the welding/fabrication industry.

WLD111D 6 credits

Technology for Industrial Welding for Diesel

Covers the fundamentals of welding required by the metal fabrication industry. Diesel students will be introduced to the principles of electric and gas welding and cutting.

WLD111M 6 credits

Technology of Industrial Welding for Manufacturing

Covers the fundamentals of welding required by the metal fabrication industry. Manufacturing students will be introduced to the principles of electric and gas welding and cutting.

WLD112 6 credits

Technology of Industrial Welding II

Provides students with further instruction in shielded metal arc welding (SMAW) in the vertical and overhead positions. Students will also be introduced to gas metal arc welding (GMAW) processes on mild steel. Fitting joints to AWS D1.1 specifications will also be introduced at this time. Prerequisite: WLD111 or permission of instructor.

WLD113 6 credits

Technology of Industrial Welding III

Allows students to work towards mastery of gas metal arc welding (GMAW) and flux cored arc welding (FCAW) on both ferrous and non-ferrous materials in all positions. OR-OSHA-based safety training and non-ferrous alloy identification complete the course. Prerequisite: WLD111 and WLD112 or permission of instructor.

WLD121 5 credits

Fabrication and Repair Practices I

Deals with the fundamentals of welding fabrication and repair practices. Basic procedures of planning, sketching, cost evaluation, ordering, layout, metal preparation, part fabrication, tack-up, and final welding will be introduced and applied. Also introduces basic machine shop practices. Prerequisites: WLD111 and MET101; WLD140 (may be taken concurrently). Offered winter term.

WLD122 5 credits

Fabrication and Repair Practices II

The second of two fabrication and repair courses, builds on skills developed in WLD121 and provides an overview of the various fabrication and repair practices used in the steel fabrication industry. Safety in welding and fabrication is emphasized. The course is based on the American Welding Society's entry-level requirements (AWS EG2.0 and AWS QC10) utilizing the instructor's experience, and in accordance with the American Welding Society AWS D1.1 Structural Welding Code – Steel. Students receive instruction in fit-up and alignment of parts to assemble various weldments and pipe joints, and the basic procedures of planning, sketching, cost evaluation, ordering, layout, metal preparation, part fabrication, tack-up, and final welding will be introduced and applied. Advanced shop math, distortion control, and how to use squares, protractors, levels, clamps and string lines used in the fit-up process are included. Prerequisites: WLD111 and MET101.

WLD160 1 credit

AWS Certification Seminar: Plate

Covers the definition, application and interpretation of the American Welding Society (AWS) Structural Welding Code D1.1. Upon completion of this class students are eligible to take the AWS practical FCAW Unlimited Tests. If passed successfully, students will be awarded the AWS Unlimited G3 and G4 welding certification. Prerequisites: WLD 112 with "C" or better, completion of all program prerequisites, or instructor approval. Offered infrequently.

WLD211 6 credits

Technology of Industrial Welding IV

Covers the advanced techniques in welding mild steel, stainless steel, aluminum, and exotic metals using the flux cored arc welding (FCAW) and gas metal arc welding (GMAW) processes. Includes flux cored and solid wire with machine and spool guns. Also advances skills needed for American Welding Society certification and employment in the welding/fabrication industry. Prerequisite: WLD111, WLD112, and WLD113 or permission of instructor.

WLD212 6 credits

Technology of Industrial Welding V

Covers advanced techniques in welding mild steel, stainless steel, aluminum, and exotic metals using the gas tungsten arc welding (GTAW) process. Also advances skills needed for American Welding Society certification and employment in the welding/fabrication industry. Prerequisite: WLD111, WLD112, WLD113, and WLD211 or permission of instructor.

WLD213 6 credits

Technology of Industrial Welding VI

Focuses on welding large and small diameter, ferrous and non-ferrous pipe using the SMAW, GMAW, and GTAW welding processes. Includes pattern development, machine and manual oxyacetylene cutting, plasma cutting, layout, fit-up, inspection, and testing techniques. Also advances skills needed for American Welding Society (AWS) and American Society of Mechanical Engineers (ASME) certifications and employment in the welding/fabrication industry. Prerequisite: WLD212 or permission of instructor.

WLD220 3 credits

Machine Tool Maintenance and Repair

Focuses on troubleshooting problems commonly encountered in welding and fabricating equipment. Students will learn basic electrical principles and apply them to simple repair tasks on welding power sources. Removal and replacement of mechanical components on welding equipment and shop equipment (band saws, shears, drill presses, etc.) will round out the students' ability to function independently in the shop setting. Prerequisites: MTH60, BT114 or WR121, and WLD113. Offered infrequently.

WLD221 3 credits

Welding Codes, Procedures and Inspections

Studies the differences between various welding codes e.g., American Welding Society D1.1 Structural Steel, ASME Section IX Power Piping, API Pipeline, and others. Focuses on welding procedure specification (WPS), procedure qualification record (PQR), and welder qualification record (WQR). Covers visual inspection, destructive, and non-destructive testing of welds in accordance with the American Welding Society D1.1 and D1.4 welding codes. Prerequisites: BT113 or WR115 and MTH20 or higher level math. Offered fall term.

WLD225 3 credits

Industrial Metallurgy

Introduces the effects welding and its related processes have on the basic ferrous and non-ferrous metals students will encounter in the field. Students will develop an understanding of basic metal production, alloying, heat treating and material identification systems. Prerequisites: MTH60 and WLD113. Offered spring term.

WLD230 4 credits

Introduction to Applied Motion

Introduces industrial hydraulics pneumatics and basic drive systems. Students will learn hydraulic and pneumatic principles, basic system design, and interpretation of schematics. They will develop a basic understanding of power transmission systems including pulley ratios, chain and sprocket selection, bearing types, and reducers. Prerequisites: RD30 or RD90, BT113 or WR115, and MTH60 or MTH63 or designated placement test scores. Offered fall and spring terms.

WLD250 Variable credit

Selected Topics in Welding

Focuses on specific areas of welding to further students' needs for advancement in their jobs or desire to further their skills in a specific area of welding or fabrication. Provides extensive hands-on training using a specific welding process on ferrous and non-ferrous metals. Prerequisite: Permission of instructor.

WLD250P 3 credits

Special Studies: CNC Plasma Cutting

Introduces students to the basics of CNC plasma cutting. Participants will learn operation and set-up procedures for CNC plasma as well as geometry creation and programming. This course is recommended for anyone interested in CNC plasma cutting for industry applications or artwork. Previously offered as MFG199P. Prerequisites: MTH63 or higher level math, WLD112; MFG140 (recommended).

WLD260 1 credit

AWS Certification Seminar: Pipe

Covers the definition, application and interpretation of the American Welding Society (AWS) Structural Welding Code D1.1. Upon completion of this class students are eligible to take the AWS practical FCAW, GTAW and/or SMAW Unlimited Tests. If passed successfully, students will be awarded the AWS Unlimited G6 welding certification. Prerequisites: WLD112 with "C" or better, completion of all program prerequisites, or instructor approval. Offered infrequently.

WLD280 Variable credit

Cooperative Work Experience/ Welding

Cooperative Work Experience is an educational program that enables students to receive academic credit for on-the-job, experiential learning based on skills acquired in their programs. Together, the instructor, employer, and student establish learning objectives that specify the significant and appropriate learning which is expected to result from the work experience. This course offers a career-related experience for students working for an approved employer. As a capstone course, it should be completed within the last two terms of a certificate or degree program. Prerequisite: Permission of instructor.

WORKFORCE TRAINING

.412 0 credits

Adult Driver Education

Provides behind-the-wheel instruction for adult drivers and prepares them to perform driving tasks in accordance with the standards of the Department of Motor Vehicles. Course is graded on a pass/no pass basis.

.499 0 credits

Driver and Traffic Safety Education

Driver education students will learn to be safe, efficient drivers in today's driving environment. Special emphasis is on the decision-making process, development of defensive driving skills, and the establishment of a responsible approach to driving. Course is graded on a pass/no pass basis. Prerequisite: Students must have one of these Oregon DMV documents: 482.160 special permit for persons over the age of 14; 482.161 instructor or beginner's permit for those 15 or older; 482.162 30-day temporary permit issued by Salem DMV to prepare an operator for a special test.

.601 0 credits

Foreign Language

Introduces beginners to basic vocabulary and conversational skills in a variety of languages including French, Italian and Spanish.

.659 0 credits

Retirement Planning

Students will learn investment basics to make good financial decisions. Blends financial education with life planning to help build wealth, align money and values, and achieve retirement lifestyle goals.

.661 0 credits

Neighborhood Leadership Academy

Increases communication, cooperation with others, and self-awareness around issues of civic engagement and effective communication/enhanced dialogue in personal, community, school and work settings. This course emphasizes leadership, facilitation, networking, resource development, community assessment and coordination, as well as project planning.

.701 0 credits

Computer Applications

Provides hands-on training in a variety of computer applications.

.703 0 credits

Welding

Covers the safe use of basic welding processes including mig, stick welding, oxyacetylene welding and cutting for the workplace. Geared to individuals wanting to improve their welding skills.

.779 0 credits

Volunteer Training

Explores the skills needed for helping others as community volunteers.

.783 0 credits

Group Development

Examines techniques for working effectively in groups with emphasis on communication skills, interpersonal relationships, and group discussions. Provides students with a forum to discuss the challenges of balancing relationships, school, and work.

.794 0 credits

Home Buying

Learn about the basics of choosing and qualifying for a new home. Covers mortgages, closing costs and insurance.

.850 0 credits

Physical Fitness/Health

Provides physical fitness classes and various consumer health topics that encourage and promote a healthier lifestyle.

.902 0 credits

Adult Driver Education

Offers eight to 12 hours of behind-the-wheel instruction for adult drivers and prepares them to perform driving tasks in accordance with the standards of the Department of Motor Vehicles. Course is graded on a pass/no pass basis.

.903 0 credits

Weight Equipment Use and Safety

Prepares and encourages students and staff members to begin a physical conditioning program to maintain lifelong health. Emphasizes proper and safe warm-up, stretching, aerobic, and weight training equipment techniques.

9.003 .9 continuing education units

Workforce Retention Skills

Provides general workforce skills such as resume writing and cover letters; preparing for the job search process; giving the best answers to common interview questions; job retention and advancement; workplace expectations, office politics and successful communication strategies.

9.006 Variable continuing education units

Staff and Program Development

Provides a forum for providing ongoing staff development training in a variety of subjects.

9.016 1 continuing education unit

Art Workshop for Professionals

Explores various techniques in a variety of media to enhance the skills of professional artists. Skills in preparing portfolios for the new medium, marketing and presentation standards, and strategies for purchasing specific materials and supplies are included.

9.019 .6 continuing education units

Traffic Control Flagger Certification

Provides necessary skills and knowledge in the fundamental principles of traffic control and safety in the work zone for work crews. Promotes the safety requirements for flaggers controlling traffic in a work zone and shows how to establish proper warning and traffic control of motorists for workers' safety. Prerequisite: Employment in construction road building or public utilities company and all governmental entities where flaggers are used to control traffic along the shoulder or on roadways.

9.025 1 continuing education unit

Commercial Driver License Seminar

Provides individuals the opportunity to upgrade skills to pass the Oregon Department of Motor Vehicles (DMV) Class A or B written and drive test. Topics covered include introduction to systems, federal and state regulations, and pre-trip inspections. A variety of driving conditions, gear control, operation safety, stopping procedures, and off-tracking will be covered. Students will have the opportunity to operate tractor/trailers on and off the road. Students must have a valid Oregon Class C license, Oregon CDL permit, current DOT physical with medical card, and employment requiring CDL to meet employer job requirements of career advancement.

9.035 1 continuing education unit

Safety in the Workplace

Provides training for supervisors to direct safety and accident prevention activities, and empowers workers to get involved in workplace safety and accept responsibility for their own actions.

9.037 Variable continuing education units

Oregon Safety Training

Occupational safety and health training for employers and employees are offered in seminar formats throughout the year. Topics include lockout-tagout, fall protection, hazard communication, and excavation safety. Prerequisite: Employment in business or industry that requires employee safety training.

9.050 1.6 continuing education units **Small Engine Maintenance**

Covers common troubleshooting and maintenance requirements of two- and four-stroke gas engines. Emphasis is on equipment designed for commercial use where service schedules and troubleshooting are a daily part of operation. Prerequisite: Employment in landscape or other fields requiring use of two- and four-stroke engines.

9.131 4 continuing education units **Electrical Supervisor Exam Preparation**

An in-depth look at the National Electrical Code (NEC) 2005 edition. The Oregon 2005 Specialty Code will be discussed as it applies to each article of the NEC 2005. Covers all pertinent material in preparation for taking the Oregon electrical supervisor's exam. Upon completion, participants should be prepared to take the examination.

9.132 3.6 continuing education units **Supervisor Training Topics**

Provides updated information that effects the everyday operation of a construction project. Topics include safety, technology, supervisory skills, estimating and contracting techniques, legal requirements, and equipment operation. Prerequisites: Employment as a contractor, field supervisor, estimator, safety director, project manager, general construction contractor, trade worker or involved in some way with the building trades.

9.133 2 continuing education units **Oregon CCB Contractor Education**

Designed and approved by the Oregon CCB to meet the educational requirements for Oregon contractor licensure. The goal is to educate potential contractors in areas that will help them obtain Oregon CCB registration and allow existing Oregon licensed contractors to receive the Oregon-mandated education for license renewal. An additional goal is to allow contractors to make intelligent business decisions that lead to business profits.

9.134 .8 continuing education units **Electrical Exam Preparation**

Reviews electrical code, procedures and applications necessary to function as a licensed electrician in the state of Oregon. Topics vary and may include branch circuits, conductors, math and theory, motors, grounding, general calculations, residential wiring applications, special conditions, etc.

9.136 4 continuing education units **Limited Maintenance Electrician (LME) Update**

Prepares individuals to pass the limited maintenance electrician exam. Covers National Electrical Code articles appropriate to the LME license; Oregon statutes, administrative rules, and electrical specialty code; the basics of electricity; Ohm's Law, voltage drop calculations, horsepower/ampere calculations; and safety procedures.

9.137 3.6 continuing education units **Limited Energy Technician Update**

Meets requirements established by the Oregon legislature to revamp all limited energy licenses. Prerequisite: Students must hold an A or B Restricted Energy Technician's (RETs) level license.

9.139 1.6 continuing education units **Code Update**

Provides updates on code changes and requirements for plumbers, electricians, millwrights, and heating/air conditioning servicers/installers. Covers technical requirement changes, codebook layout/fast-finder assistance, material usage, new legislation, and safety and job specifications.

9.140 1.6 continuing education units **Code Related Update for Electricians**

Updates current field topics needed by individuals working in the structural, mechanical, electrical, and/or architectural. Applies technical knowledge and skills to maximize efficiency. Topics include understanding mathematical principles for electrical calculations; plan review; residential and industrial installations; building renovations and remodeling; impacts of 2005 NEC changes; demonstration of new installation techniques; principles of troubleshooting; new technology in the industry; and basic principles of artificial lighting design. Prerequisite: Concurrent enrollment in EET101.

9.160 .5 continuing education unit **Forklift Operator Training**

Provides the skills necessary for forklift operators to carry out the requirements of moving large and heavy materials from one location to another in a safe manner with a forklift. OSHA approved. Prerequisites: Employment in a food processing or manufacturing operation requiring skill in materials handling by using a lift truck (forklift) or past experience that provides evidence of good mechanical skills.

9.161 1 continuing education unit **Hydraulic Crane Truck Operator Training**

Provides the skills necessary for an operator to carry out the requirements of moving large and heavy materials with a mobile crane from one location to another in a safe manner. Covers vehicle inspection and operator responsibilities, hand signal communications, power line awareness, and rigging and load considerations. Prerequisites: Employment in an industrial or manufacturing operation requiring skill in materials handling by using a hydraulic crane truck (boom truck) or past experience that provides evidence of good mechanical skills.

9.251 5.4 continuing education units **Entrepreneurship Management**

Integrates real-world experience with a highly-engaged classroom environment. The goal is to enable student entrepreneurs to optimize the successful launch and ongoing operations of a business. The learning experience is designed for an array of students ranging from participants who may have a business idea and want to learn about the practical aspects of starting a business, to those who intend to start and run their own businesses, as well as potential participants who are already operating a business, but need assistance with various aspects. The curriculum entails a variety of business classes that will be taught in an environment that takes students from the "idea" stage to "concept/product launch" stage and beyond.

9.252 Variable continuing education units **International Trade**

Focuses on how to establish or expand markets globally through formal courses as well as free business counseling.

9.253 Variable continuing education units **Business Forums**

Covers various business-related topics to help small business owners and their employees be successful.

9.254 Variable continuing education units **Business Planning for Success**

Introduces business plans to business owners to help them understand why they need a business plan, how to develop a business plan, and how to use a business plan for business success. The key element of the course is to increase the chances of business success through business planning, managing and growth strategies.

9.257 1.2 continuing education units **Using Social Media in Your Business**

Trains business owners and managers in the use of social media such as Facebook, Instagram and Twitter, and enables them to evaluate a variety of social media forms to use as marketing tools for their businesses. Also addresses the value of a social media marketing plan to be successful.

9.258 .8 continuing education credits **Using Facebook for Business**

Helps business owners and managers evaluate Facebook as a marketing tool for their businesses and what is needed to maintain a successful page. Provides the steps to create a Facebook business page, manage content, interface navigation, and guidelines about content, posts, conflict/negative feedback resolution. Demonstrates techniques to manage content including how to add photos, graphics, videos, links, and create coupons, special offers, and other techniques to attract and engage customers.

9.259 .6 continuing education units **Marketing Strategies**

Enables business owners and managers to successfully market and advertise a business. Includes information on market research, mission statements, marketing plans, advertising, creating a business image, and gaining publicity.

9.262 Variable continuing education units **Small Business Management A**

Provides instruction and counseling in business management for small business owners. Consists of monthly class meetings and confidential counseling sessions at the business site. Class participation is limited to non-competing businesses.

9.263 Variable continuing education units **Small Business Management B**

Continues instruction and counseling in business management for small business owners. Consists of monthly class meetings and confidential counseling sessions at the business site. Class participation is limited to non-competing businesses. Prerequisite: 9.262.

9.274 1.2 continuing education units **Providing Outstanding Customer Service**

Assists participants in identifying internal and external customers and how to deal with them effectively to improve productivity, relations, and the bottom line through the basic rules involved in good customer service. May include telephone skills as well.

9.275 2 continuing education units **Retail Sales and Customer Service**

Prepares individuals for continuing employment in retail sales.

Topics covered include communication in the workplace, worker ethics, handling money, merchandising, safety, and security and loss prevention. Prerequisite: Employment or interest in becoming employed in a retail sales field.

9.276 .4 continuing education units Selling and Presentation Skills

Small business owners will learn about closing sales, growing a business and becoming market leaders. Students will gain the confidence and necessary skills to be competitive.

9.278 Variable continuing education units Insurance Agent Continuing Education

Focuses on various topics that meet the continuing education requirements for insurance agents. Prerequisite: Each participant must be an insurance agent.

9.350 4 continuing education credits Wildland Continuing Education

Covers a variety of topics including wildland firefighting, urban interface fire protection, and emergency scene management. Content is designed to meet National Wildfire Coordinating Group, National Incident Management System, and/or National Fire Protection Association standards specific to the coursework. Also includes continuing education and refresher training.

9.411 1.6 continuing education units Wilderness First Aid

In collaboration with Wilderness Medicine Institute and The Siskiyou Field Institute, teaches recognition, treatment principles, decision-making skills, and prevention of wilderness emergencies. Covers wilderness medicine topics for people 16 and older who travel and work in the outdoors. Certification is valid for two years.

9.412 3 continuing education units Ensuring Quality Care - Adult Foster Care Provider Training

Covers state rules and regulations for becoming an adult foster care provider. Anyone planning to own an adult foster home (AFH) or work in one as the resident care manager is required to attend and pass this class. This training is also valuable, but not required, if you are only a regular employee in an adult foster home. Course is graded on a pass/no pass basis.

9.414 8 continuing education units Wilderness First Aid Responder

Wilderness first responder training focuses on teaching students to assess situations, improvise solutions using available resources to stabilize patients, and identify the best way to get patients to definitive medical treatment from remote locations.

9.420 variable continuing education units EMT Continuing Education

Provides continuing medical education and/or remediation to licensed EMS providers as is sometimes required by the National Registry of EMTs (NREMT). The course is based on the EMS provider continuing education requirements as specified in OAR 333-265 and NREMT recertification guidelines. Additional topics relevant to practice as an EMS provider in the state of Oregon will be covered when appropriate.

9.422 12 continuing education units Community Health Worker

Approved by the Oregon Health Authority, prepares students to be certified as community health workers in Oregon. Provides training in front-line public health care with an

understanding and connection to the communities served. Also provides training in facilitating patient access to health and social services and to improve the quality and cultural competence of service delivery. Trains students to provide culturally appropriate health education and information, assist people in receiving the care they need, give informal counseling and guidance on health behaviors, advocate for individuals and community health needs, and provide some direct services such as first aid and blood pressure screening. Course graded on a pass/no pass basis.

9.423 5.6 continuing education units Peer Support Specialist

Provides support, encouragement, and assistance to mental health consumers by promoting activities that foster recovery and empowerment. Students become consumer advocates who facilitate linkage to needed services and activities; provides expertise and consultation to the team to promote a culture in which consumer's preferences are recognized, respected, and integrated into treatment; and demonstrates personal experience with the mental health recovery process, through receiving treatment either for themselves or assisting a close household/family member. Course graded on a pass/no pass basis. Prerequisites: Self-identified individuals currently or formerly receiving mental health services, are at least 18 years of age, and not listed on the Medicaid provider exclusion list.

9.425 1 continuing education unit Mental Health First Aid

Introduces mental health and social service workers to risk factors and warning signs of mental illnesses, builds understanding of their impacts, and addresses an overview of common support possibilities. Like in CPR, the course prepares participants to interact with people in crisis and connect them to help. Discussion topics, exercises, and other activities keep students engaged in the course and provide an opportunity to practice helping skills as a mental health first aider.

9.428 1.1 continuing education units Introduction to Basic ECG Interpretation

Focuses on a basic introduction and understanding of electrocardiograms (ECGs). Covers information needed to interpret ECGs including anatomy and physiology of the human heart and how it relates to the ECG. Students will also learn basic electrophysiology and how to interpret sinus rhythms and ventricular rhythms. This course will periodically discuss patient conditions related to an electrocardiogram and make suggestions towards the treatment of those patients. Information from this course introduces the participant to basic understanding of ECG interpretation.

9.434 1.6 continuing education units Pediatric Advanced Life Support (PALS)

Uses a systematic approach to quickly assess, identify the underlying cause, and treat pediatric patients in emergency situations. Students interact with real pediatric patient cases, realistic simulations, and animations to assess and treat pediatric patients. This includes applying basic life support, following PALS treatment algorithms, and practicing effective resuscitation skills and team dynamics. This American Heart Association (AHA) course is for healthcare providers who either direct or participate in the management of respiratory and/or cardiovascular emergencies and cardiopulmonary arrest in pediatric patients. Offered as Provider, Recertification and Instructor courses. Upon successful completion of the written and practical portions of the course, students will receive an American Heart Association's Pediatric Advanced Life Support® card.

9.435 1.6 continuing education units Advanced Cardiac Life Support (ACLS)

Addresses the core knowledge necessary to evaluate and manage an adult victim of a cardiovascular emergency or cardiac arrest. This advanced, instructor-led classroom course highlights the importance of team dynamics and communication, systems of care, and immediate post-cardiac arrest care. Skills are taught in large group sessions and small group learning and testing stations where case-based scenarios are presented. Offered as Provider, Recertification and Instructor courses. A valid AHA BLS Provider card is required. Not required, but recommended for success in the class are a good understanding of ECG interpretation and emergency cardiac pharmacology.

9.437 .5 continuing education credits CPR/First Aid/AED

A classroom, video-based course that teaches students critical skills needed to respond to and manage a first aid, choking or sudden cardiac arrest emergency in the first few minutes until emergency medical services (EMS) arrives. Students learn skills such as how to treat bleeding, sprains, broken bones, shock and other first aid emergencies. Upon successful completion of the written and practical portions of the course, students will receive an American Heart Association's (AHA) Emergency First Aid Heartsaver® card. This course is specifically for employees who require this type of certification in the workplace.

9.438 .5 continuing education units CPR Basic Life Support

Offers a basic life support plan for emergency care of cardiac victims until Emergency Medical Systems (EMS) take responsibility for the victim. This is a Basic Life Support (BLS) Provider and Instructor course designed to help students recognize the signs and symptoms of a heart attack and cardiac arrest that pose a threat to life. Using techniques that emphasize the importance of the "CABs," students are taught assessment skills that allow evaluation of Compressions, Airway management, and assisted Breathing techniques using one- and two-rescuer strategies on adults, children and infants (excluding the newly born), airway obstruction relief, as well as how to appropriately use an Automated External Defibrillator (AED). Course is taught at the Provider level through the American Heart Association (AHA) and results in a CPR, Basic Life Support Provider card upon successful completion.

9.439 .3 continuing education units CPR Basic Life Support - Recertification

This course is for current BLS Provider card holders who want to recertify. Presents lecture and manikin practice in the principles of giving one- and two-person adult, child, and infant cardiopulmonary resuscitation; airway obstruction; and AED use. Successful completion leads to a Basic Life Support (BLS) Provider card recertification.

9.450 Variable continuing education units Massage Therapy Continuing Education

Designed to provide continuing education hours in the areas related to the practice of massage and bodywork. Prerequisites: Must be a licensed massage therapist in Oregon.

9.457 1 continuing education unit Medical Assistant Skill-up

Prepares current medical assistants for the Certified Clinical Medical Assistant (CCMA) certification through the National

Health Careers (NHA) Examination, which meets “meaningful use” compliance for clinics and physicians who treat Medicare patients. The course consists of lecture, critical thinking activities, online practice exams, videos and role playing, and practice of skills and procedures as outlined in the exam content on the NHA website. Topics include review of administrative front office skills, EHR, anatomy and physiology, ethics and medical law, clinical and back office procedures, phlebotomy, lab processing, communication skills and medical terminology. Also included are EKG, medication, pharmacology and general patient care. Students will be provided with electronic study materials as well as a packet of skills and procedures.

9.460 2 continuing education units Advanced Health Care Topics

Focuses on a variety of topics dealing with advanced health care issues.

9.461 .6 continuing education units Expanded Functions Dental Assistant (EFDA) - Sealants

Prepares certified dental assistants with expanded functions (in Oregon) to place pit and fissure sealants while under the indirect supervision of a dentist.

9.464 1.6 continuing education units Dental Training Update

Provides continuing education hours in the areas related to the practice of dentistry.

9.466 2 continuing education units Expanded Duties Dental Assisting

Prepares students for the written portion of the Dental Assisting National Board's (DANB) exam in expanded functions for the chairside dental assistant (EFDA). Expanded functions are determined by the Oregon Board of Dentistry, and may change without prior notice. The class is designed to prepare students in the following sections: placing matrix bands; polishing amalgam fillings; cement removal; taking impressions; coronal polishing; and fabricating temporary crowns.

9.466A 3 continuing education units Expanded Functions Dental Assisting Lab

Optional lab for working dental assistants. Prepares students for the written portion of the Dental Assisting National Board's (DANB) exam in expanded functions for the chairside dental assistant (EFDA). Expanded functions are determined by the Oregon Board of Dentistry, and may change without prior notice. The class is designed to prepare students in the following sections: placing matrix bands; polishing amalgam fillings; cement removal; taking impressions; coronal polishing; and fabricating temporary crowns.

9.467 4.4 continuing education units Dental Radiology

Prepares students for two Dental Assistant National Board (DANB) exams: the written Radiation Health and Safety Exam and the Clinical Exam in Radiologic Proficiency. Successful completion of both exams earns the student a certificate in Radiologic Proficiency from the state of Oregon, which legally allows the student to expose radiographs. Successful completion of both exams also fulfills one of DANB's three CDA components.

9.467A 4 continuing education units Dental Radiology Clinical Lab

Prepares students for the Dental Assisting National Board's (DANB) Clinical Exam in Radiologic Proficiency. Successful completion of this exam is one of two requirements for a

student to earn a certificate in Radiologic Proficiency from the state of Oregon, which legally allows the student to expose radiographs. Successful completion of both radiology requirements also fulfills one of DANB's three CDA components.

9.468 2 continuing education units Infection Control

Prepares students for DANB's Infection Control exam, a component of the CDA exam. Includes the following sections: patient and worker education, prevention of cross contamination, maintain aseptic conditions, perform sterilization procedures, environmental asepsis and occupational safety.

9.469 3 continuing education units Chair-side Assisting

Prepares students for Dental Assistant National Board (DANB) exams, state certification through the Oregon Basic exam and/or national certification through the General Chair-side exam (check with DANB to confirm eligibility requirements). Includes collection and recording of clinical data; chair-side dental procedures; oral anatomy; chair-side dental materials (preparation, manipulation, application); lab materials and procedures; patient education and oral health management; infection control procedures; occupation safety; legal issues; prevention and management of emergencies; and office management procedures.

9.501 .8 continuing education units Leadership for Small Business Owners and Managers

Introduces high-impact leadership for small business owners and managers. Reintroduces the mission, vision, and goals of their enterprises to owners and managers, and encourages them to take their enterprises to new heights in performance excellence. Prerequisites: Employed as business and industry owners and managers.

9.509 .6 continuing education units Introduction to Conflict Management

Increases skill in managing responses to conflict in an organization to increase effectiveness as a business owner and supervisor. Explores the primary conflict situations and strategies and how each impact a successful supervisor. Prerequisite: Manager and staff supervisor experience is preferred.

9.510 1.6 continuing education units Continuous Process Improvement

Provides participants with information and practice in process management and improvement using a comprehensive simulation for practicing the quality tools of CPI. Prerequisite: Completion of Foundations of Quality Training will be helpful.

9.512 .8 continuing education units Train the Trainer

Designed for individuals who are considering becoming independent instructors in the field of customized training to meet the information and technology growth that is overtaking business and industry. Includes entry-level, specialized, technical, and tailored training. Presents specific tips, techniques, and approaches to establish better employee/student training and develop excellent instructional courses. Prerequisite: Desire to provide technical instruction for fellow employees or students.

9.513 2.4 continuing education units Managing People

Focuses on effectively working with employees. Through discussions, exercises, and self examinations, managers will learn to increase efficiency and productivity through thinking strategically, communicating effectively, motivating staff, working as a team, evaluating employees, setting goals, adapting to change, coping with stress, and delegating.

9.518 1.2 continuing education units Call Center Training

Teaches call center managers, front-line staff and supervisors, training specialists, and quality monitoring/assurance specialists the components needed for developing a quality assurance program and tools.

9.520 2.4 continuing education units Leadership Skills for Managers

Focuses on understanding what motivates people and the principles of planning, management, and communication. Students develop a consistent, personal style of leadership that fits them and their work environments. This course helps students identify personal and managerial strengths and use them to hone their leadership abilities, increase productivity by using personal influence and one-on-one motivational techniques, develop practical strategies that encourage innovation and creativity, and adopt a leadership style that is consonant with the student and their company.

9.526 2.4 continuing education units Human Resources Essentials: Safe Hiring, Managing and Firing Practices

Studies the legal requirements and best practices of effective management. The course focuses on the laws that govern hiring employees and independent contractors including managing, developing policy and procedure manuals, and firing decisions so students learn to make safe, effective business decisions for themselves and their companies.

9.528 1.2 continuing education units Project Management

Provides the essential basics of project management including framework, planning, and execution of projects covering all scopes and types of projects independent of software.

9.549 2.4 continuing education units Fundamentals of Finance and Accounting

Applies basic bookkeeping and payroll procedures in the business or professional environment. Students will be able to understand and use financial statements such as profit and loss statements, cash flow and balance sheets.

9.570 .9 continuing education units Business Survival - Job Costing and Managing Expenses

Provides business owners and managers with training to allow them to profitably bid and estimate products and services by taking all costs into consideration. Includes study in marketing, presentation, preparation, closing and follow up.

9.629 1.2 continuing education units Water Treatment, Collection, and Distribution Training

Provides water treatment, collection, and distribution training for water treatment employees preparing for state licensure or license holders fulfilling continuing education requirements. Topics are presented in seminar formats throughout the year.

9.632 1.2 continuing education units Crystal Reports

Covers basic- and advanced-level skills in Crystal Reports such as creating, viewing, saving and modifying reports, absolute and conditional formatting, sort and select records, grouping, summarizing, formulas and functions, using experts and wizards, and exporting and distributing reports.

9.710 .9 continuing education units Microsoft Access

Focuses on how to use the data base features in Microsoft

Access within the Windows environment. Topics include how to create, use, and maintain a data base, creating and changing the structure, search conditions on records, and adding/deleting records. Prerequisites: Employment by a public agency or private business, or membership in a professional organization requiring continuing education units (CEUs) for skill enhancement.

9.722 .4 continuing education units Smartphones for Your Business

Covers the diverse functionality of smartphones (both Android and iPhone). Business owners can be more efficient and effective by learning step-by-step guidelines to create connections to email, Facebook, order systems and customer information. Smartphone cameras can document and share information instantly from scope of work and bids or estimates to job progress, completion and billing.

9.723 .8 continuing education units Internet and Email Essentials for Business Owners

Introduces business owners to security guidelines, changing a homepage, using search engines, and downloading and printing information. Students will be introduced to common email application functions and features.

9.725 1 continuing education units Adobe Acrobat Standard

Teaches business professionals to reliably create, combine, and control Adobe PDF documents for easy, more secure distribution and collaboration.

9.729 1.2 continuing education units PowerPoint Presentation

Introduces the use of PowerPoint to create and enhance presentations. Prerequisites: Employment by a public agency, private business, or membership in a professional organization requiring continuing education units (CEUs) for skill enhancement.

9.732 .8 continuing education units Computer Essentials for Business Owners

Includes hands-on introduction to the computer environment in which participants will learn the essential skills for using a computer. There will be instruction and exercises in performing routine tasks using common keyboard and mouse functions. This course is intended for business clients who are new to computers and/or have limited experience. Topics will be presented and discussed in relatively non-technical terms.

9.736 3.0 continuing education units Quickbooks

Covers beginning, intermediate and advanced functions in the QuickBooks accounting system. Covers setting up sales and accounts receivables, bank deposits, inventory, labor charges, invoicing, statements, purchasing, accounts payable, bank reconciliations, customized reports, payroll, and advanced financial reporting.

9.741 1.6 continuing education units Microsoft Excel

Covers all features and levels of Microsoft Excel.

9.742 2.4 continuing education units Microsoft Word

Covers all features and levels of Microsoft Word in the Windows environment.

9.745 1.6 continuing education units Clerical Skills Update

Students will be able to construct sentences using proper gram-

mar and punctuation; use appropriate abbreviations and symbols; clarify words often confused and misused; use effective proofreading and editing techniques; ensure appropriate formatting; construct professional business letters, memorandums and other office communications; and distinguish between different forms of address. Prerequisites: Employment in a clerical position requiring skill enhancement.

9.746 1.2 continuing education units Business Management Tools with Excel

Covers business management features and functions of Microsoft Excel. This course will introduce business owners, managers, and entrepreneurs to the capabilities and features of Excel that enable the management, analysis, and presentation of financial, sales, marketing, and production business information.

9.807 1.2 continuing education units Pesticide Applicator Training

Covers the basics of pesticide applications and prepares students to pass the pesticide applicator test. Prerequisite: Students employed in a field requiring pesticide applicator licensure to perform job description.

9.826 1.2 continuing education units Wine Grape Horticulture

Provides valuable information to grape producers on subjects that include irrigation, soil nutrition, vine physiology, vineyard management, vineyard site selection, introduction to wines, wine marketing, business planning, and viticulture practices.

9.827 1.8 continuing education units Forest and Natural Resource Management

Teaches a variety of skills to forestland owners, forestry contractors, natural resource professionals, and small acreage owners to help protect, manage, or simply promote the ecology of local trees and forests.

9.829 1.8 continuing education units Horticultural Cottage Industry

Focuses on marketing skills, ways to increase production and management of crops, and cost effective and efficient skills needed for those in various horticultural cottage industries.

9.834 2.0 continuing education units Agriculture Update

Explores the various techniques to improve management of crops and livestock for professional farmers and ranchers.

9.835 1.6 continuing education units Landscape Technology Update

Updates current field practices for individuals working in landscape maintenance, architecture design or other contracting trades.

9.844 .9 continuing education units Ornamental Pruning

Covers various styles and techniques of ornamental pruning and planting of trees and shrubs. Thinning, heading back, hedging, espalier, topiary, bonsai, pollarding, and other styles will be demonstrated. Hands-on practice will be included in garden and greenhouse settings utilizing specialized tools and materials.

9.845 .9 continuing education units Vegetative Propagation

Covers techniques used by professional growers to obtain plants by methods other than seeding. These include cuttings, divisions, and layering.

WRITING

Lower Division Transfer Courses (except where noted)

WR90 4 credits

Fundamentals of Composition

Introduces the basic five-paragraph essay form while reinforcing sentence skills and paragraph development. Critical thinking and reading are emphasized. Prepares students for transfer-level coursework and, specifically, for WR115. If a high proficiency is demonstrated with in-class writing and student self-identifies as challenging WR115, there is a process that allows students to meet the outcomes for WR115 and be eligible to enroll in WR121. When taken with RD90, course equivalent to WR91. Course is graded on a pass/no pass basis. Previously offered as WR30. Prerequisite: Designated placement test score as shown on current indicator chart. Course does not transfer.

WR91 5 credits

Fundamentals of Academic Literacy

Combines reading and writing requirements in order to accelerate progress and prepare students for transfer-level coursework and, specifically, for WR121. If a student in this course demonstrates a high proficiency with in-class writing and meets the course learning outcomes, the student may be able to register for WR121 (waiving WR115 placement). Each student is required to attend a lab session two hours a week. An embedded tutor will provide additional support during class and lab sessions. Course equivalent to RD90 and WR90, and graded on a pass/no pass basis. Course does not transfer.

WR110 2 credits

Understanding English Grammar

Explores the structures of the English language and applies skills gained to proof and edit college-level writing. Students will be able to make conscious choices of grammatical formats to express themselves clearly and to minimize grammar errors in their own papers. Previously offered as WR185. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores.

WR115 3 credits

Introduction to Expository Writing

Reviews the basic conventions, purposes, and strategies of college-level writing with an emphasis on in-class writing. Course will survey a variety of rhetorical modes and prepare students for impromptu questions and essays. Prerequisites: RD30 or RD90 and WR30 or WR90, or designated placement test scores.

WR121 4 credits

English Composition I

Covers a range of rhetorical situations and genres of writing, centering on argument. Students learn to read and analyze others' writing and then respond with their own views, showing an awareness of their purpose and audience. The class culminates in a short argumentative research paper. Prerequisites: RD30 or RD90 and WR115, or designated placement test scores.

WR122 4 credits

English Composition II

Focuses on scholarly investigation and the proper use of sources and documentation. Major emphasis is on writing research papers that are acceptable by APA standards. Prerequisites: WR121 or equivalent; BA131, CS120 or above, or a passing score on the computer proficiency exam strongly recommended.

**WR199 Variable credit
Special Studies: Writing**

Explores special topics in writing including novel and journal writing as well as discipline-specific discourse conventions and professional preparedness.

**WR227 4 credits
Technical Writing**

Designed for students planning to enter professions that require knowledge of researching and organizing data and presenting professionally written reports and documents with worthwhile content, sensible organization, readable style, use of visuals/graphics, and appropriate form. Reports will use American Psychological Association (APA) format. Face-to-face classes require formal oral presentations. Course also fulfills transfer needs for students whose four-year transfer institution requires instruction in technically written and formatted documents. Class is writing intensive and requires extensive time in research and writing outside of class. Computer application of skills is expected. Prerequisites: BA131 or CS120 and BT114 or WR121; public speaking ability is an asset; CS125WW and graphics ability or desktop publishing skills strongly recommended.

**WR241 4 credits
Imaginative Writing I**

Offers students opportunities to express themselves through literary mediums. Students study models of short stories, poetry, personal memoirs, and do original work in each of these genres. Includes analysis and discussion of students' work. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently).

**WR242 4 credits
Imaginative Writing II**

Offers students opportunities to express themselves through literary mediums. Students study models of short stories, poetry, personal memoirs, and do original work in each of these genres. Includes analysis and discussion of students' work. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently).

**WR243 4 credits
Imaginative Writing III**

Offers students opportunities to express themselves through literary mediums. Students study models of short stories, poetry, personal memoirs, and do original work in each of these genres. Includes analysis and discussion of students' work. Prerequisites: RD30, RD90, or designated placement test score; WR121 (may be taken concurrently).

Emeriti

The RCC Board of Education may grant president, vice president, dean or faculty emeritus status to retiring employees. Emeritus status is reserved to honor individual(s), at retirement, who have provided outstanding and distinguished service to the College, which means work that exceeds average, satisfactory performance in carrying out the routine responsibilities of his/her appointment and demonstrates an extraordinary impact on the College or the community.

The nomination process includes a nomination letter from the president or Board Chair before June 30th of the employee's retirement year. Nonetheless, the title of emeritus may be awarded posthumously. The recommendation must be approved by a majority of the Board.

Dr. Peter Angstadt,
president emeritus

Laura Ault,
faculty emeritus, Business Technology

D. Thomas Bradbeer,
dean emeritus, Human Resources and College Advancement

Jerry Bryan,
faculty emeritus, Humanities

Leslie Bryan,
faculty emeritus, Adult Basic Education

Kathleen A. Burkey,
dean emeritus, Redwood Campus

Pedro Cabrera,
faculty emeritus, Respiratory Care

Sue Calkins,
faculty emeritus, Adult Basic Education

Dr. Galyn Carlile,
dean emeritus, Instruction/Growth Initiatives

Carolyn Chancler,
faculty emeritus, Adult Basic Education

Rex Chapman,
faculty emeritus, Business and Office Technology

Margaret Cunningham,
faculty emeritus, Academic Skills

Jeannette Cappella,
faculty emeritus, Language Arts

Steven Flannery,
faculty emeritus, Academic Skills

Dr. David Fuller,
faculty emeritus, Science

Gary Gates,
faculty emeritus, Science

Francine Gentile,
faculty emeritus, Social Science/Human Services

Linda Goodyear-Stevenson,
faculty emeritus, Developmental Studies and Humanities

Sue Hall,
faculty emeritus, Nursing

Roger Harding,
faculty emeritus, Small Business Management

Richard Harms,
faculty emeritus, Developmental Studies

Cynthia Hauser,
associate dean emeritus, Instruction

Dorcas Herr,
faculty emeritus, Language Arts

Dick Holliday,
faculty emeritus, Mathematics

Marilyn "Jeanne" Howell,
associate dean emeritus, Instructional Services

Robert Hutsell,
faculty emeritus, JOBS Program

Charlotte Hutt,
faculty emeritus, Mathematics

Dr. Terrance Johnson,
faculty emeritus, Science

Barbara "Bobbi" Kidder,
faculty emeritus, Humanities

Dennis Kimzey,
faculty emeritus, Mathematics

Lutz Kramer,
faculty emeritus, Humanities

Patti Kramer,
faculty emeritus, Academic Skills; High School Outreach coordinator

Dr. Kathy Krauss,
faculty emeritus, Humanities

Michael Laam,
associate dean emeritus, Instruction

B.C. Lamb,
faculty emeritus, Business Technology

Rick Levine,
president emeritus

John Lopez,
associate dean emeritus, Instruction

Cheryl Markwell,
vice president emeritus, Instruction

Greg Marton,
faculty emeritus, Social Science

Larry McLane,
faculty emeritus, Motorcycle Technology

Marion Miller,
faculty emeritus, Business and Office Technology

Tom Miller,
faculty emeritus, Library

Billie Miracle,
faculty emeritus, Art

Eleanor Marie Saunders Mueller,
faculty emeritus, Business Technology/ Social Science/History

Larry Mullaly,
director emeritus, Operations and Special Projects

Robert Murphy,
faculty emeritus, Social Science

Dr. Harold O'Connors,
faculty emeritus, Respiratory Care; coordinator, Academic Research and Assessment

Sue Orris,
faculty emeritus, Counseling

Mollie Owens,
faculty emeritus, Humanities

Walt Padgett,
faculty emeritus, Art

Bonnie Reeg,
faculty emeritus, Disability Services/Tutoring Center/Academic Skills

Linda Renfro,
dean emeritus, Instruction

John Salinas,
faculty emeritus, Science

Sylvia Thomas,
faculty emeritus, Counseling

Greig Thomson,
faculty emeritus, Human Services/Social Science

Laurie Van Riper,
faculty emeritus, Adult Basic Education
